An acarid (Erythraeidae) parasite of Jassids (Homoptera, Auchenorrhyncha). 5249

Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts. 5250

Evaluation of some parameters of the individual energy budget of the larvae of Pteromalus puparum (L.) (Pteromalidae) and Pimpla instigator (Fabr.) (Ichneumonidae). 5264

Evolutionary trends in Heteroptera. Part I Eggs. architecture of the shell, gross embryology and eclosion. 5267

Two major effects of the corpus allatum in the adult Colorado beetle (Leptinotarsa decemlineata Say). 5281

Biologically active compounds in orchid fragrances. 5290

Observations on the biology and behavior of Cicindela hybrida L. and Cicindela campestris L. and experimental analysis of their behavior. 5300

On the reproductive biology of Chironomus nuditarsis Str,. 5306

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan; June 1961-June 1966. Part I. Scale insects. 5323

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan. June 1961 - June 1969. Part II. Fruit flies. 5324

Field studies of an attractant in the male boll weevil. 5338

Observations on two species of Culex of the subgenus Melanoconion. 5349

Chemosterilization of the two-spotted spider mite. I. Effect of chemosterilants on the biology of the mite. II. Histopathological effect of apholate and 5-fluorouracil on the reproductive organs. 5390

Observations on various treatments applied in Lebanon in 1966 against Ceratitis capitata Wied. 5392

Biosystematics of Phytoseiulus persimilis AthiasHenriot (Acarina: Phytoseiidae). 5407

Action of proteinic brain hormone to the prothoracic gland in an insect, Bombyx mori L. (Lepidoptera: Bombycidae). 5412

Life history and life table of Tetranychus urticae Koch. 5428

Breeding Lysandra coridon ab. syngrapha. 5445

The biology and control of the Ceanothus stem-gall moth, Periploca ceanothiella (Cosens). 5446

Polynema striaticorne Girault (Hymenoptera: Mymaridae), a parasite of the buffalo treehopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in Quebec. 5465

The relation between temperature and lethal action of carbaryl on adults on the housefly and the oriental housefly (Diptera: Muscidae). 5490

The larval and imaginal oenocytes of Callosobruchus maculatus (Fabricius) (Coleoptera: Bruchidae). 5512

The evolution and biological significance of multiple pairing in Lepidoptera. 5519

The biology of Scrapter and its cuckoo bee, Pseudodichrda (Hymenoptera: Colletidae and Anthrophoridae). 5570

Physiological studies on the digestion of coccinellid beetles (Coleoptera: Coccinellidae), with special reference to their food habits. 5579

Occurrence of antimicrobial substance in the exudate of physogastric queen termite Termes repemanni Wasmann. 5582

Changes in the content of fixed amino acids in tissues of silk worm during development. 5592

Life-history and biology of Tabanus rubidus. 5610

Collecting method and preliminary analysis of the soluble salivary secretions of the planthoppers. 5618

Insecticidal and acaricidal effect of some binary mixtures. 5627

Dose rate effect of radiation on spermatogonia of the silkworm. 5635

Biological observations on Aegeria apiformis Cl. 5642

On the biology and ecology of the opilionid Mitopus morio F.. 5644

Biology of Dufourea and of its cleptoparasite, Neopasites (Hymenoptera: Apoidea). 5646

Development course of northern cattle grub, Hypoderma bovis, male reproductive cells. 5666

Determining suitable wintering and hatching regimes of the eggs of the silk worm (Bombyx mori L.).
5687

Studies on the mechanism of DDT-RESISTANCE in Culex pipiens fatigans.
5713

Genetics of resistance to tedion in Tetranychus urticae C. L. Koch.
5731

A possible role of blood-sucking mosquitoes in spread of arbovirus infection in the area of the Zaisan Lake.
5747

The biology, ecology and control of Vanapa obcrthuri Pouill. Coleoptera; Curculionidae in hoop pine Araucaria plantations in New Guinea.
6152

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia.
6174

Gypsy moth (Ocneria dispar) control in the roadside plantations. Transl. 17032.
6209

Capsid bugs on fruit.
6225

The principle insect pests of beets and the means of their control in turkey.
6234

Bionomics of Drosicha mangifcrae (Green) on citrus including new record of its three natural enemies.
6246

Contribution to the knowledge of Microlepidoptera on oaks in Israel.
6258

Generalities on the white potato grub Premnotrypes vorax (Hustache).
6282

Immature stages of Curculionidae. 1. Some genera in the tribe Araucariini (Cossoninae).
7506

Remarks on some dipteran insects of the genus Omphrale Meigen (Diptera: Scenopinidae).
7541

Habitat and distribution of Mecoptera in East Tennessee.
7588

Investigation into the population fluctuations of Oscinella frit L..
7651

The Second International Symposium of Chironomid Research, Helsinki 1967.
7669

Bagworm photographs: Eggs, larvae, pupae, and adults of Thyridopteryx ephemeraeformis (Psychidae: Lepidoptera).
7674

Life history and habits of the dogwood borer, Thamnosphecia scitula (Lepidoptera: Aegeriidae) in Tennessee.
7678

Biology of the European chafer, Amphimallon majalis (Coleoptera: Scarabaeidae) in Northeastern United States.
7709

Mealybugs.
7819

New pests of sugarcane in Mexico (Sacchardsydne saccharivora Westw.).
7822

An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects.
7835

Basic premises of a theory of the protection of plants against pests.
7836

The cotton leaf weevil, Bucculatrix thurberiella Busck. The history, habits, biology and methods of control.
7839

INSECT BREEDING

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina).
1461

The influence of selection and mating systems on larval weight in Tribolium.
1524

Why is the Navy concerned with weed control.
1636

Sex and selection for a quantitative character in Drosophila. I. Single-sex selection.
2076

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism.
2077

Effectiveness of regular cycles of intermittent artificial selection for a quantitative character in Drosophila melanogaster.
2087

A boll weevil oviposition suppression factor in cotton.
2208

Selection of phase types based on hopper coloration in Locustana pardalina (Walker).
2624

Experiences with the house fly, sterilized by X rays.
2649

Influence of medium and stock on the role of natural irradiation on Drosophila melanogaster.
2677

Studies on the scutellar bristles of Drosophila melanogaster. I. Basic variability, some temperature and culture effects, and responses to short-term selection in the Oregon-RC strain.
2681

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism.
3329

Sex and selection for a quantitative character in Drosophila. I. Single-sex selection.
3330

Effectiveness of regular cycles of intermittent artifical selection for a quantitative character in Drosophila melanogaster.
3335

Attack activity of two species of gnats in southern California.
4490

Response of some stored-product insects to Trogoderma granarium pheromones.
4625

Transdetermination in cells.
4637

Cytological studies of Antipodean Teleogryllus species and their hybrids (Orthoptera: Gryllidae).
4641

Unstable multilunar modifying genes in the silkworm, Bombyx mori. III.
4646

Leptoconops irritans Noe' in the province of Grosseto: Control problems.
5226

Co-resistance and resistance inheritance in a dieldrin resistant laboratory stock of the clothes moth (Tineola bisselliella (Hum.), Lep.).
5423

Nest architecture and brood development in a neotropical bumblebee, Bombus atratus.
5578

Determining suitable wintering and hatching regimes of the eggs of the silk worm (Bombyx mori L.).
5687

INSECT CAGES

The establishment of a laboratory colony of the tomato hornworm Protoparce quinquemaculata Haw. (Lepidoptera: Sphingidae).
764

The spermatophore of Tetrix Latreille (Orthoptera: Tetrigidae).
783

A new technique for the recovery of spider venom.
1259

A technique for studying the feeding habits of the horn fly.
1860

Hints on the permanent rearing of Dacus oleae Gmelin (Diptera, Tyrpetidae)in the laboratory.
1938

Biological factors influencing responses of the female boll weevil to the male sex pheromone in field and large-cage tests.
1978

Laboratory rearing of aphids.
2019

Inundative releases of Chrysopa carnea for control of Heliothis on cotton.
2231

Development of the bait principle for boll-weevil control. III. Field-cage tests with a feeding stimulant and the protozoans Mattesia grandis (Neogregarinida) and a microsporidian.
3245

Notes on the biology and rearing of Anaphes ovijentatus, a new parasite of Lygus hesperus in Arizona.
3286

Choice of resting site by Noctuidae (Lepidoptera).
4352

Notes on insect and gastropode damage to enclosed cotton plantations.
4671

Mosquito pollination of Habenaria obtusata (Orchidaceae).
4675

A falling cage for sampling tsetse flies (Glossina; Diptera).
4974

Inflated plastic bags as cages for insects on potted plants.
5212

Substances that attract caged honeybee colonies to consume pollen supplements and substitutes.
5565

Equipment for the experimental feeding of sandflies.
7567

INSECT COLLECTING EQUIPMENT

Butterflies, collecting and rearing.
93

On the collection and preparation of bird- and mammal parasites (mallophaga).
1202

Possibilities and limitations in the use of Barber traps on river shores.
1204

The collection of biting flies in west Texas with Malaise and animal-baited traps.
1383

The mosquito concentrator.
1434

Analysis of comparative effects of selected CO2 flow rates on mosquitoes using CDC light traps.
1530

Behavioral and physiological aspects of mating and oviposition by the adult western corn rootworm, Diabrotica virgifera LeConte.
1936

Attraction of female boll weevils to traps baited with males or extracts of males.
1945

Biological factors influencing responses of the female boll weevil to the male sex pheromone in field and large-cage tests.
1978

Field and laboratory studies of attraction of the synthetic sex pheromone to male cabbage looper moths.
1986

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh.
2037

Hourly and seasonal collections of six harmful insects in traps equipped with blacklight lamps. 2056
Physiological bases for the luring and catching of insects. 2069
Influence of the form of traps upon the attractiveness of sexual odour of gypsy moth females. 2472
Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea. 2613
Methods for the determination of population dynamics in orchards. (Including sampling and collection). 2657
Collecting methods for Tabanidae (Diptera). 3084
Studies on the eradication of Anopheles pharoensis by the sterile-male technique using Cobalt-60. VII. Population dynamics of mosquitoes in Fayoum Area, UAR. 3143
Response of adult southern potato wireworms to light traps. 3184
Aphid trapping. 3289
Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413
Attack activity of two species of gnats in southern California. 4490
Notes on methods for the extraction of small soil arthropods by the high gradient apparatus. 4552
A carbon dioxide bait trap for collecting ticks and fleas from animal burrows. 4972
A falling cage for sampling tsetse flies (Glossina; Diptera). 4974
Mites collected from Douglas-fir foliage in Montana. 5030
Procedures and materials perfected for the rearing and collection of homopterans (Aphididae and Jassidae) during virus transmission studies. 5313
Effect of cultivation on emergence of eye gnats (Hippelates spp.) in South Carolina. 5320
Transmission experiments on the tungro virus in Thailand. 5429
The beetles (Coleoptera) of Babia Gora Mountain (Polish Western Carpathians). 5518
Two methods of operating a vacuum sampler to sample populations of the cotton fleahopper on wild hosts. 5559
Rating various detection methods for Ixodes ricinus. 7577

INSECT COLLECTION
Entomological tour of Spain. 653
On the collection and preparation of bird- and mammal parasites (mallophaga). 1202
Notes on some insects collected in Austria. 1245
A biocenological investigation of salt marshes on the south coast of the isle of Terschelling. 1265
Softening of Coleoptera. 1380
Methods used in Utah for sampling Tabanid populations. 1423
New longicorns of the Museum of Natural History at Geneva. 1872
Heteroptera catch from the island of Crete. 1886
Some remarks concerning sphinx moths catches on the island of Sumatra. Supplementary information concerning the knowledge of sphinx moths (II) (Lep. Sphingidae). 1887
Aquatic insect fauna of Brownsea Island and the Isle of Purbeck, Dorset. 1911
Flight and ground collection records of Costelytra zealandica (White) at a site in Canterbury, New Zealand. 1996
Effect of temperature, light, and date of collection on the feeding rate of the sweetclover weevil. 2209
New trapping and recording methods for investigations into the migration phenomenon of virus-transmitting insects. 2583
Studies on the Byron Bog in southwestern Ontario XXXIII. Distribution of Dytiscidae and Hydrophilidae (Coleoptera) in the bog. 2592
The entomological year 1966. 4351
On a collection of termites from Daman. 4369
New contributions to the study of chalcids in the Socialist Republic of Rumania (XIV). 5234

INSECT COLONIZATION
Laboratory colonization of Trichoprosopon digitatum (Rondani) (Diptera: Culicidae). 1350
Studies on free colonies of Cryptocercus texanus Santschi (Hymenoptera: Formicidae). 1378
Colonization of Culex salinarius in the laboratory. 1489

INSECT COLOR
Selection of phase types based on hopper coloration in Locustana pardalina (Walker). 2624
Reproductive isolation between two closely related species of the Queensland fruit fly, Dacus tryoni (Frogg.) and D. neohumeralis Hardy (Diptera: Tephritidae). II. Genetic variation in humeral callus pattern in each species as compared with laboratory-bred hybrids. 2684
Absorption measurements on butterflies of the genus Zygaena Fab. (Lep.) as an explanation of the litoral melanism. 3173
The effects of methylfarnesoatdihydrochloride on the colour change and moulting behaviour in the larvae of Cerura vinula L. (Lepidoptera). 7618

INSECT CONTROL
Controlling soil insects with parathion-pentachlorophenol compositions. Patent 3,408,442. 78
The protection of dried sea-fish from infestation by Dermestes frischii Kug. 96
Fly enemies...your allies. 117
Problems of public health and medical entomology. 186
Changes in the growth-regulator content of plum infested with fruit tree red spider mite, Panonychus ulmi (Koch). 267
A fruit pest is being sterilized. 272
Insect control on golf greens. 273
What happens when sprays are no longer needed for control of codling moth . 282
Control of insect and mite pests of small fruits. 283
Current status of cereal leaf beetle control efforts. 287
Phylloxera: Scourge of the vineyard. 289
Tick fever in poultry. 415
An unusual instance of phoresy in Acarina. 581
Insects destroy themselves. 823
Breeding of Empusa muscae and its use in fly control. 902
A refinement in aerial applications of paris green granules. 935
Organization for effective mosquito control programs. 936
South American search for grassgrub solution. 991
The mite battle goes on and on. 992
The contribution of insect control to high yields of rice. 993
Genetics of natural populations. XXXIX. A test of the possible influence of two insecticides on the chromosomal polymorphism in Drosophila pseudoobscura. 1497
The use of helicopters in mosquito control in Louisiana. 1526
Forest tree and timber insect pests in the territory of Papua and New Guinea. 1605
Domestic quarantine notices. Japanese beetle. Regulated areas. 1617
Domestic quarantine notices. European chafer. Regulated areas. 1618
Silverfish: A taste for paper. 1779
Trapping for control of the Mexican fruit fly in mango and citrus groves. 1924
A bibliography of the alfalfa weevil, Hypera postica (Gyllenhal) Supplement I. 1944
Population assessment of cotton bollworm in relation to pest control practices. 1974
Whole town treatment for fruit fly control. 2236
Materials on the epidemiology of tick-borne encephalitis in the zone of construction of Sayano-Shushenskaya hydropower station. 2289
Comparative review of BHC dust and malathion emulsion as agents for disinfestation on the basis of past experience. 2379
Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice. 2445
A portable instrumented tower for use in meteorologically related research. 2468
A refinement in aerial applications of paris green granules. 2686
A feasibility study on the utilization of monomolecular films for mosquito abatement. 2687

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes. 2824

Materials evaluated as insecticides, repellents, and chemosterilants at Orlando and Gainsville, Fla., 1952-1964. 3147

Cockroaches and silverfish. 3150

The bionomics and control of Argyrostagma niobe (Weym.) and Dasychira georgiana Fawc. (Lep., Lymantriidae) on black wattle in Kenya. 3172

Some remarks on the Hemiptera-Heteroptera: Their importance of some auxilary insects and the possibility of their utilization in biological control. 3174

The mosquitoes of Nevada. 3175

Effects of gamma radiation on the tobacco budworm. I. Irradiation of pupae. II. Irradiation of moths. III. Irradiation of eggs and larvae. 3192

Influence of oophagous parasites on the regulation of the Cassida deflorata Suff. population. 3232

Development of the bait principle for boll-weevil control. III. Field-cage tests with a feeding stimulant and the protozoans Mattesia grandis (Neogregarinida) and a microsporidian. 3245

The contribution of Italy to research concerning the use of nuclear energy in insect control. 3246

Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the aid of Trichogramma embryophagum Hartig. 3276

Population models for supression of the sugarcane borer by inherited partial sterility. 3303

The control of Ixodid ticks--vectors of human diseases by means of alteration of their environment. 3340

Watch for new cotton insects. 3425

Chemical control of the rose mite--Tetranychus urticae (Koch, 1836) Bordreaux and Dosse, 1963 (Acarina, Tetranychidae). 3450

The treatment of pupal integuments with chemosterilants as a way of the turnip moth sexual sterilization. 3452

New concepts for cattle tick control. 3609

Flies and other insects in poultry houses. 3612

Disease and insect control in home orchards. 3983

Biology and control of native and introduced forest insects in the Nearctic Zone. 4375

First occurrence of balsam woolly aphid in the interior of British Columbia. 4441

Are woodpeckers the answer to pine bark beetle attacks. 4450

Specificity in insecticides. 4507

Several measures used to combat fruit plant viruses. 4731

The biology and control of Archips occidentalis (Wals.) and Tortrix dinota Meyr. (Lepidoptera: Tortricidae) on coffee in Kenya. 4744

Pest-management concepts and control of tick paralysis in British Columbia. 4849

An evaluation of the effects of the Aedes aegypti eradication program on wildlife in South Florida. 4884

The insect world. Series: The universe of knowledge. 4967

A brief note on entomology. 4977

The photoperiod as a control agent against Adoxophyes reticulana (Lepidoptera; Tortricidae). 5193

Leptoconops irritans Noe' in the province of Grosseto: Control problems. 5226

On the biology of Simulium damnosum Theobald, 1903, the main vector of onchocerciasis in the Mahenge Mountains, Ulanga, Tanzania. 5360

A possibility of using dimethyldichlorvinylphosphate in the fight againt red cockroaches. (abstract). 5495

New horizons in the fight against insects. 5524

Disaster aid for mosquito control agencies. 5525

Report of the Suffolk County Mosquito Control Commission. 5633

Development and study of filler composition of aerosol dispensers for controlling flying insects. 5660

Controlling insect pests in header-harvesters. 5678

On the larvicidal action of crude cashewnut shell oil. 5757

Immunologic structure of the population in a foothill Taiga focus of tick-borne encephalitis in the Zone of Construction of the Krasnoyarskaya Hydropower Station after realization of tick control measures. 5766

Water management units and shore line modifications used in mosquito control investigations. 5768

Breeding and management of forage crops in the Eastern Plains. 5797

Cotton as a supplement to tobacco. 5807

Controlling insects and diseases on trees. 5897

Control of the castor shoot and capsule borer, Dichocrocis punctiferalis Guen. 6150

Improvement of the agricultural warning (device) against the cereal gall moth (Cnephasia pumicana Zell., Lep. Tortricidae). 6164

Chemical control of the tea tortrix (Homona coffearia Nietner). 6171

Those hungry gypsies (Photo story). 6189

Field experiments with Trichogramma brasiliensis Fland. for the possible control of the pink bollworm of cotton, Pectinophora gossypiella Saund., in Mexico. 6198

Pongamia cake can control tobacco beetle. 6201

Delhi farmers need not be afraid of mustard aphid. 6239

The banana beetle can be checked. 6244

Preliminary observations on Heteronychus robustus ArrowA beetle pest of sugarcane in Uttar Pradesh. 6250

How to control jute pests economically. 6267

Lice and mites in poultry. 6890

Evaluation of acaricidal dips for control of Psoroptes ovis on sheep. 6900

Salt marsh mosquito control in relation to beef cattle production: A preliminary report. 6904

Environmental pollution: Scientists go to court. 7072

Aspects of the industrial production of microbial insect control agents. 7404

Withering of citrus trees. 7805

Control of Texas citrus mite with new acaricides. 7830

The cotton leaf weevil, Bucculatrix thurberiella Busck. The history, habits, biology and methods of control. 7839

Effects of various water volumes on the effectiveness of methyl parathion-DDT in controlling the cotton boll weevil, Anthonomus grandis. 7979

INSECT CULTURES

Developmental performance of embryonic blastemas of Drosophila after culture in the adult host. 1977

Studies on the genetic and environment regulation of xanthine dehydrogenase and its genetically related enzymes in Drosophila melanogaster. 2075

Environmental biology of Eriosoma pyricola Baker and Davidson. 2822

Sources of alcohol dehydrogenase (NAD0-LINKED) in the cockroach, Leucophaea maderae. 3187

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana. 3217

Genetic plasticity of stored-product insects in relation to insecticides: Comparative susceptibility of confused and red flour beetles from various areas of California to malathion. 3337

Airborne factor affecting the grouping behaviour of locusts. 5328

Some notes on the rearing of useful insects. 5556

Relative susceptibility of stored-product insects to insecticides. 5631

Attempts to induce crossing-over in Drosophila melanogaster males with ovarian extracts. 5739

Multiplication and differentiation of Trypanosoma cruzi in an insect cell culture system. 6875

Laboratory culture of chironomid species from the Hula Nature Preserve, Israel. 7720

INSECT CYTOLOGY

An autoradiographic technique for insect cell monolayers in Rose multipurpose tissue culture chambers. 1384

Adaptive chromosomal polymorphism and flexible control of recombination by Phryne cincta (Diptera, Nematocera). 1525

Ultrastructure of photoreceptor cells in a vitamin Adeficient moth (Manduca sexta). 2550

New observation on the origin and locality of the microtubules in the ergastoplasm in the migrator locust. Locusta migratoria migratoria (R. and F.). 2551

Mitotic activity in in vitro culture, in the oculoantennal discs of Calliphora erythrocephalia Meig. larvae (Insecta, Diptera). 2560

Evidence for important intercellular spaces in the hypodermis and paracrystalline formations in the exuvial liquid of the larvae of Galleria mellonella L. (Lepidoptera Pyralidae) during the formation of the cuticle. 4455

Mitotic activity of the first embryonic stages in the potato beetle Leptinotarsa decemlineata Say (Coleoptera, Chrysomelidae). 4457

The accumulation of ferritin in the nuclei and cytoplasm of certain mesenteron cells in old Homoptera Cercopidae. 4500

Ultrastructure of the hemocytes of Locusta migratoria (Orthoptera). 4512

Cytology and cytochemistry of the mycetone of Pseudococcus maritimus (Earhorn) (Homoptera Coccidae. 4550

New observations on the transport of intranuclear microorganisms, called Phi particles, by the spermatozoids in homopterous insects. 4556

The progress of mitosis (orthomitosis) in the manner of endomitosis in the malpighian tubules of the locust (Locusta migratoria) (Insecta, Orthoptera). 4575

Cellular degeneration in the production of some mutant phenotypes in Drosophila melanogaster. 4634

The golgi body origin and the development of the vacuolary bodies implied in the degeneration of the molt glands of Locusta migratoria migratorioides (R. and F.). 5254

On the presence of microtubules in the ergastoplasm and the perinuclear space of the oenocytoids of the migratory locust, Locusta migratoria migratorioides (R. and F.). 5256

The imaginal cells of the clypeo-labrum and the development of the proboscis of Drosophila melanogaster. 5321

The presence of a differentiated cytoplasmic zone around the nuclei in the cells of the middle intestine of Cixius nervosus L. (Homoptera, Fulgoroidea). 5335

Changes in the hemocyte picture of Galleria mellonella (Linnaeus). 5396

Chromosome studies in Diplopoda (Myriapoda). A note on the abnormal sex-chromosome behaviour in the male of Thyropygus sp.. 5698

INSECT DETECTION

Termites need no longer threaten groundnut in Nimar. 6202

Rating various detection methods for Ixodes ricinus. 7577

INSECT DIAPAUSE

The ecology of Sminthurus viridis (Collembola). II. Diapause in the aestivating egg. 2066

Inter-racial mating of a non-diapausing and a diapausing race of Teleogryllus commodus (Walk.) (Orthoptera: Gryllidae). 2587

On the photoperiodic reaction of Chilocorus renipustulatus Scriba (Coleoptera, Coccinellidae). 2629

The influence of external factors on the anticipated elimination of the diapause of Psylla pyri (Homoptera: Psyllidae). 4608

INSECT DIETS

Digestibility studies with cellulose-U-C14 on larvae of the pale western cutworm, Agrotis orthogonia. 3244

Nutrition of the almond moth. I. Analysis and improvements of the experimental diet. 3302

Rearing sod webworms on artificial diets. 3305

The effect of essential amino acid deficiency on the sex-specific accumulation of a blood protein in female house-flies (Musca domestica L.). 3804

Amino acid requirements of the cotton stainer, Dysdercus fasciatus Signoret (Pyrrhocoridae, Hemiptera). 4447

Nutrition of the silkworm, Bombyx mori. XVI. Quantitative requirements for essential amino acids. 4451

A semi-synthetic diet for Eri-silkworm raising. 4492

The development of an artificial diet not containing leaf powder of any food plants for Eri-silkworm raising. 4493

Dietary choline requirements, phospholipids and development in Phormia regina. 4511

Nutrition of the silkworm, Bombyx mori. XVII. Effect of dietary levels of amino acids on growth of fifth-instar larvae and on cocoon quality. 4517

Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518

Effect of melatonin on egg production of the boll weevil, Anthonomus grandis. 4571

Rearing of Ips cembrae larvae on artifical diets: Some essential amino acids and sugars. 5206

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee. I. Effect on thoracic weight, development of hypopharyngeal glands, and brood rearing. 5348

Substances that attract caged honeybee colonies to consume pollen supplements and substitutes. 5565

Some factors that condition feeding in larvae of the migratory locust, Locusta migratoria migratorioides (Orthoptera, Acrididae). I. External factors. 5613

Ecdysones and analogs: Effects on development and reproduction of insects. 5835

INSECT DIGESTION

On the morphology and histology of the digestive tracts of two Jassids (Homoptera, Auchenorrhyncha), with special consideration of the so-called filter chamber. 1439

On the food utilization and digestion of major food nutrients in the lepidoaterous larvae feeding on cauliflowers. 2009

INSECT DISEASE RESISTANCE

Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. I. Studies on the physiological properties of some commercial products. 3253

Resistance to American foulbrood in honey bees. X. Comparative mortality of queen, worker, and drone larvae. 3267

Resistance to American foulbrood in honey bees. IX. Effects of honey-bee larval food on the growth and viability of Bacillus larvae. 3270

INSECT DISEASES

The biochemistry and mode of action of Bacillus thurengiensis Berliner and its varieties. 58

The measurement and interrelationships of infections with Nosema apis and Malipighamoeba mellificae of honey-bee populations. 59

Ecological observations on three species of Pimeliaphilus parasites of triatominae in the United States (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5192

Cave Carabidae (Coleoptera) of Mammoth Cave, part II. 5211

Selection for divergent emigration rates in laboratory populations of Musca domestica. 5269

Biological observations on the desert locust (Schistocerca migratoria migratorioides) in Chad. 5285

Australia's honeypot ants. 5312

Studies on interspecies competition between the azuki bean weevil and the southern cowpea weevil. III. Some characteristics of strains of two species. 5318

Synecological studies of soil macroentomofauna in two different agricultural biotopes. 5332

Faunal and zoocenological analysis of the soil insect communities in the ecosystem of shelterbelt and field. 5333

Notes on the mosquitoes of the Islamic Republic of Mauritania. (Dipt. Culicidae). (2). 5351

On the biology of Simulium damnosum Theobald, 1903, the main vector of onchocerciasis in the Mahenge Mountains, Ulanga, Tanzania. 5360

Insect-flower associations in the high Arctic with special reference to nectar. 5366

Certain host-parasite relationships between rodents (Muridae) and fleas (Aphaniptera). 5393

The significance of oviposition rates in the egg parasite, Trichogramma embryophagum Htg.. 5410

Estimation of the individual number entering each development stage in an insect population. 5413

On ecology and phenology of Heptatoma pellucens F. (Tabanidae, Diptera). 5415

Some regularities in the zonal distribution of oribatoid mites. 5421

Integrated insect control - a payoff from research. 5435

The distribution of nymphs of Brachyptera risi Mort. and Nemoura flexuosa Aub. (Plecoptera) in relation to oxygen. 5453

The beetles (Coleoptera) of Babia Gora Mountain (Polish Western Carpathians). 5518

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae). 5600

A model of the plant-to-plant movement of aphids. II. Estimation of parameters and the application. 5602

Aphidofauna of honey plants as a source of subsidiary hosts of aphidiid wasps (Hymenoptera, Aphidiidae). 5628

Functional response to host density in a parasitic wasp, with reference to population regulation. 5640

On the biology and ecology of the opilionid Mitopus morio F.. 5644

Biology of Dufourea and of its cleptoparasite, Neopasites (Hymenoptera: Apoidea). 5646

The occurrence of Argas japonicus and Ixodes lividus in Nagano Prefectur, Japan (Ixodoidea: Argasidae; Ixodidae). 5652

Homing in the ant Cataglyphis bicolor. 5672

Thermobia domestica (Packard 1873). 5673

Ecological studies on aphids. I. On the temperature relations of the Virginoparae (Aliencolae) of Myzus persicae at constant temperatures on Swedes. 5675

On the photopositive responses of some insects towards monochromatic lights. 5691

Population genetics in the American tropics. II. The comparative genetics of Drosophila in European and neo-tropical environments. 5710

The present status of rice pest research and control. A literature review. 5827

The biology, ecology and control of Vanapa oberthuri Pouill. Coleoptera; Curculionidae in hoop pine Araucaria plantations in New Guinea. 6152

Porina and grassgrubs put curbs on production. 6187

Figs (Ficus spp.) and fig-wasps (Chalcidoidea). 6190

Ecology of insect vectors, forecasting, and chemical control. 6205

Chironomidae of a moss cover in northern Hungary. 7432

Notes on the horse-flies of Cuba (Diptera, Tabanidae). 7444

A contribution to the Coleoptera fauna of the Ostufer der Muritz nature reserve (southern part) (Coleoptera: Carabidae, Coccinellidae). 7445

Numerical taxonomy of ecological characteristics and the niche concept. 7465

The ants of the Drome and the Basses-Alpes, in France (Hymenoptera, Formicidae). 7467

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking arthropoda in Vietnam. 7472

Positive phototaxis of Chironomidae larvulae as a factor regulating their distribution in stagnant bodies of water. 7497

Sibling species of phytoseiidae (Acarina: Mesostigmata). 7512

Distribution of lake-dwelling Chironomidae (Diptera) in the Alpine Region. 7527

The mites of subfamily Labidophorinae Zachvatkin, 1941 (Acarina, Acarinhe) from the nests of small mammals. 7531

Some new or little-known Nearctic Trichoptera. 7536

The Trichoptera of the Lule Lappmark (Sweden), II. Catalog of the species, habitats and flight periods. 7556

Some notes on the food of the chironomid larvae of a shallow woodland lake in South Finland. 7570

Certain problems concerning the study of Chironomidae populations. 7576

Hunting behavior of the Ctenizidae. 7580

Influence of mutual relations of organisms, especially Chironomidae, in natural benthic communities, on their abundance. 7623

Seasonal and diel emergence of Chironomus salinarius Kieff. (Dipt., Chironomidae) near Bergen, Western Norway. 7629

Investigation into the population fluctuations of Oscinella frit L.. 7651

Some ecologically interesting Chironomidae from the lake region of Stechlin. 7662

Taxonomy, ecology and behavior of the northern Baltic Clunio marinus Halid. (Dipt., Chironomidae). 7666

On the ecology of zygopteran dragonfly populations. 7671

The carabid fauna of the Hoher Vogelsberg nature conservation park. 7696

Mountain systems as centers of species formation. 7697

Chironomidae ecology in the Utscha Reservoir. 7703

Contribution to the study of the larval tracheation of the Empididae (Diptera, Orthorraphidae): Its interest from the phylogenetic and ecological points of view. 7712

A preliminary survey of the relationships between the soil fauna and the roots of fruit trees. 7827

Basic premises of a theory of the protection of plants against pests. 7836

On the relationships between ants and parasites of coccids and aphids on citrus. 7840

Ecology of lice on sheep. VII. Population dynamics of Damalinia ovis (Schrank). 7928

INSECT EGGS

Iconography of the eggs of the Lepidoptera fauna of Belgium. 47

The change in voltinism in Bombyx mori L., by injection of either adrenalin or insulin. (Preliminary note). 130

Iconography of the eggs of the Lepidoptera fauna of Belgium. 147

Iconography of the eggs of the Lepidoptera fauna of Belgium. 148

Pre-gravid phase of ovarian development in Aedes detritus Aedes detritus Haliday. 151

Computing a population budget from sequentially sacrificed, replicated cultures. 156

Investigations concerning the biological control of the apple moth (Carpocapsa pomonella (L.)) by means of egg parasites of the genus Trichogramma. 161

Mite chromosomes; an exceptionally small number. 183

Ethion a new acaricide for control of red spider, scarlet, pink and purple mites. 284

Activities of the working groups. Working group population dynamics of the Colorado beetle. 734

Insects destroy themselves. 823

An interesting brood of Eudia pavonia (Attacidae). 838

The effects of injected aminopterin on egg production in Rhodnius prolixus. 861

Uptake of water by eggs of Cardiaspina densitexta (Homoptera: Psyllidae) from leaf of host plant. 907

Laboratory colonization of Trichoprosopon digitatum (Rondani) (Diptera: Culicidae). 1350

Development of eggs of the tick, Ixodes ricinus L., depending on temperature and humidity and the thermopreferendum and daily activity of its larvae. 1379

Selection for and against gregariousness in the choice of oviposition sites of the Drosophila pseudoobscura. 1501

Light traps as detection devices for moths of cabbage looper and bollworm. 1602

Iconography of the eggs of the Lepidoptera fauna of Belgium. 1907

Cellular and extracellular activities implementing selective assimilation of yolk proteins by Cecropia oocytes. 1919

Pre-bloom oil sprays for European red mite control. 1932

Biological notes on Spilonota ocellana Denis and Schiffermuller (Lepidoptera Tortricidae) in the foothill region of Friuli and preliminary indications on the factors adverse to its development. 1970

The feeding of the mole cricket and its effect on outbreaks and control. 1973

Organogenesis of the female reproductive system of an aedine mosquito. 2038

Effects of apholate on the alfalfa weevil. 2053

Chambers for incubating individual insect eggs and egg parasites. 2054

The ecology of Sminthurus viridis (Collembola). II. Diapause in the aestivating egg. 2066

An oak leaf tier, Croesia semipurpurana (Kft.) (Lepidoptera: Tortricidae) in the region of Quebec. 2212

Inundative releases of Chrysopa carnea for control of Heliothis on cotton. 2231

The effect of pesticide application at the end of winter, on the winter eggs of Panonychus ulmi Koch. 2562

Structure, function and development of the rectal apparatus for forming excrements (Kotpresse) of Central European Clytrinae and Cryptocephalinae (Coleoptera, Chrysomelidae). 2571

Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae). 2573

Oviposition cycles and the stimulus for oviposition in Dermestes maculatus DeGeer (Coleoptera: Dermestidae). 2601

Influence of some environmental factors on the viability and hatching of Aedes aegypti (L.) eggs. 2621

Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the help of Trichogramma embryophagum (Hartig). (abstract). 2652

Chromosome analyses of quantitative characters in Drosophila melanogaster. 2675

Psylla pruni Scop.-The plum psylla. 2801

Influence of feeding, oviposition, and egg and larval development of the boll weevil on abscission of cotton squares. 2803

Susceptibility of eggs and young adults of Cryptolestes ferrugineus and C. turcicus to hydrogen phosphide. 3160

Serratia marcescens found in eggs of Heliothis zea: Tests against Trichoplusia ni. 3165

Effects of gamma radiation on the tobacco budworm. I. Irradiation of pupae. II. Irradiation of moths. III. Irradiation of eggs and larvae. 3192

Conversion of serine to glycine during the formation of egg-shells in the silkworm, Bombyx mori. 3227

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L. 3235

Production of fourth-instar pink bollworm larvae from sodium hypochlorite-treated and untreated eggs. 3237

Research on oogenesis, fertilization, egg segmentation, and spermatogenesis in Caloglyphus berlesei Michael 1903 and C. michaeli Oudemans 1924 (Acari, Acaridae). 3263

The ecology of the immature stages of Aedes detritus (Diptera: Culicidae). 3278

Chronic melanization in the eggs of Aedes aegypti. 3304

The pine chrysomelid, Glyptoscelis pubescens, in northwestern Wisconsin. 3441

Iconography of the eggs of the Lepidoptera fauna of Belgium. 4429

Circadian clock action spectrum in a photoperiodic moth. 4465

Biology, ecology and distribution of Amara pseudocommunis Burak. (Coleoptera, Carabidae). 4467

Effect of ionizing radiation on Dacus zonatus fruit fly eggs and larvae in situ. 4505

Control of metabolism in the silkworm pupal ovary by the diapause hormone. 4508

Some problems on developmental physiology in the silkworm egg. 4570

Effect of melatonin on egg production of the boll weevil, Anthonomus grandis. 4571

Experiment on the influence of Bacilluscereus var. Galleriae and of lindane on Sitotroga cerealella Oliv. and on Trichogramma cacoeciae March. 4591

Trans-ovum transmission of insect viruses as a biological control. 4600

Experimental induction of androgenesis, gynogenesis, and polyploidy in Bombyx mori by treatment with CO2 gas. 4647

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

Results of consecutive matings of female Anopheles gambiae species B with fertile and sterile males. 5242

Incorporation of tritiated thymidine into the ovarian DNA of stable flies: Effects of treatment with apholate. 5259

Oviposition responses by aphidophagous Syrphipae (Diptera). 5260

The physiology of mosquitoes. 5266

Evolutionary trends in Heteroptera. Part I Eggs, architecture of the shell, gross embryology and eclosion. 5267

A simple method for counting leaf-hopper eggs inserted in plant issue. 5319

The modification of embryologic differentiation processes through total radiotherapy in eggs of Gryllus domesticus. 5362

Fluctuations in numbers and reduction of the Colorado beetle (Leptinotarsa decemlineata Say) in natural conditions. 5402

The significance of oviposition rates in the egg parasite, Trichogramma embryophagum Htg.. 5410

Estimation of the individual number entering each development stage in an insect population. 5413

The 24-inch branch as a sample unit for egg mass surveys of the western budworm. 5463

Utilization of larval cholestrol-4-C14 for reproduction in house flies fed unlabeled cholesterol in the adult diet. 5481

Colonization of two species of Florida chironomids. 5573

Sex pheromones of noctuid moths. XIII. Changes in pheromone quantity, as related to reproductive age and mating history, in females of seven species of Noctuidae (Lepidoptera). 5603

Lack of effect of constant magnetic fields on Drosophila egg hatching time. 5630

Egg reduction of the Colorado beetle (Leptinotarsa decemlineata Say) as a hunger-dependent reaction. 5650

Determining suitable wintering and hatching regimes of the eggs of the silk worm (Bombyx mori L.). 5687

Use of some host insects to increase trichogram effectiveness. 5692

Fecundity, egg-size and hatchability in Drosophila melanogaster with an X-chromosome held unchanged. 5721

Chromosomes of the cereal leaf beetle. 5729

Analysis of a 6X6 diallel cross for hatchability in Drosophila melanogaster. 5734

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia. 6174

The identification and determination of phosphagen in insects and their eggs. 7601

Annulate lamellae and yolk nuclei in oocytes of the dragonfly, Libellula pulchella. 7626

The effect of genotype, mating status, weight and ege production on longevity in Drosophila melanogaster. 7628

Investigations into the relation of egg length and egg quantity per batch to the size of the female Anopheles claviger typicus Meigen with references to the development in size of the larvae. (Investigation into the insect fauna from Area Nr. 15) (Diptera: Culicidae). 7633

Bionomics of Stethorus gilvifrons Mulsant (Coleoptera: Coccinellidae). 7650

Morphogenetic analysis of the effects of juvenile hormone analogues and other morphogenetically active substances on embryos of Schistocerca gregaria (Forskal). 7665

Chironomidae ecology in the Utscha Reservoir. 7703

The effects of X-rays on the chromosomes of locust embryos. III. The chromatid aberration types. 7731

The effects of X-rays on the chromosomes of locust embryos. IV. Dose-response and variation in sensitivity of the cell cycle for the induction of chromatid aberrations. 7732

Functional structures in oocyte nuclei of Locusta migratoria. 7738

Laboratory determination of resistance to tetradifon in the fruit tree red spider mite, Panonychus ulmi (Koch). 7823

INSECT EMBRYOS

Mitotic activity of the first embryonic stages in the potato beetle Leptinotarsa decemlineata Say (Coleoptera, Chrysomelidae). 4457

INSECT EMERGENCE

On emergence times within the genus Polamorphylax Wallengren (Trichoptera, Limnephilidae). 5645

INSECT EVOLUTION

Revision of the termitophilous subfamily Trichopseniinae (Coleoptera, Staphylinidae). I. The genus Schizeiythron Kemner. 648

Morphology and relationships of the male of an Asterolecanium species (Homoptera: Coccoidea: Asterolecaniidae). 796

Melanism in New Jersey Catocala Schrank (Lepidoptera, Noctuidae). 853

Attack behavior of diguctid spiders and the origin of prey wrapping in spiders. 1241

A review of the taxonomy and morphology of the Berothidae, with the description of a new subfamily from Chile (Neuroptera). 1290

The genus Poecilopsyche n. gen. (Trichoptera, Leptoceridae). 1323

The family Arctopsycidae (Trichoptera). 1324

Sexual dimorphism of the Campsomerinae (Hymenoptera, Scoliidae). 1362

Some relict New Guinea leafhoppers and their significance in relation to the comparative morphology of the head and prothorax of the Homoptera-Auchenorrhyncha (Homoptera; Cicadellidae; Ulopinae). 1387

The evolutionary significance of rotation of the ootheca in the Blattaria. 1464

On the evolution of Carabids' scent gland secretion. On Arthropod defense substances. 1470

Geographical variation in Paprides nitidus (Hutton) (Orthoptera: Acrididae). 2028

Investigation into the appearance of the three castes in the bumblebee colony. 2040

Some new Heliconius pupae: Their taxonomic and evolutionary significance in relation to mimicry (Lepidoptera, Nymphalidae). 2535

Development of the beak musculature and sclerites in Heteroptera. 2639

Evolution of the function of the ovipositor in relation to the origin of parasitism in Hymenoptera. 2641

A monographic revision of the American Galeritini (Coleoptera, Carabidae). 3124

Absorption measurements on butterflies of the genus Zygaena Fab. (Lep.) as an explanation of the litoral melanism. 3173

Comparative study of some glands of bees (Hymenoptera, Apoidea) and the respective evolutionary implications. 3177

Meiosis in the male of Puto albicans (Coccoidea-Homoptera). 3894

Salivary gland chromosome variation in the Drosophila affinis subgroup. II. Comparison of C-chromosome patterns in D. athabasca and five related species. 3899

New and little known armoured scales (Homopterai Diaspididae) from South Africa. 4. 4415

Contribution to the biological study of the Diptera Sarcophagidae, parasites of acridids. The biological cycle of Blaesoxipha rossica Vill., injection of larvae in the body of the host by the female Sarcophagidae. 4547

Intraspecific qualitative and quantitative variations of the hemolymph proteins of Cophopodisma pyrenae (Fisch.), (Orthoptera, Catantopidae) as a function of biogeographic area.
4562

Patterns and pathways of chromosome evolution within the Orthoptera.
4640

New species of Pseudosinella from caves (Insecta: Collembola).
5045

The electrentomoid psocids (Psocoptera).
5105

Systematic entomology: Distribution of insects in the Pacific.
5117

A re-assessment of the genera Holorusia Loew (0Ctenacroscelis Enderlein), Ischnotoma Skuse and Zelandotipula Alexander (Diptera: Tipulidae), with notes on their phylogeny and zoogeography.
5161

Evolutionary trends in Heteroptera. Part I Eggs. architecture of the shell, gross embryology and eclosion.
5267

Rates of evolution in the Dermaptera.
5291

Phoretic copulation in Hymenoptera.
5298

Quantitative study of divergence in the morphological evolution of certain infraspecific entities in domestic honeybees (A. mellifera L.).
5448

Wing reduction in endemic Hawaiian psocids.
5643

Parasite phylogeny problems of the Mallophaga of Passeriformes and Piciformes.
5693

A method of selection of characters in numerical taxonomy.
7496

Sympatric host race formation and speciation in frugivorous flies of the genus Rhagoletis (Diptera, Tephritidae).
7583

Evolution of wing reduction in crane flies (Diptera: Tipulidae).
7584

An experiment on selection for mimicry.
7595

Plastron respiration in the marine fly Canace.
7617

Mountain systems as centers of species formation.
7697

The evolution and significance of the epizoic mode of life in Chironomidae-larvae (Diptera).
7706

Contribution to the study of the larval tracheation of the Empididae (Diptera, Orthorraphidae): Its interest from the phylogenetic and ecological points of view.
7712

A molecular approach to the study of genic heterozygosity in natural populations, III. Direct evidence of coadaptation in gene arrangements of Drosophila.
7747

Supernumerary chromosomes in the human bed bug, Cimex lectularius Linn. (Cimicidae: Hemiptera).
7759

INSECT FEEDING

Natural selection and feeding speed in a blood-sucking insect.
1397

A method for comparing feeding rates in mosquito larvae.
2563

INSECT FLIGHT

Effect of the time of day at which honeybee colonies are first allowed flight in a new location on their choice of flower species.
89

The regulation of breathing in insects.
128

Notonecta borealis Bueno and Hussey (Hem., Notonectidae): A flightless species .
150

The effect of bioclimate on the communication system of night-flying moths.
170

The macropterous form of Ulopa trivia Germar (Hem., Cicadellidae).
689

Comparison of the effectiveness of two pupal parasites in finding a host.
757

Systematic investigations of weather-controlled flight and migration phenomena of virus-carrying insects in western, northern, and southern Germany.
802

Differential spectra of cytochromes in development of the flight-muscles in Antheraea pernyi.
821

The dispersion of the resettlement of Dendroctonus micans Kugel. on Picea orientalis Link, in the Borshom Gorge.
826

Insect migration and air currents. (abstract).
870

The influence of wing-dimorphism on the distribution of Curculionidae.
890

Flights of the ant Polyergus lucidus Mayr.
893

Advances in insect physiology.
1359

A mass flight of Amphimallon solstitialis (Linne) (Col., Scarabaeidae).
1366

Notes on butterfly migration in Argentina between April 1966 and May 1968.
1405

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec.
1427

Comparative physiology of the flight motor.
1454

The nervous control of insect flight and related behavior.
1491

Dispersal and local distribution of laboratory-reared sterile screw-worm flies released in winter.
1980

Teratology of the beetle Tenebrio molitor. III. Ultrastructural alterations in the flight musculature of the pupal-winged adult.
2090

Flight muscle volume change in Ips confusus (Coleoptera: Scolytidae).
2546

New trapping and recording methods for investigations into the migration phenomenon of virus-transmitting insects.
2583

Mimicry of Hymenoptera by beetles with unconventional flight.
2653

Bozberg-report 1964. The occurrence of moths on the Bozberg in 1964.
3087

Mycetangial glands and their seasonal changes in Gnathotrichus retusus and G. sulcatus.
3275

An electron microscope study of changes in mitochondria of flight muscle of ageing houseflies (Musca domestica).
3281

Studies on the insect fauna on Scotch broom Sarothamnus scoparius (L.) Wimmer.
3784

Insects and physiology; essays presented to Sir Vincent Wigglesworth, CBE, MD, FRS on his retirement from the Quick Chair of Biology and directorship of the Unit of Insect Physiology in the University of Cambridge.
3800

Factors affecting the oxidation of glycerol-1-phosphate by insect flight-muscle mitochondria.
3815

New data on the biology of caddisflies (Trichoptera, Limnephilidae, Apataniinae) of Lake Baical. I. Life span and mass flight of adults.
3851

Incorporation of palmitate-1-C14 into lipids of the blowfly during flight.
3892

Ultrastructural peculiarities of the myofibrils in the flight muscles of Lepidoptera.
4452

Remarks on the structure of insect flight muscle fibrils at the striation level.
4453

Flying beetles.
5178

The wing mechanism involved in the courtship of Drosophila.
5219

The physiology of mosquitoes.
5266

The flight times of some nocturnal moths.
5365

Reduction of flight organs in some cryptobrachypterous Lygaeidae (Hem., Het., Lygaeidae).
5398

Flight activity of honeybees in a flight and rearing room. II. The influence of constant and cycling temperatures.
5496

Activation of the myofibrillar ATPASE activity by extension of glycerolextracted insect fibrillar muscle.
5571

The coupling of poweroutput and myofibrillar ATPASE activity in glycerol-extracted insect fibrillar muscle at varying amplitude of ATP-DRIVEN oscillation.
5572

The Tricoptera of the Lule Lappmark (Sweden), II. Inventory of the species, habitats, and flight periods.
7555

Nights flight of the Australian plague locust. Chortoicetes terminifera Walk., in relation to storms.
7593

Experiments with the measurement of the intensity of the wing beat resonance of the mosquito, Culex pipiens.
7664

INSECT FOOD

Attack behavior of diguetid spiders and the origin of prey wrapping in spiders.
1241

Colonization of Culex salinarius in the laboratory.
1489

Mosquitoes feeding on insect larvae.
5359

INSECT GENETICS

The present status of milky disease of Japanese beetle in Connecticut.
62

Amino acid and protein metabolism in insect development.
73

The development of the serosa in male embryos of the mealy bug, Pseudococcus obscurus Essig.
181

Genetic resistance of the silkworm, Bombyx mori L., to an infection of a flacherie virus.
182

INSECT GENETICS

Mite chromosomes; an exceptionally small number. 183

Chloropid flies of the genus Dicraeus Lw. (Diptera, Chloropidae). 673

Melanism in New Jersey Catocala Schrank (Lepidoptera, Noctuidae). 853

Chromosomes of the Pycnoscelus indicus and P. surinamensis complex (Blattaria: Blaberidae: Pycnoscelinae). 871

Chromosomal polymorphism in Drosophila tetrachaeta. 919

Evolution of fitness, III. Improvement of fitness in irradiated populations of Drosophila serrata. 920

The significance of Puffing in the giant chromosomes of Diptera. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff. 921

The genetic effects of caffeine in Drosophila melanogaster. 923

The function of the lampbrush loops formed by the Y chromosome of Drosophila hydei in spermatocyte nuclei. 924

Fine structure analysis of a chromosome segment in Drosophila melanogaster. Analysis of X-ray-induced lethals. 925

Drosophila and Pseudeucoila V: Contribution to the biological parasitology of Pseudeucoila bochei Weld (Cynipidae, Hymenoptera) and report on two new mutants. 926

Genetic variability in the German cockroach. IV. Linkage studies with markers for groups III and VIII. 927

Post-fertilization effect of incompatibility factors in Mormoniella. 928

Polysomy in Chrotogonus trachypterus (Blanchard) (Orthoptera: Acridoidea: Pyrgomorphidae) from three more populations and its possible role in animal speciation. 929

Repair of dominant lethal damage induced by X-rays in immature oocytes of Drosophila melanogaster. 930

The influence of selection and mating systems on larval weight in Tribolium. 931

A refined test for X-ray induced dominant lethals in Drosophila. 932

Ecological points of view in faunistic work-shown on the example of the larvae of leaf wasps. 1348

Sexual dimorphism of the Campsomerinae (Hymenoptera, Scoliidae). 1362

Effects of selection and migration on geotactic and phototactic behaviour of Drosophila. I. 1382

Further notes on melanism in Connecticut Panthea furcilla (Packard) (Lepidoptera: Noctuidae). 1421

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 1461

Biological control of insects. 1495

Allomorphic growth patterns in relation to sex-limited polymorphism in some mycophagous Tubulifera (Thysanoptera). 1496

Genetics of natural populations. XXXIX. A test of the possible influence of two insecticides on the chromosomal polymorphism in Drosophila pseudoobscura. 1497

Chromosomal polymorphism in Drosophila tetrachaeta. 1498

White eye, a new sex-linked mutant of Aedes aegypti. 1499

Karyotypic stability and speciation in Hawaiian Drosophila. 1500

Selection for and against gregariousness in the choice of oviposition sites of the Drosophila pseudoobscura. 1501

Meiosis IV: Segregation from interchange multivalents as a Markov process. 1502

Meiosis V: Matric and path coefficient solutions of tri--and quadrivalents. 1503

Small-antenna, a sex-linked mutant of Aedes aegypti. 1504

Sex-ratio depression as a brood-pattern criterion of radiation damage in Drosophila melanogaster. 1505

Evidence for sperm dysfunction as the mechanism of segregation distortion in Drosophila melanogaster. 1506

Evidence against the mutagenic effects of vibration on Drosophila melanogaster. 1507

Homeotic wing structure in the loboid-allele ophthalmoptera (ldoph) in Drosophila melanogaster. 1508

Frequency-dependent selection at the esterase 6 locus in Drosophila melanogaster. 1509

Phenodeviants and the chromosome field theory in Drosophila. 1510

Temperature sensitivity of segregation-distortion in Drosophila melanogaster. 1511

Chromosome studies in the genus Nabis Lt. (Heteroptera, Nabidae). 1512

Salivary gland chromosome variation in the Drosophila affinis subgroup. I. The C chromosome of western and eastern Drosophila athabasca. 1513

Sex chromatin of the gypsy moth Lymantria dispar and the meal moth Ephestia kuehniella. 1514

The replicative organization of DNA in polytene chromosomes of Drosophila hydei. 1515

Sex chromatin of a locust. 1516

A molecular approach to the study of genic heterozygosity in natural populations, III. Direct evidence of coadaptation in gene arrangements of Drosophila. 1517

A contribution to the genetic fine structure of the region adjacent to white in Drosophila melanogaster. 1518

Honey bee drones with jet black bodies. 7758

Supernumerary chromosomes in the human bed bug, Cimex lectularius Linn. (Cimicidae: Hemiptera). 7759

INSECT GEOGRAPHY

Short notes on Coleoptera VIII. 1223

Studies on North American Carboniferous insects. 5. Palaeodictyoptera and Megasecoptera from Illinois and Tennessee, with a discussion of the order Sypharopteroidea. 1228

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVII. Orthoptera: Pyrgomorphidae and Acrididae. 1238

A provisional list of Irish Dolichopodidae (Diptera). 1240

Coleopteran Elateridae new to tropical Africa. 1255

A biocenological investigation of salt marshes on the south coast of the isle of Terschelling. 1265

Discolomidae in museums of Amsterdam. 1269

Notes on the Odonata of the Netherlands. Crocothemis erythraea (Brulli, 1832) in the Netherlands (Libellulidae, Sympetrinae). 1273

The occurence of Psorophora cyanescens (Coquillett), P. horrida (Dyar Knab) and P. varipes (Coquillett) in Delaware. 1280

The systematic position of Orthophrys mexicanum Van Duzee (Hemiptera Heteroptera: Saldidae). 1282

A review of the taxonomy and morphology of the Berothidae, with the description of a new subfamily from Chile (Neuroptera). 1290

Microarthropods from two Quebec woodland humus forms. II. The Collembola. 1293

Contribution to the study of the genus Paralucilia Brauer and Bergenstamm, 1891 (Diptera, Calliphoridae). 1298

Mesosyrphus nigritarsis (Zett.) (Dipt., Syrphidae) a new species to the Dutch fauna. 1303

Calameuta filiformis (Eversm.) a forgotten straw wasp (Hym., Cephid.). 1307

Simuliidae of Italy. 1322

The family Arctopsycidae (Trichoptera). 1324

Hemipteran Reduviidae and Pachynomiidae from the Tchad region. 1342

Additional data on some genera and species of Acrididae (Orthoptera, Acridoidea) from the Indo-Malayan region. 1344

Faunal notes on Diptera in the Netherlands. III. 1346

The Lepiodoptera distribution maps scheme. 1406

Investigation into the tendency of parthenogenic reproduction of Solenobia manni Z. (Lepidoptera, Psychidae). 1433

Observations and records for some British Thysanoptera. VII. Thripidae. Thrips klapaleki Uzel. 1438

On the knowledge of the morphology and biology of Trogoderma angustum Solier, 1849 (Coleoptera; Dermestidae). 1447

Ticks of domestic animals in Tessin. 1713

The distribution of ants in central southern England. 1867

New species of the Sarcophaga Meigen genus (Fam. Sarcophagidae, Diptera). 1890

Australian Blattidae (Blattodea). VII. The Platyzosteria group; general remarks and revision of the subgenera Platyzosteria Brunner and Leptozosteria Tepper. 1894

A survey of the scutacarid (Acari: Tarsonemini) fauna of Australia. 1895

A new genus of Scelionidae (Hymenoptera) with austral disjunctive distribution. 1897

Ticks from Turkey (Acari, Ixodidae). 1900

Geographical variation in Paprides nitidus (Hutton) (Orthoptera: Acrididae). 2028

The termites of Paris. 2383

Undescribed species of crane flies from the Himalaya Mountains (Diptera: Tipulidae), XVII. 2473

Planthoppers of the family Derbidae (Homoptera, Auchenorrhyncha) in the fauna of the USSR. 2474

A review of the genus Gosodesmus Chamberlin, with the synonymy of Eucybe Chamberlin (Diplopoda: Platydesmida: Andrognathidae). 2476

Zoogeographic analysis of mites of the family Rhinonyssidae (Gamasoidea, Parasitiformes) of the USSR fauna. 2477

Neotropical Miridae, CIII: Revision of the genus Resthenia Spinola (Hemiptera). 2478

Neotropical Miridae, CI: Revision of the Cylapus Say complex with descriptions of genera and new species. 2479

New Mexican and Central American species of Strangalia Audinet-Serville (Coleoptera: Cerambycidae). 2480

The distribution and abundance of Collembola in the tundra zone. 2481

A contribution to the fauna of fleas in eastern Siberia. 2489

Fig--wasps (Chalcidoidea) of Hong Kong I. Agaonidae. 2490

A list of the type-specimens of Libellulidae and Corduliidae (Odonata) in the British Museum (Natural History). 2496

Some new and little known ground beetles (Coleoptera, Carabidae) of the USSR and neighboring countries. 2498

The actual placing of the Zelurus species Hahn of the group Formosus (Hemiptera, Reduviidae). 2500

Notes on the types of some neotropical sarcophagid flies described by Enderlein (Diptera, Sarcophagidae). 2504

Australian Blattidae (Blattodea). VI. Revision of the genus Cosmozosteria Stal. 2505

A new species of the genus Eremippus Uv. (Orthoptera, Acrididae) from souteast Kazakhstan. 2507

New species of mealybugs (Homoptera, Coccoidea, Pseudococcidae) from East Kazakhstan. 2509

A new species of the genus Aphodius Ill. (Coleoptera, Scarabaeidae) from Abkhasia. 2511

A new species of the genus Pseudoblaps Guerin (Coleoptera, Tenebrionidae) from Iran. 2512

The type-specimens of the Palearctic species of Scolytus Geoffr. (Coleoptera, Scolytidae) in the Institute of Zoology collection, USSR Academy of Sciences (Leningrad). 2513

A new species of Diclidophlebia (Homoptera: Psyllidae) from Nigeria. 2514

A review of the Australian species of the genus Ligyra Newman (Hyperalonia olim) (Bombyliidae: Diptera). 2515

Studies on Australian Muscidae (Diptera). .i. Some species of Dichaetomyia Malloch. 2516

Records of Masarid wasps with descriptions of two new species of Quartinia Ed. Andre (Hymenoptera). 2520

The subgeneric division of the genus Bombus Latrielle (Hymenoptera: Apidae). 2521

Australian Hymenoptera Chalcidoidea family Eulophidae, subfamily Elasminae. 2522

New species of hover flies (Diptera, Syrhidae) from the Caucasus. 2527

Notes on Alaskan mosquito records. 2528

A new genus and two new species of arboreal Oppiidae (Acari: Cryptostigmata) from New Zealand. 2529

Species of the genus Physcus How. (Hymenoptera, Chalcidoidea), parasites of scale insects in the USSR. 2536

A tachinid parasite of Australian grasshoppers. 2545

Faunistic-ecological review of synanthropic Diptera in the south of the Maritime Territory. 2636

Variation and distribution of the intertidal beetle Halocoryza arenaria (Darlington) in Mexico and the United States (Coleoptera: Carabidae). 2667

Reproductive isolation between two closely related species of the Queensland fruit fly, Dacus tryoni (Frogg.) and D. neohumeralis Hardy (Diptera: Tephritidae). I. Variation in humeral callus pattern and the occurrence of intermediate colour forms in the wild. 2672

The spined citrus bug--Biprorulus bibax Bredd. (Hemiptera: Pentatomidae). 2804

Neotropical Miridae, CIV: Revision of types of the Museum of Natural History of Budapest, Hungary (Hemiptera). 3091

Studies of Queensland Tetranychidae. 5. Records of the genus Panonychus from Queensland, with a note on the occurrence of Panonychus citri (McGregor) in New Guinea. 3095

Studies of Queensland Tetranychidae. 4. Eotetranychus lomandrae sp. n., a spider mite found on mat-rushes. 3096

Studies of Queensland Tetranychidae. 3. Records of the genus Tetranychus. 3097

Three new neotropical satyrids (Lep. Rhop. Satyridae). 3103

Ancyloxypha melanoneura orientalis subsp. nov. (Lep. Rhop. Hesperiidae). 3104

Study on Chrysochlora amethystina (Fabricius, 1805) and its relationship with Brazilian species of the genus Chrysochlorina James, 1939 (Diptera, Stratiomyidae). 3106

A preliminary review of the Argentine genera and species of Stratiomyidae (Diptera). Part 2. Pachygasterinae. 3107

Ichneumonological (Hym.) reports from Finland II. 3108

Monograph of the tribe Ibidionini (Coleoptera, Cerambycinae). Part II. 3117

Lepidoptera on the central Brazil plateau. V: New species of Hesperiidae and notes on some known species. 3119

A monographic revision of the American Galeritini (Coleoptera, Carabidae). 3124

Notes on some older types of neotropical Micropezidae with descriptions of new species (Diptera, Acalyptratae). 3131

New Danish cicadellids 2 (Hemiptera, Cicadellidae). 3136

To the fauna of ixodid ticks of Mongolia. 3744

Ectoparasitic mites (Acarina: Parasitiformes) from small mammals from the Tarnasjo and Ammarnas areas in Swedish Lapland. 4353

The northern species of Coleoptera group Bagous (Curculionidae) together with a taxonomic key (principally for the service of young entomologists). 4364

Coleoptera of northeast Africa. Bostrychidae. 4374

The occurrence of the solitary wasp Pterochilus phaleratus Panz. in the Scandinavian countries (Hym. Eumenidae). 4379

Burmese Ichneumoninae V. 32. Genus Naenaria Cameron. 4392

On the genus Dialineura Rondani, 1856 (Diptera, Therevidae). 4409

Stenus and Megalopinus Motschulsky genera and remarks on the subgenus Tesnus Rey, with a table of the Palearctic representatives (Coleoptera, Staphylinidae). (54. Contribution to the knowledge of the Stenus genus). 4423

Alticinae of New Guinea, III. Schenklingia and allies (Coleoptera: Chrysomelidae). 4428

A new Wesmaelius from central Asia (Neuroptera, Hemerobiidae). 4434

Revision of the nominate subgenus Sceliphron Latreille (Hymenoptera, Sphecidae) (Studies on the Sceliphronini, part I). 4435

On Orthotylus Fieb. and Pachylops Fieb. (Heteroptera, Miridae). 4436

The genus Heterotoma Lepeletier and Serville, 1825 (Synonym Acroderrhis Bergroth, 1914) (Heteroptera, Miridae). 4437

Taxonomy of the genus Paluda De Long 1937 (Homoptera Euscelidae). 4438

Further notes on the reproductive biology of the earwig Forficula auricularia L.. 4510

The electrentomoid psocids (Psocoptera). 5105

A new species of Trachysphyrus from the Andes of Ecuador (Hymenoptera, Ichneumonidae). 5124

INSECT GROWTH

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 1461

INSECT GROWTH INHIBITORS

The effects of juvenile hormone analogues on the embryonic development of silkworms. 1462

INSECT HARDINESS

Relative fitness of a third chromosome inversion in Drosophila melanogaster. 2084

INSECT HISTOLOGY

On the accessory glands of the male reproductive apparatus of Dolichopoda geniculata Costa (Orthoptera, Raphidophoridae). 138

Fine structure analysis of a chromosome segment in Drosophila melanogaster. Analysis of X-ray-induced lethals. 925

The presence of large ferritin crystals in the cells of the middle intestine of Campylenchia latipes Say. (Homoptera, Membracidae). 1401

On the morphology and histology of the digestive tracts of two Jassids (Homoptera, Auchenorrhyncha), with special consideration of the so-called filter chamber. 1439

Adverse effects of folic acid on the gonads of adult Drosophila (Insecta, Diptera). Modifications in morphology and histopathology. 1444

Structure of the cryptonephridial malpighian region of the larval Hymenopteran Symphyta. 1460

Hydrocyanic acid in the defense secretion of the geophilid Pachymerium ferrugineum. Communication on Arthropod protective substances. 1469

Observations on the infrastructure of the crystalline cells in the eye of the phasmid Carausius morosus Br. Are these cells made of simple dioptric elements . 1483

Structure and function of the rectal pads in Hymenoptera. 1922

Effects of malathion on the histophysiology of Malpighian tubules of Periplaneta americana (Linn.), Dictyoptera. 1925

Description and distribution of the neurosecretory cells in brain and ventral ganglia of Lethocerus indicum Lep. et Serv. (Heteroptera-Belostomatidae). 1928

Studies on the morphology of Lethocerus indicum Lep. and Serv. (Hemiptera--Heteroptera--Cryptocerata-Belostomatidae). Part V. The morphology of the stomodeal nervous system with special reference to the histology of the corpora cardiaca and allata. 1929

Light-dark adaptation in acone apposition eyes of insects. 1954

Observations on the histo-morphology of the labial glands in Neodiprion sertifer Geoffroy (Hymenoptera Diprionidae). 1961

The fine structure of the cuticle. A contribution to the question of the protection against its own poison of the Madeira roach. 1971

The structure of the spiracles of the cattle tick, Boophilus microplus. 1982

Studies on the metamorphosis of the alimentary canal of Hyalophora cecropia (L.). 1992

On the hormonal control of ovarian development in the female larva of the heterogonid gall gnat Heteropeza pygmaea Winnertz 1846 (Diptera, Cecidomyiidae). 2030

Embryonic developmental mutations of the nullosomies and tetrasomies of the third chromosome of Drosophila melanogaster. 2089

The structure of the hindgut and associated structures of the larva of Sesamia calamistis Hampson (Lepidoptera: Noctuidae). 2569

Structure, function and development of the rectal apparatus for forming excrements (Kotpresse) of Central European Clytrinae and Cryptocephalinae (Coleoptera, Chrysomelidae). 2571

A histological study of neurosecretion in ants (Formicoidea). 2580

Comparative study of some glands of bees (Hymenoptera, Apoidea) and the respective evolutionary implications. 3177

Studies on the neurosecretory system of the female mole cricket Gryllotalpa africana (Orthoptera: Gryllotalpidae). 3189

A cytoplasmic polyhedrosis of Hemerocampa pseudotsugata. 3239

Studies of an insect mycosis. I. Histopathology of the integument of the infected queen of the mound-building termite Odontotermes obesus. 3273

Influence of cecropia oil on the cuticle of Tenebrio molitor. 3321

Control cattle grubs. 3501

Vitamin A deficiency: Effect on retinal structure of the moth, Manduca sexta. 3807

Comparative studies of the development of Plasmodium cynomolgi bastianellii in Anopheles stephensi and A. albimanus. 3860

Control systems in insect development. (abstract). 3872

Remarks on the structure of insect flight muscle fibrils at the striation level. 4453

Evidence for important intercellular spaces in the hypodermis and paracrystalline formations in the exuvial liquid of the larvae of Galleria mellonella L. (Lepidoptera Pyralidae) during the formation of the cuticle. 4455

Concerning the extraocular light sensitivity of the Dictyoptera: Evidence of photoreceptors associated with the tegumentary nerves. 4464

Histochemical data on the neurosecretory allata terminations in Antheraea pernyi Guer. (Lepidoptera, Attacidae) and in Rhodnius prolixus Stal. (Hemiptera, Reduviidae). 4469

Internal anatomy of the developmental stages of the twospotted spider mite. 4520

Study of the tegumentary glands and their secretory cycle in the larva of Tipula flavolineata Meig.. 4579

Study of the tracheal units and nodular tracheal cells in Tipula flavolineata Meig.. 4580

Histophysiological studies on neurosecretion in the ventral nervous system of Rhodnius prolixus Stal (Hemiptera) during the imago stage. 5213

Structure and development of vesicles in larval tissue culture of Aedes aegypti (L.). 5227

Studies on the anatomy of the male reproductive system of the red-cotton bug, Dysdercus cingulatus (Fabr.), (Heteroptera, Pyrrhocoridae). 5229

Modifications of the Bodian technique applied to insect nerves. 5263

Nicotinamide-adenine dinucleotide-linked form of lactic dehydrogenase of the symbionts and fat bodies of a cockroach. 5295

The diversity of cell types in the neurosecretory system of the beetle Blaps mucronata. 5308

Trehalose regulation of gucose-6-phosphate hydrolysis in blowfly extracts. 5317

Composition, structure, and mode of formation of mineral granules in the middle intestines of the homopteran Cercopidae. 5334

Relationship between serotonin and the circadian rhthym in some nocturnal moths. 5364

Spermatocysts in Aedes aegypti (Linnaeus). 5397

Histo-morphology of the ovariole in Pherosophus hilaris, Fabr. (Chrabidae: Coleoptera). 5401

Contribution to the study of higher termite digestion. 5417

Morphological cell death in the post-embryonic development of the insect optic lobes. 5503

The development of male genital ducts and the associated structures in Callosobruchus maculatus (F.) (Bruchidae: Coleptera). 5511

The larval and imaginal oenocytes of Callosobruchus maculatus (Fabricius) (Coleoptera: Bruchidae). 5512

Antennal pulsatile organs in Scolopendra morsitans (Chilopoda:Myriapoda). 5545

Morphology and histology of the brain of mylabris phalerata. 5587

The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. Ii Muscle structure at molting. 5648

The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. II. Muscle changes in preparation for molting. 5649

The growth and activity of the corpora allata in the larval firebrat, Thermobia domestica (Packard) (Thysanura, Lepismatidae). 5669

Studies of physiologically active arthropod secretions. II. Some observations on the scent pencils of male Vitula edmandsae (Lepidoptera: Phycitidae). 5670

Observations and experimental data on ovary activity in adult Galleria mellonella (Lepidoptera Pyralidae). 7568

Aspects of the morphogenesis, in organotypical culture in vitro, of the tracheal system in Diptera Calliphoridae. 7677

Evidence of Gomori negative neurosecretory cells in the Pars intercerebralis of Musca domestica L. by a comparative study using an ordinary microscope and an electron microscope. 7683

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera). 7687

Biology of the European chafer, Amphimallon majalis (Coleoptera: Scarabaeidae) in Northeastern United States. 7709

INSECT HORMONES

The effect of ecdysones on the maintenance and development of ocular imaginal discs in vitro. 1369

On the hormonal control of ovarian development in the female larva of the heterogonid gall gnat Heteropeza pygmaea Winnertz 1846 (Diptera, Cecidomyiidae). 2030

Hormonal control of ovarian development in a heterogonal gall mite. 2638

Puparium formation in flies: Contraction to puparium induced by ecdysone. 5223

Juvenile hormone: Activity of natural and synthetic synergists. 5238

Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts. 5250

Sterilization of female mosquitoes with a hormone derived from male mosquitoes, Patent 3,450,816. 5272

INSECT HOSTS

Utilization of DDT resistance as a means of investigating the possible existence of host-specific strains of the bollworm, Heltiothis zea. 7578

SUBJECT INDEX

INSECT IDENTIFICATION

Some biological notes on the pteromalid (Hym., Chalcidoidea) genera Caenacis Foerster, Cecidostiba Thomson and Hobbya Delucchi, with descriptions of two new species.
6

Descriptions of new and little known species of Mallophaga (Insecta) from maritime hosts of Chile, South America.
18

Furthur descriptions of Halictophagbus pontifex Fox and H. regina Fox (Strepsiptera: Halictophagidae) from Uganda.
25

The position of Polistes (Leptopolistes) bischoffi Weyrauch (Hymenoptera: Vespidae).
27

The Diptera described by W. J. Rainbow from Funafuti Atoll, Ellice Islands.
43

Notes on some aphids from Vietnam, with description of a new species (Homoptera, Aphidodea).
51

Forest insects.
57

Species differences in scarab-pasture relationships.
76

Contributions to the knowledge of Polish species of the genus Doratura J. Shlb. (Homoptera, Cicadellidae).
80

Insect control on golf greens.
273

The foodplant of Idiocerus varius Germ. (Hem., Cicadellidae).
588

Opsius statogalus Fieb. (Hem., Cicadellidae) in and near London: a second note.
589

Dermestes peruvianus Lap. (Col., Dermestidae): A correction.
590

A melanistic form of Parasemia plantaginis L.
607

Hoverflies and a bug from Caernarvonshire.
609

The larvae of some British Notiophilus species (Col., Carabidae).
612

Spinulana, new genus of Mexican Deltocephalinae, and two new species of Spinulana. (Homoptera; Cicadellidae).
614

Studies on the Gyponinae; two new genera, Chilenana and chilella. (Homoptera; Cicadellidae).
615

A new species of Draeculacephala (Homoptera-Cicadellidae) from Chile.
616

Devolana, new genus of Mexican Deltocephalinae, and a new species of Devolana.(Homoptera; Cicadellidae).
617

Contributions to the study of Phasiinae cimicophages (Diptera Tachinidae). 35. Taxonomic and biological studies of Clairvillia biguttata and the related European Leucostomatina.
618

Strepsiptera from the Smithsonian Institution's survey of Dominica, with description of a new species of Elenchidae.
621

A new pine bark beetle in Germany, Gnathotrichus materiarius Fitch.
623

New species of Erythroneura related to Erythroneura dira (Homoptera: Cicadellidae).
631

An adventive Anthidium in New York State (Hymenoptera: Megachilidae).
633

A new South American hawk moth Protoparce feronia sp. n. (Lep. Sphingidae).
644

Sitona brevirostris Solari (Col., Curculionidae) new to the British list.
645

A new genus of Bruchidae from South America, with the description of a new species (Coleoptera).
646

Two new species of Gigantolaelaps (Acarina: Laelaptidae) with a key to the females.
655

Hemiptera of the State Preserve of Westhoek. Pentatomoidea.
662

Swarming of lonchaeid flies and other insects, with descriptions of four new species of Lonchaeidae (Diptera).
663

Descriptions of two new species of the genus Stethorus Weise from Japan (Coleoptera: Coccinellidae).
666

A new genus belonging to the tribe Pharini from the northern part of the Ryukyu islands (Coleoptera: Coccinellidae).
667

New reared neotropical species of Rogas Nees (Hymenoptera: Braconidae).
671

Supplementary notes on the genus Pseudoliprus of Japan (Coleoptera: Chrysomelidae-Alticinae).
676

Contribution to the knowledge of the Tineidae of the Eastern Mediterranean.
680

The status of the name Prosimulium albionense Rothfels.
681

The importance of accurately identifying specimens.
684

A new species of Trachysphyrus from the Andes of Ecuador (Hymenoptera, Ichneumonidae).
685

Two new species of Menoponidae (Mallophaga) from the Falconiformes.
686

A review of the genus Turacoeca with description of a new species (Mallophaga: Menoponidae).
687

The macropterous form of Ulopa trivia Germar (Hem., Cicadellidae).
689

Notes on a few Mexican Scarabaeidae (Coleoptera).
695

A new species of Agathymus and a new subspecies of Megathymus (Lepidoptera, Rhopalocera, Megathymidae).
705

The genus Somatia Schiner, II. (Diptera: Somatiidae).
708

Selection of lectotypes for some species of Euxoa Hubner described by J. B. Smith (Lepidoptera: Noctuidae).
712

Notes on the mallophagan genus Comatomenopon and descriptions of two new species.
713

Discovery of the female of Phemigostola synemonistis Strand, 1909 (Lep. Agaristidae).
716

New or little known Quadrifid Noctuidae of Madagascar III. (Lep. Noctuidae).
717

Pionosomus nitens nov. sp., a new type of Lygaeidae from North Africa (Hem. Het. Lygaeidae).
718

Harpocera cypria nov. sp., a new type of Miridae from the Island of Cyprus (Hem. Het.).
719

A new genus and species of Oribatellid mite from Colorado (Acarina: Oribatei).
725

Larval stages of the leaf-miners found in Shikoku. (Coleopterous leaf-miners of Japan. VII).
728

The occurrence of Dermestes peruvianus La Porte and Dermestes haemorrhoidalis Kuster (Col., Dermestidae) in Britain.
752

Studies on North American ants. II. Myrmecina.
759

Some species of Leptoconops of the Oriental and Pacific Regions (Diptera, Ceratopogonidae).
767

Aspects of the biology of Chilicola ashmeadi in Costa Rica (Hymenoptera: Colletidae).
781

The identification of Otiorrhynchus larvae from blackcurrant roots with description of the larvae of O. clavipes (Bonsd.) and O. singularis (L.) (Col., Curculionidae).
787

New ways for the differentiation of the groups of forest ants (Hymenoptera, Formicidae).
798

Five Geometridae of Corsica.
806

Chrysolina americana (L.) (Col., Chrysomelidae) in Britain.
816

A review of the British Trigonotylus (HeteropteraMiridae, Mirinae).
830

Life cycle and development of Leiophron pallipes Curtis (Hymenoptera: Braconidae, Euphorinae) in five mirid hosts in the Belleville district.
836

The Mexican species of Promachus in the subgenus Amblyonychus (0Promachina) (Diptera: Asilidae).
842

New or little-known Elateridae from Japan. X. (Coleoptera).
858

Notes and descriptions of some Leptopsyllid fleas (Siphonaptera).
898

Male genitalia of the Sericomyiini complex (Diptera: Syrphidae).
905

An abnormal intermediate form of Dactynotus (D.) hypochoeridis H.R.L. (Hem., Aphididae).
913

Tinea columbariella Wck. as a pest on imported duck feathers.
1124

Description of a new genus of Lasiocampidae and of its holotype. (Lep. Lasioc. Gonometinae).
1207

Middle German leaf miner finds. Part 2.
1208

Records and descriptions of Tipulidae from South America (Diptera). II.
1210

The fresh-water mites from a small pond.
1216

Description of Leptothorax monjauzei n. sp. from Algeria. (Hym. Formicidae Myrmicinae).
1226

On the true identities of Tuoba and Nesogeophilus (Chilopoda: Geophilomorpha: Geophilidae).
1234

On the true identity of Chomatophilus with description of a new species, and with key and catalogue of all sogonid genera (Chilopoda: Geophilomorpha: Sogonidae).
1235

Three new species of phytoseiid mites from Western Sudan (Acarina: Phytoseiidae). 1242

Diptera: Empididae, Acalyptratae families and Scatophagidae. 1260

Notes on the arthropod fauna of Spitsbergen II. 9. Mallophaga from Spitsbergen and Bear Island. 1261

Bibionidae (Diptera) of New Guinea. 1262

A biocenological investigation of salt marshes on the south coast of the isle of Terschelling. 1265

Neotype designation for Aedes (Stegomyia) albopictus (Skuse). (Diptera: Culicidae). 1267

A note on the identity of Hylemya variata (Fallen) and H. variabilis Stein (Diptera: Anthomyiidae). 1268

Hoverflies (Dipt., Syrphidae) from Spitsbergen. 1271

The North American Microcrambus (Lepidoptera: Pyralididae). 1277

Microarthropods from two Quebec woodland humus forms. II. The Collembola. 1293

New species of horse flies (Diptera, Tabanidae) from palaearctica. 1306

Rare or little known coleophores (Lep. Coleophoridae). 1308

A new synonymy in Hybomitra (Diptera: Tabanidae). 1309

A revised interpretation of the proctiger of male Uranotaenia with a related note on Hodgesia (Diptera: Culicidae). 1313

Muscidae (Dipt.) of Spitsbergen. 1338

Preliminary key for the identification of the nymphs of North European Homoptera Cicadina. I. Delphacidae. 1340

On the life of Vespula vulgaris (L.) and V. maculifrons (Buysson) (Hymenoptera: Vespidae). 1357

A contribution to the study of the Mediterranean Rhizopulvinariae. (Hom. Coccidae). 1370

A preliminary report of Plusia festata Graeser (Lep., Noctuidae). 1373

Some new information on the Bostrychidae of Africa. 1381

Sweetclover-weevil feeding deterrent B: Isolation and identification. 1598

Scale insects, mealy bugs and lac insects. 1615

New Old World genera of the Eurygeniini (Coleoptera: Anthicidae). 1862

Orthopterological notes. XXII. The genus Myrmecophilus Berth. in Italy. 1866

The Chironomidae of Florida. II. The nuisance species. 1868

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LII. Lepidoptera Pieridae. 1869

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. L. Orthoptera Gryllodea. 1874

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LIII. Homoptera Cicadidae. 1876

The aphid fauna of Spitsbergen. 1880

On some species of the genus Arctosa C. L. Koch and Tricca Simon (Araneae-Lycosidae). 1892

Concerning knowledge of the order Periommatus Chapuis (Coleoptera, Platypodidae). III. 1901

Bionomics and taxonomy of Meloe (Coleoptera, Meloidae), with a classification of the New World species. 1903

A review of the praying mantises of Ghana. (Dictyoptera Mantodea). 1905

Revision of African Reduviidae. II. Harpactorinae. Genus Nagusta Stal. 1914

Supplementary information on Korean Psyllidae. (Homoptera Psyllodea). 1999

Flashes of Photuris fireflies: Their value and use in recognizing species. 2005

The color change of Poecilimon ornatus Schmidt in the post-embryonic development. (Orthoptera-Tettigoniidae). 2017

A new biotype of cabbage aphid (Brevicoryne brassicae (L.)) on aphid resistant rape (Brassica napus L.). 2220

Sight identification key for mosquitoes of the Great Salt Lake Basin. 2486

Two genera of the family Encyrtidae (Hym., Chalcidoidea), new for Europe. 2492

Description of Scaphidium comes sp. n. and notes on some other palaearctic species of the genus Scaphidium (Coleoptera, Scaphidiidae). 2502

Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 2508

A new species of Colpocephalum (Hallophaga: Menoponidae) from the kea. 2517

Miscophus heliophilus sp. n. (Hym., Sphecidae). 2518

Occurrence of Aedes infirmatus D. K. in Arizona. 2523

Notes on Alaskan mosquito records. 2528

Preliminary reports on the Lepidoptera of Mount Terminillo. 2537

On the generic position of Plesiocera flavifrons Becker and of a few related species (Diptera, Bombyliidae). 2576

The use of coeloconic sensillae on the female antenna in differentiating the members of the Anopheles gambiae Giles complex. 2589

Identification of pteridines in Aedes aegypti (L.). 2612

Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea. 2613

Parasites of Sphaerolecanium prunastri Fonsc. (Homoptera, Coccoidea). 2616

Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba. 2646

Mimicry of Hymenoptera by beetles with unconventional flight. 2653

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes. 2824

A study of the distribution of Glossina in Ethiopia. 2987

Bozberg-report 1964. The occurrence of moths on the Bozberg in 1964. 3087

A new species of lady-bird beetle (Col. Coccinellidae) feeding on Adelges spp. (Hem. Adelgidae) in North-Western India. 3110

The larval characteristics of some subfamilies of British Staphylinidae (Coleoptera) with keys to the known genera. 3111

Rhynchota (Heteroptera,Homoptera, Auchenorrhyncha) topographical and synonym catalog. 3128

The mosquitoes of Nevada. 3175

Two new species of Dacinae (Diptera: Trypetidae) from New Guinea. 3190

The Carabidae of Estonia. 3211

Northern records of the genus Culiseta Felt in Australia with the description of a new species (Diptera: Culicidae). 3238

The brown-banded cockroach in Hamburg. 3308

Glasshouse symphylids. 3443

Notes on the Chrysomelidae from Taiwan I. 3755

Solierella nitraria sp. n. (Hym., Sphecidae). 3763

A contribution to the genus Mantis Linne and Paramantis, nov. (Mantidae). 3768

A new species of Penthetria from Japan (Diptera, Bibionidae). 3769

On the identity of 'Dasythorax ogasawarae Matsumura' (Lepidoptera, Noctuidae, Cuculliinae). 3777

The neotropic species of Xanthopimpla (Hymenoptera: Ichneumonidae). 3782

Sphecoidea from the Ryukyus and Formosa (Hymenoptera). 3783

A new species of Eriococcus infesting American beach-grass in North Carolina (Homoptera: Coccoidea). 3785

Studies of neotropical caddis flies. VIII: The immature stages of Barypenthus claudens (Trichoptera: Odontoceridae). 3818

European species of the genus Myospila Rond. (Dipt., Muscidae). 3823

Description of the larva of Parena (Parena) perforata (Bates), with some notes on its life history (Carabidae). 3825

A description of the developmental stages of Ctenophora guttata Wied. and a review of the Czechoslovak species of the genus Ctenophora (Dipt., Tipulidae). 3847

Record of the moth ear mite, Dicrocheles phalaenodectes, in Ohio (Acarina: Mesostigmata). 3865

Notes on the parasites of the root aphids (Hymenoptera, Aphidiidae). 3876

Some important aspects of cotton insect control. 4044

INSECT IDENTIFICATION

Lepidoptera of the Nevada Test Site. 4356

A record of Megachile rotundata (F.) from Ashcroft. British Columbia. 4358

The occurrence of the solitary wasp Pterochilus phaleratus Panz. in the Scandinavian countries (Hym. Eumenidae). 4379

Studies of black flies of Panama. III. Two new species of Simulium of the subgenus Hemicnetha. 4383

Nearctic species of the genus Synaldis Foerster (Hymenoptera, Braconidae, Alysiinae). 4384

Records of Ohio fleas (Siphonaptera). 4397

Tabanidae (Diptera) of the Netherlands. 4403

Contribution to the systematics and zoogeography of Halticinae (Col.) in the Canary Islands. 4410

Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413

Aphids from the subtribe Schizolachnina (Aphidoidea, Lachninae) in Middle Europe. 4420

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia. 4424

Chelacheles michalskii n. sp. (Acari, Cheyletidae). 4427

Iconography of the eggs of the Lepidoptera fauna of Belgium. 4429

Annotated list of forest insects of British Columbia. XIV. Ennominae (Geometridae). 4433

The identity of Sitophilus oryzae. 4462

Fauna of the predator bugs (Hemiptera-Heteroptera) occurring on apple trees in the district of Poznan. 4532

Watch for the cereal leaf beetle. 4557

Apomyelois bistriatella: A moth which feeds in an ascomycete fungus (Lepidoptera: Pyralidae). 4583

The nymphal instars of four lace bugs from Czechoslovakia. (Heteroptera, Tingidae). 4604

Laelius utilis Cockerell (Hymenoptera: Bethylidae) stinging a child at London, Ontario. 4651

Insect and mite control on nursery stock in Ohio. 4743

Narcissus flies. 4748

The cicadelle Empoasca flavescens and the grill of grapevines in the South-West of France. 4761

A look at the plant pest control divison. 4887

New species of chironomids (Diptera, Chironomidae) from Yashil-kul and Bulun-Kul lakes (Pamirs). 4982

Lepidoptera of the Nevada Test Site. 4987

Wingless Camel Crickets in Lancashire. 4993

Two variant females of Colias (Zerene) cesonia (Pieridae). 4997

Coleoptera from Southeast Asia arranged by M. Chujo (VII). Coccinellid-beetles from E. Nepal, Thailand, Cambodia, Viet-Nam, S. Korea and Is. Ambon, with descriptions of 4 new species and 33 figures. 5000

Systematic revision of the species of the genus Oberea Mulsant all over the world. (Coleoptera Cerambycidae). Second part. 5003

Systematic revision of the species of the genus Oberea Mulsant all over the world. (Coleoptera Cerambycidae) Third part. 5004

A new Chilean species of Opsophagus aldrich, 1926, (Diptera, Tachinidae). 5008

Ixodes walkerae, n. sp. from a bird in Kenya. (Acarina: Ixodidae). 5012

The Pachydeminae (Coleoptera, Melolonthidae) collected by the Hungarian zoological expedition to the Brazzaville Congo. 5014

A new genera of Pachydeminae (Coleoptera, Melolonthidae) of Somalia. 5015

A revision of the leafhopper genus Macropsidius Rib. (Hom., Auchenorrhyncha). 5018

New and so far undescribed Cicadellidae species from Rumania and Italy (Hom., Auchenorrh.). 5019

The Imbecillus and Rufus groups of the spider genus Philodromus in North America. (Araneida: Thomisidae). 5020

Two Noctuidae new for the fauna of Belgium. 5022

Notes on the genus Elymana DeLong (Homoptera Cicadellidae). 5023

Flukea vockerothi, a new genus and new species of Chilean Syrphidae (Diptera). 5027

Beetle finds in the South Ticino, July 1964. 5043

The species of the sub-family Cassidinae (Chrys., Col.) in Bulgaria. 5052

A new species Chrysomela rufoaenea SUFF. for the fauna of Bulgaria from the collection of the Zoological Museum in Sofia, Chrysom., Col. 5053

A new species of Tribolium from North America previously confused with Tribolium madens (Charp.) (Coleoptera: Tenebrionidae). 5055

A new kind of Macrosiphoniella (Macrosiponiella Haerelli n. sp.(Aphididae)) of Artemisia rupestris. 5058

Genitalia of the types of Chilean Satyridae on deposit at the British Museum. 5061

New African Ennominae (Lep. Geometridae). 5062

The genus Lasiodactylus Perty in Japan (Coleoptera: Nitidulidae). 5067

Descriptions of new species of the family Encyrtidae from Czechoslovakia (Hym., Chalcidoidea). II. 5068

Is one able to diagnose the sex of the moth, Celerio euphorbiae (Lep., Sphingidae) in the caterpillar stage . 5070

Descriptions of two new aphid species (Sitobion equiseti sp. n. and Linosiphon asperulophagus sp. n.) from Czechoslovakia (Homoptera, Aphididae). 5072

The Cicadidae of the Ryukyu Archipelago (Hemiptera). 5074

Hadrodactylus branderi n. sp. (Hym., Ichneumonidae) from Finland. 5076

A new species of Batyle from Utah (Coleoptera: Cerambycidae). 5082

Faunistic studies on some acari of the families Myobiidae and Cheyletidae, parasitizing on small mammals in Bulgaria. 5084

Contribution to the study of Aphididae (Hom) of the French forests. 5087

First records of two butterflies in Wisconsin (Nymphalidae, Pieridae). 5098

Cosymbia pupillaria Hbn. at an altitude of 3200 meters. 5099

Scorpions, whip scorpions and wind scorpions of Florida. 5108

Contributions to a study of the Pyraustinae (Lepidoptera: Pyralidae) of temperate East Asia. V. 5109

A new species and new records of Mackiena (Acarina, Trombiculidae). 5111

New Thysanoptera from central Asia (U. S. S. R.). 5118

Two new species of Oedaleothrips (Thysanoptera) from Asia. 5119

New description of palearctic Scrobipalpa species. (Lepidoptera, Gelechiidae). 5126

A review of the genus Dicteisia Bedford (Mallophaga: Menoponidae) with description of a new species. 5127

The identity of Naphius seed bug pests in Africa (Hemiptera: Lygaeidae). 5143

Key for the determination of species from U.S.S.R. belonging to the genus Scolytus Geoffroy (Scolytidae, Coleoptera). 5145

Two new species of Praon Haliday from Czechoslovakia (Hym., Aphidiidae). 5146

Entomological results of catches in the area of San Bernardino (Misox Gr), which has not been fully explored lepidoterologically. (A building block of the Swiss Lepidoptera fauna). 5147

Discovery of the genus Anusioidea Girault from Asia (Hymenoptera: Chalcidoidea-Encyrtidae). 5152

A new name for Metaphycus eriococci Alam (Hymenoptera: Chalcidoidea-Encyrtidae). 5153

Evansipsylla thysanota, a new genus, new species of flea from Nepal (Siphonaptera: Hystrichopsyllidae). 5156

On some Sphecoidea from the Ryukyus (Hymenoptera). 5157

Reassignment of the Ambigua group of Pristiphora to a new genus, Sharliphora (Hymenoptera: Tenthredinidae). 5172

Argas (Argas) Japonicus, new species, associated with swallows in Japan and Korea (Ixodoidea, Argasidae). 5174

The Cosmopolites banana weevils (Coleoptera: Curculionidae: Rhynchophorinae). 5177

A comparative electrophoresis study of the Triatoma rubida Complex (Hemiptera: Reduviidae: Triatominae). 5181

Watch for the cereal leaf beetle. 5186

Hard to kill pests of fruit trees - woolly apple-aphid. 5195

Notes on some Nematinae from Czechoslovakia (Hym., Tenthredinidae). 5218

New contributions to the study of chalcids in the Socialist Republic of Rumania (XIV). 5234

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan; June 1961-June 1966. Part I. Scale insects. 5323

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan. June 1961 - June 1969. Part II. Fruit flies. 5324

Faunal and zoocenological analysis of the soil insect communities in the ecosystem of shelterbelt and field. 5333

Blacus-dances, experiences and studies (Braconidae, Hymenoptera). 5344

The females of Laelius anthrenivorus Trani (Hym. Bethylidae) attacking man. 5492

The beetles (Coleoptera) of Babia Gora Mountain (Polish Western Carpathians). 5518

Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 5529

Control of household insects. 5593

Immature stages of Elasmotropis testacea (H. - S.) and notes on the bionomics of the species (Heteroptera, Tingidae). 5632

Variation in Chlorion latreillei (Hymenoptera, Sphecidae). 5647

European pine shoot moth. 5663

Identification of the host range of Culex tritaeniorhynchus mosquitoes on Okinawa, Ryukyu Islands. 5765

Capsid bugs on fruit. 6225

The pink bollworms of cotton, Pectinophora gossypiella Saund., in a protected northwest zone and diagnostic characteristics. 6227

A viticultural crisis of more than a quarter of a century: It has been a century since France discovered Phylloxera. 6254

The occurrence of the capillate louse, Solenopotes capillatus, in South Africa. 6887

A record of the mite, Speleognathus australis, in bovines in South Africa. 6888

Mass appearance at Brussels of Sitotroga cerealella Ol. (Gelechiidae). 7036

Pseudosmittia mathildae sp. n. (Diptera, Chironomidae). 7428

Contribution to the revision of the genus Orthostigma (Hymenoptera, Braconidae). 7490

Phylogenetic studies on Chironomidae (Dipt.), with special reference to the Corynoneura group. 7535

INSECT INFESTATION

The effect of aphid numbers and stage of plant growth in determining tolerance to barley yellow dwarf virus in cereals. 2179

Effect of attack by Costelytra zealandica (White) larvae on ryegrass varieties. 2218

A new biotype of cabbage aphid (Brevicoryne brassicae (L.)) on aphid resistant rape (Brassica napus L.). 2220

An association between serum amylase phenotype and tick infestation in cattle. 2353

Sustained natural infestation by the mountain pine beetle in seven new Pinus and Picea hosts. 3437

Relation of ration to short-nosed cattle louse infestations. 3607

INSECT MATING

Flashes of Photuris fireflies: Their value and use in recognizing species. 2005

Competitive mating tests between normal and aspermic male house flies. 2035

Studies on copulation of some sarcophagid flies (Diptera). Taxonomic importance of some features of male and female genitalia. 2503

INSECT METABOLISM

Metabolism of methylcarbamate insecticides by the NADPH2-requiring enzyme system from houseflies. 4

Amino acid and protein metabolism in insect development. 73

Lipid metabolism and function in insects. 92

Metabolic control mechanisms in insects. 98

The biochemistry of the insect fat body. 110

The change in voltinism in Bombyx mori L., by injection of either adrenalin or insulin. (Preliminary note). 130

The biochemistry of sugars and polysaccharides in insects. 176

Effects of oxygen deprivation on aquatic midge larvae under natural and laboratory conditions. 745

Metabolism of the chemosterilant hempa by carbamateresistant house flies. 1352

The energetics of the development of cabbage white Pieris brassicae L. (Lepidoptera). 1372

The oxygen consumption of different color stages in the bug Nezara viridula (L.). 1436

A demonstration through symbiotic microorganisms of the effect of sterol synthesis in artificially fed aphids (Homoptera, Rhynchota, Insecta). 1955

Changes in glycogen-, lipid-, and nitrogen metabolism of the imago of Pyrrhocoris apterus L. in connection with the reproduction process. 1989

On the food utilization and digestion of major food nutrients in the lepidoaterous larvae feeding on cauliflowers. 2009

Sterols of the common house cricket, Acheta domesticus L. 2549

Whole-body turnover of sodium in adult Drosophila (Drosophiladae) and Megaselia (Phoridae). 2572

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants. 2645

Acetylcholinesterase insensitivity in the Biarra strain of the cattle tick Boophilus microplus, as a cause of resistance to organophosphorus and carbamate acaricides. 2647

Variations in the neutral lipids of Dysdercus koenigii (Hemiptera) during its life cycle. 3145

Metabolism of diazinon-C14 in western corn rootworm beetles. 3176

Development of the bait principle for boll weevil control: Calco Oil Red N-1700 dye for measuring ingestion. 3181

Quantitative dietary requirements for histidine in the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae). 3183

Changes in body weight, fat, glycogen, and protein during diapause of Trogoderma granarium. 3226

Effect of alpha-methyl-DL-TRYPTOPHAN on tryptophan metabolism of Musca domestica L.. 3233

Digestibility studies with cellulose-U-C14 on larvae of the pale western cutworm, Agrotis orthogonia. 3244

Metabolism of S35-parathion in the house fly. 3256

Neutral lipid metabolism during embryonic development of the Indian-meal moth, Plodia interpunctella (Hubner). 3320

Genetic analysis of a population of Tribolium. II. Metabolic pattern of corn oil sensitive anomaly. 3327

Insect metabolism of photoaldrin and photodieldrin. 3837

Control of metabolism in the silkworm pupal ovary by the diapause hormone. 4508

Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518

An action of insect hormones on carbohydrate metabolism in insects. 4531

Regulation of growth of nurse nuclei in the development of egg follicles in Cecidomyiidae (Diptera). 4564

Intestinal transport and metabolism of D-amino acids in the silkworm, Bombyx mori L. 4599

Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster. 4639

Some properties of the microsomal system metabolizing DDT in Triatoma infestans. 5183

Oxidative metabolism of carbohydrates in phytophagous insects. I. Glycolysis in the cotton stainer Dysdercus fasciatus Signoret (Pyrrhocoridae, Hemiptera). 5189

Rearing of Ips cembrae larvae on artifical diets: Some essential amino acids and sugars. 5206

The physiology of mosquitoes. 5266

On the metabolism of pterine and its hydrogen derivatives in Colias croceus (Fourcroy) (Lepidoptera Pieridae). 5286

Nicotinamide-adenine dinucleotide-linked form of lactic dehydrogenase of the symbionts and fat bodies of a cockroach. 5295

Piperonylic acid conjugates with alanine, glutamate, glutamine, glycine, and serine in living houseflies. 5296

Metabolism of aniline in the cattle tick Boophilus microplus Canestrini. 5368

Metabolism of the muscle of the scorpion. 5403

Fatty acid metabolism in D. melanogaster: Formation of palmitoleate. 5404

Chlorinated hydrocarbon insecticide inhibition of cockroach and honey bee ATPases. 5414

Regulation of tryptophan metabolism in the parasitic wasp, Habrobracon juglandis. 5439

Utilization of larval cholestrol-4-C14 for reproduction in house flies fed unlabeled cholesterol in the adult diet. 5481

Observations on the oxygen consumption of tsetse larvae (Glossina morsitans). 5542

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. 5552

Physiological studies on the digestion of coccinellid beetles (Coleoptera: Coccinellidae), with special reference to their food habits. 5579

Oxidative metabolism of C14-labeled Baygon by living house flies and by house fly enzyme preparations. 5604

Some factors that condition feeding in larvae of the migratory locust, Locusta migratoria migratorioides (Orthoptera, Acrididae). I. External factors. 5613

Study of the insecticidal action of trans-chrysanthemate allethrolone on Musca domestica. 6693

Phospholipase A in the venom of the Australian bulldog ant Myrmecia pyriformis. 7180

The conversion of glutamate to alanine in the tsetse fly (Glossina morsitans). 7582

Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae). 7600

Phospholipase activity in Musca domestica L.. 7627

The metabolism of nucleic acids in the wing buds of Pieris brassicae (L.) (Lepidoptera, Pieridae). 7637

Studies on the allosteric control of an enzyme involved in insect tanning. 7686

Changes taking place in the respiratory efficiency of isolated flight muscle sarcosomes, associated with the age of the blowfly, Calliphora erythrocephala. 7713

INSECT MIGRATION

Larval movement of Lasioderma serricorne (F.) (Coleopterai Anobiidae) in a plane. 116

Notonecta borealis Bueno and Hussey (Hem., Notonectidae): A flightless species . 150

A model of the plant-to-plant movement of aphids. I. Description of the model. 153

Dermestes peruvianus Lap. (Col., Dermestidae): A correction. 590

Systematic investigations of weather-controlled flight and migration phenomena of virus-carrying insects in western, northern, and southern Germany. 802

Chrysolina americana (L.) (Col., Chrysomelidae) in Britain. 816

The dispersion of the resettlement of Dendroctonus micans Kugcl. on Picea orientalis Link, in the Borshom Gorge. 826

Insect migration and air currents. (abstract). 870

Operational research into aerial control of hoppers of the Red Locust (Nomadacris septemfasciata Scrville) in an outbreak area. 994

Notes on the Odonata of the Netherlands. Crocothemis erythraea (Brulli, 1832) in the Netherlands (Libellulidae, Sympetrinae). 1273

A mass flight of Amphimallon solstitialis (Linne) (Col., Scarabaeidae). 1366

Effects of selection and migration on geotactic and phototactic behaviour of Drosophila. I. 1382

Notes on butterfly migration in Argentina between April 1966 and May 1968. 1405

A study of oviposition site, mortality and migration in the first (Overwintering) generation of Lygocoris pabulinus (Fallen) (Heteroptera: Miridae) on blackcurrant shoots (1966-7). 1620

Biology of the face fly: Migration of larvae. 1991

The possibility of the occurrence of warm- and cold season relicts on the Zitzmannsdorf meadow at the Neusiedler lake. 1995

Environmental factors regulating the diurnal vertical migration of Chaoborus larvae. 2000

The color change of Poecilimon ornatus Schmidt in the post-embryonic development. (Orthoptera-Tettigoniidae). 2017

The cereal leaf beetle-a new insect in Ontario. 2510

Distribution of the face fly, Musca autumnalis (Diptera: Muscidae), in western Canada and the relation between its environment and population density. 2568

Selection of phase types based on hopper coloration in Locustana pardalina (Walker). 2624

The immigration of Pieris brassicae L. (Lep., Pieridae) into Finland in 1966, with a general discussion on insect migration. 2660

Scientific results of the Polish Hindu-Kush Expedition 1966. Part I. The migration of the Painted Lady, Pyrameis (Vanessa) cardui L., in the High Hindu-Kush. 2671

Seasonal occurrence and physiology of Culex tarsalis in foothills of Fresno County, California. 3229

The giant bark beetle (Dendroctonus micans Kugel) in Georgia (USSR). 3230

Study of the dependence of the population dynamic of the apple moth (Carpocapsa pomonella L.) on the fruit yield of the hostplant. 4755

Cosymbia pupillaria Hbn. at an altitude of 3200 meters. 5099

The study of the aerial migration of insects as applied to phyto-sanitary control. 5237

Selection for divergent emigration rates in laboratory populations of Musca domestica. 5269

Biological observations on the desert locust (Schistocerca migratoria migratorioides) in Chad. 5285

The control of the house fly in the city of Tunis. 5297

The hemlock sawfly in southeast Alaska. 5353

Meteorological aspects of insect migrations. 5379

Cyclophora pupillaria Hb. in Belgium (LepidopteraGeometridae). 5438

Emigration and mortality rates and the food-shelter conditions of Ligidium hypnorum L. (Isopoda). 5624

Effects of selection and migration on geotactic and phototactic behaviour of Drosophila. II. 5702

Occurrence of Vanessa cardui L. (Lepidoptera, Nymphalidae) in Finland. 7606

INSECT MORPHOLOGY

A revision of the genus Copris Muller of the Western Hemisphere (Coleoptera, Scarabaeidae). matthews, e g. 5

Controlling the Mexican bean beetle. 56

Neurosecretion in Dolichopoda geniculata Costa: Observations on pars intercerebralis and on the retrocerebral endocrine system. 61

Amino acid and protein metabolism in insect development. 73

Butterflies, collecting and rearing. 93

Morphological and biological investigations on clones and field populations of the foxglove-aphid, Aulacorthum solani KLTB. 1843 sensu latiore (Hemipt. Aphid.). 127

Integumental pigments of the millipede, Polydesmus angustus (Latzel). 133

On the accessory glands of the male reproductive apparatus of Dolichopoda geniculata Costa (Orthoptera, Raphidophoridae). 138

Pathologic complications during the larval development of Lymantria despar in the laboratory. 145

Pre-gravid phase of ovarian development in Aedes detritus Aedes detritus Haliday. 151

The gypsy moth threat in America. 216

Biology of the spiny bollworm. 278

The Hessian fly. 281

Spinulana, new genus of Mexican Deltocephalinae, and two new species of Spinulana. (Homoptera; Cicadellidae). 614

Correlations between characters in species of Colias (Lepidoptera: Pieridae). 625

Polish species of the family Triozidae (Homoptera, Psyllodea). 649

Mysmena jobi n. sp., a Symphytognathide in middle Europe (Arachnida, Araneae, Symphytognathidae). 652

Chloropid flies of the genus Dicraeus Lw. (Diptera, Chloropidae). 673

Palearctic species of the genus Sphenometopa Townsend (Diptera, Sarcophagidae). 696

Coleoptera from northeast Africa. Scolytidae and Platypodidae. 255. Contribution to the morphology and taxonomy of the Scolytidae. 702

The larva of Homosusica eugrapha Janse (Lepidoptera: Limacodidae). 711

A life history study of the ash seed weevils, Thysanocnemis bischoffi Blatchley and T. helvola Leconte. (Coleoptera; curculionidae). 748

Morphology and relationships of the male of an Asterolecanium species (Homoptera: Coccoidea: Asterolecaniidae). 796

Distribution of nitrogen during the embryonic development of the mealworm, Tenebrio molitor Linnaeus. 819

Differential spectra of cytochromes in development of the flight-muscles in Antheraea pernyi. 821

Life history, habitat, and taxonomic characters of the larva of Mochlonyx fuliginosus. 829

A description of two Magdalis larvae (Col. Curc.) and a comparison between these and the Scolytus larvae (Col. Scol.). 832

Nests and social behavior of three species of Pseudaugochloropsis (Hymenoptera: Halictidae). 846

Gynandromorphic Paleacrita vernata (Lepidoptera: Geometridae). 854

The male genitalia of some Criorhina Meigen species from North America (Diptera: Syrphidae). 857

Structure and metamorphosis of the malpighian tubules of Callosobruchus maculatus (F.) (Bruchidae: Coleoptera). 860

Evidence for extracellular space in the rhabdome of the honeybee drone eye. 863

Innervation of the gut of the migratory locust, Locusta migratoria L. (Orthoptera, Acrididae). 864

Postembryonic development of the eye and its ganglia of Drosophila melanogaster. 876

Postembryonic development of the eye ganglia in Anopheles stephensi Liston. 877

Studies on the brain of Monomorium indicum Forel (Hymenoptera). 879

Some muscid flies (Dipt.), of Lancashire and Cheshire. 883

The night-day activity rhythm of Tetratoma fungorum F. (Col., Tetratomidae). 885

Notes on rearing Parmena balteus L.(Cerambycidae). 889

Prothoracic tracheae of a buprestio beetle. 897

A mite of the genus Tydeus (Acariformes, Tydeidae) that is a grape pest in Moldavia. 1002

Ecological studies on the green peach aphid, Myzus persiche (Sulzer) and the cabbage aphid, Brevicoryne brassicae (Linnaeus) in Japan, with special reference to their biological control. 1015

Tinea columbariella Wck. as a pest on imported duck feathers. 1124

Investigations concerning the ecology and control of the face fly, Musca autumnalis de Geer. 1125

Dietary efficiency of natural foods for the growth and development of Tribolium castaneum Hbst. and Corcyra cephalonica Staint. 1160

Observations on the genus Pheroliodes. I.--Pheroliodes roblensis n. sp. (Acarina, Oribatei). 1233

Notes on the genus Placusa Erichson (Col., Staphylinidae), with a key to the Nordic species. 1270

The systematic position of Orthophrys mexicanum Van Duzee (Hemiptera Heteroptera: Saldidae). 1282

Ecological and morphological study of robber flies of the tribe Asilini (Diptera, Asilidae) with descriptions of new genera and species from Kazakhstan and Soviet Central asia. 1287

A review of the taxonomy and morphology of the Berothidae, with the description of a new subfamily from Chile (Neuroptera). 1290

The family Arctopsycidae (Trichoptera). 1324

Advances in insect physiology. 1359

Sexual dimorphism of the Campsomerinae (Hymenoptera, Scoliidae). 1362

A contribution to the study of the Mediterranean Rhizopulvinariae. (Hom. Coccidae). 1370

The life history and development of Lypha dubia Fall. (Dipt., Tachinidae). 1371

The energetics of the development of cabbage white Pieris brassicae L. (Lepidoptera). 1372

Ultrastructure of the sensory hairs of the antennae in the larvae of Speophyes lucidulus (Delar.) (Col. Bathysc.). 1375

Morphology, endoskeleton and muscles of an apterous acridid (Orthoptera: Proscopiidae). 1377

Development of eggs of the tick, Ixodes ricinus L., depending on temperature and humidity and the thermopreferendum and daily activity of its larvae. 1379

The external morphology of the post-embryonic developmental stages of Spinturnix myoti Kol. (Acari: Mesostigmata). 1386

Some relict New Guinea leafhoppers and their significance in relation to the comparative morphology of the head and prothorax of the Homoptera-Auchenorrhyncha (Homoptera; Cicadellidae; Ulopinae). 1387

Heterogeneity in the fibre composition of the flight muscles of dragonflies (Odonata). 1394

Notes on some Japanese Eriosomatinae (Homopt., Aphididae) and their life cycle. 1408

Circumversion and mating positions in Platypezidae--an expanded and emended account (Diptera). 1419

Larval dimorphism and other characters of Heterocampa pulverea (Grote Robinson) (Lepidoptera: Notodontidae). 1422

Boophilus kohlsi Hoogstraal and Kaiser 1960 (Acarina: Ixodidae). Life cycle and morphology of larva. 1424

Histochemistry and ultrastructure of the mycetomes and symbiotes of Icerya purchasi Mask. (Homoptera-CoccoideaMonophlebinae). 1431

Pyralidae of Texel. 1437

Observations and records for some British Thysanoptera. VII. Thripidae. Thrips klapaleki Uzel. 1438

On the morphology and histology of the digestive tracts of two Jassids (Homoptera, Auchenorrhyncha), with special consideration of the so-called filter chamber. 1439

Nurserymens experience in 1964-1965 with Mellicta athalia Rott. (Lep., Nymphalidae). 1442

Adverse effects of folic acid on the gonads of adult Drosophila (Insecta, Diptera). Modifications in morphology and histopathology. 1444

Oviparous morphs of Lipaphis erysimi (Kaltenbach) in India (Homoptera: Aphididae). 1446

On the knowledge of the morphology and biology of Trogoderma angustum Solier, 1849 (Coleoptera; Dermestidae). 1447

A remarkable teratological specimen of the Indian stick insect Carausius morosus Br. (Phasmidae, Orthoptera). 1449

Electron microscopical investigations on the morphology of gall mites (Eriophyidae). 1455

Structure of the cryptonephridial malpighian region of the larval Hymenopteran Symphyta. 1460

The effects of juvenile hormone analogues on the embryonic development of silkworms. 1462

The evolutionary significance of rotation of the ootheca in the Blattaria. 1464

The homologies of the female genitalia in the Pentatomoidea (Hemiptera-Heteroptera). 1468

On the evolution of Carabids' scent gland secretion. On Arthropod defense substances. 1470

Morphological aspects of the development in vitro of the imago discs of Drosophila. 1471

Nervous system of the head of Prodenia litura (Lepidoptera, Noctuidae). 1478

Head nerves of the larva of Prodenia litura Fabr. (Lepidoptera, Noctuidae). 1479

The genital organs of the northern species of the genus Aleochara Grav. (Col., Staphylinidae). 1482

Hormonal termination of larval diapause in Dermacentor albipictus. 1492

Study of the corpus luteum in insect ovaries by fluorescence microscopy. 1494

Allomorphic growth patterns in relation to sex-limited polymorphism in some mycophagous Tubulifera (Thysanoptera). 1496

Karyotypic stability and speciation in Hawaiian Drosophila. 1500

Selection for and against gregariousness in the choice of oviposition sites of the Drosophila pseudoobscura. 1501

Homeotic wing structure in the loboid-allele ophthalmoptera (ldoph) in Drosophila melanogaster. 1508

INSECT MORPHOLOGY

Analysis of the occurrence of nematodes in alfalfa crops. III. Some observations on age structure. 1627

Gastrophilus species recorded in equine (horses, donkeys, and mules) from Turkey. 1724

Macrosiphum alpinum n. sp. (Homoptera: Aphididae). 1898

Wing micro-sculpturing in termite genera Odontotermes, Hypotermes and Microtermes (Termitidae: Macrotermitinae) and its taxonomic value. 1906

The bark beetles of Greece and Cyprus. (249. Contribution to the morphology and taxonomy of the Scolytoidea). 1909

A new species of Elasmolomus (Heteroptera: Lygaeidae) from Australia. 1910

The morphological basis of embryonic movements in the light brown apple moth, Epiphyas postvittana (Walk.) (Lepidoptera: Tortricidae). 1918

Structure and function of the rectal pads in Hymenoptera. 1922

Influence of changes in the cotton plant during the season on the feeding, oviposition, and development of the boll weevil. 1923

Studies on the morphology of Lethocerus indicum Lep. and Serv. (Hemiptera--Heteroptera--Cryptocerata-Belostomatidae). Part V. The morphology of the stomodeal nervous system with special reference to the histology of the corpora cardiaca and allata. 1929

The anatomy and physiology of the morabine grasshoppers. III. Muscles, nerves, tracheae, and genitalia. 1930

Studies on the structure of the head, mouth-parts and their musculature in Hippobosca maculata Leach (Diptera: Pupipara). 1951

Observations on the histo-morphology of the labial glands in Neodiprion sertifer Geoffroy (Hymenoptera Diprionidae). 1961

On the spiracles of the larvae of the suborder Myxophaga (Coleoptera). 1981

The structure of the spiracles of the cattle tick, Boophilus microplus. 1982

Structure and ecdysial process of the larval spiracles of the Scarabaeoidea, with special reference to those of Lepidoderma. 1983

Investigation into a conditional host modification by the ichneumonid fly Perithous divinator (Rossi) (Hym., Ichneum.). 1984

Studies on the metamorphosis of the alimentary canal of Hyalophora cecropia (L.). 1992

The life history of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae). 1994

Developmental changes in the late larva of Calliphora stygia. I. Haemolymph. 1998

The presence waxes in two kinds of lac cells. 2006

The embryonic development of the brain in paurometabolic insects. A study on Carausius morosus and Periplaneta americana. 2007

Morphology of the head capsule and its appendages of Stenthorus gilvifrons Mulsant (Coleoptera: Coccinellidae). 2010

Linkage studies of aldrin resistance in Blattella germanica (L.). 2011

Histopathology of the developing reproductive system of Aedes stimulans (Walker) (Diptera: Culicidae) under thermal stress. 2026

Geographical variation in Paprides nitidus (Hutton) (Orthoptera: Acrididae). 2028

Morphological and histochemical study of the scent gland in the pond-skater, Gerris spinolae Leth. et Seu. (Gerridae-Insecta). 2032

Structures of unknown, possibly stridulatory, function of the wings and body of Neuroptera; with an appendix on other endopterygote orders. 2034

A morphological and functional study of the venom apparatus in representatives of some major groups of Hymenoptera. 2036

Organogenesis of the female reproductive system of an aedine mosquito. 2038

Investigation into the appearance of the three castes in the bumblebee colony. 2040

On the morphology and the bionomics of the insects of economic importance. II. Head appendages in Alphitobius diaperinus (Panz.) (Tenebrionidae, Coleoptera). 2043

Head capsule of Alphitobius diaperinus (Panz.) (Tenebrionidae-Coleoptera). 2044

Photoperiodic induction of vernal phenotype in Pieris protodice Boisduval and Le Conte (Lepidoptera: Pieridae). 2047

The free amino acid pattern in tissues of silkworm during development. 2049

Morphology of the head capsule of Aelia rostrata Boh. (Hemiptera: Pentatomidae). 2051

Evolutionary morphology of insect genitalia as exemplified by the sawfly Euura (Hymenoptera: Tenthredinidae). 2052

Fatty acids in Hyalophora cecropia: Biosynthesis and constitution during development. 2055

Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration. 2060

Studies on the morphology and relationships of male Apiomorpha and Opisthoscelis (Hemiptera: Coccoidea). 2061

The use of imaginal disks for the determination of the developmental stage of larvae of Chironomus (Dipt.). 2071

Genetic and cytogenetic relationships among certain nearctic anophelines. 2083

An oak leaf tier, Croesia semipurpurana (Kft.) (Lepidoptera: Tortricidae) in the region of Quebec. 2212

Hymenoptera and nematodes as parasites of Tachyporus species (Col.; Staphylinidae) with special consideration of Centistes lucidator (Nees) (Hym.; Braconidae). 2223

Structure of the plastron of Hexacylloepus, with a description of a new species (Coleoptera, Elminthidae). 2491

On food forms of the flat-headed pear-borer Agrilus viridis (Coleoptera, Buprestidae). 2539

A tachinid parasite of Australian grasshoppers. 2545

Ultrastructure of photoreceptor cells in a vitamin Adeficient moth (Manduca sexta). 2550

New observation on the origin and locality of the microtubules in the ergastoplasm in the migrator locust. Locusta migratoria migratoria (R. and F.). 2551

The importance of bucco-pharyngeal armature in Anopheles and Culex in relation to Dirofilaria infection. 2555

On the determination of age structure of the larvae of Tendipedidae (Diptera). 2561

The structure of the hindgut and associated structures of the larva of Sesamia calamistis Hampson (Lepidoptera: Noctuidae). 2569

Structure, function and development of the rectal apparatus for forming excrements (Kotpresse) of Central European Clytrinae and Cryptocephalinae (Coleoptera, Chrysomelidae). 2571

Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae). 2573

The stylets of the green peach aphid, Myzus persicae (Homoptera: Aphididae). 2575

On the generic position of Plesiocera flavifrons Becker and of a few related species (Diptera, Bombyliidae). 2576

The external morphology and life history of the pseudoscorpion Microcreagris cambridgei. 2578

Some observations on the embryonic development of the external genetalia in the Collembolan Anurida maritima Guerin. 2579

Gall midges (Diptera-Cecidomyiidae) and their parasites (Hymenoptera) living in female birch catkins. 2586

Reproduction in the Pyralididae (Lepidoptera). I. Post-embryonic development and structure of the male reproductive systems of Cadra cautella and Plodia interpunctella. 2591

Comparative morphology of the larvae of certain genera of fleas (Aphaniptera). 2598

Comparative morphology of the male Australian Nepidae (Hemiptera: Aeteroptera). 2602

The structure, function and imaginal development of the female inner reproductive organs of Adelphocoris lineolatus (Goeze), (Heteroptera, Miridae). 2606

Orientation and progress in the studies on the parasitism of entomophagous insects. 2610

Schizeckenosy: The substitute for defecation in chigger mites. 2615

Effects of surface tension on pupae of Culex pipiens quinquefasciatus Say and Aedes aegypti (L.). 2622

A serological comparison of Pissodes strobi and P. approximatus (Coleoptera: Curculionidae). 2632

Development of the beak musculature and sclerites in Heteroptera. 2639

Evolution of the function of the ovipositor in relation to the origin of parasitism in Hymenoptera. 2641

Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba. 2646

Sense organs on the antenna of a parasitic wasp, Nasonia vitripennis (Hymenoptera, Pteromalidae). 2655

Oviposition, development of eggs, and chromosome complement of eggs of virgin females of the grasshopper Melanoplus sanguinipes. 2656

Morphology and biology of Culex pipiens L. (Diptera, Culicidae) in Uzbekistan. 2662

Variation and distribution of the intertidal beetle Halocoryza arenaria (Darlington) in Mexico and the United States (Coleoptera: Carabidae). 2667

Reproductive isolation between two closely related species of the Queensland fruit fly, Dacus tryoni (Frogg.) and D. neohumeralis Hardy (Diptera: Tephritidae). I. Variation in humeral callus pattern and the occurrence of intermediate colour forms in the wild. 2672

Chromosome analyses of quantitative characters in Drosophila melanogaster. 2675

On the resistibility of Drosophila to sodium chloride. II. Differences in the resistibility at different developmental stages. 2676

Studies on the scutellar bristles of Drosophila melanogaster. I. Basic variability, some temperature and culture effects, and responses to short-term selection in the Oregon-RC strain. 2681

A sex-ratio aberration in Drosophila melanogaster (Meigen). 2683

Influence of feeding, oviposition, and egg and larval development of the boll weevil on abscission of cotton squares. 2803

The spined citrus bug--Biprorulus bibax Bredd. (Hemiptera: Pentatomidae). 2804

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. II. Selected environmental and nutritional factors affecting development and sex ratio. 2834

Considerations on Eubaptus palliatus Lac., Bruchus scapularis Pic and descriptions of the preimaginal stages of Eubaptus rufithorax (Pic). 3134

Comparative study of some glands of bees (Hymenoptera, Apoidea) and the respective evolutionary implications. 3177

Two new species of Dacinae (Diptera: Trypetidae) from New Guinea. 3190

Contributions to the study of the ovipositor in Bombilidae. 3191

The external morphology and life history of the pseudoscorpion Roncus lubricus. 3203

The proventriculus of some trichopterous larvae. 3206

The Carabidae of Estonia. 3211

Conversion of serine to glycine during the formation of egg-shells in the silkworm, Bombyx mori. 3227

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L. 3235

Influence of larval population density on the development of Ceratitis capitata Wied. II. 3241

Contributions to the study of the morpho-functional constitution of the female external genitalia in chalcids. 3264

The determining factors in the appearance of winged forms among aphids. 3268

The influence of climatic factors on the development of Clysiana ambiguella Hb. 3284

Pupal development and moth emergence of the red bollworm (Diparopsis castanea)Hmps. in Malawi and Rhodesia. 3295

Cell death during early morphogenesis: Parallels between insect limb and vertebrate limb development. 3312

On the problem of genetic similarity between sibling species--puffing patterns in Drosophila melanogaster and Drosophila simulans. 3322

The pine chrysomelid, Glyptoscelis pubescens, in northwestern Wisconsin. 3441

Geographic distribution of the ant genus Formica (Hymenoptera: Formicidae). 3750

The larva of Carabus (Hygrocarabus Thoms.) variolosus variolosus Fabr. and its position in the larval system of genus Carabus L. (Coleoptera, carabidae). 3753

Acalypta pulchra sp. n.- A new species of Tingidae from Bulgaria. (Heteroptera, Tingidae). 3776

A survey of leaf-miners and their parasites on Laburnum. 3797

Insects and physiology; essays presented to Sir Vincent Wigglesworth, CBE, MD, FRS on his retirement from the Quick Chair of Biology and directorship of the Unit of Insect Physiology in the University of Cambridge. 3800

A contribution to the bionomics and morphology of Rhadinoceraea reitteri Knw. with a description of the larva. (Hym., Tenthredinidae). 3801

Studies on the life history and biological control of the spittlebug, Clastoptera undulata Uhler (Cercopidae: Hemiptera). 3802

Structure and development of the imaginal wing discs of larva in a holometabolous insect, Bombyx mori (Lepidoptera, Bombycidae). 3806

On the determination of age structure of the larvae of Tendipedidae (Diptera). 3813

Changes in soluble proteins during foot-pad development in Sarcophaga bullata. 3821

Studies on the adult diapause of the broad bean weevil, Bruchus rufimanus. 3830

A description of the developmental stages of Ctenophora guttata Wied. and a review of the Czechoslovak species of the genus Ctenophora (Dipt., Tipulidae). 3847

The influence of photoperiod and temperature on the induction of diapause in mulberry pyralid, Glyphodes pyloalis Walker. 3858

Study of the morphogenesis of the maxillary stylet of Rhodnius prolixus by transplantations of incomplete stylogenetic organs. 3862

Control systems in insect development. (abstract). 3872

Bembecia pectinata Stgr. and its first stages. (Lepidoptera, Sesiidae). 3873

Phylogenetic relationships within the Rhopalocera on the basis of the functional morphology of the genital apparatus. 3878

Effect of rearing condition on growth and development of the silkworm, Bombyx mori L., on artificial diet. II. 3882

An electron microscope study of thoracic mitochondriac membranes in developing adults of the blowfly Lucilia cuprina. 3887

Hereditary nature of the two forms of Argyrogramma albostriata (Bremer and Grey) (Noctuidae, Plusiinae). 3898

Ultrastructural peculiarities of the myofibrils in the flight muscles of Lepidoptera. 4452

Biology, ecology and distribution of Amara pseudocommunis Burak. (Coleoptera, Carabidae). 4467

Histochemical data on the neurosecretory allata terminations in Antheraea pernyi Guer. (Lepidoptera, Attacidae) and in Rhodnius prolixus Stal. (Hemiptera, Reduviidae). 4469

The cumulative effects of long photoperiods and the determination of the phase characteristics of the migratory grasshopper, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4472

Internal anatomy of the developmental stages of the twospotted spider mite. 4520

Adult emergence interval and reproduction in parasitic Hymenoptera influenced by host size and density. 4545

Ecological and morphological study of robber flies of the tribe Asilini (Diptera, Asilidae) with descriptions of new genera and species from Kazakhstan and Soviet Central Asia. 4548

Evidence of a modified ovarian region in the hair glands of the Coleopteron, Hydrophilidae. Comparative anatomic data. 4554

Biology of the ant Formica sanguinea Latr. (Hymenoptera, Formicidae) in the Tien Shan. 4559

The warble fly. 4568

Some problems on developmental physiology in the silkworm egg. 4570

The particle lining of the plasmic membrane in connection with excretion in a specialized region of the middle intestine of higher termites. 4574

Prothetely in Carabidae of the genus Pterostichus. 4577

Recent data on the origin of larval polymorphism at hatching in the migratory grasshopper, Schistocerca gregaria Forskal. 4578

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602

Observations on the morpho-biology of Pnigalio mediterraneus Ferr. and Del. (Hym. Eulophidae). 4615

Drosophila deoxyribonucleases. I Variation of deoxyribonucleases in Drosophila melanogaster. 4629

Transdetermination in cells. 4637

Parallel polymorphism for supernumerary segments in Chorthippus parallelus (Zetterstedt). I. British populations. 4638

INSECT MORPHOLOGY

The myiasis fly of the African aardvark (Orycteropus afer (Pallas)). 4852

Soviet entomology during the period 1917-1967. (JPRS 43,647) Transl. 16962. 4966

A brief note on entomology. 4977

Cynipinae (Hymenoptera) occurring on Phlomis L. 5128

The validity of the separation of Thrips physapus L. and T. hukkineni Priesner (Thysanoptera: Thripidae). 5166

The morphology and systematic of Coptopteryx gayi (Blanchard) 1851 (Mantidae). 5176

Continuous variation in related species of the genus Catocala (Noctuidae). 5180

On the multiple effects of oedymerism in the males of Nesothrips falcatus Ananthakrishnan. 5190

Investigations into the circulatory system of the migratory locust (Locusta migratoria migratorioides tr. et F., Orth.) with special reference to the blood pressure. 5215

Contribution to the knowledge of the Cosmopolites sordidus (Germar)(Coleoptera, Curculionidae). (2). 5216

A seasonal form of Baliochila singularis Stempffer and Bennett from Southern Rhodesia (Lepidoptera: Lycaenidae). 5220

Studies on the anatomy of the male reproductive system of the red-cotton bug, Dysdercus cingulatus (Fabr.), (Heteroptera, Pyrrhocoridae). 5229

The cheliceral flagellum of pseudoscorpions. 5231

Evolutionary trends in Heteroptera. Part I Eggs. architecture of the shell, gross embryology and eclosion. 5267

The development of fat bodies in the larvae of Calliphora erythrocephala Meig.. 5277

On the functional morphology of water striders. I. The morphology of the locomotive apparatus of Gerris lacustris L. (Heteroptera: gerridae). 5279

Studies of house flies. I. Breeding of Musca sorbens, Wied.. 5282

Phoretic copulation in Hymenoptera. 5298

The imaginal cells of the clypeo-labrum and the development of the proboscis of Drosophila melanogaster. 5321

The male genetalia of Sepullia murrayi (Fairmaire Signoret (Homoptera: Cercopoidea). 5326

The hemlock sawfly in southeast Alaska. 5353

Pigment movement and the crystalline threads of the firefly eye. 5372

Biochemical correlates of respiratory and developmental changes in anoxic Tribolium confusum pupae. 5408

Contribution to the study of higher termite digestion. 5417

Male genitalia of the species of Depressaria Haworth s. l. (Lepidoptera, Oecophoridae) occurring in the Netherlands (Addenda). 5427

Experiments with an artificial spermatophore in cockchafer (Melolontha melolontha L.). 5431

Quantitative study of divergence in the morphological evolution of certain infraspecific entities in domestic honeybees (A. mellifera L.). 5448

Morphology, anatomy and development of the gall of Rhabdophaga ramicola rubs. in Salix purpurea L. 5449

A tactile seta of the Two-spotted Spider Mite, Tetranychus urticae K. (Acarina: Tetranychidae). 5460

A bipolar differentiated gynandromorph of Culex tarsalis Coquillett, from Texas. 5476

Production of dauer pupae in Bombyx mori L. 5482

On the morphology of the last abdominal segment of female Bombyliidae (Diptera). 5483

Temperature and termination of diapause in Epicauta gorhami Marseul (Coleoptera, Meloidae), with particular reference to the mechanism of contemporaneous emergence. 5491

Morphological cell death in the post-embryonic development of the insect optic lobes. 5503

A note on the metamorphosis of the mid-gut epithelium in Callosobruchus maculatus (F.) (Bruchidae: Coleoptera). 5513

Phytophagous mites; species of widest distribution in Argentina. 5540

Diptera larvae in soil treated with organic and mineral fertilizers. (1). Family Asilidae-Diptera-Brachycera. 5541

Anatea, an ant-mimicking Theridiid spider from New Caledonia (Araneae: Theridiidae). 5555

Brain of Aphis gossypii Glover. 5586

Morphology and histology of the brain of mylabris phalerata. 5587

Effect of starvation on the scorpion Palamnaeus bengalensis. 5612

Feeding mechanism of a fruit-sucking moth Othreis materna (Lepidoptera: Noctuidae). 5623

Wing reduction in endemic Hawaiian psocids. 5643

Sexual dimorphism of larvae and pupae of Aedes aegypti (Linn.). 5659

Studies of physiologically active arthropod secretions. II. Some observations on the scent pencils of male Vitula edmandsae (Lepidoptera: Phycitidae). 5670

Thermobia domestica (Packard 1873). 5673

Postnatal treatment of the cabbage aphid with a synthetic juvenile hormone. 5676

Morphological divergences and sterility barriers in the Aedes mariae complex (Diptera, Culicidae). 5699

Thymidine teratogenesis and mutagenesis in Drosophila melanogaster. 5732

Selection and temperature effects on extra dorsocentral bristles in Drosophila melanogaster. 5744

The principle insect pests of beets and the means of their control in turkey. 6234

The demarcation of the genus in Chironomidae. 7458

Results of the Albanian 1961 Expedition of the German Entomological Institute. 61. Contribution Catalog of Albanian habitats. 7461

Descriptions of males of Haematopota scutellata including descriptions of the Haematopota Meig. genus in Czechoslovakia (Diptera, Tabanidae). 7511

Suggestions concerning the terminology of the genital sheath of the Lepidoptera. 7515

Phylogenetic studies on Chironomidae (Dipt.), with special reference to the Corynoneura group. 7535

The formation of a rudimentary spermatophore by the red bollworm. 7586

An autosomal recessive yellow-eyed mutation in the blowfly. 7591

Renewed information on Camptopoeum frontale (F.) in the Halle/Saale vicinity (Hym.: Apoidaea). 7602

Infrastructural study of the molting glands in Locusta migratoria migratorioides (R. et F.). II. Morphological analysis of the degenerative stages in the gregarious imagos. 7608

Notes on the morphology of Alycus roseus C. L. Koch. 7613

Seasonal and diel emergence of Chironomus salinarius Kieff. (Dipt., Chironomidae) near Bergen, Western Norway. 7629

Seasonal emergence of Clunio marinus Haliday (Dipt., Chironomidae) in Western Norway. 7630

Investigation into the variability of European populations of Orthotylus ericetorum Fall. (Heteroptera: Miridae). 7631

Some ecologically interesting Chironomidae from the lake region of Stechlin. 7662

Morphogenetic analysis of the effects of juvenile hormone analogues and other morphogenetically active substances on embryos of Schistocerca gregaria (Forskal). 7665

Adaptations of Arctic Chironomidae. 7667

Aspects of the morphogenesis, in organotypical culture in vitro, of the tracheal system in Diptera Calliphoridae. 7677

The feeding habits of higher dipteran larvae. 7688

Chironomidae ecology in the Utscha Reservoir. 7703

Morphological adaptations of the head and mandibles of some coleopterous larvae burrowing solid substrates (Coleoptera). 7707

Contribution to the study of the larval tracheation of the Empididae (Diptera, Orthorraphidae): Its interest from the phylogenetic and ecological points of view. 7712

Laboratory culture of chironomid species from the Hula Nature Preserve, Israel. 7720

Genetic markers in the boll weevil. 7726

Morphological variability of the chromosomal functional structures in the spermatocyte nuclei of Drosophila species. 7734

Heritability of spot-number in Scillonian strains of the meadow brown butterfly (Maniola jortina). 7741

Mutant traits of the larval and pupal stadia of the wax moth.
7752

Studies in aging: IV. Genetic control of pigment accumulation and its bearing on the adult life span in Drosophila melanogaster.
7753

Honey bee drones with jet black bodies.
7758

INSECT MORTALITY

A bioassay method for measuring mosquito larvicide depositions.
1533

Lethal effects of synthetic juvenile hormone on the human body louse.
1726

Nosema disease of honey bees.
2543

Study of some injuries induced by X-rays in the first stage larvae of Bombyx mori.
2559

Susceptibility of eggs and young adults of Cryptolestes ferrugineus and C. turcicus to hydrogen phosphide.
3160

Winter survival in Arizona of thurberia weevils released from thurberia bolls.
3201

Boron chemosterilants against screw-worm flies: Structure-activity relationship.
3279

Oils: Their effect on black carpet beetle larvae when applied to different types of surfaces.
3282

Effect of temperature on resistance in lima bean, tomato, and chrysanthemum to Liriomyza munda.
3453

Chemosterilization of the two-spotted spider mite. I. Effect of chemosterilants on the biology of the mite. II. Histopathological effect of apholate and 5-fluorouracil on the reproductive organs.
5390

Effects of dimethyl sulfoxide on the biological activity of selected miticides and insecticides.
7280

INSECT MUTATION

Evolution of fitness, III. Improvement of fitness in irradiated populations of Drosophila serrata.
920

Drosophila and Pseudeucoila V: Contribution to the biological parasitology of Pseudeucoila bochei Weld (Cynipidae, Hymenoptera) and report on two new mutants.
926

Post-fertilization effect of incompatibility factors in Mormoniella.
928

Sex-ratio depression as a brood-pattern criterion of radiation damage in Drosophila melanogaster.
1505

Evidence against the mutagenic effects of vibration on Drosophila melanogaster.
1507

Homeotic wing structure in the loboid-allele ophthalmoptera (ldoph) in Drosophila melanogaster.
1508

Phenodeviants and the chromosome field theory in Drosophila.
1510

Genetic variability in the German cockroach. III. Eye color traits and linkage data for the curly, hooded and pallid mutants.
1519

Linkage studies of aldrin resistance in Blattella germanica (L.).
2011

Autonomous pleiotropy in Drosophila.
2091

Study of some injuries induced by X-rays in the first stage larvae of Bombyx mori.
2559

Reproductive isolation between two closely related species of the Queensland fruit fly, Dacus tryoni (Frogg.) and D. neohumeralis Hardy (Diptera: Tephritidae). I. Variation in humeral callus pattern and the occurrence of intermediate colour forms in the wild.
2672

Genetic analysis of a population of Tribolium. II. Metabolic pattern of corn oil sensitive anomaly.
3327

Mutation rates and mortalities after X-irradiation of the early development stages of Drosophila melanogaster.
3902

An autosomal recessive gene in Pyrrhocoris.
3903

Polyacrylamide gel electrophoretic analysis of the proteins of Locusta migratoria (L.) and the corresponding albino mutant.
4561

A yellow mutant strain of the large milkweed bug, Oncopeltus fasciatus, that lacks erythropterin.
4645

Incorporation of tritiated thymidine into the ovarian DNA of stable flies: Effects of treatment with apholate.
5259

Lipids in the melanic mutant of the large milkweed bug, Oncopeltus fasciatus.
5689

Mutants at the bobbed locus in Drosophila melanogaster: Relation to ribosomal RNA synthesis.
5706

The variation from year to year of the concentration and allelism of lethal mutations in neighbouring natural populations of Drosophila melanogaster.
5707

The mutagenic effect of 600 MeV protons in Drosophila melanogaster.
5717

Selection for higher fitness in populations of Drosophila pseudoobscura.
5720

On the reversible character of delayed mutations induced by nitrosocompounds in Drosophila melanogaster.
5730

Thymidine teratogenesis and mutagenesis in Drosophila melanogaster.
5732

Temperature-sensitive mutations in Drosophila melanogaster, III. Dominant lethals and semilethals on chromosome 2.
5740

Selection and temperature effects on extra dorsocentral bristles in Drosophila melanogaster.
5744

An autosomal recessive yellow-eyed mutation in the blowfly.
7591

Genetic markers in the boll weevil.
7726

Mutant traits of the larval and pupal stadia of the wax moth.
7752

Mutation in Drosophila by methylazoxymethanol, the aglycone of cycasin.
7756

INSECT NAMES

Notes on Plebeius argyrognomon Bgstr. (Lepidoptera, Lycaenidae).
54

Butterflies, collecting and rearing.
93

Spiders and their insect prey from heads of oxeye daisy, Chrysanthemum leucanthemum L., in southwestern Ontario.
582

New species of Erythroneura related to Erythroneura dira (Homoptera: Cicadellidae).
631

Supplementary notes on the genus Pseudoliprus of Japan (Coleoptera: Chrysomelidae-Alticinae).
676

Larval stages of the leaf-miners found in Shikoku. (Coleopterous leaf-miners of Japan. VII).
728

Some species of Leptoconops of the Oriental and Pacific Regions (Diptera, Ceratopogonidae).
767

Some muscid flies (Dipt.), of Lancashire and Cheshire.
883

Notes and descriptions of some Leptopsyllid fleas (Siphonaptera).
898

Stenobothrus rubicundus (Germar, 1817): An invalid name (orthoptera).
1279

A review of the genus Gosodesmus Chamberlin, with the synonymy of Eucybe Chamberlin (Diplopoda: Platydesmida: Andrognathidae).
2476

Description of Scaphidium comes sp. n. and notes on some other palaeartic species of the genus Scaphidium (Coleoptera, Scaphidiidae).
2502

The genus Coccidoxenus Crawford, 1913--a synonym of Trichomasthus Thomson, 1875 (Hymenoptera, Encyrtidae).
2534

On the generic position of Plesiocera flavifrons Becker and of a few related species (Diptera, Bombyliidae).
2576

Rhynchota (Heteroptera,Homoptera, Auchenorrhyncha) topographical and synonym catalog.
3128

Notes on some older types of neotropical Micropezidae with descriptions of new species (Diptera, Acalyptratae).
3131

Considerations on Eubaptus palliatus Lac., Bruchus scapularis Pic and descriptions of the preimaginal stages of Eubaptus rufithorax (Pic).
3134

The brown-banded cockroach in Hamburg.
3308

Morpho-systematic studies on Collembola Part 0i. Materials to a revision of the genus Lepidocyrtus Bourlet, 1839 (Entomobryidae s. l.).
3778

A brief note on entomology.
4977

Genitalia of the types of Chilean Satyridae on deposit at the British Museum.
5061

The synonomy in Citrinophila Kirby and further notes on Epitola Westwood and Alaena Boisduval (Lepidoptera: Lycaenidae).
5075

Ixodes (Lepidixodes) kopsteini Oudemans, 1925, valid name for I. (L.) paradoxus Kohls and Clifford, 1961, with notes on distribution and hosts (Acarina: Ixodidae).
5083

What is Pieris dubiosa Rober (Lep., Pieridae).
5133

A new name for Metaphycus eriococci Alam (Hymenoptera: Chalcidoidea-Encyrtidae).
5153

The morphology and systematic of Coptopteryx gayi (Blanchard) 1851 (Mantidae).
5176

New synonymies in the genus Promecops Sahlberg (Coleoptera Curculionidae).
7494

Entomology and philately (A curious Nomenclature question).
7528

INSECT NEMATODES

The bionomics of a Mermithid nematode of larval mosquitoes in southwestern Louisiana. 1539

The infection of immature aquatic insects by larval Paragordius (Nematomorpha). 4620

Description and taxonomic position of the DD-136 nematode (Steinernematidae, Rhabditoidea) and its relationship to Neoaplectana carpocapsae Weiser. 5533

INSECT NESTS

Nesting biology of the social wasp Microstigmus comes (Hymenoptera, Sphecidae, Pemphredoninae). 844

A mixed wasp's nest. 1445

The biology and description of a new species of African Thyreus, with life history notes on two species of Anthophora (Hymenoptera: Anthophoridae). 2525

Comparison of the structure and architecture of some nests of Evylaeus (Hym., Halictidae) at the cell region. 4527

Australia's honeypot ants. 5312

The charcoal digger wasp, Isodonita pelopociformis. 7615

INSECT NEUROPHYSIOLOGY

Description and distribution of the neurosecretory cells in brain and ventral ganglia of Lethocerus indicum Lep. et Serv. (Heteroptera-Belostomatidae). 1928

Some observations on chemoreception in the antennae of the centipede, Scolopendra subspinipes Leach (Mandibulata-Chilopoda). 2062

INSECT NUTRITION

Marking insects with dietary manganese for detection by neutron activation. 41

Feeding behavior and nutrition in grasshoppers and locusts. 75

The effect of feeding the tsetse fly Glossina morsitans Westw. on impala blood. 113

Laboratory tests of Bacillus thuringiensis Berliner preparations against larvae of Carpocapsa (Laspeyresia pomonella L.). 142

Major environmental factors inducing the termination of larval diapause in Chaoborus americanus Johannsen (Diptera: Culicidae). 758

New evidence that a number of leaf- and needle-eating insects depend on the sugar-content of their food. 881

The effect of the amount of blood taken and additional carbohydrate nutrition on oogenesis in females of bloodsucking mosquitoes of the genus Aedes (Diptera, Culicidae) of various weights and ages. 903

Dietary efficiency of natural foods for the growth and development of Tribolium castaneum Hbst. and Corcyra cephalonica Staint. 1160

The life-cycle of the spider Phidippus loccineus (Salticidae) under laboratory conditions. 1393

Effect of food and temperature on Aedes aegypti (L.) and Aedes triseriatus (Say) larval development. 1418

On the significance of the duration of preoviposition and oviposition periods in ixodid ticks. 1440

Mode of life and difficulties in the rearing of Scopula umbelaria Hbn. (Lep. Geom.). 1487

The consumption and utilization of food by insects. 1488

Chloroquine: Retention by Anopheles stephensi after ingestion in a blood meal. 1537

Hints on the permanent rearing of Dacus oleae Gmelin (Diptera, Tyrpetidae)in the laboratory. 1938

A demonstration through symbiotic microorganisms of the effect of sterol synthesis in artificially fed aphids (Homoptera, Rhynchota, Insecta). 1955

The feeding of the mole cricket and its effect on outbreeks and control. 1973

Performance of the English grain aphid on sterilized and unsterilized artificial diet. 2059

An artificial diet for larvae and adults of Chrysopa carnea, an insect predator of crop pests. 2063

Feeding stimulants from plants for larvae of the tobacco budworm and bollworm. 2216

Effect of dietary serine on survival and rate of development of Oryzaephilus surinamensis (Coleoptera: Silvanidae). 2565

Consumption of nutritional reserves by hungry females Ixodes persulcatus P. Sch. during the life cycle. 2595

New beetle finds in the forest of Allschwil. 3100

Quantitative dietary requirements for histidine in the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae). 3183

Initiation of pollen consumption and pollen movement through the alimentary canal of newly emerged honey bees. 3188

The giant bark beetle (Dendroctonus micans Kugel) in Georgia (USSR). 3230

Nutrients derived from the fungus cultured by the fungusgrowing ant Atta columbia tonsipes. 3240

The determining factors in the appearance of winged forms among aphids. 3268

Sex differences in longevity of starved cockroaches (Leucophaea maderae). 3290

Nutrition of the almond moth. I. Analysis and improvements of the experimental diet. 3302

Rearing sod webworms on artificial diets. 3305

The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress. 3788

The forage plants of Rhagades pruni Schiff. 3828

Size independent secretion by the corpus allatum of Calliphora erythrocephala. 3843

The effect of diet on the physiology of the brown-tail moth, Euproctis chrysorrhoea L. (Lepidoptera, Liparidae). 3861

Larval feeding habits of certain Chloropidae (Diptera). 3885

The effect of the amount of blood taken and additional carbohydrate nutrition on oogenesis in females of blood-sucking mosquitoes of the genus Aedes (Diptera, Culicidae) of various weights and ages. 3886

Amino acid requirements of the cotton stainer, Dysdercus fasciatus Signoret (Pyrrhocoridae, Hemiptera). 4447

Nutrition of the silkworm, Bombyx mori. XVI. Quantitative requirements for essential amino acids. 4451

Nutrition of the silkworm, Bombyx mori. XVII. Effect of dietary levels of amino acids on growth of fifth-instar larvae and on cocoon quality. 4517

Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602

The physiology of mosquitoes. 5266

Effect of food availability on rates of loss of 45calcium from Hyphantria cunea (Lepidoptera: Arctiidae). 5268

Long-term regulation of sugar intake by the blowfly. 5322

Notes on larval host acceptance in a California population of Plebejus acmon (Lycaenidae). 5331

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee. Ii. Effect of vitamin content of pollens. 5347

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee. I. Effect on thoracic weight, development of hypopharyngeal glands, and brood rearing. 5348

Mosquitoes feeding on insect larvae. 5359

Effect on aphid feeding of dietary methionine. 5479

A new foodplant for Euphydryas phaeton (Nymphalidae). 5487

An attempt to correct some mistakes and misconceptions about some fungus beetles and their habitats. 5517

Foodplants of Callophrys (Incisalia) iroides. 5536

Heart poisons in the monarch butterfly. 5554

Artificial diet for cecropia and other saturniid silkworms. 5560

Substances that attract caged honeybee colonies to consume pollen supplements and substitutes. 5565

An instrument to hold rabbits for blood sucking Simuliid experiments. 5574

Contributions to the study of the biometric characteristics of the silkworm as influenced by nutrition. 5589

Resistance of Chaoborus Light. larvae to lack of food. 5607

Emigration and mortality rates and the food-shelter conditions of Ligidium hypnorum L. (Isopoda). 5624

Genetic and environmental control of melanotic tumors in Drosophila. 5719

Culex nigripalpus: Seasonal shift in the bird-mammal feeding ratio in a mosquito vector of human encephalitis.
5753

Feeding of Aulacophora foveicollis on cucurbitacin.
6253

Comparative serology of a complex species group of food-plant specialists: The Rhagoletis pomonella complex (Diptera: Tephritidae).
7545

Some notes on the food of the chironomid larvae of a shallow woodland lake in South Finland.
7570

Feeding bees.
7594

Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae).
7600

The effects of methylfarnesoatdihydrochloride on the colour change and moulting behaviour in the larvae of Cerura vinula L. (Lepidoptera).
7618

Feeding of benthic non-predatory Chironomidae in lakes.
7624

The effects of certain elements on the host-pathogen relationship of Plodia interpunctella (Hbn.) and Bacillus thuringiensis var. Thuringiensis Berliner.
7673

A first record of fruit-piercing noctuid moths in Europe.
7820

Utilization of an artificial food for the testing of food insecticides.
7955

INSECT OUTBREAK FORECASTING

Is it possible to predict apple moth infestations.
3868

The present state of research and of the control of rice pests.
3924

The importance of applied entomology for Austrian plant protection.
3926

Observations on the second generation of Carpocapsa in the Loire valley.
4496

The leatherjacket risk grows.
5447

Improvement of the agricultural warning (device) against the cereal gall moth (Cnephasia pumicana Zell., Lep. Tortricidae).
6164

Ecology of insect vectors, forecasting, and chemical control.
6205

Forest entomology in the USSR.
7843

INSECT OUTBREAKS

A massive invasion of Stilpnotia salicis. (Lymantriidae).
46

Ceroplastes rusci L. (Homoptera, Coccoidea, Lecaninae) an interesting example for the study of population dynamics.
749

The mass increase in the population of Tortrix viridana L.
756

The structure of the damage done by Chilo suppressalis in the first outbreak area. I. Relation of boring stage to growth of larvae and amount of rice plants damaged. Transl. 16860.
791

The importance of mortality factors on the occasion of the mass-appearance of the nunmoth in the forested district of Lower Austria, 1964-1967.
814

The creation of artificial foci of parasites- a new method of aphid parasite release.
887

Mass appearance of a typical permanent forest infestor, the larch casebearer (Coleophora laricella).
1013

Infestation density of Trypodendron lineatum (Olivier) (Coleoptera: Scolytidae) in relation to felling date of logs.
1778

A note on the outbreak of the Bombay locust, Patanga succinctal, Cyrtacanthacrinae, Acrididae, in the Laccadive Islands during 1967.
1939

Studies on the attack behavior of the southern pine bettle. III. Sequence of tree infestation within stands.
1966

Biotic factors involved in crucifer aphid outbreaks following insecticide application.
2039

Insect and host factors in the aggregation of the southern pine beetle.
2065

Damage by the strawberry spider mite to cotton when infestations commenced at the beginning, middle, and end of the flowering period.
2228

Concerning the possibilities of forecasting, supervising the insect outbreak and on tolerance limits in the integrated pest control in fruit cultures.
2669

Biology and control of native and introduced forest insects in the Nearctic Zone.
4375

Are woodpeckers the answer to pine bark beetle attacks.
4450

Studies on the attack behavior of the southern pine beetle. I.THE spreading and collapse of outbreaks.
5942

Studies on the attack behavior of the southern pine beetle. III. Sequence of tree infestation within stands.
6177

Mass appearance at Brussels of Sitotroga cerealella Ol. (Gelechiidae).
7036

INSECT PESTS

Secrets of the insects.
2

Controlling the Mexican bean beetle.
56

Look what's happening to insect control.
94

General aspects of bacteriological control.
99

From grasshopper to a locust.

A fruit pest is being sterilized.
272

Insect control on golf greens.
273

Virus insecticides.
275

Control of insect and mite pests of small fruits.
283

Ethion a new acaricide for control of red spider, scarlet, pink and purple mites.
284

Note on Sphenarches anisodactylus, Wkr. damaging bottle gourd (Lageneria lucantha, Rusby).
285

An outline of the biology of Hypsipyla robusta Moore, the shoot borer of the meliaceae (mahoganies) of Nigeria, together with brief comments of two stem borers and one other lepidopteran fruit borer also found in Nigerian Meliacaea.
286

Get rid of grubs in a hurry.
435

Reduction of parathion residue on celery.
497

Household insecticides.
503

Combined utilization of entomophages and microorganisms with a view of replacing or limiting the use of chemical treatments.
769

The structure of the damage done by Chilo suppressalis in the first outbreak area. I. Relation of boring stage to growth of larvae and amount of rice plants damaged. Transl. 16860.
791

Reflections on epizootiology.
800

Systematic investigations of weather-controlled flight and migration phenomena of virus-carrying insects in western, northern, and southern Germany.
802

Further investigations on the artificial breeding of the olive fly-Dacus oleae Gmel.-under aseptic conditions.
849

The use of a polyhedral virus disease in the control of the pine sawfly Neidiprion sertifer Geoffr. in North -West Scotland.
868

The creation of artificial foci of parasites- a new method of aphid parasite release.
887

The problem of the utilization of entomopathogenic microorganisms in combination with insecticides.
896

Interactions between the grain beetles Sitophilus granarius (L.) (Curculionidae) and Ptinus tectus Boield. (Ptinidae).
914

Potato cultivation in Mysore State.
980

Cypress bark moth on Monterey cypress.
995

Studies on the Wooly beech scale Cryptococcus fagi Baer (Insecta, Coccina), a representative bark-sucker.
999

A review of lepidopterous pests of coniferous forests in the Baykal region.
1011

Mass appearance of a typical permanent forest infestor, the larch casebearer (Coleophora laricella).
1013

INSECT PESTS

Phenomena in the infestation pattern of phytophagous insects. 1017

Investigations concerning the ecology and control of the face fly, Musca autumnalis de Geer. 1125

A new Stenomesius (Hym., Eulophidae) reared from Ceramidia viridis in Ecuador. 1220

One previously described and one new species of South American Bruchidae injurious to commercial legume seed crops (Coleoptera). 1275

Nasonovia vannesii n. sp. (Homoptera, Aphididae) on Ribes x cultorum. 1329

Pink bollworm versus the Sterile concept. 1417

Diplopoda (Myriapoda) harmful to cultivated plants in the Central African Republic. Description of Haplothysanus haplothysarioides n. sp. (Odontopygidae). 1448

Observations on the natural predators of the aphid pests in the Ranchi District with special reference to Chilomenes sexmaculata Fabr. 1459

Papular eruption secondary to thrips bites. 1534

Biological control of introduced forest insect pests. 1544

Principles of the integrated control of plant pests. 1547

Some effects of the southern green stinkbug on soybeans. 1558

Developments in the control of tea pests. 1580

A preliminary account of pests of apple in Madras. 1597

Pests of flowering trees. 1609

Behavior of tobacco budworm larvae on flue-cured tobacco and possibilities of improving the effectiveness of insecticidal treatments applied mechanically for control. 1611

Control of mites in tea results in increased yields. 1613

Domestic quarantine notices. Japanese beetle. Regulated areas. 1617

Domestic quarantine notices. European chafer. Regulated areas. 1618

Standardized procedures adopted for cooperative Ohio Valley States alfalfa weevil research. 1920

A note on the outbreak of the Bombay locust, Patanga succinctal, Cyrtacanthacrinae, Acrididae, in the Laccadive Islands during 1967. 1939

Studies on the attack behavior of the southern pine bettle. II. Response to attractive host material. 1943

The control of some species of pest insects by Bacillus thuringiensis. 1953

A field test comparing resistant varieties plus applications of polyhedral virus with insecticides for control of Heliothis spp. and other pests of cotton, 1967. 1962

Biological notes on Spilonota ocellana Denis and Schiffermuller (Lepidoptera Tortricidae) in the foothill region of Friuli and preliminary indications on the factors adverse to its development. 1970

The feeding of the mole cricket and its effect on outbrecks and control. 1973

Population assessment of cotton bollworm in relation to pest control practices. 1974

Development and perspectives of biological control. 1976

Mass rearing technique of rice gall midge (Pachydiplosis oryzae Wood-Mason) and notes on its biology. 2002

Isolation of a sex pheromone of the codling moth. 2013

Artificial sex pheromones for the codling moth. 2014

Sampling to detect economic infestations of Limonius spp. 2022

Records of predators and parasites naturally prevalent in the Gujarat state. 2024

Certain minor crop pests hitherto unrecorded from the Gujarat state. 2025

A laboratory evaluation of baits and chemosterilants on the little house fly. 2027

Effect of droplet size on persistence of ULV malathion and comparison of toxicity of ULV and EC malathion to tobacco budworm larvae. 2031

Biotic factors involved in crucifer aphid outbreaks following insecticide application. 2039

An annotated list of hymenopterous parasites of citrus soft scales in Israel. 2041

Morphology of the head capsule of Aelia rostrata Boh. (Hemiptera: Pentatomidae). 2051

Hourly and seasonal collections of six harmful insects in traps equipped with blacklight lamps. 2056

Measuring newly hatched phytophagous larvae in the field or greenhouse. 2058

An artificial diet for larvae and adults of Chrysopa carnea, an insect predator of crop pests. 2063

Preliminary results of attempts to form the advisory board for integrated plant protection. 2113

Annotated list of insects infesting bark and wood of Fraser fir. 2200

Leaf changes brought about by Empoasca flavescens F. (Hom. Typhlocybidae) on apple trees. 2203

A mass screening procedure for isolating alfalfa seedlings with resistance to the alfalfa weevil. 2204

Chemical control of mango hoppers (Idiocerus spp.). 2211

Male boll weevils are more attractive than cotton plants to boll weevils. 2217

Aphids and leafhoppers found on red clover in eastern Washington. 2221

Interaction of a fungus gnat, Bradysia sp. (Sciaridae) with Fusarium spp. on alfalfa and red clover. 2222

Distribution of hibernating larvae of the western budworm, Choristoneura occidentalis, on Douglas-fir in Colorado. 2226

End of squaring as an economic indicator of approximate time to end insecticidal treatments for boll weevil control. 2227

Damage by the strawberry spider mite to cotton when infestations commenced at the beginning, middle, and end of the flowering period. 2228

Insecticidal control of the sugarcane borer in corn. 2229

Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230

Inundative releases of Chrysopa carnea for control of Heliothis on cotton. 2231

A technique for evaluating varietal resistance of castor to castor jassid (Empoasca flavescens Fabricius). 2232

Control of the northern fowl mite on laying hens with Shell SD-8447. 2358

Campaign against stored grain pests in villages of IADP District Ludhiana. 2382

Meigenia mutabilis Fall. (Dipt. Tachinidae) as a parasite of Oulema melanopa L. and its relation to Leptinotarsa decemlineata Say. 2544

The sensory physiology of the larva of the rhinoceros beetle Oryctes rhinoceros L. 2558

Larva, pupa and life history of three species of Ibidionini (Coleoptera, Cerambycinae). 2611

Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea. 2613

Histochemistry and ultrastructure of the feminine genital ducts of Gryllotalpa gryllotalpa L. 2016

The color change of Poecilimon ornatus Schmidt in the post-embryonic development. (Orthoptera-Tettigoniidae). 2017

The development of the thorax muscles of Periplaneta after cutting of individual nerves. Preliminary report. 2021

A comparative study of communication in grasshoppers. 2023

Histopathology of the developing reproductive system of Aedes stimulans (Walker) (Diptera: Culicidae) under thermal stress. 2026

On the hormonal control of ovarian development in the female larva of the heterogonid gall gnat Heteropeza pygmaea Winnertz 1846 (Diptera, Cecidomyiidae). 2030

Organogenesis of the female reproductive system of an aedine mosquito. 2038

The free amino acid pattern in tissues of silkworm during development. 2049

Morphology of the head capsule of Aelia rostrata Boh. (Hemiptera: Pentatomidae). 2051

Measuring newly hatched phytophagous larvae in the field or greenhouse. 2058

Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration. 2060

Influence of aging on the rate of incorporation of tritiated thymidine in the nurse cells of Drosophila melanogaster. 2068

Physiological bases for the luring and catching of insects. 2069

Biochemistry of the development of the insects Dacus oleae and Ceratitis capitata--evolution of total fatty acids. 2541

Flight muscle volume change in Ips confusus (Coleoptera: Scolytidae). 2546

The use of Drosophila melanogaster Meig., Calandra oryzae L. and Tribolium confusum Duv. for the detection of pesticides and for the evaluation of some extractive techniques. 2547

Pseudo-allosteric behavior of firefly luciferase. 2567

On the generic position of Plesiocera flavifrons Becker and of a few related species (Diptera, Bombyliidae). 2576

Study of several physiological and biological characteristics in the third instar of Melolontha melolontha L. larvae which have been contaminated by two pathologic agents. 2584

Sex pheromone of the pink bollworm moth: Biological masking by its geometrical isomer. 2590

Consumption of nutritional reserves by hungry females Ixodes persulcatus P. Sch. during the life cycle. 2595

Oosorption in Nasonia vitripennis (Hymenoptera: Pteromalidae). 2596

The structure, function and imaginal development of the female inner reproductive organs of Adelphocoris lineolatus (Goeze), (Heteroptera, Miridae). 2606

Schizeckenosy: The substitute for defecation in chigger mites. 2615

The structure of the alimentary canal and salivary glands in Acrotelsa collaris (Thysanura: Lepismatidae). 2619

Sub-zero mortality responses of Tribolium confusum Duval (two stocks) and T. castaneum (Herbst) (four stocks) analyzed by weighted regression lines based on individual temperature LD5O s. 2626

On the photoperiodic reaction of Chilocorus renipustulatus Scriba (Coleoptera, Coccinellidae). 2629

Neuroleptic substances and insect behavior-- VI. The influence of reserpine on the body weight of Tribolium confusum. 2633

Laboratory studies on the locomotor activity of Coryphosima stenoptera and other west African Acrididae (Insecta: Orthoptera). 2637

In vivo action of extracts of the corpora cardiaca on the cardiac rhythm of Locusta migratoria L. 2648

Visual form discrimination of the honey bee within the range of 6- and 4-pointed stars. 2651

Sense organs on the antenna of a parasitic wasp, Nasonia vitripennis (Hymenoptera, Pteromalidae). 2655

Gross bioenergetics of Blattella germanica. 2673

Observations on the fluorescence and function of spiders' eyes. 2674

Variations in sterol and sterol esters during development of Dysdercus koenigii (Hemiptera). 3146

Change in the shape of silkworm polyhedra by means of passage through chick embryo. 3149

Lethal limits of low temperature for the alfalfa weevil in Illinois. 3155

The presence of lipid substances in the salivary glands of Trigona (Hymenoptera, Apoidea). 3178

Initiation of pollen consumption and pollen movement through the alimentary canal of newly emerged honey bees. 3188

Effects of gamma radiation on the tobacco budworm. I. Irradiation of pupae. II. Irradiation of moths. III. Irradiation of eggs and larvae. 3192

Physiological factors influencing the toxicity of carbamate insecticides to insects. 3193

Selection and host plant overlap in two desert Papilio butterflies. 3194

Spermatophores in arthrops and their evolution as far as insects are concerned. 3198

The behavior of bees visiting runner beans (Phaseolus multiflorus). 3200

Winter survival in Arizona of thurberia weevils released from thurberia bolls. 3201

Rearing Euleucophaeus rubridorsa and E. lex (Saturniidae). 3204

Tyrosinase activity of the symbionts and fat bodies of the cockroach, Leucophaea maderae. 3208

On the presence of adenotriphosphatase activity of both sodium and potassium (Na, K ATPase) in the nerve cord of Periplaneta americana. 3210

Radiation sensitivity of Drosophila embryos in relation to age, in air and in nitrogen. 3213

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana. 3217

Caffeine-induced activation of contraction in stick insect skeletal muscle. 3221

The absorption and storage of insecticide by an in utero larva of the tsetse fly Glossina pallidipes Aust. 3222

Laboratory mating behavior of the plum curculio. 3223

INSECT PHYSIOLOGY

The structure and possible mode of functioning of the female reproductive system in Nasonia vitripennis (Hymenoptera: Pteromalidae).
3228

Seasonal occurrence and physiology of Culex tarsalis in foothills of Fresno County, California.
3229

Changes in reducing carbohydrates and trehalose during development of eggs from young and old Tenebrio molitor L.
3235

Digestibility studies with cellulose-U-C14 on larvae of the pale western cutworm, Agrotis orthogonia.
3244

Effect of the brain on the suboesophageal ganglion and determination of voltinism in Bombyx mori.
3251

The distance- and contact-orientation of mosquitoes (Aedes aegypti). (Host finding, biting and blood-sucking).
3255

Hedges. IV. A comparison between the Carabidae of a hedge and field site and those of a woodland glade.
3261

Research on oogenesis, fertilization, egg segmentation, and spermatogenesis in Caloglyphus berlesei Michael 1903 and C. michaeli Oudemans 1924 (Acari, Acaridae).
3263

Contributions to the study of the morpho-functional constitution of the female external genitalia in chalcids.
3264

Resistance to American foulbrood in honey bees. X. Comparative mortality of queen, worker, and drone larvae.
3267

Mycetangial glands and their seasonal changes in Gnathotrichus retusus and G. sulcatus.
3275

A technique for mass rearing the southern armyworm in the laboratory.
3283

A simple method for measuring the motor activity of fleas (Xenopsylla cheopid Roth.).
3285

Response of overwintered boll weevils to reflected light, odor, and electromagnetic radiation.
3288

Osmotic pressure of hemolymph of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae).
3293

Resistance to chlorinated hydrocarbons in Culex pipiens quinquefasciatus in Egypt.
3294

Chronic melanization in the eggs of Aedes aegypti.
3304

The influence of the width of black stripes on visual goniometry in the bee (Apis mellifera).
3307

Evidence of a second generation of the alfalfa weevil in southern Illinois.
3311

Some biochemical characteristics of the microsomal cyclodiene epoxidase system and its inheritance in the house fly.
3331

Three laboratory techniques for screening small grains for resistance to the cereal leaf beetle.
3448

Effect of temperature on resistance in lima bean, tomato, and chrysanthemum to Liriomyza munda.
3453

The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress.
3788

Pinocytosis during vitellogenesis in the mealworm, Tenebrio molitor L. (Coleoptera, Tenebrionidae).
3789

The excitation of insect skeletal muscles.
3791

Reminiscence in the cold flour beetle (Tenebrio molitor).
3794

Insects and physiology; essays presented to Sir Vincent Wigglesworth, CBE, MD, FRS on his retirement from the Quick Chair of Biology and directorship of the Unit of Insect Physiology in the University of Cambridge.
3800

Juvenile hormone: Activity of aromatic terpenoid ethers.
3805

The effect of various biogenic amines on the activity of the foregut of the cockroach, Blaberus giganteus.
3811

On the determination of age structure of the larvae of Tendipedidae (Diptera).
3813

Temperature and circadian control of cuticle growth on the bug, Oncopeltus fasciatus.
3814

Factors affecting the oxidation of glycerol-1-phosphate by insect flight-muscle mitochondria.
3815

Structure and function of the giant fibre system in the cockroach, Periplaneta americana.
3817

New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata).
3820

Changes in soluble proteins during foot-pad development in Sarcophaga bullata.
3821

Early morphogenesis of tumours induced by Nosema acridophagus in Melanoplus sanguinipes.
3827

Physiological and ultrastructural study of the corpora allata of Locusta migratoria L. (Orthoptera) in the gregarious phase.
3831

On ocular regeneration in Lithobius forficatus L. (Myriopoda Chilopoda).
3832

Effects of long-term cardiatectomy-allatectomy on mitochondrial respiration in the cockroach, Blaberus discoidalis.
3836

Insect metabolism of photoaldrin and photodieldrin.
3837

Studies on sex pheromones of Pyralididae. Changes in the quality of the sex pheromone in the female almond moth, Cadra cautella Walker (Phycitinae).
3841

Changes in gonads and primary sexual characters in triploid intersexes of Drosophila melanogaster (Diptera) exposed to the effect of different temperatures.
3842

Size independent secretion by the corpus allatum of Calliphora erythrocephala.
3843

The use of attractants in pest control. 2. Sex attractants.
3848

Fundamental properties of intensity, form, and motion perception in the visual nervous systems of Calliphora, phaenicia and Musca domestica.
3849

New data on the biology of caddisflies (Trichoptera, Limnephilidae, Apataniinae) of Lake Baical. I. Life span and mass flight of adults.
3851

Comparative studies of the development of Plasmodium cynomolgi bastianellii in Anopheles stephensi and A. albimanus.
3860

The effect of diet on the physiology of the brown-tail moth, Euproctis chrysorrhoea L. (Lepidoptera, Liparidae).
3861

Specificity of population-aggregating pheromones in Dendroctonus.
3863

Innervation of the gut of the migratory locust, Locusta migratoria L. (Orthoptera, Acrididae).
3864

Salt and water transport by the in vitro cockroach midgut.
3870

Changes in the composition of lipids and fatty acids in adult Culex tarsalis and Anopheles freeborni during the overwintering period.
3871

Effect of gamma-irradiation of late embryo on the growth of silkglands and on silk production in the silkworm, Bombyx mori.
3875

The hyperglycaemic activity of the corpus allatum in an insect.
3877

Phylogenetic relationships within the Rhopalocera on the basis of the functional morphology of the genital apparatus.
3878

Effect of rearing condition on growth and development of the silkworm, Bombyx mori L., on artificial diet. II.
3882

An electron microscope study of thoracic mitochondriac membranes in developing adults of the blowfly Lucilia cuprina.
3887

Honeybees: Do they use direction and distance information provided by their dancers.
3889

Phagocytic haemocytes in unfixed Galleria mellonella larvae.
3890

Incorporation of palmitate-1-C14 into lipids of the blowfly during flight.
3892

Abundance and microdistribution of larval Chironomidae in stabilization lagoons.
4432

Annotated list of forest insects of British Columbia. XIV. Ennominae (Geometridae).
4433

Nutrition of the silkworm, Bombyx mori. XVI. Quantitative requirements for essential amino acids.
4451

The action of dark phases of varying durations in the circadian, ultra- and infra-circadian rhythms on the production of winged gynophores of Dysaphis plantaginea Pass. (Homoptera, Aphididae).
4461

Concerning the extraocular light sensitivity of the Dictyoptera: Evidence of photoreceptors associated with the tegumentary nerves.
4464

Circadian clock action spectrum in a photoperiodic moth.
4465

Biology, ecology and distribution of Amara pseudocommunis Burak. (Coleoptera, Carabidae).
4467

Teratological effects on the nymphs and adults of insects, the larvae of which have ingested sublethal doses of the thermostable toxin of Bacillus thuringiensis Berliner.
4468

The influence of weight of newly-hatched larvae on the determination of the phase characteristics of the migratory locust, Locusta migratoria migratorioides (R. and F.), gregarious phase.
4471

The cumulative effects of long photoperiods and the determination of the phase characteristics of the migratory grasshopper, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4472

The influence of the corpora cardiaca on the duration of the fourth and fifth instars of Locusta migratoria L.. 4473

Cardiac activity of Locusta migratoria in vitro and the influence of the corpora cardiaca. Perfection of an experimental method and preliminary results. 4474

Electrophysiological evidence of the tactile function of the sensillary trichia on the antenna of the Speophyes lucidulus Delarouzee (cave Coleoptera) larva. 4479

The regulatory capacity of the dorsal mesothoracic disc in Ceratitis capitata Wied (Diptera, Trypetidae). 4480

A criterion of transformation for age-weight data on insect larval growth. 4481

Isolation and a study of the mode of action of a polygalacturonase in insects (Pyrrhocoris apterus). 4482

The influence of the fungus Beauveria bassiana Vuill. on the fertility and the diapause of Leptinotarsa decemlineata Say. 4488

A semi-synthetic diet for Eri-silkworm raising. 4492

The development of an artificial diet not containing leaf powder of any food plants for Eri-silkworm raising. 4493

The cryptonephridism of the larvae of Planipennia and their variations in function with the ecology of the Insecta. 4494

The immobilization reflex associated with tactile stimulation of the pronotum of normal larvae of Blaberus craniifer (Burm.) and ones having received implantations of the corpora allata. 4495

The existence of inclusions which have a lamella ultrastructure in the nucleus of certain bacteriocytes in the adipose tissue of Periplaneta americana (Insecta, Blattidae). 4498

Inactivation of juvenile hormone like compounds in insects. 4501

Sound production in the white-pine weevil, Pissodes strobi, and the northern pine weevil, P. approximatus. 4506

Attractant and feeding responses of hickory suckworm larvae to certain extracts of pecan shucks. 4514

Nutrition of the silkworm, Bombyx mori. XVII. Effect of dietary levels of amino acids on growth of fifth-instar larvae and on cocoon quality. 4517

Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518

The results of large dose injections of juvenile hormone in Locusta migratoria, gregarious phase. 4522

Cytoplasmic particles carrying rapidly labeled RNA in developing insect epidermis. 4523

An action of insect hormones on carbohydrate metabolism in insects. 4531

The presence of volatile fatty acids in the gut of a higher termite (Microcerotermes edentatus Was., Amitermitinae). 4535

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). The importance of the composition of the medium for survival, growth, and yolk formation. 4541

The mode of action of the corpora allata in the course of yolk formation in Tenebrio molitor (Coleoptera). 4542

Adult emergence interval and reproduction in parasitic Hymenoptera influenced by host size and density. 4545

Evidence of a modified ovarian region in the hair glands of the Coleopteron, Hydrophilidae. Comparative anatomic data. 4554

On the presence of a virus in the testicle of a homopteran insect. 4555

Biology of the ant Formica sanguinea Latr. (Hymenoptera, Formicidae) in the Tien Shan. 4559

Poisoning of Pieris brassicae L. by an enzyme fraction of the toxin of the crystals of the strains Bacillus thuringiensis serotype U Berliner and serotype. III. Anduze. 4560

A new culture method for Rhynchosciara. 4563

Some problems on developmental physiology in the silkworm egg. 4570

The role of the exuvial fluid swallowed before emergence, in the expansion of the wings of Bombyx mori L.. 4572

Polymorphism in males of the sugarcane leafhopper, Perkinsiella saccharicida. 4576

Study of the tegumentary glands and their secretory cycle in the larva of Tipula flavolineata Meig.. 4579

Diapause in Apanteles congregatus. 4586

Intranuclear crystals in the midgut epithelium of a flea. 4589

Electrical resistance of intact integument throughout the molt cycle of a cockroach. 4593

The possibilities of regulating the labial imaginal disc in Calliphora erythrocephala Meigen. 4594

Biology of wasps of the tribe Cercerini, with a list of the Coleoptera used as prey. 4597

Intestinal transport and metabolism of D-amino acids in the silkworm, Bombyx mori L. 4599

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602

The nymphal instars of four lace bugs from Czechoslovakia. (Heteroptera, Tingidae). 4604

Single unit activity in the visual pathway of the butterfly Heliconius erato. 4605

Study of the corpus allatum in living larvae of the blow fly Calliphora erythrocephala Mg. (Diptera, Calliphoridae). 4606

Effect of high temperatures on the resistance of insects to infectious diseases. 4607

The action of different temperatures on the duration of postembryonic development and the duration between molts in adults of six species of epigeous and cave Collembola, Hypogastruridae. 4609

A comparative morphological study of the male external genitalia of the type-species of some South African Notodontidae (Lepidoptera). 4611

Honey bee recruitment to food sources: Olfaction or language. 4619

Physiological responses of insects to nicotine. 4623

Electrophysiological study of contact chemoreceptors in bloodsucking Diptera. 4624

Response of some stored-product insects to Trogoderma granarium pheromones. 4625

Esterase and phosphatase polymorphism in natural population of wild silkworm, Theophila mandarina L. 4626

Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster. 4639

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

Search for new insecticides. 4893

Soviet entomology during the period 1917-1967. (JPRS 43,647) Transl. 16962. 4966

Division of Entomology Annual Report, 1966-67. 4968

A comparative electrophoresis study of the Triatoma rubida Complex (Hemiptera: Reduviidae: Triatominae). 5181

Polarized light observations on striated muscle contraction in a mite. 5198

Bromolysergic acid diethylamide in physiological studies of lepidopterous larvae. 5199

Study of variations in neurosecretion at the level of the brain and the sub-esophageal ganglion in the female imagos of Rhodnius prolixus (Stal) Hemiptera. 5202

Histophysiological studies on neurosecretion in the ventral nervous system of Rhodnius prolixus Stal (Hemiptera) during the imago stage. 5213

Investigations into the circulatory system of the migratory locust (Locusta migratoria migratorioides tr. et F., Orth.) with special reference to the blood pressure. 5215

Puparium formation in flies: Contraction to puparium induced by ecdysone. 5223

The action of extracts of parasympathetic organs and corpora cardiaca on diuresis in several insects. 5225

Effects of the inhibitor of xanthine dehydrogenase, 4-hydroxypyrazolo(3,4 d)pyrimidine (or HHP) on the red eye pigments of Drosophila melanogaster. 5232

Mechanism of rhythmic synchronous flashing of fireflies. 5243

Bracken and locust ecdysones: Their effect on molting in the desert locust. 5251

The golgi body origin and the development of the vacuolary bodies implied in the degeneration of the molt glands of Locusta migratoria migratorioides (R. and F.). 5254

Mechanical transmission of Trypanosoma lewisi (Kinetoplastida: Trypanosomidae) by Rhodnius prolixus (Hemiptera: Reduviidae). 5261

INSECT PHYSIOLOGY

Research on the reactions of Ips sexdentatus Boerner to terpenic fumes of several conifers. 5262

Evaluation of some parameters of the individual energy budget of the larvae of Pteromalus puparum (L.) (Pteromalidae) and Pimpla instigator (Fabr.) (Ichneumonidae). 5264

Physiological modifications caused by the photoperiod during the time preceeding diapause in the Pieris brassicae L. larvae. 5265

The physiology of mosquitoes. 5266

D-Amino acids in animals. 5271

Chemosterilization of screw-worm flies, Cochliomyia hominivorax (Coquerel) (Diptera: Calliphoridae): Influence of age at treatment and mating, effect on survival, and transfer of chemosterilant by contamination. 5275

The development of fat bodies in the larvae of Calliphora erythrocephala Meig,. 5277

Two major effects of the corpus allatum in the adult Colorado beetle (Leptinotarsa decemlineata Say). 5281

A note on the feeding mechanism of two fleas. 5283

Changes in neurosecretory activity at different stages in the adult Hyalomma dromedarii Koch, 1844. 5287

Juvenile sterility in male ticks of Orinthodoros tholozani. 5303

The diversity of cell types in the neurosecretory system of the beetle Blaps mucronata. 5308

Relation of eye color to molting in Periplaneta americana l. 5309

Action spectra for phase shifts of a circadian phythm in Drosophila. 5310

Central control of an insect segmental reflex. II. Analysis of the inhibitory input from the metathoracic ganglion. 5311

The imaginal cells of the clypeo-labrum and the development of the proboscis of Drosophila melanogaster. 5321

Composition, structure, and mode of formation of mineral granules in the middle intestines of the homopteran Cercopidae. 5334

A sodium and potassium stimulated adenosine triphosphatase in the cockroach nerve cord. 5337

Blacus-dances, experiences and studies (Braconidae, Hymenoptera). 5343

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee-Ii. Effect of vitamin content of pollens. 5347

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee. I. Effect on thoracic weight, development of hypopharyngeal glands, and brood rearing. 5348

Life history of Heliolonche carolus (Noctuidae). 5354

The modification of embryologic differentiation processes through total radiotherapy in eggs of Gryllus domesticus. 5362

A hermaphrodite Quilaphoetosus janirioides (Blanchard). (Lepidoptera, Satyridae). 5363

Study of the hemocytes of Locusta migratoria L. (Orthoptera). 5367

Contribution to the physiology of the guest-host-relations (myrmecophily) in ants. I. The relation between the myrmecophilic Atemeles- and Lomechusa-larvae and Formica. 5369

Gas-liquid chromatography analysis of DDT metabolism in Aedes aegypti. 5370

Medium and long-term changes in the behavior of visual neurones in the tritocerebrum of locusts. 5371

Uptake of atmospheric water by the hen flea Ceratophyllus gallinae (Schrank). 5377

Ovarian response to corpus allatum in Iphita limbata Stal.. 5386

Differences in light reactions of larvae of the armyworm Leucania separata Walker in relation to their phase status. 5388

Spermatocysts in Aedes aegypti (Linnaeus). 5397

Common soybean insects. 5405

Investigations concerning resistance to cold of Araneus cornutus (Araneidae). 5409

Estimation of the individual number entering each development stage in an insect population. 5413

The effect of barometric pressure and other factors on eclosion of the cabbage butterfly Pieris rapae (Pieridae). 5416

Contribution to the study of higher termite digestion. 5417

Radiographic study of intestinal transit in a higher termite. 5418

Transmission experiments on the tungro virus in Thailand. 5429

Effect of ligaturing on puparium formation in the larva of the tsetse fly, Glossina morsitans Westwood. 5432

Study of the sensory equipment of the distal joint of the palpi in Locusta migratoria migratorioides (F. and R.) larvae. 5436

The relations between transpiration, humidity reaction, thirst and water content in the shorebug Saldula saltatoria L. (Heteroptera: Saldidae). 5443

The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles. 5456

Mosquito control agents derived from petroleum hydrocarbons. III. The effect of FLIT MLO on first and second larval instars. 5470

The optics of insect compound eyes. 5473

Effect on aphid feeding of dietary methionine. 5479

The ingestion in wolf spiders. I. Capacity of gut of Lycosa pseudoannulata. 5493

Colour vision and colour preference in the tropical eye-fly. 5494

Evolution toward a single phenotype and persistance of the molting glands in Locusta migratoria cinerascens, gregarious phase, under the influence of carbonic gas. Experimental and ultrastructural study. 5498

Central nervous system control of circadian rhythmicity in the cockroach. II. The pathway of light signals that entrain the rhythm. 5500

Central nervous system control of circadian rhythmicity in the cockroach. III. The optic lobes, locus of the driving oscillation . 5501

Perfusion fluid for the scorpion, Heterometrus fulvipes. 5510

The development of male genital ducts and the associated structures in Callosobruchus maculatus (F.) (Bruchidae: Coleptera). 5511

Hormonal control of the reproductive diapause in the grasshopper, Oedipoda miniata. 5522

New horizons in the fight against insects. 5524

Ionic composition of haemolymph and nervous function in the cockroach, Periplaneta americana L. 5528

Repeated pregnancy and duration of the gestation period in the scorpion, Isometrus maculatus De Geer (Fam., Buthidae). 5539

Phytophagous mites; species of widest distribution in Argentina. 5540

Antennal pulsatile organs in Scolopendra morsitans (Chilopoda:Myriapoda). 5545

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. (abstract). 5551

Seasonal development and habits of Pseudopityophthorus spp. (Coleoptera: Scolytidae) in southern Ohio. 5557

Flea Ctenophthalmus: Heterogeneous hexagonally organized layer in the midgut. 5558

Accessory glands of female Culex pipiens quinquefasciatus Say and autogenous Culex pipiens pipiens L. (Diptera, Culicidae): Appearance and behavior in relation to oogenesis. 5567

Dishabituation and arousal in the response of single nerve cells in an insect brain. 5568

Postembryonic development of the brain of Musca domestica. 5585

Visual centers during postembryonic life of Callosobruchus maculatus (F.). 5588

Studies on the mode of action of the chemosterilants 5-imidazolidinone and 4-imidazolin-2-one in the house fly and in the large milkweed bug. 5591

The spike-frequency in motor neurons of the cockroach Periplaneta americana L. 5595

Intracellular concentration of electrolytes in the housefly. 5598

The oxygen binding properties of some larval hemoglobins of Chironomus th. thummi. 5606

Resistance of Chaoborus Light. larvae to lack of food. 5607

The behaviour of Chaoborus Licht. larvae under unfavourable oxygen conditions. 5608

A relationship between ionic environment and hormonal activation of phosphorylase in an insect. 5629

Immature stages of Elasmotropis testacea (H.-S.) and notes on the bionomics of the species (Heteroptera, Tingidae). 5632

Sterilizing effect of high temperature on the male silkworm, Bombyx mori L. (Lepidoptera: Bombycidae). 5634

Salivary secretion in the cattle tick as a means of water elimination. 5641

The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. II. Muscle changes in preparation for molting. 5649

An anion-stimulated adenosine triphosphatase from the potassium-transporting midgut of the larva of Hyalophora cecropia. 5651

Development course of northern cattle grub, Hypoderma bovis, male reproductive cells. 5666

Optical orientation mechanisms in the homing behavior of Cataglyphis bicolor Fab. (Formicidae, Hymenoptera). 5671

Life history, habits, and damage of Chrysobothris orono (Coleoptera: Buprestidae) on red pine in Michigan. 5680

Cuticular water pump in insects. 5681

Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract). 5690

Insecticide resistance in the home of Culex pipiens fatigans Wiedemann. 5708

Analysis of a 6X6 diallel cross for hatchability in Drosophila melanogaster. 5734

Ecdysones and analogs: Effects on development and reproduction of insects. 5835

Isolation of the organism causing yeast-spot disease from the salivary system of the green stink bug. 6176

Description, damage and control of the southwestern corn borer. 6188

Alfalfa weevil control, 1969. 6206

A viticultural crisis of more than a quarter of a century: It has been a century since France discovered Phylloxera. 6254

Study of the insecticidal action of trans-chrysanthemate alletrholone on Musca domestica. 6693

Effect of floxosceles reclusa Gertsch and Mulaik venom against hemocytes of Acheta domesticus (Linnaeus). 7191

Observations and experimental data on ovary activity in adult Galleria mellonella (Lepidoptera Pyralidae). 7568

The secretory activity of corpora allata during sexual maturation and imaginal diapause in Gryllus domesticus L. and Leptinotarsa decen.lineata Say. 7574

Hunting behavior of the Ctenizidae. 7580

The formation of a rudimentary spermatophore by the red bollworm. 7586

The action of corpora cardiaca extracts on intestinal peristalsis in Locusta migratoria. 7590

Evidence of a biogen amine in the stomatogastric nervous system of the Insecta: Histochemical and ultrastructural study. 7592

Studies on the transfer function of a cockroach mecanoreceptor. 7596

Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae). 7600

The pharmacology of cardioaccelerators in the central nervous system of Periplaneta americana (L.). 7609

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro. 7611

Ultrastructure of the coxal glands of the genus Ornithodoros (Acari: Argasidae). 7612

Seasonal variation in the marine chironomid, Cluno tsushimensis Tokunaga (Diptera). 7614

Study of Osmia cornuta's construction after injections of labelled substances. 7616

The effect of hormones on the intestinal proteinase activity of adult Pyrrhocoris apterus L. (Hemiptera). 7619

Experimental study on male reproduction systems of the mealworm: Tenebrio molitor (Coleoptera, Tenebrionidae). 7621

A contribution to the knowledge of the diapause in Perillus bioculatus (Fabr.) (Heteroptera, Pentatomidae). 7622

The effect of genotype, mating status, weight and egg production on longevity in Drosophila melanogaster. 7628

Various aspects of the biology of Agelena consociata Denis when bred in the laboratory. 7632

Investigations into the relation of egg length and egg quantity per batch to the size of the female Anopheles claviger typicus Meigen with references to the development in size of the larvae. (Investigation into the insect fauna from Area Nr. 15) (Diptera: Culicidae). 7633

The metabolism of nucleic acids in the wing buds of Pieris brassicae (L.) (Lepidoptera, Pieridae). 7637

RNA and protein synthesis in puffs isolated from salivary gland chromosomes of Chironomus. 7641

The influence of temperature and relative humidity on the weight loss of the pugnacious ant, Anoplolepis custodiens (Smith). 7644

The cereal leaf beetle in Ohio. 7647

First experimental rearings of Hylobius abietis larvae on a synthetic medium. 7648

Bionomics of Stethorus gilvifrons Mulsant (Coleoptera: Coccinellidae). 7650

The effect of metabolic inhibitors on the moth heart. 7654

Daily periodicity of the formation of honeybee endocuticle layers. 7657

The influence of temperature upon the growth of Acrolepia assectella Zeller. 7658

Investigation of the latent period of the oak leaf roller Tortrix viridana L. (Lepidoptera). 7660

Cortisol and growth in insects. 7661

The origin of heterogeneity in newly-hatched populations of the migrating grasshopper, Schistocerca gregaria Forsk. (gregarious phase). 7670

Application of the exponential and power functions to the study of allometric growth, with particular reference to doryline ants. 7672

Effects of the electrical polarization of the sixth abdominal ganglion of the cockroach (Periplaneta americana) on the activity of the giant fibers. 7675

Study of the isolated nerve fibre of insect. Record of membrane and action potentials of the giant fibre of the cockroach, Periplaneta americana L.. 7676

Aspects of the morphogenesis, in organotypical culture in vitro, of the tracheal system in Diptera Calliphoridae. 7677

Influence of corpus allatum on reproduction of female Iphita limbata Stal (Hemiptera). 7680

Evidence of Gomori negative neurosecretory cells in the Pars intercerebralis of Musca domestica L. by a comparative study using an ordinary microscope and an electron microscope. 7683

The stomodaeal nervous system of Cybister confusus Shp. (Dytiscidae: Coleoptera). 7684

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera). 7687

Predatory behavior of Argiope argentata (Fabricius). 7689

A comparative study of the embryonic stages at diapause of some species of grasshoppers in East Tennessee. 7691

Vitamin A in the vision of termites. 7694

On the preparation of the genitalia of shepherd spiders. 7699

Observations on phoresy in Lamprochernes nodosus (Schrank). 7721

INSECT POLLINATORS

Pollination of some tundra plants with miniature flowers on niwot ridge in Boulder County, Colorado. 2698

Mosquito pollination of Habenaria obtusata (Orchidaceae). 4675

Insect answers; insecticide toxicity to alfalfa-pollinating bees. 5394

INSECT POPULATION

Methods used in Utah for sampling Tabanid populations. 1423

Preliminary study on the effect of different doses of Nitrogen on the incidence of major pests of mustard. 2644

On the problem of increase of injury in practical plant protection. 3345

INSECT POPULATION CONTROL

Zectran and naled affect incidence of parasitism of the budworm Choristoneura occidentalis in Montana. 3315

Entomophthorous fungi as a natural factor in decreasing pea aphid populations. 5299

Burning weeds in drainage ditches to suppress populations of green peach aphids and incidence of beet western yellows disease in sugarbeets. 6395

INSECT POPULATION DENSITY

Mosquito studies in northern Wisconsin. II. Light trapping studies.
2654

INSECT POPULATION STATISTICS

Temporal distribution of Tribolium castaneum Herbst and Cadra cautella Walker on temperature gradients.
1917

Aggregation of German cockroach (Blattella germanica) nymphs.
1988

Quantitative sampling of the pseudoscorpion Chthonius ischnocheles from beech litter.
2577

A method for accurate counting of blackfly larvae (Diptera: Simuliidae).
2988

Phenetics of natural populations. IV. The population asymmetry parameter in the butterfly Coenonympha tullia.
3336

INSECT POPULATIONS

Studies on the fauna of mayflies (Ephemeroptera) in the environs of Cracow.
1398

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec.
1427

Barriers to gene flow in natural populations of grasshoppers. I. The Black Canyon of the Gunnison River and Arphia conspersa.
1523

Flight and ground collection records of Costelytra zealandica (White) at a site in Canterbury, New Zealand.
1996

The effect of climatic integrants on population fluctuations of the Columbian timber beetle Corthylus columbianus Hopkins (Coleoptera; Scolytidae).
2015

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh.
2037

The ecology of a natural population of the Queensland fruit fly, Dacus tryoni. I. The parameters of the pupal and adult populations during a single season.
2205

The distribution and abundance of Collembola in the tundra zone.
2481

Methods for the determination of population dynamics in orchards. (Including sampling and collection).
2657

Concerning the possibilities of forecasting, supervising the insect outbreak and on tolerance limits in the integrated pest control in fruit cultures.
2669

Some concluding remarks.
2670

Role of aphids in the ecology of plant viruses. swenson, k g.
2798

Studies on the eradication of Anopheles pharoensis by the sterile-male technique using Cobalt-60. VII. Population dynamics of mosquitoes in Fayoum Area, UAR.
3143

Selection and host plant overlap in two desert Papilio butterflies.
3194

Influence of larval population density on the development of Ceratitis capitata Wied. II.
3241

Effects of rainfall on range forage and populations of grasshoppers, San Carlos Apache Indian Reservation, Arizona.
3257

Interpopulation karyotype differences in Australian Iridomyrmex of the Detectus group (Hymenoptera: Formicidae: Dolichoderinae).
3328

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism.
3329

The colonization of Lake Constance with Chironomidae.
3765

Ecological and systematic investigations of the Chironomidae (Diptera) of Lake Constance. A contribution to the lake chironomide fauna of the northern foothills of the Alps.
3766

Remarks on fluctuations in density of Carabidae populations.
3824

Community studies on Hymenoptera found on Brassica napus L. Part III. Braconidae and Aphidiidae.
3853

Specificity of population-aggregating pheromones in Dendroctonus.
3863

On the effect of combined action of pathogenic microorganisms and insecticides upon insects.
3884

Abundance and microdistribution of larval Chironomidae in stabilization lagoons.
4432

Investigations of fauna overwintering in or under the bark of apple trees. Part II. Studies on Arachnida.
4534

Community studies on Hymenoptera found on Brassica napus. Part IV. Aculeata.
4567

Polymorphism in males of the sugarcane leafhopper, Perkinsiella saccharicida.
4576

The insect world. Series: The universe of knowledge.
4967

The study of the aerial migration of insects as applied to phyto-sanitary control.
5237

Action spectra for phase shifts of a circadian phythm in Drosophila.
5310

Insect-flower associations in the high Arctic with special reference to nectar.
5366

Effects of forest spraying with DDT on aquatic insects of salmon streams in New Brunswick.
5380

Chemosterilization of the two-spotted spider mite. IV. Effect on population.
5391

Fluctuations in numbers and reduction of the Colorado beetle (Leptinotarsa decemlineata Say) in natural conditions.
5402

The 24-inch branch as a sample unit for egg mass surveys of the western budworm.
5463

Conditions determining the initiation and development of nuclear polyhedrosis epizootics in Lepidoptera.
5506

The beetles (Coleoptera) of Babia Gora Mountain (Polish Western Carpathians).
5518

Two methods of operating a vacuum sampler to sample populations of the cotton fleahopper on wild hosts.
5559

The natural and artificial dispersion of pathogens.
5561

The study of virus epizootics in insect populations.
5625

Report of the Suffolk County Mosquito Control Commission.
5633

Seasonal distribution, sex ratios, and mating of female noctuid moths in blacklight trapping studies.
5655

Selection for higher fitness in populations of Drosophila pseudoobscura.
5720

Alternate hosts of the greenbug.
6170

Systemic activity of UC-21149 against the citrus red mite, citrus thrips, California red scale, and spirea aphids on nonbearing orange trees.
6265

INSECT PRESERVATION

Observations on the preservation of Lepidoptera specimens.
4349

INSECT PROTECTIVE DEVICES

Survival of eggs of Eretmapodites chrysogaster Graham (Diptera: Culicidae).
813

The structure of the defense glands in Alleculidae and Lagriidae (Coleoptera).
820

Defense mechanisms of arthropods. XX. Quantitative assessment of hydrogen cyanide production in two species of millipedes.
1385

Natural selection and feeding speed in a bloodsucking insect.
1397

Hydrocyanic acid in the defense secretion of the geophilid Pachymerium ferrugineum. Communication on Arthropod protective substances.
1469

On the evolution of Carabids' scent gland secretion. On Arthropod defense substances.
1470

The fine structure of the cuticle. A contribution to the question of the protection against its own poison of the Madeira roach.
1971

On the fine structure of insect cuticle. A contribution to the question of the characteristic protection against toxins of the Hemiptera cuticle.
1972

Defensive mechanisms of arthropods, XXIII. An allenic sesquiterpenoid from the grasshopper Romalea microptera.
2609

The development of research on insect secretions.
2630

Some relationships between plant lice (Aphididae) and their parasites.
3314

Lysozyme in the humoral defense mechanism of specifically and non-specifically immunized insect larvae.
3856

Honeybees: Do they use direction and distance information provided by their dancers.
3889

Benzaldehyde: Defensive secretion of a harvester ant.
4460

The alarm-defence system of the ant Acanthomyops claviger.
5553

An experiment on selection for mimicry.
7595

Jumping as defensive behavior in Collembola.
7700

INSECT REARING

Biological observations on Rhabdophaga ramicola Rubs.
40

Marking insects with dietary manganese for detection by neutron activation.
41

INSECT REARING

A new Japanese species of Atherigona Rond. (Diptera: Muscidae) reared from sugar-cane. 44

The biology of Orgyia antiqua (Linnaeus). (Lepidoptera). 82

Butterflies, collecting and rearing. 93

The biology of Thanatopsyche chilensis (Philippi). (Lepidoptera). 101

The productivity of Glossina austeni Newst. maintained on cop-eared rabbits. 109

Application of beta-propiolactone on the rearing of the silkworm, Bombyx mori L. 167

The foodplant of Idiocerus varius Germ. (Hem., Cicadellidae). 588

The larvae of some British Notiophilus species (Col., Carabidae). 612

An adventive Anthidium in New York State (Hymenoptera: Megachilidae). 633

New reared neotropical species of Rogas Nees (Hymenoptera: Braconidae). 671

Discovery of the male of the genus Pseudhomalopoda (Hymenoptera: Chalcidoidea-Encyrtidae). 710

Alophora obesa F. (Dipt., Tachinidae) bred from Neottiglossa pusilla Gmel. (Hem., Pentatomidae). 740

Raising caterpillars Why. 750

The establishment of a laboratory colony of the tomato hornworm Protoparce quinquemaculata Haw. (Lepidoptera: Sphingidae). 764

Age structure, population dynamics and vector potential of Phlebotomus in Northern California. I. Distinguishing parous from nulliparous flies. 765

Rearing Mantispa viridis Walker in the laboratory (Neuroptera, Mantispidae). 777

The identification of Otiorrhynchus larvae from blackcurrant roots with description of the larvae of O. clavipes (Bonsd.) and O. singularis (L.) (Col., Curculionidae). 787

Observations on the rearing of Perillus bioculatus (Fabr.) (Heteropt. Pentatomidae), a predator of the Colorado beetle, imported from North America. 789

Influence of the nature of rearing media on the sensitivity of the larval stage of Musca domestica Linnaeus to the thermostable toxin of Bacillus thuringiensis Berliner. 792

An interesting brood of Eudia pavonia (Attacidae). 838

Epizootiology of Trypanosoma cruzi in Southwestern North America. XI-XII. Biology of the genus Reduvius in North America and the possible relationship of Reduvius to the epizootiology of Trypanosoma cruzi (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomidae). 875

Notes on rearing Parmena balteus L.(Cerambycidae). 889

On the biology and ecology of Lygus vosseleri (Heteroptera: Miridae) with special reference to its hostplant relationships. 1016

Tinea columbariella Wck. as a pest on imported duck feathers. 1124

Termite rearing and testing of Makrolin as a woodpreservative against termites. (Isopteratermitidae). 1133

A new Stenomesius (Hym., Eulophidae) reared from Ceramidia viridis in Ecuador. 1220

The Mantodea of Lamto and the savannahs in the Ivory Coast. 1254

Laboratory colonization of Trichoprosopon digitatum (Rondani) (Diptera: Culicidae). 1350

The life-cycle of the spider Phidippus loccineus (Salticidae) under laboratory conditions. 1393

Mass rearing of Anopheles stephensi Liston. 1395

A simple rearing container for Drosophila. 1465

Mode of life and difficulties in the rearing of Scopula umbelaria Hbn. (Lep. Geom.). 1487

Behavioral and physiological aspects of mating and oviposition by the adult western corn rootworm, Diabrotica virgifera LeConte. 1936

Hints on the permanent rearing of Dacus oleae Gmelin (Diptera, Tyrpetidae)in the laboratory. 1938

Performance of laboratory-reared and artifically inseminated honey bee queens. 1950

Dispersal and local distribution of laboratory-reared sterile screw-worm flies released in winter. 1980

Mass rearing technique of rice gall midge (Pachydiplosis oryzae Wood-Mason) and notes on its biology. 2002

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. I. Laboratory experiments. 2003

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. II. Experiments related to transmission in nature. 2004

Laboratory rearing of aphids. 2019

Heat-extraction technique for recovery of potato tuberworm larvae from potato tubers. 2029

Performance of the English grain aphid on sterilized and unsterilized artificial diet. 2059

An artificial diet for larvae and adults of Chrysopa carnea, an insect predator of crop pests. 2063

The ecology of Sminthurus viridis (Collembola). II. Diapause in the aestivating egg. 2066

Biology of the robber fly Eutolmus rufibarbis Mg, (Diptera, Asilidae) in Khabarovsk Territory. 2072

Effectiveness of regular cycles of intermittent artificial selection for a quantitative character in Drosophila melanogaster. 2087

Cytogenetics of the viatica group of morabine grasshoppers. I. The coastal species. 2095

First applications of biological control of Aonidiella aurantii in Morocco. 2542

Rearing three species of fruitsucking moths on artificial diets. 2548

Genotypes and environment in the determination of the ground- and winged forms of aphids. 2554

Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae). 2573

The importance of Solanum carolinense L. as a host of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae) in southwestern Ontario. 2574

Inter-racial mating of a non-diapausing and a diapausing race of Teleogryllus commodus (Walk.) (Orthoptera: Gryllidae). 2587

Ecology of Laccifer lacca Kerr (Homoptera, Coccoidea) under the conditions of the Black Sea coast of Georgia. 2594

Calcium alginate: A new approach in the artificial culturing of insects, applied to Spodoptera littoralis (Boisduval). 2620

A serological comparison of Pissodes strobi and P. approximatus (Coleoptera: Curculionidae). 2632

Laboratory propagation of the parasite Chrysocharis laricinellae (Hymenoptera: Eulophidae) and notes on interaction with its host, Coleophora laricella. 2640

Morphology and biology of Culex pipiens L. (Diptera, Culicidae) in Uzbekistan. 2662

Comparative analysis of spontaneous aneuploidy in males and females of Drosophila. 2682

Reproductive isolation between two closely related species of the Queensland fruit fly, Dacus tryoni (Frogg.) and D. neohumeralis Hardy (Diptera: Tephritidae). II. Genetic variation in humeral callus pattern in each species as compared with laboratory-bred hybrids. 2684

The use of sterile males to control populations of Queensland fruit-fly, Dacus tryoni (Frogg.) (Diptera: Tephritidae). I. Methods of mass-rearing, transporting, irradiating, and releasing sterile flies. 2813

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. II. Selected environmental and nutritional factors affecting development and sex ratio. 2834

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. I. Selected environmental factors affecting penetration. 2835

Volatile neutral compounds emanating from laboratory-reared colonies of the desert locust, Schistocerca gregaria. 3171

Laboratory breeding of Pieris brassicae transmitting a granulosis virus. 3182

Rearing Euleucophaeus rubridorsa and E. lex (Saturniidae). 3204

Laboratory rearing of the tobacco flea beetle. 3205

Feeding larvae of the Japan beetle in the laboratory. 3209

Production of fourth-instar pink bollworm larvae from sodium hypochlorite-treated and untreated eggs. 3237

A technique for mass rearing the southern armyworm in the laboratory. 3283

Notes on the biology and rearing of Anaphes ovijentatus, a new parasite of Lygus hesperus in Arizona. 3286

Population models for supression of the sugarcane borer by inherited partial sterility.
3303

Rearing sod webworms on artificial diets.
3305

Studies on sex pheromones of pyralididae. II. Mass rearing of virgin females of the almond moth, Cadra cautella Walker (Phycitinae).
3880

Effect of rearing condition on growth and development of the silkworm, Bombyx mori L., on artificial diet. II.
3882

Hereditary nature of the two forms of Argyrogramma albostriata (Bremer and Grey) (Noctuidae, Plusiinae).
3898

Aphidius smithi Sharma and Subha Rao (Hymenoptera: Aphidiidae) a parasite of the pea aphid new in Southern Ontario.
4350

Wood-and-bark-feeding Coleoptera of felled spruce in interior British Columbia.
4425

A semi-synthetic diet for Eri-silkworm raising.
4492

The development of an artificial diet not containing leaf powder of any food plants for Eri-silkworm raising.
4493

Nutrition of the silkworm, Bombyx mori. XVII. Effect of dietary levels of amino acids on growth of fifth-instar larvae and on cocoon quality.
4517

A new culture method for Rhynchosciara.
4563

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). 3. Bionomical notes on Phlebotomus townsendi Ortiz, 1959 and P. vexillarius Fairchild Heritig, 1952.
4596

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet.
4602

Chironomus strenzkein. sp. (Chironomidae, Dipt), a new laboratory animal.
5031

Conditions of formation of water reservoirs-Breeding places of blood-sucking mosquitoes (Culicidae).
5200

Rearing of Ips cembrae larvae on artifical diets: Some essential amino acids and sugars.
5206

Inflated plastic bags as cages for insects on potted plants.
5212

The toxic action of Bacillus thuringiensis exotoxin on Drosophila reared in yeast-containing and yeast-free media.
5221

Selection for divergent emigration rates in laboratory populations of Musca domestica.
5269

Studies of house flies. I. Breeding of Musca sorbens, Wied..
5282

On the reproductive biology of Chironomus nuditarsis Str,.
5306

Action spectra for phase shifts of a circadian phythm in Drosophila.
5310

Procedures and materials perfected for the rearing and collection of homopterans (Aphididae and Jassidae) during virus transmission studies.
5313

Studies on interspecies competition between the azuki bean weevil and the southern cowpea weevil. III. Some characteristics of strains of two species.
5318

Airborne factor affecting the grouping behaviour of locusts.
5328

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee. I. Effect on thoracic weight, development of hypopharyngeal glands, and brood rearing.
5348

Observations on two species of Culex of the subgenus Melanoconion.
5349

Biosystematics of Phytoseiulus persimilis AthiasHenriot (Acarina: Phytoseiidae).
5407

Estimation of the individual number entering each development stage in an insect population.
5413

A technique for maintenance and rearing of Odoiporus longicollis.
5424

Breeding Lysandra coridon ab. syngrapha.
5445

Notes on Banchopsis ruficornis Cameron (Hym.: Ichneumonidae) an internal larval parasite of Heliothis armigera (Hubner) in India.
5457

The influence of light and temperature variations on the behavior and fecundity of the larch-bud moth Zeiraphera diniana (Gn.) (Lepidoptera: Tortricidae).
5467

The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae.
5468

1967: The results of artificial biological control of the olive fly.
5480

A technique for rearing trombiculid mites (Acarina) developed in a tropical laboratory.
5489

The ingestion in wolf spiders. I. Capacity of gut of Lycosa pseudoannulata.
5493

Some notes on the rearing of useful insects.
5556

Nest architecture and brood development in a neotropical bumblebee, Bombus atratus.
5578

Functional response to host density in a parasitic wasp, with reference to population regulation.
5640

An improved method for the collection of large numbers of inseminated eggs of Drosophila melanogaster.
5684

The exploitation of genetic heterogeneity among the founders of laboratory populations of Drosophila prior to directional selection.
5711

Relative fitness of a third chromosome inversion in Drosophila melanogaster.
5728

Genetics of resistance to tedion in Tetranychus urticae C. L. Koch.
5731

Selection and temperature effects on extra dorsocentral bristles in Drosophila melanogaster.
5744

Comparative serology of a complex species group of food-plant specialists: The Rhagoletis pomonella complex (Diptera: Tephritidae).
7545

An analysis of natural selection in laboratory populations of Dacus (Tephritidae: Diptera).
7610

Various aspects of the biology of Agelena consociata Denis when bred in the laboratory.
7632

First experimental rearings of Hylobius abietis larvae on a synthetic medium.
7648

Bagworm photographs: Eggs, larvae, pupae, and adults of Thyridopteryx ephemeraeformis (Psychidae: Lepidoptera).
7674

Locomotor activity in Drosophila--V. A comparative biochemical study of selectively bred populations.
7714

Laboratory culture of chironomid species from the Hula Nature Preserve, Israel.
7720

Laboratory determination of resistance to tetradifon in the fruit tree red spider mite, Panonychus ulmi (Koch).
7823

INSECT REARING EQUIPMENT

Butterflies, collecting and rearing.
93

A simple rearing container for Drosophila.
1465

Laboratory rearing of the tobacco flea beetle.
3205

Feeding larvae of the Japan beetle in the laboratory.
3209

Langstroth and Modified Dadant(M D) hives.
3250

A technique for mass rearing the southern armyworm in the laboratory.
3283

A technique for maintenance and rearing of Odoiporus longicollis.
5424

An instrument to hold rabbits for blood sucking Simuliid experiments.
5574

Equipment for the experimental feeding of sandflies.
7567

Feeding bees.
7594

INSECT REARING TECHNIQUES

Effects of oxygen deprivation on aquatic midge larvae under natural and laboratory conditions.
745

INSECT REPELLENTS

Pyrethrum as an insect repellent. III. A study of the persistence of pyrethrins films, when applied in three types of formulation, as insect repellents to human skin.
187

Specifications for pesticides used in Public Health.
1192

Possible new and more selective means of pest control.
1392

An automated repellency assay system. I. Statistical methods.
1416

The effectiveness of repellents on cloth as determined by oviposition of Aedes aegypti L..
1527

Cockroach insecticides--how repellent are they .
1780

Residual activity of benzene hexachloride formulations on the bovine coat.
1787

An automated repellency-assay system. II. A new electronic bitometer-timer. .
1861

Defensive mechanisms of arthropods. XXIII. An allenic sesquiterpenoid from the grasshopper Romalea microptera.
2609

Materials evaluated as insecticides, repellents, and chemosterilants at Orlando and Gainsville, Fla., 1952-1964.
3147

Response of some stored-product insects to Trogoderma granarium pheromones.
4625

Insect venoms, attractants, and repellents. XI. Massoilactone from two species of formicine ants, and some observations on constituents of the bark oil of Cryptocarya massoia. 5257

Pest control's 1969 directory of pesticides. 7403

Dieltamid-spray as an ant repellent. 7929

INSECT REPRODUCTION

Oviposition in Ornithodorus moubata Murray (Ixodoidea, Argasidae). 1411

Investigation into the tendency of parthenogenic reproduction of Solenobia manni Z. (Lepidoptera, Psychidae). 1433

Changes in glycogen-, lipid-, and nitrogen metabolism of the imago of Pyrrhocoris apterus L. in connection with the reproduction process. 1989

Oosorption in Nasonia vitripennis (Hymenoptera: Pteromalidac). 2596

Reproductive isolation between two closely related species of the Queensland fruit fly, Dacus tryoni (Frogg.) and D. neohumeralis Hardy (Diptera: Tephritidae). I. Variation in humeral callus pattern and the occurrence of intermediate colour forms in the wild. 2672

Reproductive isolation between two closely related species of the Queensland fruit fly, Dacus tryoni (Frogg.) and D. neohumeralis Hardy (Diptera: Tephritidae). II. Genetic variation in humeral callus pattern in each species as compared with laboratory-bred hybrids. 2684

Influence of mating, insemination, and other factors on oogenesis and oviposition in the moth Zeiraphera diniana. 3169

Easy recognition of mated females of the European pine shoot moth. 3180

Method of hindering the metamorphosis and reproduction of arthropodes. Patent 3,429,970. 3272

The reproducing capacity of gamma-irradiated adult males of the confused flour beetle. 3300

New European Orthoptera. 4390

On parthenogenic reproduction in Arammichnus cribricollis Gyll (Insecta Coleoptera Curculionidae). 4463

Further notes on the reproductive biology of the earwig Forficula auricularia L.. 4510

On the continuous or periodic production of broods in the Halictinae (Insecta, Hymenoptera). 4526

On the production of males in the social Halictinae (Insecta, Hymenoptera). 4528

Action of natural ionizing radiations on reproduction in the metazoa: Research on Drosophila melanogaster. 4581

The physiology of mosquitoes. 5266

Effect of certain alkylating and non-alkylating chemosterilants on Culex fatigans Weid. 5342

Ovarian response to corpus allatum in Iphita limbata Stal.. 5386

Repeated pregnancy and duration of the gestation period in the scorpion, Isometrus maculatus De Geer (Fam., Buthidae). 5539

INSECT RESISTANT PLANTS

Differences among Scotch pine varieties in susceptibility to European pine sawfly. 6279

INSECT RESPIRATION

Metabolic control mechanisms in insects. 98

The regulation of breathing in insects. 128

Oxygen uptake of single insects determined with a polarographic oxygen electrode. 804

On the problem of the importance of the larval haemoglobin for the respiration of the tropical chironomid Chironomus strenzkei Fittkau (Diptera). 1451

Activities of respiratory enzymes during the metamorphosis of the face fly, Musca autumnalis De Geer. 1466

Study of several physiological and biological characteristics in the third instar of Melolontha melolontha L. larvae which have been contaminated by two pathologic agents. 2584

Effects of long-term cardiatectomy-allatectomy on mitochondrial respiration in the cockroach, Blaberus discoidalis. 3836

Biochemical correlates of respiratory and developmental changes in anoxic Tribolium confusum pupae. 5408

Observations on the oxygen consumption of tsetse larvae (Glossina morsitans). 5542

An apparent discontinuity in the relation between temperature and the respiratory rate of tsetse pupae. (Glossina morsitans). 5543

Plastron respiration in the marine fly Canace. 7617

A method of measuring respiratory exchanges in the total insect. 7640

INSECT SURVEY

Methods used in Utah for sampling Tabanid populations. 1423

Lake Chad and the Chironomidae of its eastern part. 7448

INSECT TAXONOMY

Secrets of the insects. 2

A revision of the genus Copris Muller of the Western Hemisphere (Coleoptera, Scarabaeidae). matthews, e g. 5

Some biological notes on the pteromalid (Hym., Chalcidoidea) genera Caenacis Foerster, Cecidostiba Thomson and Hobbya Delucchi, with descriptions of two new species. 6

The Nemouridae of Assam (Plectopera). 7

Contribution to the knowledge of the lepidoptera fauna of Iran. 8

Some thoughts on the Pterophoridae of the French fauna. 11

Taxonomic problems in ecological research on entomophagous insects. 12

Materials for a revision of the genus Oreopsyche (Psychidae). 14

Materials for a revision of the genus Oreopsyche (Psychidae). 15

Listing of the trifid Noctuidae of France and Belgium. 16

Notes on the classification of the Iberian families of Parnassius apollo (Papilionidae). 17

Descriptions of new and little known species of Mallophaga (Insecta) from maritime hosts of Chile, South America. 18

Bibliography on the systematics of entomophagus insects VI. 19

Sialis nigripes Pictet,Raphidia (Agulla) aloysiana Costa and Inocellia keiseri Aspoeck, new for Switzerland. (Neuroptera s.l.). 22

Original descriptions, synonyms and geographical distribution of the species of the Syrphidae (Diptera) family in chile. 24

Supplementary notes on the orbitalis (Westw.) group of Antestiopsis (Hemiptera, Pentatomidae). 26

The position of Polistes (Leptopolistes) bischoffi Weyrauch (Hymenoptera: Vespidae). 27

African termites of the genus Schedorhinotermes (Isoptera: Rhinotermitidae) and associated termitophiles (Lepidoptera Tineidae). 28

Tachinidae catch in the Swiss Jura, using tent traps. 30

The subgenera of Austrolimnius (Coleoptera: Elminthidae). 31

Four new species and a new genus of Coccidae (Homoptera: Coccoidea) from Africa. 32

A deviant form of Aglais urticae. (Nymphalidae). 33

A new sub-species of Cynandra opis Drury. 34

New species for the Belgian fauna. 35

Apamea pabulatricula Brahm in Belgium. (Noctuidae). 36

Hunting at night at Losheimergraben. 37

Biological observations on Rhabdophaga ramicola Rubs. 40

Trichogrammidae--the smallest winged insects. 42

The Diptera described by W. J. Rainbow from Funafuti Atoll, Ellice Islands. 43

A new Japanese species of Atherigona Rond. (Diptera· Muscidae) reared from sugar-cane. 44

The nomenclature problem of Trichogramma species. 45

A new species of gall gnat Mamaevia n.g.n.sp. (Diptera, Itonididae) from Bohemia. 48

The biology and ecology of the Rhyparochrominae of New England (Heteroptera: Lygaeidae). I. 50

Notes on some aphids from Vietnam, with description of a new species (Homoptera, Aphidodea). 51

An interesting specimen: Celama centonalis f. littoralis Paux. (Arctiidae Nolinae). 52

On the genus Dejanira Thomson (Col. Cerambycidae Cerambycinae). 53

Notes on Plebeius argyrognomon Bgstr. (Lepidoptera, Lycaenidae). 54

SUBJECT INDEX

INSECT TAXONOMY

Biological notes on eye-frequenting moths from North Thailand. 71

Species differences in scarab-pasture relationships. 76

A new genus and four new species of Aphids (Homoptera, Aphididae) from Poland. 103

A new genus (Neostereopalpus) of the Eurygeniini (Coleoptera: Anthicidae) from Japan. 586

A third species of Stereopalpus (Coleoptera: Anthicidae: Eurygeniinae) from China. 587

Systematic and faunistic description of the cockchafer Melolontha melolontha (vulgaris F.) in Switzerland. 591

Records and descriptions of African Encyrtidae--4 (Hymenoptera: Chalcidoidea). 592

Notes on the genus Oncopsis Burmeister, 1838 (Homoptera, Auchenorrhyncha) with descriptions of new species from the Soviet Far East. 593

Notes on two Coenonympha of the Paris basin. (Lepidoptera Nymphalidae Satyrinae). 594

Identification of cutworms of economic importance on Rhodesia (Lepidoptera: Noctuidae). 595

Carabus (Procrustes) mulsantianus Mor. n. nurdagensis nov. 596

Darkling beetles of the genus Epitrichia Gebler (Coleoptera, Tenebrionidae). 597

The Dermaptera of Venezuela. 600

A new African membracid (Hem. Hom.). 601

New Membracidae (Hemiptera: Homoptera) from Sudan and Ethiopia. 602

Bibliography on the systematique of entomophagous insects. V. 603

Notes on the fauna of the Armorique mountains. 604

The discovery of a new Damaster from Formosa (Coleoptera, Carabidae). 606

A melanistic form of Parasemia plantaginis L. 607

The chromosomes of three Australian Dacetine ant species (Hymenoptera: Formicidae). 611

Second contribution to the knowledge of the African Coccoidea (Homoptera). 613

Spinulana, new genus of Mexican Deltocephalinae, and two new species of Spinulana. (Homoptera; Cicadellidae). 614

Studies on the Gyponinae; two new genera, Chilenana and chilella. (Homoptera; Cicadellidae). 615

A new species of Draeculacephala (Homoptera-Cicadellidae) from Chile. 616

Devolana, new genus of Mexican Deltocephalinae, and a new species of Devolana.(Homoptera; Cicadellidae). 617

Contributions to the study of Phasiinae cimicophages (Diptera Tachinidae). 35. Taxonomic and biological studies of Clairvillia biguttata and the related European Leucostomatina. 618

Orthotylus tenellus (Fall.) (Hem., Miridae) in East Kent. 619

Redescription of some Opiinae (Hymenoptera, Braconidae). 620

New species and records of Hesperiidae from Mexico (Lepidoptera). 622

Note on two type specimens of British Pteromalidae (Hym., Chalcidoidea) in the G. T. Rudd collection (Yorkshire Museum, York). 624

Correlations between characters in species of Colias (Lepidoptera: Pieridae). 625

A new click beetle of the genus Agriotes Esch. (Coleoptera, Elateridae) from Soviet Central Asia. 626

The Bibionidae (Diptera) of Nepal, results of the Austrian and the B. P. Bishop Museum expeditions, 1961 and 1965. 627

Notes on Helconini (Ichneumonoidea, Braconidae, Helconinae).Part I. 629

Hercostomus praeceps Lw.--H. fulvicaudis Walk. (Dipt., Dolichopodidae), a correction. 630

A new species of Notiophygus Gory with supplementary information (Discolomidae Col.). 634

Conclusion of a revision of Aphanocephalus (Coleoptera, Discolomidae). 635

Some new synonymy in the Ptiliidae (Col.). 636

Cryptopleurum subtile Sharp (Col., Hydrophilidae): An expected addition to the British list. 637

Paratephritis transitoria Rhod. (Diptera, Tephritidae), a fly that forms galls on tassel flowers in the Maritime Territory. 640

A new South American hawk moth Protoparce feronia sp. n. (Lep. Sphingidae). 644

Revision of the termitophilous subfamily Trichopseniinae (Coleoptera, Staphylinidae). I. The genus Schizelythron Kemner. 648

Polish species of the family Triozidae (Homoptera, Psyllodea). 649

Review of the parasitic Diptera of the genus Eriothrix Meigen (Diptera, Tachinidae) in the USSR. 650

Mysmena jobi n. sp., a Symphytognathide in middle Europe (Arachnida, Araneae, Symphytognathidae). 652

Entomological tour of Spain. 653

Tingidae from Korea (Heteroptera). 654

On sawflies synonyms (Hymenoptera, Symphyta). 656

The species of the Pristiphora abietina Christ group (Hymenoptera, Tenthredinidae). 657

New psyllids (Homoptera, Psylloidea) from the far east of the USSR. 658

Notes on two species of Machimus Lw. in northern Europe (Diptera, Asilidae). 659

A new species of Calosoma (Callisthenes) from the Middle East. 660

Hemiptera of the State Preserve of Westhoek. Pentatomoidea. 662

Descriptions of two new species of the genus Stethorus Weise from Japan (Coleoptera: Coccinellidae). 666

A new genus belonging to the tribe Pharini from the northern part of the Ryukyu islands (Coleoptera: Coccinellidae). 667

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 3. Subfamilies Ophioninae, Cremastinae and Ichneumoninae. 668

A key to ichneumonid parasites of rice stem borers in Asia (Hymenoptera: Ichneumonidae). 669

New reared neotropical species of Rogas Nees (Hymenoptera: Braconidae). 671

A new genus and species of armoured scale (Homoptera: Coccoidea: Diaspididae) from Ethiopia. 672

Chloropid flies of the genus Dicraeus Lw. (Diptera, Chloropidae). 673

Calliphora subalpina (Ringdahl) new for Denmark and other species of Calliphora (Diptera: Calliphoridae) found on the stinkhorn (Phallus impudicus). 674

Notes on and descriptions of Aphelia, Clepsis and Choristoneura species (Lepidoptera) Tortrilidae). 675

Supplementary notes on the genus Pseudoliprus of Japan (Coleoptera: Chrysomelidae-Alticinae). 676

On the syrphid larvae attacking the aphids in Japan (Diptera). 677

New species of horse flies (Diptera, Tabanidae) from Palaearctica. 678

Longiunguis elisabethae, n. sp.. A new Swedish aphid (Hem.). 679

Contribution to the knowledge of the Tineidae of the Eastern Mediterranean. 680

The genus Gynanisa Walker (Lepidoptera: Saturniidae). 682

Description of two new Buprestidae. 683

The importance of accurately identifying specimens. 684

A new species of Trachysphyrus from the Andes of Ecuador (Hymenoptera, Ichneumonidae). 685

Two new species of Menoponidae (Mallophaga) from the Falconiformes. 686

New Steninae from the Soviet Union including comments on synonyms (Coleoptera, Staphylinidae). 53. Contribution to the knowledge of the Steninae. 688

Colembola fauna of Chile II. 690

A new genus of parasitic tachinid flies (Diptera, Tachinidae) from Soviet Central Asia. 694

Palearctic species of the genus Sphenometopa Townsend (Diptera, Sarcophagidae). 696

The immature instars of the cleptoparasitic genus Dioxys (Hymenoptera: Megachilidae). 697

A preliminary review of the genus Isoneurothrips and the subgenus Thrips (Isothrips) (Thysanoptera: Thripidae).
699

On the synonyms of the bark beetles XVI. 242. Contribution to the morphology and taxonomy of the Scolytoidea.
701

Coleoptera from northeast Africa. Scolytidae and Platypodidae. 255. Contribution to the morphology and taxonomy of the Scolytidae.
702

Biting midges of the genus Culicoides Mg. (Diptera, Ceratopogonidae) from the valley of the middle reaches of the Desna.
703

Two new Chlorops Mg. (Diptera, Chloropidae) from Kazakhstan.
704

A statistical study of the taxonomy of Cassidinae (Col. Chrys.). (Abstract).
706

The butterfly fauna of Pian San Giacomo, Misox, Graubunden (A contribution to the Lepideptora fauna of Switzerland).
707

Two new Bagous-species for Finland (Coleoptera, Curculionidae).
709

Discovery of the female of Phemigostola synemonistis Strand, 1909 (Lep. Agaristidae).
716

New or little known Quadrifid Noctuidae of Madagascar III. (Lep. Noctuidae).
717

Pionosomus nitens nov. sp., a new type of Lygaeidae from North Africa (Hem. Het. Lygaeidae).
718

Harpocera cypria nov. sp., a new type of Miridae from the Island of Cyprus (Hem. Het.).
719

On a Mirid from Morocco (Heteroptera).
720

Two new Mirids from Cyprus (Heteroptera).
721

The genus Alloeonotus Fieber, 1878 (Heteroptera, Miridae).
722

The subgenus Compsocerocoris Reuter, 1876 the genus Phytocoris Fallen (Heteroptera, Miridae).
723

A new genus and species of Oribatellid mite from Colorado (Acarina: Oribatei).
725

Notes on Sciomyzidae collected in paddy field (Diptera), I.
727

Larval stages of the leaf-miners found in Shikoku. (Coleopterous leaf-miners of Japan. VII).
728

Some new or little known species of non-gall making Cecidomyiidae from Hiko-San (Diptera).
731

A tabular summary of the species of the fringe-winged insect genus Dendothrips Uzel 1895.(Thysanoptera; Thripidae).
733

Some species of Leptoconops of the Oriental and Pacific Regions (Diptera, Ceratopogonidae).
767

Five Geometridae of Corsica.
806

Life history, habitat, and taxonomic characters of the larva of Mochlonyx fuliginosus.
829

An interesting brood of Eudia pavonia (Attacidae).
838

The Mexican species of Promachus in the subgenus Amblyonychus (0Promachina) (Diptera: Asilidae).
842

Nests of some African megachilid bees, with description of a new (oplitis (Hymenoptera, Aoiudea),.
847

New or little-known Elateridae from Japan. X. (Coleoptera).
858

Notes on rearing Parmena balteus L.(Cerambycidae).
889

A probable hybrid between Melanargia russiae and Melanargia lachesis.(Nymphalidae Satyrinae).
895

Investigations concerning the ecology and control of the face fly, Musca autumnalis de Geer.
1125

Description of a new genus of Lasiocampidae and of its holotype. (Lep. Lasioc. Gonometinae).
1207

A new species of Neotylos Hendel, 1932 (Diptera, Micropezidae).
1209

Records and descriptions of Tipulidae from South America (Diptera). II.
1210

Notes on the biology of two Central American Ptinus (Coleoptera: Ptinidae) with a description of a new species.
1211

A new Pseudanophthalmus from an epigean environment in West Virginia (Coleoptera: Carabidae).
1212

Further investigations into the genus Meotica Mulsant and Rey (Col., Staphylinidae).
1213

Peromyscopsylla hamifer hamifer (Rothschild): An addition to the entomological fauna of New York State.
1214

New taxonomic position of an African chrysomelide. (Col.).
1215

The fresh-water mites from a small pond.
1216

Hydrachnellae of the Netherlands XLV.
1217

Miscellaneous studies on Phorid flies. III.
1219

A new Stenomesius (Hym., Eulophidae) reared from Ceramidia viridis in Ecuador.
1220

Annotated listing of works on Lepidoptera.
1221

Noctuidae (Lep.). Description of 26 new palearctic species of Noctuidae Trifinae and of a new sub-genus of the subfamily Apatelinae. Contribution no. 160 to the study of Noctuidae Trifinae.
1222

Taxonomic notes on the larvae of British Diptera. No. 27, A revised note on the subfamily Hemerodrominae (Empididae).
1224

The revision of the tribe Chalepini of America north of Mexico. II. Genus Chalepus Thunberg (Coleoptera, Chrysomelidae).
1225

Description of Leptothorax monjauzei n. sp. from Algeria. (Hym. Formicidae Myrmicinae).
1226

Contribution to the knowledge of the Palearctic Tineids (Lepidoptera, Tineidae).
1227

Studies on North American Carboniferous insects. 5. Palaeodictyoptera and Megasecoptera from Illinois and Tennessee, with a discussion of the order Sypharopteroidea.
1228

Neotropical Miridae, CII: On the genus Lampsophorus Reuter and mabelia Kirkaldy, with a description of a new species (Hemiptera).
1229

Six new species of mites of the genus Amblyseius (Phytoseiidae) from Pakistan.
1230

Two new species of the genus Otiothops (Araneae, Palpimanidae) from the Virgin Islands.
1231

A new locality record for Ixodes woodi Bishopp (Acarina: Ixodidae).
1232

Observations on the genus Pheroliodes. I.--Pheroliodes roblensis n. sp. (Acarina, Oribatei).
1233

On the true identities of Tuoba and Nesogeophilus (Chilopoda: Geophilomorpha: Geophilidae).
1234

On the true identity of Chomatophilus with description of a new species, and with key and catalogue of all sogonid genera (Chilopoda: Geophilomorpha: Sogonidae).
1235

Studies on the Diptera Brachycera fauna of the sea shores in north Norway.
1237

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVII. Orthoptera: Pyrgomorphidae and Acrididae.
1238

Microlepidoptera of the Philippine Islands.
1239

Three new species of phytoseiid mites from Western Sudan (Acarina: Phytoseiidae).
1242

Supplement to the knowledge of the Cyclocephalids (Col., Dynastinae).
1243

Labidostomma nepalese (Nicoletiellidae), a new Asiatic species.
1244

Revision of the Epitgini (Col., Tenebridnidae). Part I.
1246

Two new African Coprophagids as well as a new synonomy (Col., Scarab.).
1247

Lace bugs collected during the Bredin-Archbold-Smithsonian biological survey of Dominica, B. W. I. (Hemiptera: Tingidae).
1249

A new coccinellid species from the Ivory Coast.
1250

The insect fauna of Surinam, as well as a comparison of these insects with the Odonata fauna of the Antilles.
1251

Caudacheles, a new genus in the family Cheyletidae (Acarina: Prostigmata).
1252

A revision of the ground beetles belonging to Scaphinotus, subgenus Brennus (Coleoptera, Carabidae).
1253

The Mantodea of Lamto and the savannahs in the Ivory Coast.
1254

Coleopteran Elateridae new to tropical Africa.
1255

On the genus Chloropepla Stal, 1867, with a description of a new species (Hemiptera, Pentatomidae, Pentatominae).
1257

Sympherobius elegans Steph. 1836 (Neuroptera, Planipennia) new to Norway.
1258

Diptera: Empididae, Acalyptratae families and Scatophagidae.
1260

SUBJECT INDEX

INSECT TAXONOMY

Notes on the arthropod fauna of Spitsbergen II. 9. Mallophaga from Spitsbergen and Bear Island. 1261

Bibionidae (Diptera) of New Guinea. 1262

A new mite, Aculus benakii n. sp. from Olea europea L.. 1263

Contribution to the study of the Ichneumonidae (Hym.) IX. 1266

Neotype designation for Aedes (Stegomyia) albopictus (Skuse). (Diptera: Culicidae). 1267

A note on the identity of Hylemya variata (Fallen) and H. variabilis Stein (Diptera: Anthomyiidae). 1268

Discolomidae in museums of Amsterdam. 1269

Notes on the genus Placusa Erichson (Col., Staphylinidae), with a key to the Nordic species. 1270

On the Norwegian Tabanidae (Diptera). 1272

Some corrections to the British list and other notes on British fungus gnats (Diptera: Mycetophilidae). 1274

One previously described and one new species of South American Bruchidae injurious to commercial legume seed crops (Coleoptera). 1275

Two new species of Crambus Fabricius from western North America (Lepidoptera: Pyralididae). 1276

The North American Microcrambus (Lepidoptera: Pyralididae). 1277

Selection of a Lectotype of Tetanocera elegans Collin, 1960 (Diptera: Sciomyzidae). 1278

Stenobothrus rubicundus (Germar, 1817): An invalid name (orthoptera). 1279

The Enithares (Hemiptera-Heteroptera: Notonectidae) of the Oriental region. 1281

The systematic position of Orthophrys mexicanum Van Duzee (Hemiptera Heteroptera: Saldidae). 1282

South Pacific Symphypleona (Collembola). 1283

Oligia fasciuncula hispanica, subsp. nov. (Lep., Noctuidae). 1285

Further records of New Jersey aphids (Homoptera: Aphididae). 1286

Ecological and morphological study of robber flies of the tribe Asilini (Diptera, Asilidae) with descriptions of new genera and species from Kazakhstan and Soviet Central asia. 1287

New Chrysomelid species from Pakistan (Col., Chrysomelidae). 1289

A review of the taxonomy and morphology of the Berothidae, with the description of a new subfamily from Chile (Neuroptera). 1290

A study of the Typhlocybine genera of the Oriental region (Thailand, the Philippines and adjoining areas). 1291

Two Euphthiracarid species from the Tien Shan and Altai mountains (Acari, Oribatei). 1292

Notes on Coleoptera XI. (Comments on the genus Heteropelidnota Ohaus, with a description of a new species (Col. Scarabaeidae, Rutelinae). 1294

The genera Athlia Erichson (Col. Scarabaeidae, Sericinae). 1295

The genus Chirodiscus Trouessart and Neumann with lectotype designation of C. amplexans Trouessart and Neumann (Listrophoroidea: Atopomelidae). 1296

New records of fleas from Norway. 1297

Contribution to the study of the genus Paralucilia Brauer and Bergenstamm, 1891 (Diptera, Calliphoridae). 1298

Discovery of two species of Diplazon from New Guinea (Hymenoptera: Ichneumonidae). 1299

New or little known Australian Carabidae in the Frey Museum (Col.). 1300

The value of ovipositional ability in tick taxonomy. 1301

The genus Inopus (0Metoponia, Altermetoponia) (Diptera: Stratiomyiade). 1302

Mesosyrphus nigritarsis (Zett.) (Dipt., Syrphidae) a new species to the Dutch fauna. 1303

Stilbia anomala Hw. new for Scandinavia. (Lep., Noctuidae). 1304

Neolasioptera martelli sp. n., a gall midge injuring Agave in Mexico. 1305

New species of horse flies (Diptera, Tabanidae) from palaearctica. 1306

Rare or little known coleophores (Lep. Coleophoridae). 1308

A new synonymy in Hybomitra (Diptera: Tabanidae). 1309

The Aradidae of New Zealand (Hemiptera, Heteroptera). III--THE Aradinae and Calisiinae. 1310

New and mistaken Aphodiinae from all over the world (Col., Scarab.). Part V. 1311

New Acanthocerinae, Hybosorinae and Ochodaeinae (Scarab., Col.). 1312

A revised interpretation of the proctiger of male Uranotaenia with a related note on Hodgesia (Diptera: Culicidae). 1313

Genera and species of the Dermaptera. 6. Labidurinae, Apachyinae and Allostethinae (Labiduridae). 1314

Coleoptera from northeast Africa. Staphylinidae. (50. Contribution to the knowledge of the Steninae). 1315

Concerning Stenus-type Boheman, including notes on synonymies. Coleoptera, Staphylinidae. 1316

Chrysocarabus splendens ammonius najacensis sr. nova (Col. Carabidae). 1317

The type of the genus Odynerus Latreille (Hymenoptera, Vespoidea). 1318

Undescribed fossil insects from the Upper Permian of Belmont, New South Wales. 1319

A new genus of parasitic tachinid flies (Diptera, Tachinidae) from Soviet Central Asia. 1320

Palearctic species of the genus Sphenometopa (Diptera, Sarcophagidae). 1321

Simuliidae of Italy. 1322

The genus Poecilopsyche n. gen. (Trichoptera, Leptoceridae). 1323

The family Arctopsycidae (Trichoptera). 1324

Snellenius in the Neotropical region (Hymenoptera: Braconidae: Microgasterini). 1325

The classification of Smerinthus. 1326

Studies on California ants. 4. Two species of Camponotus (Hymenoptera: Formicidae). 1327

A review of Hadrurus scorpions (Vejovidae). 1328

Nasonovia vannesii n. sp. (Homoptera, Aphididae) on Ribes x cultorum. 1329

Some notes on the species authorization of Amischa sarsi Munst. and the sex characteristics of Amischa cavifrons Sharp (Col., Staphylinidae). 1331

Gyrophaena keeni Casey and G. orientalis A. Str. (Col., Staphylinidae). 1332

Tetrops starki Chevr., a new species for Norway (Col., Cerambycidae). 1333

On a new Norwegian species of the genus Atheta Ths. (Col., Staphylinidae). 1334

A new species of Hirstionyssus from Taiwan (Mesostigmata: Laelapidae. 1335

Acrotrichis insularis (Maklin, 1852) (Col., Ptiliidae) designation of lectotype and redescription. 1336

Studies on Norwegian aphids (Hom., Aphidoidea) I. The subfamily Dactynotinae Borner. 1337

Muscidae (Dipt.) of Spitsbergen. 1338

Preliminary key for the identification of the nymphs of North European Homoptera Cicadina. I. Delphacidae. 1340

Concerning the description of West African Hemiptera. 1341

Hemipteran Reduviidae and Pachynomiidae from the Tchad region. 1342

Some supplementary data on wolf spiders in the Netherlands (Araneae, Lycosidae). 1343

Additional data on some genera and species of Acrididae (Orthoptera, Acridoidea) from the Indo-Malayan region. 1344

Megeremaeidae, a new family of oribatid mites (Acari: Cryptostigmata). 1345

The larva of Miscodera arctica Payk. (Col., Carabidae). 1354

A contribution to the study of the Mediterranean Rhizopulvinariae. (Hom. Coccidae). 1370

Some new information on the Bostrychidae of Africa. 1381

Tetranychus lintearius Dufour, 1832, is a valid species (Acar.) Notulae ad Tetranychidas II. 1388

On the authorship of the generic name Tagalis and the invalidity of the family-group name Tagalidae (Hemiptera: Reduviidae). 1410

On the significance of the duration of preoviposition and oviposition periods in ixodid ticks. 1440

Diplopoda (Myriapoda) harmful to cultivated plants in the Central African Republic. Description of Haplothysanus haplothysarioides n. sp. (Odontopygidae). 1448

Parasitic and ecological study of the small mammals (insectivores and rodents) of the Allondon valley (Geneva). 1643

New Old World genera of the Eurygeniini (Coleoptera: Anthicidae). 1862

A unique female specimen from upper Burma: A new genus and species of Micrelytrinae (Hemiptera: Alydidae). 1863

Some species of Pediobius Walker (Hymenoptera, Eulophidae) inhabiting cynipid oak galls. 1864

Supplement to the revision of the west-palearctic Ichneumonidae Scambus Htg. 1865

Orthopterological notes. XXII. The genus Myrmecophilus Berth. in Italy. 1866

The Chironomidae of Florida. II. The nuisance species. 1868

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LII. Lepidoptera Pieridae. 1869

As yet unknown Dolichopodidae (Dipt.) for the Bulgarian fauna. 1870

A numerical taxonomy of orthopteroid insects. 1871

New longicorns of the Museum of Natural History at Geneva. 1872

A new species of Otidoccus. (Philopteridae, Mallophaga). 1873

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. L. Orthoptera Gryllodea. 1874

On the knowledge of the Ephydridae (Diptera, Brachycera) from eastern Siberia. 1875

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LIII. Homoptera Cicadidae. 1876

A contribution to the knowledge of the Braconidae of Spain. I. New discoveries of genera and species. 1877

New larvae of Trombiculidae (Acaridae), parasites on the mammals of rumania. 1878

On the subgenus Opacifrons Duda of the genus Leptocera Olivier (Diptera, Sphaeroceridae) with a description of a new species from northern Fennoscandia. 1879

The aphid fauna of Spitsbergen. 1880

New Mymaridae (Hymenoptera, Chalcidoidea) fauna for Finland. 1881

Platygasterid discoveries from Finland (Hymenoptera, Proctotrupoidea). 1882

A new Anurophorinid genus from northeast Brazil (Ins., Collembola). 1884

Heteroptera catch from the island of Crete. 1886

Some remarks concerning sphinx moths catches on the island of Sumatra. Supplementary information concerning the knowledge of sphinx moths (II) (Lep. Sphingidae). 1887

New species of horn mites (Acariformes, Aribatei) from the Caucasus and Transcaucasia. 1889

New species of the Sarcophaga Meigen genus (Fam. Sarcophagidae, Diptera). 1890

The Finnish Empira-species (Hymenoptera, Symphyta). 1891

On some species of the genus Arctosa C. L. Koch and Tricca Simon (Araneae-Lycosidae). 1892

The North American Aegeriidae (Lepidoptera): A revision based on late-in tar larvae. 1893

Australian Blattidae (Blattodea). VII. The Platyzosteria group; general remarks and revision of the subgenera Platyzosteria Brunner and Leptozosteria Tepper. 1894

Notes on cerambycinae (Col. Cerambycidae). 1896

A new genus of Scelionidae (Hymenoptera) with austral disjunctive distribution. 1897

Macrosiphum alpinum n. sp. (Homoptera: Aphididae). 1898

Ticks from Turkey (Acari, Ixodidae). 1900

Concerning knowledge of the order Periommatus Chapuis (Coleoptera, Platypodidae). III. 1901

A new species of Heterocerini (Coleoptera: Heteroceridae). 1902

Bionomics and taxonomy of Meloe (Coleoptera, Meloidae), with a classification of the New World species. 1903

On some Steninae from the Helsinki Zoological Museum (Coleoptera, Staphylinidae). (43. Contribution to the knowledge of the Steninae). 1904

A review of the praying mantises of Ghana. (Dictyoptera Mantodea). 1905

Wing micro-sculpturing in termite genera Odontotermes, Hypotermes and Microtermes (Termitidae: Macrotermitinae) and its taxonomic value. 1906

Iconography of the eggs of the Lepidoptera fauna of Belgium. 1907

Some interesting Noctuidae finds from the Tessin. 1908

The bark beetles of Greece and Cyprus. (249. Contribution to the morphology and taxonomy of the Scolytoidea). 1909

A new species of Elasmolomus (Heteroptera: Lygaeidae) from Australia. 1910

An old find of Entomotrogus megatomoides Rtt. (Coleoptera, Dermestidae) from Finland. 1913

Revision of African Reduviidae. II. Harpactorinae. Genus Nagusta Stal. 1914

Megacoelum Fieber, 1858 (Hem. Het. Miridae). 1915

Two new Orthops-species from north Africa (Heteroptera, Miridae). 1916

A remarkable tick found on a tarsier (Heterocoptidae f. n.:Sarcoptiformes). 1957

Undescribed species of crane flies from the Himalaya Mountains (Diptera: Tipulidae), XVII. 2473

Planthoppers of the family Derbidae (Homoptera, Auchenorrhyncha) in the fauna of the USSR. 2474

Important additions to myrmecofauna (Hymenoptera, Formicidae) of the USSR with some new descriptions. 2475

A review of the genus Gosodesmus Chamberlin, with the synonymy of Eucybe Chamberlin (Diplopoda: Platydesmida: Andrognathidae). 2476

Neotropical Miridae, CIII: Revision of the genus Resthenia Spinola (Hemiptera). 2478

Neotropical Miridae, CI: Revision of the Cylapus Say complex with descriptions of genera and new species. 2479

New Mexican and Central American species of Strangalia Audinet-Serville (Coleoptera: Cerambycidae). 2480

Water mites from India. 2482

Ants of the genus Proformica Ruzs. of the USSR and contiguous countries (Hymenoptera, Formicidae). 2483

Description of a new species of Bryobia from Japan. (Acarina: Tetranychidae). 2484

New species of the genus Typhlodromus from Sudan (Acari: Phytoseiidae). 2485

Sight identification key for mosquitoes of the Great Salt Lake Basin. 2486

Cossidae, Metarbelidae, Psychidae, Limacodidae, Drepanidae, Uraniidae, Lasiocampidae, Eupterotidae, Bombycidae, Saturniidae and Sphingidae. 2487

Two new sympatric species of a new leaf-hopper genus (Homoptera, Cicadelloidea) attacking cocoa in Ghana. 2488

A contribution to the fauna of fleas in eastern Siberia. 2489

Fig--wasps (Chalcidoidea) of Hong Kong I. Agaonidae. 2490

Structure of the plastron of Hexacyllocpus, with a description of a new species (Coleoptera, Elminthidae). 2491

Two genera of the family Encyrtidae (Hym., Chalcidoidea), new for Europe. 2492

Contribution to the knowledge of Brazilian species of the genus Euryneura Schiner, 1867 (Diptera, Stratiomyidae). 2493

A new species of the genus Malacophagomyia from Paraiba, Brazil (Diptera, Sarcophagidae). 2494

Descriptions of two new Sarcophaga species from the Transvaal (Diptera: Sarcophagidae). 2495

Linognathus digitalis n. sp. (Anoplura: Linognathidae) from the Springbuck (Antidorcas marsupialis (Zimmermann)). 2497

Some new and little known ground beetles (Coleoptera, Carabidae) of the USSR and neighboring countries. 2498

Assassin flies of the tribe Laphystini (Diptera, Asilidae) of the USSR fauna. 2499

The actual placing of the Zelurus species Hahn of the group Formosus (Hemiptera, Reduviidae). 2500

SUBJECT INDEX

INSECT TAXONOMY

On the genus Nasocoris Rt. (Het., Miridae). 2501

Description of Scaphidium comes sp. n. and notes on some other palaeartic species of the genus Scaphidium (Coleoptera, Scaphidiidae). 2502

Studies on copulation of some sarcophagid flies (Diptera). Taxonomic importance of some features of male and female genitalia. 2503

Notes on the types of some neotropical sarcophagid flies described by Enderlein (Diptera, Sarcophagidae). 2504

Australian Blattidae (Blattodea). VI. Revision of the genus Cosmozosteria Stal. 2505

A new species of the genus Eremippus Uv. (Orthoptera, Acrididae) from souteast Kazakhstan. 2507

Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 2508

New species of mealybugs (Homoptera, Coccoidea, Pseudococcidae) from East Kazakhstan. 2509

The cereal leaf beetle-a new insect in Ontario. 2510

A new species of the genus Aphodius Ill. (Coleoptera, Scarabaeidae) from Abkhasia. 2511

A new species of the genus Pseudoblaps Guerin (Coleoptera, Tenebrionidae) from Iran. 2512

The type-specimens of the Palearctic species of Scolytus Geoffr. (Coleoptera, Scolytidae) in the Institute of Zoology collection, USSR Academy of Sciences (Leningrad). 2513

A new species of Diclidophlebia (Homoptera: Psyllidae) from Nigeria. 2514

A review of the Australian species of the genus Ligyra Newman (Hyperalonia olim) (Bombyliidae: Diptera). 2515

Studies on Australian Muscidae (Diptera). .i. Some species of Dichaetomyia Malloch. 2516

Miscophus heliophilus sp. n. (Hym., Sphecidae). 2518

New Pyemotidae finds in Hamburg (Acarina, Pyemotidae). 2519

Records of Masarid wasps with descriptions of two new species of Quartinia Ed. Andre (Hymenoptera). 2520

The subgeneric division of the genus Bombus Latrielle (Hymenoptera: Apidae). 2521

Australian Hymenoptera Chalcidoidea family Eulophidae, subfamily Elasminae. 2522

A note on the Nigerian species of the genus Sosylus Erichson (Col. Colydiidae), parasites and predators of ambrosia beetles. 2524

The biology and description of a new species of African Thyreus, with life history notes on two species of Anthophora (Hymenoptera: Anthophoridae). 2525

Three new species of Brazilian Membracidae belonging to the tribe Heteronotini. 2526

New species of hover flies (Diptera, Syrhidae) from the Caucasus. 2527

A new genus and two new species of arboreal Oppiidae (Acari: Cryptostigmata) from New Zealand. 2529

Numerical classification of the Canadian species of the genus Aedes (Diptera: Culicidae). 2530

New Orthoptera from Afghanistan. 2531

Aclerdaephagus planus Sugonjaev gen. et sp. n. (Hymenoptera, Aphelinidae)--parasite of Nipponaclerda turanica Arch. in South Tajikistan. 2532

A new species of the genus Bruchus L. (Coleoptera, Bruchidae) from the USSR. 2533

The genus Coccidoxenus Crawford, 1913--a synonym of Trichomasthus Thomson, 1875 (Hymenoptera, Encyrtidae). 2534

Some new Heliconius pupae: Their taxonomic and evolutionary significance in relation to mimicry (Lepidoptera, Nymphalidae). 2535

Species of the genus Physcus How. (Hymenoptera, Chalcidoidea), parasites of scale insects in the USSR. 2536

The external morphology and life history of the pseudoscorpion Microcreagris cambridgei. 2578

Comparative morphology of the larvae of certain genera of fleas (Aphaniptera). 2598

Larva, pupa and life history of three species of Ibidionini (Coleoptera, Cerambycinae). 2611

Eurygenius villosus Champion, a Colombian species of Cadogenius Heller (Coleoptera: Anthicidae: Eurygeniinae. 3085

Steriphodon abdominalis (PIC) Comb. Nov. (Coleoptera: Anthicidae: Eurygeniinae) from Bengal. 3086

Bozberg-report 1964. The occurrence of moths on the Bozberg in 1964. 3087

A new Leptocentrus (Homoptera: Membracidae) from the Congo. 3090

Neotropical Miridae, CIV: Revision of types of the Museum of Natural History of Budapest, Hungary (Hemiptera). 3091

Comments on Pertyella mickel with a description of two new species (Hymenoptera, Mutillidae). 3092

Studies of Queensland Tetranychidae. 2. Tetranychus dianellae sp. n., a spider mite found on Dianella caerulea Sims. 3094

Studies of Queensland Tetranychidae. 4. Eotetranychus lomandrae sp. n., a spider mite found on mat-rushes. 3096

Studies of Queensland Tetranychidae. 3. Records of the genus Tetranychus. 3097

Taxonomy of the genus Trichogramma (Hymenoptera, Chalcidoidea, Trichogrammatidae). 3098

Descriptions of Thecla (Lep. Rhop. Lycaenidae). 3101

A new Phyciodes from eastern Ecuador (Lep. Rhop. Nymphalidae). 3102

Three new neotropical satyrids (Lep. Rhop. Satyridae). 3103

Ancyloxypha melanoneura orientalis subsp. nov. (Lep. Rhop. Hesperiidae). 3104

Study on Chrysochlora amethystina (Fabricius, 1805) and its relationship with Brazilian species of the genus Chrysochlorina James, 1939 (Diptera, Stratiomyidae). 3106

Ichneumonological (Hym.) reports from Finland II. 3108

A new species of lady-bird beetle (Col. Coccinellidae) feeding on Adelges spp. (Hem. Adelgidae) in North-Western India. 3110

The larval characteristics of some subfamilies of British Staphylinidae (Coleoptera) with keys to the known genera. 3111

The North American Microcrambus (Lepidoptera:Pyralididae). 3112

The genera of the Argentine Noctuinae (Agrotinae, sensu Hampson), Lep. Het. 3113

On a new species of Dexosarcophaga Townsend, 1917 (Diptera, Sarcophagidae) whose larvae parasitize Camponotus (Hymenoptera, Formicidae). 3115

Three new aphid parasites from Hongkong. (Hymenoptera: Aphidiidae). 3116

Monograph of the tribe Ibidionini (Coleoptera, Cerambycinae). Part II. 3117

The armored scale insects of Texas. (Homoptera: Coccoidea: Diaspididae). 3118

Lepidoptera on the central Brazil plateau. V: New species of Hesperiidae and notes on some known species. 3119

New leaf-hoppers (Homoptera, Cicadinea) from southern and western Kazakhstan. 3120

New contributions to the study of the gallicolous Itonididae (Cecidomydae) from the Botanical Garden of the University of Bucharest. 3122

A monographic revision of the American Galeritini (Coleoptera, Carabidae). 3124

Survey of the European species of the family Geometridae (Lep.). 3127

Rhynchota (Heteroptera,Homoptera, Auchenorrhyncha) topographical and synonym catalog. 3128

A new myrmecophilous mite Divilia oculata gen. et sp. n. (Sarcoptiformes, Saproglyphidae). 3129

Occurrence of Chaoborus alpinus Peus (Diptera, Culicidae), a new species in Poland. 3130

Notes on some older types of neotropical Micropezidae with descriptions of new species (Diptera, Acalyptratae). 3131

A new genus of neotropical stilt-bugs (Hemiptera:Berytidae). 3132

A supplement to the revision of Australian Pristomyrmex species (Hymenoptera: Formicidae). 3133

Considerations on Eubaptus palliatus Lac., Bruchus scapularis Pic and descriptions of the preimaginal stages of Eubaptus rufithorax (Pic). 3134

New Danish cicadellids 2 (Hemiptera, Cicadellidae). 3136

Hemipterous Reduviidae and Pachynomidae of Sudan and Ethiopia. 3138

Hemipterous Henicocephalidae of Sudan. 3139

A new species of the genus Nyctonympha Thompson, 1868, with a key for determining the Brazilian species (Coleoptera, Cerambycidae, Lamiinae). 3140

Imathia and Amblycnemus (Coleoptera: Curculionidae: Cryptorhynchinae).
3141

Observations on the Australian Diacalla comata Pascoe (Coleoptera: Anthicidae: Eurygeniinae).
3144

Imported Cerambycidae.
3151

The mosquitoes of Nevada.
3175

Two new species of Dacinae (Diptera: Trypetidae) from New Guinea.
3190

The Carabidae of Estonia.
3211

Northern records of the genus Culiseta Felt in Australia with the description of a new species (Diptera: Culicidae).
3238

The genus Crotchia Fowler (Col. Languriidae). III. Species with parallel-sided elytra.
3242

The leafhopper vectors of phytopathogenic viruses (Homoptera, Cicadellidae) taxonomy, biology, and virus transmission.
3258

Interpopulation karyotype differences in Australian Iridomyrmex of the Detectus group (Hymenoptera: Formicidae: Dolichoderinae).
3328

Watch for new cotton insects.
3425

The present status of rice pest research and control.
3446

Studies on the Crambinae (Lepidoptera). Part 44. New Neotropical genera and species. Preliminary check-list of Neotropical Crambinae.
3741

New Perilampidae (Hymenoptera: Chalcidoidea).
3742

Contribution to the fauna of the Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. XLV. Coleoptera Ochodaeidae.
3745

Climate and the phylogeny and distribution of Tabanidae.
3746

Catalog of the Coleoptera of Angola.
3747

Three new records of the genus Phanaeus from Georgia (Coleoptera: Scarabaeidae).
3748

A new genus and two new species of Cecidomyiidae associated with Pariana spp. (Gramineae) in South America (Diptera).
3749

A new click beetle of the genus Agriotes Esch. (Coleoptera,Elateridae) from Soviet central Asia.
3751

Letters on leaf miners.
3752

The larva of Carabus (Hygrocarabus Thoms.) variolosus variolosus Fabr. and its position in the larval system of genus Carabus L. (Coleoptera, carabidae).
3753

A new species on neotropical seed weevil affecting pigeon peas, with notes on two closely related species(Coleoptera: Bruchidae: Bruchinae).
3756

A new species of Antonina Signoret from South Dakota with new records for A. boutelouae Parrott (Homoptera: Coccoidea: Pseudococcidae).
3757

Papilionoidea and Hesperioidea (Lepidoptera) of the virgin forest of Bialowieski.
3758

On the status of Cresson's Stenophasmus species from Cuba (Hymenoptera: Braconidae: Doryctinae).
3759

The palearctic species of Megatoma Herbst (Coleoptera, Dermestidae).
3760

Taxonomy and distribution of the palearctic Nemapogon species (Lepidoptera, Tineidae).
3761

Conodontis peplaria Geyer, a noctuid, not a geometrid (Lepidoptera).
3762

Solierella nitraria sp. n. (Hym., Sphecidae).
3763

South American Cochylidae (Lepidoptera) from the collection of the British Museum (Natural History).
3764

Ecological and systematic investigations of the Chironomidae (Diptera) of Lake Constance. A contribution to the lake chironomide fauna of the northern foothills of the Alps.
3766

A contribution to the genus Mantis Linne and Paramantis, nov. (Mantidae).
3768

A new species of Penthetria from Japan (Diptera, Bibionidae).
3769

On nocturnal darkling beetles of the genus Melanesthes Lac. (Coleoptera, Tenebrionidae) from central Kazakhstan.
3772

The genus Susana Rohwer and Middleton (Hymenoptera: Tenthredinidae).
3773

Collembola fauna of Malta.
3774

The entomology of the Isle of Rhum National Nature Reserve.
3775

Acalypta pulchra sp. n.- A new species of Tingidae from Bulgaria. (Heteroptera, Tingidae).
3776

On the identity of 'Dasythorax ogasawarae Matsumura' (Lepidoptera, Noctuidae, Cuculliinae).
3777

Morpho-systematic studies on Collembola Part 0i. Materials to a revision of the genus Lepidocyrtus Bourlet, 1839 (Entomobryidae s. l.).
3778

Three new species of Eriophyid mites (Acariformes: Eriophyidae, Rhyncaphytoptidae) from Poland.
3779

Taxonomic and nomenclatural notes on Gonodonta obesa (Walker)(Lepidoptera: Noctuidae).
3780

New distribution records for Meropleon titan Todd (Cepidoptera: Noctuidae).
3781

The neotropic species of Xanthopimpla (Hymenoptera: Ichneumonidae).
3782

Sphecoidea from the Ryukyus and Formosa (Hymenoptera).
3783

A new species of Eriococcus infesting American beach-grass in North Carolina (Homoptera: Coccoidea).
3785

Materials to the knowledge of the scale insects fauna of Yugoslavia (Homoptera, Coccoidea).
3786

New species of Hypera (Coleoptera, Curculionidae) from the Crimean Mountains.
3787

Notes on the parasites of the root aphids (Hymenoptera, Aphidiidae).
3876

Ectoparasitic mites (Acarina: Parasitiformes) from small mammals from the Tarnasjo and Ammarnas areas in Swedish Lapland.
4353

Bees of the Nevada Test Site.
4355

Study of the genus Rhytidodus Fieb. (Homoptera, auchenorrhyncha) with description of two new species from the Soviet Union.
4357

A new Crompus from New Caledonia. (HemipteraHeteroptera: Lygaeidae).
4359

Chalicidoidea (Hymenoptera) in the Manchester Museum. Part 5.
4360

Listing of Trifid noctuidae of France and Belgium.
4361

Valley centipedes (Chilopoda, Symphyla) from northern Kentucky.
4362

The northern species of Coleoptera group Bagous (Curculionidae) together with a taxonomic key (principally for the service of young entomologists).
4364

Six new species of Membracidae (Hemiptera: Homoptera) from South Africa.
4366

A new genus and species of Psyllidae (Homoptera) from South Africa.
4367

The genus Gargara Anyot Serville (Homoptera: Membracidae) in South Africa.
4368

On a collection of termites from Daman.
4369

The Collembola of South Africa--2: The genus Seira.
4370

The Collembola of South Africa--I: The genus Neanura.
4371

The discovery in France of the Acarina Nematalycidae Strenzke while organizing the material from Languedoc-Rousillon.
4372

Zanclognatha tenuialis Rebel in France (in Alsace and L'Isere). (Lep. Noctuidae, Hypeninae).
4376

Two Dolichopodidae (Diptera) from St. Helena Island South Atlantic.
4378

Coleoptera from northeast Africa. Mordellidae. Supplement: Paraconalia n. gen. a new genus from South America. 64. Contribution to the knowledge of the Mordellids.
4380

New species of Meromyza Mg. (Diptera, Chloropidae) from Transbaykalia.
4381

New Malthodes from western North America (Coleoptera: Cantharidae).
4382

Studies of black flies of Panama. III. Two new species of Simulium of the subgenus Hemicnetha.
4383

Nearctic species of the genus Synaldis Foerster (Hymenoptera, Braconidae, Alysiinae).
4384

Contribution to the knowledge of the hosts of the genus Opius (Hymenoptera, Braconidae).
4385

A new species of Asterolecanium Targ. (Homoptera: Coccoidea: Asterolecaniidae) from South Africa.
4387

Chrysomelid beetles from the Papuan subregion, 5 (Eumolpinae, 3).
4388

Lepidoptera of southern Spain.
4389

New European Orthoptera.
4390

New genera and species of chalcid flies (Hym., Chalcidoidea) and a new species of Foenatopus

Smith (Hym., Ichneumonidae, Stephanidae) from Hoggar. 4391

Burmese Ichneumoninae V. 32. Genus Naenaria Cameron. 4392

A new Somatina of the Congo. (Lepidoptera Geometridae). 4393

A contribution to the knowledge of the Cerambycidae and the Oedemeridae of Iran. 4394

A revision of the Cosmopterigidae of American north of Mexico, with a definition of the Momphidae and Walshiidae (Lepidoptera: Gelechioidea). 4395

Further notes on the genus Pulvinaria Targ. (Homoptera: Coccoidea) from the Ethiopian region. 4396

Records of Ohio fleas (Siphonaptera). 4397

Aleochara stichai Likovsky (Col., Staphylinidae) new to Britain. 4398

Hypocyphtus nitidus Palm (Col., Staphylinidae) in Oxforoshire: An addition to the British list. 4399

New species of Meubelia Willemse, 1932, from the Philippines (Orthoptera: Pyrgomorphidae). 4400

A new genus and species of Sciomyzidae from Tanzania, with a key to the genera of the Ethiopian region and distributional notes (Diptera: Facalyptratae). 4401

A study of Neuquenaphis Blanchard, 1939, with descriptions of new species (Aphididae, Homoptera). 4402

Tabanidae (Diptera) of the Netherlands. 4403

Chromosome studies and systematics of Gryllinae (Insecta Orthoptera). 4404

A note on the family Euptychia (s. l.) (Lep. Satyridae). 4405

Four new sawflies from Sweden (Hymenoptera, Symphyta). 4406

Systematics of the Cryptocephalinae (Coleoptera, Chrysomelidae) from Soviet Central Asia and Kazakhstan. 4408

On the genus Dialineura Rondani, 1856 (Diptera, Therevidae). 4409

A review of darkling beetles of the tribe Leptodini (Coleoptera, Tenebrionidae). 4411

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 2. Subfamilies Porizontinae, Metopiinae and Diplazontinae. 4412

Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413

New synonymy in the South African genus Synaptothrips Trybom (Thysanoptera) with a key to the species. 4414

New and little known armoured scales (Homopterai Diaspididae) from South Africa. 4. 4415

New Palearctic species of the genus Cyphon Payk. IV. Studies on the Helodidae family. IX. 4416

Records and descriptions of Palearctic and south Asiatic Laspeyresiini (Lepidoptera: Tortricidae). 4417

A revision of the subgenus Hirtodrosophila of the Old World, with descriptions of some new species and subspecies (Diptera, Drosophilidae, Drosophila). 4418

A new Schistoglossa specie from Sweden (Col. Staphylinidae, Aleocharinae). 4419

Aphids from the subtribe Schizolachnina (Aphidoidea, Lachninae) in Middle Europe. 4420

Concerning the taxonomic clarification of Narraga tessularia ilia Whli and some remarks about this genus. (Lepidoptera, geometridae). 4421

A new subgenus and new species of Franciscoloa conci (Mallophaga: Menoponidae). 4422

Stenus and Megalopinus Motschulsky genera and remarks on the subgenus Tesnus Rey, with a table of the Palearctic representatives (Coleoptera, Staphylinidae). (54. Contribution to the knowledge of the Stenus genus). 4423

Redefined concept of the genus Synaptothrips with redescriptions of two species (Thysanoptera: Thripidae). 4426

Chelacheles michalskii n. sp. (Acari, Cheyletidae). 4427

Alticinae of New Guinea, III. Schenklingia and allies (Coleoptera: Chrysomelidae). 4428

Iconography of the eggs of the Lepidoptera fauna of Belgium. 4429

A new species of Ecnomus McLachlan (Trichoptera: Psychomyidae) from South Africa. 4430

On nocturnal darkling beetles of the genus Melanesthes Lac. (Scoleoptera, Tenebrionidae) from central Kazakhstan. 4431

Annotated list of forest insects of British Columbia. XIV. Ennominae (Geometridae). 4433

A new Wesmaelius from central Asia (Neuroptera, Hemerobiidae). 4434

Revision of the nominate subgenus Sceliphron Latreille (Hymenoptera, Sphecidae) (Studies on the Sceliphronini, part I). 4435

On Orthotylus Fieb. and Pachylops Fieb. (Heteroptera, Miridae). 4436

The genus Heterotoma Lepeletier and Serville, 1825 (Synonym Acroderrhis Bergroth, 1914) (Heteroptera, Miridae). 4437

Taxonomy of the genus Paluda De Long 1937 (Homoptera Euscelidae). 4438

Enumeration of the Microlepidoptera encountered in the region of Warsage. 4439

Identification of the braconid parasites of rice borers (Hymenoptera: Braconidae). 4440

The identity of the British Mondsynamma Scott 1864 (Hem., Miridae). 4442

Studies on the Japanese gall midges II, two new and a known species of the genus Camptomyia from Kyushu (Diptera: Cecidomyiidae). 4443

New species of Hypera (Coleoptera, Curculionidae) from the Crimean Mountains. 4444

New species of the genus Trachina Mg. (diptera, Tachnidae), parasites of injurious Lepidoptera in the Ussr. 4445

New records of South African Thysanoptera with description of a new Phlaeothripid genus. 4446

Lopidea Uhler: New species and records from Mexico and southwestern United States with Mayamiris, related new genus from Mexico (Hemiptera, Miridae). 4530

Aradidae in the Bishop Museum, Honolulu (HemipteraHeteroptera). 4533

Ecological and morphological study of robber flies of the tribe Asilini (Diptera, Asilidae) with descriptions of new genera and species from Kazakhstan and Soviet Central Asia. 4548

Remarks concerning the terminology of the genitalia armor in the genus Argynnis (S.L.). (Lepidoptera, Nymphalidae). 4573

The chromosome formula of the cave Orthoptera Troglophilus neglectus (Rhaphidophoridae). 4590

The nymphal instars of four lace bugs from Czechoslovakia. (Heteroptera, Tingidae). 4604

Soviet entomology during the period 1917-1967. (JPRS 43,647) Transl. 16962. 4966

Division of Entomology Annual Report, 1966-67. 4968

The Micropeplidae and Staphylinidae (I. Steninae, Euaesthetinae and Oxyporinae), Coleoptera of Pakistan with descriptions of a new tribe, genus and three species from Karachi. 4980

A key to the Ipswich fossil beetles (Coleoptera) from the Permian of Australia. 4981

New species of chironomids (Diptera, Chironomidae) from Yashil-kul and Bulun-Kul lakes (Pamirs). 4982

Undescribed species of nematocerous Diptera. IX. 4983

Undescribed species of nematocerous Diptera. Part VII. 4984

Undescribe species of nematocerous Diptera. Part VI. 4985

Bees of the Nevada Test Site. 4986

Three new southern African species of Oobius Trjapitzin, 1963 (Hymenoptera: Encyrtidae). 4988

A critical note on The structure and function of sternal spatula in gall midges by S. N. Prasad and P. Grover. 4989

A report on the eulophid (Hymenoptera: Chalcidoidea) fauna of two scottish birch woods. 4990

Two new Inocelliidae species from Asia (Neuroptera, Raphidiodea). 4991

A Nimbaspis Balachw. (Coccoidea-Odonaspidini) new in the Central African grasslands. 4992

The Buprestidae and Cleridae of the Nevada Test Site (Coleoptera). 4994

A probable troglobiont Pseudochthonius (Pseudoscorp.) from Brazil. 4996

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXV. Lepidoptera Hesperiidae. 4998

Notes of larvae of aquatic Coleoptera in the Ethiopian region (Western and Equatorial Africa).
4999

Coleoptera from Southeast Asia arranged by M. Chujo (VII). Coccinellid-beetles from E. Nepal, Thailand, Cambodia, Viet-Nam, S. Korea and Is. Ambon, with descriptions of 4 new species and 33 figures.
5000

New Lamiidae from the British Museum (Natural History), (Coleoptera, Cerambycidae).
5002

Systematic revision of the species of the genus Oberea Mulsant all over the world. (Coleoptera Cerambycidae). Second part.
5003

Systematic revision of the species of the genus Oberea Mulsant all over the world. (Coleoptera Cerambycidae) Third part.
5004

Taxonomic notes on the larvae of British Diptera. No. 26. the presumes larva of Dioctria oelandica (Linnaeus) (Asilidae).
5005

Chemotaxonomy and chemomimicry: The case of 3-hydroxykynurenine.
5006

Immunotaxonomic investigations of the Coleoptera.
5007

A new Chilean species of Opsophagus aldrich, 1926, (Diptera, Tachinidae).
5008

A new Leptocentrus (Homoptera: Membracidae) from the Congo.
5009

New Speleognathinae from Central and South American mammals (Acarina, Trombidiformes).
5011

Ixodes walkerae, n. sp. from a bird in Kenya. (Acarina: Ixodidae).
5012

Notes on macrochelids associated with manure and coprid beetles in Israel. II. Three new species of the Macrocheles pisentii complex, with notes on their biology.
5013

The Pachydeminae (Coleoptera, Melolonthidae) collected by the Hungarian zoological expedition to the Brazzaville Congo.
5014

A new genera of Pachydeminae (Coleoptera, Melolonthidae) of Somalia.
5015

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. XLIV. Coleoptera Elminthidae.
5016

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. XLIII. Orthoptera Eusmastacidae.
5017

A revision of the leafhopper genus Macropsidius Rib. (Hom., Auchenorrhyncha).
5018

New and so far undescribed Cicadellidae species from Rumania and Italy (Hom., Auchenorrh.).
5019

The Imbecillus and Rufus groups of the spider genus Philodromus in North America. (Araneida: Thomisidae).
5020

A new tingid from Pakistan (Hemiptera).
5021

Two Noctuidae new for the fauna of Belgium.
5022

Notes on the genus Elymana DeLong (Homoptera Cicadellidae).
5023

Some Typhlocybinae (Homoptera, Cicadellidae) from Mongolia with description of a new species and a new subspecies.
5024

Some observations on the chaetotaxy of the legs of larval Ixodidae (Acari: Metastigmata).
5025

The phenetic relationships of the butterflies. I. Adult taxonomy and the nonspecificity hypothesis.
5026

Flukea voekerothi, a new genus and new species of Chilean Syrphidae (Diptera).
5027

Malayoglyphus intermedius n. g., n. sp., a new mite from house dust in Singapore and Djakarta (Pyroglyphidae: sarcoptiformes).
5028

Epimyodex talpae n. g., n. sp., a sub-cutaneous parasite of the mole in Belgium (Demodicidae: Trombidiformes).
5029

Chironomus strenzkein. sp. (Chironomidae, Dipt), a new laboratory animal.
5031

The immature stages of Lype diversa (Banks) (Trichoptera, psychomyiidae).
5032

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVIII. Lepidoptera: Nymphalidae, Danaidae and Riodinidae.
5034

The genus Plectris (Philochlaenia) (ColeopteraMelolonthinae).
5035

New Melolonthids (Col.).
5036

A key to all stages of the British species of the family Neobisiidae (Pseudoscorpiones: Diplosphyronida).
5037

A new species of Lestinogomphus Martin 1912 (Odonata), and the hitherto undexcribed male of Microgomphus camerunensis Longfield 1951.
5038

Two new Galerucinae from Nainital district (Coleoptera-Chrysomelidae).
5039

The genus Protogamasellus Karg (Acari) with descriptions of new species and subspecies from the Ethiopian Region.
5040

Five tydeid mites from Israel (Acarina: Prostigmata).
5041

The spider genus Loxosceles in South America (Araneae, Scytodidae).
5042

Study of the cycle of Geckobia latastei and Geckobia loricata, Acarine parasites of the Gecko Tarentola mauritanica.
5044

New species of Pseudosinella from caves (Insecta: Collembola).
5045

The endemic Rhycophila from Corsica. Description of Rhyacophila tarda sp. n. (Tricoptera).
5046

A new tineid from Africa: Tinea roesleri n. sp. (Lep.).
5047

Considerations on the classifications of the Oribatidae. Their division into six major groups.
5048

The genus Trichopsidea Westwood, with a discussion of its relation to other genera of Nemestrinidae (Diptera).
5049

New species of Pheidole from Pacific Coast Islands (Hymenoptera: Formicidae).
5050

The Alysiinate (Hym. Braconidae) parasites of the Agromyzidae (Diptera). V. The parasites of Liriomyza Mik and certain small genera of Phytomyzinae.
5051

The species of the sub-family Cassidinae (Chrys., Col.) in Bulgaria.
5052

A new species Chrysomela rufoaenea SUFF. for the fauna of Bulgaria from the collection of the Zoological Museum in Sofia, Chrysom., Col.
5053

New Tetranychidae of Madagascar.
5054

A new species of Tribolium from North America previously confused with Tribolium madens (Charp.) (Coleoptera: Tenebrionidae).
5055

Notes on the Trigonoderus-group (Hym., Chalcidoidea).
5056

Burmese Ichneumoninae IV.
5057

A new genus and new species of the Oxytelinae from Brazil (Coleoptera, Staphylinidae).
5060

Genitalia of the types of Chilean Satyridae on deposit at the British Museum.
5061

New African Ennominae (Lep. Geometridae).
5062

A new genus of European butterflies (Lep. Lycaenidae).
5063

An undescribed European butterfly:(Lep. Satyridae).
5064

A new species of Aulacorthum Mordvilko (Homoptera, Aphididae) from Japan.
5065

A new species of Epuraea associated with eastern gall rust (Coleoptera: Nitioulidae).
5066

The genus Lasiodactylus Perty in Japan (Coleoptera: Nitidulidae).
5067

Descriptions of new species of the family Encyrtidae from Czechoslovakia (Hym., Chalcidoidea). II.
5068

Contribution to the faunal list of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXI. Coleoptera Anthribidae.
5069

New combinations affecting the genus Aiolopus (Orthoptera: Acridoidea) and a description of a related new genus and species from Australia.
5071

Descriptions of two new aphid species (Sitobion equiseti sp. n. and Linosiphon asperulophagus sp. n.) from Czechoslovakia (Homoptera, Aphididae).
5072

The Cicadidae of the Ryukyu Archipelago (Hemiptera).
5074

The synonomy in Citrinophila Kirby and further notes on Epitola Westwood and Alaena Boisduval (Lepidoptera: Lycaenidae).
5075

Hadrodactylus branderi n. sp. (Hym., Ichneumonidae) from Finland.
5076

New species of the genus Diplatys Serville from India (Dermaptera: Diplatyinae).
5077

On a new genus of Dermaptera from south India.
5078

Orthoptera-Caelifera from northern Kenya and Jubaland. IV. Acrididae, s. str.: Calopteninae, Euryphyminae, Eyprepocnemidinae, Catantopinae, Cyrtacanthacridinae.
5080

Further records of some little-known Pyrgomorphidae and Trigonopterygidae from Fiji, New Guinea and Borneo (Orthoptera: Acridoidea).
5081

INSECT TAXONOMY

Ixodes (Lepidixodes) kopsteini Oudemans, 1925, valid name for I. (L.) paradoxus Kohls and Clifford, 1961, with notes on distribution and hosts (Acarina: Ixodidae).
5083

Proteleas, a new genus of Scelionidae with three new species from the USSR.
5085

Investigation into the Synanthropic flies in the family Muscidae (Dipt.) in Bulgaria.
5088

Dennyus aequatorialis n. sp. (Mallophaga: Menoponidae) from the mottled swift, Apus aequatorialis.
5090

Notes on some new or little known Lucanidae Coleoptera.
5091

Contribution to the knowledge of Indo-Australian, South Pacific and East Asiatic Psenini genus Psen latreille (Hymenoptera, Sphecidae).
5092

New descriptions of Psorergate species (Psorergatidae: Trombidiformes).
5093

Catalogue of the Oedemeridae of Italy (Coleoptera).
5095

Coleoptera from northeast Africa. Cicindelidae and Carabidae: Carabini.
5096

Description of a new species of the genus Bovicorina Delamare Deboutteville 1947 (Collembola, Symphylla) and a key for identification of the species in the genus.
5097

The genus Cairnsimyia Malloch (Diptera, Helcomyzidae, Rhinotorini).
5100

Notes on some larval and pupal chironomids (Diptera) from Lake Kariba, Rhodesia.
5101

Some remarks on the tampans of the Ornithodoros moubata complex in southern Africa.
5102

A revision of the fern aphids of Japan with descriptions of three new species (Homoptera: Aphididae).
5104

The electrentomoid psocids (Psocoptera).
5105

Some new analytic and graphic approaches to numerical taxonomy, with an example from the Dermanyssidae (Acari).
5106

Scorpions, whip scorpions and wind scorpions of Florida.
5108

Contributions to a study of the Pyraustinae (Lepidoptera: Pyralidae) of temperate East Asia. V.
5109

Description of Blastophagus khasianus, new species (Coleoptera: Scolytidae).
5110

A new species and new records of Mackiena (Acarina, Trombiculidae).
5111

A new species of Dermanyssus from marine birds, with observations on its biology (Acarina: Dermanyssidae).
5113

Notes on Buprestidae and Schizopodidae.
5114

The genera of Palearctic Tortricidae. II. The subfamily Olethreutinae 7th part. Eucosmini (Heinr. 1923) tribe--continuation.
5115

Notes on Rhynchocephalus tauscheri Fischer (Diptera: Nemestrinidae).
5116

Systematic entomology: Distribution of insects in the Pacific.
5117

New Thysanoptera from central Asia (U. S. S. R.).
5118

Two new species of Oedaleothrips (Thysanoptera) from Asia.
5119

A new species of Poecilmitis Butler (Rhopalocera) from the South Western Cape.
5120

On the knowledge of German fleas. II. Fauna and Ecology of the fleas of birds (Insecta, Siphonaptera).
5121

Genera and species of the Dermaptera. 10. Forficulinae (Forficulidae).
5122

Genera and species of Dermaptera (9) Opisthocosminae (Forficulidae).
5123

A new species of Trachysphyrus from the Andes of Ecuador (Hymenoptera, Ichneumonidae).
5124

On the system of classification of ticks of the family Argasidae Can., 1890. I. Two classifications of Argasidae.
5125

New description of palearctic Scrobipalpa species. (Lepidoptera, Gelechiidae).
5126

A review of the genus Dicteisia Bedford (Mallophaga: Menoponidae) with description of a new species.
5127

Cynipinae (Hymenoptera) occurring on Phlomis L.
5128

New and known Dermaptera from south India with two generic records new to India.
5129

A redescription of the type specimen of Crotonia (0Acronothrus) obtecta (O. Pickard-Cambridge, 1875), (Acari, Cryptostigmata) and a discussion of its taxonomic relationships.
5130

A new genus of wingless N. American sphaerocerid flies.
5131

North American species of Taeniopteryx (Plecoptera, Insecta).
5132

What is Pieris dubiosa Rober (Lep., Pieridae).
5133

A new species of Nepytia from the southern Rocky Mountains (Lepidoptera: Geometridae).
5134

A revision of the Neotropical species of the moth genus Glena (Lepidoptera, Geometridae).
5135

On the synonymy of Leucophlebia lineata brunnea Closs with remarks on some sphingids collected by Sauter in Formosa, now in the German Entomological Institute. (Lepidoptera: Sphingidae).
5136

South American Thrombidiidae. II. Chyzerini Thrombidiinae; solenocyte taxonomy of the palpus in several Thrombidii a ; th r latio-ship between Podothrombium Berlese 1910 -- Variathrombium n. g., and Thrombidiinae.
5137

Contribution to the fauna of the Congo (Brazzaville). mission A. Villiers and A. Descarpentries. XLVI. Lepidoptera, Attacidae.
5138

Preliminary note on a review of subgenus Taeniothrips (Isochaetothrips) (Thysanoptera: Thripidae).
5139

Contributions to the knowledge of the family Anoetidae (Acari).
5140

New contribution to the knowledge of the Italian Psychodidae (Diptera).
5141

On some Scolytidae and Platypodidae of economic importance from the territory of Papua and New Guinea. 250. Contribution to the morphology and taxonomy of the Scolytoidea).
5142

A contribution to the systematics of Oriental and Australian Blissinae (Hemiptera: Lygaeidae).
5144

Key for the determination of species from U.S.S.R. belonging to the genus Scolytus Geoffroy (Scolytidae, Coleoptera).
5145

Two new species of Praon Haliday from Czechoslovakia (Hym., Aphidiidae).
5146

Entomological results of catches in the area of San Bernardino (Misox Gr), which has not been fully explored lepidoterologically. (A building block of the Swiss Lepidoptera fauna).
5147

Finnish discovery of Aleochara peeziana Lohse (Coleoptera, Staphylinidae).
5148

Saprinus cuspidatus Ihssen from Finland (Coleoptera, Histeridae).
5149

A widely distributed pine sap injurious, Acanthophila piceana n. sp. (Lep. Gelechiidae) in Latvia.
5150

Two species of Copidosoma parasitic on the potato tuber moth (Hymenoptera: Chalcidoidea-Encyrtidae).
5151

Discovery of the genus Anusioidea Girault from Asia (Hymenoptera: Chalcidoidea-Encyrtidae).
5152

A new name for Metaphycus eriococci Alam (Hymenoptera: Chalcidoidea-Encyrtidae).
5153

Metapsaenythia, a new panurgine bee genus (Hymenoptera, Andrenidae).
5154

The bumblebee fauna in the neighborhood of the Kuku-Nor. (Hymenoptera, Bombinae).
5155

Evansipsylla thysanota, a new genus, new species of flea from Nepal (Siphonaptera: Hystrichopsyllidae).
5156

A re-assessment of the genera Holorusia Loew (0Ctenacroscelis Enderlein), Ischnotoma Skuse and Zelandotipula Alexander (Diptera: Tipulidae), with notes on their phylogeny and zoogeography.
5161

A revision of the Nedtropical genus Metamasius (Coleoptera, Curculionidae, Rhynchophorinae).
5162

The establishment ofa lectotype for Leptotrombidium (Leptotrombidium) akamushi (Brumpt, 1910) (Acarina: Trombiculidae).
5163

Notes on synomynus of African Reduviidae.
5164

Catalogue of the Coleoptera Cetoniidae in the Leiden Museum. I. Goliathus Lamarck, sensu lato.
5168

Redescription of Sycaphaginae from Ceylon and India, with description of lectotypes, and a world catalogue of the Otitesellini (Hymenoptera, Chalcidoidea, Torymidae).
5169

Coleoptera: Cantharidae, Malachiidae and Dasytidae from New Caledonia, New Hebrides and Fiji in Bishop Museum, Honolulu.
5170

Spider wasps of Finland (Hym., Pompiloidea).
5171

Reassignment of the Ambigua group of Pristiphora to a new genus, Sharliphora (Hymenoptera: Tenthredinidae).
5172

A review of Simulium (Pternaspatha) Enderlein (Simuliidae, Diptera). 5173

Argas (Argas) Japonicus, new species, associated with swallows in Japan and Korea (Ixodoidea, Argasidae). 5174

Fatty acid composition of limited use in aphid taxonomy. 5175

The morphology and systematic of Coptopteryx gayi (Blanchard) 1851 (Mantidae). 5176

The Cosmopolites banana weevils (Coleoptera: Curculionidae: Rhynchophorinae). 5177

The cheliceral flagellum of pseudoscorpions. 5231

Friedrich Klugs material of Scoliidae with especial reference to his type-specimens. 5239

A redescription of Pteronyssoides tyrrelli (Canestrini, 1899). A feather mite from the tree swallow (Acari-Acariformes). 5241

Studies on Opilioacarida (Arachnida). II. Redescription of Paralarus hexophthalmus (Redikorzev). 5350

The hemlock sawfly in southeast Alaska. 5353

Biosystematics of Phytoseiulus persimilis AthiasHenriot (Acarina: Phytoseiidae). 5407

The Norwegian species of Dichrorampha Gn. Lep. Tortricidae. 5505

The beetles (Coleoptera) of Babia Gora Mountain (Polish Western Carpathians). 5518

Phytophagous mites; species of widest distribution in Argentina. 5540

Diptera larvae in soil treated with organic and mineral fertilizers. (I). Family Asilidae-Diptera-Brachycera. 5541

Synoptic tables of larvae and imagos of the species of the family Chrysotribax Reitter. (Col. Carabidae). 5548

Anatea, an ant-mimicking Theridiid spider from New Caledonia (Araneae: Theridiidae). 5555

New records and species of neotropical bark beetles (Scolytidae: Coleoptera). 5682

The present status of rice pest research and control. A literature review. 5827

Bionomics of Drosicha mangiferae (Green) on citrus including new record of its three natural enemics. 6246

New mangemites of endemic insectivores. (P-sorergatidae: Trombidiformes). 6898

The gamasid mites (Parasitiformes, Gamasoidea) of the Pavlodar province of Kazakhstan. 6906

Steriphodon doncasteri, a new species of Eurygeniini, with a review of the Indian species of Steriphodon Abeille (Coleoptera: Anthicidae). 7426

New or remarkable lepidopteran forms from the Greater Baucasus. 7427

Pseudosmittia mathildae sp. n. (Diptera, Chironomidae). 7428

New species of the Aphodiidae family (Coleoptera). 128. Contribution to the knowledge of the Scarabaeoidea. 7429

Three new cave trechines from Mexico (Coleoptera: Carabidae). 7430

Czechoslovak species of Pontania crassipes-group (Hymenoptera, Tenthredinidae). 7431

Chironomidae of a moss cover in northern Hungary. 7432

Notes on Palearctic Dryopidae larvae: The genera Normandia Pic and Grouvellinus Champion (Col.). 7433

Aquatic Coleoptera collected in South Africa and Rhodesia (Bertrand. 1959). 7434

Crambinae from Turkey and from Greece (Lep., pyralidae) (Crambinae-study, Part 46). 7436

Study of the new Mexican Carabus of the state of New Leon (Insecta, Coleoptera, Carabidae). 7437

The queen in Dorylus (Anomma) kohli Wasmann (Hymenoptera: Formicidae). 7439

New Pteropliini in the collections of the Paris museum (Col., Cerambycidae, Lamiinae). 7440

Redefinitions of two genera of chalcidoids from figs, with new Florida species (Hymenoptera). 7441

Description of a new erotylid-beetle from Formosa. Studies on the erotylid-beetles (19). 7442

Description of a new erotylid-beetle from Japan. Studies on the erotylid-beetles (20). 7443

Notes on the horse-flies of Cuba (Diptera, Tabanidae). 7444

A contribution to the Coleoptera fauna of the Ostufer der Muritz nature reserve (southern part) (Coleoptera: Carabidae, Coccinellidae). 7445

Scientific results of the Hungarian zoological expedition to the Congo-Brazzaville. 24.--Bostrychidae (Coleoptera: Bostrychoidea). 7446

List of the type materials in the entomological collections of the Royal Institute of Natural Sciences of Belgium. Coleoptera 12-29-Helodidae, Dascillidae, Eucinetidae, Ptilodactylidae, Eurypogonidae, Honalisidae, Drilidae, Chaetosomatidae, Phloeophilidae, Trogositidae, Cleridae, Melyridae, Lymexylidae, Helotidhe, Biphyllidae, Phalacridae, Endomychidae, Mycetophagidae. 7447

Some new Ephemeroptera of Madagascar. II. 7449

Systematic catalogue of the Indochinese Buprestidae. XII. Agrilinae. (suppl). 7450

Commentary on the Harpactorinae in the Royal Institute of Natural Sciences of Belgium (Hemiptera-Heteroptera: Reduviidhe). 7451

A contribution to the knowledge of the genus Spheginobaccha De Meijere (Diptera, Syrphidae). 7452

Parnassiana nava XLIV. Supplementary considerations on the revision of the Parnassiinae subfamily (Continuation 17). Three new subspecies Kailasius charltonius bryki Haude and K. charltonius basharianus subsp. nova. 7453

A new species of Geocoris (Geocorinae: Lygaeidae) from Australia. 7454

Pantala hymenea (Say) (Odonata: Libellulidae) of Quebec. 7455

Aeshna clepsydra (Say) Odonata: Aeshnidae) of Quebec. 7456

The American species of the genera Euopius, Gnaptodon, and Pseudognaptodon (Hymenoptera: Braconidae). 7457

The demarcation of the genus in Chironomidae. 7458

A new species of the genus Myrmica from Quebec (Formicidae, Hymenoptera). 7459

A new central European species of the genus Stilbus Seidlitz. 7460

Results of the Albanian 1961 Expedition of the German Entomological Institute. 65. Contribution. Hymenoptera: Scoliidae. 7463

Supplement to Florida insects taken in light traps. 7464

Numerical taxonomy of ecological characteristics and the niche concept. 7465

On the systematic position of some genera of the Heliodinidae/Schreckensteiniidae as well as a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera). 7466

The ants of the Drome and the Basses-Alpes, in France (Hymenoptera, Formicidae). 7467

Bibliography of keys to European insects (1880-1963). Part I. Apterygota to Siphonaptera. 7468

Liodes (Oreosphaerula) nitida sedlicaensis ssp. n. from Czechoslovakia (Coleoptera, Liodidae). 7469

The Alysiinae (Hym. Braconidae) parasites of the Agromyzidae (Dipterh). IV. The parasites of Hexomyza Enderlein, Helanagromyza Hendel, Ophiomyia Braschnikov and Napomyza Westwood. 7470

Contributions to the knowledge of North American Ichneumoninae. 7473

Comparative notes on the species of the Holarctic genus Stemonyphantes Menge (Araneida, Linyphiidae). 7474

Theophilea cylindricollis Pic, a new long-horned beetle from central Europe (Col., Cerambycidae). 7475

Results of the Albanian 1961 Expedition of the German Entomological Institute. 71. Contribution. Coleoptera: Cerambycidae. 7476

Revision of the genus Liporrhopalum Waterston, 1920 (Hymenoptera Chalcidoidea, Agaonidae). 7477

Study on the Japanese Aneurhynchus Westwood (Hymenoptera: Diapriidae). 7478

Numerical taxonomy --with comments on the synbiological systematics method. 7479

New Malagasy Evaesthetinae (Coleoptera, Stenidae). 7480

An interesting species-group of the genus Epuraea from Africa and Madagascar (Coleoptera, Nitidulidae). 7481

Basis for a monograph on the Saginae. I. Super revision of the genus Saga Charpentier (Saltatoria; Tettigoniidae). 7482

SUBJECT INDEX

INSECT TAXONOMY

Results of the Albanian 1961 Expedition of the German Entomological Institute. 70. Contribution. Coleoptera: Tenebrionidae. 7483

Results of the Albanian 1961 Expedition of the German Entomological Institute. 69. Contribution. Coleoptera: Meloidae. 7484

On the Saldidae types in the Provancher collection, and a new name for Salda coriacea Uhler (Heteroptera). 7485

The sphingid genus Sphinx Linne (Lep., Sphingidae). 7486

The primary types of the Australian Pyrgomorphidae (Orthoptera: Acridoiea). 7487

The copulatory complex of some species of Tramea Hagen (Libellulidae: Odonta) and its taxonomic importance. 7488

On several Australian Notodontidae (Lepidoptera: Notodontoidea). 7489

Contribution to the revision of the genus Orthostigma (Hymenoptera, Braconidae). 7490

Results of the Albanian 1961 Expedition of the German Entomological Institute. 62. Contribution. Bibliography of the entomological investigation of Albania. Part II. 7491

A fifth species of Nitela from North America (Hymenoptera: Sphecidae). 7492

New synonymies in the genus Promecops Sahlberg (Coleoptera Curculionidae). 7494

Zyrus from Tanzania (East Africa) with description of a new species. Material of the zoological collection of the Bavarian States, munich (Coleoptera Staphylinidae). 7495

A method of selection of characters in numerical taxonomy. 7496

Positive phototaxis of Chironomidae larvulae as a factor regulating their distribution in stagnant bodies of water. 7497

A review of old world species of Thyreus Panzer (0Crocisa Jurine) (Hym., Apoidea, Anthophoridae). Part 4. Palearctic species. 7498

Two new Odonata from Southeast Asia, with comments on previously described species. 7499

Sawfly studies (Hymenoptera, Symphyta). 7500

New and little known Palearctic species of the Scaphosoma Leach genus (Col., Schphidiidae) (18. Contribution to the knowledge of the Scaphidiidae). 7501

Results of the Albanian 1961 Expedition of the German Entomological Institute. 63. Contribution. Diptera: Limoniidae. 7502

The spider mite family Tetranychidae in New Zealand. IV Two new species of Tetranychus and a revised key to the genus. 7504

Three species of the family Noctuidae new for the CSSR (Lepidoptera). 7505

Immature stages of Curculionidae. 1. Some genera in the tribe Araucariini (Cossoninae). 7506

Coniopterygidae from Mongolia (Neuroptera). 7507

Plecoptera from the Hamburg vicinity (Insecta-Plecoptera) (A contribution to the knowledge of the Plecoptera fauna of the north German lowlands. 7508

Epilachna niponica Lewis. On the type-specimens of Epilachna niponica Lewis. 7509

Diptera collections of P. Gabriel Strobl--I. (Preface and specimens-Part 1 up to 1890). 7510

Descriptions of males of Haematopota scutellata including descriptions of the Haematopota Meig. genus in Czechoslovakia (Diptera, Tabanidae). 7511

Sibling species of phytoseiidae (Acarina: Mesostigmata). 7512

A new taxon of the family Heterogynidae Latreille (Hym., Aculeata). 7513

The new Polpochila of Mexico and Bolivia (Insecta, Coleoptera, Carabidae). 7514

Suggestions concerning the terminology of the genital sheath of the Lepidoptera. 7515

Results of the Albanian 1961 Expedition of the German Entomological Institute. 66. Contribution. Hymenoptera: Tiphiidae. 7516

Tabanus spodopteroides sp. n., a new horsefly species from the Tabanus bovinus group. 7517

A key to the orthopteran larvae of central Germany. 7518

New contributions to the knowledge of the Apterygota collection of the State Zoological Institute and the Zoological Museum of Hamburg. Iii Meinertellidae and Machilidae (Thysanura). 7519

Studies on Membracidae. IX. A new Costa Rican species of the genus Sphongophorus Fairmaire (HemipteraHomoptera). 7520

A new species of Cercothrips Hood from Madagascar (Thysanoptera). 7521

Third contribution to the knowledge of the geographical distribution of the tineids on the Iberian Penninsula (Lepidoptera:Tineidae). 7522

The identity of Anthomyia melania Dufour, 1839 (Diptera: Fanniidae). 7523

Notes on the Muscidae of New Guinea (Diptera). iii. Species described by Stein in 1900, Termeszetr. Fuz., Volume 23. 7524

On a new species of Philodicus Loew (Asilidae, Diptera) from India. 7526

Entomology and philately (A curious Nomenclature question). 7528

A list of new taxa and new synonyms published in the Entomogical Review in the peroid 1945-1967. 7529

Phycitinae-study V (Lepidoptera Pyralidae). 7530

The mites of subfamily Labidophorinae Zachvatkin, 1941 (Acarina, Acarinhe) from the nests of small mammals. 7531

Contribution to the knowledge of the Collembola of China. 7532

A review of the genus Juriniopsis Townsend (Diptera: Tachinidae). 7533

Phylogenetic studies on Chironomidae (Dipt.), with special reference to the Corynoneura group. 7535

Some new or little-known Nearctic Trichoptera. 7536

Results of the Albanian 1961 Expedition of the German Entomological Institute. 68. Contribution. Hymenoptera Apidae. III. (Genus Nomada Scopoli). 7537

New Carabus forms from Anatolia (Col., Carabidae). 7538

The world Rhyparochrominae (Hemiptera: Lygaeidae). IV. On some Rhyparochrominae types in the Museum National d'Histoire Naturelle, Paris. 7539

A fourth European Lysaphidus species: Lysaphidus viaticus n. sp. (Hymenoptera: Aphidiidae). 7540

Remarks on some dipteran insects of the genus Omphrale Meigen (Diptera: Scenopinidae). 7541

Braconidae described by l'abbe Provancher. 7542

Descriptions of Lasiodiamesa bipectinata spec. nov. and Parochlus kiefferi (Garrett) Brundin (Diptera: Chironomidae). 7543

Study on the Japanese Calocarcelia Townsend and Eucarcelia Baranov (Diptera: Tachinidae). 7544

Comparative serology of a complex species group of food-plant specialists: The Rhagoletis pomonella complex (Diptera: Tephritidae). 7545

The Czechoslovakian species of the Ancyrophorus Kraatz genus (Col., Staph.). (76. Contribution to the knowledge of the Staphylinidae.). 7546

A statistical study on the systematics of the Cassidinae (Col., Chrys.). 7547

On the application of statistical methods in systematics. 7549

The African species of the genus Literna Stal (Homoptera: Cercopidae). 7550

Entomological survey of the Cook Islands and Niue. 1-Hymenoptera-Formicidae. 7551

Comments on the taxonomy of some Palearctic species of the Megachilidae family (Hymenoptera, Apoidea). 7553

The Trichoptera of the Lule Lappmark (Sweden), III. On the differentiation of Potamophylax cingulatus (Stephens 1837) and P. latipennis (Curtis 1834) (Lemnephilidae). 7554

The Trichoptera of the Lule Lappmark (Sweden), II. Catalog of the species, habitats and flight periods. 7556

A list of the hosts of entomophagous insects of New Zealand. 7557

Contribution to the study of the dipteran Braulidae and Pupiparans: Hippoboccidae, Nycteribiidae, and Strebidae. 7558

Cercyon-studies with descriptions of two new German species. 7559

What is Lopus insignis Reuter, 1879 (Hem. Het. Miridae). 7560

The Globiceps cruciatus group (Heteroptera,.Miridae). 7561

Several new mirids from Libia (Heteroptera). 7562

Rhabdoblatta stipata (Walker, 1868), an aquatic cockroach. 7563

Results of the Albanian 1961 Expedition of the German Entomological Institute. 67. Contribution. Hymenoptera. Pompilidae and Ceropalidae. 7564

Cytotaxonomy of North-American Chironomidae species. 7565

Certain problems concerning the study of Chironomidae populations. 7576

Some ecologically interesting Chironomidae from the lake region of Stechlin. 7662

Taxonomy, ecology and behavior of the northern Baltic Clunio marinus Halid. (Dipt., Chironomidae). 7666

Merdmyza nigriventris (Diptera, Chloropidae): Its systematic status, development and harmful activity. 7824

INSECT TEMPERATURE

Acclimation to low temperatures in Tribolium confusum Duval (Col., Tenebrionidae). 1476

Mode of life and difficulties in the rearing of Scopula umbelaria Hbn. (Lep. Geom.). 1487

An oak leaf tier, Croesia semipurpurana (Kft.) (Lepidoptera: Tortricidae) in the region of Quebec. 2212

Temperature and humidity effects on the oviposition of Hyalomma aegyptium ticks of different engorgement weights. 5637

Immobilizing insects by sudden reduction of body temperature. Patent 3,446,892. 7377

INSECT TRAPS

Tachinidae catch in the Swiss Jura, using tent traps. 30

Tender trap. (Abstract). 266

An adventive Anthidium in New York State (Hymenoptera: Megachilidae). 633

Comparison of the effectiveness of two pupal parasites in finding a host. 757

Possibilities and limitations in the use of Barber traps on river shores. 1204

The influence of weather on the activity and behavior of greenhead flies, Tabanus nigrovittatus Macquart and Tabanus lineola Fabricius. 1413

Methods used in Utah for sampling Tabanid populations. 1423

The mosquito concentrator. 1434

A method of estimating the size of native populations of oriental, melon, and Mediterranean fruit flies, to establish the overflooding ratios required for sterile-male releases. 1480

Light traps as detection devices for moths of cabbage looper and bollworm. 1602

Trapping for control of the Mexican fruit fly in mango and citrus groves. 1924

Attraction of female boll weevils to traps baited with males or extracts of males. 1945

Biological factors influencing responses of the female boll weevil to the male sex pheromone in field and large-cage tests. 1978

Hourly and seasonal collections of six harmful insects in traps equipped with blacklight lamps. 2056

Physiological bases for the luring and catching of insects. 2069

Male boll weevils are more attractive than cotton plants to boll weevils. 2217

Influence of the form of traps upon the attractiveness of sexual odour of gypsy moth females. 2472

Collecting methods for Tabanidae (Diptera). 3084

Bozberg-report 1964. The occurrence of moths on the Bozberg in 1964. 3087

Response of adult southern potato wireworms to light traps. 3184

Attractants for the Japanese beetle. 3199

Sampling for aphids by traps and by crop inspection. 3214

Hedges. IV. A comparison between the Carabidae of a hedge and field site and those of a woodland glade. 3261

Aphid trapping. 3289

Flies and other insects in poultry houses. 3612

Use of freshwater sponge in case construction of Limnephilus species (Trichoptera: Limnephilidae). 3810

Determination of Dimethoate residues in flue-cured tobacco. 3654

The effects of an acute insecticide stress on a semi-enclosed grassland ecosystem. 3655

Oscillopolarographic determination of parathion, paraoxon, and p-nitrophenol in fortified canned peaches following thin layer chromatography. 3659

Studies in pesticide residues. 3. Ronnel residues in the perirenal and omental fat of cattle following dermal application. 3662

Malathion, methyl parathion, diazinon, and endosulfan residues in sunflower seeds. 3665

Laboratory evaluation of malathion as a protectant for stored walnuts. 3666

Residues on sugarcane tissues 24 hours after application of different formulations of azinphos-methyl. 3685

Notice of filing of petition regarding pesticide chemicals. 4293

O-isopropoxyphenol methylcarbamate. Notice of establishment of temporary tolerance for pesticide chemical. 4294

Food additives permitted in feed and drinking water of animals or for the treatment of food producing animals. Food additives permitted in food for human consumption. Buquinolate. 4297

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Food additives. Phosalone. 4298

DDT residues in beef cows fed apple pomace. 4302

Toxicity of organophosphorous insecticides applied as foliar spray, soil drench and seed treatment to Aphis gossypii Glover (Aphididae: Homoptera). 4757

The determination of the amount of diazinon residues in foodstuff by means of labeled diazinon. (Summary). 4877

Persistence of DDT in crayfish in a natural environment. 4878

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultrual commodities. Dodecachlorooctahydro-1,3,4-metheno-2th-cyclobuta (cd) pentalene. 4882

Use insecticides safely. 4901

Effects of forest spraying with DDT on aquatic insects of salmon streams in New Brunswick. 5380

Laboratory tests of larvicides for mosquito control in potable waters. (abstract). 5389

New horizons in the fight against insects. 5524

Michigan's priority war on mosquitoes. 5601

Relative susceptibility of stored-product insects to insecticides. 5631

Susceptibility of an alfalfa leafcutting bee to residues of insecticides on foliage. 5668

Public health pesticides. 5764

Conversion of DDT to DDD in soil and the effect of these compounds on soil microorganisms. 5809

Studies on the strawberry mite (Tetranychus telarius (L). 6161

Systemic activity of UC-21149 against the citrus red mite, citrus thrips, California red scale, and spirea aphids on nonbearing orange trees. 6265

The effects of DDT on a breeding population of the rufoussided towhee (Pipilo c. erythrophthalmus Linnaeus). 6418

Pesticides and man's environment. 7073

DDT: Criticism, curbs are on the upswing. 7077

Reduction of residues of heptachlor and chlordane in carrots with soil applications of activated carbon. 7085

The effect of a pretreatment with phenobarbital on the metabolism of DDT in dairy cows and young bulls. 7086

University of Wisconsin scientists discuss insecticides and pollution. 7088

Determination of residual bHC and lindane quantities in the soil and plants and investigations on their toxicity. 7091

Contribution of aerial contamination to the accumulation of dieldrin by mature corn plants. 7092

Effects of the insecticide Sevin on survival and growth of the cockle clam Clinocardium nuttalli. 7094

Some observations on the effects of using organochlorine sprays in an orchard. 7098

Effects on wild young salmon of spraying DDT over New Brunswick forests. 7103

Effects of forest spraying with DDT in New Brunswick on food of young Atlantic salmon. 7111

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations. 7112

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary. 7113

Experience with a shorter extraction procedure for insecticide residues from liquid milk products. 7114

Soil degradation of diazinon, a phosphorothioate insecticide. 7118

TDE (or DDD). Proposed reduction of tolerances for residues in or on raw agricultural commodities. 7120

Translocation of diazinon from planting water by cabbage and tobacco seedlings. 7122

DDT residues absorbed from organic detritus by fiddler crabs. 7126

Residues of dieldrin (HEOD) in the tissues of experimentally poisoned birds. 7130

Pharmacodynamics of dielorin in pigeons. 7131

Insecticide residues in spring wheat plants grown in the field from seed treated with aldrin or heptachlor. 7132

Some effects of diazinon on the microflora of submerged soils. 7133

Residues in the body fat of steers fed kelthane in their ration. (Abstract). 7192

Toxicities of two insecticides to young coho salmon. 7210

Degradation of gamma-BHC in simulated lake impoundments as affected by aeration. 7362

Estimation of DDT in factory waste. 7372

Microscopic identification of some chlorinated hydrocarbon insecticides on different substrata. 7381

Log-normal spray drop distribution analyzed by two new computer programs. 7402

Insecticides in human fat in New Zealand. 7959

Insecticide exposure: A sensitive procedure for urinary p-nitrophenol determination as a measure of exposure to parathion. 7962

An improved method for the separation and removal of organochlorine insecticides from thin-layer plates. 7969

Studies on the action of residues of vaporous DDVP (dichlorvos) on solid surfaces. 7971

Pesticide residues. 7973

Control of pasture Aedes mosquitoes by dripping larvicides into flowing water, with notes on residues in a pasture habitat. 5486

Studies of effects of Dursban and fenthion insecticides on wildlife. 1140

The effect of low volume application of DURSBAN on non-target organisms. 1152

Residues of Dursban insecticide following mosquito control applications. 1153

INSECTICIDE RESISTANT INSECTS

Metabolism of methylcarbamate insecticides by the NADPH2-requiring enzyme system from houseflies. 4

The susceptibility of various species of mosquitoes to DDT and dieldrin in Thailand. 179

The apple moth (Recurvaria leucatella Cl.) a little known pest of our fruit trees. 269

Tests with insecticides for the control of resistant Myzus persicae (Sulzer) on year-round chrysanthemums. 277

Insect resistant thermoplastic compositions. Patent 3,408,323. 556

The United States and malaria: Debits and credits. 937

Metabolism of the chemosterilant hempa by carbamateresistant house flies. 1352

Contribution to the study of the mode of action of certain synthetic insecticides, most particularly of Lindane, and of the phenomena of resistance to these compounds in Musca domestica L. 1457

Susceptibility to insecticides of certain anophelines according to the time of catch and testing. 1541

Pasture mosquito resistance in California. 1725

The control of some species of pest insects by Bacillus thuringiensis. 1953

Aliphatic amines against insecticide-susceptible and resistant strains of Culex pipiens quinquefasciatus and Anopheles albimanus. 1968

Chambers for incubating individual insect eggs and egg parasites. 2054

Inheritance and biochemistry of OP-RESISTANCE in a New York strain of the twospotted spider mite. 2080

Inheritance of resistance to organophosphorus acaricides in the cattle tick, Boophilus microplus. 2092

Brain cholinesterase activity and its inheritance in cattle tick (Boophilus microplus) strains resistant and susceptible to organophosphorus acaricides. 2093

On the resistibility of Drosophila to sodium chloride. II. Differences in the resistibility at different developmental stages. 2676

Insecticide susceptibility studies in Indian strains of Aedes aegypti L.. 2688

An apholate-resistant strain of house flies. I. Resistance to other chemosterilants and to insecticides. 3142

Susceptibility of eggs and young adults of Cryptolestes ferrugineus and C. turcicus to hydrogen phosphide. 3160

A review of the problem of insecticide resistance in Australia. 3220

Studies on the dispersal of dieldrin-resistant cabbage root fly. 3254

Chemical control of an organophosphorus- and carbamateresistant strain of Boophilus microplus (Can.) from Queensland. 3271

Resistance to chlorinated hydrocarbons in Culex pipiens quinquefasciatus in Egypt. 3294

Dieldrin and DDT resistance of Culex pipiens fatigans in Thailand. 3317

Susceptibility of Mansonia mosquitoes to certain insecticides in Thailand. 3318

Susceptibility of larvae of Culex pipens fatigans to organophosphorous. 3319

Genetical investigations on a strain of house-flies resistant to organophosphorus and carbamates. 3325

Some biochemical characteristics of the microsomal cyclodiene epoxidase system and its inheritance in the house fly. 3331

Genetics of cyclodiene-insecticide resistance in the seedcorn maggot. 3333

Genetic plasticity of stored-product insects in relation to insecticides: Comparative susceptibility of confused and red flour beetles from various areas of California to malathion. 3337

Reducing DDT persistence. 3434

Protection of bees through the use of insecticides, harmless or only slightly dangerous to bees. 3803

Two types of carboxyesterase degrading malathion in resistant houseflies and their inhibition by synergists. 3859

Changes in insecticide sensitivity in the bean weevil Acanthoscelides obtectus Say, brought about by induced pigment formation. 3867

Genetics of organophosphate resistance in the two-spotted spider mite (Tetranychus urticae Koch). 3905

Heterogeneity in the Trinidad DDT-RESISTANT strain and the QS susceptible strain of Aedes aegypti L. The isolation of highly resistant and highly susceptible substrains. 3907

Hard-to-kill pests of fruit trees--woolly apple-aphid. 4747

Results of a study on controlling Tipula olercea L. showing a marked resistance to some chlororganic insecticides. 4750

Search for new insecticides. 4893

Studies on the age composition of Anopheles culicifaces populations in India at different phases of development of resistance to DDT. 5159

How to control bed bugs. 5185

Hard to kill pests of fruit trees - woolly apple-aphid. 5195

Ionic distribution studies in haemolymph from different parts of Periplaneta americana by radioactive tracers.
7638

IODINE ISOTOPES
Localization of tobacco mosaic virus protein in tobacco leaf cells during the early stages of infection.
1572

The distribution of radioactive strontium, cesium and iodine in the bodies of some insects.
1937

Contribution to the question of the effect of radioactive iodine on thyroid function in goats.
3494

IODOACETAMIDE
The effects of sodium fluoride and iodoacetamide on mutation induction by X-irradiation in mature spermatozoa of Drosophila.
851

IODOACETIC ACID
Inducing abscission of olive fruits by spraying with ascorbic acid and iodoacetic acid.
1816

IODOPHORS
Effect of an iodophor on shelf life of poultry. (Abstract).
4238

ION EXCHANGE
Ions and the grower.
3352

IONIZATION
Ions and the grower.
3352

Effect of ionizing radiation on Dacus zonatus fruit fly eggs and larvae in situ.
4505

Structure of Klein's metabolites of aldrin and of dieldrin.
4926

Isotopes in agriculture.
6440

IONIZING RADIATION
Action of natural ionizing radiations on reproduction in the metazoa: Research on Drosophila melanogaster.
4581

IONS
Osmotic and ionic regulation in insects.
152

Determination of fluorine in feeds by the fluoride ion activity electrode.
567

Stabilization of animal and poultry feeds containing a tetracycline antibiotic. Patent 3,427,166.
2264

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Coordination product of zinc ion and maneb.
2406

Ions and the grower.
3352

The stimulation of 2,4-dinitrophenol-activated ATPASE by anions.
4976

Ionic composition of haemolymph and nervous function in the cockroach, Periplaneta americana L.
5528

A relationship between ionic environment and hormonal activation of phosphorylase in an insect.
5629

An anion-stimulated adenosine triphosphatase from the potassium-transporting midgut of the larva of Hyalophora cecropia.
5651

Effect of a soluble fraction of oil seed meals on uptake of 65Zn from ca.mg.65Zn.phytate complexes by the chick'.
6690

The effect of chloride ions on moth skeletal muscle fibres.
7620

Ionic distribution studies in haemolymph from different parts of Periplaneta americana by radioactive tracers.
7638

IOXYNIL
Inhibition of photosynthetic electron transport by ioxynil.
521

IPC
The effects of IPC, CIPC, Sevin and Zectran on Bacillus subtilis.
2132

IPHITA LIMBATA
Ovarian response to corpus allatum in Iphita limbata Stal..
5386

Influence of corpus allatum on reproduction of female Iphita limbata Stal (Hemiptera).
7680

IPOMOEA
Selective action of chloroxuron on soybean and morningglory.
2448

Response of two species of Ipomoea to gibberellic acid treatment.
7987

IPS
Rearing of Ips cembrae larvae on artifical diets: Some essential amino acids and sugars.
5206

Studies on the attack behavior of the southern pine beetle. III. Sequence of tree infestation within stands.
6177

Digestive enzymes of the alimentary canal of the larch bark beetle Ips cembrae Heer.
7572

IPS CONFUSUS
Spectrometric identification of insect sex attractants.
1475

Flight muscle volume change in Ips confusus (Coleoptera: Scolytidae).
2546

IPS SEXDENTATUS
Research on the odoriferous constituents of the terpenic fumes of various substances and their action on Ips sexdentatus Boerner (Coleoptera, Scolytidae).
4475

Research on the reactions of Ips sexdentatus Boerner to terpenic fumes of several conifers.
5262

IPS TYPOGRAPHICUS
Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes.
3799

IPS TYPOGRAPHUS
Concerning the problem of controlling the occurence, as well as estimating the degree of infestation of tree stands by Ips typographus L.
6263

IRIDESCENT VIRUS
A virus disease in Chironomus plumosus.
1481

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. I. Laboratory experiments.
2003

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. II. Experiments related to transmission in nature.
2004

IRIDOMYRMEX
Interpopulation karyotype differences in Australian Iridomyrmex of the Detectus group (Hymenoptera: Formicidae: Dolichoderinae).
3328

IRIDOMYRMEX HUMILIS
Rates of competitive exclusion by the Argentine ant in Bermuda.
5274

IRON
The status of some micronutrients in healthy Robusta banana plants.
544

Iron in citrus production.
1593

Effect of iron and manganese on energy transformations in plants with inhibited chlorophyll synthesis.
1811

Inactivation of lettuce necrotic yellows virus by chelating agents.
3355

The influence of some microelements on the fattening process of geese through a diet containing a lot of corn.
3544

Animal food composition. Patent 3,428,457.
4159

Use of chicks to measure availability of iron. (Abstract).
4220

Effect of environmental temperature on iron deficiency anemia in Athens-Canadian randombred chicks.
4257

Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control.
4722

Sideroleucocytes as a diagnostic aid in equine infectious anaemia.
4815

2,4-D metabolism; enzymatic degradation of chlorocatechols.
5785

Changes in growth and metabolism of excised pea roots associated with iron deficiency. I. Changes in number of cells, nitrogenous constituents and respiration rate.
5856

Relationship of iron, manganese, and bicarbonate to chlorosis of rice grown in calcareous soil.
6039

Iron chlorosis in relation to irrigation practices.
6123

Results of hemoglobin determination in piglets in the framework of herd diagnosis of piglet anemia.
6540

Hematological response of different stocks of chikens to iron-copper deficient diet.
6862

Ionic distribution studies in haemolymph from different parts of Periplaneta americana by radioactive tracers.
7638

IRON ISOTOPES
Influence of various chelating agents on absorption of 60Co, 59Fe, 54Mn, and 65Zn by chickens.
4105

The anaemia of acute and chronic ovine fascioliasis.
4280

IRON SALTS
Anemia of suckling pigs.
1646

IRON SULFATES
The distribution of trace elements in the leaves of the coconut palm, and the effect of trace element injections.
7297

IRRADIATION
Preliminary laboratory study on the effects of X rays on the fertility of the apple moth (Laspeyresia pomonella L.).
86

Contribution to the study of the protection of domestic rabbit against total irradiation by gamma radiation.
407

Effect of gibberellic acid on gamma irradiated barley seeds.
531

Peroxidase isozymes in barley leaves from irradiated seeds.
554

Insects destroy themselves.
823

Evolution of fitness, III. Improvement of fitness in irradiated populations of Drosophila serrata.
920

Drosophila and Pseudeucoila V: Contribution to the biological parasitology of Pseudeucoila bochei Weld (Cynipidae, Hymenoptera) and report on two new mutants.
926

A refined test for X-ray induced dominant lethals in Drosophila.
932

Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid.
2178

Failure of oral Escherichia coli endotoxin to induce either specific tolerance or toxic symptoms in rats.
2280

Thin-layer chromatography of bromacil residues in soils.
2401

Study of some injuries induced by X-rays in the first stage larvae of Bombyx mori.
2559

Experiences with the house fly, sterilized by X rays.
2649

Influence of medium and stock on the role of natural irradiation on Drosophila melanogaster.
2677

Apholate and gamma irradiation compared as sterilants for Culex pipiens quinquefasciatus Say (Diptera: Culicidae).
2691

The use of sterile males to control populations of Queensland fruit-fly, Dacus tryoni (Frogg.) (Diptera: Tephritidae). I. Methods of mass-rearing, transporting, irradiating, and releasing sterile flies.
2813

Radiation sensitivity of Drosophila embryos in relation to age, in air and in nitrogen.
3213

The contribution of Italy to research concerning the use of nuclear energy in insect control.
3246

Control of toxoplasmosis by 60Co gamma-irradiation of lamb meat.
3553

The effect of pre-planting seed treatment by gamma rays on the oxidative phosphorylation in cotton leaves.
3676

Effect of gamma-irradiation of late embryo on the growth of silkglands and on silk production in the silkworm, Bombyx mori.
3875

Mexican fruit containment.
3879

Mutation rates and mortalities after X-irradiation of the early development stages of Drosophila melanogaster.
3902

Relative viability of heterozygotes and homozygotes with respect to the irradiated chromosome in Drosophila melanogaster.
3906

The effect of low doses of gamma irradiation upon the rate of infection of plants with powdery mildew. II. A differentiated susceptibility of winter wheat zelazna variety to infection with powdery mildew (Erysiphe graminis F. tritici DC March).
4009

Irradiated food: FDA blocks AEC, Army requests for approval.
4286

The influence of the genotype on the frequency of radiationinduced aneuploidy in the oogenesis of Drosophila melanogaster. V. A tentative explanation of the differences in the dose-response curves.
4635

Effect of ultraviolet radiation on the oxidation of certain Krebs cycle substrates in Vibrio cholerae.
4930

Dose rate effect of radiation on spermatogonia of the silkworm.
5635

Crossing-over in the males of Drosophila ananassae: exchanges in irradiated pupae.
5712

Response of pines irradiated with lethal and sublethal doses of gamma-radiation.
5829

Heat sensitization for control of grey mold of strawberry fruits by gamma irradiation.
6090

All we know about pink bollworms.
6271

On the bacterial effect of ionizing irradiation on certain microorganisms. Second communication. A study of the bactericidal effect of gamma rays on certain bacteria and the spores of Bac. anthracis.
6425

Effects of total and partial body radiation on helminthic infections.
6923

Sensitivity of stored melon fruit fungi to gamma irradiation.
7025

Postirradiation modification of ultraviolet-sensitivity of normal and nitrofurazone-resistant strains of the blue-green alga Anacystis nidulans.
7217

Changes in ration of sugars and amino acids in cotton-plant and maize upon gamma-irradiation of seeds prior to sowing.
7250

The gas-chromatographic determination of organophosphorus pesticides. Part V. Studies under field conditions.
7970

The chromatographic determination of organophosphorus pesticides. Part III. The effect of irradiation on the parent compounds.
8008

IRRIGATION

Observations on the timing of irrigation and the incidence of potato common scab (Streptomyces scabies).
1573

Effect of different dates of sowing on yield, disease resistance and other characteristics of American cotton varieties.
1586

Epidemiology and prevention of bacterial blight disease of rice in India.
2183

Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice.
2445

A check of the resistance to washing of various pesticides on apples and grapes.
3028

Nematodes in an irrigated vineyard.
3462

Irrigation by spraying.
4659

Annual report of the Department of Agriculture for the year 1962/63. (II).
4665

Soil science and agricultural chemistry.
5805

Investigation of means for the chemical control of basal rot (Phytophthora capsici Leon.) of pepper.
6010

Iron chlorosis in relation to irrigation practices.
6123

All we know about pink bollworms.
6271

Control of eelworm diseases of bananas in Western Australia.
6291

Preplanting applications of prometryne in cotton.
6340

Effects of methods of placement on performance of trifluralin, CDEC, and DCPA applied to soil.
6364

Water pollution and agriculture.
7075

Control of pasture Aedes mosquitoes by dripping larvicides into flowing water, with notes on residues in a pasture habitat.
5486

IRRIGATION DITCHES

Persistence and movement of parathion in irrigation waters.
4871

Alligatorweed found in Arkansas.
6384

ISCHNOTHYREUS

The genus Ischnothyreus (Araneae, Oonopidae) in Central America and the West Indies.
605

ISCHNURA

Dysmachus trigonus (Meigen) (Diptera, Asilidae) as a predator of Ischnura elegans (Van Der Linden) (Odonata, Coenagriidae).
1400

ISOBENZAN

Effects of isobenzan on soil fauna and soil structure.
2404

Comparative efficacy and economics of various measures adopted for eradication of white grub beetle (Holotrichia serrata Fabricius) damaging sugarcane in Uttar Pradesh.
6204

ISOLATES

Bacteriophage reactions and pathogenic spectra of Xanthomonas species to cotton.
2135

Notes on Pasteurella tularensis isolated from a vole, Microtus oeconomus Pallas, in Alaska.
2959

Morphological variation in the sugarcane smut, Ustilago scitaminea Syd.
3920

Isolation of the tuberculosis bacillus through electrophoresis in artificially contaminated milk.
4288

Gangrenous mastitis in ewes. II. Characteristics of the staphylococci, isolated from healthy ewes and from ewes affected with gangrenous mastitis.
6675

ISOMERISM

Lindane: Metabolism to a new isomer of pentachlorocyclohexene.
249

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. (abstract).
5551

ISOMERIZATION

Fat as a factor in the epimerization of chlortetracycline in feeds.
7353

ISOMERS

The anthelmintic activity of the optical isomers of tetramisole in sheep and cattle.
1128

Sex pheromone of the pink bollworm moth: Biological masking by its geometrical isomer.
2590

The efficacy of trans and cis vitamin A. (Abstract).
4158

Intestinal transport and metabolism of D-amino acids in the silkworm, Bombyx mori L.
4599

The preparation of L- and D-alpha-amino-beta-methylaminopropionic acids and the identification of the compound isolated from Cycas circinalis as the L-isomer.
7311

Occurrence of D-serine in aseptically grown Bombyx mori.
7685

ISOMETRUS MACULATUS

Repeated pregnancy and duration of the gestation period in the scorpion, Isometrus maculatus De Geer (Fam., Buthidae).
5539

ISOPHTHALONITRILE, HALOGENATED

The relative influence of chemical and physical properties on the fungitoxicity of tetrachloroisophthalonitrile and some of its analogues.
7813

ISOPODA

Isopoda terrestria of Turkey, 4th report, and on the adaptation to volvation in the families of Armadillidiidae, Eubelidae and Armadillidae.
3137

Emigration and mortality rates and the food-shelter conditions of Ligidium hypnorum L. (Isopoda).
5624

Experimental transmission of Histomonas meleagridis and Heterakis gallinarum by the sowbug, Porcellio scaber, and its implications for further research.
6830

ISOPRENOIDS

Lipid metabolism and function in insects.
92

Isolation of new polyisoprenyl ketone from silkworm feces.
2659

Inactivation of juvenile hormone like compounds in insects.
4501

ISOPROPOXYPHENYL METHYLCARBAMATE, O

Residual activity of several new insecticides to adult Anopheles quadrimaculatus in adobe-lined experimental huts.
1538

Cockroach insecticides--how repellent are they .
1780

Baygon in field tests against German cockroaches.
1935

Oxidative metabolism of C14-labeled Baygon by living house flies and by house fly enzyme preparations.
5604

Unique problems in insect and pest control of NASA's Mississippi Test Facility.
5755

Laboratory tests of five new insecticides as protectants for stored rough rice. (abstract).
7031

ISOPROPOXYPHENYL N-METHYLCARBAMATE, 2-

Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control.
2692

O-isopropoxyphenol methylcarbamate. Notice of establishment of temporary tolerance for pesticide chemical.
4294

ISOPROPYL N-(3-CHLOROPHENYL) CARBAMATE

On the effect of isopropyl-N-3-chlorophenyl-carbamate (CIPC) on the sugar content of potato tubers.
1169

ISOPROPYL-4-DIMETHYLAMINO-5-METHYLPHENYL 1-PIPERIDINECARBOXY OXIDASES

The effect of CCC and Amo-1618 on growth, catalase, peroxidase and indoleacetic acid oxidase activity of young barley seedlings.
4908

ISOPTERA

The infrastructural morphology of Pillotina calotermitidis nov. gen., nov. sp., a Spirochaetales of the intestine of Calotermes praecox.
4513

The presence of volatile fatty acids in the gut of a higher termite (Microcerotermes edentatus Was., Amitermitinae).
4535

Contribution to the study of higher termite digestion.
5417

Radiographic study of intestinal transit in a higher termite.
5418

Occurrence of antimicrobial substance in the exudate of physogastric queen termite Termes repemanni Wasmann.
5582

Termites need no longer threaten groundnut in Nimar.
6202

Termite workers.
7032

ISOSPORA

Note on occurrence of the Isospora bigemina (Stiles, 1891) Luhe, 1906 in Canis familiaris in Sao Paulo and geographic distribution of the Isospora species in dogs and cats, in Brazil.
2883

ISOSPORA BIGEMINA

Note on occurrence of the Isospora bigemina (Stiles, 1891) Luhe, 1906 in Canis familiaris in Sao Paulo and geographic distribution of the Isospora species in dogs and cats, in Brazil.
2883

ISOTOPES

The importance of the isotope dilution in the study of the renewal of phosphorus during-larval growth of Plodia interpunctella.
775

Experiments with radioactive isotopes on forest ants.
797

The use of radioactive isotopes and of ionizing rays in applied entomology.
822

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells.
2327

Thymidine-3H uptake by X-bodies associated with cauliflower mosaic virus infection.
3380

Structures and pesticidal activities of derivatives of dinitrophenols. XI. Effects of substitution of dinitrophenols with C3 to C13 alpha-branched alkyl groups and of esterification on the eradication of cucumber mildew.
3399

Structures and pesticidal activities of derivatives of dinitrophenols. XII. In vitro activity of C3 to C13 alphabranched alkyldinitrophenols and their esters and ethers against the spores of Venturia inaequalis and other fungi.
3400

Structures and pesticidal activities of derivitives of dinitrophenols. X. Effects of substitution of dinitrophenols with C3 to C13 alpha-branched alkyl groups and of esterification on the eradication of barley mildew.
3401

Structures and pesticidal activities of derivatives of dinitrophenols. IX. Effects of substitution of dinitrophenols with C4 to C13 alpha-branched alkyl groups and of esterification on the eradication of apple mildew.
3402

Effect of prometryne on 14Co2 fixation in cotton and soybean.
3707

Effect of food availability on rates of loss of 45calcium from Hyphantria cunea (Lepidoptera: Arctiidae).
5268

New strategy against the codling moth.
5520

Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract).
5690

Isotopes in agriculture.
6440

Localization of P32 labeled Mycobacterium tuberculosis in fowl organisms.
6636

Distribution of Strontium 90 and Cesium 137 in dairy products in the processing of ewe's milk. 2. In white brined cheese.
7140

Influence of some herbicides on accumulation of 32P in above-ground organs of oats.
7223

Use of an electron capture detector in gas chromatography. III. An example of its application. A study of the response of some chlorinated and phosphorated pesticides.
7340

ITALY

Research and current directions in the field of the defense of cultivated plants against the attacks of arthropods.
2817

Rhynchota (Heteroptera,Homoptera, Auchenorrhyncha) topographical and synonym catalog.
3128

ITOPLECTIS CONQUISITOR

Comparison of the effectiveness of two pupal parasites in finding a host.
757

IXODES

Mortality in sheep due to Ixodes species.
6907

IXODES HOLOCYCLUS

Scrub tick paralysis in farm animals.
333

IXODES PERSULCATUS

Materials on the epidemiology of tick-borne encephalitis in the zone of construction of Sayano-Shushenskaya hydropower station.
2289

Consumption of nutritional reserves by hungry females Ixodes persulcatus P. Sch. during the life cycle.
2595

A new approach to development of live vaccine against tick-borne encephalitis.
2972

Efficacy of use of some phospho-organic compounds as acaricides in foci of tick-borne encephalitis.
5772

IXODES RICINUS

Development of eggs of the tick, Ixodes ricinus L., depending on temperature and humidity and the thermopreferendum and daily activity of its larvae.
1379

A new approach to development of live vaccine against tick-borne encephalitis.
2972

Ixodes ricinus borne parasites of cattle in the Netherlands.
6210

Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during bloodsucking.
7573

Rating various detection methods for Ixodes ricinus.
7577

IXODIDAE

A new locality record for Ixodes woodi Bishopp (Acarina: Ixodidae).
1232

Ticks from Turkey (Acari, Ixodidae).
1900

The control of Ixodid ticks--vectors of human diseases by means of alteration of their environment.
3340

To the fauna of ixodid ticks of Mongolia.
3744

Ixodes walkerae, n. sp. from a bird in Kenya. (Acarina: Ixodidae).
5012

Some observations on the chaetotaxy of the legs of larval Ixodidae (Acari: Metastigmata).
5025

Ixodes (Lepidixodes) kopsteini Oudemans, 1925, valid name for I. (L.) paradoxus Kohls and Clifford, 1961, with notes on distribution and hosts (Acarina: Ixodidae).
5083

Changes in neurosecretory activity at different stages in the adult Hyalomma dromedarii Koch, 1844.
5287

The occurrence of Argas japonicus and Ixodes lividus in Nagano Prefectur, Japan (Ixodoidea: Argasidae; Ixodidae).
5652

Detection of complement fixing antibody to the agents of tick typhus fever of northern Asia and Q fever in wild animals of the extreme north of western Siberia.
6810

Peculiarities of the fauna, ecology and geographic distribution of blood-sucking arthropoda in Vietnam.
7472

IXODIDES

Tick fever in poultry.
415

Tick-borne diseases of cattle in Trinidad.
438

Babesidae (Sporozoa; Piroplasmida) infections and tick infestations of cattle in some provinces of the Black Sea region of Turkey.
1666

Ticks of domestic animals in Tessin.
1713

Materials on the epidemiology of tick-borne encephalitis in the zone of construction of Sayano-Shushenskaya hydropower station.
2289

New concepts for cattle tick control.
3609

Ticks of the National Reactor Testing Station.
4267

A carbon dioxide bait trap for collecting ticks and fleas from animal burrows.
4972

Some remarks on the tampans of the Ornithodoros moubata complex in southern Africa.
5102

Argas (Argas) Japonicus, new species, associated with swallows in Japan and Korea (Ixodoidea, Argasidae).
5174

Hughes virus from Trinidadian ticks and terns.
5188

Juvenile sterility in male ticks of Orinthodoros tholozani.
5303

Transmission of the tularemia pathogen to homothermal animals by Ixodes ticks. (JPRS 44,105).
5758

Immunologic structure of the population in a foothill Taiga focus of tick-borne encephalitis in the Zone of Construction of the Krasnoyarskaya Hydropower Station after realization of tick control measures.
5766

Efficacy of use of some phospho-organic compounds as acaricides in foci of tick-borne encephalitis.
5772

On the effect of Sevin on sexual functions of warm-blooded animals.
6439

The incidence of clinical babesiosis in cattle in Queensland.
6651

1969, controlling insects on sheep and goats.
6905

Mortality in sheep due to Ixodes species.
6907

IZIPHYA

A new species of Iziphya from Ontario and Quebec, with a review of the nearctic species (Homoptera: Aphididae).
692

JAAGZIEKTE

Experimental transmission of sheep pulmonary adenomatosis (ijaagsiekte).
6861

JACKBEANS

Arginine metabolism in germinating seeds of some members of the leguminosae.
7255

JAPANESE B ENCEPHALITIS

Identification of the host range of Culex tritaeniorhynchus mosquitoes on Okinawa, Ryukyu Islands.
5765

JAPANESE B ENCEPHALITIS VIRUS

Comparative chromatographic studies on DEAE-SEPHADEX between hemagglutinins of JBE virus (Nakayama strain) and a close strain isolated in Viet-Nam.
7920

JAUNDICE

Lupinosis.
2907

JAVESELLA PELLUCIDA

Mycoplasma-like microorganism and virus particles in the leaphopper Javesella pellucida (F.) transmitting the oat sterile dwarf disease.
3431

JAWS
Actinomycosis of mandible gingivae. 6494

JOHNE'S DISEASE
Significance of allergic tests for diagnosis of Johne's disease in sheep and goats. 1699
Studies on the blood chemistry of cattle in a herd infected with Johne's disease. 2930
Johne's disease. II. The pathogenic agent, susceptible species and method of infection. 6549
Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Lesions and demonstration of etiologic agent. 6672

JOINT DISEASES
Arthritis in chickens due to Staphylococcus aureus. 6680
Rheumatoid arthritis in a dog. 6695

JUNCUS
Autumn weed control for continuous cereal growers. 2867
The control of rushes. 3479

JUNIPERUS
Container growing. Chapter 22: Insects and diseases. 206

JUTE
Estimation of loss in jute fibre yield due to jute stemweevil, Apion corchori Marshall (Curculionidae: Coleoptera). 2823
How to control jute pests economically. 6267

JUVENILE HORMONE
Cellular differentiation and pattern formation during metamorphosis of the milkweed bug Oncopeltus. 831
The effects of juvenile hormone analogues on the embryonic development of silkworms. 1462
Constitution of a compound with a pronounced juvenile hormone activity. 1463
Lethal effects of synthetic juvenile hormone on the human body louse. 1726
The function of the accessory sex glands in Periplaneta americana (L.), I. A quantitative bioassay for the juvenile hormone. 1933
Chemical structure and juvenile hormone activity: Comparative tests on Rhodnius prolixus. 3313
Influence of cecropia oil on the cuticle of Tenebrio molitor. 3321
Inactivation of juvenile hormone like compounds in insects. 4501
The results of large dose injections of juvenile hormone in Locusta migratoria, gregarious phase. 4522
Juvenile hormone: Activity of natural and synthetic synergists. 5238
Ovarian response to corpus allatum in Iphita limbata Stal.. 5386
Biochemical aspects of juvenile hormone action in the adult Locusta migratoria. 5474
Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro. 7611

KALANCHOE
Crown gall tumors in various species and hybrids of Kalanchoideae. 2122

KALE
Kale anaemia in ruminants. I. Survey of the literature and experimental induction of kale anaemia in lactating cows. 4152
Studies on chemical weed control with fodder kale. 4771
A preliminary study of the extraction of parathion and Diazinon by the Mills, Onley, Gaither Acetonitrile Procedure. 4937
Matricaria and lambsquarter control in Brassicas with analogs of propachlor. 6368
Kale anaemia. I. The toxicity to various species of animal of three types of kale. 7885

KANAMYCIN
Observing the sensitivity of Francisella tularensis to antibiotics in vitro. 6621

KEEL CYSTS
Breast blisters in turkeys. 402

KENAF
Kenaf promising as profit crop. 5851

KERATINS
Metabolism of blood proteins in hens during natural and artificial moulting. 2310
The pathogenesis of interdigital cyst. 2980
Third contribution to the knowledge of keratinolytic and keratinophilic soil fungi in the region of Szczecin. 5818

KERATOCONJUNCTIVITIS
Infectious keratoconjunctivitis in sheep caused by Moraxella bovis. 2944
Infectious keratoconjunctivitis in cattle caused by Neisseria (Neisseria ovis n. sp. Lindqvist, 1960). 2945
Clinical observations and studies regarding the etiology of enzootically occurring bovine keratoconjunctivitis, with particular consideration of Thelazia. 6992
Observations on the occurrence of Thelazia or eyeworm infection of cattle in Northern New South Wales. 7010

KEROSINE
Investigation of the soil of a vineyard flooded with kerosine. 3652

KERRIA
The presence waxes in two kinds of lac cells. 2006

KETONES
Isolation of new polyisoprenyl ketone from silkworm feces. 2659

KETOSIS
Cow diseases and type of housing. 1689
Sodium propionate. Drugs for veterinary use; drug efficacy study implementation. 4175
Contribution to the study of the treatment of bovine ketosis. 4200
The role of the hypophyseal-suprarenal system in the etiopathogenesis of primary ketosis in cattle. 6767
Nutritional management and bovine ketosis. 7899

KIDNEY BEANS
The influence of plant-growth factors on the initiation and growth of crown-gall tumours on primary pinto bean leaves. 527
Extraction, assay and partial purification of a factor from tumorous leaves that promotes crown-gall tumor growth. 1559
Increase of tobacco mosaic local lesion size and virus multiplication in hypersensitive hosts in the presence of actinomycin D. 1574
Changes in enzymatic activities in etiolated bean seedling leaves after a brief illumination. 1815
The influence of a small application of manure near the seeds on the plant's resistance to infection by nematodes. 2240
Plant injury by air pollutants: Influence of humidity on stomatal apertures and plant response to ozone. 4326
Occurence and host range of Ascochyta phaseolorum in Queensland. 5862
Anthracnose in beans:Determination and variations in the malonic acid content in the different parts of healthy and parasitized plants. 5886
Injured cells required for the initiation of plant virus infections. 5983
Navy bean pests. 6238
Arginine metabolism in germinating seeds of some members of the leguminosae. 7255
A note on cycocel (2-chloroethyl trimethyl ammonium chloride), a newly released plant growth regulant. 7263
Penetration of chlorinated phenoxyacetic and benzoic acids into leaves. 7289
Effect of CCC and glycine betaine on growth and growth-substance content of primary leaves of dwarf French bean (Phaseolus vulgaris L.). 7317
Some results about selection of Acanthoscelides obtectos with instantly egg-laying response on the delaying presentation of the Phaseolus vulgaris seeds. 7636

KIDNEYS
Attenuation of hog cholera virus in the carrier cell strains established from kidneys of pigs experimentally infected with the virulent virus. 375
Susceptibility of embryonic swine spleen and swine kidney cell lines to hog cholera virus. 385
Inhibitors of bacterial growth in horse kidney. Preliminary report. 1111
Fatty liver and kidney disease in broiler chickens receiving diets with varying contents of protein. 1654
Studies on cytopathogenic viruses isolated from cats with respiratory infections. I. 1677
Attenuated infectious canine hepatitis live virus vaccine and method of producing same. Patent 3,432,391. 2298
Toxoplasma gondii in tissue culture and maintenance at low temperatures. 2363
Protein-deficient diet and DDT toxicity. 2892
Etiology of kidney disease in dogs and cats. 2905

Shope fibroma virus growth curve in suspended tissue culture.
2932

Renal pathology of the fowl.
2968

Research note: Cultivation of avian encephalomyelitis virus in chicken embryo kidney cell culture.
3565

Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pommona.
3593

Pathologic characteristics of renal lesions induced by S(Dichlorovinyl)-L-cysteine in calves and rats.
3594

Giant kidney worm of dog in Teheran area (Dioctophyma renale of dog).
3614

Virulence, adsorbability, and antigenicity of foot-and-mouth disease virus selected by adsorption with homogenized mouse kidney.
4124

A case of bilateral polycystic kidneys in a cat.
4137

The cryptonephridism of the larvae of Planipennia and their variations in function with the ecology of the Insecta.
4494

Investigations on the viruses of the Orphan type occurring in pigs in Poland. VII. Influence of the Orphan virus L1 on the virus of hog cholera in swine kidney cell cultures.
6501

Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis.
6646

Propagation of swine-fever virus in cell culture.
6655

Long-term studies of renal function in canine leptospirosis.
6700

The isolation of Leptospira sejroe from the kidneys of aborting cattle.
6724

Egg transmission studies of Type II leukosis infection (Marek's disease).
6809

Cell culture techniques for primary isolation of Marek's disease-associated herpesvirus.
6872

Cortisone nephropathy in the rabbit. The effect of warfarin administration.
7195

The protonephridial system in the miracidium of the liver fluke, Fasciola hepatica L..
7951

KINASES

The induction of NAD kinase by DDT in Triatoma infestans.
5182

The determination of enterokinase activity in the duck intestine during experimental echinostomatosis.
6927

The investigations of main intestine enzymes--enterokinase and alkaline phosphatase in experimental pig trichocephaliasis.
6964

KINETICS

A serological inquiry about brucellosis in Toulouse veterinary students.
363

Adsorption of maleic acid on mercury-electrolyte interface and the problem of preceding surface recombination.
565

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells.
2327

Pseudo-allosteric behavior of firefly luciferase.
2567

A kinetic analysis of herbicide degradation in soil.
3030

KINETIN

Sclerospora graminicola axenic culture.
1591

Kinetin-like substances produced by plant tumors.
2125

Growth responses of Marquillo X Kenya Farmer wheat dwarf 1 and 2 to gibberellic acid, kinetin, and indolebutyric acid under controlled environmental conditions.
3714

Effects of kinetin and actinomycin D on the susceptibility of Nicotiana glutinosa L. to infection by tobacco mosaic virus.
6022

Cytochemical effects of indoleacetic acid and kinetin on megagametophytic development in Lilium.
7245

Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate.
7285

Distribution of labelled plant growth regulators within cells.
7321

KLEBSIELLA PNEUMONIAE

Pulmonary diseases of pig in Madagascar.
2335

Opsonins examination in the mouse after endotoxin-induced resistance to infection.
4833

KNEMIDOKOPTES

Lice and mites in poultry.
6890

KOHLRABI

Effect of foliar sprays of plant regulators (IAA and GA) on the growth and yield of Knol Khol (Brassica oleracea Linn. var. gongylodes).
4918

KROMBEINIA EVANSI

Three species of Mexican Krombeinia having an elongated tegula with an extended apical angle (Hymenoptera: Tiphiidae).
3793

KROMBEINIA NAYARITA

Three species of Mexican Krombeinia having an elongated tegula with an extended apical angle (Hymenoptera: Tiphiidae).
3793

KROMBEINIA VERACRUZAE

Three species of Mexican Krombeinia having an elongated tegula with an extended apical angle (Hymenoptera: Tiphiidae).
3793

LABELING

Beauty vs. utility in mounting small flies on paper points.
585

A rapid method of marking corn earworm moths with dyes for release studies.
803

What are pesticides .
1159

Paraquat poisoning, lung transplantation.
1803

Viruses, serums, toxins and analogous products: Organisms and vectors. Labels. Miscellaneous amendments.
1851

Bacteriophage labeling of Pseudomonas syringae.
2134

Economic poisons, Warning, caution, and antidote statements on labels.
3669

Labeling claims involving use of term germ proof and related terms in labeling of economic poisons. Proposed interpretation under Federal Insecticide, Fungicide, and Rodenticide Act.
3736

Regulations for the enforcement of the federal insecticide, fungicide, and rodenticide act. Pesticides containing phosphorus paste.
3737

Regulating the shipment of living pests, pathogens and vectors.
4345

Red rot in residual ponderosa pine stands on the Navajo Indian Reservation.
4663

Use insecticides safely.
4901

The story behind the label.
6419

Maintaining high-quality veterinary biologics.
6429

Antibiotics. Use in animals.
7177

Veterinary prescription drugs. Directions for use.
7182

How FDA keeps drugs safe, effective.
7209

Pesticide chemicals; a programmed text. TP248.P47C6.
7419

LABIDURA RIPARIA

Cytochemical studies on the neurosecretory cells of the brain of Labidura riparia Pallas (Dermaptera).
5611

LABIDURIDAE

A comparison of the development of metathoracis wing-pads in the apterous earwig, Euborellia annulipes (Lucas) and the winged Labidura riparia (Pallas) (Dermaptera, Labiduridae).
755

Genera and species of the Dermaptera. 6. Labidurinae, Apachyinae and Allostethinae (Labiduridae).
1314

LABOR PRODUCTIVITY

Weeds and their control.
4782

LABORATORIES

Diagnosis: A central pillar of insect pathology.
162

The establishment of a laboratory colony of the tomato hornworm Protoparce quinquemaculata Haw. (Lepidoptera: Sphingidae).
764

Age structure, population dynamics and vector potential of Phlebotomus in Northern California. I. Distinguishing parous from nulliparous flies.
765

Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae).
2573

Chemical control of the Gujhia weevil, Tanymecus indicus Faust. (Curculiondae: Coleoptera).
3082

Comparative susceptibility in the laboratory of larval instars of Trichoplusia ni and Pieris rapae to Bacillus thuringiensis var. thuringiensis.
3166

Relative efficacy of different insecticides, as contact poisons, to the adults of singhara beetle, Galerucella birmanica Jacoby, (Coleoptera: Chrysomellidae).
3301

Efficiency of various diagnostic tests for mastitis.
3556

Epizootiologic and laboratory researches on Aspergillus fumigatus in fowl, young cattle and sheep.
3580

Clinical effectiveness of sulfamonomethoxine and sulfadimethoxine in spontaneous coccidial infections in rabbits.
3633

Pesticide testing in dairy factory laboratories.
3656

Spore germination test and Vicia faba plant test for testing the effectiveness of fungicides against Botrytis cinerea.
3678

Laboratory methods for testing the effectiveness of fungicides against Botrytis cinerea.
3683

A laboratory sprayer-flamer.
3728

The hemlock sawfly in southeast Alaska.
5353

The possibility of estimating loose smut in a seed lot of barley with regard to the increase from one generation to the next.
5934

Laboratory tests of five new insecticides as protectants for stored rough rice. (abstract).
7031

LABORATORY ANIMALS

Evaluation of Brucella abortus strain 45/20 bacterins prepared with various adjuvants.
347

Comparative study of the pathogenic and immunogenic power of a new acapsulogenic strain of Bacillus anthracis (Ihtiman strain).
418

Acquired resistance to Babesia divergens in experimental calves.
1076

Experimental Fascioliasisi Some effects on Fasciola hepatica of treatment of rat hosts with bithionol (actamer).
1734

A boll weevil oviposition suppression factor in cotton.
2208

Nature of the water-soluble metabolites of carbaryl in bean plants and their fate in rats.
2267

Aflatoxin metabolism by liver microsomal preparations of two different species.
2332

The pathogenesis of experimental distemper in mice.
2350

Effects of DDT on brain electrical activity in awake, unrestrained rats.
2352

Toxoplasma gondii in tissue culture and maintenance at low temperatures.
2363

Immunological studies on experimental ascariasis.
2378

The effect of DDT in the diet on the resting and loading electrocorticogram record.
2430

Toxicity of fentin hydroxide to rats.
2431

Laboratory propagation of the parasite Chrysocharis laricinellae (Hymenoptera: Eulophidae) and notes on interaction with its host, Coleophora laricella.
2640

Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones.
2880

The onogenic action of bovine papilloma virus in hampsters.
2960

Electrocardiographic aspects of experimental methyl-parathion poisoning.
3041

Contribution to the question of the effect of radioactive iodine on thyroid function in goats.
3494

The occurrence of virus and interferon in the spleen serum and brain in mice after experimental infection with the West Nile virus.
3552

Experimental Trypanosoma cruzi infection in beagle puppies. The effect of variations in the dose and source of infecting trypanosomes and the route of inoculation on the course of the infection.
3566

Investigations of the properties of capsulogenus strains of Staphylococcus aureus.
3596

Tests on laboratory animals and on tubercular cows in order to determine the value of the morruato cupric colloidal (gadusan) in the intradermal reaction.
4115

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati.
4811

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs.
4841

Therapeutic effect of SDDS (2-sulfamoyl-4,4'-diaminodiphenyl sulfone) on experimental toxoplasmosis.
4843

A tidal rhythm in the susceptibility of Fundulus similis to sodium chloride and endrin.
4896

Chironomus strenzkein. sp. (Chironomidae, Dipt), a new laboratory animal.
5031

A technique for rearing trombiculid mites (Acarina) developed in a tropical laboratory.
5489

Maintaining high-quality veterinary biologics.
6429

Tumor localizing agents VI. Radioiodinated analogs of dichlorodiphenyldichloroethane (DDD).
6536

The effect of furan series' carboxylic acid N, N-bis-(2-chloroethyl) hydrazides and N, N-bis-(2-chlordethyl) amides on the growth of transplantable tumours and haematopoiesis of rats and mice.
6543

Distribution of experimentally induced scrapie lesions in the brain.
6580

Bovine herpes mammillitis virus. III. Observations on experimental infection.
6796

Studies on goat-pox virus. II. Serological reactions.
6806

Pathomorphological studies on rabbits and guinea-pigs experimentally infected with the virus of Aujeszky's disease.
6854

Infection of some species of Gamasidae with R. burneti in the natural Q-fever foci.
6910

Biological methods for determining the toxicity of grain in connection with its infestation with toxigenic microfungi.
7147

Synergistic toxicity and carcinogenicity of 'freons' and piperonyl butoxide.
7160

Degradation and activation of parathion analogs by microsomal enzymes.
7189

Applicability of mildew-infested wheat to feeding.- Short communication.
7214

LABORATORY EQUIPMENT

An automatic spraying apparatus for laboratory experiments.
3077

On the investigative methods of the sound characteristics of small cicadas (Homoptera-Cicadina).
4603

LABORATORY INSECTS

Co-resistance and resistance inheritance in a dieldrin resistant laboratory stock of the clothes moth (Tineola bisselliella (Hum.), Lep.).
5423

LABURNUM

A survey of leaf-miners and their parasites on Laburnum.
3797

LAC

Effect of superparasitism on the development, sex ratio and progeny of Bracon greeni Ashmead.
139

The presence waxes in two kinds of lac cells.
2006

LACCIFER LACCA

Ecology of Laccifer lacca Kerr (Homoptera, Coccoidea) under the conditions of the Black Sea coast of Georgia.
2594

LACTASE

Qualitative estimation of digestive enzymes in midgut of Gryllodes sigillatus Walker.
7705

LACTATE DEHYDROGENASE

Studies of serum enzymes in swine infected by two strains of hog cholera virus.
4804

Nicotinamide-adenine dinucleotide-linked form of lactic dehydrogenase of the symbionts and fat bodies of a cockroach.
5295

Evidence of lactate dehydrogenase in Anaplasma marginale.
6541

LACTATES

Intracellular localization and characteristics of lactate dehydrogenase activity of Salmonella typhosa (NCTC 8385).
4936

LACTATION

Nocardia asteroides, cause of an endemic mastitis in the cow.
2950

Kale anaemia in ruminants. 1. Survey of the literature and experimental induction of kale anaemia in lactating cows.
4152

Excretion of radioactive mestranol in the milk of animals.
6444

Incidence of udder infections arising at various stages of lactation of cows.
6734

LACTIC ACID

Effects of oxygen deprivation on aquatic midge larvae under natural and laboratory conditions.
745

Breeding of Empusa muscae and its use in fly control.
902

Biochemical correlates of respiratory and developmental changes in anoxic Tribolium confusum pupae.
5408

LACTOBACILLACEAE

Investigations concerning the microflora of isterband , a Swedish fermented type of sausage.
7062

LACTONES

On the antibiotically active substances of the tulip (Tulipa gesneriana).
543

LACTOSE

S.N.F. content of milk.
6446

Catabolite repression in Escherichia coli. A study of tow hypotheses.
6732

LAELIUS UTILIS

Laelius utilis Cockerell (Hymenoptera: Bethylidae) stinging a child at London, Ontario.
4651

LAEMOPHLOEUS

New possibilities of pest control in mills and flour storages by DDVP chemicals.
7035

LAGENERIA SICERARIA
Note on Sphenarches anisodactylus, Wkr. damaging bottle gourd (Lageneria lucantha, Rusby). 285

LAGRIIDAE
The structure of the defense glands in Alleculidae and Lagriidae (Coleoptera). 820

LAKES
New species of chironomids (Diptera, Chironomidae) from Yashil-kul and Bulun-Kul lakes (Pamirs). 4982
Resistance of Chaoborus Light. larvae to lack of food. 5607
The behaviour of Chaoborus Licht. larvae under unfavourable oxygen conditions. 5608
Water pollution and agriculture. 7075
Degradation of gamma-BHC in simulated lake impoundments as affected by aeration. 7362
Distribution of lake-dwelling Chironomidae (Diptera) in the Alpine Region. 7527
Influence of mutual relations of organisms, especially Chironomidae, in natural benthic communities, on their abundance. 7623
Feeding of benthic non-predatory Chironomidae in lakes. 7624

LAMBERTELLIN
Antibiotic lambertellin and method for production. Patent 3,438,998. 7375

LAMBS
Control of toxoplasmosis by 60Co gamma-irradiation of lamb meat. 3553
Nematodirus disease in lambs. 3628
Adipose tissue in calves and lambs. 4107
Brucella ovis infection. 2. The infection status in breeding flocks as measured by examination of rams and the perinatal lamb mortality. 6618
Remarks on the receptivity of new born lambs towards the foot-and-mouth disease virus. 6649
Effects of ration energy level, vaccination, and antibiotics on feedlot performance of range lambs. 6795
Role of calcium in the nutritional etiology of a metabolic disorder in ruminants fed a high grain ration. 6857
Influence of sulfur on incidence of white muscle disease in lambs. 6865

LAMPRONIA RUBIELLA
Raspberry moth. 4039

LAMPYRIDAE
Pseudo-allosteric behavior of firefly luciferase. 2567
Predatory activity of Luciola cruciata (Olivier, 1886) (Coleoptera: Lampyridae) larvae on newly hatched Biomphalaria glabrata. 4558
Mechanism of rhythmic synchronous flashing of fireflies. 5243
Pigment movement and the crystalline threads of the firefly eye. 5372
Effect of drugs on luminescence in larval fireflies. 7150

LAND
Synecological studies of soil macroentomofauna in two different agricultural biotopes. 5332
Faunal and zoocenological analysis of the soil insect communities in the ecosystem of shelterbelt and field. 5333

LAND IMPROVEMENT
Results of tests with Bacillus thuringiensis Berliner against gypsy moth larvae. 7587

LANGURIIDAE
The genus Crotchia Fowler (Col. Languriidae). III. Species with parallel-sided elytra. 3242

LANJAN VIRUS
Lanjan virus, a new agent isolated from Dermacentor auratus in Malaya. 437

LANTANA
Insects on trial in fight against lantana. 6276

LANTANA CAMARA
A symptomless carrier of sandal spike disease. 6027

LAODELPHAX STRIATELLUS
Collecting method and preliminary analysis of the soluble salivary secretions of the planthoppers. 5618
Dwarf, yellow dwarf, stripe, and black-streaked dwarf diseases of rice. 5968
Rice stripe disease in Korea. 5992
Electron microscopic studies of rice viruses. 6077
Ecology of insect vectors, forecasting, and chemical control. 6205

LARD
On the antioxidative mechanism of alpha-, beta-, gamma- and delta tocopherols in lard. 4865
Action of microorganisms on the peroxides and carbonyls of fresh lard. 7066

LARGUS CINCTUS
The relationship of some insects (Aphididae, Largidae, Pentatomidae, Coccinellidae and Malachiidae) to the pearlhairs or glanduliform emergences of Carica papaya L. 4736

LARIX
Remarks on some larch-feeding Tortricids (Lepidoptera, Tortricidae). 5179
The influence of light and temperature variations on the behavior and fecundity of the larch-bud moth Zeiraphera diniana (Gn.) (Lepidoptera: Tortricidae). 5467
Sarcotrochila alpina and Lophodermium laricinum causing larch needle blight in North America. 6141

LARIX LARICINA
Arceuthobium pusillum on eastern larch in Wisconsin. 2257
Laboratory propagation of the parasite Chrysocharis laricinellae (Hymenoptera: Eulophidae) and notes on interaction with its host, Coleophora laricella. 2640

LARIX OCCIDENTALIS
Spruce budworm larvae damage western larch cones and seeds. 1603
Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion. 4754

LARVAE
Resistance to cold in Ceratomia catalpae. 1
Cytology of milky disease bacteria. I. Morphogenesis of Bacillus popilliae in vivo. 64
The fate of immature housefly populations at low and high densities. 66
Environmental humidity and the susceptibility of larvae of Anagasta kuhniella Zell. to Bacillus thuringiensis Berliner. 91
The toxicity of insecticides to larvae of the codling moth, Cydia pomonella (L.). I. Intrinsic toxicity and toxicity and persistence. (Abstract). 95
Tests on standardization of Bacillus thuringiensis preparations. 100
Some remarks on the Hydrophilia disease of the larvae of Melolontha melolontha C.(Col. Scarabaeidae). 105
A method for counting bacterial cells in the midgut of the silkworm larvae, Bombyx mori L. 107
Larval movement of Lasioderma serricorne (F.) (Coleopterai Anobiidae) in a plane. 116
Complement to the study of the larval biology of Symmiticus costatus Loew (Diptera Nemestrinidae), a grasshopper parasite, and general considerations on the biology of Nemestrinidae. 118
Effects of temperature and photoperiod on larval development in Lestes eurinus (Odonata: Lestidae). 123
Can one reconcile the control of San Jose scale (Quadraspidiotus perniciosus Comst.) with the fight against the carpocapsa (Carpocapsa pomonella L.). 125
Laboratory tests of Bacillus thuringiensis Berliner preparations against larvae of Carpocapsa (Laspeyresia pomonella L.). 142
Pathologic complications during the larval development of Lymantria despar in the laboratory. 145
Computing a population budget from sequentially sacrificed, replicated cultures. 156
Bionomics and ecology of Ephedrus pulchellus Stelfox an important parasite of leaf-curling aphids in Czechoslovakia with notes on the diapause (Hym. Aphidiidae). 160
Responses of aphids to pressure applied to liquid diet behind parafilm membrane longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L9) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions. 172
Infectiousness of coccidians for insects. 174
Comparative susceptibility of lepidopterous larvae to Bacillus thuringiensis Berliner. 175
Timber. Tetrameles nudiflora R., resistant to teredid borers in Bombay harbour. 198
Biology of the spiny bollworm. 278
The larvae of some British Notiophilus species (Col., Carabidae). 612
Polish species of the family Triozidae (Homoptera, Psyllodea). 649
On the syrphid larvae attacking the aphids in Japan (Diptera). 677
The immature instars of the cleptoparasitic genus Dioxys (Hymenoptera: Megachilidae). 697

LARVAE

The larva of Homosusica eugrapha Janse (Lepidoptera: Limacodidae). 711

Larval stages of the leaf-miners found in Shikoku. (Coleopterous leaf-miners of Japan. VII). 728

Alophora obesa F. (Dipt., Tachinidae) bred from Neottiglossa pusilla Gmel. (Hem., Pentatomidae). 740

Larvae of injurious beetles (Coleoptera) in the soils of the Archeda Forest Farm, Volgograd Province. 742

The effect of ecological conditions on the appearance of an intestinal bacterial disease in Thaumetopoea pityocampa Schiff. 744

Effects of oxygen deprivationon aquatic midge larvaeunder natural and laboratory conditions. 745

A life history study of the ash seed weevils, Thysanocnemis bischoffi Blatchley and T. helvola Leconte. (Coleoptera; curculionidae). 748

The establishment of a laboratory colony of the tomato hornworm Protoparce quinquemaculata Haw. (Lepidoptera: Sphingidae). 764

Manifestations of viral infection in Agrotis segetum Schiff. and in Hadena sordida BKH under conditions of the simultaneous existence of two viruses. 771

The importance of the isotope dilution in the study of the renewal of phosphorus during-larval growth of Plodia interpunctella. 775

Preliminary attempts at control of the larva of common cockchafer Melolontha melolontha L. by means of mycosis of Beauveria tenella (Delacr.) Siemaszko. 786

The identification of Otiorrhynchus larvae from blackcurrant roots with description of the larvae of O. clavipes (Bonsd.) and O. singularis (L.) (Col., Curculionidae). 787

The structure of the damage done by Chilo suppressalis in the first outbreak area. I. Relation of boring stage to growth of larvae and amount of rice plants damaged. Transl. 16860. 791

Influence of the nature of rearing media on the sensitivity of the larval stage of Musca domestica Linnaeus to the thermostable toxin of Bacillus thuringiensis Berliner. 792

The genus Diarthrophallus Tragardh, 1946 (Acarina: Diarthrophallidae). 811

Compared activity of the different pathogens to the larvae of common cockchafer (Melolontha melolontha L.). 812

Observations on postembryonic development in Eutrombicula splendens (Acari-Acariformes). 817

The adaptive feeding habit of a pine caterpillar. 825

A description of two Magdalis larvae (Col. Curc.) and a comparison between these and the Scolytus larvae (Col. Scol.). 832

On the effect of lower temperatures on several sawfly larvae (Hymenoptera, Tenthredinidae). 834

An interesting brood of Eudia pavonia (Attacidae). 838

Food selection behaviour of the fully grown larva of the Indian Sann hemp moth, Utetheisa pulchella Linne (Lepidoptera) Arctiidae). 843

Oral and parenteral toxicity of Bacillus thuringiensis exotoxin , and its inactivation in larvae of Galleria mellonella. 880

New evidence that a number of leaf- and needle-eating insects depend on the sugar-content of their food. 881

A case of bacterial epizooty in a larval population of Selenephera lunigera Esp. (Lepidoptera, Lasiocampidae). 892

Virulence of an insect virus increased by repeated passages. 900

Acacia galling by a lycaenid (Lep.). 901

Chromosomal polymorphism in Drosophila tetrachaeta. 919

The influence of selection and mating systems on larval weight in Tribolium. 931

Cypress bark moth on Monterey cypress. 995

Infesting oranges with larvae of the false codling moth, Lepidoptera: Cryptophlebia leucotreta (Meyr.). 996

The biology of Rotylenchulus parvus. 1023

A study on the synthesis and absorption of cholesterol in hydatid cysts (Echinococcus granulosus). 1068

Tinea columbariella Wck. as a pest on imported duck feathers. 1124

Possibilities and limitations in the use of Barber traps on river shores. 1204

Taxonomic notes on the larvae of British Diptera. No. 27, A revised note on the subfamily Hemerodrominae (Empididae). 1224

Ecological points of view in faunistic work-shown on the example of the larvae of leaf wasps. 1348

The larva of Miscodera arctica Payk. (Col., Carabidae). 1354

A contribution to the study of the Mediterranean Rhizopulvinariae. (Hom. Coccidae). 1370

The energetics of the development of cabbage white Pieris brassicae L. (Lepidoptera). 1372

Ultrastructure of the sensory hairs of the antennae in the larvae of Speophyes lucidulus (Delar.) (Col. Bathysc.). 1375

Biochemical study of Plodia interpunctella (Hbn.) (Lepidoptera). I. Variations in body weight, dry weight and water content. 1376

Development of eggs of the tick, Ixodes ricinus L., depending on temperature and humidity and the thermopreferendum and daily activity of its larvae. 1379

Studies on the fauna of mayflies (Ephemeroptera) in the environs of Cracow. 1398

Effect of food and temperature on Aedes aegypti (L.) and Aedes triseriatus (Say) larval development. 1418

A preliminary note on the fauna of water-filled tree-holes. 1420

Larval dimorphism and other characters of Heterocampa pulverea (Grote Robinson) (Lepidoptera: Notodontidae). 1422

Boophilus kohlsi Hoogstraal and Kaiser 1960 (Acarina: Ixodidae). Life cycle and morphology of larva. 1424

On the knowledge of the morphology and biology of Trogoderma angustum Solier, 1849 (Coleoptera; Dermestidae). 1447

On the problem of the importance of the larval haemoglobin for the respiration of the tropical chironomid Chironomus strenzkei Fittkau (Diptera). 1451

Structure of the cryptonephridial malpighian region of the larval Hymenopteran Symphyta. 1460

Head nerves of the larva of Prodenia litura Fabr. (Lepidoptera, Noctuidae). 1479

A virus disease in Chironomus plumosus. 1481

A case of bacterial epizooty in a larval population of Selenephere lunigera Esp. (Lepidoptera, Lasiocampidae). 1485

Hormonal termination of larval diapause in Dermacentor albipictus. 1492

On some fibrin-like properties of the secretion products of the salivary gland of the Chironomus larva. 1493

The influence of selection and mating systems on larval weight in Tribolium. 1524

Tests of the susceptibility of Florida mosquitoes to insecticides, 1967. 1529

A bioassay method for measuring mosquito larvicide depositions. 1533

Movements of larvae of Acanthoscelides obtectus Say (Col., Bruchidae). I. The case of a single layer of grain. 1600

Light traps as detection devices for moths of cabbage looper and bollworm. 1602

Spruce budworm larvae damage western larch cones and seeds. 1603

Behavior of tobacco budworm larvae on flue-cured tobacco and possibilities of improving the effectiveness of insecticidal treatments applied mechanically for control. 1611

Desiccation survival in the plant parasitic nematodes, Heterodera rostochiensis Wollenweber and Ditylenchus dipsaci (Kuhn) Filipjev. 1623

Analysis of the occurrence of nematodes in alfalfa crops. III. Some observations on age structure. 1627

Occurrence of nymphs of the family Linguatulidae (Pentastomida) in African hoofed animals and their paraselism. 1719

Internal parasitism of dairy cattle. 1733

Tetramisole treatment for lungworm infection in pigs. 1736

In vitro development of invasive Nematode-larvae to parasitic stages. 1738

On the physiology of invasive larvae of Trichostongylidae. 1739

The routine differentiation of the ova and larvae of two parasites of swine, Hyostrongylus rubidus (Hassall et Stiles, 1892) and Oesophagostomum dentatum (Rud., 1803). 1742

New larvae of Trombiculidae (Acaridae), parasites on the mammals of rumania. 1878

The North American Aegeriidae (Lepidoptera): A revision based on late-in tar larvae.
1893

Variations of nucleic acid content in the salivary glands of Drosophila hydei during late larval development.
1949

Differential sensitivity of the larvae of Lymantria dispar L. to achromatic stimuli of varied distinctiveness.
1964

Aliphatic amines against insecticide-susceptible and resistant strains of Culex pipiens quinquefasciatus and Anopheles albimanus.
1968

Biological notes on Spilonota ocellana Denis and Schiffermuller (Lepidoptera Tortricidae) in the foothill region of Friuli and preliminary indications on the factors adverse to its development.
1970

Population assessment of cotton bollworm in relation to pest control practices.
1974

Developmental performance of embryonic blastemas of Drosophila after culture in the adult host.
1977

On the spiracles of the larvae of the suborder Myxophaga (Coleoptera).
1981

Aggregation of German cockroach (Blattella germanica) nymphs.
1988

Biology of the face fly: Migration of larvae.
1991

Studies on the metamorphosis of the alimentary canal of Hyalophora cecropia (L.).
1992

Effect of radiofrequency electric field treatment on protein metabolism in yellow mealworm larvae.
1993

Developmental changes in the late larva of Calliphora stygia. I. Haemolymph.
1998

Environmental factors regulating the diurnal vertical migration of Chaoborus larvae.
2000

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. I. Laboratory experiments.
2003

Transmission of a mosquito iridescent virus in Aedes taeniorhynchus. II. Experiments related to transmission in nature.
2004

On the food utilization and digestion of major food nutrients in the lepidoaterous larvae feeding on cauliflowers.
2009

The color change of Poccilimon ornatus Schmidt in the post-embryonic development. (Orthoptera-Tettigoniidae).
2017

Laboratory and field evaluation of larvicides against chironomid midges.
2018

Heat-extraction technique for recovery of potato tuberworm larvae from potato tubers.
2029

Effect of droplet size on persistence of ULV malathion and comparison of toxicity of ULV and EC malathion to tobacco budworm larvae.
2031

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh.
2037

Organogenesis of the female reproductive system of an aedine mosquito.
2038

The free amino acid pattern in tissues of silkworm during development.
2049

Measuring newly hatched phytophagous larvae in the field or greenhouse.
2058

An artificial diet for larvae and adults of Chrysopa carnea, an insect predator of crop pests.
2063

The use of imaginal disks for the determination of the developmental stage of larvae of Chironomus (Dipt.).
2071

Aspects of RNA and protein synthesis in imaginal discs of Drosophila melanogaster.
2078

Developing alfalfa resistant to alfalfa weevil oviposition.
2101

Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.).
2111

An oak leaf tier, Croesia semipurpurana (Kft.) (Lepidoptera: Tortricidae) in the region of Quebec.
2212

Consideration of the problems raised by the recent cecidomyiid attack on corn flowers.
2213

Rhyacia augur F. and other climbing cutworms (Lepidoptera).
2215

Feeding stimulants from plants for larvae of the tobacco budworm and bollworm.
2216

Effect of attack by Costelytra zealandica (White) larvae on ryegrass varieties.
2218

Distribution of hibernating larvae of the western budworm, Choristoneura occidentalis, on Douglas-fir in Colorado.
2226

Survival of soybean cyst nematodes in seed bags.
2243

Concerning the larva migrans visceralis of Ascaris lumbricoides in the experimental host (mice).
2360

The effect of tetramisole on Muellerius capillaris in goats.
2374

Immunological studies on experimental ascariasis.
2378

Numerical classification of the Canadian species of the genus Aedes (Diptera: Culicidae).
2530

The sensory physiology of the larva of the rhinoceros beetle Oryctes rhinoceros L.
2558

Study of some injuries induced by X-rays in the first stage larvae of Bombyx mori.
2559

Mitotic activity in in vitro culture, in the occuloantennal discs of Calliphora erythrocephalia Meig. larvae (Insecta, Diptera).
2560

On the determination of age structure of the larvae of Tendipedidae (Diptera).
2561

A method for comparing feeding rates in mosquito larvae.
2563

A comparative study of embryogenesis in the mosquito Culex fatigans Wiedemann (Diptera: Culicidae) and the sheep-fly Lucilia sericata Meigen (Diptera: Calliphoridae). I. Description of embryonic development.
2564

Structure, function and development of the rectal apparatus for forming excrements (Kotpresse) of Central European Clytrinae and Cryptocephalinae (Coleoptera, Chrysomelidae).
2571

Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae).
2573

Study of several physiological and biological characteristics in the third instar of Melolontha melolontha L. larvae which have been contaminated by two pathologic agents.
2584

Developmental changes in the late larva of Calliphora stygia. I. Haemolymph.
2597

Comparative morphology of the larvae of certain genera of fleas (Aphaniptera).
2598

A test of the immediate and residual efficacy of some phosphorous esters against the larvae of the olive fruit fly (Dacus oleae Gmelin).
2605

Larva, pupa and life history of three species of Ibidionini (Coleoptera, Cerambycinae).
2611

Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea.
2613

Laboratory propagation of the parasite Chrysocharis laricinellae (Hymenoptera: Eulophidae) and notes on interaction with its host, Coleophora laricella.
2640

Responses of aphids to pressure applied to liquid diet behind parafilm membrane. Longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L.) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions.
2665

Laboratory investigations on the effect of insecticides on the larvae and adults of Coccinella septempunctata L. (Col., Coccinellidae).
2668

On the resistibility of Drosophila to sodium chloride. II. Differences in the resistibility at different developmental stages.
2676

Inversional polymorphism in Boophtora erythrocephala (Simuliidae, Diptera).
2678

Psylla pruni Scop.-The plum psylla.
2801

Influence of feeding, oviposition, and egg and larval development of the boll weevil on abscission of cotton squares.
2803

A virus-like structure in the desert locust.
2808

Materials concerning the knowledge of Lepidoptera pests of orchards.
2818

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes.
2824

Cuterebrid infestation of Microtus in eastern North Dakota, Pennsylvania, and New York.
2991

The life history of Cooperia pectinata Ransom.
2997

The ultrastructure of the alimentary tract of the skin-penetrating larva of Nippostrongylus brasiliensis (Nematoda).
2998

New beetle finds in the forest of Allschwil.
3100

The larval characteristics of some subfamilies of British Staphylinidae (Coleoptera) with keys to the known genera.
3111

Comparative susceptibility in the laboratory of larval instars of Trichoplusia ni and Pieris rapae to Bacillus thuringiensis var. thuringiensis.
3166

Effects of gamma radiation on the tobacco budworm. I. Irradiation of pupae. II. Irradiation of moths. III. Irradiation of eggs and larvae.
3192

LARVAE

The proventriculus of some trichopterous larvae. 3206

Feeding larvae of the Japan beetle in the laboratory. 3209

A study of free amino acids in rice moth larvae during mycotoxicosis. 3215

The absorption and storage of insecticide by an in utero larva of the tsetse fly Glossina pallidipes Aust. 3222

Seasonal occurrence and physiology of Culex tarsalis in foothills of Fresno County, California. 3229

Production of fourth-instar pink bollworm larvae from sodium hypochlorite-treated and untreated eggs. 3237

A cytoplasmic polyhedrosis of Hemerocampa pseudotsugata. 3239

Influence of larval population density on the development of Ceratitis capitata Wied. II. 3241

Digestibility studies with cellulose-U-C14 on larvae of the pale western cutworm, Agrotis orthogonia. 3244

Studies on the phospholipase A in larvae of Culex pipiens fatigans. 3265

Resistance to American foulbrood in honey bees. X. Comparative mortality of queen, worker, and drone larvae. 3267

Sensitivity of Tortricidae larvae to the action of crystals associated with the thermostable toxin of Bacillus thuringiensis Berliner, serotype I. 3269

Resistance to American foulbrood in honey bees. IX. Effects of honey-bee larval food on the growth and viability of Bacillus larvae. 3270

The ecology of the immature stages of Aedes detritus (Diptera: Culicidae). 3278

Osmotic pressure of hemolymph of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae). 3293

Nutrition of the almond moth. I. Analysis and improvements of the experimental diet. 3302

Chronic melanization in the eggs of Aedes aegypti. 3304

Susceptibility of Mansonia mosquitoes to certain insecticides in Thailand. 3318

Susceptibility of larvae of Culex pipens fatigans to organophosphorous. 3319

Carp for chironomid midge control. 3339

The pine chrysomelid, Glyptoscelis pubescens, in northwestern Wisconsin. 3441

A mite to combat coconut caterpillar. 3442

Method for dispersing toxicants to kill disease-spreading water-spawned larva, trematodes, mollusks and similar organisms, and products used in such method. Patent 3,417,181. 3491

Transplantation of common cattle grub larvae into horses. 3608

Studies on Schistosoma nasale Rao, 1933. I. Morphology of the adults, egg and larval stages. 3620

The effect of household freezing on the infestiveness of Diphyllobotarium latum from fish to man. 3631

The larva of Carabus (Hygrocarabus Thoms.) variolosus variolosus Fabr. and its position in the larval system of genus Carabus L. (Coleoptera, carabidae). 3753

Larvae of injurious beetles (Coleoptera) in the soils of the Archeda Forest farm, Volgogard Province. 3795

A contribution to the bionomics and morphology of Rhadinoceraea reitteri Knw. with a description of the larva. (Hym., Tenthredinidae). 3801

Structure and development of the imaginal wing discs of larva in a holometabolous insect, Bombyx mori (Lepidoptera, Bombycidae). 3806

On the determination of age structure of the larvae of Tendipedidae (Diptera). 3813

Description of the larva of Parena (Parena) perforata (Bates), with some notes on its life history (Carabidae). 3825

Leaf beetle larvae of the subfamily Eumolpinae and of Syneta betulae F. (Coleoptera, Chrysomelidae). 3840

A description of the developmental stages of Ctenophora guttata Wied. and a review of the Czechoslovak species of the genus Ctenophora (Dipt., Tipulidae). 3847

Lysozyme in the humoral defense mechanism of specifically and non-specifically immunized insect larvae. 3856

Origin of oxalic acid in Ca oxalate crystals in the malpighian tubes of the tent caterpillar, Malacosoma neustria testacea. 3881

Larval feeding habits of certain Chloropidae (Diptera). 3885

Phagocytic haemocytes in unfixed Galleria mellonella larvae. 3890

Bloodworms--pests of rice. 4037

Brief communication on the occurance of thelaciaepathogens of an enzootic eye disease in cattle in the German Democratic Republic. 4273

Taxonomic notes on the larva of British Diptera. no. 25, The larva and pupa of Dioctria rufipes (Degeer) (Asilidae). 4363

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia. 4424

Abundance and microdistribution of larval Chironomidae in stabilization lagoons. 4432

Annotated list of forest insects of British Columbia. XIV. Ennominae (Geometridae). 4433

Nutrition of the silkworm, Bombyx mori. XVI. Quantitative requirements for essential amino acids. 4451

Evidence for important intercellular spaces in the hypodermis and paracrystalline formations in the exuvial liquid of the larvae of Galleria mellonella L. (Lepidoptera Pyralidae) during the formation of the cuticle. 4455

Aspects of virus multiplication and average reduplication time for a granulosis virus of Zeiraphera diniana (Guenee). 4456

Biology, ecology and distribution of Amara pseudocommunis Burak. (Coleoptera, Carabidae). 4467

The influence of weight of newly-hatched larvae on the determination of the phase characteristics of the migratory locust, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4471

The influence of the corpora cardiaca on the duration of the fourth and fifth instars of Locusta migratoria L.. 4473

Composition of the gut contents of third-instar tsetse larvae (Glossina morsitans Westwood). 4478

Electrophysiological evidence of the tactile function of the sensillary trichia on the antenna of the Speophyes lucidulus Delarouzee (cave Coleoptera) larva. 4479

A criterion of transformation for age-weight data on insect larval growth. 4481

The influence of the fungus Beauveria bassiana Vuill. on the fertility and the diapause of Leptinotarsa decemlineata Say. 4488

Action of ecdysone on the larvae of Drosophila melanogaster subjected to starvation. The existence of two pre-requisites for the formation of the puparium. 4491

A semi-synthetic diet for Eri-silkworm raising. 4492

The immobilization reflex associated with tactile stimulation of the pronotum of normal larvae of Blaberus craniifer (Burm.) and ones having received implantations of the corpora allata. 4495

Two strains of Bacillus thuringiensis Berliner isolated from larvae of disparate Bombyx Lymantria dispar. 4503

Effect of ionizing radiation on Dacus zonatus fruit fly eggs and larvae in situ. 4505

Experiments on the milky disease of the larva of Melolontha melolontha L. 4515

Nutrition of the silkworm, Bombyx mori. XVII. Effect of dietary levels of amino acids on growth of fifth-instar larvae and on cocoon quality. 4517

Contribution to the biological study of the Diptera Sarcophagidae, parasites of acridids. The biological cycle of Blaesoxipha rossica Vill., injection of larvae in the body of the host by the female Sarcophagidae. 4547

Predatory activity of Luciola cruciata (Olivier, 1886) (Coleoptera: Lampyridae) larvae on newly hatched Biomphalaria glabrata. 4558

A new culture method for Rhynchosciara. 4563

Prothetely in Carabidae of the genus Pterostichus. 4577

Recent data on the origin of larval polymorphism at hatching in the migratory grasshopper, Schistocerca gregaria Forskal. 4578

Study of the tegumentary glands and their secretory cycle in the larva of Tipula flavolineata Meig.. 4579

Study of the tracheal units and nodular tracheal cells in Tipula flavolineata Meig.. 4580

Diapause in Apanteles congregatus. 4586

Experiment on the influence of Bacilluscereus var. Galleriae and of lindane on Sitotroga cerealella Oliv. and on Trichogramma cacoeciae March. 4591

Biology of wasps of the tribe Cercerini, with a list of the Coleoptera used as prey. 4597

Study of the corpus allatum in living larvae of the blow fly Calliphora erythrocephala Mg. (Diptera, Calliphoridae). 4606

The influence of external factors on the anticipated elimination of the diapause of Psylla pyri (Homoptera: Psyllidae). 4608

The infection of immature aquatic insects by larval Paragordius (Nematomorpha). 4620

Results of field experiments carried out in 1954 and 1955 in switzerland concerning the microbial control of the larvae of Melolontha melolontha L. 4622

Extra replications in the DNA-PUFFS of Sciara coprophila. 4631

Transdetermination in cells. 4637

Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster. 4639

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

Results of a study on controlling Tipula olerecea L. showing a marked resistance to some chlororganic insecticides. 4750

Larval development of a nematode parasite of the dog circulatory system in dulcaquicoles mollusks. 4857

Nymphal stage of Linguatula serrata found in mesenteric lymph node of a bovine. 4861

Insect pathogens and microbial control of insects in stored products. I. Test with Bacillus thuringiensis Berliner against moths. 4864

Susceptibility of different stored-products moth larvae to Bacillus thuringiensis. 4867

Bibionid larvae in the stomach of a deer. 4978

Notes of larvae of aquatic Coleoptera in the Ethiopian region (Western and Equatorial Africa). 4999

Taxonomic notes on the larvae of British Diptera. No. 26. the presumes larva of Dioctria oelandica (Linnaeus) (Asilidae). 5005

Some observations on the chaetotaxy of the legs of larval Ixodidae (Acari: Metastigmata). 5025

The immature stages of Lype diversa (Banks) (Trichoptera, psychomyiidae). 5032

A key to all stages of the British species of the family Neobisiidae (Pseudoscorpiones: Diplosphyronida). 5037

Is one able to diagnose the sex of the moth, Celerio euphorbiae (Lep., Sphingidae) in the caterpillar stage . 5070

A larva of Citheronia sepulchralis (Citheroniidae) from New Jersey. 5073

Notes on some larval and pupal chironomids (Diptera) from Lake Kariba, Rhodesia. 5101

The validity of the separation of Thrips physapus L. and T. hukkineni Priesner (Thysanoptera: Thripidae). 5166

The infection of immature aquatic insects by larval Paragordius (Nematomorpha). 5167

Some properties of the microsomal system metabolizing DDT in Triatoma infestans. 5183

Ultrastructure of a cytoplasmic polyhedrosis virus affecting the monarch butterfly, Danaus plexippus. I. Development of virus and normal polyhedra in the larva. 5197

Bromolysergic acid diethylamide in physiological studies of lepidopterous larvae. 5199

Experiments on the etiology of European foul brood of the honeybee. 5204

Rearing of Ips cembrae larvae on artifical diets: Some essential amino acids and sugars. 5206

Structure and development of vesicles in larval tissue culture of Aedes aegypti (L.). 5227

Evaluation of some parameters of the individual energy budget of the larvae of Pteromalus puparum (L.) (Pteromalidae) and Pimpla instigator (Fabr.) (Ichneumonidae). 5264

The physiology of mosquitoes. 5266

The development of fat bodies in the larvae of Calliphora erythrocephala Meig,. 5277

Notes on larval host acceptance in a California population of Plebejus acmon (Lycaenidae). 5331

DDT resistance in Oncopera. 5355

Toxicological studies on cutworms. I. Laboratory studies on the toxicity of insecticides to the dark-sided cutworm. 5357

Mosquitoes feeding on insect larvae. 5359

Gas-liquid chromatography analysis of DDT metabolism in Aedes aegypti. 5370

Differences in light reactions of larvae of the armyworm Leucania separata Walker in relation to their phase status. 5388

Fluctuations in numbers and reduction of the Colorado beetle (Leptinotarsa decemlineata Say) in natural conditions. 5402

Incidence of Bacillus popilliae (Dutky) in Costelytra zealandica (White) larva. 5406

On ecology and phenology of Heptatoma pellucens F. (Tabanidae, Diptera). 5415

Effect of ligaturing on puparium formation in the larva of the tsetse fly, Glossina morsitans Westwood. 5432

The leatherjacket risk grows. 5447

Notes on Banchopsis ruficornis Cameron (Hym.: Ichneumonidae) an internal larval parasite of Heliothis armigera (Hubner) in India. 5457

Olfactory response of larvae of the onion maggot, thylemya antiqua Meigen (Diptera: Anthomyiidae) to organic sulfur compounds. 5458

The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae. 5468

Mosquito control agents derived from petroleum hydrocarbons. III. The effect of FLIT MLO on first and second larval instars. 5470

Utilization of larval cholestrol-4-C14 for reproduction in house flies fed unlabeled cholesterol in the adult diet. 5481

The larval and imaginal oenocytes of Callosobruchus maculatus (Fabricius) (Coleoptera: Bruchidae). 5512

New record of a braconid parasite, Apantales colemani Viereck., from the larvae of Euproctis lunata Walker. 5514

Diptera larvae in soil treated with organic and mineral fertilizers. (I). Family Asilidae-Diptera-Brachycera. 5541

Synoptic tables of larvae and imagos of the species of the family Chrysotribax Reitter. (Col. Carabidae). 5548

Some effects of Metarrhizium anisopliae and its toxins on mosquito larvae. 5564

Visual centers during postembryonic life of Callosobruchus maculatus (F.). 5588

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae). 5600

Resistance of Chaoborus Light. larvae to lack of food. 5607

The behaviour of Chaoborus Licht. larvae under unfavourable oxygen conditions. 5608

Cell cultures derived from larvae of Aedes albopictus (Skuse) and Aedes aegypti (L.). 5609

Functional response to host density in a parasitic wasp, with reference to population regulation. 5640

An infection of Streptococcus faecalis Andrewes et Horder in the pine looper moth, Bupalus piniarius L. (Lepidoptera, Geometridae). 5654

Sexual dimorphism of larvae and pupae of Aedes aegypti (Linn.). 5659

The growth and activity of the corpora allata in the larval firebrat, Thermobia domestica (Packard) (Thysanura, Lepismatidae). 5669

Determining suitable wintering and hatching regimes of the eggs of the silk worm (Bombyx mori L.). 5687

Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract). 5690

Insecticide resistance in the home of Culex pipiens fatigans Wiedemann. 5708

A technique for feeding larval trombiculid mites on laboratory mice. 5748

Tests of larvicides for control of salt-marsh sand flies (Culicoides), 1967. 5750

Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana. (abstracts). 6168

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia. 6174

Aphytis mytilaspidis (Le Baron), a parasite of Parlatoria blanchardi (Targ) in the palm plantations of the Adrar region of Mauritania. 6211

The codling moth and its control. 6224

Cuticle ultrastructure of the Meloidogyne hapla larva.
6292

Injury to Heterodera tabacum by high soil temperatures.
6299

Type C Botulism in a dove (Streptopelia roseogrisea bornuensis) from Ferlo (Senegal).
6557

Synthesis of radioactive Trichinella spiralis larval antigen in vitro.
6799

The development of the infective larva of the canine oesophageal tumour worm Spirocerca lupi in rabbits and its histopathology.
6926

Ancylostoma caninum: Food reserves and changes in composition with age in third stage larvae.
6928

The introduction of Nematodirus battus (Crofton and Thomas, 1951) into a new environment.
6951

Cytochrome c oxidase in migrating larvae of Ascaris lumbricoides var. suum.
7014

Survival of encysted larvae of Trichinella spiralis: Effect of exposure to 0 F, using precooled and fresh ground pork.
7039

Bioassay of captan by zebrafish larvae.
7082

Effect of drugs on luminescence in larval fireflies.
7150

Notes on Palearctic Dryopidae larvae: The genera Normandia Pic and Grouvellinus Champion (Col.).
7433

Some new Ephemeroptera of Madagascar. II.
7449

Positive phototaxis of Chironomidae larvulae as a factor regulating their distribution in stagnant bodies of water.
7497

Immature stages of Curculionidae. 1. Some genera in the tribe Araucariini (Cossoninae).
7506

A key to the orthopteran larvae of central Germany.
7518

Some notes on the food of the chironomid larvae of a shallow woodland lake in South Finland.
7570

Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during bloodsucking.
7573

Certain problems concerning the study of Chironomidae populations.
7576

Utilization of DDT resistance as a means of investigating the possible existence of host-specific strains of the bollworm, Heltiothis zea.
7578

Results of tests with Bacillus thuringiensis Berliner against gypsy moth larvae.
7587

Renewed information on Camptopoeum frontale (F.) in the Halle/Saale vicinity (Hym.: Apoidaea).
7602

Plastron respiration in the marine fly Canace.
7617

The effects of methylfarnesoatdihydrochloride on the colour change and moulting behaviour in the larvae of Cerura vinula L. (Lepidoptera).
7618

First experimental rearings of Hylobius abietis larvae on a synthetic medium.
7648

The influence of temperature upon the growth of Acrolepia assectella Zeller.
7658

Morphogenetic analysis of the effects of juvenile hormone analogues and other morphogenetically active substances on embryos of Schistocerca gregaria (Forskal).
7665

The origin of heterogeneity in newly-hatched populations of the migrating grasshopper, Schistocerca gregaria Forsk. (gregarious phase).
7670

Aspects of the morphogenesis, in organotypical culture in vitro, of the tracheal system in Diptera Calliphoridae.
7677

The stomodaeal nervous system of Cybister confusus Shp. (Dytiscidae: Coleoptera).
7684

The feeding habits of higher dipteran larvae.
7688

The evolution and significance of the epizoic mode of life in Chironomidae-larvae (Diptera).
7706

Morphological adaptations of the head and mandibles of some coleopterous larvae burrowing solid substrates (Coleoptera).
7707

Biology of the European chafer, Amphimallon majalis (Coleoptera: Scarabaeidae) in Northeastern United States.
7709

Contribution to the study of the larval tracheation of the Empididae (Diptera, Orthorraphidae): Its interest from the phylogenetic and ecological points of view.
7712

A comparison of the carbohydrate composition of the hemolymph and fat body of Phormia regina during larval development.
7718

Laboratory culture of chironomid species from the Hula Nature Preserve, Israel.
7720

Patterns of ribonucleic acid synthesis in salivary glands of Rhynchosciara angelae larvae during development.
7723

Mutant traits of the larval and pupal stadia of the wax moth.
7752

Abscission of cotton flower buds and petioles caused by protein from boll weevil larvae.
7831

Advances in cattle ectoparasite control with a discussion of some problems related to treatment with systemic insecticides.
7906

Living ceratopogonid larvae (Diptera) in the intestines of fish.
7926

Endocarditis in horses.
7937

LARVAL GROWTH

On the problem of genetic similarity between sibling species--puffing patterns in Drosophila melanogaster and Drosophila simulans.
3322

LARVICIDES

Low volume spraying by air to control mosquito larvae in California.
852

The United States and malaria: Debits and credits.
937

Methoxychlor as a blackfly larvicide, persistence of its residues in fish and its effect on stream arthropods.
1139

A bioassay method for measuring mosquito larvicide depositions.
1533

Initial and residual activity of Cidial (Phenthoate) against mosquitoes as compared with that of other well-known products.
1542

Laboratory and field evaluation of larvicides against chironomid midges.
2018

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh.
2037

A feasibility study on the utilization of monomolecular films for mosquito abatement.
2687

Materials evaluated as insecticides, repellents, and chemosterilants at Orlando and Gainsville, Fla., 1952-1964.
3147

Aircraft operations in the Colusa project.
4944

The control of the house fly in the city of Tunis.
5297

Laboratory tests of larvicides for mosquito control in potable waters. (abstract).
5389

Report of the Suffolk County Mosquito Control Commission.
5633

Tests of larvicides for control of salt-marsh sand flies (Culicoides), 1967.
5750

On the larvicidal action of crude cashewnut shell oil.
5757

Mosquito control and/or honey bees.
5769

Alfalfa insects in Ohio.
6158

Control of pasture Aedes mosquitoes by dripping larvicides into flowing water, with notes on residues in a pasture habitat.
5486

Entomological evaluation within the Colusa project.
763

LARYNGOTRACHEITIS

Diagnosis and prophylaxis of infectious laryngeal tracheitis of poultry in the USSR.
343

The organisation of the Australian poultry industry and its influence on disease.
1196

LASIOCAMPIDAE

Entomological tour of Spain.
653

A case of bacterial epizooty in a larval population of Selenephera lunigera Esp. (Lepidoptera, Lasiocampidae).
892

Description of a new genus of Lasiocampidae and of its holotype. (Lep. Lasioc. Gonometinae).
1207

A case of bacterial epizooty in a larval population of Selenephere lunigera Esp. (Lepidoptera, Lasiocampidae).
1485

Comparative chromatographic investigations of Arthropod cocoons.
1931

The isolation and biophysical characterization of an insect virus from Pachypasa capensis (Lepidoptera: Lasiocampidae).
2570

Origin of oxalic acid in Ca oxalate crystals in the malpighian tubes of the tent caterpillar, Malacosoma neustria testacea.
3881

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae).
5600

LASIODERMA SERRICORNE
Larval movement of Lasioderma serricorne (F.) (Coleopterai Anobiidae) in a plane. 116
Response of some stored-product insects to Trogoderma granarium pheromones. 4625

LASIODIAMESA
Descriptions of Lasiodiamesa bipectinata spec. nov. and Parochlus kiefferi (Garrett) Brundin (Diptera: Chironomidae). 7543

LASIOPOGON
Diptera larvae in soil treated with organic and mineral fertilizers. (I). Family Asilidae-Diptera-Brachycera. 5541

LASIUS FULIGINOSUS
On the components of secretion of mandibular glands of the ant (Lasius (Dendrolasius) fuliginosus). 3170

LASPEYRESIA
Remarks on some larch-feeding Tortricids (Lepidoptera, Tortricidae). 5179

LASPEYRESIA CARYANA
Attractant and feeding responses of hickory suckworm larvae to certain extracts of pecan shucks. 4514

LASPEYRESIA CUPRESSANA
Cypress bark moth on Monterey cypress. 995

LASPEYRESIA NIGRICANA
Results of investigations on the susceptibility of different varieties of Pisum sativum L. to attacks of Laspeyresis nigricana Steph. (Lep., Tortricidae). 2825

LASPEYRESIA TOREUTA
A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

LATE BLIGHT
Late blight disease on potatoes and its control. 959
Arsenal for disease control. 2115
Genetics of pathogenicity of Phytophthora infestans. 2737
Interpreting plant disease dispersal gradients. 2746
Late blight of potato. 2769
Potato blight control. 3386
Arsenal for disease control. 5864

LATE BLIGHT (POTATOES)
Phytophthora infestans sporangial germination and tuber rot reduced by soil residues of fungicides. 7773

LATENT VIRUS
A new virus of celery (Apium graveolens L.). 1575
The influence of latent apple viruses on the growth of various ornamental apples. 2703
Latent viruses in apple varieties and grafting stock. 2749

LATEX
Application of latex-agglutination to the measurement of antibody response to M. pneumoniae vaccines. 1078
Value and interpretation of serological tests for the diagnosis of cryptococcosis. 2926
Recent techniques for serodiagnosis of human and animal hydatidosis. IV. Test with sensitized particals of Latex. 6513

LATRODECTUS MACTANS
Spider venoms: biochemical aspects. 7655

LAUMONTITE
Retention and vooatilization of lindane and DDT in presence of organic colloids isolated from soils and leonardite. 7129

LAWNS
Weed control for the home garden. 306
Lawn weeds and their control. 1027
Lawn insects; how to control them. 5658
Lawn weed control with herbicides. 6310

LEAD ACETATE
Failure of oral Escherichia coli endotoxin to induce either specific tolerance or toxic symptoms in rats. 2280

LEAD ARSENATE
Countering the castor semi-looper. 6236

LEAF BLIGHT
Fairway disease control. 4674

LEAF BLOTCH
Rhynchosporium leaf blotch of barley. 2745

LEAF CURL
Disease control in nonbearing orchards. 4699
Epidemiology of cotton leafcurl virus in the Sudan. 5946
Peach leaf curl. 6006
Occurrence of Bemisia tabaci (Genn.) in the field and its relation to the leaf curl disease of tobacco. 7829

LEAF DROP (LETTUCE)
Control of lettuce leaf drop by soil drenching with fungicides. 253

LEAF FALL
Fungicides for arabica coffee. VIII--PRELIMINARY relationships among some new fungicides, leaf rust (Hemileia vastatrix) and leaf fall. 5964

LEAF MINERS
Larval stages of the leaf-miners found in Shikoku. (Coleopterous leaf-miners of Japan. VII). 728
Middle German leaf miner finds. Part 2. 1208
Care of tobacco seedlings. 3388
Letters on leaf miners. 3752

LEAF MOLD DISEASE
Tomato leaf mould: Its assessment and effects on yield. 6089

LEAF ROLL
The method of testing seed potatoes by mean of the callose (Igel-Lange) test. 292
Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants. 978
Membrane feeding and infectivity neutralization used in a serological comparison of potato leaf roll and beet western yellows viruses. 1601
Aphids and the increase of potato leaf roll virus in seed potatoes on the Wolds of the East Riding of Yorkshire. 1604
Interpreting plant disease dispersal gradients. 2746
Studies on the transmission of pea leaf roll virus by Myzus persicae (Sulz.). 6132
Effect of virus on the rice plant. 6137
Testing cherry rootstocks for resistance to infection by raspberry ringspot and cherry leaf roll viruses. 7774
Transmission of pea leaf rolling virus by aphids. 7788
Difference in the transmission of pea leaf rolling virus by two strains of pea aphid Acyrthosiphon pisum Harris. 7789

LEAF RUST
Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 2151
Occurence of a new physiologic race of coffee rust (Hemileia vastatrix). 2789
Progress report on screening coffee selections and collections with races of leaf rust fungus at Central Coffee Research Institute. 3415
Air-borne rust inoculum over western Canada in 1968. 3962
Fungicides for Arabica coffee 17--relationships among some new fungicides, leaf rust (Hemileia vastatrix), leaf fall and yield. 3967
Leaf rust of wheat in Canada in 1968. 3999
Field evaluation of some fungicides for control of leaf and stem rusts of wheat. 4006
1967 field trials on control of coffee berry disease in Kenya. I.-V. 4698
Fungicides for arabica coffee. VIII--PRELIMINARY relationships among some new fungicides, leaf rust (Hemileia vastatrix) and leaf fall. 5964
Virus diseases of rice in Thailand. 6125

LEAF RUST (WHEAT)
Physiologic races of Puccinia recondita f. sp. tritici in the United States from 1926 through 1960. 236

LEAF SPOT
Fruit symptoms in leaf spot of sweet cherries. 972
Virus leaf spot in grape plants. 986
A noninfectious lethal leaf spot in maize. 987
A new Cercospora leaf spot of cardamom. 1579
An investigation of certain factors in the host-pathogen relationship of Cercospora arachidicola on the peanut plant Arachis hypogaea var. Argentine. 2790
Fungus leaf spot in soybeans. 3353
A new leaf spot of para rubber (Hevea brasiliensis) in Nigeria. 3936
Fruit disease problems and new approaches to their controls. 3975
Fairway disease control. 4674

Disease control in nonbearing orchards.
4699

Fungus diseases of bermudagrass and overseeded coolseason grasses on golf greens.
4730

Diseases and pests of coconut in Kerala.
5814

Fungicides and turf disease control - 1964.
5883

Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. I. Production and translocation of a necrosisinducing toxin.
5890

Factors influencing disease development of putting green turf.
5956

A new leaf spot disease of Mussaenda frondosa Linn..
5989

The occurrence of Phyllosticta leaf spot of corn in Pennsylvania.
6068

Fungal root rots, leaf spots and boll rot of cotton in the Ord valley, north Western Australia.
7780

LEAFSPOT

Dogwood diseases.
5944

Leafspot of gardenia.
6126

LEAVES

The boron status of deciduous fruit as reflected by leaf and fruit composition.
221

Coralloid root systems in plants showing lime induced chlorosis.
234

Directional growth of the uredíospore germ tubes and stomatal penetration.
242

Bacterial stripe blight of oats caused by Pseudomonas striafaciens (Elliott) Starr et Burkholder.
260

Leaf deteriorations brought about by the cicadella Empoasca flavescens F. (Hom., Typhlocybidae) grown on apple trees.
268

External and internal symptomology on Vitis from plant sucking insects.
290

Chemical weed control.
301

Inhibition of photosynthetic electron transport by ioxynil.
521

Effect of boron toxicity on some leaf constituents in groundnut (Arachis hypogaea, Linn.) plants.
522

The influence of plant-growth factors on the initiation and growth of crown-gall tumours on primary pinto bean leaves.
527

Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth.
540

Effects of gibberellin on photosynthesis in red clover (Trifolium pratense L.).
542

Peroxidase isozymes in barley leaves from irradiated seeds.
554

New evidence that a number of leaf- and needle-eating insects depend on the sugar-content of their food.
881

Uptake of water by eggs of Cardiaspina densitexta (Homoptera: Psyllidae) from leaf of host plant.
907

Localization of tobacco mosaic virus protein in tobacco leaf cells during the early stages of infection.
1572

Junctions between epidermal cells as sites of appressorium formation by plant pathogenic fungi.
1578

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction.
1584

Sweetclover-weevil feeding deterrent B: Isolation and identification.
1598

Some histological effects of 2,4,5-trichlorophenoxyacetic acid appied to mature apricot leaves.
1810

DDT resistance in barley, Hordeum vulgare- I. Induced mutants for resistance.
2114

Contribution to the application method for fungicides to control potato blight.
2128

Differences in reaction to Puccinia striiformis between first and second leaves in wheat crosses.
2185

Leaf changes brought about by Empoasca flavescens F. (Hom. Typhlocybidae) on apple trees.
2203

Preference of green peach aphids for virus-infected sugarbeet leaves.
2224

A technique for evaluating varietal resistance of castor to castor jassid (Empoasca flavescens Fabricius).
2232

Necrosis in leaves induced by volatile materials produced in vitro by bacteria.
2725

Contribution to the knowledge of dominant biotypes of the Phytophthora infestans on the potato.
2779

Callusomorphic stage in development of galls caused by Ustilago maydis (DC) CDA. on corn leaves.
2787

The piscicidal constituents of Calophyllum inophyllum Linn.
3070

Proteinaceous and virus-like inclusions in cells infected with beet mosaic virus.
3377

Electron microscopy of pokeweed leaf cells infected with pokeweed mosaic virus.
3381

Study of a virus of alfalfa and the ultrastructure of the infected leaves.
3407

Light filtration by foliar canopies: Significance for light-controlled weed seed germination.
3486

Determination of Dimethoate residues in flue-cured tobacco.
3654

Grape leaf and begonia test for testing the effectiveness of fungicides against Botrytis cinerea.
3706

Leaf beetle larvae of the subfamily Eumolpinae and of Syncta betulae F. (Coleoptera, Chrysomelidae).
3840

Aglaonema pictum, a new host of Erwinia chrysanthemi.
3982

The resistance of Fx and IAN rubber clones to leaf diseases in Brazil.
4693

Studies on the application of electrophoresis to the isolation of RNA infective fractions from tobacco plants infected with the potato virus X. I. Characterisation of RNA preparations from tobacco leaves, analysed by means of electrophoresis in coloured agar gels.
4710

The effect of rootstocks on the transformation of some factors of the physiological immunity in leaves of mildew-susceptible grape varieties.
4717

Susceptibility of an alfalfa leafcutting bee to residues of insecticides on foliage.
5668

Progress through research- blue mould of tobacco.
5960

Studies on the antifeedant against the catterpillars of Pericallia ricini F. (Arctiidae) and Spodoptera littoralis Boesd. (Noctuidae: Lepidoptera) on castor (Ricinus communis L.).
6259

Host range studies of oat blue dwarf virus.
6274

The role of light, concentration, and species in foliar uptake of herbicides in woody plants.
6331

Translocation of labeled assimilates into and out of bean leaves as affected by 2,4-D and benzyl adenine.
7262

The distribution of trace elements in the leaves of the coconut palm, and the effect of trace element injections.
7297

Effect of CCC and glycine betaine on growth and growth-substance content of primary leaves of dwarf French bean (Phaseolus vulgaris L.).
7317

Effects of picloram and ethylene on leaf movement in huisache and mesquite seedlings.
7983

LEBISTES

The toxic effect of three organophosphate insecticides on female Lebistes reticulatus Peters.
7715

LECITHINS

Phospholipase A in the venom of the Australian bulldog ant Myrmecia pyriformis.
7180

LEDUM GLANDULOSUM

Interrelationships of Ledum species and their rust parasites in Western Canada and Alaska.
6067

LEDUM GROENLANDICUM

Interrelationships of Ledum species and their rust parasites in Western Canada and Alaska.
6067

LEDUM PALUSTRE DECUMBENS

Interrelationships of Ledum species and their rust parasites in Western Canada and Alaska.
6067

LEGHORN CHICKENS

The effect of manganese on young poultry growth.
3575

LEGISLATION

Official register of plant protection preparations-and equipment 1968.
189

Official register of plant protection preparations-and equipment 1967.
190

Interstate transportation of animals and poultry. Scabies in sheep. Interstate movement.
338

Two sides to the vaccine picture.
345

Notice of filing of petition for food additives decoquinate and procaine penicillin.
379

Pollution costs money.
465

Defense possibilities of society against pollution of food and environment.
466

Objectives and role of the water pollution control administration on water quality standards.
467

Pesticide residue levels in foods in the United States from July 1, 1963, to June 30 1967.
475

Establishment of tolerances for pesticide residues.
493

The situation regarding the use of aldrin and dieldrin in Europe.
504

Permissive chemical.
568

1966 plant inspection statistics.
944

Rabbit destruction present and future.
1061

Reflections on regulations-certain aspects in the official control of pesticides in various countries.
1200

Domestic quarantine notices. Soybean cyst nematode. Regulated areas.
1626

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Diethylstilbestrol.
1641

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Calcium periodate.
1776

Water pollution. 2nd edition.
1781

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Dimethoate.
1789

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethoate.
1790

Notice of amended filing of petition regarding pesticide chemicals.
1791

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-Chloro-1- (2,4,5-trichlorophenyl) vinyl dimethyl phosphate.
1792

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 3-(p-Bromophenyl)-1-methoxy-1-methylurea.
1793

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Atrazine.
1794

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Simazine.
1795

Viruses, serums, toxins and analogous products: Organisms and vectors. Labels. Miscellaneous amendments.
1851

The new seed legislation and its consequences for the planting of seed potatoes.
1852

The plant protection law as a responsibility for the control of plant pests and diseases.
1853

The new plant protection law.
1854

The plant protection law and its responsibility towards human health.
1855

The plant protection law as a responsibility for the protection of living communities.
1856

Progesterone-estradiol benzoate (hormonal implant). Drugs for veterinary use; drug efficacy study implementation.
2305

Testosterone proprionate-estradiol benzoate (hormonal implant). Drugs for veterinary use; drug efficacy study implementation.
2306

Hygromix (hygromycin B). Drugs for veterinary use; drug efficacy study implementation.
2364

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Miscellaneous amendments.
2389

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Endosulfan.
2408

Notice of filing of petition regarding pesticide chemicals.
2410

Notice of filing of petition regarding pesticide chemicals.
2411

Notice of filing of petition regarding pesticide chemicals.
2412

Notice of filing of petition regarding pesticide chemicals.
2413

Notice of filing of petition regarding pesticide chemicals.
2414

Research and testing of preparations on rodents in the habitat of man.
2442

Listing of color additives for food use exempt from certification; listing of color additives for drug use exempt from certification. Cochineal extract.
2463

The current importance of plant protection.
2696

Birds and plant protection-a reply.
2700

The status of preventive weed control.
3465

HCH and DDT is forbidden; substituting chlorinated hydrocarbons in the control of Colorado potato beetle.
3649

Some significant health aspects of insecticidal poisoning.
3674

The promulgation of a maximum tolerance level ordinance (plant protection).
3735

The importance of applied entomology for Austrian plant protection.
3926

New ways for organizing the cooperation between plant protection services and apiculturists.
3929

The first maximum dosage regulation for plant protection preparations in the Federal Republic of Germany.
4347

Pessimism over crop diseases.
4679

Domestic quarantine notices. Soybean cyst nematode. Quarantine and regulations.
4764

Our struggle against pests. II.
4872

A look at the plant pest control divison.
4887

Some observations concerning the maximum dosage ordinance.
4897

Our struggle against pests.
4960

Part II proposed for paraquat.
4962

The law and the use of pesticides.
4964

Michigan's priority war on mosquitoes.
5601

Those hungry gypsies (Photo story).
6189

Sanitary legislation in France concerning animal salmonellosis.
6417

National approach to control of animal disease in Australia. Editorial.
6468

Victoria's footrot control area.
6470

Control of hydatid disease at abattoirs and country slaughterhouses.
6497

The organization of the collective prophylaxis of infectious animal diseases in France.
6520

Environmental pollution: Scientists go to court.
7072

Pesticides and man's environment.
7073

DDT: Criticism, curbs are on the upswing.
7077

Contribution to the study of antibiotic substances in meats.
7141

The saftey evaluation of pet products.
7204

The organisation of the australian poultry industry and its influence on disease.
7405

Fish and Wildlife Act of 1956 as amended; an excerpt from title 16 of the United States Code.
7420

Pest control: Advise and consent.
7424

What you can do to keep cholera eradication moving.
7924

LEGS
Relationship of biotin to leg weakness in turkeys. (Abstract).
4161

Some observations on the chaetotaxy of the legs of larval Ixodidae (Acari: Metastigmata).
5025

Mechanism of the insect ear.
5373

LEGUMES
A field trial with phenoxybutyric herbicides on tropical forage legumes.
308

One previously described and one new species of South American Bruchidae injurious to commercial legume seed crops (Coleoptera).
1275

Localization of dehydrogenases in the nodular tissues of leguminous crops.
3060

Nutritional behavior of Trogoderma granarium Everts (Coleoptera: Dermestidae) on leguminous seeds.
5230

Fungistatic and fungicidal effects of certain organic products on some fungi causing diseases in vegetables.
5899

Diseases of pulses pose a challenge to plant pathologists, breeders.
6047

Fusariosis of the legume crops in Lithuania. 3. Main forms of lupine fusariosis and its distribution.
6065

A note on the non-transmission of Centrosema mosaic virus through seed.
6076

Natural infection of fenugreek by two legume viruses.
6086

Insect pests of pulse crops.
6157

Pests of legume seed crops in north Queensland.
6245

Control peanut insects and diseases.
6266

Application of herbicides in pulse crops. 6339

Weeds in barley and their control. 6381

Manganese toxicity of legumes seeded in Kentucky strip-mine spoils. 7145

LEGUMINOSAE

Host suitability of a number of plants for the nematode Tylenchorynchus dubius. 2251

Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host. 2261

Studies on host range of PVY - group viruses in leguminous plants in Japan, and the identification of them by the selected differential test plants. 5971

Arginine metabolism in germinating seeds of some members of the leguminosae. 7255

LEIODES

Liodes (Oreosphaerula) nitida sedlicaensis ssp. n. from Czechoslovakia (Coleoptera, Liodidae). 7469

LEIODIDAE

Liodes (Oreosphaerula) nitida sedlicaensis ssp. n. from Czechoslovakia (Coleoptera, Liodidae). 7469

LEIOPHRON PALLIPES

Life cycle and development of Leiophron pallipes Curtis (Hymenoptera: Braconidae, Euphorinae) in five mirid hosts in the Belleville district. 836

LEISHMANIASIS

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). 4. Investigation of alimentary preference of the females of P. townsendi in nature. 1162

Cytochemical studies on the leptomonad form of Leishmania donovani. 2928

Features of microclimatic regimen of habitats of sandflies in a village of Karshinsky Oasis. 5329

Aggressiveness of different species of sandflies towards man and their infection rate with L. tropica major at the moment of blood-sucking. 5694

LEMA MELANOPA

The control of some species of pest insects by Bacillus thuringiensis. 1953

LEMMAPHYLLUM MICROPHYLLUM

Structure of lemmasterone, a novel C29 insect-moulting substance from Lemmaphyllum microphyllum. 3071

LEMMASTERONE

Structure of lemmasterone, a novel C29 insect-moulting substance from Lemmaphyllum microphyllum. 3071

LEMNA MINOR

Mother-daughter frond interaction in the course of growth of duckweed (Lemna minor L.) colony. 3054

Influence of simazine on apparent photosynthesis of aquatic plants and herbicide residue removal from water. 7305

LEMONS

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Dimethoate. 1789

Notice of withdrawal of petition regarding pesticides. 2394

Lemon scab (Sphaceloma fawcettii scabiosa). 3394

Effects of chemical preservatives and storage on constituents used to characterize lemon juice. 4940

Contribution to the study of the population dynamics of the plant louse Toxoptera autantii (Boyer) on lemon trees (Citrus limon Burm). 5674

Lemon scab (Sphaceloma fawcettii scabiosa). 6029

Burrowing nematodes may survive on variants of milam lemon. 6290

LENACIL

Some considerations on chemical weed control in Italian beet fields and a survey of some experimental data collected in 1966. 2856

Study of the selectivity of herbicides for sugarbeets, using laboratory, greenhouse and physiological methods. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4785

LEPIDOPTERA

Contribution to the knowledge of the lepidoptera fauna of Iran. 8

Notes on the fauna of the Armoricaine Mountains. 21

Insect hunt by artificial light in the region of Charleroi in 1966. 29

Hunting at night at Losheimergraben. 37

A good region: Barvaux s/Ourthe. 38

New species for the Belgian fauna. 39

Iconography of the eggs of the Lepidoptera fauna of Belgium. 47

Forest insects. 57

Long or tactile setae and the microscopic or proprioceptor setae in an hypothetical segment of Lepidoptera. 81

Multiple parasitism in Diparopsis watersi Roths. (Lep. Agrotidae). 90

Butterflies, collecting and rearing. 93

Iconography of the eggs of the Lepidoptera fauna of Belgium. 147

Iconography of the eggs of the Lepidoptera fauna of Belgium. 148

Cultures of insect tissues with the aid of mammalian serum. 168

Comparative susceptibility of lepidopterous larvae to Bacillus thuringiensis Berliner. 175

A contribution to the study of the mode of action of Bacillus thuringiensis Berliner in regard to the flour moth Anagasta (Ephestia) kuehniella Zeller (Lepidoptera). 177

An outline of the biology of Hypsipyla robusta Moore, the shoot borer of the meliaceae (mahoganies) of Nigeria, together with brief comments of two stem borers and one other lepidopteran fruit borer also found in Nigerian Meliacaea. 286

Notes on the fauna of the Armorique mountains. 604

Noteworthy new finds of Lepidoptera fauna in Lower Austria, IV. 641

The butterfly fauna of Pian San Giacomo, Misox, Graubunden (A contribution to the Lepideptora fauna of Switzerland). 707

Selection of lectotypes for some species of Euxoa Hubner described by J. B. Smith (Lepidoptera: Noctuidae). 712

Raising caterpillars Why . 750

Host range of insect viruses. 794

Some interesting forms of Lepidoptera and souvenirs of the chase. 904

Apanteles pieridis (Bouche) (Hym., Braconidae), a parasite of Aporia crataegi (L.) (Lep. Pieridae). 910

A review of lepidopterous pests of coniferous forests in the Baykal region. 1011

Annotated listing of works on Lepidoptera. 1221

New species of the genus Tachina Mg. (Diptera, Tachnidae) parasites of injurious Lepidoptera in the USSR. 1347

The Lepiodoptera distribution maps scheme. 1406

The nocturnal insect catches at predetermined time interval in the organic soil district of Ste. Clotilde, southwestern Quebec. 1427

Comparative physiology of the flight motor. 1454

The nervous control of insect flight and related behavior. 1491

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LII. Lepidoptera Pieridae. 1869

The North American Aegeriidae (Lepidoptera): A revision based on late-in tar larvae. 1893

Iconography of the eggs of the Lepidoptera fauna of Belgium. 1907

The distribution of radioactive strontium, cesium and iodine in the bodies of some insects. 1937

The control of some species of pest insects by Bacillus thuringiensis. 1953

The possibility of the occurrence of warm- and cold season relicts on the Zitzmannsdorf meadow at the Neusiedler lake. 1995

Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration. 2060

Cossidae, Metarbelidae, Psychidae, Limacodidae, Drepanidae, Uraniidae, Lasiocampidae, Eupterotidae, Bombycidae, Saturniidae and Sphingidae. 2487

Preliminary reports on the Lepidoptera of Mount Terminillo. 2537

Rearing three species of fruitsucking moths on artificial diets. 2548

Materials concerning the knowledge of Lepidoptera pests of orchards. 2818

Bozberg-report 1964. The occurrence of moths on the Bozberg in 1964. 3087

The bionomics and control of Argyrostagma niobe (Weym.) and Dasychira georgiana Fawc. (Lep., Lymantriidae) on black wattle in Kenya. 3172

Concerning Bacillus thuringiensis and its applications.
3231

Insect parasites of the winter moth, Operophtera brumata (L.) (Lepidoptera: Geometridae) in western Europe.
3316

Phenetics of natural populations. IV. The population asymmetry parameter in the butterfly Coenonympha tullia.
3336

Control of Ephestia clutella (Hb.)(Lepidoptera, Phycitidae) using dichlorvos in oil.
3438

A mite to combat coconut caterpillar.
3442

Papilionoidea and Hesperioidea (Lepidoptera) of the virgin forest of Bialowieski.
3758

South American Cochylidae (Lepidoptera) from the collection of the British Museum (Natural History).
3764

Supplementary communication concerning the occurrence of Caradrina kadenii Frr. (Lep.Noct.) in Switzerland.
3771

A survey of leaf-miners and their parasites on Laburnum.
3797

Bembecia pectinata Stgr. and its first stages. (Lepidoptera, Sesiidae).
3873

Observations on the preservation of Lepidoptera specimens.
4349

Lepidoptera of the Nevada Test Site.
4356

Panthea coenobita Esp. in the French Jura. (Lepidoptera Noctuidae Pantheinae).
4377

Lepidoptera of southern Spain.
4389

Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt.
4413

Iconography of the eggs of the Lepidoptera fauna of Belgium.
4429

Enumeration of the Microlepidoptera encountered in the region of Warsage.
4439

Ultrastructural peculiarities of the myofibrils in the flight muscles of Lepidoptera.
4452

Bionomics of tur plume moth (Marasmarcha liophanes, Meyrick) on pigeon pea (Cajanns cajan, Milisp).
4477

Remarks concerning the terminology of the genitalia armor in the genus Argynnis (S.L.). (Lepidoptera, Nymphalidae).
4573

Practical application of Bacillus thuringiensis.
4612

Sex chromatin in Lepidoptera.
4649

A summary of forest and shade tree insect-disease conditions for Maine 1967.
4979

Lepidoptera of the Nevada Test Site.
4987

The phenetic relationships of the butterflies. I. Adult taxonomy and the nonspecificity hypothesis.
5026

Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVIII. Lepidoptera: Nymphalidae, Danaidae and Riodinidae.
5034

The butterfly in the vernacular.
5079

The genera of Palearctic Tortricidae. II. The subfamily Olethreutinae 7th part. Eucosmini (Heinr. 1923) tribe--continuation.
5115

Entomological results of catches in the area of San Bernardino (Misox Gr), which has not been fully explored lepidoterologically. (A building block of the Swiss Lepidoptera fauna).
5147

A widely distributed pine sap injurious, Acanthophila piceana n. sp. (Lep. Gelechiidae) in Latvia.
5150

Bromolysergic acid diethylamide in physiological studies of lepidopterous larvae.
5199

Contribution to the studies of the activity spectra of the strains of Bacillus thuringiensis Berliner.
5244

The flight times of some nocturnal moths.
5365

Male genitalia of the species of Depressaria Haworth s. l. (Lepidoptera, Oecophoridae) occurring in the Netherlands (Addenda).
5427

In vivo and in vitro cytological diagnosis of densonucleosis in Lepidoptera.
5469

Conditions determining the initiation and development of nuclear polyhedrosis epizootics in Lepidoptera.
5506

The evolution and biological significance of multiple pairing in Lepidoptera.
5519

Determining suitable wintering and hatching regimes of the eggs of the silk worm (Bombyx mori L.).
5687

How do native insect parasites behave in relation to imported insect hosts, alien to the native fauna .
5695

Records of eye-frequenting Lepidoptera from man.
5749

Italian beet culture. The protection against insect pests.
6233

Virus diseases as limiting factors of some lepidopterous defoliators on poplar trees in Vojvodina.
6249

Contribution to the knowledge of Microlepidoptera on oaks in Israel.
6258

Review of work on major insect pests of rice in Malaysia. Part I. Malayan region.
6281

Toxicity of DDT and related compounds to certain lepidopteran cotton insects.
7215

New or remarkable lepidopteran forms from the Greater Baucasus.
7427

On the systematic position of some genera of the Heliodinidae/Schreckensteiniidae as well as a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera).
7466

Suggestions concerning the terminology of the genital sheath of the Lepidoptera.
7515

Predatory behavior of Argiope argentata (Fabricius).
7689

LEPIDOSAPHES BECKII
Imported and indigenous natural enemies of citrus coccids and aphids in Cyprus, and an assessment of their potential value in integrated control programmes.
4763

LEPIDOSAPHES ULMI
Twig and branch mortality of American beech infested with oystershell scale.
6172

LEPISMA SACCHARINA
Silverfish: A taste for paper.
1779

Cockroaches and silverfish.
3150

Thermobia domestica (Packard 1873).
5673

LEPISMATIDAE
The structure of the alimentary canal and salivary glands in Acrotelsa collaris (Thysanura: Lepismatidae).
2619

LEPTINOTARSA
The control of some species of pest insects by Bacillus thuringiensis.
1953

LEPTINOTARSA DECEMLINEATA
Observations and studies on extomophagous fungi in Hungary.
165

Activities of the working groups. Working group population dynamics of the Colorado beetle.
734

Observations on the rearing of Perillus bioculatus (Fabr.) (Heteropt. Pentatomidae), a predator of the Colorado beetle, imported from North America.
789

Colorado beetle.
848

On the specificity of Metarrhizium anisopliae (Metsch.) Sorokin (Fungi imperfecti) as a function of its insect origin.
1561

Meigenia mutabilis Fall. (Dipt. Tachinidae) as a parasite of Oulema melanopa L. and its relation to Leptinotarsa decemlineata Say.
2544

Preliminary results of the use of two experimental insecticides against soil insects and Leptinotarsa decemlineata.
2635

HCH and DDT is forbidden; substituting chlorinated hydrocarbons in the control of Colorado potato beetle.
3649

Mitotic activity of the first embryonic stages in the potato beetle Leptinotarsa decemlineata Say (Coleoptera, Chrysomelidae).
4457

The influence of the fungus Beauveria bassiana Vuill. on the fertility and the diapause of Leptinotarsa decemlineata Say.
4488

The use of a Heteroptera, Pentatomidae perillus bioculatus (Fabr.) in the fight against the potato beetle Leptinotarsa decemlineata (Say): First results obtained in France.
4544

Two major effects of the corpus allatum in the adult Colorado beetle (Leptinotarsa decemlineata Say).
5281

Fluctuations in numbers and reduction of the Colorado beetle (Leptinotarsa decemlineata Say) in natural conditions.
5402

Limitation of the Colorado beetle by nematodes and prospects for their practical utilization.
5580

Egg reduction of the Colorado beetle (Leptinotarsa decemlineata Say) as a hunger-dependent reaction.
5650

The secretory activity of corpora allata during sexual maturation and imaginal diapause in Gryllus domesticus L. and Leptinotarsa decemlineata Say.
7574

LEPTOCENTRUS
A new Leptocentrus (Homoptera: Membracidae) from the Congo.
5009

LEPTOCENTRUS RUFOTIBIALIS
A new Leptocentrus (Homoptera: Membracidae) from the Congo. 3090

LEPTOCERA
On the subgenus Opacifrons Duda of the genus Leptocera Olivier (Diptera, Sphaeroceridae) with a description of a new species from northern Fennoscandia. 1879

LEPTOCONOPS
Some species of Leptoconops of the Oriental and Pacific Regions (Diptera, Ceratopogonidae). 767

LEPTOCONOPS IRRITANS
Leptoconops irritans Noe' in the province of Grosseto: Control problems. 5226

LEPTOCONOPS KERTESZI
Attack activity of two species of gnats in southern California. 4490
Leptoconops irritans Noe' in the province of Grosseto: Control problems. 5226

LEPTOGASTER
Diptera larvae in soil treated with organic and mineral fertilizers. (1). Family Asilidae-Diptera-Brachycera. 5541

LEPTOGLOSSUS OCCIDENTALIS
The occurrence of Theognis occidentalis in the Midwestern United States (Heteroptera: Coreidae). 4592

LEPTOPHLEBIIDAE
The infection of immature aquatic insects by larval Paragordius (Nematomorpha). 5167

LEPTOPSYLLIDAE
Notes and descriptions of some Leptopsyllid fleas (Siphonaptera). 898

LEPTOSPHAERIA
Studies of Leptosphaeria avenaria f. sp. triticea on wheat in North Dakota. 3970
Blackleg of cabbage, cauliflower and related plants. (Leptosphaeria maculans). 7767

LEPTOSPIRA
Serological classification of Soviet strains of Leptospira belonging to the group Hebdomadis. 1060
Antibody titer against leptospira in liver- and other internal diseases. 3559
Purification, ultrastructure, and composition of axial filaments from Leptospira. 4188
Intermediate energy metabolism of Leptospira. 4796
Terminal electron transport in Leptospira. 4797
Canine leptospirosis in Argentina. 6507
Gel filtration of leptospiral lipase on Sephadex G 200. 7872

LEPTOSPIRA BALLUM
Ovine leptospirosis. A study of its frequency in Argentina. Isolation and classification of a new ovine strain. 3524

LEPTOSPIRA CANICOLA
Endotoxin properties of Leptospira canicola. 359
Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690
The canine leptospiroses. 6848

LEPTOSPIRA HARDJO
Serological survey on the incidence of bovine leptospirosis in the province of Belluno. 6464

LEPTOSPIRA ICTEROHAEMORRHAGIAE
Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690
Leptospirosis icterohaemorrhagiae in dogs in Tasmania. 6531
Long-term studies of renal function in canine leptospirosis. 6700
The canine leptospiroses. 6848

LEPTOSPIRA POMONA
The susceptibility of mice to Leptospira pomona. 1108
Bovine Leptospira pomona infection: The disease in cattle infected during an experimental outbreak. 3537
Bovine Leptospira pomona infection: The disease in inoculated cattle. 3538
Leptospirosis. 3547
Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pommona. 3593
Serological survey on the incidence of bovine leptospirosis in the province of Belluno. 6464
Serological examination for evidence of brucellosis and leptospirosis in beef herds in New South Wales. 6633

LEPTOSPIRA SEJROE
The isolation of Leptospira sejroe from the kidneys of aborting cattle. 6724

LEPTOSPIRES
Haemorrhagic nephritis in experimental bovine leptospirosis bratislava. 2901
Enzootic abortion and sterility from bovine leptospirosis in the Po valley. 6488

LEPTOSPIROSIS
Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690
Leptospiric abortion pathogenia in sows. 2295
Haemorrhagic nephritis in experimental bovine leptospirosis bratislava. 2901
Equine leptospirosis. 2962
Ovine leptospirosis. A study of its frequency in Argentina. Isolation and classification of a new ovine strain. 3524
Leptospirosis. 3547
Leptospirosis as a factor of abortion and sterility in female domesticated animals. 3550
Antibody titer against leptospira in liver- and other internal diseases. 3559
Leptospirosis in Argentina. 3581
Vaccination against leptospirosis: Protection of hamsters and swine against renal leptospirosis by killed but intact gamma-irradiated or dihydrostreptomycin-exposed Leptospira pommona. 3593
Leptospirosis II. 3599
Leptospirosis in Argentina. Diffusion, morbidity and nosological map. 4127
Experiences about the tolerance and use of Stagloban in the dog. 4836
The natural occurrence of canine L. icterohaemorrhage infection. A survey during ten years (October 1957-September 1967). 6463
Serological survey on the incidence of bovine leptospirosis in the province of Belluno. 6464
Enzootic abortion and sterility from bovine leptospirosis in the Po valley. 6488
Leptospira icterohaemorrhagie natural infection in the dog. I. Determination of activities of serum enzymes. 6504
Canine leptospirosis in Argentina. 6507
Experimental leptospirosis. III. Leptospirosis in dogs. Experimental reproduction of the sickness. 6508
Leptospirosis icterohaemorrhagiae in dogs in Tasmania. 6531
Serological examination for evidence of brucellosis and leptospirosis in beef herds in New South Wales. 6633
Zoonoses in india. 6667
Animal leptospirosis in Primorye. 6671
The canine leptospiroses. 6848
Studies on the intraocular inoculation of dogs with various strains of leptospires. 6863
Long complement fixation test for leptospirosis diagnosis. 6881

LEPTOTROMBIDIUM
New larvae of Trombiculidae (Acaridae), parasites on the mammals of rumania. 1878
Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692
The establishment ofa lectotype for Leptotrombidium (Leptotrombidium) akamushi (Brumpt, 1910) (Acarina: Trombiculidae). 5163

LESIONS
The nephrosis-nephritis syndrome in chickens caused by a Holte strain of infectious bronchitis virus. 1077
Effect of infection by Hypomyces solani f. sp. Cucurbitae on apparent free space, cell membrane permeability, and respiration of squash hypocotyls. 1565
Internal parasitism of dairy cattle. 1733
Gene dosage effects on monogenic chlorotic lesion resistance to northern corn leaf blight. 2158
The gross and microscopic changes in sublethal staphylococcal alpha-toxin pancreatitis in dogs. 2276
Researches concerning the toxoplasmosis identification and the toxoplasmic abortion in the ovic cattle of Banat. 2294
The pathogenesis of ovine Contagious Ecthyma. 2307
Embryologic development of an anomaly of ocular fundus in the Collie dog. 2312

A nephrotoxin from Aspergillus fumigatus and its possible relationship with New Zealand mucosal disease-like syndrome in cattle. 2346

Pathogenic Escherichia coli strains prevalent in poultry flocks in Israel. 2914

Occurence of spontaneous atherosclerosis in the aortas of swine. 3564

Pathologic characteristics of renal lesions induced by S(Dichlorovinyl)-L-cysteine in calves and rats. 3594

The pathology of avian osteodystrophy. (Abstract). 4136

Studies on acute Marek's disease. 9. Resistance to MD by inoculation with the GA isolate. 4147

Pathogenesis of infectious synovitis in gnotobiotic chickens. (Abstract). 4165

Effect of mixed spore inocula of Botrytis ssp. on lesion development in the leaves of bean (Vicia faba L.). 4718

Observations and ethological considerations on lesions caused by faults in the construction of stalls in some cattle herds. 6450

The management of cases of suspected poisoning. 7173

LESTES EURINUS
Effects of temperature and photoperiod on larval development in Lestes eurinus (Odonata: Lestidae). 123

LETHAL DOSE
Sub-zero mortality responses of Tribolium confusum Duval (two stocks) and T. castaneum (Herbst) (four stocks) analyzed by weighted regression lines based on individual temperature LD50 s. 2626

LETHAL FACTOR
Safe use of pesticides. 506

A refined test for X-ray induced dominant lethals in Drosophila. 932

Temperature-sensitive mutations in Drosophila melanogaster, I. Relative frequencies among gamma-ray and chemically induced sex-linked recessive lethals and semilethals. 1521

5-aminoacridine induced crossing over in the Drosophila male. 2082

Lethal limits of low temperature for the alfalfa weevil in Illinois. 3155

The variation from year to year of the concentration and allelism of lethal mutations in neighbouring natural populations of Drosophila melanogaster. 5707

Linkage of gold, its recessive lethality and sex-related variation in crossing-over in Culex pipiens (Diptera: Culicidae). 5722

Temperature-sensitive mutations in Drosophila melanogaster, III. Dominant lethals and semilethals on chromosome 2. 5740

Response of pines irradiated with lethal and sublethal doses of gamma-radiation. 5829

LETHAL YELLOWING
Selecting and breeding coconut palms (Cocos nucifera L.) resistant to lethal yellowing disease. A review of recent work in Jamaica. 6130

LETHOCERUS
Description and distribution of the neurosecretory cells in brain and ventral ganglia of Lethocerus indicum Lep. et Serv. (Heteroptera-Belostomatidae). 1928

Studies on the morphology of Lethocerus indicum Lep. and Serv. (Hemiptera--Heteroptera--Cryptocerata-Belostomatidae). Part V. The morphology of the stomodeal nervous system with special reference to the histology of the corpora cardiaca and allata. 1929

LETHOCERUS INDICUM
Morphology, musculature and inervation of the reproduction organs of Lethocerus indicum (Hemiptera: Belostomatidae). 753

LETHOCERUS MAXIMUS
The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles. 5456

LETTUCE
Control of lettuce leaf drop by soil drenching with fungicides. 253

The interaction of coumarin and temperature in the germination of lettuce seed. 1163

Epidemiology of cucumber mosaic and other virus diseases of lettuce in Arizona. 2159

Virus diseases of lettuce. 2724

The distribution, excretion, and metabolites of maleic hydrazide in rats and a method for the detection of metaldehyde in plants. 3026

Inactivation of lettuce necrotic yellows virus by chelating agents. 3355

Botrytis disease of lettuce. 3391

Structure of lettuce necrotic yellows virus. II. Electron microscopic studies on the effect of pH of phosphotungstic acid stain on the morphology of the virus. 3424

Responses of lettuce (Lactuca sativa L.) to plant growth regulator sprays. 3708

Longidorus africanus a pathogen of head lettuce in the Imperial Valley of southern California. 4054

Experiences with residue research in lettuce. 4291

Sex lure hoax may prove male beet wireworm's undoing. 4765

LEUCAENA
Pheromones from the abdominal brushes of male noctuid Lepidoptera. 3154

LEUCAENA GLAUCA
Enlarged thyroid glands in calves born to heifers fed a sole diet of Leucaena leucocephala. 1072

LEUCANIA SEPARATA
Differences in light reactions of larvae of the armyworm Leucania separata Walker in relation to their phase status. 5388

LEUCINE
Growth depressing effect of excess leucine in relation to the amino acid composition of the diet. (Abstract). 4187

Regulation of branched-chain amino acid biosynthesis in Salmonella typhimurium: Isolation of regulatory mutants. 4801

LEUCINODES ORBONALIS
Don't take lightly these brinjal borers. 4759

LEUCOCIDIN
Immunofluorescent demonstration of staphylococal leucocidin components F and S. 1070

LEUCOCYTOZOON CAULLERYI
A study on toxicity of pyrimethamine for chicks. 1775

LEUCOCYTOZOON DISEASE
Blood parasites found in imported birds at postmortem examination. 6987

LEUCOMA SALICIS
On the mechanism involved in perception of light stimuli during the photoperiodic reaction in Lepidoptera caterpillars. (TT 61-23975). 1967

LEUCOPHAEA MADERAE
Feeding and crop emptying in the cockroach Leucophaea maderae. 782

An autoradiographic technique for insect cell monolayers in Rose multipurpose tissue culture chambers. 1384

The fine structure of the cuticle. A contribution to the question of the protection against its own poison of the Madeira roach. 1971

Demonstration of the synthesis of a yolk protein under the influence of the corpora allata in Leucophaea maderae. 2046

Sources of alcohol dehydrogenase (NAD0-LINKED) in the cockroach, Leucophaea maderae. 3187

Tyrosinase activity of the symbionts and fat bodies of the cockroach, Leucophaea maderae. 3208

Sex differences in longevity of starved cockroaches (Leucophaea maderae). 3290

Electron microscopic and biochemical characterization of collagen in blattarian insects. 5356

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro. 7611

LEUCOPIS
Biological control of introduced forest insect pests. 1544

LEUCOPTERA COFFEELLA
Mating and oviposition behavior of the coffee leaf miner, Leucoptera coffeella (Lepidoptera: Lyonetiidae). 3888

LEUCOPTERIN
Pterins of Pieridae II. 1414

LEUCOSTOMATINA
Contributions to the study of Phasiinae cimicophages (Diptera Tachinidae). 35. Taxonomic and biological studies of Clairvillia biguttata and the related European Leucostomatina. 618

LEUKEMIA
Leucosis in swine as a finding from carcass inspection. 2281

Biochemistry of friend virus-infected cells. I. Virionspecific RNA. 2292

Studies on the tumours of the domestic animals. I. Lymphatic leucaemia of the swine. 2308

Shared group-specific antigen of murine and feline leukemia viruses. 2909

Bovine leukemia: A clinical, epidemiological and experimental study. 2931

C -type viral particles in plasma of cats with feline leukemia. 4164

Bovine leukaemia. A report of four cases. 6698

LEUKOCYTES

Control by ovarian status of induced leukocytic responses in the sheep uterus. 346

The leucocyte counts of cattle aborting due to Brucella abortus infection compared to leucocyte counts of noninfected cattle calving normally. 2891

Sideroleucocytes as a diagnostic aid in equine infectious anaemia. 4815

Correlation of four mastitis detection tests with respect to the leucocyte count. 6647

Central-nervous-system lesions of spontaneous Pasteurella anatipestifer infection in ducklings. 6654

Diagnosis of cow mastitis based on leukocyte count in milk. 6668

Cytolytic plasma factor in experimental coccidioidomycosis. 6688

LEUKOSIS

Problems of cattle leucosis: Production loss - Influence of heredity and environment on propagation control. 1069

Studies on the etiology of bovine leucosis - 4. Genetic studies. 1116

Research on the relationship between the tumor causing virus of the quail and the rous sarcoma virus. 2334

Avian leucoses: 1966-1967. 3523

Investigations on the occurrence of bovine leukosis in the county of Oldenburg, including the city of Delmenhorst and the metropolitan area of Oldenburg. 4254

Specific activation of the properdin system in orientation experiments for a therapeutic control of bovine leukosis. 6727

Viral etiology of the bovine lympholeukosis. 6729

LIBELLULA

Annulate lamellae and yolk nuclei in oocytes of the dragonfly, Libellula pulchella. 7626

LIFE CYCLE

Rearing Mantispa viridis Walker in the laboratory (Neuroptera, Mantispidae). 777

Life history, habitat, and taxonomic characters of the larva of Mochlonyx fuliginosus. 829

Notes on the biology of Artytaina spartiophila Forster and A. genistae Latreille (Homoptera: Psyllidae) on Broom (Sarothamnus scoparius (L.) Wimmer) in Britain. 1018

The Mantodea of Lamto and the savannahs in the Ivory Coast. 1254

Laboratory colonization of Trichoprosopon digitatum (Rondani) (Diptera: Culicidae). 1350

The larva of Miscodera arctica Payk. (Col., Carabidae). 1354

Electron microscope studies on the life cycle of Trypanosoma cruzi. With special consideration on the developmental forms in the vector, Rhodnius prolixus. 1365

The life history and development of Lypha dubia Fall. (Dipt., Tachinidae). 1371

The life-cycle of the spider Phidippus loccineus (Salticidae) under laboratory conditions. 1393

A preliminary note on the fauna of water-filled tree-holes. 1420

Boophilus kohlsi Hoogstraal and Kaiser 1960 (Acarina: Ixodidae). Life cycle and morphology of larva. 1424

Life history and life table of Phytoseiulus persimilis Athias-Heriot. 1428

Bombus jonellus (Kirby) (Hym., Apidae) has two generations in a season. 1435

Development of Aegyptianella pullorum Carpano. 1928, in the soft tick Argas (Persicargas) persicus (Oken, 1818) and transmission. 1717

Geographical distribution, vectors, and life cycle of Dirofilaria immitis. 1767

Silverfish: A taste for paper. 1779

The life history of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae). 1994

The biology and description of a new species of African Thyreus, with life history notes on two species of Anthophora (Hymenoptera: Anthophoridae). 2525

Comperiella bifasciata How. (Hymenoptera, Encyrtidae), a parasite of the spruce scale in Adzharia. 2538

Overwintering habits of Orthopodomyia californica Bohart (Diptera: Culicidae). 2540

Nosema disease of honey bees. 2543

A population study of Phaulacridium vittatum Sjost. (Acrididae). 2553

The biology of some species of Alaptus (Mymaridae) parasitising eggs of Psocoptera. 2625

The spined citrus bug--Biprorulus bibax Bredd. (Hemiptera: Pentatomidae). 2804

Malaria in mammals excluding man. 2908

The life history of Cooperia pectinata Ransom. 2997

Stomach worm disease in young cattle. 2999

Bioecology and chemical control of the apple codling moth (Carpocapsa pomonella) L. in Mendoza. 3436

A mite to combat coconut caterpillar. 3442

Glasshouse symphylids. 3443

Potato tuber eelworm. 3459

Studies on growth curve, viraemia and the localization of African horse sickness virus type IX in adult mice. 3540

Nematodirus disease in lambs. 3628

Significance of the parasite Aphidius ervi Haliday (Braconidae, Hymenoptera in controlling the density of population of Acyrthosiphon pisum Harris. 3839

A contribution to the study of the pemphigose of poplars and its pathogen Pamphigus spirothecae. 4035

The egg-laying cycle in the Machiloidea (Insecta Thysanura). 4459

The biology and control of Archips occidentalis (Wals.) and Tortrix dinota Meyr. (Lepidoptera: Tortricidae) on coffee in Kenya. 4744

Obligatory and additional hosts of helminths. 4859

Study of the cycle of Geckobia latastei and Geckobia loricata, Acarine parasites of the Gecko Tarentola mauritanica. 5044

Studies of house flies. I. Breeding of Musca sorbens, Wied.. 5282

Notes on the Swedish species of the genus Centromerus F. Dahl. (Araneae, Linyphiidae). A faunistic report with ecological remarks. 5422

Life cycles of benthic insects in Lapland streams (Ephemeroptera, Plecoptera, Trichoptera, Diptera Simuliidae). 5653

Moniliasis of plum-trees. Biology and methods of control. 6054

Houseflies, blowflies and cluster flies. 6901

Pelecitus ceylonensis n. sp. from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 6938

LIGHT

Effects of temperature and photoperiod on larval development in Lestes eurinus (Odonata: Lestidae). 123

How to produce high yields. 194

Studies on free colonies of Cryptocerus texanus Santschi (Hymenoptera: Formicidae). 776

On the light stimulus, transmitted by tegumentary nerves, controlling the neurosecretory cells in the Dictyoptera Blaberidae and Blattidae. 1368

Induced shift of the diurnal emergence and calling of the peach tree borer. 1412

Circadian systems, I. The driving oscillation and its assay in Drosophila pseudoobscura. 1450

Light-dark adaptation in acone apposition eyes of insects. 1954

Differential sensitivity of the larvae of Lymantria dispar L. to achromatic stimuli of varied distinctiveness. 1964

On the mechanism involved in perception of light stimuli during the photoperiodic reaction in Lepidoptera caterpillars. (TT 61-23975). 1967

Environmental factors regulating the diurnal vertical migration of Chaoborus larvae. 2000

Alfalfa mosaic virus-induced lesions on bean: Effect of light and temperature. 2133

A mass screening procedure for isolating alfalfa seedlings with resistance to the alfalfa weevil. 2204

Effect of temperature, light, and date of collection on the feeding rate of the sweetclover weevil. 2209

Investigation of the effect of governing chemical compounds in trees on bark beetle orientation. 2593

When algae are a nuisance. 2853

Response of overwintered boll weevils to reflected light, odor, and electromagnetic radiation. 3288

Light and electron microscopy of cytoplasmic and unusual nuclear inclusion bodies evoked by a virus from necrotic peas. 3360

How herbicides work. 3464

Light filtration by foliar canopies: Significance for light-controlled weed seed germination. 3486

The influence of darkness on the uptake and movement of diquat and paraquat in tomatoes, sugar beet and potatoes. 3680

Dissipation and phytotoxicity of dicamba. 3687

Modification of 2,4-dichlorophenoxyacetic acid movement in bean petioles by light. 3689

Germicidal composition. Patent 3,440,319. 3727

Insect metabolism of photoaldrin and photodieldrin. 3837

Electrifying agriculture and horticulture. 3921

The cumulative effects of long photoperiods and the determination of the phase characteristics of the migratory grasshopper, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4472

Study of the phototrophism of the Noctuidae (Lepidoptera). Research on the variation of behavior following the frequency of intermittent monochromatic illumination. 4487

Unstable multilunar modifying genes in the silkworm, Bombyx mori. III. 4646

The effect of 3-amino-1,2,4-triazole on the ultrastructure of plastids of Triticum vulgare seedlings. 4685

The influence of illumination on the development of tumors caused by Agrobacterium tumefaciens (Smith and Town) Conn. on pea seedlings, Pisum sativum L.. 4707

Trials with carbon dioxide, light and growth substances on forest tree plants. 4909

Polarized light observations on striated muscle contraction in a mite. 5198

Change in the photic reaction due to DDT in the grain weevil, Sitophilus granarius (L.)(Coleoptera: Curculionidae). 5209

Differences in light reactions of larvae of the armyworm Leucania separata Walker in relation to their phase status. 5388

The influence of light and temperature variations on the behavior and fecundity of the larch-bud moth Zeiraphera diniana (Gn.) (Lepidoptera: Tortricidae). 5467

The optics of insect compound eyes. 5473

The effect of reduction in stream flow on invertebrate drift. 5475

On the photopositive responses of some insects towards monochromatic lights. 5691

Effect of climatic factors on the susceptibility of insects to insecticdes. 6251

The role of light, concentration, and species in foliar uptake of herbicides in woody plants. 6331

Stimulatory effects of gibberelins on the growth of Chlorella pyrenoidosa (Chick). 7224

Effect of light and gibberellic acid on the growth of pea internodes. 7277

Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate. 7285

Photodecomposition of the acaricide N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. 7354

On the absence of circadian rhythmicity in Drosophila pseudoobscura pupae. 7722

The protonephridial system in the miracidium of the liver fluke, Fasciola hepatica L.. 7951

LIGHT TRAPS

Insect hunt by artificial light in the region of Charleroi in 1966. 29

The effect of bioclimate on the communication system of night-flying moths. 170

An automatic device for dividing and packaging light trap insect catches according to time intervals. 628

Analysis of comparative effects of selected CO2 flow rates on mosquitoes using CDC light traps. 1530

Light traps as detection devices for moths of cabbage looper and bollworm. 1602

Some interesting Noctuidae finds from the Tessin. 1908

The relative abundance of species in a wild population of Macro-Lepidoptera. 1985

Field and laboratory studies of attraction of the synthetic sex pheromone to male cabbage looper moths. 1986

Hourly and seasonal collections of six harmful insects in traps equipped with blacklight lamps. 2056

Influence of distance on attraction of tobacco hornworm and corn earworm moths to radiations of a blacklight lamp. 2057

Mosquito studies in northern Wisconsin. II. Light trapping studies. 2654

Response of adult southern potato wireworms to light traps. 3184

Bioecology and chemical control of the apple codling moth (Carpocapsa pomonella) L. in Mendoza. 3436

The use of attractants in pest control. 2. Sex attractants. 3848

Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413

Insect and mite control on ornamentals. 5471

Home garden insect control. 5472

Pesticide residues - USDA'S position. 7139

Supplement to Florida insects taken in light traps. 7464

LIGHTING

Changes in enzymatic activities in etiolated bean seedling leaves after a brief illumination. 1815

Inositol metabolism in plants. VI. Conversion of myo-inositol to phytic acid in Wolffiella floridana. 1822

Comparative behavior of the oospores and oogonia of Phytophthora citricola during germination on an artificial medium. 5798

Oviposition in DDT resistant and susceptible strains of Aedes aegypti (L.) in relation to light preference. 7719

LIGNIN

Effects of potassium, magnesium, and nitrogen deficiencies on the concentration of chlorogenic acid and scopolin in tobacco. 2116

LILIUM CANDIDUM

Cytochemical effects of indoleacetic acid and kinetin on megagametophytic development in Lilium. 7245

LILIUM LONGIFLORUM

Storage effects on forcing response and gibberellin levels in easter lilies. 3053

LIMA BEANS

The rapid development and spread of strain B downy mildew of lima beans. 2198

Effect of temperature on resistance in lima bean, tomato, and chrysanthemum to Liriomyza munda. 3453

LIMACODIDAE

The larva of Homosusica eugrapha Janse (Lepidoptera: Limacodidae). 711

LIME

Coralloid root systems in plants showing lime induced chlorosis. 234

Manganese toxicity in tomato seedlings. 518

New disease in European plums. 6129

Intensive field comparison of fungicides for apple mildew control. 7769

LIME-SULFUR

Powdery mildew of apple (Podosphaera leucotricha). 3396

LIMESTONE

Wheat as a stock fodder. 1056

Interaction of soil reaction and method of seed inoculation on alfalfa. 5781

Plant analyses uncover hidden hunger in Indiana. 7784

LIMING

Molybdenum in soils and its availability to plants. 1164

Comparison of sulphur dioxide and formaldehyde as bacteriostats in diffusion. Part II. 4913

LIMNEPHILIDAE

Use of freshwater sponge in case construction of Limnephilus species (Trichoptera: Limnephilidae). 3810

On emergence times within the genus Polamorphylax Wallengren (Trichoptera, Linnephilidae). 5645

The chromosomes of the caddis-fly, Glyphotaelius pellucidus (Retzius, 1783) (Trichoptera: Limnephilidae, Limnephilinae). 5714

The Trichoptera of the Lule Lappmark (Sweden), III. On the differentiation of Potamophylax cingulatus (Stephens 1837) and P. latipennis (Curtis 1834) (Lemnephilidae). 7554

LIMNOLOGY
First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) II. Plankton in general and phytoplankton. 204
First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) IV. Beothos. 335
First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) III. Zooplankton. 336
First report of the regular limnological survey of Lake Biwa (Oct. 1965-Dec. 1966) V. Abiotic environment. 559
Ecological and systematic investigations of the Chironomidae (Diptera) of Lake Constance. A contribution to the lake chironomide fauna of the northern foothills of the Alps. 3766

LIMNORIA
Estimation of marine-borer attack on wooden surfaces. 7046

LIMONIIDAE
Sampling to detect economic infestations of Limonius spp. 2022
Several discoveries of Tipulidae and Limoniidae (Dipt.) from Corsica. 4386
Results of the Albanian 1961 Expedition of the German Entomological Institute. 63. Contribution. Diptera: Limoniidae. 7502

LIMONIUS CALIFORNICUS
Sex lure hoax may prove male beet wireworm's undoing. 4765
Sex attractant identified in click beetles of the sugar-beet wireworm. 5442

LINARIA DALMATICA
Control of Dalmatian toadflax. 320

LINARIA VULGARIS
Now can you spot those weeds. 4059

LINDANE
Lindane: Metabolism to a new isomer of pentachlorocyclohexene. 249
The use of gas chromatography in detecting lindane in sewage effluent. 483
Persistence of chlorinated hydrocarbon insecticide residues in chicken tissues and eggs. (abstract). 494
On the behavior of pesticide residues during the preparation and processing of foods. 1st. Communication. The behavior of radioactive labelled lindane during the baking process. 1150
Contribution to the study of the mode of action of certain synthetic insecticides, most particularly of Lindane, and of the phenomena of resistance to these compounds in Musca domestica L. 1457
A field evaluation of abate briquettes in woodland pools. 1528
Importance of pesticides in preventive medicine. 1532
Fumigation for lice control in pig breeding stock. 1722
Pesticides: Present levels in food and possible sources of contamination. 1796
Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037
Insecticidal drug containing lindane. Drugs for veterinary use; drug efficacy study implementation announcement. 2355
Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice. 2445
Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692
The brown-banded cockroach in Hamburg. 3308
Glasshouse symphylids. 3443
Insect pests in food stores. 3642
Pesticide testing in dairy factory laboratories. 3656
The toxic action of a mixture of gamma-BHC and EDB to Cryphalus fulvus Niijima. Studies on the control of forest pests. V. 3857
Diseases and parasites of the rose. 3956
Raspberry moth. 4039
Some remarks on plant protection preparation-tolerances. 4292
Experiment on the influence ofBacilluscereus var.Galleriae and of lindane on Sitotroga cerealella Oliv. and on Trichogramma cacoeciae March. 4591
Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion. 4754
Don't take lightly these brinjal borers. 4759
Problems in monitoring DDT and its metabolites in the environment. 4889
Pesticide residues in cultivated mushrooms. 4891
Field test of lindane against overwintering broods of the western pine beetle. 5094
Ants in the home and garden; how to control them. 5184
Temperature effects on the toxicity of five insecticides against five species of stored-product insects. 5384
Insects and related pests of house plants; how to control them. 5395
Chlorinated hydrocarbon insecticide inhibition of cockroach and honey bee ATPases. 5414
Lindane: Metabolism to a new isomer of pentachlorocyclohexene. (abstract). 5551
Lindane: Metabolism to a new isomer of pentachlorocyclohexene. 5552
Lace bugs. 5661
Field studies on the chemical control of the stem borer Chilo partellus on hybrid sorghuminIndia. 6143
Porina and grassgrubs put curbs on production. 6187
Indications on plant care for olive crop cultivation. 6192
Termites need no longer threaten groundnut in Nimar. 6202
Maryland arborists discuss insect control. 6221
Delhi farmers need not be afraid of mustard aphid. 6239
Bark beetles. 6273
Getting rid of camel mange. 6897
Evaluation of acaricidal dips for control of Psoroptes ovis on sheep. 6900
Houseflies, blowflies and cluster flies. 6901
More about the pesticide residue problem. 7090
Determination of residual bHC and lindane quantities in the soil and plants and investigations on their toxicity. 7091
Some observations on the effects of using organochlorine sprays in an orchard. 7098
Effect of direct steam heating and vacuum treatment on levels of pesticide residues in milk. 7119
Retention and vooatilization of lindane and DDT in presence of organic colloids isolated from soils and leonardite. 7129
Degradation of gamma-BHC in simulated lake impoundments as affected by aeration. 7362
Microscopic identification of some chlorinated hydrocarbon insecticides on different substrata. 7381
Residues in milk of cows fed rations containing low concentrations of five chlorinated hydrocarbon pesticides. 7860
Collection and analysis of synthetic organic pesticides from surface and ground water. 7957
Insecticide residues in milk and dairy products. 7964
Pesticide residues. 7973
Quantitative determination of pesticide residues by electron absorption chromatography: characteristics of the detector. 8001
Gas chromatography using an electron absorption detector. 8005
Selective detection and identification of pesticide residues. 8006
Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 8012

LINE PATTERN
Line pattern disease of raspberry. 2118

LINGUATULA SERRATA
Nymphal stage of Linguatula serrata found in mesenteric lymph node of a bovine. 4861

LINOGNATHUS DIGITALIS
Linognathus digitalis n. sp. (Anoplura: Linognathidae) from the Springbuck (Antidorcas marsupialis (Zimmermann)). 2497

LINOGNATHUS VITULI
Cattle lice; how to control them. 6889

LINOLEIC ACID
Reproductive abnormalities in hens deficient in linoleic acid. (Abstract). 4123
The linoleic acid requirement of the hen for reproduction. (Abstract). 4192

LINSEED OIL
Controlling stem-end rot of ripe mango. 6035

LINURON
Indices of weed-crop interference in Zea mays Linn.
1633
Adsorption of some pesticides on soils, clay minerals and humic acid.
2420
Persistance pattern for diuron and linuron in Norfolk and Duplin sandy loam soils.
3712
The lasting influence of triazines and the effect of herbicide mixtures in the treatment of corn. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4064
Weed control in corn.
6333
Postemergence weed control in soybeans.
6378

LINYPHIIDAE
Notes on the Swedish species of the genus Centromerus F. Dahl. (Araneae, Linyphiidae). A faunistic report with ecological remarks.
5422

LIOTHRIPS OLEAE
The damage brought about by Phloeotribus.
1006
Simplifications in the control of the phytophaga of olives.
2800

LIPAPHIS ERYSIMI
Preliminary study on the effect of different doses of Nitrogen on the incidence of major pests of mustard.
2644
Insecticidal trials to control mustard aphid, Lipaphis erysimi Kalt., and larger moth, Crocidolmia binotalis Zell., affecting mustard crop.
2820
Delhi farmers need not be afraid of mustard aphid.
6239

LIPASES
Inactivation of lettuce necrotic yellows virus by chelating agents.
3355
Effect of dietary lipids upon the lipase, pancreatic cholesterol esterase, plasma triglyceride and total plasma lipids level in the chick. (Abstract).
4261
Pancreatic enzymes initiating excystation of Eimeria acervulina sporozoites.
6554
Gel filtration of leptospiral lipase on Sephadex G 200.
7872

LIPIDS
The defense mechanism of the cuticle of the sunn pest (Eurygaster integriceps Put.) against plant microorganisms.
83
Lipid metabolism and function in insects.
92
Effect of dietary fat source on the apparent digestibility of fat and the composition of fecal lipids of the young pig.
370
Lipidosis of the hepatic reticulo-endothelial cells in a sheep.
1079
Changes in glycogen-, lipid-, and nitrogen metabolism of the imago of Pyrrhocoris apterus L. in connection with the reproduction process.
1989
Developmental changes in the late larva of Calliphora stygia. I. Haemolymph.
1998
Studies on the physiology of the fat body of Pyrrhocoris apterus L.
2008
Fatty acids in Hyalophora cecropia: Biosynthesis and constitution during development.
2055
Coenzyme Q10 in Brucella abortus Bang.
2345
Protein-lipid-polysaccharide complex from the culture and mycelium of the fungus Verticillium dahliae Kleb, the causative agent of verticilliaceous wilt of cotton.
2758
The sterol esters of maize seedlings.
3055
Variations in the neutral lipids of Dysdercus koenigii (Hemiptera) during its life cycle.
3145
Lipid metabolism in helminth parasites--V. Absorption of fatty acids and monoglycerides from micellar solution by Hymenolipis diminuta (Cestoda).
3158
The presence of lipid substances in the salivary glands of Trigona (Hymenoptera, Apoidea).
3178
Nutrients derived from the fungus cultured by the fungusgrowing ant Atta columbia tonsipes.
3240
Neutral lipid metabolism during embryonic development of the Indian-meal moth, Plodia interpunctella (Hubner).
3320
Lipids of Drosophila: A newly detected lipid in the male.
3326
Fatty acid composition of three strains of Newcastle disease virus.
3597
Lipid metabolism in helminth parasites--VI. Synthesis of 2-cis,6-trans farnesol by Hymenolepis diminuta (Cestoda).
3621
The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress.
3788
Changes in the composition of lipids and fatty acids in adult Culex tarsalis and Anopheles freeborni during the overwintering period.
3871
Incorporation of palmitate-1-C14 into lipids of the blowfly during flight.
3892
Lipids of Drosophila: A newly detected lipid in the male.
3895
Disinfection in parasitoses.
4148
Effect of dietary lipids upon the lipase, pancreatic cholesterol esterase, plasma triglyceride and total plasma lipids level in the chick. (Abstract).
4261
Composition of the gut contents of third-instar tsetse larvae (Glossina morsitans Westwood).
4478
Control of metabolism in the silkworm pupal ovary by the diapause hormone.
4508
Nutritional requirements and artifical diets for the silkworm, Bombyx mori L.
4518
Substances that attract caged honeybee colonies to consume pollen supplements and substitutes.
5565
Lipids in the melanic mutant of the large milkweed bug, Oncopeltus fasciatus.
5689
The effects of DDT on a breeding population of the rufoussided towhee (Pipilo e. erythrophthalmus Linnaeus).
6418
Ancylostoma caninum: Food reserves and changes in composition with age in third stage larvae.
6928
Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae).
7600
Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro.
7611
Ultrastructural changes in experimental lipid pneumonia.
7867
Lipids of plasma membranes of monkey and hamster kidey cells and of parainfluenza virions grown in these cells.
7894
Histochemical maps of the lipids in the epidermal esophagus musculature of Ascaris suum and Ascaridia galli. (Contribution to the study of the structure of the epidermal esophagus musculature of model ascarids I.).
7946

LIPOLEXIS SCUTELLARIS
Three new aphid parasites from Hongkong. (Hymenoptera: Aphidiidae).
3116

LIPOPOLYSACCHARIDES
Experimental data on the pathogenesis of edema disease of swine. Clinical picture, gross and microscopic lesions related to endotoxin shock.
396
Immuno-biological properties of lipo-polysaccharides isolated from Listeria monocytogenes.
1703

LIRIODENDRON TULIPIFERA
Butt rot in yellow-poplar seedling-sprout stands.
5947
Observations of Odontopus calceatus (Coleoptera: Curculionidae), a leaf miner damaging yellow-popular.
7692

LIRIOMYZA
Letters on leaf miners.
3752
The Alysiinate (Hym. Braconidae) parasites of the Agromyzidae (Diptera). V. The parasites of Liriomyza Mik and certain small genera of Phytomyzinae.
5051

LIRIOMYZA MUNDA
Effect of temperature on resistance in lima bean, tomato, and chrysanthemum to Liriomyza munda.
3453

LISSORHOPTRUS ORYZOPHILUS
The water weevil problem.
6146

LISTERIA MONOCYTOGENES
The present clinical and pathological picture of chronic erysipelas infection in pigs. III-V.
344
Characterization and biological activity of the monocystosis-producing agent of Listeria monocytogenes.
1073
Fatty acids of Listeria monocytogenes.
1700
Immuno-biological properties of lipo-polysaccharides isolated from Listeria monocytogenes.
1703
Sulphamide and antibiotic sensitivity of some Listeria monocytogenes strains isolated from animals.
3508
Mechanisms of pathogenesis in Listeria monocytogenes infection. III. Carbohydrate metabolism.
6866
A virus inhibitor circulating in the blood of chickens, induced by Francisella tularensis and Listeria monocytogenes.
7901

LISTERIOSIS
Differential diagnosis of bovine encephalitides.
2890
Sulphamide and antibiotic sensitivity of some Listeria monocytogenes strains isolated from animals.
3508

Listeriosis in sheep - observations on an outbreak in Romagna. 6532

LITERATURE
On Diaporthe on plum-trees - a study of literature. 977

LITHIUM CHLORIDE
Purification of potato virus X and preparation of infectious ribonucleic acid by degradation with lithium chloride. 5930

LITHUANIA
On the nematode fauna of domestic fowl in the Lithuanian SSR. 6959

LITTLE LEAF
Identity of tomato big bud virus and egg plant little leaf virus. 1549

LITTORAL INSECTS
Studies on the Diptera Brachycera fauna of the sea shores in north Norway. 1237

Variation and distribution of the intertidal beetle Halocoryza arenaria (Darlington) in Mexico and the United States (Coleoptera: Carabidae). 2667

LIVER
Anthelmintic effect of salicylanilide preparation on common liver flukes. 449

Lipidosis of the hepatic reticulo-endothelial cells in a sheep. 1079

On a new and changed picture of the socalled edema disease in the differential diagnosis of hog cholera. 5th. Communication. The part played by the liver in the course of the disease. 1096

Fatty liver and kidney disease in broiler chickens receiving diets with varying contents of protein. 1654

Respiratory components of Aspergillus niger mitochondria. 1709

Complications during and following chemotherapy of heartworm disease. 1745

Pathology of heartworm disease. 1765

Cytochemical studies on the lesion of equine infectious anemia. VII. Especially on the enzyme histochemistry of RES (Reticulo-Endothelial System) in the liver and spleen. 2300

Aflatoxin metabolism by liver microsomal preparations of two different species. 2332

Concerning the larva migrans visceralis of Ascaris lumbricoides in the experimental host (mice). 2360

Protein-deficient diet and DDT toxicity. 2892

Carbamyl phosphate synthetase in the chick. 3502

Lymphoepithelial tissues of the intestine and differentiation of antibody production. 4213

Investigation of the residues of two antibiotics of the macrolide family (oleandomycin and spiramycin) in the tissues of chickens receiving anibiotic feed supplements. 4301

Choleresis in sheep. 4830

Notes on the spontaneous pathology of the dog in the laboratory. 3rd note: Concerning a spontaneous hepatectomy. 6452

Hepatic lesions in the rabbit caused by Vibrio sp. 6512

Hepatocellular carcinoma in the dog. 6586

Magnesium requirement of the laying hen for reproduction. 6607

Localization of P32 labeled Mycobacterium tuberculosis in fowl organisms. 6636

Evidence for conversion of DDT to TDE in rat liver: II. Conversion of p,p'DDT to p,p'TDE in axenic rats. 6753

Identification of enterococci in chicken livers. 6762

Effects of aflatoxin B1 on polysomal profiles and RNA synthesis in rat liver. 6793

Complex investigation of the functional state of the liver in the course of experimental flukeworm disease in sheep. 6989

No effect level of DDT in induction of microsomal epoxidation. 7105

Hepatotoxic potency of various chlorinated hydrocarbon vapors relative to their narcotic and lethal potencies in mice. 7166

A case of teratoma in the liver of sheep. 7864

Pathology of caprine liver infested with Gigantocotyle explanatum (Creplin 1847). 7917

Responses of cell cultures to insecticides. IV. Relative toxicity of several organophosphates in mouse cell cultures. 7977

LIVER DISEASES
The life span of Fasciola hepatica in cattle. 448

Eczema and liver disease in dogs (hepatodermal syndrome). 2287

Effect of thiabendazole on Pithomyces chartarum (Berk. Curt.) M. B. Ellis. 2340

Lupinosis. 2907

Antibody titer against leptospira in liver- and other internal diseases. 3559

The liver fluke in sheep. 3617

Spontaneous and experimental aflatoxicosis of ducks. 6626

Bilirubinaemia in the differential diagnostics of hepatopathies and internal diseases in horses. 7895

LIVER FUNCTION TESTS
The venae cavae or liver failure syndrome of heartworm disease. 1748

Complex investigation of the functional state of the liver in the course of experimental flukeworm disease in sheep. 6989

Hepatotoxic potency of various chlorinated hydrocarbon vapors relative to their narcotic and lethal potencies in mice. 7166

LIVESTOCK
Heredity and disease in domestic animals. 394

Get rid of grubs in a hurry. 435

Effect of agriculture on nitrate pollution of groundwater. 469

Crop and livestock depredation reduced by wildlife services damage control programs. 579

The analysis of response in crop and livestock production. 942

Poison plants of Western Australia; the toxic species of the genera Gastrolobium and Oxylobium. 1025

Wheat as a stock fodder. 1056

Investigations concerning the ecology and control of the face fly, Musca autumnalis de Geer. 1125

Responsibilities and organisation of toxicology in veterinary medicine. 1141

Opportunities for establishing viable crop and livestock protection programs in the developing countries. 1198

Ticks of domestic animals in Tessin. 1713

The effect of Hoe-2910 on ectoparasites of animals. 1723

P.L.A. (pituitary luteinizing hormone). Drugs for veterinary use - drug efficacy study implementation. 2271

F.S.H.-P. (follicle stimulating hormone-pituitary). Drugs for veterinary use - drug efficacy study implementation announcement. 2313

Eradication efforts against tropical bont tick, Amblyomma variegatum in the Virgin Islands. 2354

Insecticidal drug containing lindane. Drugs for veterinary use; drug efficacy study implementation announcement. 2355

Hygromix (hygromycin B). Drugs for veterinary use; drug efficacy study implementation. 2364

Dr. Mayfield large roundworm tablets. Drugs for veterinary use; drug efficacy study implementation. 2366

The role of Escherichia coli in gastroenteritis in newly-born calves in the District of Tolbuhin. 6832

Experiences and ideas regarding cattle tuberculosis sanitation in a state practitioners area. 6834

Studies on the epizootiology of rinderpest in blue wildebeest and other game species of northern Tanzania and southern Kenya, 1965-7. 6840

Cystic endometrium in Western Australian cattle. 6841

Experimental studies on bovine tick-borne fever. 1. Clinical and haematological data, some properties of the causative agent, and homologous immunity. 6844

TGE prevention your goal. 6845

Role of calcium in the nutritional etiology of a metabolic disorder in ruminants fed a high grain ration. 6857

Action of bacterial endotoxins on the blood circulation system with consideration of the relations to enterotoxemia (edema disease) of the swine. 6859

Studies on the intraocular inoculation of dogs with various strains of leptospires. 6863

Influence of sulfur on incidence of white muscle disease in lambs. 6865

Polioencephalomalacia: Response to thiamine treatment in sheep and a cow. 6867

Cattle bloat in southern New England, N.S.W. 1961-66. 6874

Hypovitaminosis A and hypomagnesaemia of swine. 6882

Investigations on the viruses of the Orphan type occurring in pigs in Polannd. V. Histopaphological changes in the central nervous system of piglets infected with virus L1. 6885

Worms in pigs. 6916

Investigation of the effect of preparation Bayer 9015-12.50W.G. on adult Fasciola hepatica in sheep. 6922

Measurements of the osmotic pressure in the habitat of Polymorphus minutus (Acanthocephala) in the intestine of domestic ducks. 6930

Histopathology of parafilariasis in mules. 6932

Results and prospects of dehelminthization measures. 6933

The Ukraine on the way of freeing animal husbandry from the main helminthoses. 6936

Helminthoses as allergic diseases. 6941

Comparative susceptibilities of the cat and the domestic pig to the west African strain of Trichinella spiralis. (Owen, 1835). 6947

The introduction of Nematodirus battus (Crofton and Thomas, 1951) into a new environment. 6951

Ridding sheep breeding farms of helminthoses. 6956

Sheep coenurosis control in Uzbekistan. 6970

Cattle paramphistomatidosis in Polesye. 6972

A physico-chemical approach to the serological diagnosis of cysticercosis. 6976

The guilty fox. 6977

Problems of the eradication of the most important helminthoses. 6983

Home produced cyazid is a highly effective anthelminthic against sheep dictyocaulosis. 6985

Complex investigation of the functional state of the liver in the course of experimental flukeworm disease in sheep. 6989

Practice of animal dictyocaulosis and fascioliasis control. 6991

Clinical observations and studies regarding the etiology of enzootically occurring bovine keratoconjunctivitis, with particular consideration of Thelazia. 6992

Metastrongylus salmi Gepoelst, 1923--the pig parasite. 6996

Visceral cysticercosis in bovine animals. 7000

An approach to the treatment of outbreaks of Fascioliasis in sheep. 7001

Report on the working party on liver-fluke in Wales. 7002

The efficiency of copper sulphate, phenothiazine and sodium chloride mixture against sheep helminthoses. 7005

Materials for the investigation of helminthosis pathogenesis. 7007

Observations on the occurrence of Thelazia or eyeworm infection of cattle in Northern New South Wales. 7010

Further experiments on the treatment of Strongyloides infestation of horses with thiabendazole. 7011

Nebraska's specific pathogen-free (SPF) swine program; tenth year report. 7016

Helminthosis liquidation- a reserve of increasing animal production. 7020

The effect of a pretreatment with phenobarbital on the metabolism of DDT in dairy cows and young bulls. 7086

Detection and differentiation of pathogenic Clostridia and their toxins. 7144

Tests with a combination preparation for the treatment of infectious diseases of microbial origin. 7148

Amprolium as a coccidiostat for Angora goats. 7184

Techniques for the systematic control of anthelmintics. gastrointestinal nematodes. Tests with a series of indole-hydrazines. 7194

Lympho cuts farm profits on sheep meat. 7863

Clinico-microbiological and immunological studies on experimental oral infection in pregnant sheep with Salmonella abortus ovis. 7865

Virus diseases of the respiratory tract in cattle. 7866

Myocardium infarct in horses with infectious anemia. 7878

The experimental effect of gentamycin and in mastitis of cattle. 7879

Bovine brucellosis in Madhya Pradesh (a serological study). 7892

Results of the prevention of tuberculosis in cattle in Slovenia from 1947 to 1967. 7893

Bilirubinaemia in the differential diagnostics of hepatopathies and internal diseases in horses. 7895

The development of foci incidence of bovine brucellosis in Czechoslovakia. 7896

The prevalence of brucellosis of cattle in Czechoslovakia. 7897

The incidence of brucellosis of cattle in Czechoslovakia. 7898

Prevalence of salmonellae in Virginia poultry flocks and in feed. 7902

Role of protozoa in rumen metabolism with special reference to bloat. 7904

Contagious ecthyma in sheep in the state of Sao Paulo. 7909

Incidence of tuberculosis in cattle in Rajasthan. 7910

Observations on the incidence and histopathology of pneumonia of sheep and goats in India. 7911

Nabothian cysts in buffalo cervix. 7912

Actinomycosis of cattle, with consideration of atypical localisation. 7914

Endocarditis in horses. 7937

LIZARDS

The oleander scale, Pseudaulacaspis pentagona (Targ.), (Homoptera, Coccidae) in Bermuda. 4043

Temperature and humidity effects on the oviposition of Hyalomma aegyptium ticks of different engorgement weights. 5637

LOAM

A kinetic analysis of herbicide degradation in soil. 3030

Plains pricklypear: relation to grazing intensity and blue grama yield on Central Great Plains. 3466

LOBESIA BOTRANA

Sensitivity of Tortricidae larvae to the action of crystals associated with the thermostable toxin of Bacillus thuringiensis Berliner, serotype I. 3269

LOBSTERS

Interaction of DDT with the components of lobster nerve membrane conductance. 7190

LOCOMOTION

Movements of larvae of Acanthoscelides obtectus Say (Col., Bruchidae). I. The case of a single layer of grain. 1600

Laboratory studies on the locomotor activity of Coryphosima stenoptera and other west African Acrididae (Insecta: Orthoptera). 2637

The dynamics of nematode movement. 2851

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana. 3217

A simple method for measuring the motor activity of fleas (Xenopsylla cheopid Roth.). 3285

Mobility in Tribolium confusum. 4565

Locomotory responses to temperature in the grain weevil, Sitophilus granarius (L.) (Coleoptera: Curculionidae). 5210

On the functional morphology of water striders. I. The morphology of the locomotive apparatus of Gerris lacustris L. (Heteroptera: gerridae). 5279

LOCUSTA MIGRATORIA

Innervation of the gut of the migratory locust, Locusta migratoria L. (Orthoptera, Acrididae). 864

New observation on the origin and locality of the microtubules in the ergastoplasm in the migrator locust. Locusta migratoria migratoria (R. and F.). 2551

In vivo action of extracts of the corpora cardiaca on the cardiac rhythm of Locusta migratoria L. 2648

Physiological and ultrastructural study of the corpora allata of Locusta migratoria L. (Orthoptera) in the gregarious phase. 3831

Innervation of the gut of the migratory locust, Locusta migratoria L. (Orthoptera, Acrididae). 3864

Comparative effects of allatectomy on the activity of the male accessory glands and on the sexual behavior of two acridids: Schistocerca gregaria and Locusta migratoria (sub-species migratorioides and Razalinsk). 4470

The cumulative effects of long photoperiods and the determination of the phase characteristics of the migratory grasshopper, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4472

The influence of the corpora cardiaca on the duration of the fourth and fifth instars of Locusta migratoria L.. 4473

Cardiac activity of Locusta migratoria in vitro and the influence of the corpora cardiaca. Perfection of an experimental method and preliminary results. 4474

Ultrastructure of the hemocytes of Locusta migratoria (Orthoptera). 4512

The results of large dose injections of juvenile hormone in Locusta migratoria, gregarious phase. 4522

Inhibition of the oviposition behavior of the migrator locust (Locusta migratoria L.) caused by the salinity of the soil. 4543

Polyacrylamide gel electrophoretic analysis of the proteins of Locusta migratoria (L.) and the corresponding albino mutant. 4561

The progress of mitosis (orthomitosis) in the manner of endomitosis in the malpighian tubules of the locust (Locusta migratoria) (Insecta, Orthoptera). 4575

The action of iontophoretically applied glutamate on insect muscle fibres. 5222

The action of extracts of parasympathetic organs and corpora cardiaca on diuresis in several insects. 5225

Study of the hemocytes of Locusta migratoria L. (Orthoptera). 5367

Mechanism of the insect ear. 5373

The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles. 5456

Biochemical aspects of juvenile hormone action in the adult Locusta migratoria. 5474

Evolution toward a single phenotype and persistance of the molting glands in Locusta migratoria cinerascens, gregarious phase, under the influence of carbonic gas. Experimental and ultrastructural study. 5498

Sensitivity duration in the photoperiod for the inhibition of maturation of a group of Locusta migratoria migratoria L. (Orthoptera), group Kazalinsk . 5665

Cuticular water pump in insects. 5681

The action of corpora cardiaca extracts on intestinal peristalsis in Locusta migratoria. 7590

Functional structures in oocyte nuclei of Locusta migratoria. 7738

LOCUSTA MIGRATORIA MIGRATORIOIDES

The influence of weight of newly-hatched larvae on the determination of the phase characteristics of the migratory locust, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4471

Investigations into the circulatory system of the migratory locust (Locusta migratoria migratorioides tr. et F., Orth.) with special reference to the blood pressure. 5215

The golgi body origin and the development of the vacuolary bodies implied in the degeneration of the molt glands of Locusta migratoria migratorioides (R. and F.). 5254

On the presence of microtubules in the ergastoplasm and the perinuclear space of the oenocytoids of the migratory locust, Locusta migratoria migratorioides (R. and F.). 5256

Biological observations on the desert locust (Schistocerca migratoria migratorioides) in Chad. 5285

Study of the sensory equipment of the distal joint of the palpi in Locusta migratoria migratorioides (F. and R.) larvae. 5436

Some factors that condition feeding in larvae of the migratory locust, Locusta migratoria migratorioides (Orthoptera, Acrididae). I. External factors. 5613

Infrastructural study of the molting glands in Locusta migratoria migratorioides (R. et F.). II. Morphological analysis of the degenerative stages in the gregarious imagos. 7608

Phase transformation and chiasma formation in locusts. 7744

LOCUSTANA PARDALINA

Selection of phase types based on hopper coloration in Locustana pardalina (Walker). 2624

LODGING

The influence of herbicides on Cercosporella infection and lodging of winter wheat. 2751

Minor predisposition to lodging and stalk rot of maize cultivated with minimum tillage (without hilling). 3410

Lodging resistance in wheat. II. Identification of superior genetic stocks. 3977

Corn lodging. I. Relations between soluble solids, inorganic phosphates and basal stalk and root rots in mature plants. 6066

Alfalfa hopper damages small soybean plants. 6151

Lodging in wheat and its control by (2-chloroethyl) trimethylammonium chloride (CCC) in solid form. 7308

Mechanical control of lodging in rice and extent of reduction in yield due to topping. 7814

LODGING (WHEAT)
Effects of 2-chloroethyl-trimethylammonium chloride (CCC) on yield and lodging of wheat.
7313

LOGS
Protecting larch logs from Tetropium velutinum Leconte with lindane emulsion.
4754

LOLIUM
Blind seed disease of ryegrass.
989

Effect of attack by Costelytra zealandica (White) larvae on ryegrass varieties.
2218

Axis cylinder degeneration associated with ryegrass staggers in sheep and cattle.
4825

LOLIUM MULTIFLORUM
Studies on the varietal characters of Italian ryegrass. III. Varietal difference in degree of infection by crown rust.
5984

LOLIUM RIGIDUM
Saprophytic survival of Ophiobolus graminis on various hosts.
5889

LOLIUM SUBULATUM
Stubble burning helps control Wimmera rye grass.
6362

LONCHAEA
An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects.
7835

LONCHAEA BRUGGERI
An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects.
7835

LONCHAEA SEITNERI
An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects.
7835

LONCHAEA ZETTERSTEDTI
An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects.
7835

LONCHAEIDAE
Swarming of lonchaeid flies and other insects, with descriptions of four new species of Lonchaeidae (Diptera).
663

LONGEVITY
Responses of aphids to pressure applied to liquid diet behind parafilm membrane longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L9) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions.
172

The life span of Fasciola hepatica in cattle.
448

Aspects of the bionomics of Dacus ciliatus Loew (Diptera: Trypetidae).
1003

Temperature and lifespan in Drosophila.
1429

Studies in aging, III. The physiological effects of injecting hemolymph from outbred donors into inbred hosts in Drosophila melanogaster.
1477

The role of moisture in the winter survival of the boll weevil complex in Arizona.
2001

The longevity of conidia of Sclerotinia fructicola (Wint.) Rehm under field conditions.
2140

Responses of aphids to pressure applied to liquid diet behind parafilm membrane. Longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L.) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions.
2665

Notes on the biology of some Australian stick insects (Phasmatodea).
3164

Effects of gamma radiation on the tobacco budworm. I. Irradiation of pupae. II. Irradiation of moths. III. Irradiation of eggs and larvae.
3192

Winter survival in Arizona of thurberia weevils released from thurberia bolls.
3201

Influence of larval population density on the development of Ceratitis capitata Wied. II.
3241

Sex differences in longevity of starved cockroaches (Leucophaea maderae).
3290

Biological effects of starvation on the garden symphylan.
3306

Stored fifty years virus sill active.
3365

An octosporeosis of the black blowfly Phormia regina: Effect of temperature on the longevity of diseased adults.
5419

Effects of age, burial, and region on germination and viability of halogeton seed.
5836

Effect of DDT poisoning on the longevity and fecundity of the pink bollworm.
7566

The effect of genotype, mating status, weight and ege production on longevity in Drosophila melanogaster.
7628

Studies in aging: IV. Genetic control of pigment accumulation and its bearing on the adult life span in Drosophila melanogaster.
7753

LONGIDORUS AFRICANUS
Longidorus africanus a pathogen of head lettuce in the Imperial Valley of southern California.
4054

LONGIDORUS ELONGATUS
Transmission of viruses by Longidorus elongatus.
3463

Form and mechanism of transmission of plant viruses. Transmission of viruses by seeds, pollen and contact of roots.
4702

Glass-house and laboratory studies on the biology of the needle nematode, Longidorus elongatus.
7851

LOOSE SMUT
Status of seed treatment for barley smut control.
240

Virulence of various groups of physiological races of loose smut of barley Ustilago nuda (Jens.) Rostr.) in the light of anatomical investigations of spring barley varieties different with regard to resistance. 3. The effect of infection upon morphological features of plants.
1571

Virulence of various groups of loose smut of barley (Ustilago nuda (Jens.) Rostri) physiological races in the light of anatomical investigations of barley varieties different with regard to resistance. 2. The effect of infection upon anatomical features of plants.
2145

Virulence of various groups of loose smut of barley, (Ustilago nuda (Jens.) Rostr.) physiological races in the light of anatomical investigations of spring barley varieties different with regard to resistance. 1. Spreading of pathogene in host plant tissue.
3978

The possibility of estimating loose smut in a seed lot of barley with regard to the increase from one generation to the next.
5934

Field evaluation of a derivative of 1,4-oxathiin for control of cereal smuts.
5986

Experiments on the control of cereal smuts with a derivative of 1,4-oxathiin.
5987

Studies on the natural accumulation of loose smut infection on wheat - Ustilago tritici (Pers.) Jensen.
6020

Loose smut of oats.
7766

LOPHODERMIUM
Sarcotrochila alpina and Lophodermium laricinum causing larch needle blight in North America.
6141

LOPHODERMIUM DURILABRUM
Lophodermium durilabrum found on foxtail pine in California.
3986

LOPHODERMIUM PINASTRI
Elements for a study on the needle-cast fungus of scotch pine Lophodermium pinastri (Schrad.) Chev. Phenological study: fall of needles and development of hysterothecia.
3979

LOPIDEA
Lopidea Uhler: New species and records from Mexico and southwestern United States with Mayamiris, related new genus from Mexico (Hemiptera, Miridae).
4530

LOXOSCELES RECLUSA
Effect of floxosceles reclusa Gertsch and Mulaik venom against hemocytes of Acheta domesticus (Linnaeus).
7191

LUCANIDAE
Notes on some new or little known Lucanidae Coleoptera.
5091

LUCIFERASE
Pseudo-allosteric behavior of firefly luciferase.
2567

LUCIFERINS
Luciferin and luciopterin isolated from the Japanese firefly, Luciola cruciata.
2599

The decarboxylation of luciferin in firefly bioluminescence.
5531

LUCILIA CUPRINA
Melanin in an insect, Lucilia cuprina (Wied.).
97

Automated sexing of pupae and its usefullness in control by sterile insects.
2097

An electron microscope study of thoracic mitochondriac membranes in developing adults of the blowfly Lucilia cuprina.
3887

LUCIOLA CRUCIATA
Luciferin and luciopterin isolated from the Japanese firefly, Luciola cruciata.
2599

LUCIOPTERIN
Luciferin and luciopterin isolated from the Japanese firefly, Luciola cruciata.
2599

LUMBER PRESERVATION
Damage to seeds through storage on chemically treated wood.
3637

LUMBER PRESERVATIVES
Fence posts used to evaluate preservatives.
938

Termite rearing and testing of Makrolin as a woodpreservative against termites. (Isopteratermitidae).
1133

Isolation of microorganisms from preservative-treated wood.
1546

Preservative treatments and service life of fence posts in Puerto Rico. 4658

Notes on pesticides and weedicides. 5823

LUMINESCENCE

Flashes of Photuris fireflies: Their value and use in recognizing species. 2005

The decarboxylation of luciferin in firefly bioluminescence. 5531

Preliminary investigations on the phenomenon of photoluminescense of seeds of soybean. 5816

Effect of drugs on luminescence in larval fireflies. 7150

LUNGS

Histopathologic studies of lung changes in scrapie and nonscrapie blood line sheep maintained in a scrapie environment. 351

Complications during and following chemotherapy of heartworm disease. 1745

The venae cavae or liver failure syndrome of heartworm disease. 1748

Physical examination of the heartworm-infected patient. 1750

Pathology of heartworm disease. 1765

Paraquat poisoning, lung transplantation. 1803

Pulmonary diseases of pig in Madagascar. 2335

Concerning the larva migrans visceralis of Ascaris lumbricoides in the experimental host (mice). 2360

The production and effect of interferon on influenza virus growth in chick embryo lung epithelial and fibroblast cell cultures. 3546

The incidence of metastrongylosis in swine slaughtered in the Manila abattoir. 3615

Experiments on the loss of Dictyocaulus filaria from the lungs of infected sheep. II. The demonstration of worms in the bronchial spare mucus. 4276

Proceedings of the American College of Veterinary Toxicologists, 1967. 4309

Viral lung diseases of the cat. 6546

Use of alveolar macrophages for cultivation of canine distemper virus. 7862

Ultrastructural changes in experimental lipid pneumonia. 7867

LUPINE

Lupinosis. 2907

Long-term effects of 2,4-D on lanceleaf rabbitbrush and associated species. 3475

Fusariosis of the legume crops in Lithuania. 3. Main forms of lupine fusariosis and its distribution. 6065

Observations on crooked calf disease. 6814

Lupine, a cause of crooked calf disease. 6815

LUPINUS LUTEUS

Gibberellin A23 in immature seeds of Lupinus luteus. 199

Gibberellin A24, an aldehydic gibberellin from Gibberella fujikuroi. 3069

LYCAENA

The proper name for Lycaena epixanthe from Newfoundland and the Maritime provinces. 3088

LYCAENIDAE

Notes on Plebeius argyrognomon Bgstr. (Lepidoptera, Lycaenidae). 54

Biological notes on eye-frequenting moths from North Thailand. 71

Acacia galling by a lycaenid (Lep.). 901

A study of area occupation and mating behavior in Incisalia iroides (Lepidoptera: Lycaenidae). 1452

Descriptions of Thecla (Lep. Rhop. Lycaenidae). 3101

A study of area occupation and mating behavior in Incisalia iroides (Lepidoptera: Lycaenidae). 3262

Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413

A new genus of European butterflies (Lep. Lycaenidae). 5063

The synonomy in Citrinophila Kirby and further notes on Epitola Westwood and Alaena Boisduval (Lepidoptera: Lycaenidae). 5075

A new species of Poecilmitis Butler (R-hopalocera) from the South Western Cape. 5120

A seasonal form of Baliochila singularis Stempffer and Bennett from Southern Rhodesia (Lepidoptera: Lycaenidae). 5220

Notes on larval host acceptance in a California population of Plebejus acmon (Lycaenidae). 5331

Foodplants of Callophrys (Incisalia) iroides. 5536

LYCOSA

Histochemistry of spermatogenesis in the spider Lycosa chaperi. 818

LYCOSA ERYTHROGNATHA

Spider venoms: biochemical aspects. 7655

LYCOSA PSEUDOANNULATA

The ingestion in wolf spiders. I. Capacity of gut of Lycosa pseudoannulata. 5493

LYCOSIDAE

Some supplementary data on wolf spiders in the Netherlands (Hraneae, Lycosidae). 1343

On some species of the genus Arctosa C. L. Koch and Tricca Simon (Araneae-Lycosidae). 1892

LYCTIDAE

Some new information on the Bostrychidae of Africa. 1381

LYGAEIDAE

The biology and ecology of the Rhyparochrominae of New England (Heteroptera: Lygaeidae). I. 50

Pionosomus nitens nov. sp., a new type of Lygaeidae from North Africa (Hem. Het. Lygaeidae). 718

Investigation into the diapause, capacity adaptation and temperature resistance of several insects and snails. 1453

A new species of Elasmolomus (Heteroptera: Lygaeidae) from Australia. 1910

A new Crompus from New Caledonia. (HemipteraHeteroptera: Lygaeidae). 4359

A yellow mutant strain of the large milkweed bug, Oncopeltus fasciatus, that lacks erythropterin. 4645

The identity of Naphius seed bug pests in Africa (Hemiptera: Lygaeidae). 5143

A contribution to the systematics of Oriental and Australian Blissinae (Hemiptera: Lygaeidae). 5144

Reduction of flight organs in some cryptobrachypterous Lygaeidae (Hem., Het., Lygaeidae). 5398

On the multiple sex-chromosome mechanism in Trapezonotus arenarius L. (Heteroptera, Lygaeidae). 5724

Insect pests of barley and their control. 6231

The world Rhyparochrominae (Hemiptera: Lygaeidae). IV. On some Rhyparochrominae types in the Museum National d'Histoire Naturelle, Paris. 7539

LYGOCORIS PABULINUS

Capsid bugs on fruit. 6225

LYGUS

Lygus-bug feeding on developing carrot seed: Effect on plants grown from that seed. 3449

On the significance of the Lygus species as a plant pest. 6154

LYGUS HESPERUS

Notes on the biology and rearing of Anaphes ovijentatus, a new parasite of Lygus hesperus in Arizona. 3286

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602

LYMANTRIA MONACHA

The importance of mortality factors on the occasion of the mass-appearance of the nunmoth in the forested district of Lower Austria, 1964-1967. 814

LYMANTRIIDAE

A massive invasion of Stilpnotia salicis. (Lymantriidae). 46

Entomological tour of Spain. 653

Optimum periods for the proliferation of polyhedrosis in the caterpillars of Lymantria dispar (Lep. Lymantriidae). 873

Sex chromatin of the gypsy moth Lymantria dispar and the meal moth Ephestia kuehniella. 1514

The bionomics and control of Argyrostagma niobe (Weym.) and Dasychira georgiana Fawc. (Lep., Lymantriidae) on black wattle in Kenya. 3172

The effect of diet on the physiology of the brown-tail moth, Euproctis chrysorrhoea L. (Lepidoptera, Liparidae). 3861

LYMNAEA TRUNCATULA

Liver fluke disease control with a new molluscicide . 3616

LYMPH

Nymphal stage of Linguatula serrata found in mesenteric lymph node of a bovine. 4861

LYMPH NODES

Nocardia asteroides, cause of an endemic mastitis in the cow. 2950

Lymphoepithelial tissues of the intestine and differentiation of antibody production.
4213

Viral etiology of the bovine lympholeukosis.
6729

Observations of infectious diarrhea as part of the shipping fever syndrome in feedlot cattle.
7889

LYMPHATIC SYSTEM
Studies on the tumours of the domestic animals. I. Lymphatic leucaemia of the swine.
2308

Lymphocytic thyroiditis in the dog.
2320

LYMPHOCYTES
Effects of whole-body irradiation on baby pigs (Sus scrofa).
2283

The effect of maleic hydrazide on the mitosis of phytohaemagglutinin stimulated human lymphocytes cultured in vitro.
2443

Hematological effects of apholate on channel catfish (Ictalurus punctatus).
7156

LYMPHOCYTIC THYROIDITIS
Lymphocytic thyroiditis in the dog.
2320

LYMPHOCYTOSIS
Bovine leukemia: A clinical, epidemiological and experimental study.
2931

LYMPHOPENIA
Effects of whole-body irradiation on baby pigs (Sus scrofa).
2283

LYMPHOSARCOMA
Isolation, immunodiffusion, immunofluorescence, and electron microscopy of a syncytial virus of lymphosarcomatous and apparently normal cattle.
1687

LYONETIIDAE
A survey of leaf-miners and their parasites on Laburnum.
3797

Mating and oviposition behavior of the coffee leaf miner, Leucoptera coffeella (Lepidoptera: Lyonetiidae).
3888

LYOPHILIZATION
A tetrazolium reduction test to evaluate the viability of strain 19 vaccines.
6831

LYPE
The immature stages of Lype diversa (Banks) (Trichoptera, psychomyiidae).
5032

LYSANDRA CORIDON
Breeding Lysandra coridon ab. syngrapha.
5445

LYSINE
The effectiveness of mixed feed enriched with lysine and methionine when applied for calf breeding.
342

Effect of methionine on a growth depression induced by supplementing a corn-soybean meal diet with lysine.
4151

Cottonseed meal, lysine, and methionine for layers. (Abstract).
4219

Lysine requirement of the growing chick. (Abstract).
4233

Imbalanced lysine feeds for starting or growing chicks.
4234

Low lysine diets for rearing replacement pullets. (Abstract).
4249

Lysine levels on chick growth and nitrogen utilization. (Abstract).
4264

Study of the synthesis of lysopine by tissue extracts of crown-gall in vitro.
5993

A study of the synthesis of lysopine from lysine by crown-gall tissues.
5994

LYSIS
Mechanisms of biological control of soil-borne pathogens.
2708

Morphological transformations and lysis of Halobacterium salinarium by 4-(2,4-dichlorophenoxy)butyric acid and related compounds.
6377

Enzootic abortion and sterility from bovine leptospirosis in the Po valley.
6488

Cytolytic plasma factor in experimental coccidioidomycosis.
6688

LYSOSOMES
Intracellular distribution of beta-glucuronidase activity during metamorphosis of the housefly, Musca domestica L.
2585

LYTTA VESICATORIA
The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae.
5468

On the biosynthesis of cantharidins. I.
5594

MACERATION
Use of cherry-laurel foliage for preparation of an effective insect-killing jar.
4504

MACHILIDAE
The egg-laying cycle in the Machiloidea (Insecta Thysanura).
4459

New contributions to the knowledge of the Apterygota collection of the State Zoological Institute and the Zoological Museum of Hamburg. Iii Meinertellidae and Machilidae (Thysanura).
7519

MACHIMUS
Diptera larvae in soil treated with organic and mineral fertilizers. (I). Family Asilidae-Diptera-Brachycera.
5541

MACROCEPHALUS
A new species of the genus Macrocephalus Swederus from Mexico (Hemiptera: Phymatidae).
651

MACROCHELES
Notes on macrochelids associated with manure and coprid beetles in Israel. II. Three new species of the Macrocheles pisentii complex, with notes on their biology.
5013

MACROCHELES MERDARIUS
An unusual instance of phoresy in Acarina.
581

MACRODACTYLUS SUBSPINOSUS
Colorado beetle.
848

MACROLEPIDOPTERA
The relative abundance of species in a wild population of Macro-Lepidoptera.
1985

MACROPHAGES
Serum-mediated immune cellular responses to Brucella melitensis. V. Infection of macrophages under anaerobic conditions.
1095

An anti-Brucella principle of peritoneal macrophages.
1097

Penetration and development of Eimeria maxima sporozoites and the static effect of decoquinate. (Abstract).
4128

Use of alveolar macrophages for cultivation of canine distemper virus.
7862

MACROPHOMINA PHASEOLI
Fruit rot of papaya (Carica papaya L.) caused by Macrophomina phaseoli (Maubl). Ashby.
2143

Minor predisposition to lodging and stalk rot of maize cultivated with minimum tillage (without hilling).
3410

Physiological studies on incitants of guava wilt Fusarium solani (Mart.) App. and Wr. emend Snyder and Hansen and Macrophomina phaseoli (Maubl.) Ashby.
4688

Contribution to the study of a parasitic complex which attaches itself to the exposed parts of cotton plants and causes their withering.
4712

Corn lodging. I. Relations between soluble solids, inorganic phosphates and basal stalk and root rots in mature plants.
6066

MACROPOPILLIA ARROWI
Some pests of ornamental plants in Madras.
4735

MACROPSIS TRIMACULATA
Controlling peach yellows in a peach breeding program.
6232

MACROSIPHUM AVENAE
Performance of the English grain aphid on sterilized and unsterilized artificial diet.
2059

MACROSIPHUM EUPHORBIAE
Factors influencing the toxicity of aqueous formulations of pyrethrum against an aphid, Macrosiphum Euphoribae (Thomas). (abstract).
3664

MACROZAMIA
Macrozamia poisoning.
508

MADIA
Effects of 2,4-D on emergence and seedling growth of range grasses.
510

MAGGOTS
Insecticidal drug containing lindane. Drugs for veterinary use; drug efficacy study implementation announcement.
2355

The warble fly.
4568

Narcissus flies.
4748

Home fruit spray guide.
5959

Development of resistance to DDT by the apple maggot, Rhagoletis pomonella.
6214

MAGNESIUM
A note on the occurrence of watercore breakdown in apples during 1966.
1583

Effects of potassium, magnesium, and nitrogen deficiencies on the concentration of chlorogenic acid and scopolin in tobacco.
2116

The influence of varying dietary levels of magnesium, calcium and vitamin D on magnesium metabolism.
2341

Studies on the blood chemistry of cattle in a herd infected with Johne's disease.
2930

Influence of various chelating agents on absorption of 60Co, 59Fe, 54Mn, and 65Zn by chickens.
4105

Dietary magnesium requirement of the laying hen. (Abstract).
4155

Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil. 5880

Magnesium requirement of the laying hen for reproduction. 6607

Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis. 6646

Effect of a soluble fraction of oil seed meals on uptake of 65Zn from ca.mg.65Zn.phytate complexes by the chick'. 6690

The effect of magnesium on the growth of lucerne, grown on grey forest soils. 7228

Influence of magnesium and zinc fertilizing on the yield, quality as well as health of hops. 7266

MAGNESIUM CHLORIDE

The effect of manganese on young poultry growth. 3575

Cross interaction between different components of two strains of alfalfa mosaic virus. 6004

MAGNESIUM OXIDE

The effect of manganese on young poultry growth. 3575

MAGNESIUM SULFATE

The effect of manganese on young poultry growth. 3575

Changes in insecticide sensitivity in the bean weevil Acanthoscelides obtectus Say, brought about by induced pigment formation. 3867

MAGNETS

Lack of effect of constant magnetic fields on Drosophila egg hatching time. 5630

Magnetic probes in prophylaxis and therapy of traumatic reticuloperitonitis in cattle. 6514

MAINTENANCE

Operation and maintenance of power sprayers. 7388

MALACHITE GREEN

The effect of malachite green as a fungicide. 1050

MALACOSOMA NEUSTRIA

Origin of oxalic acid in Ca oxalate crystals in the malpighian tubes of the tent caterpillar, Malacosoma neustria testacea. 3881

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae). 5600

MALAGASY REPUBLIC

New Tetranychidae of Madagascar. 5054

A study of natural pastures in Madagascar. Productivity and pratical applications. 6427

MALAOXON

Inheritance and biochemistry of OP-RESISTANCE in a New York strain of the two-spotted spider mite. 2080

MALARIA

A filterable, proliferating factor simulating autoimmunity in malarious and nonmalarious ducklings. 392

Report on a limited anopheline survey at Ifakara, south-eastern Tanzania. 934

Water balance in pinottii malaria of pigeons. 1086

Malaria in mammals excluding man. 2908

Anopheline mosquitos found breeding in Israel in 1963-1965 during the last stage of the malaria eradication project. 3159

Notes on the mosquitoes of the Islamic Republic of Mauritania. (Dipt. Culicidae). (2). 5351

Recent advances in the physiology and biochemistry of Plasmodia. 5526

Falciparum malaria transmissible from monkey to man by mosquito bite. 5751

Malaria and victory in Vietnam. 5763

Plasmodium brasilianum in Columbian monkeys. 6704

MALARIA CONTROL

The United States and malaria: Debits and credits. 937

Plasmodium brasilianum in Columbian monkeys. 6704

MALATE

The comparative biochemistry of developing Ascaris eggs-VII. Malate oxidation and metabolism in unembryonated eggs. 7936

MALATHION

Controlling the Mexican bean beetle. 56

The protection of dried sea-fish from infestation by Dermestes frischii Kug. 96

Tick fever in poultry. 415

The in vitro and in vivo oxidation and hydrolysis of malathion by wheat grain esterases. (abstract). 566

Tolerance of spruce budworm to malathion; Montana, New Mexico populations show no differences. 839

The alfalfa weevil likes our state . 1001

Insecticidal dusts against Japanese beetles and European chafers for disinsectization of transport vehicles. 1389

Tests of the susceptibility of Florida mosquitoes to insecticides, 1967. 1529

Initial and residual activity of Cidial (Phenthoate) against mosquitoes as compared with that of other well-known products. 1542

Preliminary results in the chemical control of the white louse, Unaspis citri Comst., on citrus. 1610

Cockroach insecticides--how repellent are they . 1780

The effect of the column support material on the gas chromatographic resolution of methyl parathion, ethyl parathion, ethyl paraoxon, malathion, and malaoxon. 1831

Effects of malathion on the histophysiology of Malpighian tubules of Periplaneta americana (Linn.), Dictyoptera. 1925

Effect of droplet size on persistence of ULV malathion and comparison of toxicity of ULV and EC malathion to tobacco budworm larvae. 2031

Inheritance and biochemistry of OP-RESISTANCE in a New York strain of the two-spotted spider mite. 2080

Aerial applications of PIB-7 and malathion to suppress populations of Anastrepha suspensa. 2234

The effect of some pesticides on the soil invertebrate fauna in the South Taiga Zone in the Perm Region (USSR). 2238

Comparative review of BHC dust and malathion emulsion as agents for disinfestation on the basis of past experience. 2379

Campaign against stored grain pests in villages of IADP District Ludhiana. 2382

Removal of DDT, malathion, and carbaryl from tomatoes by commercial and home preparative methods. 2398

Adsorption of some pesticides on soils, clay minerals and humic acid. 2420

Procedure for semi-quantitative confirmation of some organophosphorus pesticide residues in plant extracts. 2426

Consistency of Rst values of six organophosphorus pesticides resolved by thin-layer chromatography in the presence of plant extracts without elaborate clean-up. 2453

The use of Drosophila melanogaster Meig., Calandra oryzae L. and Tribolium confusum Duv. for the detection of pesticides and for the evaluation of some extractive techniques. 2547

Cauliflower mosaic. 2763

The spined citrus bug--Biprorulus bibax Bredd. (Hemiptera: Pentatomidae). 2804

Residues of malathion on Indian rape seed (Brassica campestris 6. var. dichotoma Watt). 3020

Susceptibility of Mansonia mosquitoes to certain insecticides in Thailand. 3318

Genetic plasticity of stored-product insects in relation to insecticides: Comparative susceptibility of confused and red flour beetles from various areas of California to malathion. 3337

Saw-toothed grain beetle. 3641

Insect pests in food stores. 3642

Malathion, methyl parathion, diazinon, and endosulfan residues in sunflower seeds. 3665

Laboratory evaluation of malathion as a protectant for stored walnuts. 3666

Process for upgrading malathion. Patent 3,440,305. 3719

Two types of carboxyesterase degrading malathion in resistant houseflies and their inhibition by synergists. 3859

Insect control for garden vegetables. 3916

A comparative study on the effects of aerial versus ground spraying of poisoned baits against the Mediterranean fruit fly on the natural enemies of scale insects in citrus groves. 4454

Specificity in insecticides. 4507

Watch for the cereal leaf beetle. 4557

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas. 4876

Ants in the home and garden; how to control them. 5184

How to control bed bugs. 5185

Cotton pests control by ultra low volume spraying from the air. 5228

Effects of reroductive-diapause boll weevil (Heliothis zea Boddie) insecticidal control programs on the abundance of bollworms and tobacco budworms (Heliothis virescens F.) in cotton in the rolling plains of Texas, 1967. 5236

Control of grasshoppers (Phaulacridium vittatum) by ultra-low volume aerial application of technical maldison. 5253

Spraying in mustard is a must. 5258

Biology and control of leopard moth on pear trees in the United Arab Republic. 5294

Temperature effects on the toxicity of five insecticides against five species of stored-product insects. 5384

Insects and related pests of house plants; how to control them. 5395

Effect of aerial spraying for the control of green rice leafhopper in autumn. Transl. 17058. 5425

Trial of carbophos on larvae of Aedes and Culex mosquitoes. 5504

Insecticidal and acaricidal effect of some binary mixtures. 5627

Relative susceptibility of stored-product insects to insecticides. 5631

Lace bugs. 5661

Bagworm. 5662

Unique problems in insect and pest control of NASA's Mississippi Test Facility. 5755

Control of anopheline species in the Canal Zone with ultra-low volume sprays of malathion and fenthion. 5759

Ultra low volume spraying of cotton. 5822

Control of the castor shoot and capsule borer, Dichocrocis punctiferalis Guen. 6150

Control of some pests of evergreens. 6162

San Jose scale (Quadraspidiotus perniciosus). 6199

Yield reduction of oats caused by the cereal leaf beetle. 6222

Effect of some pesticides on the adrenal glands in the rat. 6424

Growth and respiration of monolayer cell cultures of chick embryo heart and skeletal muscle: Action of malathion and malaoxon. 6871

Fumigate stored rice to reduce loss to insects. 7030

Laboratory tests of five new insecticides as protectants for stored rough rice. (abstract). 7031

Persistent pesticides. 7083

High praise for low volume insecticide spraying. 7136

Juice quality of grapefruit following June versus September applications of a 412 paraffinic petroleum oil with data on control of certain pests. 7238

Nuclear magnetic resonance studies of phosphorus(V) pesticides- III, the hydrolysis of aliphatic pesticides by aqueous solutions. 7347

Susceptibility of arctic mosquitoes to DDT and malathion. 7598

The cereal leaf beetle in Ohio. 7647

The toxic effect of three organophosphate insecticides on female Lebistes reticulatus Peters. 7715

The cotton leaf weevil, Bucculatrix thurberiella Busck. The history, habits, biology and methods of control. 7839

Collection and analysis of synthetic organic pesticides from surface and ground water. 7957

Collaborative studies on the analysis of pesticide residues. 7967

Effects of insecticides on algae. 7976

Responses of cell cultures to insecticides. IV. Relative toxicity of several organophosphates in mouse cell cultures. 7977

The method of conditioned reflexes in toxicology and its application for determining the toxicity of small quantities of pesticides. 7978

Applications of polarography for the detection and determination of pesticides and their residues. 8004

Gas chromatography using an electron absorption detector. 8005

Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 8012

MALEIC ACID

Adsorption of maleic acid on mercury-electrolyte interface and the problem of preceding surface recombination. 565

MALEIC HYDRAZIDE

Study on the sucker control of decapitated (topped) tobacco plants. 1819

The effect of maleic hydrazide on the mitosis of phytohaemagglutinin stimulated human lymphocytes cultured in vitro. 2443

Effect of maleic hydrazide on wheat and barley against different rusts. 2704

The distribution, excretion, and metabolites of maleic hydrazide in rats and a method for the detection of metaldehyde in plants. 3026

Field observations on effectiveness of maleic hydrazide applied to onions by helicopter. 4327

Chemical growth inhibition in turf. 6349

Cytogenic activity of the herbicides-simazine and maleic acid hydrazide. 7302

Inhibition of strawberry runner production with Alar, Cycocel, maleic hydrazide, and TIBA. 7985

MALIC ACID

Oxidation of D-malic and beta-alkylmalic acids by wild-type and mutant strains of Salmonella typhimurium and by Aerobacter aerogenes. 4240

MALIGNANT CATARRH

Bovine respiratory disease, diagnosis and control. 6593

MALIPIGHAMOEBA MELLIFICAE

The measurement and interrelationships of infections with Nosema apis and Malipighamoeba mellificae of honey-bee populations. 59

MALLOPHAGA

Descriptions of new and little known species of Mallophaga (Insecta) from maritime hosts of Chile, South America. 18

A review of the genus Turacoeca with description of a new species (Mallophaga: Menoponidae). 687

On the collection and preparation of bird- and mammal parasites (mallophaga). 1202

Notes on the arthropod fauna of Spitsbergen II. 9. Mallophaga from Spitsbergen and Bear Island. 1261

A new species of Otidoecus. (Philopteridae, Mallophaga). 1873

Aquanirmus species (Insecta, Mallophaga) of Rumania's fauna. 3163

Mallophaga of domestic chickens from Cuba. 4268

Parasite phylogeny problems of the Mallophaga of Passeriformes and Piciformes. 5693

Contemporary Mallophaga literature. 7605

MALONIC ACID

Vetistat. Drugs for veterinary use - drug efficacy study implementation. 2272

Koagamin veterinary parenteral hemostat. Drugs for veterinary use - drug efficacy study implementation. 2879

Anthracnose in beans:Determination and variations in the malonic acid content in the different parts of healthy and parasitized plants. 5886

MALPIGHAMOEBA MELLIFICAE

Nosema disease and amoeba disease. 3249

MALPIGHIAN TUBES

Structure and metamorphosis of the malpighian tubules of Callosobruchus maculatus (F.) (Bruchidae: Coleoptera). 860

Structure of the cryptonephridial malpighian region of the larval Hymenopteran Symphyta. 1460

Effects of malathion on the histophysiology of Malpighian tubules of Periplaneta americana (Linn.), Dictyoptera. 1925

Origin of oxalic acid in Ca oxalate crystals in the malpighian tubes of the tent caterpillar, Malacosoma neustria testacea. 3881

The particle lining of the plasmic membrane in connection with excretion in a specialized region of the middle intestine of higher termites. 4574

MALT

Permissive chemical. 568

MALUS

Observations on soil exhaustion by Rosaceae. 2832

Nursery stock, plants, and seeds. Foreign nurseries certified as producing specified disease-free material. 5803

MAMAEVIA VYSINEKI

A new species of gall gnat Mamaevia n.g.n.sp. (Diptera, Itonididae) from Bohemia. 48

MAMESTRA BRASSICAE
A new contribution to the study of the cabbage moth control (Mamestra brassicae L.). 159
Characterization of the thermostable toxin in the different industrial preparations of Bacillus thuringiensis Berliner. 761
Combined utilization of entomophages and microorganisms with a view of replacing or limiting the use of chemical treatments. 769
The polyhedrosis of Mamestra brassicae. 815
Conditions for the massive multiplication of the intestinal cytoplasmic virus of Mamestra brassicae L. (Lepidoptera). 5426
Alteration of some properties of Bacillus thuringiensis by means of passages through the insects and cultivation on nutrient media. 5605
Utilization of an artificial food for the testing of food insecticides. 7955

MAMMALS
Cultures of insect tissues with the aid of mammalian serum. 168
Eradication of cattle tick (Boophilus microplus) from Magnetic Island, Queensland, in the presence of native fauna. 1121
On the collection and preparation of bird- and mammal parasites (mallophaga). 1202
The use of the forage ratio technique in mosquito host preference studies. 1407
A remarkable tick found on a tarsier (Heterocoptidae f. n.:Sarcoptiformes). 1957
Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692
Malaria in mammals excluding man. 2908
Mite parasites of small mammals from scrub typhus foci in Australia. 2989
Estrogenic activity of o,p'-DDT in the mammalian uterus and avian oviduct. 4095
Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas. 4876
Imidazole: Fungitoxic derivatives. 4902
Wild mammals and fleas of Red Bluff Ranch, New Mexico. 5767
Design and analysis of forest-mammal repellent tests. 6404
Do small mammals and birds affect reproduction of spruce and fir . 6406
Suitable blood sources permitting reacquisition of infectivity by culture-form Trypanosoma (Trypanozoon) brucci. 6461
More abstracts of papers presented at the 1967 Annual Wildlife Disease Conference Urbana, Illinois June 15-16, 1967. 6533
On the toxicology of Pyrethrum to warm blooded animals. 7384

MAMMARY GLANDS
Histamine in the cow: Pre- and postparturition histamine concentrations in plasma, milk, and tissue. 337
Mastitis prevention and control. 416
Insulin and thyroid hormones in relation to mammary development in hypophysectomized rabbits. 1088
Effects of cortisone acetate on mammary development of rabbits under various endocrine conditions. 1694
Mastitis: Its causes and cure. 2328
Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones. 2880
Histamine in the cow. Effect of histamine and estradiol administration on protein concentrations in milk. 3505
A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 3534
A new induced transplantable rat mammary carcinoma. 3543
Hormonal effect on certain glycolytic enzymes of rat mammary gland. 4831

MAMMILLARIA
Diurnal variation in some Krebs cycle enzymes in cactus (Nopalea dejecta) phylloclades. 4910

MANAGEMENT
Pest control, education, and the New Breed. 577
NPCA conference speakers hit PCO pricing methods. 4949
The management of cases of suspected poisoning. 7173

MANDARIN ORANGES
A systemic fungicide effective against sour orange scab disease. 5957

MANDIBULAR GLANDS
On the components of secretion of mandibular glands of the ant (Lasius (Dendrolasius) fuliginosus). 3170
Actinomycosis of mandible gingivae. 6494

MANDUCA QUINQUEMACULATA
The establishment of a laboratory colony of the tomato hornworm Protoparce quinquemaculata Haw. (Lepidoptera: Sphingidae). 764

MANDUCA SEXTA
Influence of distance on attraction of tobacco hornworm and corn earworm moths to radiations of a blacklight lamp. 2057
Measuring newly hatched phytophagous larvae in the field or greenhouse. 2058
Ultrastructure of photoreceptor cells in a vitamin A-deficient moth (Manduca sexta). 2550
Vitamin A deficiency: Effect on retinal structure of the moth, Manduca sexta. 3807
Diapause in Apanteles congregatus. 4586
Physiological responses of insects to nicotine. 4623
Desmosterol as a common intermediate in the conversion of a number of C28 and C29 plant sterols to cholesterol by the tobacco hornworm. 6835

MANEB
Disinfection of potatoes with maneb and magnesium. comparative effect of maneb and magnesium solfate in the yield of Capiro potato at the experimental substation at La Selva . 964
Control of the Gota of tomatoes. Aspersion of maneb in tomatoes at distinct weekly intervals and levels of rain for the control of Phytophthora infestans. 965
The effect of adhesive protective applications combined with maneb to control Phytophthora infestans of potatoes. 966
Arsenal for disease control. 2115
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Coordination product of zinc ion and maneb. 2406
An investigation of certain factors in the host-pathogen relationship of Cercospora arachidicola on the peanut plant Arachis hypogaea var. Argentine. 2790
Tobacco blue mould (Peronospora tabacina Adam) in north Queensland. 3. Fungicide screening and efficacy experiments. 3404
Fungistatic and fungicidal effects of certain organic products on some fungi causing diseases in vegetables. 5899
Potato early blight and storage rot. 5911
Dogwood diseases. 5944
Field biology and control of Phytophthora parasitica on papaya (Carica papaya) in Hawaii. 5967
A rapid method for the determination of manganese in maneb and its formulations. 7988

MANEB (ZINC ION)
Potato early blight and storage rot. 5911
Investigations on chemical control of zebra disease in Agave hybrid no. 11648. 6036

MANGANESE
Manganous oxide (MnO) as a fertilizer for controlling manganese deficiency in oats. 257
Manganese toxicity in tomato seedlings. 518
The status of some micronutrients in healthy Robusta banana plants. 544
Disinfection of potatoes with maneb and magnesium. comparative effect of maneb and magnesium solfate in the yield of Capiro potato at the experimental substation at La Selva . 964
Effect of iron and manganese on energy transformations in plants with inhibited chlorophyll synthesis. 1811
The influence of some microelements on the fattening process of geese through a diet containing a lot of corn. 3544
The effect of manganese on young poultry growth. 3575
Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control. 4722
Copper and manganese content in different varieties of spring and winter wheat. 5783
Relationship of iron, manganese, and bicarbonate to chlorosis of rice grown in calcareous soil. 6039
Recent trends in disease control in coffee. 6099

Identifying manganese deficiency in avocado trees.
6124

The significance of the manganese content in the hair of cattle.
6492

Manganese toxicity of legumes seeded in Kentucky strip-mine spoils.
7145

Plant analyses uncover hidden hunger in Indiana.
7784

The method of conditioned reflexes in toxicology and its application for determining the toxicity of small quantities of pesticides.
7978

A rapid method for the determination of manganese in maneb and its formulations.
7988

MANGANESE CHLORIDE
Marking insects with dietary manganese for detection by neutron activation.
41

MANGANESE OXIDES
Manganous oxide (MnO) as a fertilizer for controlling manganese deficiency in oats.
257

MANGANESE SULFATE
Identifying manganese deficiency in avocado trees.
6124

MANGE
Studies on the curative effect of Cedrus deodara oil against sarcoptic mange in buffalo-calves.
1718

Contribution to the control of swine mange.
1720

Getting rid of camel mange.
6897

New mangemites of endemic insectivores. (Psorergatidae: Trombidiformes).
6898

MANGOES
Trapping for control of the Mexican fruit fly in mango and citrus groves.
1924

Chemical control of mango hoppers (Idiocerus spp.).
2211

Controlling stem-end rot of ripe mango.
3398

Effects of foliarly applied desiccants on selected species under tropical environment.
3679

Controlling stem-end rot of ripe mango.
6035

Damage caused by adults of Lepidoptera Noctuidae in mango fruits in 1964.
6145

MANIOLA JURTINA
Heritability of spot-number in Scillonian strains of the meadow brown butterfly (Maniola jortina).
7741

MANNANS
Studies on the antigenic activities of yeasts. II. Isolation and inhibition assay of oligosaccharides from acetolysate of mannan of Candida albicans.
1707

MANNITOL
Studies on the brown-eye-spot disease (Cercospora coffeicola Berk. et Cke.) of coffee (Coffea arabica L.). V. Nutritional requirements of the pathogen.
2186

Nutrients derived from the fungus cultured by the fungusgrowing ant Atta columbia tonsipes.
3240

MANSONIA
Pelecitus ceylonensis n. sp. from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon.
6938

MANSONIA PERTURBANS
Mosquito studies in northern Wisconsin. II. Light trapping studies.
2654

MANSONIA UNIFORMIS
Biting cycles and parity of the mosquito Mansonia (Mansonioides) uniformis (Theo.) in Ceylon.
146

MANTIDAE
The Mantodea of Lamto and the savannahs in the Ivory Coast.
1254

A contribution to the genus Mantis Linne and Paramantis, nov. (Mantidae).
3768

MANTIS RELIGIOSA
A review of the praying mantises of Ghana. (Dictyoptera Mantodea).
1905

MANTISPIDAE
Rearing Mantispa viridis Walker in the laboratory (Neuroptera, Mantispidae).
777

Modes of establishing the flicker response in the insect eye in modulated illumination.
7589

MANUALS
Guide to the analysis of pesticide residues.
546

MANUFACTURING COSTS
Some cost figures for concentrate sprays.
1199

The pesticide review.
4952

Animal health business thrives.
6499

Beekeeping: The economics of mechanization.
8014

MANURES
Manures and fertilizers.
5853

Abortion in cattle associated with the feeding of poultry litter.
6679

MAPS
The Lepiodoptera distribution maps scheme.
1406

Pesticides in water, Pesticides in selected western streams--A contribution to the national program.
4870

MARASMIUS PALMIVORUS
Evaluation of fungicides for use against Marasmius palmivorus on oil palms.
2191

MARASMIUS PERNICIOSUS
Auxin destruction by Marasmius perniciosus.
5985

MARGARINOMYCES
Butt rot in yellow-poplar seedling-sprout stands.
5947

MARGARODIDAE
Bionomics of Drosicha mangiferae (Green) on citrus including new record of its three natural enemies.
6246

MARINE BIOLOGY
Factors influencing growth and morphology of Candida albicans in a marine environment.
1820

The arthropod fauna of Sambhar Salt Lake, Rajasthan, india.
5203

Estimation of marine-borer attack on wooden surfaces.
7046

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary.
7113

Seasonal and diel emergence of Chironomus salinarius Kieff. (Dipt., Chironomidae) near Bergen, Western Norway.
7629

Seasonal emergence of Clunio marinus Haliday (Dipt., Chironomidae) in Western Norway.
7630

MARINE BORERS
Timber. Tetrameles nudiflora R., resistant to teredid borers in Bombay harbour.
198

Estimation of marine-borer attack on wooden surfaces.
7046

MARKET DEVELOPMENT
How Ian Hendrif is steering Shell International into expanding pesticide markets.
4948

MARKETING
Molded from wood fibers, new family of products for variety of markets.
572

Market cattle testing for brucellosis and tuberculosis.
1058

What pesticide formulators say about packaging.
1848

MARKETING COSTS
An inventory of market news reports for poultry.
4954

MARKETING RESEARCH
Recipe for modern handling.
575

MARKOV CHAINS
Meiosis IV: Segregation from interchange multivalents as a Markov process.
1502

Meiosis. III: The elastica, and Markov processes as model for non-random segregation from associated non-homologues in Drosophila.
5703

MARRUBIUM
Proclaimed noxious weeds.
6313

MARSHES
Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh.
2037

The ecology of the immature stages of Aedes detritus (Diptera: Culicidae).
3278

Concerning the problem of the persistence of certain weeds in weeded cultures and in the fall sowing of the Banat region.
3467

Salt marsh mosquito control in relation to beef cattle production: A preliminary report.
6904

MASS SPECTRA
Structure of lemmasterone, a novel C29 insect-moulting substance from Lemmaphyllum microphyllum.
3071

A new antibiotic produced by a strain of Aspergillus flavipes.
4334

MASTITIS
Swine mastitis-metritis agalactia syndrome.
369

The occurrence of streptococci of various serological groups as the cause of mastitis with special consideration of group L.
389

Mastitis prevention and control.
416

A protective bag for teats of cows as a preventive measure against mastitis.
1103

Cow diseases and type of housing.
1689

Study on the incidence and etiology of mastitis in sows.
2302

Mastitis: Its causes and cure.
2328

Mycoplasma infection in a Wisconsin dairy herd.
2333

Nocardia asteroides, cause of an endemic mastitis in the cow.
2950

Trials and tribulations of a state-wide mastitis program.
2971

Mastitis.
3541

An approach to identifying atypical streptococci from bovine mastitis- Serological classification and resistance determinations.
3542

Efficiency of various diagnostic tests for mastitis.
3556

Mastitis conditioned by feeding.
3574

Can mastitis be eliminated .
3604

Contribution to the study of bovine mastitis due to fungi.
4125

Observations on the practical use of the rapid mastitis test.
4821

S.N.F. content of milk.
6446

The effect of mastitis on the freezing-point of cows' milk. king, j o l.
6451

The route to control of mastitis.
6465

Effective attack on mastitis...at last.
6466

The application of ultrasound in the treatment of mastitis in cows.
6598

Correlation of four mastitis detection tests with respect to the leucocyte count.
6647

Diagnosis of cow mastitis based on leukocyte count in milk.
6668

Gangrenous mastitis in ewes. II. Characteristics of the staphylococci, isolated from healthy ewes and from ewes affected with gangrenous mastitis.
6675

Diagnosis and spread of the subclinical forms of mastitis in cows.
6676

Pathogenetic therapeutics in cases of cow mastitis.
6697

Pre-disposing factors in mastitis. III. Genetic influences on udder health.
6778

On antibiotic-antimycotic therapy in cattle mastitis.
6802

Increase in resistance to antibiotics in mastitis agents.
7213

The experimental effect of gentamycin and in mastitis of cattle.
7879

MATHEMATICAL ANALYSIS

The question of the statistical proof of diet-dependent mortality.
859

The analysis of response in crop and livestock production.
942

Meiosis IV: Segregation from interchange multivalents as a Markov process.
1502

Meiosis V: Matric and path coefficient solutions of tri--and quadrivalents.
1503

On the ethometry of sign stimuli; the theory of the telotactic choice, and the power principle of the terminal cumulation in arthropods.
1990

An explanation of the oscillatory free-runs in circadian rhythms.
2631

Interpreting plant disease dispersal gradients.
2746

Canonical correlations of seed viability, seed-borne fungi, and environment in bulk grain ecosystems.
3414

Theory of disinfectant testing.
4941

The oxygen binding properties of some larval hemoglobins of Chironomus th. thummi.
5606

Meiosis. III: The elastica, and Markov processes as model for non-random segregation from associated non-homologues in Drosophila.
5703

The stochastic simulation of Tribolium populations.
7743

MATHEMATICS

A mathematical model for two Tribolium populations in competition.
164

MATING

Comparative effects of allatectomy on the activity of the male accessory glands and on the sexual behavior of two acridids: Schistocerca gregaria and Locusta migratoria (sub-species migratorioides and Razalinsk).
4470

Seminal loss in repeatedly mated female Aedes aegypti.
5621

MATING HABITS

Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. II. Mating behaviour.
2081

Growth and resistance to stress in brook trout fed sublethal levels of DDT.
3040

MATRICARIA CHAMOMILLA

Comparison of various methods for the determination of the herbicidal action of herbicide preparations against annual weeds in sugarbeets and potatoes. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4774

MATRICARIA INODORA

Effective methods for the use of herbicides in combination with the mineral fertilizers. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4085

Matricaria and lambsquarter control in Brassicas with analogs of propachlor.
6368

MATSUCOCCUS FEYTAUDI

The attraction to Pissodes notatus (Col. Curculionidae) of the wounds formed by Matsuococcus feytaudi Duc. (Hom. Coccoidea) on maritime pine.
4034

MATTESIA GRANDIS

Development of the bait principle for boll-weevil control. III. Field-cage tests with a feeding stimulant and the protozoans Mattesia grandis (Neogregarinida) and a microsporidian.
3245

MATTHIOLA INCANA

Downy mildew of stocks.
2741

MAYAMIRIS

Lopidea Uhler: New species and records from Mexico and southwestern United States with Mayamiris, related new genus from Mexico (Hemiptera, Miridae).
4530

MAYETIOLA DESTRUCTOR

The Hessian fly.
281

MAZZARD CHERRIES

Fruit symptoms in leaf spot of sweet cherries.
972

Pseudomonas syringae infection of sweet cherry fruit in Utah.
3934

Form and mechanism of transmission of plant viruses. Transmission of viruses by seeds, pollen and contact of roots.
4702

MCINTOSH DEPRESSION VIRUS

A transmissible fruit-depression disease of McIntosh apples.
3991

MEASLES VACCINE

The use of measles vaccines in the immunization of the dog.
6453

MEASLES VIRUS

Presence of antibodies against Rinderpest in dromedary in Chad.
2318

Rinderpest protection in cattle by measles virus. Application in calves with passive immunity from maternal antibodies.
6779

Resistance against canine distemper induced by measles virus. I. Measles vaccination in the presence of distemper antibodies.
6782

MEASUREMENT

The measurement and interrelationships of infections with Nosema apis and Malipighamoeba mellificae of honey-bee populations.
59

Fluorodensitometric measurement of aflatoxin thin layer chromatograms.
451

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells.
2327

Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination.
2421

Omega, a useful index of soil sorption equilibria.
2464

Flight muscle volume change in Ips confusus (Coleoptera: Scolytidae).
2546

A simple method for measuring the motor activity of fleas (Xenopsylla cheopid Roth.).
3285

Temperature and relative humidity regimes in the pine stump habitat of Fomes annosus.
3412

Pesticides in people. Storage of DDT in the people of Israel.
4890

Investigation of sheep dips. 3. The influence of breed on stripping and deposition in the fleece of diazinon.
7124

Bioassay determination of aircraft swaths and rice canopy penetration by low volume insecticidal sprays at Colusa, California.
912

MEAT

Official FDA tolerances.
482

The toxicity of fly ash for cattle.
507

The primaty importance of food.
1049

A new salmonella serotype of the C 2 group, Salmonella sandow.
1087

Contribution to the occurrence of Aujeszky's virus in clinically healthy porkers from chronically infested pig fattening centres. 1711
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Atrazine. 1794
Fatty tissue biopsy in pigs. 2299
Salmonella infection in calves and other animals. II. Comparison of selective media. 2325
Notice of filing of petition regarding pesticide chemicals. 2392
Notice of filing of petition regarding pesticide chemicals. 2393
Notice of filing of petition regarding pesticide chemicals. 2395
The role of meat inspection in a disease reporting system. 2976
The role of meat inspection in public health. 3006
Experiences with culture media for selective microbiological analysis of meat products. 3007
The behavior of some human-pathogenic germs and bacterial toxins in food and their destruction through heat treatments of the food products. I. Salmonella. 3008
Notice of filing of petition regarding pesticide chemicals. 3016
Control of toxoplasmosis by 60Co gamma-irradiation of lamb meat. 3553
Size independent secretion by the corpus allatum of Calliphora erythrocephala. 3843
DDT residues in beef cows fed apple pomace. 4302
The pale muscle problem in pigs. 4845
Experiences with culture media for the selective microbiological analysis of meatproducts. 4869
Curvularin-containing animal feed for promoting growth and increasing feed efficiency. Patent 3,436,223. 6447
The isolation of salmonellas from animal feedingstuffs. 7059
On the biochemical activity of microorganisms in the process of meat degradation. 7060
Production of enterotoxin-B in cured meats. genigeorgis, c. 7063
Toxicology of plant protection preparations. Tolerance limits for toxic residues. 7127
Contribution to the study of antibiotic substances in meats. 7141

MEAT INSPECTION
- Leucosis in swine as a finding from carcass inspection. 2281
- The role of meat inspection in a disease reporting system. 2976
- The role of meat inspection in public health. 3006
- Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

MECHANIZATION
- Evaluation of spray deposits from low volume spray nozzles. 1844
- Modern methods of disease control in florist and nursery crops. 2117
- Coated celery seed aids mechanization efforts. 2470
- Sorghum - specialist advice. 5793
- Isotopes in agriculture. 6440
- Beekeeping: The economics of mechanization. 8014

MECHANORECEPTORS
- Electrophysiological evidence of the tactile function of the sensillary trichia on the antenna of the Speophyes lucidulus Delarouzee (cave Coleoptera) larva. 4479
- The immobilization reflex associated with tactile stimulation of the pronotum of normal larvae of Blaberus craniifer (Burm.) and ones having received implantations of the corpora allata. 4495
- Unit-hair receptor activity from the telson of the scorpion, Heterometrus fulvipes. 5201
- Study of the sensory equipment of the distal joint of the palpi in Locusta migratoria migratorioides (F. and R.) larvae. 5436
- A tactile seta of the Two-spotted Spider Mite, Tetranychus urticae K. (Acarina: Tetranychidae). 5460
- Studies on the transfer function of a cockroach mecanoreceptor. 7596

MECOPROP
- Finesse in weed control. 4778

MECOPTERA
- Habitat and distribution of Mecoptera in East Tennessee. 7588

MEDICAL ENTOMOLOGY
- Medical parasitology and exotic pathology. 185
- Problems of public health and medical entomology. 186
- Gross variations in the response to man among yellow-fever mosquito populations in the laboratory. 2098
- Arthropods. In: Diseases of man acquired from his pets. 3338
- Outline of Syrian parasitology. 4790
- A carbon dioxide bait trap for collecting ticks and fleas from animal burrows. 4972
- A temperature-controlled feeding apparatus for hematophagous arthropods. 4975
- Ixodes walkerae, n. sp. from a bird in Kenya. (Acarina: Ixodidae). 5012
- Ixodes (Lepidixodes) kopsteini Oudemans, 1925, valid name for I. (L.) paradoxus Kohls and Clifford, 1961, with notes on distribution and hosts (Acarina: Ixodidae). 5083
- A new species and new records of Mackiena (Acarina, Trombiculidae). 5111
- A review of the genus Dicteisia Bedford (Mallophaga: Menoponidae) with description of a new species. 5127
- Evansipsylla thysanota, a new genus, new species of flea from Nepal (Siphonaptera: Hystrichopsyllidae). 5156
- Argas (Argas) Japonicus, new species, associated with swallows in Japan and Korea (Ixodoidea, Argasidae). 5174
- A comparative electrophoresis study of the Triatoma rubida Complex (Hemiptera: Reduviidae: Triatominae). 5181
- Hughes virus from Trinidadian ticks and terns. 5188
- The biology of the conenose bug parasite, Pimeliaphilus plumifer Newell and Ryckman (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5191
- Ecological observations on three species of Pimeliaphilus parasites of triatominae in the United States (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5192
- Structure and development of vesicles in larval tissue culture of Aedes aegypti (L.). 5227
- Results of consecutive matings of female Anopheles gambiae species B with fertile and sterile males. 5242
- Mechanical transmission of Trypanosoma lewisi (Kinetoplastida: Trypanosomidae) by Rhodnius prolixus (Hemiptera: Reduviidae). 5261
- Chemosterilization of screw-worm flies, Cochliomyia hominivorax (Coquerel) (Diptera: Calliphoridae): Influence of age at treatment and mating, effect on survival, and transfer of chemosterilant by contamination. 5275
- Chemosterilant-induced increase in mating ability of male screw-worm flies (Diptera: Calliphoridae). 5276
- Features of microclimatic regimen of habitats of sandflies in a village of Karshinsky Oasis. 5329
- Host preferences and discrimination by the mosquitoes Aedes aegypti and Culex tarsalis (Diptera: Culicidae). 5461
- A bipolar differentiated gynandromorph of Culex tarsalis Coquillett, from Texas. 5476
- A technique for rearing trombiculid mites (Acarina) developed in a tropical laboratory. 5489
- Accessory glands of female Culex pipiens quinquefasciatus Say and autogenous Culex pipiens pipiens L. (Diptera, Culicidae): Appearance and behavior in relation to oogenesis. 5567
- Vapona for the control of museum pests. 5576
- Mosquito collections in a high rainfall area of North Queensland, 1963-1964. 5626
- Temperature and humidity effects on the oviposition of Hyalomma aegyptium ticks of different engorgement weights. 5637
- The occurrence of Argas japonicus and Ixodes lividus in Nagano Prefectur, Japan (Ixodoidea: Argasidae; Ixodidae). 5652
- Aggressiveness of different species of sandflies towards man and their infection rate with L. tropica major at the moment of blood-sucking. 5694
- Karyotypes of some Asian mosquitoes of the subfamily Culicinae (Diptera: Culicidae). 5696

The salivary chromosomes of Anopheles stephensi stephensi.
5737

A possible role of blood-sucking mosquitoes in spread of arbovirus infection in the area of the Zaisan Lake.
5747

A technique for feeding larval trombiculid mites on laboratory mice.
5748

Records of eye-frequenting Lepidoptera from man.
5749

Survival of western equine encephalitis virus in Triatominae.
5761

Species of Borrelia from a Columbian bat. (Natalus tumidirostris).
5762

Identification of the host range of Culex tritaeniorhynchus mosquitoes on Okinawa, Ryukyu Islands.
5765

Immunologic structure of the population in a foothill Taiga focus of tick-borne encephalitis in the Zone of Construction of the Krasnoyarskaya Hydropower Station after realization of tick control measures.
5766

Wild mammals and fleas of Red Bluff Ranch, New Mexico.
5767

Canine filariasis on Okinawa, Ryukyu Islands.
6988

MEDICINE

First aid in cases of acute poisoning with agricultural pesticides.
3036

Contribution to the study of arthritis of the dog. Attempts of treatment with orotic acid.
7900

MEGACHILE ROTUNDATA

A record of Megachile rotundata (F.) from Ashcroft. British Columbia.
4358

Susceptibility of an alfalfa leafcutting bee to residues of insecticides on foliage.
5668

MEGACHILIDAE

Nests of some African megachilid bees, with description of a new (oplitis (Hymenoptera, Aoiudea),.
847

Comments on the taxonomy of some Palearctic species of the Megachilidae family (Hymenoptera, Apoidea).
7553

MEGASELIA SCALARIS

Infestation of emulsion paint by the fly Megaselia scalaris (Loew) (Dipt., Phoridae).
126

Whole-body turnover of sodium in adult Drosophila (Drosophiladae) and Megaselia (Phoridae).
2572

MEGATHYMUS

A new species of Agathymus and a new subspecies of Megathymus (Lepidoptera, Rhopalocera, Megathymidae).
705

MEGATOMA

The palearctic species of Megatoma Herbst (Coleoptera, Dermestidae).
3760

MEIOSIS

Meiosis IV: Segregation from interchange multivalents as a Markov process.
1502

Meiosis V: Matric and path coefficient solutions of tri--and quadrivalents.
1503

Temperature sensitivity of segregation-distortion in Drosophila melanogaster.
1511

Non-random assortment of chromosome pairs and meiotic drive in Drosophila melanogaster.
2679

Comparative analysis of spontaneous aneuploidy in males and females of Drosophila.
2682

Oogenesis and reproduction of Heterodera oryzae and H. sacchari (Nematoda: Heteroderidae).
2842

Meiosis in the male of Puto albicans (Coccoidea-Homoptera).
3894

The non-random chromosome segregation in spermatocytes of Gryllotalpa hexadactyla. A micromanipulation analysis.
3896

Chromosomes of the cereal leaf beetle.
3900

Chromosome numbers of some central European Cerambycidae. II.
4648

Karyological studies on the Indian spiders. VIII. Mitosis and meiosis in two species belonging to the family Gnaphosidae.
5478

Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae).
5529

Centromere nature of the chromosomes of Ranatra (Heteroptera).
5701

Meiosis. III: The elastica, and Markov processes as model for non-random segregation from associated non-homologues in Drosophila.
5703

The chromosomes of the caddis-fly, Glyphotaelius pellucidus (Retzius, 1783) (Trichoptera: Limnephilidae, Limnephilinae).
5714

Polytene chromosomes of ovarian nurse cells of the gambiae complex of the genus Anopheles.
7728

Actinomycin D induced chromosome breakage and suppression of meiosis in the locust, Schistocera gregaria.
7736

Phase transformation and chiasma formation in locusts.
7744

The polytenic chromosomes of the bristle forming cell of Calliphora erythrocephala with special consideration on the sex-linked heterozygous structure and the puff model during metamorphosis.
7748

Pseudo-multiple formation as a consequence of prolonged non-homologous chromosome association in Metrioptera brachyptera.
7755

MELAMPSORA LINI

Saprophytic development of the flax rust Melampsora lini, race No. 3.
6115

MELAMPSORA MEDUSAE

A microbiological control of Melampsora medusae.
6011

MELAMPSORA PINITORQUA

Growth-regulating substances from Pinus silvestris separated on Sephadex LH-20.
7990

MELANESTHES

On nocturnal darkling beetles of the genus Melanesthes Lac. (Coleoptera, Tenebrionidae) from central Kazakhstan.
3772

MELANINS

Melanin in an insect, Lucilia cuprina (Wied.).
97

Biochemical studies on Sclerotium rolfsii Sacc.
2144

Tyrosinase activity of the symbionts and fat bodies of the cockroach, Leucophaea maderae.
3208

MELANIZATION

Chronic melanization in the eggs of Aedes aegypti.
3304

MELANOPLUS SANGUINIPES

Oviposition, development of eggs, and chromosome complement of eggs of virgin females of the grasshopper Melanoplus sanguinipes.
2656

Early morphogenesis of tumours induced by Nosema acridophagus in Melanoplus sanguinipes.
3827

MELANOSE

Melanose of citrus.
3988

MELANOSIS

A melanistic form of Parasemia plantaginis L.
607

Melanism in New Jersey Catocala Schrank (Lepidoptera, Noctuidae).
853

Further notes on melanism in Connecticut Panthea furcilla (Packard) (Lepidoptera: Noctuidae).
1421

Absorption measurements on butterflies of the genus Zygaena Fab. (Lep.) as an explanation of the litoral melanism.
3173

Studies of an insect mycosis. II. Biochemical changes in the blood of the queen of the mound-building termite Odontotermes obesus accompanying fungal infection.
3274

Melanism in Connecticut Charadra deridens (Guenee) (Lepidoptera: Noctuidae).
3332

A yellow mutant strain of the large milkweed bug, Oncopeltus fasciatus, that lacks erythropterin.
4645

MELATONIN

Effect of melatonin on egg production of the boll weevil, Anthonomus grandis.
4571

MELDANE

Efficacy of several drugs for control of poultry nematodes. (Abstract).
4272

MELENGESTROL ACETATE

Effect of MGA on body weight, body fat and fatty acid composition of chickens. (Abstract).
4224

MELILOTUS INFESTA

Sweetclover-weevil feeding deterrent B: Isolation and identification.
1598

MELIOIDOSIS

Melioidosis in animals in north Queensland. V. Serological methods of diagnosis in sheep.
3560

Melioidosis in animals in north Queensland. VI. Serological methods of diagnosis in goats, pigs, cattle, horses, and man.
3561

MELOE

Bionomics and taxonomy of Meloe (Coleoptera, Meloidae), with a classification of the New World species.
1903

MELOIDAE

Further studies on the internal anatomy of the Meloidae. III. The digestive and reproductive systems as bases for tribal designation of Pseudomeloe miniaceomaculata (Blanchard) (Coleoptera: Meloidae).
1403

Bionomics and taxonomy of Meloe (Coleoptera, Meloidae), with a classification of the New World species.
1903

The acclimatization of Zonabris variabilis Pall. (Coleoptera, Meloidae) in Sardinia, 20 years after its introduction.
1946

The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae.
5468

Temperature and termination of diapause in Epicauta gorhami Marseul (Coleoptera, Meloidae), with particular reference to the mechanism of contemporaneous emergence.
5491

On the biosynthesis of cantharidins. I.
5594

Results of the Albanian 1961 Expedition of the German Entomological Institute. 69. Contribution. Coleoptera: Meloidae.
7484

MELOIDOGYNE

Relative efficacy of different oil-cakes on the incidence. of root-knot nematodes.
298

The influence of a small application of manure near the seeds on the plant's resistance to infection by nematodes.
2240

Nebraska root-gall nematode of sugar beets.
2253

Additions to host records of root knot nematodes.
2840

Economically important plant parasitic nematodes in Ontario.
2843

Reduction of root knot of tomatoes in dextrose- and ammonium nitrate-amended soil infested with the nematophagous fungus Arthrobotrys oligospora.
2844

Tests of nematocidal fumigants in the control of the nematodes of beets (Heterodera schachtii Schm. and Meloidogyne spp.).
4766

'miracle' tree is in trouble.
6301

A nematode survey of tobacco soils in Rhodesia and Zambia, and the effects of grass-tobacco rotations on nematode populations.
6303

MELOIDOGYNE ARENARIA

Peanut pod invasion by fungi in the presence of lesion nematodes in Georgia.
5974

MELOIDOGYNE HAPLA

Control of Meloidogyne javanica in potato tubers and M. hapla in the roots of young rose bushes by means of heated water.
1024

Species dominance in co-incident infections by Meloidogyne hapla and M. javanica on tomato.
2247

Investigation into the vertical migration of Meloidogyne hapla.
2848

Life cycle and reproduction of Meloidogyne hapla on potato.
4052

Cuticle ultrastructure of the Meloidogyne hapla larva.
6292

MELOIDOGYNE INCOGNITA

Wild and cultivated grass hosts of the southern root-knot nematode, Meloidogyne incognita.
2846

Role of root knot nematode in breaking resistance to Fusarium wilt in tomato.
3359

Overwintering of Meloidogyne incognita in southwestern Ontario.
4047

Cotton and plant parasitic nematodes.
6298

The influence of soil conditions on development of Rhizoctonia solani, Kuhn, on tobacco.
7783

MELOIDOGYNE INCOGNITA ACRITA

Meloidogyne incognita acrita infection failure in aerial parts of cotton.
2829

Enzyme studies in nematode infected root-knots of the tomato plant.
7257

MELOIDOGYNE JAVANICA

Control of Meloidogyne javanica in potato tubers and M. hapla in the roots of young rose bushes by means of heated water.
1024

Species dominance in co-incident infections by Meloidogyne hapla and M. javanica on tomato.
2247

The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato.
2252

Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host.
2261

Nematodes attack bananas.
4768

Control of eelworm diseases of bananas in Western Australia.
6291

Cotton and plant parasitic nematodes.
6298

The influence of soil conditions on development of Rhizoctonia solani, Kuhn, on tobacco.
7783

The influence of tobacco ring spot virus and tobacco mosaic virus on the growth of Meloidogyne javanica.
7844

MELOLONTHA MELOLONTHA

Developmental cycle and pathology of a microsporidosis brought about by Nosema melolonthae (Krieg) comb. nov. in grubs of Melolontha melolontha (L.) (Col. Melolonthidae).
104

Some remarks on the Hydrophilia disease of the larvae of Melolontha melolontha C.(Col. Scarabaeidae).
105

Electron microscopic study of the intracellular rickettsia pathogenesis using Melolontha melolontha L.
169

Systematic and faunistic description of the cockchafer Melolontha melolontha (vulgaris F.) in Switzerland.
591

Preliminary attempts at control of the larva of common cockchafer Melolontha melolontha L. by means of mycosis of Beauveria tenella (Delacr.) Siemaszko.
786

Compared activity of the different pathogens to the larvae of common cockchafer (Melolontha melolontha L.).
812

Study of several physiological and biological characteristics in the third instar of Melolontha melolontha L. larvae which have been contaminated by two pathologic agents.
2584

Preliminary results of the use of two experimental insecticides against soil insects and Leptinotarsa decemlineata.
2635

Experiments on the milky disease of the larva of Melolontha melolontha L.
4515

Results of field experiments carried out in 1954 and 1955 in switzerland concerning the microbial control of the larvae of Melolontha melolontha L.
4622

The possibilities of the microbiological control of Melolontha melolontha L. by means of the mycosis caused by Beauveria tenella (Delacr.) Siemaszko.
5304

Experiments with an artificial spermatophore in cockchafer (Melolontha melolontha L.).
5431

Morphology and chemistry of the parasporal body of Bacillus fribourgensis.
5450

MELONS

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethoate.
1790

Methods for protecting melons from cucumber mosaic virus. The benefit of covering the soil with plastic reflecting films.
6015

Susceptibility of watermelon cultivars to watermelon mosaic virus-2.
6091

Sensitivity of stored melon fruit fungi to gamma irradiation.
7025

MELOPHAGUS OVINUS

1969, controlling insects on sheep and goats.
6905

MELTING OUT

Fairway disease control.
4674

MELTING POINTS

The effect of mastitis on the freezing-point of cows' milk. king, j o l.
6451

MELYRIDAE

Coleoptera: Cantharidae, Malachiidae and Dasytidae from New Caledonia, New Hebrides and Fiji in Bishop Museum, Honolulu.
5170

MEMBRACIDAE

A new African membracid (Hem. Hom.).
601

New Membracidae (Hemiptera: Homoptera) from Sudan and Ethiopia.
602

Treehoppers of certain Mississippi River islands (Homoptera, Membracidae).
779

The presence of large ferritin crystals in the cells of the middle intestine of Campylenchia latipes Say. (Homoptera, Membracidae).
1401

Three new species of Brazilian Membracidae belonging to the tribe Heteronotini.
2526

A new Leptocentrus (Homoptera: Membracidae) from the Congo.
3090

Six new species of Membracidae (Hemiptera: Homoptera) from South Africa.
4366

The genus Gargara Anyot Serville (Homoptera: Membracidae) in South Africa.
4368

A new Leptocentrus (Homoptera: Membracidae) from the Congo.
5009

Studies on Membracidae. IX. A new Costa Rican species of the genus Sphongophorus Fairmaire (HemipteraHomoptera).
7520

MENADIONE

The relation of protein level of alfalfa meals to their vitamin K activity. (Abstract).
4130

MENAZON

Control tests against Dacus oleae Gmel. in the coastal region of Tuscany during 1965.
1960

Insecticidal trials to control mustard aphid, Lipaphis erysimi Kalt., and larger moth, Crocidolmia binotalis Zell., affecting mustard crop.
2820

Spraying in mustard is a must.
5258

MENINGITIS
Central-nervous-system lesions of spontaneous Pasteurella anatipestifer infection in ducklings. 6654

MENINGO-ENCEPHALITIS
The focal distribution of lesions of porcine hypernatremic eosinophilic meningo-encephalitis for diagnostic purposes. 4803
Aspergillus flavus meningo-encephalitis in chickens and geese. 6476

MENOPONIDAE
Two new species of Menoponidae (Mallophaga) from the Falconiformes. 686
A review of the genus Turacoecca with description of a new species (Mallophaga: Menoponidae). 687
A new subgenus and new species of Franciscoloa conci (Mallophaga: Menoponidae). 4422
Dennyus aequatorialis n. sp. (Mallophaga: Menoponidae) from the mottled swift, Apus aequatorialis. 5090
A review of the genus Dicteisia Bedford (Mallophaga: Menoponidae) with description of a new species. 5127

MENTHA
Studies on Sclerotium rot of mints. 1577

MENTHA PIPERITA
Utility value of different cultivated Mentha piperita varieties. 5788

MERCAPTO COMPOUNDS
Chemical weed control and defoliation in potato fields. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4775

MERCURY
Mercury which poisons the environment in Sweden. 1782
Methylmercuric poisoning. 1802
Evaluation of fungicides for use against Marasmius palmivorus on oil palms. 2191
Method of defoliating plants with organomercurials. Patent 3,433,620. 3700
Method of defoliating plants with organomercurials. Patent 3,433,622. 3701
Method of defoliating plants with organomercurials. Patent 3,433,618. 3713
Electron microscopy study of the localization of antigens in a virulent and an avirulent strain of Franciscella tularensis, using mercury-labelled antibodies. 6719
Collaborative studies on the analysis of pesticide residues. 7967
The method of conditioned reflexes in toxicology and its application for determining the toxicity of small quantities of pesticides. 7978

MERCURY CHLORIDE
Studies on stored grain fungi. Part I.--Fungi from wheat and rice from Karachi. 7026

MERCURY COMPOUNDS
Adsorption of maleic acid on mercury-electrolyte interface and the problem of preceding surface recombination. 565
A contribution to the knowledge of hygienic working conditions in the treatment of seed grain. 1197
Relative susceptibility of three peanut cultivars to fat leg (seedling growth anomaly) caused by seed treatment with an organic mercury fungicide. 2119
Rhynchosporium leaf blotch of barley. 2745
Apple and pear canker. 2762
Control of branch wilt disease of grapes. 2766
Potato gangrene. 3392
Turf diseases. 3416
Barley diseases in Western Australia. 6078
Symptoms of intoxications by poisonous pesticides. (JPRS 46216) 7143
Organotin or mercury (carboxy hydrocarbylene amides). Patent 3,446,827. 7371
Seed treatment. Simple and cheap method of controlling diseases. 7815

MERMITHIDAE
The bionomics of a Mermithid nematode of larval mosquitoes in southwestern Louisiana. 1539

MERODON EQUESTRIS
Narcissus flies. 4748

MEROPLEON TITAN
New distribution records for Meropleon titan Todd (Cepidoptera: Noctuidae). 3781

MESOSTIGMATA
A new species of Hirstionyssus from Taiwan (Mesostigmata: Laelapidae. 1335
The external morphology of the post-embryonic developmental stages of Spinturnix myoti Kol. (Acari: Mesostigmata). 1386
A first case of Macrocheles muscaedomesticae Scopoli, 1772 (Acarina: Mesostigmata) in Turkey. 1399
Record of the moth ear mite, Dicrocheles phalaenodectes, in Ohio (Acarina: Mesostigmata). 3865

METABOLISM
Urinary conversion products of injected progesterone-4-14-C in the domestic fowl. 332
Characterization and biological activity of the monocystosis-producing agent of Listeria monocytogenes. 1073
Mineral deficit in cattle of the Szczecin Voyevodship. 1074
Relationship between indole production, nitrate production and carbohydrate fermentation in Vibrio cholerae. 1090
N-Demethylation of the chemosterilant hempa by house fly microsomes. 1351
Lipids of Salmonella typhimurium and Escherichia coli: Structure and metabolism. 1648
Studies on bacteriophage and metabolic identification of Brucella strains. 1678
Phospholipid metabolism during changes in the proportions of membrane-bound respiratory pigments in Haemophilus parainfluenzae. 1710
Aerobic and anaerobic metabolism of larval and adult Taenia taeniaeformis: V. Glycogen synthesis, metabolic endproducts, and carbon balances of glucose and glycerol utilization. 1732
In vitro development of invasive Nematode-larvae to parasitic stages. 1738
Effect of metabolic inhibitors on systems involved in the growth of elongating cells during root formation. 1827
Energy metabolism in insects. 1941
Effect of radiofrequency electric field treatment on protein metabolism in yellow mealworm larvae. 1993
Effect of dimethyl sulfoxide on tobacco mosaic. 2165
Metabolic studies with O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate (dursban) insecticide in a lactating cow. 2296
Metabolism of blood proteins in hens during natural and artificial moulting. 2310
Gastrointestinal protein loss in cattle. A clinical and pathophysiological study. 2324
Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells. 2327
Aflatoxin metabolism by liver microsomal preparations of two different species. 2332
The influence of varying dietary levels of magnesium, calcium and vitamin D on magnesium metabolism. 2341
Oxidative metabolism of phosphamidon in rats and a goat. 2388
Inactivation of Candida albicans by ultraviolet radiation. 2897
Recent advances in our knowledge of parturient paresis with particular reference to the role of vitamin D in its prevention. 2956
Degradation of DDT in Atlantic salmon (Salmo salar). 3038
Photoaldrin and its toxicity to mosquito larvae. 3341
Lipid metabolism in helminth parasites--VI. Synthesis of 2-cis,6-trans farnesol by Hymenolepis diminuta (Cestoda). 3621
An in vitro effect of insulin on glycogen levels in the common liver fluke, Fasciola hepatica (Linnaeus, 1758). 3624
Metabolism of 3,3'-dichloro-5,5'-dinitro-0,0'-biphenol (bayer 9015) anti-fluke agent in a lactating cow. 3670
The anabolic steroids and their use in veterinary therapeutics. 4099
Oxidation of D-malic and beta-alkylmalic acids by wild-type and mutant strains of Salmonella typhimurium and by Aerobacter aerogenes. 4240
Strontium metabolism in hens. (Abstract). 4258
Digitalin metabolism in cardiac insufficiency of the dog. 4307

The influence of antibiotics on mineral metabolism. 4313

Intermediate energy metabolism of Leptospira. 4796

Regulation of branched-chain amino acid biosynthesis in Salmonella typhimurium: Isolation of regulatory mutants. 4801

D-Amino acids in animals. 5271

Gas-liquid chromatography analysis of DDT metabolism in Aedes aegypti. 5370

The relations between transpiration, humidity reaction, thirst and water content in the shorebug Saldula saltatoria L. (Heteroptera: Saldidae). 5443

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. (abstract). 5551

On the biosynthesis of cantharidins. I. 5594

Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract). 5690

2,4-D metabolism. Enzymatic hydroxylation of chlorinated phenols. 5784

2,4-D metabolism; enzymatic degradation of chlorocatechols. 5785

Glucose-dependent secretion and destruction of hydrogen peroxide by Mycoplasma pneumoniae. 6526

Urine pH changes in cattle infected with foot-and-mouthdisease virus. 6535

Comparative studies on blood-stream and culture forms of Trypanosoma lewisi--I. Oxygen utilization, carbon dioxide production and glucose uptake. 6625

The comparative metabolism of ethylene dimethanesulphonate and ethylene dibromide. 6652

Influence of various strains of the Aujeszky virus on the metabolism of cells cultured in vitro. 6658

Catabolite repression in Escherichia coli. A study of tow hypotheses. 6732

Metabolic substances of Staphylococcus aureus of bovine udder origin - a quantitative study. 6739

Biochemistry of aflatoxins. 6846

Role of calcium in the nutritional etiology of a metabolic disorder in ruminants fed a high grain ration. 6857

The biochemical mechanism of action of the anthelmintic drug tetramisole. 6918

The determination of enterokinase activity in the duck intestine during experimental echinostomatosis. 6927

Ancylostoma caninum: Food reserves and changes in composition with age in third stage larvae. 6928

Metabolic fate of histidine in the parasitic worm Fasciola hepatica L.. 6965

The glyoxylate cycle, fructose-1,6-diphosphatase and glyconeogenesis in Fasciola hepatica. 6993

Volatile fatty acids excreted by Fasciola hepatica, L.. 7006

Cytochrome c oxidase in migrating larvae of Ascaris lumbricoides var. suum. 7014

The effect of a pretreatment with phenobarbital on the metabolism of DDT in dairy cows and young bulls. 7086

Toxicity of pesticides to man: Risks from present levels. 7107

DDT and related chlorinated hydrocarbons: Their metabolism in the chick and their induction of microsomal ensymes. 7142

Degradation and activation of parathion analogs by microsomal enzymes. 7189

Metabolism of DDT by rumen microorganisms in vitro. (Abstract). 7345

The metabolism of C-14 labeled DDT in larvae, pupae, and adults of Drosophila melanogaster. 7656

Studies on the antigenic activities of yeast. III. Isolation and inhibition assay of the oligosaccharides from acid-hydrolysate of mannan of Candida albicans. 7809

Role of protozoa in rumen metabolism with special reference to bloat. 7904

The comparative biochemistry of developing Ascaris eggs-VII. Malate oxidation and metabolism in unembryonated eggs. 7936

Metabolism of ascarosides in the ovaries of Ascaris lumbricoides (Nematoda). 7943

Effects of insecticides on algae. 7976

METABOLISM DISEASES

Pig diseases. 6489

METABOLITES

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. 249

Determination of DDT residues and its metabolites in pasteurized frozen yolks by gas-liquid chromatography. 1143

Nature of the water-soluble metabolites of carbaryl in bean plants and their fate in rats. 2267

Metabolic studies with O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate (dursban) insecticide in a lactating cow. 2296

Degradation of DDT in Atlantic salmon (Salmo salar). 2400

Notice of filing of petition regarding pesticide chemicals. 2414

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid. 2415

Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination. 2421

DDT residues and metabolites in Canadian Atlantic coast fish. 3011

Qualitative and quantitative determination of Ekatin residues and analytical results obtained in various cultures. 3021

The distribution, excretion, and metabolites of maleic hydrazide in rats and a method for the detection of metaldehyde in plants. 3026

Loss of gibberellins by leaching from stems and foliage of Chrysanthemum morifolium 'Princess Anne'. 3057

Metabolites of Fusarium oxysporum f. cumini in relation to cumin wilt. II. Influence of growth period, pH and dilution. 3385

Biosynthesis of an estrogenic metabolite by Fusarium graminearum. (Abstract). 3696

Candida albicans as a producer of serotonin. 3710

Rhizosphere root exudates and their effect on microbial activity. 4662

Plant growth promoting metabolites of Sclerotinia sclerotiorum (II) The synthesis of sclerotinin B. 4673

Pesticide residues in a marine population of double-crested cormorants. 4883

Problems in monitoring DDT and its metabolites in the environment. 4889

Structure of Klein's metabolites of aldrin and of dieldrin. 4926

Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract). 5690

Relation between DDT in diets of laying birds and viability of their eggs. 6431

DDT residues absorbed from organic detritus by fiddler crabs. 7125

DDT residues absorbed from organic detritus by fiddler crabs. 7126

Conversion of DDT to DDD by pathogenic and saprophytic bacteria associated with plants. 7254

Conversion of 4-(2,4-dichlorophenoxy) butyric acid to homologs by alfalfa; mechanism of resistance to this herbicide. 7264

The differential interaction of aflatoxins B1,G1 and G2 with deoxyribonucleic acids from different sources. 7291

3-hydroxy-6,7-dimethoxydifuroxanthone - a new metabolite from Aspergillus flavus. 7383

Toxic metabolites produced by fungi implicated in mycotoxicoses. 7794

A new fungal tetrahydrofuran. 1178

The circular dichroism and the sterochemistry of a new fungal tetrahydrofuran. 1186

Degradation of the insecticide GS 13005 in the rat. Elucidation of the structure of the most important metabolites. 7341

METACERCARIA

Minimum time for development and life span of metacercariae. 4270

A damsel-fly as the second intermediate host of a pleurogenetine trematode. 5488

METALDEHYDE

The distribution, excretion, and metabolites of maleic hydrazide in rats and a method for the detection of metaldehyde in plants. 3026

Aspects of trapping slugs with metaldehyde and bran. (abstract). 3493

A laboratory method for assessing the toxicity of stomach poisons to slugs. 6407

Snails and slugs in Central California. 6413

METALS

Certain metal salt complexes useful for controlling helminths and improving growth in animals. Patent 3,408,444. 442

METAMASIUS

Distributional notes on Metamasius (Coleoptera:Curculionidae). 3299

A revision of the Nedtropical genus Metamasius (Coleoptera, Curculionidae, Rhynchophorinae). 5162

METAMORPHOSIS

Pre-gravid phase of ovarian development in Aedes detritus Aedes detritus Haliday. 151

Cellular differentiation and pattern formation during metamorphosis of the milkweed bug Oncopeltus. 831

Structure and metamorphosis of the malpighian tubules of Callosobruchus maculatus (F.) (Bruchidae: Coleoptera). 860

Postembryonic development of the eye ganglia in Anopheles stephensi Liston. 877

Histological studies on postembryonic development of the brain of Drosophila melanogaster. 878

Circadian systems, II. The oscillation in the individual Drosophila pupa; its independence of developmental stage. 884

Spiracular gills. 1409

Anatomical changes in the neuromuscular complex of the proleg of Galleria mellonella (L.) (Lepidoptera: Pyralididae) during metamorphosis. 1458

Activities of respiratory enzymes during the metamorphosis of the face fly, Musca autumnalis De Geer. 1466

Morphological aspects of the development in vitro of the imago discs of Drosophila. 1471

Metamorphosis in the insect world. 1484

The morphological basis of embryonic movements in the light brown apple moth, Epiphyas postvittana (Walk.) (Lepidoptera: Tortricidae). 1918

Structure and ecdysial process of the larval spiracles of the Scarabaeoidea, with special reference to those of Lepidoderma. 1983

Studies on the metamorphosis of the alimentary canal of Hyalophora cecropia (L.). 1992

The life history of Tribolium castaneum (Herbst) (Coleoptera, Tenebrionidae). 1994

The ecology of Sminthurus viridis (Collembola). II. Diapause in the aestivating egg. 2066

New observation on the origin and locality of the microtubules in the ergastoplasm in the migrator locust. Locusta migratoria migratoria (R. and F.). 2551

Study of several physiological and biological characteristics in the third instar of Melolontha melolontha L. larvae which have been contaminated by two pathologic agents. 2584

Intracellular distribution of beta-glucuronidase activity during metamorphosis of the housefly, Musca domestica L. 2585

Development of the beak musculature and sclerites in Heteroptera. 2639

Metamorphosis in ontogenesis of parasitic angiospermous plants. 3063

Variations in sterol and sterol esters during development of Dysdercus koenigii (Hemiptera). 3146

Method of hindering the metamorphosis and reproduction of arthropodes. Patent 3,429,970. 3272

Structure and development of the imaginal wing discs of larva in a holometabolous insect, Bombyx mori (Lepidoptera, Bombycidae). 3806

Teratological effects on the nymphs and adults of insects, the larvae of which have ingested sublethal doses of the thermostable toxin of Bacillus thuringiensis Berliner. 4468

The influence of weight of newly-hatched larvae on the determination of the phase characteristics of the migratory locust, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4471

The influence of the corpora cardiaca on the duration of the fourth and fifth instars of Locusta migratoria L.. 4473

Action of ecdysone on the larvae of Drosophila melanogaster subjected to starvation. The existence of two pre-requisites for the formation of the puparium. 4491

Inactivation of juvenile hormone like compounds in insects. 4501

Internal anatomy of the developmental stages of the twospotted spider mite. 4520

The origin and growth of the genital disc in Drosophila melanogaster Meig. 4540

The importance of heterogeneity in the sexual attraction exercised by female Acrolepia assectella Zeller. 4587

The possibilities of regulating the labial imaginal disc in Calliphora erythrocephala Meigen. 4594

The action of different temperatures on the duration of postembryonic development and the duration between molts in adults of six species of epigeous and cave Collembola, Hypogastruridae. 4609

Transdetermination in cells. 4637

A brief note on entomology. 4977

The cheliceral flagellum of pseudoscorpions. 5231

Studies on the sex ratio of the gypsy moth. 5248

Bracken and locust ecdysones: Their effect on molting in the desert locust. 5251

The physiology of mosquitoes. 5266

Life history notes on Lithophane subtilis (Noctuidae). 5270

The development of fat bodies in the larvae of Calliphora erythrocephala Meig,. 5277

Biology and control of leopard moth on pear trees in the United Arab Republic. 5294

Life history of Heliolonche carolus (Noctuidae). 5354

Uptake of atmospheric water by the hen flea Ceratophyllus gallinae (Schrank). 5377

Changes in the hemocyte picture of Galleria mellonella (Linnaeus). 5396

Spermatocysts in Aedes aegypti (Linnaeus). 5397

Cytodifferentiation during insect metamorphosis: The galea of silkmoths. 5399

Biochemical correlates of respiratory and developmental changes in anoxic Tribolium confusum pupae. 5408

Effect of ligaturing on puparium formation in the larva of the tsetse fly, Glossina morsitans Westwood. 5432

The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae. 5468

Production of dauer pupae in Bombyx mori L. 5482

A note on the metamorphosis of the mid-gut epithelium in Callosobruchus maculatus (F.) (Bruchidae: Coleoptera). 5513

Development of virus antigen in tissues of Pieris brassicae inoculated with Tipula iridescent virus. 5534

Synoptic tables of larvae and imagos of the species of the family Chrysotribax Reitter. (Col. Carabidae). 5548

Postembryonic development of the brain of Musca domestica. 5585

Visual centers during postembryonic life of Callosobruchus maculatus (F.). 5588

Changes in the content of fixed amino acids in tissues of silk worm during development. 5592

Immature stages of Elasmotropis testacea (H. - S.) and notes on the bionomics of the species (Heteroptera, Tingidae). 5632

Sensitivity duration in the photoperiod for the inhibition of maturation of a group of Locusta migratoria migratoria L. (Orthoptera), group Kazalinsk . 5665

Development course of northern cattle grub, Hypoderma bovis, male reproductive cells. 5666

Timing insecticide applications for European corn borer control in Southwestern Quebec, 1967. 6194

The secretory activity of corpora allata during sexual maturation and imaginal diapause in Gryllus domesticus L. and Leptinotarsa decemlineata Say. 7574

Immunoelectrophoresis of proteins in the hemolymph of the large milkweed bug, Oncopeltus fasciatus (Dallas). 7711

A comparison of the carbohydrate composition of the hemolymph and fat body of Phormia regina during larval development. 7718

Patterns of puffing activity in the salivary gland chromosomes of Drosophila. I. Autosomal puffing patterns in a laboratory stock of Drosophila melanogaster. 7724

The polytenic chromosomes of the bristle forming cell of Calliphora erythrocephala with special consideration on the sex-linked heterozygous structure and the puff model during metamorphosis. 7748

METAPHYCUS
On the relationships between ants and parasites of coccids and aphids on citrus. 7840

METARRHIZIUM
On the specificity of Metarrhizium anisopliae (Metsch.) Sorokin (Fungi imperfecti) as a function of its insect origin. 1561

METARRHIZIUM ANISOPLIAE
Some effects of Metarrhizium anisopliae and its toxins on mosquito larvae. 5564
Research on the disease due to Metarrhizium anisopliae, in the migratory locust. 5664

METASTASIS
Nocardia asteroides, cause of an endemic mastitis in the cow. 2950
Metastatic uterine adenocarcinoma in the cow. (A recognizable clinical entity). 6694
Notes on the spontaneous pathology of the dog in the laboratory. 1st note: Leiomyosarcoma of the mesentery in a female dog. 6851

METASTRONGYLUS
Cell and humoral factors of immunity in metastrongyliasis of swine. 1772
Parasites of sows and pigs in Europe. 3625

METASTRONGYLUS APRI
Tetramisole treatment for lungworm infection in pigs. 1736

METASTRONGYLUS SALMI
Metastrongylus salmi Gepoelst, 1923--the pig parasite. 6996

METEOROLOGY
Seasonal dynamics of the invasion extensity of the nematode Syngamus trachea (Montagu, 1811) in breeding turkeys (Meleagris gallopavo f. domestica). 1728
A portable instrumented tower for use in meteorologically related research. 2468
Meteorological aspects of insect migrations. 5379

METEPA
Effect of certain alkylating and non-alkylating chemosterilants on Culex fatigans Weid. 5342
Studies on control of house flies in Egypt by chemosterilants. I. Laboratory studies on Musca domestica vicina. 5346

METHANOL
Low temperature sprays for Dutch elm disease control. 3957

METHIONINE
The effectiveness of mixed feed enriched with lysine and methionine when applied for calf breeding. 342
Half-periods of serum proteins in the dog. 3497
Effect of energy-protein balance, energy intake and methionine on growth and body composition of ducklings. (Abstract). 4140
Effect of methionine on a growth depression induced by supplementing a corn-soybean meal diet with lysine. 4151
Sulfur amino acid requirement of laying hens. (Abstract). 4156
Cottonseed meal, lysine, and methionine for layers. (Abstract). 4219
Specificity of the chick's requirement for choline. (Abstract). 4221
Effect on aphid feeding of dietary methionine. 5479
Biosynthesis of furanocoumarins in diseased celery. 5929
Influence of sulfur on incidence of white muscle disease in lambs. 6865

METHODOLOGY
The methods of titration and the standardization of Bacillus thuringiensis Berliner preparations. 67
A method for counting bacterial cells in the midgut of the silkworm larvae, Bombyx mori L. 107
The method of testing seed potatoes by mean of the callose (Igel-Lange) test. 292
Note on the effect of water on soxhlet extraction of some organochlorine insecticides from soil and comparison of this method with three others. 470
Colorimetric method for the determination of Dichlorovos(DDVP). 561
Farmers' expenditures for custom pesticide service in 1964. 574
Some elementary statistics for the entomologist. VI. The analysis of variance. 773
The technique of determining the effectiveness of Bacillus thuringiensis preparations (spore- Endotoxin -complex) on caterpillars in the laboratory. 807
The creation of artificial foci of parasites- a new method of aphid parasite release. 887
A refinement in aerial applications of paris green granules. 935
Extent of farm pesticide use on crops in 1966. 945
Express method of disintegration of Aspergillus awamori conidia. 955
Biological methods of weed control. Transl. 16892. 1032
Application of latex-agglutination to the measurement of antibody response to M. pneumoniae vaccines. 1078
The molecular structure of the transducing particles of Salmonella-phage P 22. I. Density gradient analysis of intact phages. 1101
Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). 4. Investigation of alimentary preference of the females of P. townsendi in nature. 1102
Specifications for pesticides used in Public Health. 1192
Information retrieval and film filing system for biological research. 1206
Behavioral mutants of Drosophila isolated by countercurrent distribution. 1361
An autoradiographic technique for insect cell monolayers in Rose multipurpose tissue culture chambers. 1384
Possible new and more selective means of pest control. 1392
Mass rearing of Anopheles stephensi Liston. 1395
Methods used in Utah for sampling Tabanid populations. 1423
The mosquito concentrator. 1434
Spectrometric identification of insect sex attractants. 1475
A bioassay method for measuring mosquito larvicide depositions. 1533
Surgical treatment of heartworm disease. 1749
Determination of an activity threshold with the help of statistical methods. 1799
Modern R17,000 plant for packing insecticides. 1845
A numerical taxonomy of orthopteroid insects. 1871
Rainbow's end: The quest for an optimal taxonomy. 1885
Selection methods for pathogenic forms of microorganisms. 1956
Physiological bases for the luring and catching of insects. 2069
Scorpion preservation for taxonomic and morphological studies. 2070
A rapid method for determining the pathogenicity and factors associated with pathogenicity of Phytophthora cactorum. 2123
A laboratory assay for determining pathogenicity of Phytophthora spp. to tomato. 2169
Attenuated infectious canine hepatitis live virus vaccine and method of producing same. Patent 3,432,391. 2298
Salmonella infection in calves and other animals. II. Comparison of selective media. 2325
Removal of DDT, malathion, and carbaryl from tomatoes by commercial and home preparative methods. 2398
Simplified method of preparing column materials for gasliquid chromatographic separation of some pesticides. 2465
Numerical classification of the Canadian species of the genus Aedes (Diptera: Culicidae). 2530
Mass isolation of malaria sporozoites from mosquitoes by density gradient centrifugation. 2552
A method for comparing feeding rates in mosquito larvae. 2563
Calcium alginate: A new approach in the artificial culturing of insects, applied to Spodoptera littoralis (Boisduval). 2620
Methods for the determination of population dynamics in orchards. (Including sampling and collection). 2657
Beekeeping methods in North America. 2664
Gross bioenergetics of Blattella germanica. 2673
A refinement in aerial applications of paris green granules. 2686
Electron microscopy of plant viruses. Bibliography 1935-1965. 2714

METHODOLOGY

Application of Ark's method modified in isolation of Agrobacterium rhizogenes in association with Agrobacterium tumefaciens in galls from Rosa sp. and infected soils. 2776

Appearance of weeds and disease in grain and corn after direct drilling. 2784

Resolute research to defeat grassgrub. 2806

Physio-chemical problems of developing dusting chemicals and seed incrusting chemicals adhering in net conditions. 2810

The use of sterile males to control populations of Queensland fruit-fly, Dacus tryoni (Frogg.) (Diptera: Tephritidae). I. Methods of mass-rearing, transporting, irradiating, and releasing sterile flies. 2813

Some considerations on chemical weed control in Italian beet fields and a survey of some experimental data collected in 1966. 2856

Weed control in separate cultures by burning off. 2861

Wheat control in wheat. 2868

Epizootiology. 2902

The development of feline cell lines for the growth of feline infectious enteritis (panleucopaenia) virus. 2954

A new approach to development of live vaccine against tick-borne encephalitis. 2972

A method for accurate counting of blackfly larvae (Diptera: Simuliidae). 2988

Biological methods for the detection of pesticide residues. 3018

Procedure for aerial spraying of serrated tussock. 3034

The South Cook County Mosquito Abatement District right hand drive in service. 3076

Collecting methods for Tabanidae (Diptera). 3084

Materials evaluated as insecticides, repellents, and chemosterilants at Orlando and Gainsville, Fla., 1952-1964. 3147

Selection methods for pathogenic forms of microorganisms. 3196

Langstroth and Modified Dadant(M D) hives. 3250

Method of hindering the metamorphosis and reproduction of arthropodes. Patent 3,429,970. 3272

A technique for mass rearing the southern armyworm in the laboratory. 3283

Control of thorn trees can double veld capacity. 3343

Tobacco blue mould (Peronospora tabacina Adam) in north Queensland. 3. Fungicide screening and efficacy experiments. 3404

Are you discouraging disease in your crops . 3417

Influence of time and method of application on turkey oak response to picloram plus 2,4-D. 3468

Placement of EPTC-FERTILIZER when seeding birdsfoot trefoil. 3476

Herbicides in use. 3478

Organization and methods of censusing birds and harmful rodents. 3499

The determination of dimethoate residues in fruits and vegetables. 3653

Pesticide testing in dairy factory laboratories. 3656

Spore germination test and Vicia faba plant test for testing the effectiveness of fungicides against Botrytis cinerea. 3678

Laboratory methods for testing the effectiveness of fungicides against Botrytis cinerea. 3683

Response of woody species to 2,4-D, 2,4,5-T, and picloram as a function of treatment method. 3684

Method of defoliating plants with organomercurials. Patent 3,433,620. 3700

Method of defoliating plants with organomercurials. Patent 3,433,622. 3701

Methods for testing the effectiveness of fungicides against Botrytis cinerea. 3702

Grape leaf and begonia test for testing the effectiveness of fungicides against Botrytis cinerea. 3706

Method of defoliating plants with organomercurials. Patent 3,433,618. 3713

The detection of imidazoles including histidine and some of its derivatives in biological fluids. 3726

Comparative studies of American and African Trypanosomiasis. 3908

Effective methods for the use of herbicides in combination with the mineral fertilizers. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4085

Current status of methods for identifying pesticides, a survey. (JPRS 32,031) 4303

Field observations on effectiveness of maleic hydrazide applied to onions by helicopter. 4327

The use of the pre-emergence herbicide Avadex and Avadex BW in the band spraying method. 4343

Notes on methods for the extraction of small soil arthropods by the high gradient apparatus. 4552

Rancho Grande (Venezuela). 2. Microhabitats of. 4595

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). 3. Bionomical notes on Phlebotomus townsendi Ortiz, 1959 and P. vexillarius Fairchild Heritig, 1952. 4596

On the investigative methods of the sound characteristics of small cicadas (Homoptera-Cicadina). 4603

Form and mechanism of transmission of plant viruses. Transmission of viruses by arthropods. 4728

Comparison of various methods for the determination of the herbicidal action of herbicide preparations against annual weeds in sugarbeets and potatoes. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4774

Results of tests with a new corn cultivation technology, using a minimum of work effort and the effectiveness of new herbicides under the conditions prevailing in the Socialist Rumanian Republic. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4783

Study of the selectivity of herbicides for sugarbeets, using laboratory, greenhouse and physiological methods. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4785

Fluorescent antibody techniques for vesicular stomatitis virus. 4799

Pest-management concepts and control of tick paralysis in British Columbia. 4849

Serum antibody to Salmonella flagellar antigens. I. Methods of antibody assay. 4850

General method for the culture of helminths in anaerobic conditions. 4854

An analytical method for determining arsenic in biological material. 4900

A simplified method of freeze-drying caterpillars. 4969

A sound-activated method for recording insect activity. 4970

Applying insecticides to cotton crops. 4971

The phenetic relationships of the butterflies. I. Adult taxonomy and the nonspecificity hypothesis. 5026

A technique for sampling populations of the jack-pine budworm. 5033

Field test of lindane against overwintering broods of the western pine beetle. 5094

Some new analytic and graphic approaches to numerical taxonomy, with an example from the Dermanyssidae (Acari). 5106

The standardization of products based on Bacillus thuringiensis. 5245

Modifications of the Bodian technique applied to insect nerves. 5263

Serological identification. 5280

A note on the feeding mechanism of two fleas. 5283

The in vitro pathogenesis of insect viroses. 5307

Procedures and materials perfected for the rearing and collection of homopterans (Aphididae and Jassidae) during virus transmission studies. 5313

A simple method for counting leaf-hopper eggs inserted in plant issue. 5319

Field studies of an attractant in the male boll weevil. 5338

Electron microscopy for the diagnosis of insect diseases. 5374

Possibilities of mass-producing insect pathogens. 5381

Grasshopper control, 1969. 5411

Morphology and chemistry of the parasporal body of Bacillus fribourgensis. 5450

A bioassay to characterize strains and preparations of Bacillus thuringiensis Berliner. 5451

The 24-inch branch as a sample unit for egg mass surveys of the western budworm. 5463

Exudates of germinating spores of Bacillus thuringiensis. 5502

The mass production of Beauveria bassiana. 5538

Two methods of operating a vacuum sampler to sample populations of the cotton fleahopper on wild hosts. 5559

The use of radioactivity for the assessment of dose in bioassays involving bacterial insect pathogens. 5566

An instrument to hold rabbits for blood sucking Simuliid experiments. 5574

Utilization of Bacillus thuringiensis in the control of Porthetria dispar in Spain. 5575

Collecting method and preliminary analysis of the soluble salivary secretions of the planthoppers. 5618

Use of bioassay in plant protection. 5677

A n improved method for the collection of large numbers of inseminated eggs of Drosophila melanogaster. 5684

Observations on the use of a preparation of Bacillus thuringiensis var. thuringiensis Berliner, for the control of the olive moth (Prays oleae Bern.). 5686

Copper and manganese content in different varieties of spring and winter wheat. 5783

The clearing of underbrush and the destruction of undesireable vegetation in the forest. Inventory of materials and techniques. 5800

Purification of potato virus X and preparation of infectious ribonucleic acid by degradation with lithium chloride. 5930

The possibility of estimating loose smut in a seed lot of barley with regard to the increase from one generation to the next. 5934

A D serotype of satellite virus specifically associated with a D serotype of tobacco necrosis virus. 5949

Fungicides for gladiolus corms. 6002

Mycological techniques in plant pathology. 6044

A rapid colorimetric method for the determination of tobacco mosaic virus concentration in plant saps. 6119

Guide lines for the testing of materials on carrot flies on carrots. 6169

Guide lines for the testing of materials San-Jose scale insect (SJS). 6241

Concerning the problem of controlling the occurence, as well as estimating the degree of infestation of tree stands by Ips typographus L. 6263

Chemical soil treatment for nematode control in tobacco. 6307

Herbicidal N,N-dialkenyl-3-chlorobenzamides and method. Patent 3,436,208. 6356

Effect of range treatment with 2,4-D on rodent population. 6408

Artificial insemination of livestock in the South Pacific. 6434

Recent techniques for serodiagnosis of human and animal hydatidosis. IV. Test with sensitized particals of Latex. 6513

Application of the agar gel technique in the diagnosis of infectious bovine rhinotracheitis. 6567

Note on the evaluation of the efficacy of rodenticides. 7044

Bioassay of captan by zebrafish larvae. 7082

Pesticide residues; history, alternatives and analysis. 7138

Table of human infections. In: Diseases of man acquired from his pets. 7146

A method for studying motor reactions of ascarids. 7153

Central neurotoxic effects of the venoms of Naja naja and Vipera palestinae. 7179

Effects of organic arsenical herbicides on cotton response and chemical residues. 7222

An injection method for treating Hemerocallis spikes with colchicine. 7229

Fungal polysaccharide composition and method for making same. Patent 3,436,311. 7244

Testing of fungicides as to their effectiveness against Botrytis cinerea with the aid of a grape juice test. 7320

Separation and quantitative analysis of the active ingredient dimethoate and of its changed components contained in emulsions and wettable powders. 7325

Organophosphorus pesticides. A gas chromatographic screening technique based on the detection of methylated hydrolysis products. 7326

A comparison of new techniques for the detection and determination of triazine herbicides separated by thin-layer chromatography. III. Fluorescence quenching. 7343

Method for deodorizing O,O-dialkyl S-(alkylthio)alkyl phosphorodithioates. Patent 3,439,071. 7357

Degradation of gamma-BHC in simulated lake impoundments as affected by aeration. 7362

Estimation of DDT in factory waste. 7372

Aspects of the industrial production of microbial insect control agents. 7404

Pesticide chemicals; a programmed text. TP248.P47C6. 7419

Numerical taxonomy --with comments on the synbiological systematics method. 7479

A method of selection of characters in numerical taxonomy. 7496

Rating various detection methods for Ixodes ricinus. 7577

A method of measuring respiratory exchanges in the total insect. 7640

On a method of population estimation using capture-recapture data. 7649

Cultivation of Trypanosoma cruzi in a protein-free dialysate medium. 7907

Diagnosis of rinderpest. 7915

Comparative chromatographic studies on DEAE-SEPHADEX between hemagglutinins of JBE virus (Nakayama strain) and a close strain isolated in Viet-Nam. 7920

An improved method for the separation and removal of organochlorine insecticides from thin-layer plates. 7969

A rapid and sensitive procedure for the routine determination of organo-chlorine pesticide residues in vegetables. 7972

Methods of controlling protozoa infections with N-substituted 1,4-diamino 2,3-anthraquinonedicarboximides. Patent 3,436,460. 6495

METHOXYCHLOR

Controlling the Mexican bean beetle. 56

The dosage of the insecticides: DDT, HCH and methoxychlor for chromatography on a thin layer and for polarography. 562

The alfalfa weevil likes our state . 1001

Methoxychlor as a blackfly larvicide, persistence of its residues in fish and its effect on stream arthropods. 1139

Control tests against Dacus oleae Gmel. in the coastal region of Tuscany during 1965. 1960

Insect control for garden vegetables. 3916

Low temperature sprays for Dutch elm disease control. 3957

Temperature effects on the toxicity of five insecticides against five species of stored-product insects. 5384

Fumigate stored rice to reduce loss to insects. 7030

Collection and analysis of synthetic organic pesticides from surface and ground water. 7957

Insecticide residues in milk and dairy products. 7964

Quantitative determination of pesticide residues by electron absorption chromatography: characteristics of the detector. 8001

Applications of polarography for the detection and determination of pesticides and their residues. 8004

Water-base insecticides. 8015

METHOXYNAPHTHALENE-(1))-4-OXOBUTYRIC ACID, 4-(4-

Choleresis in sheep. 4830

METHYL BROMIDE

Verticillium wilt in the tomato cultures of the Valais. 231

Bromide residues from methyl bromide fumigation of food commodities. 2399

Residual effect of treatment with methyl bromide against Verticillium infection of tomatoes in the second year of cultivation. 2760

Costs and results of the control of the golden nematode of the potato. 2850

Stem eelworm on clover. 3460

Methyl bromide can be dangerous. 3675

Soil fumigation at Boskoop. 3925

Fumigation and reuse of broiler litter. (Abstract).
4222

Methyl bromide, Trizone and Telone PBC compared in the control of fusarium wilt of the greenhouse tomato.
4716

The influence of soil conditions on development of Rhizoctonia solani, Kuhn, on tobacco.
7783

METHYL DEMETON
Tomato yellow top.
3395

Bioecology and chemical control of the apple codling moth (Carpocapsa pomonella) L. in Mendoza.
3436

Toxicity of organophosphorous insecticides applied as foliar spray, soil drench and seed treatment to Aphis gossypii Glover (Aphididae: Homoptera).
4757

Effect and compatibility of nutrient sprays with insecticides and fungicides for groundnut (A. hypogea).
6063

Mealybugs.
7819

The broad mite: Hemitarsonemus latus (Banks) (Acarina: Tarsonemidae).
7825

Collaborative studies on the analysis of pesticide residues.
7967

Growth and fruit drop of young fruit trees sprayed with the acaricides demeton-methyl or tetradifon.
7984

METHYL ISOTHIOCYANATE
Soil fumigation at Boskoop.
3925

METHYL N-((METHYLCARBAMOYL)OXY)THIOACETIMIDATE, S
Some observations on tobacco yellow dwarf control.
6033

METHYL PARATHION
Residues of parathion and methylparathion in potato tubers and in the soil, following soil treatments.
487

The alfalfa weevil likes our state .
1001

A field test comparing resistant varieties plus applications of polyhedral virus with insecticides for control of Heliothis spp. and other pests of cotton, 1967.
1962

Electrocardiographic aspects of experimental methyl-parathion poisoning.
3041

Malathion, methyl parathion, diazinon, and endosulfan residues in sunflower seeds.
3665

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas.
4876

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Parathion or its methyl homolog.
4881

Response of the striped lynx spider, Oxyopes salticus, to two commonly used pesticides.
5550

The permeability of protective clothing and packing materials in regard to insecticidal phosphoric acid derivatives.
7339

Effects of various water volumes on the effectiveness of methyl parathion-DDT in controlling the cotton boll weevil, Anthonomus grandis.
7979

Recent developments in the detection and determination of pesticides and their residues by oscillographic polarography.
8003

Control of pasture Aedes mosquitoes by dripping larvicides into flowing water, with notes on residues in a pasture habitat.
5486

METHYL-2-(METHYLTHIO)PROPIONALDEHYDE O-(METHYLCARBAMOYL) ORANGES
Systemic activity of UC-21149 against the citrus red mite, citrus thrips, California red scale, and spirea aphids on nonbearing orange trees.
6265

METHYL-2-(METHYLTHIO)PROPIONALDEHYDE O-(METHYLCARBAMOYL)OXI NEMATOCIDES
Some observations on tobacco yellow dwarf control.
6033

Notice of filing of petition regarding pesticide chemicals.
1147

METHYL-2,3-QUINOXALINEDITHIOL CYCLIC CARBONATE, 6-
Intensive field comparison of fungicides for apple mildew control.
7769

METHYL-3-NITRO-1-NITROSOGUANIDINE, 1-
Antimicrobial evaluation of 1-methyl-3-nitro-1-nitrosoguanidine.
2920

The effect of some treatment conditions on the radiomimetic activity of 1-methyl-3-nitro-1-nitrosoguanidine in plants.
7258

METHYL-4-CHLOROPHENOXY)BUTYRIC ACID, 4-(2-
A field trial with phenoxybutyric herbicides on tropical forage legumes.
308

A comparison of post-emergence herbicides in young lucerne.
324

Perennial bindweeds.
4074

Response of mixed crop of wheat and rape to three chlorophenoxy herbicides.
4777

METHYL-4-CHLOROPHENOXYACETIC ACID, 2-
The control of rushes.
3479

Ragwort.
4073

Perennial bindweeds.
4074

Weeds and their control.
4782

Ten keys to herbicide effectiveness.
6342

Chemical weed control in high yielding rice varieties.
6393

Response of flax to postemergence herbicides.
7314

METHYLACETOPHENONE, 4'
Study on attractant of the rice stem borer, Chilo suppressalis Walker.
3835

METHYLBENZYL 3-HYDROXY-CIS-CROTONATE DIMETHYL PHOSPHATE, ALP NEMATODES
Shell products for animal health.
6423

Laboratory tests of five new insecticides as protectants for stored rough rice. (abstract).
7031

METHYLENE BLUE
The present clinical and pathological picture of chronic erysipelas infection in pigs. III-V.
344

METHYLENEBIS(3,4,6-TRICHLOROPHENOL), 2,2'
Process for preparing bis-(3,5,6-trichloro-2-hydroxyphenyl) methane. Patent 3,408,408.
553

Combating bacterial and fungal plant diseases with hexachlorophene(2,2'-methylene bis-(3,4,6-trichlorophenol). Patent 3,420,936.
6134

METHYLENEDIPHENOLS, 2,2'
Monophosphoric acid esters of halogen containing 2,2'-methylenediphenols. Patent 3,439,069.
7017

METHYRIDINE
Efficacy of several drugs for control of poultry nematodes. (Abstract).
4272

Effect of paddock size, stocking rate, anthelmintics, and trace elements on the weight gain of young cattle.
6828

The systemic action of methyridine against helminths, especially whipworms, in dogs.
6929

METOBROMURON
Effects of selected herbicides upon growth of soil algae.
7265

METRITIS
Swine mastitis-metritis agalactia syndrome.
369

Embryostat (oxytetracycline powder). Drugs for veterinary use, drug efficacy study implementation.
4173

Use of potassium iodide in the treatment of ovarian cysts in cows.
6552

MEVINPHOS
Procedure for semi-quantitative confirmation of some organophosphorus pesticide residues in plant extracts.
2426

Consistency of Rst values of six organophosphorus pesticides resolved by thin-layer chromatography in the presence of plant extracts without elaborate clean-up.
2453

The spined citrus bug--Biprorulus bibax Bredd. (Hemiptera: Pentatomidae).
2804

A check of the resistance to washing of various pesticides on apples and grapes.
3028

The utilization of the in vitro cholinesterasis reaction for the identification and separation of insecticide residues.
3067

Studies on the strawberry mite (Tetranychus telarius (L).
6161

MEXICO
Polyphylla Harris in America, north of Mexico. I. The diffracta complex (Coleoptera: Scarabaeidae: Malolonthinae).
730

MICE
Modifications of the natural resistance to infection of mice treated by several histone fractions.
403

A new type in experimental intraperitoneal infection of staphylococci in mice.
414

Isolation of rabies virus from fruit bats in Thailand.
419

On the cultivation of Trypanosoma brucei and of its reproductive capacity in virus-infected hosts.
1055

Effect of specific immune mouse serum on the growth of Salmonella enteritidis in nonvaccinated mice challenged by various routes.
1062

Effect of specific immune mouse serum on the growth of Salmonella enteritidis in mice preimmunized with living or ethyl alcohol-killed vaccines. 1063

The susceptibility of mice to Leptospira pomona. 1108

A new technique for the recovery of spider venom. 1259

An automated repellency assay system. I. Statistical methods. 1416

An apparent inhibition phenomenon in anopheline mosquitoes infected with Sindbis virus. 1531

Use of an antiglobulin plaque neutralization test among group A arboviruses. 1656

Experimental salmonellosis. X. Cellular immunity and its antibody in mouse mononuclear phagocytes. 1682

Experimental salmonellosis. XI. Induction of cellular immunity and formation of antibody by transfer agent of mouse mononuclear phagocytes. 1691

Rabies diagnosis. Studies on the incubation period and course of the disease in the mouse test from 1960 to 1966. 1693

Modification of selected host-reactive properties of endotoxin by treatment with sodium deoxycholate. 1708

Experimental investigation of goss immunity between Trichinella spiralis and Ascaris suum. 1758

Peptide antibiotics. Do they represent only a few of many yet undiscovered microbial peptides. 1832

Biochemistry of friend virus-infected cells. I. Virionspecific RNA. 2292

Aflatoxin metabolism by liver microsomal preparations of two different species. 2332

Pathologic responses of the mature and developing nervous system to bluetongue virus. 2336

The pathogenesis of experimental distemper in mice. 2350

Concerning the larva migrans visceralis of Ascaris lumbricoides in the experimental host (mice). 2360

Immunological studies on experimental ascariasis. 2378

Effect of DDT or parathion on condition avoidance response of offspring from DDT or parathion treated mothers. (abstract). 2427

Control of DNA synthesis in cells infected with polyoma virus. 2894

Epidermal chalone and mitotic control in the Vx2 epidermal tumour. 2896

Shared group-specific antigen of murine and feline leukemia viruses. 2909

Antimicrobial evaluation of 1-methyl-3-nitro-1-nitrosoguanidine. 2920

Rabies diagnosis. Comparative study on susceptibility of adult and suckling mice. 2951

Use of adult mice for potency testing of inactivated type o foot and mouth disease vaccine. 2967

Cuterebrid infestation of Microtus in eastern North Dakota, Pennsylvania, and New York. 2991

Studies on growth curve, viraemia and the localization of African horse sickness virus type IX in adult mice. 3540

The occurrence of virus and interferon in the spleen serum and brain in mice after experimental infection with the West Nile virus. 3552

The in vivo interaction of Candida albicans and Salmonella typhimurium. 3577

Virulence, adsorbability, and antigenicity of foot-and-mouth disease virus selected by adsorption with homogenized mouse kidney. 4124

Toxoplasma infection: Some factors possibly contributing to the mechanism of toxoplasmic infection. 4189

The animal adenoviruses. 4217

Virulence, adsorbability, and antigenicity of foot-and-mouth disease virus selected by adsorption with homogenized mouse kidney. 4802

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 4811

Inhibition of the multiplication of foot-and-mouth virus in an adult mouse which had first been treated with the adjuvant of Freude . 4814

Quantitative studies on the neutralization reaction between African horse-sickness virus and antiserum. 4817

Salmonella abony-Salmonella typhimurium recombinant nonvirulent for the mouse. 4822

Opsonins examination in the mouse after endotoxin-induced resistance to infection. 4833

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 4841

Therapeutic effect of SDDS (2-sulfamoyl-4,4'-diaminodiphenyl sulfone) on experimental toxoplasmosis. 4843

A note on the feeding mechanism of two fleas. 5283

Host preferences and discrimination by the mosquitoes Aedes aegypti and Culex tarsalis (Diptera: Culicidae). 5461

A technique for feeding larval trombiculid mites on laboratory mice. 5748

1969 fruit spraying calendar, for commercial fruit growers. 5804

Adrenergic mechanism in Bordetella pertusis treated animals. 6475

Cross-protection against Salmonella enteritidis infection in mice. 6528

Avian reoviruses. IV. Relationship to human reoviruses. 6548

Distribution of experimentally induced scrapie lesions in the brain. 6580

Relationships of X-irradiation to the enhancement of Candida albicans infections. 6599

Resistance of vaccinated mice to typical and atypical strains of Coccidioides immitis. 6635

Early antibody response in mice to either infection or immunization with Salmonella typhimurium. 6665

A study of experimental ornithosis in the white mouse infected through the peritoneal cavity. 6751

Action of Bayer preparation A 139 on rabies virus. 6785

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 6811

Relation of infection to tissue temperature in mice infected with Mycobacterium marinum and Mycobacterium leprae. 6813

Mechanisms of pathogenesis in Listeria monocytogenes infection. III. Carbohydrate metabolism. 6866

Multiplication and differentiation of Trypanosoma cruzi in an insect cell culture system. 6875

Trichinella spiralis: Immune elimination in mice. 6935

Standard techniques for larval discovery in microascaridic infection by Toxocara canis (Werner, 1782) in the white mouse; observations on the larval migrations and burdens in the experimental infections conferred through oral, intraperitoneal and subcutaneous route. 6969

Homocytotropic antibody response in mice infected with Schistosoma mansoni: Comparasion with the response following Trichinella spiralis infection. 6979

On the use of TEGO 51 in animal food industries--toxicity and bactericidal properties. 7067

Hepatotoxic potency of various chlorinated hydrocarbon vapors relative to their narcotic and lethal potencies in mice. 7166

The effect of sex and age on the response to warfarin in a non-inbred strain of mice. 7198

Nickel toxicity in young growing mice. 7212

Ultrastructural changes in experimental lipid pneumonia. 7867

Serum mediated killing of three group D salmonellas. 7873

Syngeneic marrow graft: Effect on persistence of preirradiation immunity to Hymenolepis nana in mice. 7940

Responses of cell cultures to insecticides. IV. Relative toxicity of several organophosphates in mouse cell cultures. 7977

Studies on a series of branched-chain analogs of diethyl malathion and malaoxon with regard to toxicity and in vitro enzymatic reactions. (abstract). 7151

MICRALYMMA MARINUM

Distribution and distributional centers of North Atlantic insects. 4407

MICROARTHROPODS

Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 2508

MICROBIAL CONTAMINATION

On the microbiological quality of hen's eggs. 1135

Health hazards associated with production and preparation of foods. 3657

Dry milk equipment design and its relation to the salmonella problem. 7065

MICROBIAL INSECTICIDES

Possibilities of mass-producing insect pathogens. 5381

Aspects of the industrial production of microbial insect control agents. 7404

MICROBIOLOGY

The use of micro-organisms for the control of insect pests. 136

How fungi infect stored grains. 261

Concentration of certain myxoviruses with polyethylene glycol. 378

Collaborative study of a quantitative method for Clostridium perfringens in foods. 455

False-positive coagulase reactions in the characterization of microorganisms isolated from foods. 457

Solid state fluorescence emission of aflatoxins on silica gel. 460

The culture of Phytophtora infestans on fully synthetic culture medium substrata. 525

Collaborative study of microbiological assay of oxytetracycline in feeds. 545

Studies on the microfungi in the forest floor of subarctic pine forests. 983

On the microbiological quality of hen's eggs. 1135

Junctions between epidermal cells as sites of appressorium formation by plant pathogenic fungi. 1578

Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690

Inhibitory effect of neutral red on bovine virus diarrheamucosal disease plaque formation. 1704

Annual report 1967. 1826

The special forms in the classification of phytopathogenic bacteria. 2793

Experiences with culture media for selective microbiological analysis of meat products. 3007

Cooperative description of type cultures of Strepomyces. II. Species descriptions from first study. 3349

Instrumental evaluation of aflatoxin resolution on TLC plates. 3647

The design of microbiological safety cabinets. 3650

Observations on septicemia of cattle caused by a Haemophilus-like organism. 4211

The effects of soil sterilization procedures on the microbiological equilibrium of the soil. 4672

Experiences with culture media for the selective microbiological analysis of meatproducts. 4869

The influence of environmental factors. 5378

2,4-D metabolism. Enzymatic hydroxylation of chlorinated phenols. 5784

2,4-D metabolism; enzymatic degradation of chlorocatechols. 5785

A microbiological control of Melampsora medusae. 6011

Fluctuations in natural soil populations of Verticillium tricorpus. 6106

The bacterial population of an indoor poultry lagoon. 6416

Aerobic agents of animal actinomycosis. 6547

A comparative study of morphologic changes within Hep-2 culture cells inoculated with various adenovirus serotypes. 6744

Further studies on the screening technique for determining Salmonella-negative samples of pasteurized dried egg. 7048

Note on a microbiological assay for aflatoxin B,: A rapid confirmatory test by effects on growth of Bacillus megaterium. 7052

Rapid confirmatory test for aflatoxin B, using Bacillus megaterium. 7053

Microbial degradation of aromatic compounds. 7346

Clinico-microbiological and immunological studies on experimental oral infection in pregnant sheep with Salmonella abortus ovis. 7865

MICROCLIMATE

Insect mycology: Glimpses and perspectives. 131

Rancho Grande (Venezuela). 2. Microhabitats of. 4595

The insect world. Series: The universe of knowledge. 4967

MICROCOCCACEAE

Experiences with culture media for the selective microbiological analysis of meatproducts. 4869

MICROCRAMBUS

The North American Microcrambus (Lepidoptera:Pyralididae). 3112

MICROFILARIAE

Infection experiments with the Filaria of the cotton rat, Litomosoides carinii Chandler 1931 (Filariidae) in inadequate hosts. 1774

Blood parasites found in imported birds at postmortem examination. 6987

MICROFLORA

Investigations concerning the microflora of isterband , a Swedish fermented type of sausage. 7062

In vitro degradation of DDT by intestinal contents of Atlantic salmon (Salmo salar). 7096

Some effects of diazinon on the microflora of submerged soils. 7133

MICROLEPIDOPTERA

Bibliography of the faunistic literature on microlepidoptera for the area of the German Democratic Republic. II. 1203

Microlepidoptera of the Philippine Islands. 1239

Bibliography of the faunistic literature on microlepidoptera for the area of the German Democratic Republic. I. 1248

Entomological results of catches in the area of San Bernardino (Misox Gr), which has not been fully explored lepidoterologically. (A building block of the Swiss Lepidoptera fauna). 5147

MICRONUTRIENTS

Marking insects with dietary manganese for detection by neutron activation. 41

Effect of boron toxicity on some leaf constituents in groundnut (Arachis hypogaea, Linn.) plants. 522

Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein. 536

The status of some micronutrients in healthy Robusta banana plants. 544

Trace element studies on some pathogenic fungi. 1590

Effect of micronutrients on yield and their contents in wheat. 3373

Mycorrhizae: Indispensable invasions by fungi. 3374

The influence of some microelements on the fattening process of geese through a diet containing a lot of corn. 3544

Fusarium wilt (race 2) of tomato: Calcium, pH, and micronutrient effects on disease development. 3974

Micronutrients: The secret of better yields for farmers. 3976

The effects of increasing molybdenum rates on building of dry material of clover. 4322

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602

Effect of Spartin under dryland farming on Setaria italica (Beauv.). 4915

Soil science and agricultural chemistry. 5805

Manures and fertilizers. 5853

Metabolic activity of pea root ribosomes under conditions of boron deficiency. 5877

Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil. 5880

Italian beet culture. The diseases: Fungi and viruses. 5926

Are sick plants dangerous. 5943

A microbiological control of Melampsora medusae. 6011

Zinc deficiency may limit maize yields. 6075

Effect of paddock size, stocking rate, anthelmintics, and trace elements on the weight gain of young cattle. 6828

The effect of magnesium on the growth of lucerne, grown on grey forest soils. 7228

On the mechanism of chloride toxicity. 7243

The effect of microelements on the rate and percentage of germination with lucerne and soybean. 7279

The effect of trace elements on the yield and quality of camomile flowers and peppermint leaves. 7282

Studies on the molybdenum availability. Part I. Molybdenum uptake by plants under different nitrogen and phosphorus nutrition. 7288

The distribution of trace elements in the leaves of the coconut palm, and the effect of trace element injections. 7297

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part I. Water balance and the optake of some mineral nutrients. 7316

Stilbestrol, antibiotics, vitamins, urea, minerals: What we're learning about feeding beef. 7874

MICROORGANISMS

The use of micro-organisms for the control of insect pests. 136

Application of beta-propiolactone on the rearing of the silkworm, Bombyx mori L. 167

Control of race 2 Fusarium of tomatoes. 237

Dieback. 251

Breast blisters in turkeys. 402

Influence of microorganisms on intestinal absorption: Oleic acid 131I and triolein 131I absorption by germfree and conventionalized rats. 427

Combined utilization of entomophages and microorganisms with a view of replacing or limiting the use of chemical treatments. 769

Reflections on epizootiology. 800

Current accomplishments and perspectives of the microbiological control. 801

Parasites of ladybirds (Coleoptera, Coccinellidae) in Leningrad province. 835

The problem of the utilization of entomopathogenic microorganisms in combination with insecticides. 896

Biological methods of weed control. Transl. 16892. 1032

Mycotoxins in poultry foods. 1092

A note on two isolates of Rhizoctonia solani Kuhn from wheat. 1560

The physiology, inter-relationships and effects on the wood of fungi which attack birch and aspen pulpwood. 1567

Trace element studies on some pathogenic fungi. 1590

Peptide antibiotics. Do they represent only a few of many yet undiscovered microbial peptides . 1832

Selection methods for pathogenic forms of microorganisms. 1956

The influence of the genotype on cell affinities in combinations of imago organisms of Drosophila melanogaster. 2079

Host resistance responses- an induction hypothesis. 2139

The effect of molds on the enzymic acivity, respiration and viability of stored grain. 2381

The effects of plant amendments and their associated microflora on Rhizoctonia solani Kuehn. 2451

Selection methods for pathogenic forms of microorganisms. 3196

Anthracnose disease of jowar (Sorghum vulgare Pers.) caused by Colletotrichum gramincolum (Ces.) Wils. in the Punjab. 3363

Comparative morphologic features of Babesia caballi and babesia equi. 3587

Hornflies tested in anaplasmosis vector study. 3610

A microbiological survey of British fresh sausage. 3643

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Viable spores of the micro-organism Bacillus thuringiensis Berliner. 3660

Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes. 3799

On the effect of combined action of pathogenic microorganisms and insecticides upon insects. 3884

The tobacco mosaic virus (TMV) in the nutritive solution of the tomato hydroponous culture. 4014

From the realm of microorganisms. Some interesting structures of plant microorganisms. 4026

New observations on the transport of intranuclear microorganisms, called Phi particles, by the spermatozoids in homopterous insects. 4556

Rhizosphere root exudates and their effect on microbial activity. 4662

Cryptogama diseases of the root system. Prevention and control. 4681

The meaning and definition of biological control. 4742

Problems in monitoring DDT and its metabolites in the environment. 4889

The in vitro pathogenesis of insect viroses. 5307

Possibilities of mass-producing insect pathogens. 5381

On the transport of microorganisms (Phi particles) by the female germinal cells in the homopteran Typhlocyba douglasi Edw.. 5454

Simultaneously effective anti-fungal and insecticidal or acaricidal pesticides. Patent 3,450,818. 5527

Transmission of the tularemia pathogen to homothermal animals by Ixodes ticks. (JPRS 44,105). 5758

Third contribution to the knowledge of keratinolytic and keratinophilic soil fungi in the region of Szczecin. 5818

Some problems of plant-parasite relationship. 5838

Chemicals for control of cabbage clubroot - Plasmodiophora brassicae Wor. IV. Effect on the pathogen. 5915

Isolation and purification of mycoplasm-type microorganisms after the grapes attain a yellowish gild. 5945

Studies on Stereum sanguinolentum in Kenya pine plantations. 5948

Mycological techniques in plant pathology. 6044

Recent trends in disease control in coffee. 6099

The susceptibility of cereals and wild oats to an isolate of the aster yellows pathogen. 6128

Morphological transformations and lysis of Halobacterium salinarium by 4-(2,4-dichlorophenoxy)butyric acid and related compounds. 6377

On the permanent bedding of chicken. Some technical and hygienic-sanitary questions. 6414

The morphologic response of the turkey oviduct to certain pathogenic agents. 6483

Study of the virulence of Contagious Bovine Pleuropneumonia organism (Assam strain) on subcutaneous pathogenicity test. 6542

Feline infectious anemia (Haemobartenella felis) diagnosis and treatment. 6594

Pathogenetic therapeutics in cases of cow mastitis. 6697

Gas chromatographic analysis of head-space vapors to identify micro-organisms in foods. 7058

On the biochemical activity of microorganisms in the process of meat degradation. 7060

Action of microorganisms on the peroxides and carbonyls of fresh lard. 7066

In vitro degradation of DDT by intestinal contents of Atlantic salmon (Salmo salar). 7096

Detection and differentiation of pathogenic Clostridia and their toxins. 7144

Tests with a combination preparation for the treatment of infectious diseases of microbial origin. 7148

Postirradiation modification of ultraviolet-sensitivity of normal and nitrofurazone-resistant strains of the blue-green alga Anacystis nidulans. 7217

Metabolism of DDT by rumen microorganisms in vitro. (Abstract). 7345

Microbial degradation of aromatic compounds. 7346

Process for destroying microorganisms in agriculture. Patent 3,444,301. 7380

Biology of the European chafer, Amphimallon majalis (Coleoptera: Scarabaeidae) in Northeastern United States. 7709

Diagnosis of rinderpest. 7915

MICROPEZIDAE

A new species of Neotylos Hendel, 1932 (Diptera, Micropezidae). 1209

Notes on some older types of neotropical Micropezidae with descriptions of new species (Diptera, Acalyptratae). 3131

MICROSCOPY

A method for counting bacterial cells in the midgut of the silkworm larvae, Bombyx mori L. 107

The method of testing seed potatoes by mean of the callose (Igel-Lange) test. 292

Tick fever in poultry. 415

Concurrent microscopical, cytochemical and electron microscopical study on the cell polarity of Equisetum spore mother cells in syndetic stage. 526

Thin layer chromatography identification of pesticides using dip-coated presensitized microscope slides. 1146

Chromosome studies in the genus Nabis Lt. (Heteroptera, Nabidae). 1512

Study of pinocytosis in the tissues of the Rosaceae Leptomonas ctenocephali. 1569

Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690

Recovery from paraquat poisoning. 1804

Factors influencing growth and morphology of Candida albicans in a marine environment. 1820

Morphological and histochemical study of the scent gland in the pond-skater, Gerris spinolae Lcth. et Seu. (Gerridae-Insecta). 2032

Determination of the water content of nematode worms by interference microscopy. 2242

The gross and microscopic changes in sublethal staphylococcal alpha-toxin pancreatitis in dogs. 2276

A new species of Pestalotia on the leaves of Phoenix rupicola Ander. 2721

Diagnostic tests for brucellosis. 2934

Some observations on experimental infection with Histoplasma farciminosum (Rivolta) and the morphology of the organism. 3589

Leptospirosis II. 3599

Salmonella organisms in milk powders. The characteristics and importance of Salmonellae. 3648

Epithelial changes in porcine exudative epidermitis; the light-microscopical picture. 4208

Pathological studies on pseudotuberculosis rodentium. III. Spontaneous swine cases. 4829

Polarized light observations on striated muscle contraction in a mite. 5198

Mesosomes in m-tyrosine-inhibited Bacillus thuringiensis. 6474

The morphologic response of the turkey oviduct to certain pathogenic agents. 6483

Experimental leptospirosis. III. Leptospirosis in dogs. Experimental reproduction of the sickness. 6508

A complement fixation test for the study of avian mycoplasma. 6583

Hepatocellular carcinoma in the dog. 6586

Some observations on Marek's disease (fowl paralysis). 6595

The olfactory bulb lesion in the hibenating squirrel (Citellus lateralis) infected with coxsackievirus B-3. I. Virus assay, light microscopic and immunofluorescent study. 6604

Early changes in bursa of Fabricius from Marek's disease. 6642

Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis. 6646

On pyroplasmodias in sheep and goats. II. Research into anaplasmosis. 6686

Aspergillosis in Japanese quail. 6749

Influence of some preparations applied into the udder on the pH, microscopic cellular appearance, California Mastitis Test and on the content of catalase and chlorides in milk. 6837

Notes on the spontaneous pathology of the dog in the laboratory. 2nd note: Hematoma of the spleen. 6850

Experimental transmission of sheep pulmonary adenomatosis (ijaagsiekte). 6861

Microscopic identification of some chlorinated hydrocarbon insecticides on different substrata. 7381

MICROSOMES

N-Demethylation of the chemosterilant hempa by house fly microsomes. 1351

Aflatoxin metabolism by liver microsomal preparations of two different species. 2332

Epoxidation of aldrin by plant materials. 2457

Intracellular distribution of beta-glucuronidase activity during metamorphosis of the housefly, Musca domestica L. 2585

Studies on the sterols and sterol esters of the intracellular organelles of maize shoots. 3056

Some biochemical characteristics of the microsomal cyclodiene epoxidase system and its inheritance in the house fly. 3331

Some properties of the microsomal system metabolizing DDT in Triatoma infestans. 5183

A sodium and potassium stimulated adenosine triphosphatase in the cockroach nerve cord. 5337

DDT and related chlorinated hydrocarbons: Their metabolism in the chick and their induction of microsomal ensymes. 7142

MICROSPORIDIA

New facts concerning the extrusion of microsporidian spores. 122

Parasites of ladybirds (Coleoptera, Coccinellidae) in Leningrad Province. 3844

MICROSPORUM CANIS

Treatment of Microsporum canis ringworm in a cat colony. 1735

MICROSTIGMUS COMES

Nesting biology of the social wasp Microstigmus comes (Hymenoptera, Sphecidae, Pemphredoninae). 844

MICROTERYS

On the relationships between ants and parasites of coccids and aphids on citrus. 7840

MICROTERYS CLAUSENI

Microterys clauseni Compere (Hym.: Encyrtidae). 3796

MIKIOLA FAGI

Regulation of growth of nurse nuclei in the development of egg follicles in Cecidomyiidae (Diptera). 4564

MILDEW

Structures and pesticidal activities of derivatives of dinitrophenols. XI. Effects of substitution of dinitrophenols with C3 to C13 alpha-branched alkyl groups and of esterification on the eradication of cucumber mildew. 3399

Structures and pesticidal activities of derivitives of dinitrophenols. X. Effects of substitution of dinitrophenols with C3 to C13 alpha-branched alkyl groups and of esterification on the eradication of barley mildew. 3401

Structures and pesticidal activities of derivatives of dinitrophenols. IX. Effects of substitution of dinitrophenols with C4 to C13 alpha-branched alkyl groups and of esterification on the eradication of apple mildew. 3402

Wheat. 4691

The effect of rootstocks on the transformation of some factors of the physiological immunity in leaves of mildew-susceptible grape varieties. 4717

How to prevent and remove mildew; home methods. 4959

Applicability of mildew-infested wheat to feeding.- Short communication. 7214

The influence of CCC on disease contraction of grain. 7322

Tri(C8-C10 alkyl) m- and p-nitrobenzyl quaternary ammonium halides. Patent 3,446,844. 7333

MILDEW (PLANTS)

Control of anthracnose of grapes in the Transvaal. 7771

MILK

Histamine in the cow: Pre- and postparturition histamine concentrations in plasma, milk, and tissue. 337

A selective-differential medium for detection of Streptococcus agalactiae. 367

Analysis for aflatoxin M in milk. 458

Dieldrin residue in an orchard-dairy area of Wisconsin. 481

The toxicity of fly ash for cattle. 507

Distribution of radioactivity in milk resulting from oral administration of 14C-labeled carbaryl. 1137

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Atrazine. 1794

Mechanism of the ring forming in the ABR test. 2274

Metabolic studies with O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate (dursban) insecticide in a lactating cow. 2296

Loss of serum proteins via the intestinal tract in calves with infectious diarrhea. 2317

Mastitis: Its causes and cure. 2328

Oxidative metabolism of phosphamidon in rats and a goat. 2388

Notice of filing of petition regarding pesticide chemicals. 2393

Improved method for determination of sulfonamides in milk and tissues. 2425

Control of tobacco mosaic virus in tobacco. 2731

Trials and tribulations of a state-wide mastitis program. 2971

The behavior of some human-pathogenic germs and bacterial toxins in food and their destruction through heat treatments of the food products. I. Salmonella. 3008

Notice of filing of petition regarding pesticide chemicals. 3016

Gas chromatographic study on the environmental and foodstuff pollution through residues of synthetic organo-chlorinated insecticides. 3029

Experimental research on the influence of insulin on the production of milk and meat in cattle. 3504

Histamine in the cow. Effect of histamine and estradiol administration on protein concentrations in milk. 3505

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 3534

Isolation of Brucella abortus from goats and sheep in the Punjab. 3567

Insects and mites of livestock and in farm buildings. 3792

Isolation of the tuberculosis bacillus through electrophoresis in artificially contaminated milk. 4288

Investigation to determine the respective residue amounts of DDT and its analogues in the milk and back fat of selected dairy animals. 4300

The nourishment of milk calves is essential for the future of the product. 4787

Release of sialic acid from caseins of cow and buffalo milk by cow and buffalo rennets. 4791

Observations on the practical use of the rapid mastitis test. 4821

Staphylococcal intoxication of young suckling whelps. 4840

Residues in food and feed. Chlorinated pesticide residues in fluid milk and other dairy products in the United States. 4880

S.N.F. content of milk. 6446

Effective attack on mastitis...at last. 6466

Some observations on the incidence of Brucellosis in animals in West Pakistan. 6471

Correlation of four mastitis detection tests with respect to the leucocyte count. 6647

Diagnosis of cow mastitis based on leukocyte count in milk. 6668

Influence of some preparations applied into the udder on the pH, microscopic cellular appearance, California Mastitis Test and on the content of catalase and chlorides in milk. 6837

Penicillin and other inhibitory substances in milk: The development and application of a routine test in New Zealand. 7061

Effect of direct steam heating and vacuum treatment on levels of pesticide residues in milk. 7119

Organochlorine insecticide residues in complete prepared meals: A 12-month survey in S. E. England. (abstract). 7121

Rapid colorimetric determination of DOT in milk and butter. 7389

Residues in milk of cows fed rations containing low concentrations of five chlorinated hydrocarbon pesticides. 7860

FDA publishes proposal for residue tolerance in milk.. 8018

MILK ANALYSIS

The occurrence of streptococci of various serological groups as the cause of mastitis with special consideration of group L. 389

The use of Brucella whey complement fixation test in a herd outbreak. 408

Mastitis prevention and control. 416

Dieldrin residue in an orchard-dairy area of Wisconsin. 481

Foot-and-mouth disease (1). 1067

Composition containing penicillin and dye indicator for treating udders. Patent 3,427,377. 2265

Study on the incidence and etiology of mastitis in sows. 2302

Mycoplasma infection in a Wisconsin dairy herd. 2333

Efficiency of various diagnostic tests for mastitis. 3556

Metabolism of 3,3'-dichloro-5,5'-dinitro-0,0'-biphenol (bayer 9015) anti-fluke agent in a lactating cow. 3670

Investigation to determine the respective residue amounts of DDT and its analogues in the milk and back fat of selected dairy animals. 4300

Bacteriostatic properties of milk from tropical countries. 4868

Excretion of radioactive mestranol in the milk of animals. 6444

S.N.F. content of milk. 6446

The effect of mastitis on the freezing-point of cows' milk. king, j o l. 6451

Incidence of udder infections arising at various stages of lactation of cows. 6734

Penicillin and other inhibitory substances in milk: The development and application of a routine test in New Zealand. 7061

Experience with a shorter extraction procedure for insecticide residues from liquid milk products. 7114

Distribution of Strontium 90 and Cesium 137 in dairy products in the processing of ewe's milk. 2. In white brined cheese. 7140

MILK FAT

DDT residues on pasture and in the butterfat of cows grazing pasture treated with DDT prills and DDTsuperphosphate. (abstract). 477

Effect of various physical treatments on certain organochlorine hydrocarbon insecticides found in milk fat. 480

S.N.F. content of milk. 6446

MILK FEVER

Cow diseases and type of housing. 1689

Parterol, Drugs for veterinary use; drug efficacy study implementation. 2304

Recent advances in our knowledge of parturient paresis with particular reference to the role of vitamin D in its prevention. 2956

Milk fever in the dog. 4262

The prophylaxis of so-called milk fever of sows. 6662

MILK PRODUCTION

The application of ultrasound in the treatment of mastitis in cows. 6598

Salmonella typhimurium infection in dairy cows. 6763

MILKING

Mastitis. 3541

Can mastitis be eliminated . 3604

MILKING MACHINES

Mastitis. 3541

MILKY DISEASE

The present status of milky disease of Japanese beetle in Connecticut. 62

Cytology of milky disease bacteria. II. Morphogenesis of Bacillus popilliae in vitro. 63

Cytology of milky disease bacteria. I. Morphogenesis of Bacillus popilliae in vivo. 64

Experiments on the milky disease of the larva of Melolontha melolontha L. 4515

Controlling the Japanese beetle. 5187

Morphology and chemistry of the parasporal body of Bacillus fribourgensis. 5450

MILLET

Germination biology and the fight against the chickenmillet. 331

Control of dicolyledon weed seeds and millet weed in beans with soil herbicides. 2875

MILLING

Reduction in aflatoxin contamination of rice by milling procedures. 7200

MIMICRY

Some new Heliconius pupae: Their taxonomic and evolutionary significance in relation to mimicry (Lepidoptera, Nymphalidae). 2535

Mimicry of Hymenoptera by beetles with unconventional flight. 2653

Studies on neotropical Pompilidae (Hymenoptera) IV. Examples of dual sex-limited mimicry in Chirodamus. 3195

Flying beetles. 5178

Anatea, an ant-mimicking Theridiid spider from New Caledonia (Araneae: Theridiidae). 5555

Biological observations on Aegeria apiformis Cl. 5642

An experiment on selection for mimicry. 7595

Polymorphism in the mimetic butterfly Hypolimnas misippus L. in Ghana. 7604

MINERAL OIL

Use of petroleum oils and herbicide mixtures to improve weed control performance. 303

Atrazine in oil in South Dakota. 323

Changes in usage of plant protection preparations during the last fifteen years. 943

Study on the sucker control of decapitated (topped) tobacco plants. 1819

Oils: Their effect on black carpet beetle larvae when applied to different types of surfaces. 3282

Control of thorn trees can double veld capacity. 3343

Wetting agents, oils: Are they a plus for atrazine . 6322

Oil deposit on grapefruit leaves with 3 types of spray equipment in relation to control of certain citrus pests. 7101

MINERALS

Nutrient requirements of poultry. 397

Nutrient requirements of dairy cattle. 398

Nutrient requirements of horses. 399

A note on the occurrence of watercore breakdown in apples during 1966. 1583

Effect of gibberellin (GA) and mineral nutrition on the growth and productivity of cucumber plants. 1825

Effective methods for the use of herbicides in combination with the mineral fertilizers. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4085

The influence of antibiotics on mineral metabolism. 4313

Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518

The nourishment of milk calves is essential for the future of the product. 4787

The pesticide review. 4952

Composition, structure, and mode of formation of mineral granules in the middle intestines of the homopteran Cercopidae. 5334

On the mineral content of the Swiss meadow fodder and its relationship to herd sterility. 6616

Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis. 6646

Stilbestrol, antibiotics, vitamins, urea, minerals: What we're learning about feeding beef. 7874

MINKS

Studies on prevention of mink-distemper. 401

Prevention, diagnosis and treatment of disease. 409

Clinical observation of experimental pseudorabies in mink and ferrets. 6600

A helminthological survey of wild mink in Wisconsin. 6939

MIREX

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultrual commodities. Dodecachlorooctahydro-1,3,4-metheno-2th-cyclobuta (cd) pentalene. 4882

MIRIDAE

Revision of the North American species of Slaterocoris (Heteroptera:Miridae). 642

Harpocera cypria nov. sp., a new type of Miridae from the Island of Cyprus (Hem. Het.). 719

On a Mirid from Morocco (Heteroptera). 720

Two new Mirids from Cyprus (Heteroptera). 721

The genus Alloeonotus Fieber, 1878 (Heteroptera, Miridae). 722

The subgenus Compsocerocoris Reuter, 1876 the genus Phytocoris Fallen (Heteroptera, Miridae). 723

The British Teratocoris Fieber 1858 (Hem., Miridae) including T. elegans sp. nov.. 724

On the biology and ecology of Lygus vosseleri (Heteroptera: Miridae) with special reference to its hostplant relationships. 1016

Neotropical Miridae, CII: On the genus Lampsophorus Reuter and mabelia Kirkaldy, with a description of a new species (Hemiptera). 1229

A study of oviposition site, mortality and migration in the first (Overwintering) generation of Lygocoris pabulinus (Fallen) (Heteroptera: Miridae) on blackcurrant shoots (1966-7). 1620

Megacoelum Fieber, 1858 (Hem. Het. Miridae). 1915

Two new Orthops-species from north Africa (Heteroptera, Miridae). 1916

Neotropical Miridae, CIII: Revision of the genus Resthenia Spinola (Hemiptera). 2478

Neotropical Miridae, CI: Revision of the Cylapus Say complex with descriptions of genera and new species. 2479

On the genus Nasocoris Rt. (Het., Miridae). 2501

The structure, function and imaginal development of the female inner reproductive organs of Adelphocoris lineolatus (Goeze), (Heteroptera, Miridae). 2606

Neotropical Miridae, CIV: Revision of types of the Museum of Natural History of Budapest, Hungary (Hemiptera). 3091

Seasonal population changes in cocoa capsids (Hemiptera, Miridae) in Ghana. 3207

On Orthotylus Fieb. and Pachylops Fieb. (Heteroptera, Miridae). 4436

The genus Heterotoma Lepeletier and Serville, 1825 (Synonym Acroderrhis Bergroth, 1914) (Heteroptera, Miridae). 4437

The identity of the British Mondsynamma Scott 1864 (Hem., Miridae). 4442

Lopidea Uhler: New species and records from Mexico and southwestern United States with Mayamiris, related new genus from Mexico (Hemiptera, Miridae). 4530

Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602

What is Psallus dilutus Fieber 1858 (Hem.,Het.,Miridae. 5165

On the significance of the Lygus species as a plant pest. 6154

What is Lopus insignis Reuter, 1879 (Hem. Het. Miridae). 7560

The Globiceps cruciatus group (Heteroptera,.Miridae). 7561

Several new mirids from Libia (Heteroptera). 7562

Investigation into the variability of European populations of Orthotylus ericetorum Fall. (Heteroptera: Miridae). 7631

MIST BLOWERS

Comparative tests among various machines used for pest control in fruit orchards. 3073

Applying insecticides to cotton crops. 4971

Operation and maintenance of power sprayers. 7388

MITES

Observations on the reproduction of Hemitarsonemus latus (Banks) (Acarina Tarsonemidae). 137

Mite chromosomes; an exceptionally small number. 183

Citrus culture. 202

Old and new Acaridae, citrus plant parasites in Italy. 274

Control of insect and mite pests of small fruits. 283

Ethion a new acaricide for control of red spider, scarlet, pink and purple mites. 284

The mite battle goes on and on. 992

Three new species of phytoseiid mites from Western Sudan (Acarina: Phytoseiidae). 1242

Labidostomma nepalese (Nicoletiellidae), a new Asiatic species. 1244

The genus Chirodiscus Trouessart and Neumann with lectotype designation of C. amplexans Trouessart and Neumann (Listrophoroidea: Atopomelidae). 1296

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 1461

A preliminary account of pests of apple in Madras. 1597

Preliminary trial with seven acaricides for the control of mites at the base of pineapple leaves. 1612

Control of mites in tea results in increased yields. 1613

The effect of Hoe-2910 on ectoparasites of animals. 1723

Damage by the strawberry spider mite to cotton when infestations commenced at the beginning, middle, and end of the flowering period. 2228

Method of controlling and eradicating mites. Patent 3,427,385. 2237

Control of the northern fowl mite on laying hens with Shell SD-8447. 2358

New Pyemotidae finds in Hamburg (Acarina, Pyemotidae). 2519

Schizeckenosy: The substitute for defecation in chigger mites. 2615

The influence of spray chemicals on predatory- and phytophagous mites on apple trees in laboratory- and field trials in the Netherlands. 2663

Concerning the possibilities of forecasting, supervising the insect outbreak and on tolerance limits in the integrated pest control in fruit cultures. 2669

Sheep disease problems associated with high density stocking. 2878

The post-embryonic developmental stages of cestodes. 3003

A new myrmecophilous mite Divilia oculata gen. et sp. n. (Sarcoptiformes, Saproglyphidae). 3129

The mite battle goes on and on. 3428

Insect pests in food stores. 3642

What the practitioner should know about arthropods.
3740

Insects and mites of livestock and in farm buildings.
3792

A mite of the genus Tydeus (Acariformes, Tydeidae) that is a grape pest in Moldavia.
3846

Insect and mite control on nursery stock in Ohio.
4743

Notes on macrochelids associated with manure and coprid beetles in Israel. II. Three new species of the Macrocheles pisentii complex, with notes on their biology.
5013

Malayoglyphus intermedius n. g., n. sp., a new mite from house dust in Singapore and Djakarta (Pyroglyphidae: sarcoptiformes).
5028

Epimyodex talpae n. g., n. sp., a sub-cutaneous parasite of the mole in Belgium (Demodicidae: Trombidiformes).
5029

Study of the cycle of Geckobia latastei and Geckobia loricata, Acarine parasites of the Gecko Tarentola mauritanica.
5044

Faunistic studies on some acari of the families Myobiidae and Cheyletidae, parasitizing on small mammals in Bulgaria.
5084

New descriptions of Psorergate species (Psorergatidae: Trombidiformes).
5093

A new species of Dermanyssus from marine birds, with observations on its biology (Acarina: Dermanyssidae).
5113

South American Thrombidiidae. II. Chyzerini Thrombidiinae; solenocyte taxonomy of the palpus in several Thrombidii a ; th r latio-ship between Podothrombium Berlese 1910 -- Variathrombium n. g., and Thrombidiinae.
5137

The establishment ofa lectotype for Leptotrombidium (Leptotrombidium) akamushi (Brumpt, 1910) (Acarina: Trombiculidae).
5163

Polarized light observations on striated muscle contraction in a mite.
5198

Integrated control of fruit tree pests. Orchard mites. Orchard insects.
5292

Final report. Studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan, June 1961 - June 1966. Part III. Mites.
5325

Biosystematics of Phytoseiulus persimilis AthiasHenriot (Acarina: Phytoseiidae).
5407

Insect and mite control on ornamentals.
5471

Home garden insect control.
5472

A technique for rearing trombiculid mites (Acarina) developed in a tropical laboratory.
5489

Phytophagous mites; species of widest distribution in Argentina.
5540

A technique for feeding larval trombiculid mites on laboratory mice.
5748

Pests and diseases of arecanut.
5841

Growing camellias.
5859

Studies on the strawberry mite (Tetranychus telarius (L).
6161

Control of some pests of evergreens.
6162

Control of insects on alfalfa and red clover.
6185

A mite to combat coconut caterpillar.
6218

Pests of legume seed crops in north Queensland.
6245

Bionomics of Drosicha mangiferae (Green) on citrus including new record of its three natural enemies.
6246

Annual pest control programs for Central California.
6260

Citrus pest control programs for California and Arizona desert areas.
6262

Control cotton insects .
6278

Can we conquer the 'mighty' mites .
6293

Lice and mites in poultry.
6890

New mangemites of endemic insectivores. (Psorergatidae: Trombidiformes).
6898

Insect and mite pests of livestock, poultry, and farm buildings.
6899

The gamasid mites (Parasitiformes, Gamasoidea) of the Pavlodar province of Kazakhstan.
6906

Respiratory mites of poultry in the territory of Papua New Guinea.
6909

Antifungal action of a phosphate ester pesticide, O-Mchlorophenyl O,O-dimethyl phosphorothioate, used in nutrient media for fungi. (abstract).
7175

The mites of subfamily Labidophorinae Zachvatkin, 1941 (Acarina, Acarinhe) from the nests of small mammals.
7531

A preliminary survey of the relationships between the soil fauna and the roots of fruit trees.
7827

MITOCHONDRIA

Metabolic control mechanisms in insects.
98

Differential spectra of cytochromes in development of the flight-muscles in Antheraea pernyi.
821

Respiratory components of Aspergillus niger mitochondria.
1709

Studies on the sterols and sterol esters of the intracellular organelles of maize shoots.
3056

An electron microscope study of changes in mitochondria of flight muscle of ageing houseflies (Musca domestica).
3281

Factors affecting the oxidation of glycerol-1-phosphate by insect flight-muscle mitochondria.
3815

Effects of long-term cardiatectomy-allatectomy on mitochondrial respiration in the cockroach, Blaberus discoidalis.
3836

An electron microscope study of thoracic mitochondriae membranes in developing adults of the blowfly Lucilia cuprina.
3887

The presence of particles with the appearance of nucleocapsids associated with mitochrondrites in the cells of a hamster infected with Rous virus.
4812

The stimulation of 2,4-dinitrophenol-activated ATPASE by anions.
4976

Salicylanilides: A new group of active uncouplers of oxidative phosphorylation.
5679

Fowl pox inclusion-body formation in skin epithelium of chicks.
6817

Adenosinetriphosphatase activity in muscle tissue mitochondria of swine ascarid (Ascaris suum, Goeze, 1758).
6990

Adenosinetriphosphatases from thoracic muscle mitochondria of the American cockroach.
7659

MITOMYCINS

The effect of nucleases and nucleic acid synthesis inhibitors on sigma virus multiplication in Drosophila melanogaster.
1979

MITOSIS

The effect of maleic hydrazide on the mitosis of phytohaemagglutinin stimulated human lymphocytes cultured in vitro.
2443

Mitotic activity in in vitro culture, in the occuloantennal discs of Calliphora erythrocephalia Meig. larvae (Insecta, Diptera).
2560

Oogenesis and reproduction of Heterodera oryzae and H. sacchari (Nematoda: Heteroderidae).
2842

Epidermal chalone and mitotic control in the Vx2 epidermal tumour.
2896

Meiotic and morphological response of grain sorghum to atrazine, 2,4-D, oil, and their combinations.
3694

Endomitosis in the mealy bug, Planococcus citri (Homoptera: Coccoidea).
3901

Chemical regulators in horticulture.
4333

Mitotic activity of the first embryonic stages in the potato beetle Leptinotarsa decemlineata Say (Coleoptera, Chrysomelidae).
4457

Regulation of growth of nurse nuclei in the development of egg follicles in Cecidomyiidae (Diptera).
4564

The progress of mitosis (orthomitosis) in the manner of endomitosis in the malpighian tubules of the locust (Locusta migratoria) (Insecta, Orthoptera).
4575

Karyological studies on the Indian spiders. VIII. Mitosis and meiosis in two species belonging to the family Gnaphosidae.
5478

Centromere nature of the chromosomes of Ranatra (Heteroptera).
5701

MIYAGAWANELLA GROUP VIRUSES

On the cultivation of Trypanosoma brucei and of its reproductive capacity in virus-infected hosts.
1055

Outbreak of ornithosis in a flock of carrier pigeons in Copenhagen.
6584

Caprine pneumonitis caused by a virus of psittacosis lymphogranuloma venerum (PLV) group.
7871

MOBAM

Residual activity of several new insecticides to adult Anopheles quadrimaculatus in adobe-lined experimental huts.
1538

MODELS

A mathematical model for two Tribolium populations in competition.
164

Population models for supression of the sugarcane borer by inherited partial sterility. 3303

MOISTURE CONTENT (SEEDS)
Effect of the moisture content and post-irradiation temperature on the radiosensitivity of wheat and barley seeds. 7239

MOLDS
On the microbiological quality of hen's eggs. 1135
Moldy feeds pose hazard. 2277
The effects of moldy alfalfa hay feeding on rumen activity, rumen protozoa and dairy steer performance, and analysis of toxic substance(s) associated with molding. 2323
The effect of molds on the enzymic acivity, respiration and viability of stored grain. 2381
White mould; methods of control explained. 3389
Bulk wheat pests can be controlled by simple precautions. 4866
Screening method for zearalenone, aflatoxin, and ochratoxin. 4928
Production of cellulase, antibiotic and antitumor substances by growing Eumyces ATCC 16425 Patent 3,438,864. 6445
Antifungal action of a phosphate ester pesticide, O-Mchlorophenyl O,O-dimethyl phosphorothioate, used in nutrient media for fungi. (abstract). 7175

MOLECULAR DISTILLATION
Isolation of new polyisoprenyl ketone from silkworm feces. 2659

MOLECULAR WEIGHT
Studies on alfalfa mosaic virus. I. The protein and nucleic acid. II. The structure of the virus components. 3379
The infectivity of tobacco mosaic virus RNA in coat proteins from spherical viruses. 3421
Structure of Klein's metabolites of aldrin and of dieldrin. 4926

MOLECULES
Biochemistry of friend virus-infected cells. I. Virionspecific RNA. 2292
Insect olfaction: Deciphering system for chemical messages. 2650
The nature of TIBA action. 3691
Molecular order of participation of inhibitors (or activators) in biological systems. 4339

MOLES
Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera). 638
Epimyodex talpae n. g., n. sp., a sub-cutaneous parasite of the mole in Belgium (Demodicidae: Trombidiformes). 5029

MOLLUSCACIDES
Specifications for pesticides used in Public Health. 1192
Comparative studies of the molluscicidal effect of cuprous chloride and copper sulfate in Iran. 2471
Liver fluke disease control with a new molluscicide . 3616
Laboratory assay of the molluscacide, triphenyllead acetate. 3673
A laboratory method for assessing the toxicity of stomach poisons to slugs. 6407
Chemical molluscacides and the prophylaxis of helminthiases which can be transmitted to man by freshwater Gasteropods. 6934
Report on the working party on liver-fluke in Wales. 7002

MOLLUSKS
Biological methods of weed control. Transl. 16892. 1032
Studies on Schistosoma nasale Rao, 1933. II. Molluscan and mammalian hosts of the blood-fluke. 1737
Method for dispersing toxicants to kill disease-spreading water-spawned larva, trematodes, mollusks and similar organisms, and products used in such method. Patent 3,417,181. 3491

MOLTING (INSECTS)
Synthesis of rubrosterone, a metabolite of insect-moulting substances from Achyranthes rubrofusca. 102
The macropterous form of Ulopa trivia Germar (Hem., Cicadellidae). 689
Observations on postembryonic development in Eutrombicula splendens (Acari-Acariformes). 817
Structure and ecdysial process of the larval spiracles of the Scarabaeoidea, with special reference to those of Lepidoderma. 1983
Consumption of nutritional reserves by hungry females Ixodes persulcatus P. Sch. during the life cycle. 2595
Absolute configuration of inokosterone, an insect-moulting substance from Achyranthes fauriei. 2658
Structure of lemmasterone, a novel C29 insect-moulting substance from Lemmaphyllum microphyllum. 3071
Mass production of insect viruses during the shedding of the pupal skin. 3296
Biological effects of starvation on the garden symphylan. 3306
Electrical resistance of intact integument throughout the molt cycle of a cockroach. 4593
Bracken and locust ecdysones: Their effect on molting in the desert locust. 5251
Changes in neurosecretory activity at different stages in the adult Hyalomma dromedarii Koch, 1844. 5287
Relation of eye color to molting in Periplaneta americana l. 5309
Study of the hemocytes of Locusta migratoria L. (Orthoptera). 5367
The larval and imaginal oenocytes of Callosobruchus maculatus (Fabricius) (Coleoptera: Bruchidae). 5512
The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. Ii Muscle structure at molting. 5648
The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. II. Muscle changes in preparation for molting. 5649
Infrastructural study of the molting glands in Locusta migratoria migratorioides (R. et F.). II. Morphological analysis of the degenerative stages in the gregarious imagos. 7608
The effects of methylfarnesoatdihydrochloride on the colour change and moulting behaviour in the larvae of Cerura vinula L. (Lepidoptera). 7618
Patterns of puffing activity in the salivary gland chromosomes of Drosophila. I. Autosomal puffing patterns in a laboratory stock of Drosophila melanogaster. 7724

MOLYBDENUM
Molybdenum in soils and its availability to plants. 1164
The determination of dimethoate residues in fruits and vegetables. 3653
Changes in insecticide sensitivity in the bean weevil Acanthoscelides obtectus Say, brought about by induced pigment formation. 3867
The effects of increasing molybdenum rates on building of dry material of clover. 4322
Studies on the molybdenum availability.Part III. An attempt to estimate the available molybdenum content in soils in connection with the plant test. 7287
Studies on the molybdenum availability. Part I. Molybdenum uptake by plants under different nitrogen and phosphorus nutrition. 7288

MOMORDICA CHARANTIA
Cucurbit virus studies in Hawaii. 2172

MOMPHIDAE
A revision of the Cosmopterigidae of American north of Mexico, with a definition of the Momphidae and Walshiidae (Lepidoptera: Gelechioidea). 4395

MONEILEMA ARMATA
Imported Cerambycidae. 3151

MONGOOSE
The feeding habits of the yellow mongoose, Cynictis penicillata, the suricate, Suricata suricatta and the Cape ground squirrel, Xerus inauris. 1. Analysis of stomach contents 2. Observations on free-living and captive animals. 6886

MONIEZIA EXPANSA
Morphologic and histochemical studies on the nervous system of tapeworms revealed by the cholinesterase method (Taenia hydatigena, Dipylidium caninum and Moniezia expansa). 6963
The fine structure of the spermatozoon of sheep tapeworm, Moniezia expansa (Rud., 1810)(Cyclophyllidea, Anoplocephalidae). 7013
Histochemical and spectrophotometric demonstration of peroxidase in Moniezia expansa (Cestoda). 7934
Antigens of Moniezia expansa: Fluorescent antibody localization. 7938

MONILIALES
Comparison of chloro and thiocyanato groups as fungal toxiphores in dinitrobenzenes. 2187
The reciprocal relationships in mixed cultures of entomophagous fungi and the effect of some Hyphomycetes on their growth. 4690

MONILIASIS

Considerations about some diseases of fowl transmittable to man: Aspergillosis, moniliasis, staphylococcosis.
355

Moniliasis of plum-trees. Biology and methods of control.
6054

MONILINIA FRUCTICOLA

Control of post-harvest decay and the influence of postharvest treatments on decay in clingstone-peaches.
233

Epidemiology and control of brown rot of sour cherries incited by Monilinia fructicola (Wint.) honey.
2711

The relative influence of chemical and physical properties on the fungitoxicity of tetrachloroisophthalonitrile and some of its analogues.
7813

MONILINIA LAXA

Aerobiology of Monilinia (Sclerotinia) laxa (Aderh. and Ruhl.) honey on stone fruits, Prunus spp., in California.
2726

MONKEYS

The pathogenesis of ovine Contagious Ecthyma.
2307

Toxoplasma gondii in tissue culture and maintenance at low temperatures.
2363

The effect of conditions of cultivation of the poliomyelitis virus on the frequency of mutations affecting the guanidine character.
2911

Zoonosis with special reference to the diseases transmitted from dogs and cats.
3521

The animal adenoviruses.
4217

Falciparum malaria transmissible from monkey to man by mosquito bite.
5751

Plasmodium brasilianum in Columbian monkeys.
6704

A survey of parasites in laboratory primates.
6998

Lipids of plasma membranes of monkey and hamster kidey cells and of parainfluenza virions grown in these cells.
7894

MONOCHAMUS OREGONENSIS

Wood-and-bark-feeding Coleoptera of felled spruce in interior British Columbia.
4425

MONODONTOMERUS GLADIATUS

New species of palearctic Torymidae (Hym. Torymidae).
49

MONOLINURON

The influence of herbicides on Cercosporella infection and lodging of winter wheat.
2751

Chemical weed control and defoliation in potato fields. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4775

MONOMORIUM PHARAONIS

Dieltamid-spray as an ant repellent.
7929

MONOSODIUM ACID METHANEARSONATE

Degradation of monosodium methanearsonic acid by soil microorganisms.
2461

After coton is up, here are ways to keep it clean.
6346

Recent advances in perennial grass control in avocado orchards.
6350

MONTMORILLONITE

Adsorption of 3-aminotriazole by montmorillonite.
2466

MONURON

Recent advances in perennial grass control in avocado orchards.
6350

Influence of some herbicides on accumulation of 32P in above-ground organs of oats.
7223

Microbial degradation of five substituted urea herbicides.
7276

MOP TOP

The behavior of potato mop-top virus in soil, and evidence for its transmission by Spongospora subterranea (Wallr.) Lagerh.
5979

MORANILA CALIFORNICA

Ceroplastes rusci L. (Homoptera, Coccoidea, Lecaninae) an interesting example for the study of population dynamics.
749

MORAXELLA BOVIS

Infectious keratoconjunctivitis in sheep caused by Moraxella bovis.
2944

An outbreak of infectious bovine keratitis in Kedah.
3583

MORDELLIDAE

Coleoptera from northeast Africa. Mordellidae. Supplement: Paraconalia n. gen. a new genus from South America. 64. Contribution to the knowledge of the Mordellids.
4380

MORESTAN

Effectiveness of standard and new compounds for the control of bud mite, Aceria sheldoni Ewing, on navel oranges.
2821

Pear Psylla control studies.
7826

MORPHOLOGY

Cytology of milky disease bacteria. I. Morphogenesis of Bacillus popilliae in vivo.
64

Mite chromosomes; an exceptionally small number.
183

Larval stages of the leaf-miners found in Shikoku. (Coleopterous leaf-miners of Japan. VII).
728

Alophora obesa F. (Dipt., Tachinidae) bred from Neottiglossa pusilla Gmel. (Hem., Pentatomidae).
740

Morphology, musculature and inervation of the reproduction organs of Lethocerus indicum (Hemiptera: Belostomatidae).
753

Aspects of the biology of Chilicola ashmeadi in Costa Rica (Hymenoptera: Colletidae).
781

The spermatophore of Tetrix Latreille (Orthoptera: Tetrigidae).
783

The identification of Otiorrhynchus larvae from blackcurrant roots with description of the larvae of O. clavipes (Bonsd.) and O. singularis (L.) (Col., Curculionidae).
787

Notes on the systematics and morphology of the lacebug subfamily Cantacaderinae (Hemiptera: Tingidae).
790

New ways for the differentiation of the groups of forest ants (Hymenoptera, Formicidae).
798

Observations on postembryonic development in Eutrombicula splendens (Acari-Acariformes).
817

Life cycle and development of Leiophron pallipes Curtis (Hymenoptera: Braconidae, Euphorinae) in five mirid hosts in the Belleville district.
836

Interactions between the grain beetles Sitophilus granarius (L.) (Curculionidae) and Ptinus tectus Boield. (Ptinidae).
914

Streptomycin resistance and morphological variation in Phytophthora cactorum.
984

On Fischoederius cobboldi--a pouched amphistome from cattle in India.
1129

Relationships among the polyhedrosis and granulosis viruses of insects.
1360

Electron microscope studies on the life cycle of Trypanosoma cruzi. With special consideration on the developmental forms in the vector, Rhodnius prolixus.
1365

A note on two isolates of Rhizoctonia solani Kuhn from wheat.
1560

Study of pinocytosis in the tissues of the Rosaceae Leptomonas ctenocephali.
1569

Variability in Candida albicans (Robin) Berkhout. I. Studies on morphology and biochemical activity.
1655

Cell and humoral factors of immunity in metastrongyliasis of swine.
1772

Factors influencing growth and morphology of Candida albicans in a marine environment.
1820

Rondonema thapari n. sp. from the millipede (Spirostreptus sp.).
1958

On a known and some new species of insect nematodes.
1959

Ontogeny of vessels influence the development of Verticillium in young cotton plants.
2166

Electron microscopy of plant viruses. Bibliography 1935-1965.
2714

Red clover necrotic mosaic virus, a new virus infecting red clover (Trifolium pratense) in Czechoslovakia.
2764

Callusomorphic stage in development of galls caused by Ustilago maydis (DC) CDA. on corn leaves.
2787

The ultrastructure of the stroma of the brown rot fungi.
2797

Malaria in mammals excluding man.
2908

The discovery of two species of Trichomonas in feces of two dogs.
2946

The biology of the Acanthocephala.
2949

East Coast fever.
2981

The post-embryonic developmental stages of cestodes.
3004

Anopheline mosquitos found breeding in Israel in 1963-1965 during the last stage of the malaria eradication project.
3159

Concerning Bacillus thuringiensis and its applications.
3231

Development of the bait principle for boll-weevil control. III. Field-cage tests with a feeding stimulant and the protozoans Mattesia grandis (Neogregarinida) and a microsporidian. 3245

Mass production of insect viruses during the shedding of the pupal skin. 3296

Polyhedral sensitivity of the caterpillars of bombyx disparate (Lymantria dispar L.) during the various gradation phases of their development in nature. 3298

Host range and particle length of passionfruit woodiness virus. 3420

Comparative morphologic features of Babesia caballi and babesia equi. 3587

A morphological study of the exogenous stages of Eimeria labbeana, a parasite of the common pigeon, Columba livia. 3592

Electron microsocpy of fowl-pox virus. 3605

Studies on Schistosoma nasale Rao, 1933. I. Morphology of the adults, egg and larval stages. 3620

Nematodirus disease in lambs. 3628

Early morphogenesis of tumours induced by Nosema acridophagus in Melanoplus sanguinipes. 3827

Contribution to the study of oligosporic Actinomycetes. I. Description of a new species of Actinobifida: Actinobifida alba sp. nov. and revision of the genus. 3980

Purification, ultrastructure, and composition of axial filaments from Leptospira. 4188

On the structure of horse influenza virus. A contribution to the ultrastructure of influenza viruses. 4235

Predatory behaviour of a Dolichopodid and an Ephydrid (Dipt.). 4449

The infrastructural morphology of Pillotina calotermitidis nov. gen., nov. sp., a Spirochaetales of the intestine of Calotermes praecox. 4513

Cytological studies of Antipodean Teleogryllus species and their hybrids (Orthoptera: Gryllidae). 4641

Theory of classification of the densonucleose viruses , based on the study of molecular structures and physiochemical properties. 4823

Induced virescent-bud mutation in Gossypium hirsutum. 5420

A damsel-fly as the second intermediate host of a pleurogenetine trematode. 5488

The nematodes DD-136 (Neoaplectana sp.) and Neoaplectana carpocapsae Weiser, 1955 (Rhabditoidea) as insect parasites. A literature review. 5499

Description and taxonomic position of the DD-136 nematode (Steinernematidae, Rhabditoidea) and its relationship to Neoaplectana carpocapsae Weiser. 5533

Alteration of some properties of Bacillus thuringiensis by means of passages through the insects and cultivation on nutrient media. 5605

Note : Oospores of Sclerospora philippinensis Weston from corn leaf tissue. 6024

Morphological variant of Tetylenchus joctus Thorne (Nemata: Tylenchida) associated with cultivated blueberries in Indiana. 6289

Cuticle ultrastructure of the Meloidogyne hapla larva. 6292

Evolution of botulism. V. Evolution of pathogenic propertis of Cl. botulinum. 6505

Adaptation,culturing of R. sibirica in rabbit lice and preparation of a combined antigen for diagnosis of infection. 6783

Influence of fixation on gross morphology of Mycoplasma. 6786

Use of a scanning electron microscope for the examination of Actinomycetes. 6869

Eurycestus avoceti Clark, 1954 (Cestoda, Cyclophyllidaen parasite of the Avocet in Camargue. 6914

A new disease of potato tubers caused by Gilmaniella humicola Barron. 7029

Effect of the triazine herbicides simazine and atrazine upon young plum trees. 7260

Morphology of bluetongue virus. 7880

Purification and characterization of bluetongue virus. 7922

MORTALITY

The methods of titration and the standardization of Bacillus thuringiensis Berliner preparations. 67

Study of the soluble heat-stable toxin in various strains of Bacillus thuringiensis Berliner. 68

Environmental humidity and the susceptibility of larvae of Anagasta kuhniella Zell. to Bacillus thuringiensis Berliner. 91

Tests on standardization of Bacillus thuringiensis preparations. 100

Side effects of Bacillus thuringiensis. The effects on bees (Apis mellifera L.). 112

Laboratory tests of Bacillus thuringiensis Berliner preparations against larvae of Carpocapsa (Laspeyresia pomonella L.). 142

Considerations on the toxic and labile substance produced by Bacillus thuringiensis var. thuringiensis Berliner (labile exotoxin). 154

A microsporidian, Thelohania sp., pathogenic for the cabbage looper Trichoplusia ni. 158

Comparative susceptibility of lepidopterous larvae to Bacillus thuringiensis Berliner. 175

Experimental bluetongue disease in white-tailed deer. Abstract. 428

A consideration of insecticide effects on hypothetical avian populations. 499

Dieldrin effects in two generations of penned hen pheasants. 502

The effect of ecological conditions on the appearance of an intestinal bacterial disease in Thaumetopoea pityocampa Schiff. 744

Manifestations of viral infection in Agrotis segetum Schiff. and in Hadena sordida BKH under conditions of the simultaneous existence of two viruses. 771

Influence of the nature of rearing media on the sensitivity of the larval stage of Musca domestica Linnaeus to the thermostable toxin of Bacillus thuringiensis Berliner. 792

The technique of determining the effectiveness of Bacillus thuringiensis preparations (spore- Endotoxin -complex) on caterpillars in the laboratory. 807

The importance of mortality factors on the occasion of the mass-appearance of the nunmoth in the forested district of Lower Austria, 1964-1967. 814

The question of the statistical proof of diet-dependent mortality. 859

The problem of the utilization of entomopathogenic microorganisms in combination with insecticides. 896

Interactions between the grain beetles Sitophilus granarius (L.) (Curculionidae) and Ptinus tectus Boield. (Ptinidae). 914

Poison plants of Western Australia; the toxic species of the genera Gastrolobium and Oxylobium. 1025

Toxicity of Crotalaria mucronata to sheep. 1080

Mycotoxins in poultry foods. 1092

Splenitis in horses. 1110

Auto-ecology of some Simuliidae species. 1123

Mortality among bobwhites confined to a heptachlor contaminated environment. 1155

High localized bird mortality as a function of high insect populations. 1218

A new technique for the recovery of spider venom. 1259

The effect of inundation and choice of hibernation sites of Coleoptera living on river banks. 1355

Acclimation to low temperatures in Tribolium confusum Duval (Col., Tenebrionidae). 1476

The rate of crown fade of trees killed by the Douglas-fir beetle in southwestern Oregon. 1599

A study of oviposition site, mortality and migration in the first (Overwintering) generation of Lygocoris pabulinus (Fallen) (Heteroptera: Miridae) on blackcurrant shoots (1966-7). 1620

Desiccation survival in the plant parasitic nematodes, Heterodera rostochiensis Wollenweber and Ditylenchus dipsaci (Kuhn) Filipjev. 1623

Enrichment of auxotrophic mutants of Aspergillus flavus by tritium suicide. 1834

Effects of apholate on the alfalfa weevil. 2053

Reduction in mortality of peach trees following preplant soil fumigation. 2103

Susceptibility of three pine species to Scleroderris lagerbergii in Upper Michigan. 2129

Ear removal and cell death rate in corn stalk tissue. 2163

Pathologic responses of the mature and developing nervous system to bluetongue virus. 2336

Comparative review of BHC dust and malathion emulsion as agents for disinfestation on the basis of past experience. 2379

Influence of some environmental factors on the viability and hatching of Aedes aegypti (L.) eggs. 2621

Studies on yellow fever in Ethiopia. 6. Epidemiological study. 2690

Fungicidal control of disease in cotton. 2755

The pathogenesis of street rabies virus in rats. 2884

Reproduction in brook trout (Salvelinus fontinalis) fed sublethal concentrations of DDT. 3022

Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 3032

Growth and resistance to stress in brook trout fed sublethal levels of DDT. 3040

Resistance to American foulbrood in honey bees. X. Comparative mortality of queen, worker, and drone larvae. 3267

Relative efficacy of different insecticides, as contact poisons, to the adults of singhara beetle, Galerucella birmanica Jacoby, (Coleoptera: Chrysomellidae). 3301

On enzootics of anaerobic enterotoxemia in calves. 3602

Laboratory assay of the molluscacide, triphenyllead acetate. 3673

Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes. 3799

On the effect of combined action of pathogenic microorganisms and insecticides upon insects. 3884

22 plants poisonous to livestock in the Western United States. 4109

Studies on acute Marek's disease. 9. Resistance to MD by inoculation with the GA isolate. 4147

Fumigation and reuse of broiler litter. (Abstract). 4222

Effect of spectinomycin on experimentally induced Arizona group infection in turkeys. (Abstract). 4265

Experimental studies on the ammonia poisoning of the goat. I. On the capacity to detoxicate ammonia entering through the portal blood. 4305

Aspects of virus multiplication and average reduplication time for a granulosis virus of Zeiraphera diniana (Guenee). 4456

Susceptibility of irradiated insects to Bacillus thuringiensis infection. 4519

Information on a natural bacterial epizootic disease on Ephestia kuhniella Zeller, caused by a bacillus of the type of Bacillus thuringiensis. 4537

Poisoning of Pieris brassicae L. by an enzyme fraction of the toxin of the crystals of the strains Bacillus thuringiensis serotype U Berliner and serotype. III. Anduze. 4560

Costing acute Mareks disease. 4828

Insect pathogens and microbial control of insects in stored products. I. Test with Bacillus thuringiensis Berliner against moths. 4864

Susceptibility of different stored-products moth larvae to Bacillus thuringiensis. 4867

Pesticide residues in a marine population of double-crested cormorants. 4883

Some pathological effects of sub-acute and acute poisoning of rainbow trout by phenol in hard water. 4898

Analysis of bark beetle mortality in spruce forests in Poland. 5205

Estimation of the individual number entering each development stage in an insect population. 5413

Sterilizing effect of a phosphoramide on Culex fatigans Weid. 5530

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae). 5600

Emigration and mortality rates and the food-shelter conditions of Ligidium hypnorum L. (Isopoda). 5624

Susceptibility of an alfalfa leafcutting bee to residues of insecticides on foliage. 5668

Mosquito control and/or honey bees. 5769

Response of pines irradiated with lethal and sublethal doses of gamma-radiation. 5829

Estimated Fraser fir mortality and balsam woolly aphid infestation trend using aerial color photography. 6144

Disulfoton as a systemic insecticide for control of adult white-fringed beetles on peanuts. 6153

Effects of the winter moth on growth and mortality of red oak in Nova Scotia. 6173

Brucella ovis infection. 2. The infection status in breeding flocks as measured by examination of rams and the perinatal lamb mortality. 6618

Eimeria adendeides and E. meleagrimitis: Pathogenic effect in turkey poults. 6620

Clostridium septicum infection in a broiler flock. 6622

Avian leukosis-sarcoma viruses and antibody in field flocks, and their relationship to leukosis mortality. 6784

Dynamics of Salmonella infection in chicks reared on litter. 6823

Mortality in sheep due to Ixodes species. 6907

Interaction of salt, pH, and temperature on the growth and survival of Salmonellae in ground pork. 7047

Effects on wild young salmon of spraying DDT over New Brunswick forests. 7103

Fish losses after forest sprayings with insecticides in New Brunswick, 1952-62, as shown by caged specimens and other observations. 7112

Tolerance of sheep with regard to a new phosphoric ester: Chlorfenvinphos. 7167

Venom of the scorpion Vejovis spinigerus. 7199

The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures. 7847

Susceptibility and resistance of mosquito fish to several insecticides. 7975

MORTIERELLACEAE

On the granular dermatitis in horses which contains a kind of true fungus in the foci II. 6460

MORUS

Isolation of new polyisoprenyl ketone from silkworm feces. 2659

Sudden death in feeder pigs. 4816

Contributions to the study of the biometric characteristics of the silkworm as influenced by nutrition. 5589

MOSAIC

Partial purification of sugarcane mosaic virus by filtration through gel. 219

Plant inspection and what it entails. 258

Possibilities for inter- and intracellular translocation of some icosahedral plant viruses. 969

Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants. 978

Degradation of alfalfa mosaic virus by pancreatic ribonuclease. 1553

Resistance of tomato lines to TMV. 1568

Localization of tobacco mosaic virus protein in tobacco leaf cells during the early stages of infection. 1572

Increase of tobacco mosaic local lesion size and virus multiplication in hypersensitive hosts in the presence of actinomycin D. 1574

Research on the physiological modifications brought about by the virus of tobacco mosaic in normal and tumor tissue of tobacco grown in vitro. 1581

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction. 1584

Effect of 2,4-dichlorophenoxyacetic acid on tobacco mosaic virus infection. 2127

Local reaction and cross protection for strains of squash mosaic virus. 2131

Alfalfa mosaic virus-induced lesions on bean: Effect of light and temperature. 2133

Free amino acid contents in corn infected with maize dwarf mosaic virus and sugarcane mosaic virus. 2137

The coat protein gene of tobacco mosaic virus. I. Location of the gene by mixed infection. 2142

Epidemiology of cucumber mosaic and other virus diseases of lettuce in Arizona. 2159

Effect of dimethyl sulfoxide on tobacco mosaic. 2165

Distribution of cucurbit viruses in Kansas. 2171

Cucurbit virus studies in Hawaii. 2172

Properties of a virus causing pokeweed mosaic. 2173

Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid. 2178

Purification and properties of broad bean wilt virus. 2189

Interaction of maize dwarf mosaic virus strains and sugarcane mosaic virus H in corn. 2190

Preference of green peach aphids for virus-infected sugarbeet leaves. 2224

The multiplicity of bands in the gel diffusion precipitin analysis of the protein of tobacco mosaic virus.
2756

Cauliflower mosaic.
2763

Red clover necrotic mosaic virus, a new virus infecting red clover (Trifolium pratense) in Czechoslovakia.
2764

Further evidence supporting the hypothesis that two genetic systems control disease reaction to maize dwarf mosaic virus strain A and strain B.
2783

A study of the maize mosaic virus occurrence and its effect on the growth and yield of some corn varieties and hybrids.
2795

Differential transmission of strains of cucumber mosaic virus by aphids.
2816

Presence in the vineyards of the Tessin, of a neartic cicadella, new for switzerland,Scaphoideus littoralis Ball (Hom., Jassidae), a possible carrier of yellow mosaic.
3157

Control of tobacco mosaic virus.
3366

Proteinaceous and virus-like inclusions in cells infected with beet mosaic virus.
3377

Studies on alfalfa mosaic virus. I. The protein and nucleic acid. II. The structure of the virus components.
3379

Thymidine-3H uptake by X-bodies associated with cauliflower mosaic virus infection.
3380

Electron microscopy of pokeweed leaf cells infected with pokeweed mosaic virus.
3381

Serological studies of Bratislava mosaic virus of grape vine.
3405

The infectivity of tobacco mosaic virus RNA in coat proteins from spherical viruses.
3421

Freezing and thawing of purified suspensions of the tobacco mosaic virus and its effect on infectivity.
3944

Some observations on the shape and localization of different viruses in experimentally infected plants, and on the fine structure of the host cells. IV:ABABIS mosaic virus in Petunia hybrida Hort.
3959

Broad-bean stain and true broad-bean mosaic virus.
3960

Multiplication of tobacco mosaic virus in suspension culture of tobacco cells.
3987

Effects of tobacco mosaic virus on the phosphorus metabolism of Nicotiana xanthi n. c.
4000

The tobacco mosaic virus (TMV) in the nutritive solution of the tomato hydroponous culture.
4014

Transmission of the virus component of the ragi (Eleusine coracana) disease-complex in Mysore, India.
4028

The action of formamide on turnip yellow mosaic virus: Obtaining artificial capsids.
4686

The action of urea on turnip yellow mosaic virus. The properties of RNA obtained at the time of artificial capsid formation.
4701

First evidences of viral infections in plants.
4704

The viruses of the black and red currant.
4705

An X-ray diffraction study of a tobacco mosiac virus mutant.
5861

The occurrence of coupea mosaic virus in the state of Sao Paulo.
5885

An antiviral principle from tomatoes systemically infected with tobacco mosaic virus.
5887

Possibilities for inter- and intracellular translocation of some icosahedral plant viruses.
5906

Identification of soybean mosaic virus in Venezuela.
5907

Separation of top and bottom components of alfalfa mosaic virus by combined differential and density gradient centrifugation.
5913

Effect of 6-azauracil on infection with tobacco mosaic virus.
5914

Transmission and translocation of red clover vein mosaic virus in clover.
5921

Effect of red clover vein mosaic virus on dry weight of tissues of Gomphrena globosa.
5922

Some experiments on the transmission of Cymbidium mosaic virus and Odontoglossum ringspot virus.
5970

Transmission of rice viruses in Southeast Asia.
5998

Cross interaction between different components of two strains of alfalfa mosaic virus.
6004

The crinkly mosaic of sweetvetch (Hedysarum coronarium L.).
6005

Methods for protecting melons from cucumber mosaic virus. The benefit of covering the soil with plastic reflecting films.
6015

Effects of kinetin and actinomycin D on the susceptibility of Nicotiana glutinosa L. to infection by tobacco mosaic virus.
6022

The problems of plant disease control.
6034

Evidence for the presence of the Ohio strain III of tobacco mosaic virus in tomato in The Netherlands.
6045

Diseases of pulses pose a challenge to plant pathologists, breeders.
6047

The effect of TMV on the Hill reaction in chloroplasts from various tobacco species with different resistance.
6060

Cell-free synthesis of tobacco mosaic virus coat protein and its combination with ribonucleic acid to yield tobacco mosaic virus.
6073

A note on the non-transmission of Centrosema mosaic virus through seed.
6076

Reaction of nitrosoguanidine (N-methyl-N'-nitro-N-nitrosoguanidine) with tobacco mosaic virus and its RNA.
6081

Inheritance of mosaic resistance in sugarcane.
6084

Susceptibility of watermelon cultivars to watermelon mosaic virus-2.
6091

Relationship of pea mosaic virus with its vector Aphis craccivora Koch..
6092

The relationship of Johnson grass and other perennial hosts of maize dwarf mosaic virus to disease spread and control.
6108

Virus diseases of celeriac and carrots in Europe.
6133

On the significance of the Lygus species as a plant pest.
6154

Sources of tolerance to soil-borne oat mosaic virus from the World Oat Collection.
6602

Tobacco stalk and root destruction with herbicides and their effect on tobacco mosaic virus.
7249

Flavone composition, flowering, and hypersensitivity to virus in vegetables.
7281

Structures derived from cowpea chlorotic mottle and brome mosaic virus protein.
7768

Some observations of pea enation mosaic virus isolated in Slovakia.
7787

Vector-virus relationship of two less known aphid vectors of pea mosaic virus.
7790

Self-construction of RNA extracts of three different viruses and of the protein sub-units of the lucerne (alfalfa) mosaic virus,.
7791

Nuclear changes in mesophyll cells of Gomphrena globosa L. associated with infection by beet mosaic virus.
7793

Linear variation in stability of tobacco mosaic virus to stripping of protein by detergent.
7810

Exposure of ribonucleic acid at both ends of tobacco mosaic virus by extensive protein stripping.
7811

The influence of tobacco ring spot virus and tobacco mosaic virus on the growth of Meloidogyne javanica.
7844

MOSAIC (TOBACCO)

Stored fifty years virus sill active.
3365

MOTHS

The toxicity of insecticides to larvae of the codling moth, Cydia pomonella (L.). I. Intrinsic toxicity and toxicity and persistence. (Abstract).
95

The effect of bioclimate on the communication system of night-flying moths.
170

Ultrasound to stop the moths settling.
265

A new South American hawk moth Protoparce feronia sp. n. (Lep. Sphingidae).
644

Cypress bark moth on Monterey cypress.
995

Light traps as detection devices for moths of cabbage looper and bollworm.
1602

Sex pheromone of the pink bollworm moth: Biological masking by its geometrical isomer.
2590

Bozberg-report 1964. The occurrence of moths on the Bozberg in 1964.
3087

A study of free amino acids in rice moth larvae during mycotoxicosis.
3215

Problem insects in 1967 - how to control them in 1968.
3891

First records of eye-frequenting moths from Ceylon.
4365

The butterfly in the vernacular.
5079

Relationship between serotonin and the circadian rhthym in some nocturnal moths.
5364

Behavioral adaptations of cryptic moths. I. Preliminary studies on bark-like species.
5583

Cryptic moths: effects on background selections of painting the cirumocular scales.
5584

Use of some host insects to increase trichogram effectiveness.
5692

Records of eye-frequenting Lepidoptera from man.
5749

MOTLEY DWARF
Virus diseases of celeriac and carrots in Europe.
6133

MOTOR SKILLS
A method for studying motor reactions of ascarids.
7153

MOTTLE
Effects of temperature on expression and transmission of stubborn disease of citrus.
2161

Purification and properties of broad bean wilt virus.
2189

Course of red clover mottle virus infection in some host plants.
2765

The infectivity of tobacco mosaic virus RNA in coat proteins from spherical viruses.
3421

Investigations on certain virus diseases on pear tree in Bulgaria.
6112

MOTTLE (COWPEAS)
Structures derived from cowpea chlorotic mottle and brome mosaic virus protein.
7768

MOUNTING
Beauty vs. utility in mounting small flies on paper points.
585

Preparation techniques for Ichneumonidae, facilitating their systematic study.
3156

Preparation techniques for microhymenoptera.
3186

MOUTH
Stability of Escherichia coli endotoxin in the rat gastrointestinal tract.
2279

Failure of oral Escherichia coli endotoxin to induce either specific tolerance or toxic symptoms in rats.
2280

MOUTH PARTS
Morphology of the head capsule and its appendages of Stenthorus gilvifrons Mulsant (Coleoptera: Coccinellidae).
2010

Development of the beak musculature and sclerites in Heteroptera.
2639

Study of the morphogenesis of the maxillary stylet of Rhodnius prolixus by transplantations of incomplete stylogenetic organs.
3862

The possibilities of regulating the labial imaginal disc in Calliphora erythrocephala Meigen.
4594

A note on the feeding mechanism of two fleas.
5283

The imaginal cells of the clypeo-labrum and the development of the proboscis of Drosophila melanogaster.
5321

Study of the sensory equipment of the distal joint of the palpi in Locusta migratoria migratorioides (F. and R.) larvae.
5436

Feeding mechanism of a fruit-sucking moth Othreis materna (Lepidoptera: Noctuidae).
5623

The feeding habits of higher dipteran larvae.
7688

Morphological adaptations of the head and mandibles of some coleopterous larvae burrowing solid substrates (Coleoptera).
7707

MOWING
Chemical control of annual bluegrass as related to vertical mowing.
4091

MUCINS
The effect of mucin on the amino acid absorption in the rat intestine.
203

MUCK SOILS
Inactivation of herbicides by activated carbon and other adsorbents.
3716

MUCOIDS
The anal glands of Gryllotalpa gryllotalpa L. ultrastructure and histochemistry.
1948

MUCOR
Studies on the microfungi in the forest floor of subarctic pine forests.
983

MUCOSAL DISEASE
Inhibitory effect of neutral red on bovine virus diarrheamucosal disease plaque formation.
1704

Field observation of a mucosal type of disease at Aarey Milk Colony.
6826

MUCOUS MEMBRANE
Fibrinous colitis in pigs.
6745

MUCUS
Bovine vibriosis in the state of Sao Paulo (Brazil). Isolation of Vibrio fetus and research of agglutinins anti-Vibrio fetus in the vaginal mucus.
1696

Effect of penicillin on the composition of amino sugars in acid-soluble fraction and mucopeptides from Bacillus subtilis.
2467

MUELLERIUS CAPILLARIS
The effect of tetramisole on Muellerius capillaris in goats.
2374

MULCHES
Weed control and plant residue maintenance with various tillage treatments in a winter wheat-fallow rotation.
2862

Growing vegetables in South Dakota.
5832

MULES
Phycomycosis in mule. Entomophthora coronata isolation.
1676

Gastrophilus species recorded in equine (horses, donkeys, and mules) from Turkey.
1724

Histopathology of parafilariasis in mules.
6932

MUMMY DISEASE (MUSHROOMS)
Etiology of mummy disease of cultivated mushrooms. (Abstract).
3413

MUNG BEANS
Physiology of parasitism. 2. Biochemical changes in the Mung bean seedling infected with Rhizoctonia solani Kuehn.
954

MURAMIDASE
Lysozyme retention by cockroach Periplaneta americana L.
2666

Lysozyme in the humoral defense mechanism of specifically and non-specifically immunized insect larvae.
3856

MURRAY VALLEY ENCEPHALITIS VIRUS
Virus isolation and serologial studies of arthropod-borne virus infections in a high rainfall area of North Queensland.
3539

MUSCA
Studies of house flies. I. Breeding of Musca sorbens, Wied..
5282

Houseflies, blowflies and cluster flies.
6901

MUSCA AUTUMNALIS
Investigations concerning the ecology and control of the face fly, Musca autumnalis de Geer.
1125

Activities of respiratory enzymes during the metamorphosis of the face fly, Musca autumnalis De Geer.
1466

Influence of moisture content of bovine feces on oviposition and development of the face fly.
1927

Biology of the face fly: Migration of larvae.
1991

Distribution of the face fly, Musca autumnalis (Diptera: Muscidae), in western Canada and the relation between its environment and population density.
2568

Heterotylenchus spp. parasitising the Australian bush fly: Additional information on the origin of the parasite of the face fly.
5375

MUSCA DOMESTICA
Metabolism of methylcarbamate insecticides by the NADPH2-requiring enzyme system from houseflies.
4

The fate of immature housefly populations at low and high densities.
66

The fate of spores of Nosema apis Zander ingested by muscoid flies.
111

Computing a population budget from sequentially sacrificed, replicated cultures.
156

Lindane: Metabolism to a new isomer of pentachlorocyclohexene.
249

Influence of the nature of rearing media on the sensitivity of the larval stage of Musca domestica Linnaeus to the thermostable toxin of Bacillus thuringiensis Berliner.
792

N-Demethylation of the chemosterilant hempa by house fly microsomes.
1351

Metabolism of the chemosterilant hempa by carbamateresistant house flies.
1352

A first case of Macrocheles muscaedomesticae Scopoli, 1772 (Acarina: Mesostigmata) in Turkey.
1399

Permeability of the cuticle to Pyrethrin II.
1404

Contribution to the study of the mode of action of certain synthetic insecticides, most particularly of Lindane, and of the phenomena of resistance to these compounds in Musca domestica L.
1457

Competitive mating tests between normal and aspermic male house flies.
2035

Intracellular distribution of beta-glucuronidase activity during metamorphosis of the housefly, Musca domestica L.
2585

Esterases in the ontogenesis of the house fly Musca domestica.
2627

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants. 2645

Experiences with the house fly, sterilized by X rays. 2649

An apholate-resistant strain of house flies. I. Resistance to other chemosterilants and to insecticides. 3142

Physiological factors influencing the toxicity of carbamate insecticides to insects. 3193

Compounds affecting fertility of adult house flies. 3202

Effect of alpha-methyl-DL-TRYPTOPHAN on tryptophan metabolism of Musca domestica L.. 3233

The contribution of Italy to research concerning the use of nuclear energy in insect control. 3246

Metabolism of S35-parathion in the house fly. 3256

An electron microscope study of changes in mitochondria of flight muscle of ageing houseflies (Musca domestica). 3281

Genetical investigations on a strain of house-flies resistant to organophosphorus and carbamates. 3325

Some biochemical characteristics of the microsomal cyclodiene epoxidase system and its inheritance in the house fly. 3331

Isolation and characterization of ribonucleic acid from Musca domestica (L.). 3798

The effect of essential amino acid deficiency on the sex-specific accumulation of a blood protein in female house-flies (Musca domestica L.). 3804

Studies on the increment of the efficacy of insecticides (IX). On the synergistic action of pyrethrosin with pyrethroid. 3826

Fundamental properties of intensity, form, and motion perception in the visual nervous systems of Calliphora, phaenicia and Musca domestica. 3849

Two types of carboxyesterase degrading malathion in resistant houseflies and their inhibition by synergists. 3859

Effects of apholate on the bionomics of Musca domestica nebulo Fabr. 3866

Adult emergence interval and reproduction in parasitic Hymenoptera influenced by host size and density. 4545

Selection for divergent emigration rates in laboratory populations of Musca domestica. 5269

Piperonylic acid conjugates with alanine, glutamate, glutamine, glycine, and serine in living houseflies. 5296

The control of the house fly in the city of Tunis. 5297

Simple, safe, effective fly control for dairy farms. 5301

House fly control by chemical sterilization with apholate. 5430

Utilization of larval cholestrol-4-C14 for reproduction in house flies fed unlabeled cholesterol in the adult diet. 5481

The relation between temperature and lethal action of carbaryl on adults on the housefly and the oriental housefly (Diptera: Muscidae). 5490

The determination of the insecticidal activity of an 8 year old sample of DDT by biological method. 5509

Insecticide resistance in the house fly: Decreased rate of absorption Is the mechanism of action of a gene that acts as an intensifier of resistance. 5532

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. (abstract). 5551

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. 5552

Postembryonic development of the brain of Musca domestica. 5585

Studies on the mode of action of the chemosterilants 5-imidazolidinone and 4-imidazolin-2-one in the house fly and in the large milkweed bug. 5591

Intracellular concentration of electrolytes in the housefly. 5598

Oxidative metabolism of C14-labeled Baygon by living house flies and by house fly enzyme preparations. 5604

Effect of insecticide poisoning on chemoreception in the house fly, Musca domestica vicinaL. (Diptera: Muscidae). 5619

Insecticidal and acaricidal effect of some binary mixtures. 5627

Salicylanilides: A new group of active uncouplers of oxidative phosphorylation. 5679

Genetics of resistance to insecticides of the SKA strain of Musca domestica. III. Location and isolation of the factors of resistance to dieldrin. 5736

Study of the insecticidal action of trans-chrysanthemate alletrholone on Musca domestica. 6693

Houseflies, blowflies and cluster flies. 6901

Relative activity of pyrethroids in aerosol form. 7575

Phospholipase activity in Musca domestica L.. 7627

Experimental investigation into the morphological variability of Musca domestica L. (Dipt. Muscidae). 7639

Protein synthesis in cell-free preparations from Musca domestica L.. 7643

Evidence of Gomori negative neurosecretory cells in the Pars intercerebralis of Musca domestica L. by a comparative study using an ordinary microscope and an electron microscope. 7683

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera). 7687

House fly, Musca domestica, control with chemosterilants and insecticides. 7927

Studies on the action of residues of vaporous DDVP (dichlorvos) on solid surfaces. 7971

MUSCA DOMESTICA VICINA
Studies on control of house flies in Egypt by chemosterilants. I. Laboratory studies on Musca domestica vicina. 5346

The relation between temperature and lethal action of carbaryl on adults on the housefly and the oriental housefly (Diptera: Muscidae). 5490

MUSCARDINE
Are sick plants dangerous. 5943

MUSCIDAE
A new Japanese species of Atherigona Rond. (Diptera: Muscidae) reared from sugar-cane. 44

Some muscid flies (Dipt.), of Lancashire and Cheshire. 883

Studies on Australian Muscidae (Diptera). .i. Some species of Dichaetomyia Malloch. 2516

Distribution of the face fly, Musca autumnalis (Diptera: Muscidae), in western Canada and the relation between its environment and population density. 2568

European species of the genus Myospila Rond. (Dipt., Muscidae). 3823

Coenosia lineatipes Zett. (Dipt., Muscidae) preying on Typhlocyba cruenta H. S. (Hem., Cicadellidae). 4448

Investigation into the Synanthropic flies in the family Muscidae (Dipt.) in Bulgaria. 5088

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia. 6174

The identity of Anthomyia melania Dufour, 1839 (Diptera: Fanniidae). 7523

Notes on the Muscidae of New Guinea (Diptera). iii. Species described by Stein in 1900, Termeszetr. Fuz., Volume 23. 7524

MUSCLES
Functional aspects of the organizaion of the insect nervous system. 155

Differential spectra of cytochromes in development of the flight-muscles in Antheraea pernyi. 821

Morphology, endoskeleton and muscles of an apterous acridid (Orthoptera: Proscopiidae). 1377

Heterogeneity in the fibre composition of the flight muscles of dragonflies (Odonata). 1394

Comparative physiology of the flight motor. 1454

Anatomical changes in the neuromuscular complex of the proleg of Galleria mellonella (L.) (Lepidoptera: Pyralididae) during metamorphosis. 1458

Localization of Cysticercus bovis in the organs of slightly infested cattle. 1754

The anatomy and physiology of the morabine grasshoppers. III. Muscles, nerves, tracheae, and genitalia. 1930

Studies on the structure of the head, mouth-parts and their musculature in Hippobosca maculata Leach (Diptera: Pupipara). 1951

The development of the thorax muscles of Periplaneta after cutting of individual nerves. Preliminary report. 2021

Teratology of the beetle Tenebrio molitor. III. Ultrastructural alterations in the flight musculature of the pupal-winged adult. 2090

Release of an acetylcholine-like substance from guinea pig ileum by scorpion venom. 2429

Pharmacological and enzymic constituents of the venom of an Australian bulldog ant Myrmecia pyriformis. 2438

Flight muscle volume change in Ips confusus (Coleoptera: Scolytidae). 2546

Development of the beak musculature and sclerites in Heteroptera. 2639

The electrical activity of cockroach visceral muscle fibers. 3167

Caffeine-induced activation of contraction in stick insect skeletal muscle. 3221

An electron microscope study of changes in mitochondria of flight muscle of ageing houseflies (Musca domestica). 3281

Reaction of skeletal muscle to Mycoplasma caprae. 3573

The excitation of insect skeletal muscles. 3791

Factors affecting the oxidation of glycerol-1-phosphate by insect flight-muscle mitochondria. 3815

Remarks on the structure of insect flight muscle fibrils at the striation level. 4453

The pale muscle problem in pigs. 4845

Polarized light observations on striated muscle contraction in a mite. 5198

The action of iontophoretically applied glutamate on insect muscle fibres. 5222

On the functional morphology of water striders. I. The morphology of the locomotive apparatus of Gerris lacustris L. (Heteroptera: gerridae). 5279

Metabolism of the muscle of the scorpion. 5403

The calcium sensitivity of ATPase activity of myofibrils and actomyosins from insect flight and leg muscles. 5456

Flea Ctenophthalmus: Heterogeneous hexagonally organized layer in the midgut. 5558

Activation of the myofibrillar ATPASE activity by extension of glycerolextracted insect fibrillar muscle. 5571

The coupling of poweroutput and myofibrillar ATPASE activity in glycerol-extracted insect fibrillar muscle at varying amplitude of ATP-DRIVEN oscillation. 5572

Feeding mechanism of a fruit-sucking moth Othreis materna (Lepidoptera: Noctuidae). 5623

The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. Ii Muscle structure at molting. 5648

The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. II. Muscle changes in preparation for molting. 5649

A progressive spastic syndrome in cattle. 6481

Growth and respiration of monolayer cell cultures of chick embryo heart and skeletal muscle: Action of malathion and malaoxon. 6871

Adenosinetriphosphatase activity in muscle tissue mitochondria of swine ascarid (Ascaris suum, Goeze, 1758). 6990

The effect of chloride ions on moth skeletal muscle fibres. 7620

The effect of iontophoretic injection of L-glutamic acid and gamma-amino-n-butyric acid on the miniature end-plate potentials and contractures of the coxal muscles of the cockroach Periplaneta americana L. 7625

Neuromuscular transmission in insects: Effect of injected chemical agents. 7653

Adenosinetriphosphatases from thoracic muscle mitochondria of the American cockroach. 7659

Changes taking place in the respiratory efficiency of isolated flight muscle sarcosomes, associated with the age of the blowfly, Calliphora erythrocephala. 7713

The synthesis of fatty acids from acetate by intact tissue and muscle extract of Ascaris lumbricoides Suum. 7931

Isolation of collagens of high hydroxyproline, hydroxylysine and carbohydrate content from muscle layer of Ascaris lumbricoides and pig kidney. 7941

Histochemical maps of the lipids in the epidermal esophagus musculature of Ascaris suum and Ascaridia galli. (Contribution to the study of the structure of the epidermal esophagus musculature of model ascarids I.). 7946

MUSCULAR DYSTROPHY

Dietary amino acids and muscular dystrophy. (Abstract). 4203

MUSHROOMS

Mycological strolls. 200

Aphelenchoides bicaudatus, a parasite of cultivated mushroom. 299

Mushrooms; How to identify and grow them. 3350

Etiology of mummy disease of cultivated mushrooms. (Abstract). 3413

Pesticide residues in cultivated mushrooms. 4891

Etiology, symptomatology and epidemiology of a virus disease of cultivated mushrooms. 6069

MUSKMELONS

Fungal and bacterial diseases of crucifers and cucurbits in western Ontario in 1967. 3996

MUSKRATS

The muskrat in Loire-Atlantique. 6410

MUSTARD

Insecticidal trials to control mustard aphid, Lipaphis erysimi Kalt., and larger moth, Crocidolmia binotalis Zell., affecting mustard crop. 2820

A study of pyrazon and its herbicidal residues in the soil. 3019

Delhi farmers need not be afraid of mustard aphid. 6239

MUTAGENS

Initiation of polyhedrosis production in vitro. 5685

Modification of gamma ray mutagenic action by temperature shock. 5790

The mutagenic effect by the action of herbicides on barley. 7303

On the repair of the damages induced by N-methyl-N'-nitro-N-nitrosoguanidine in the bacterial DNA. 7373

Mutation in Drosophila by methylazoxymethanol, the aglycone of cycasin. 7756

MUTATION

Preliminary laboratory study on the effects of X rays on the fertility of the apple moth (Laspeyresia pomonella L.). 86

Melanin in an insect, Lucilia cuprina (Wied.). 97

Fenetic study of a mutation modifying the sensitivity of a lambda phage to immunity. 184

The effects of sodium fluoride and iodoacetamide on mutation induction by X-irradiation in mature spermatozoa of Drosophila. 851

Polyhedral pre-viral genome containing genes synthesizing deoxyribonuclease and protease. 915

The genetic effects of caffeine in Drosophila melanogaster. 923

Fine structure analysis of a chromosome segment in Drosophila melanogaster. Analysis of X-ray-induced lethals. 925

Genetic variability in the German cockroach. IV. Linkage studies with markers for groups III and VIII. 927

The influence of selection and mating systems on larval weight in Tribolium. 931

Streptomycin resistance and morphological variation in Phytophthora cactorum. 984

Behavioral mutants of Drosophila isolated by countercurrent distribution. 1361

Small-antenna, a sex-linked mutant of Aedes aegypti. 1504

Chromosome studies in the genus Nabis Lt. (Heteroptera, Nabidae). 1512

Salivary gland chromosome variation in the Drosophila affinis subgroup. I. The C chromosome of western and eastern Drosophila athabasca. 1513

Nonautonomy in differentiation of pattern-determining genes in Drosophila, I. The sex comb of eyeless-dominant. 1520

Temperature-sensitive mutations in Drosophila melanogaster, I. Relative frequencies among gamma-ray and chemically induced sex-linked recessive lethals and semilethals. 1521

Enrichment of auxotrophic mutants of Aspergillus flavus by tritium suicide. 1834

The effects of IPC, CIPC, Sevin and Zectran on Bacillus subtilis. 2132

The effect of conditions of cultivation of the poliomyelitis virus on the frequency of mutations affecting the guanidine character. 2911

Lampbrush Y chromosomes in the course of spermatogenesis of Drosophila. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff. 3324

Genetic complementation in Ustilago hordei. 3346

Oxidation of D-malic and beta-alkylmalic acids by wild-type and mutant strains of Salmonella typhimurium and by Aerobacter aerogenes. 4240

Incorporation of tritium-acetamide and tritium-thymidine into the eye disks of Drosophila melanogaster. 4639

Unstable multilunar modifying genes in the silkworm, Bombyx mori. III. 4646

The inheritance of a new source of resistance to the potato virus Y in pepper (Capsicum annuum L.). 4713

The induction of dodine tolerance in Fusarium oxysporum f. melonis: a technique applicable to the study of the bionomics of soil-borne fungal pathogens. 6001

Catabolite repression in Escherichia coli. A study of tow hypotheses. 6732

Avirulent mutant of Aujeszky's virus, induced by 5-iodo-2-deoxiuridine (IUDR). 6838

The effects of X-rays on the chromosomes of locust embryos. III. The chromatid aberration types. 7731

Mutagenic effects of ethyl methanesulfonate on rice seeds. 7807

MUTATIONS

Attachment of Bdellovibrio bacteriovorus to cell wall mutants of Salmonella spp. and Escherichia coli. 1113

Salmonella typhimurium proline mutants. 1675

Isolation and mapping of Salmonella typhimurium mutants defective in the utilization of trehalose. 1706

5-aminoacridine induced crossing over in the Drosophila male. 2082

Cellular degeneration in the production of some mutant phenotypes in Drosophila melanogaster. 4634

Regulation of branched-chain amino acid biosynthesis in Salmonella typhimurium: Isolation of regulatory mutants. 4801

Isolation of conjugation-constitutive mutants of Colicin factor Ib. 4832

Cold-sensitive mutations in Salmonella typhimurium which affect ribosome synthesis. 4844

MUTILLIDAE

Comments on Pertyella mickel with a description of two new species (Hymenoptera, Mutillidae). 3092

MYCELIUM

Virulence of various groups of physiological races of loose smut of barley Ustilago nuda (Jens.) Rostr.) in the light of anatomical investigations of spring barley varieties different with regard to resistance. 3. The effect of infection upon morphological features of plants. 1571

Factors influencing growth and morphology of Candida albicans in a marine environment. 1820

A nephrotoxin from Aspergillus fumigatus and its possible relationship with New Zealand mucosal disease-like syndrome in cattle. 2346

Characteristics of in vitro protein synthesis systems from Rhizoctonia solani and Sclerotium bataticola. 2456

Effect of trifluralin on growth of Sclerotium rolfsii in liquid culture and soil. 2459

Protein-lipid-polysaccharide complex from the culture and mycelium of the fungus Verticillium dahliae Kleb, the causative agent of verticilliaceous wilt of cotton. 2758

Growth of the rust fungus Cronartium ribicola in tissue cultures of Pinus monticola. 5952

Effect of the composition of the nutrient medium on the amylase localization in Aspergillus oryzae. 7242

MYCETOMES

Histochemistry and ultrastructure of the mycetomes and symbiotes of Icerya purchasi Mask. (Homoptera-CoccoideaMonophlebinae). 1431

Cytology and cytochemistry of the mycetone of Pseudococcus maritimus (Earhorn) (Homoptera Coccidae. 4550

MYCETOPHILIDAE

Some corrections to the British list and other notes on British fungus gnats (Diptera: Mycetophilidae). 1274

MYCOBACTERIUM

Differentiation of mycobacteria isolated from domestic animals. 422

Mycobacterium buruli lesions in the fruit bat web. 2284

Relation of infection to tissue temperature in mice infected with Mycobacterium marinum and Mycobacterium leprae. 6813

MYCOBACTERIUM AVIUM

Tuberculosis in the pig and the tuberculin test. 388

The role of meat inspection in a disease reporting system. 2976

Serological typing of mycobacteria for tracing possible sources of avian mycobacterial infections in man. 4170

Studies of tuberculosis in hens as a problem of food hygiene. 6493

MYCOBACTERIUM BOVIS

Tuberculosis in the pig and the tuberculin test. 388

The status of the state-federal tuberculosis eradication program. 2958

The role of meat inspection in a disease reporting system. 2976

Studies of tuberculosis in hens as a problem of food hygiene. 6493

MYCOBACTERIUM JOHNEI

Johne's disease. II. The pathogenic agent, susceptible species and method of infection. 6549

MYCOBACTERIUM PARATUBERCULOSIS

Significance of allergic tests for diagnosis of Johne's disease in sheep and goats. 1699

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Lesions and demonstration of etiologic agent. 6672

MYCOBACTERIUM TUBERCULOSIS

Tuberculosis in the pig and the tuberculin test. 388

Determination of the virulence of the Mycobacterium tuberculosis by the fluorescence method. 4248

Isolation of the tuberculosis bacillus through electrophoresis in artificially contaminated milk. 4288

Fatty acid composition of phosphatidyl ethanolamine of Mycobacterium tuberculosis. 4939

On the bacterial effect of ionizing irradiation on certain microorganisms. Second communication. A study of the bactericidal effect of gamma rays on certain bacteria and the spores of Bac. anthracis. 6425

Studies of tuberculosis in hens as a problem of food hygiene. 6493

Localization of P32 labeled Mycobacterium tuberculosis in fowl organisms. 6636

MYCOFLORA

Phenological observations on the fungi of the trees and shrubs in the park of the experimental farm Koniczynka near Torun. 1594

Contribution to the knowledge of the mycoflora of the Apus mountains. 5900

MYCOLOGY

Mycological strolls. 200

Phenological observations on the fungi of the trees and shrubs in the park of the experimental farm Koniczynka near Torun. 1594

Mushrooms; How to identify and grow them. 3350

From the realm of microorganisms. Some interesting structures of plant microorganisms. 4026

The mycotic abortions in the cow. 4194

The developing ascospore wall of Hypoxylon fragiforme. 5794

Mycological investigations on field retting of fiber flax, species and distribution. 5932

Mycological techniques in plant pathology. 6044

MYCOPLASMA

Airsacculitis relation to mycoplasmas in turkeys free of Mycoplasma gallisepticum. 360

Comparison of undefined medium and its dialyzable fraction for growth of Mycoplasma. 1094

Mycoplasma infection in a Wisconsin dairy herd. 2333

Serological differentiation of mycoplasma in swine. 2338

Cytology of pink-eye of sheep, including a reference to trachoma of man, by employing acridine orange and iodine stains, and isolation of Mycoplasma agents from infected sheep eyes. 2344

Isolation of mycoplasmas. 2685

Reaction of skeletal muscle to Mycoplasma caprae. 3573

The interaction of a nonpathogenic Mycoplasma sp. (TU) with Mycoplasma gallisepticum, and Newcastle disease virus in the avian respiratory tract. (Abstract). 4134

The susceptibility of cereals and wild oats to an isolate of the aster yellows pathogen. 6128

Mycoplasma-like bodies in the salivary glands of insect vectors carrying the aster yellows agent. 6191

Immunofluorescence identidication of Mycoplasma on agar by use of incident illumination. 6545

A complement fixation test for the study of avian mycoplasma. 6583

Cultural characters and serological relationships of some mycoplasmas isolated from bovine sources. 6641

A mycoplasma associated with ovine orchitis. 6714

Studies on Mycoplasma of rats. I. Observation of Mycoplasma in the respiratory system of rats. 6752

Synthesis of saturated long chain fatty acids from sodium acetate-1-C14 by Mycoplasma. 6772

Influence of fixation on gross morphology of Mycoplasma. 6786

MYCOPLASMA AGALACTIAE
- Electronmicroscopical aspects of Mycoplasma agalactiae. 6764

MYCOPLASMA GALLISEPTICUM
- Airsacculitis relation to mycoplasmas in turkeys free of Mycoplasma gallisepticum. 360
- Penetration patterns of Mycoplasma gallisepticum and Newcastle disease virus through the outer structures of chicken eggs. 433
- Sugar transport in Mycoplasma gallisepticum. 1099
- A warm hemagglutinin induced in chickens by inoculation with Mycoplasma gallisepticum. 1645
- Food additives permitted in food for human consumption. Tylosin. 2407
- Egg production and disease. 2888
- Hemagglutinins induced in chickens with Mycoplasma gallisepticum infection. (Abstract). 4108
- The interaction of a nonpathogenic Mycoplasma sp. (TU) with Mycoplasma gallisepticum, and Newcastle disease virus in the avian respiratory tract. (Abstract). 4134
- The effect of added energy on induced Mycoplasma gallisepticum infection in broilers. (Abstract). 4212
- Role of complement in immune inactivation of Mycoplasma gallisepticum. 6486
- Glucose-dependent secretion and destruction of hydrogen peroxide by Mycoplasma pneumoniae. 6526
- The evaluation of the metabolic-inhibition technique for the study of Mycoplasma gallisepticum. 6839

MYCOPLASMA MELEAGRIDIS
- Experimental control Mycoplasma meleagridis in turkeys by the temperature differential dipping of eggs in tylosin and spiramycin. (Abstract). 4118
- Control of Mycoplasma meleagridis infection in turkeys. (Abstract). 4171
- The use of serologic methods for the control of Mycoplasma meleagridis in turkeys. (Abstract). 4198
- Field significance of Mycoplasma meleagridis infection. (Abstract). 4214
- Persistance of Mycoplasma meleagridis in the genitalia of experimentally infected turkeys. (Abstract). 4263
- The morphologic response of the turkey oviduct to certain pathogenic agents. 6483
- A hemagglutination-inhibition test for Mycoplasma meleagridis antibodies. 6787

MYCOPLASMA MYCOIDES
- Contagious bovine pleuropneumonia, its treatment and control. 2286

MYCOPLASMA PNEUMONIAE
- Application of latex-agglutination to the measurement of antibody response to M. pneumoniae vaccines. 1078
- Effect of pH on the immunogenicity of Mycoplasma pneumoniae. 4834
- Glucose-dependent secretion and destruction of hydrogen peroxide by Mycoplasma pneumoniae. 6526

MYCOPLASMA SUIPNEUMONIAE
- Characterization of Mycoplasma suipneumonuaii A mycoplasma causing enzootic pneumonia of pigs. 6597

MYCOPLASMOSIS
- Isolation of mycoplasmas. 2685
- Respiratory diseases of poultry. 3555

MYCORRHIZA
- Vesicular-arbuscular mycorrhiza and plant growth. 2740
- Preliminary studies on mycorrhiza in Adonis vernalis. 5991

MYCORRHIZAE
- Mycorrhizae: Indispensable invasions by fungi. 3374

MYCOSIS
- Hints on the use of high-percentage hydrogen-peroxide preparations in the treatment of calf mycosis. 1057
- Mycotoxins in poultry foods. 1092

- Effect of thiabendazole on Pithomyces chartarum (Berk. Curt.) M. B. Ellis. 2340
- Symposium: Mycosis. 2895
- Mycosis in animals - systemic disease. 2965
- Studies of an insect mycosis. I. Histopathology of the integument of the infected queen of the mound-building termite Odontotermes obesus. 3273
- Studies of an insect mycosis. II. Biochemical changes in the blood of the queen of the mound-building termite Odontotermes obesus accompanying fungal infection. 3274
- Epizootiologic and laboratory researches on Aspergillus fumigatus in fowl, young cattle and sheep. 3580
- Are sick plants dangerous. 5943
- On the granular dermatitis in horses which contains a kind of true fungus in the foci II. 6460
- Four cases of systemic mycosis in cervids. 6577
- Fungal flora of the avian respiratory tract. 6591
- Relationships of X-irradiation to the enhancement of Candida albicans infections. 6599
- Experimental studies on bovine mycotic placentitis. 6627
- Aspergillosis in Japanese quail. 6749
- Histoplasmic (Histoplasma capsulatum) infection in a horse. 6758

MYCOSPHAERELLA CITRULLINA
- Pectic and cellulolytic enzymes produced by Mycosphaerella citrullina and their relation to black rot of squash. 5903

MYCOSPHAERELLA MUSICOLA
- Co-operative spraying against banana pests. 4683

MYCOSTATIN
- The effect of anti-fungal antibiotics on the nodulation of Trifolium subterraneum and the estimation of Rhizobium trifolii populations. 3061

MYCOTOXICOSIS
- Mycotoxins in poultry foods. 1092
- Mycotoxicoses. 2297
- A nephrotoxin from Aspergillus fumigatus and its possible relationship with New Zealand mucosal disease-like syndrome in cattle. 2346
- A study of free amino acids in rice moth larvae during mycotoxicosis. 3215
- Toxic metabolites produced by fungi implicated in mycotoxicoses. 7794
- Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine. 7869

MYCOTOXINS
- Mycotoxins in poultry foods. 1092
- Screening method for zearalenone, aflatoxin, and ochratoxin. 4928

MYDAEA
- Some muscid flies (Dipt.), of Lancashire and Cheshire. 883

MYIASIS
- Cuterebrid infestation of Microtus in eastern North Dakota, Pennsylvania, and New York. 2991
- The myiasis fly of the African aardvark (Orycteropus afer (Pallas)). 4852

MYIOLIA CAESIO
- Myiolia caesio Harr. (Dipt., Trypetidae) recaptured near Eltham, N. W. Kent; with a suggestion as to the probable host-plant. 739

MYMARIDAE
- The biology of some species of Alaptus (Mymaridae) parasitising eggs of Psocoptera. 2625

MYOBIIDAE
- New descriptions of Psorergate species (P-sorergatidae: Trombidiformes). 5093

MYOCARDIUM
- Site of action of pharmacologically active compounds on the heart of Periplaneta americana L. 3247
- Myocardium infarct in horses with infectious anemia. 7878

MYOFIBRILS
- Ultrastructural peculiarities of the myofibrils in the flight muscles of Lepidoptera. 4452

MYOSINS
- The nature of activating action of dinitrophenol on ATPASE activity of myosin. 7365

MYOSPILA
- European species of the genus Myospila Rond. (Dipt., Muscidae). 3823

MYRCENE
- Western pine beetle: Field response to its sex pheromone and a synergistic host terpene, myrcene. 5217

MYRIOPHYLLUM SPICATUM
- Investigation of effects of large-scale applications of 2,4-D on aquatic fauna and water quality. 4888

MYRMECIA PYRIFORMIS
- Pharmacological and enzymic constituents of the venom of an Australian bulldog ant Myrmecia pyriformis. 2438
- Phospholipase A in the venom of the Australian bulldog ant Myrmecia pyriformis. 7180

MYRMECINA
Studies on North American ants. II. Myrmecina. 759

MYRMELEOTETTIX MACULATUS
The B-chromosome system of Myrmeleotettix maculatus (Thunb.). III. The statistics. 7735

MYRMICINAE
Description of Leptothorax monjauzei n. sp. from Algeria. (Hym. Formicidae Myrmicinae). 1226

MYROBALAN PLUMS
Stem pitting of Italian prune. 2124

MYXOVIRUSES
Experimental infection of calves with Myxovirus parainfluenza-3 and Pasteurella haemolytica. 340
Concentration of certain myxoviruses with polyethylene glycol. 378
Infrared spectography of myxoviruses. 2291
Investigations on the viruses of the Orphan type occurring in pigs in Poland. VII. Influence of the Orphan virus L1 on the virus of hog cholera in swine kidney cell cultures. 6501
A contribution to the knowledge of trophism in rabies virus. 6566
Hemagglutinin of rabies and some other bullet-shaped viruses. 6611
The effect of quaternary ammonium compounds on Newcastle disease virus and parainfluenza virus. 6670
Myxoviruses of animals. 6728
Outbreak of influenza A/equi 2 in Italy. 6756

MYZUS PERSICAE
Responses of aphids to pressure applied to liquid diet behind parafilm membrane longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L9) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions. 172
Tests with insecticides for the control of resistant Myzus persicae (Sulzer) on year-round chrysanthemums. 277
Ecological studies on the green peach aphid, Myzus persiche (Sulzer) and the cabbage aphid, Brevicoryne brassicae (Linnaeus) in Japan, with special reference to their biological control. 1015
A new virus of celery (Apium graveolens L.). 1575
Membrane feeding and infectivity neutralization used in a serological comparison of potato leaf roll and beet western yellows viruses. 1601
The overwintering of aphids and viruses on sugar beet seed crops in England, 1963-1966. 1606
Performance of the English grain aphid on sterilized and unsterilized artificial diet. 2059
Preference of green peach aphids for virus-infected sugarbeet leaves. 2224
The stylets of the green peach aphid, Myzus persicae (Homoptera: Aphididae). 2575
Responses of aphids to pressure applied to liquid diet behind parafilm membrane. Longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L.) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions. 2665
Cauliflower mosaic. 2763
Differential transmission of strains of cucumber mosaic virus by aphids. 2816
A new virus disease of Carica papaya in India. 4005
Meteorological aspects of insect migrations. 5379
Effect on aphid feeding of dietary methionine. 5479
Ecological studies on aphids. I. On the temperature relations of the Virginoparae (Aliencolae) of Myzus persicae at constant temperatures on Swedes. 5675
Identification of soybean mosaic virus in Venezuela. 5907
Studies on the transmission of pea leaf roll virus by Myzus persicae (Sulz.). 6132
Burning weeds in drainage ditches to suppress populations of green peach aphids and incidence of beet western yellows disease in sugarbeets. 6395
The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part I. Water balance and the optake of some mineral nutrients. 7316
Transmission of pea leaf rolling virus by aphids. 7788

NABIDAE
Hemipterous Reduviidae and Pachynomidae of Sudan and Ethiopia. 3138

NABIS
Chromosome studies in the genus Nabis Lt. (Heteroptera, Nabidae). 1512

NACOBBUS BATATIFORMIS
Nebraska root-gall nematode of sugar beets. 2253

NALED
Tests of the susceptibility of Florida mosquitoes to insecticides, 1967. 1529
Zectran and naled affect incidence of parasitism of the budworm Choristoneura occidentalis in Montana. 3315
A low volume spray system for twin-engine aircraft used in mosquito control. 5246
Unique problems in insect and pest control of NASA's Mississippi Test Facility. 5755

NAPHTHALENEACETIC ACID
Foliar penetration of plant growth substances with special reference to binding by cuticular surfaces of pear leaves. 7230

NAPHTHALENEACETIC ACID, 1-
The effects of 1-naphthylacetic acid on the growth of excised tomato roots. 1176

NAPHTHYLACETAMIDE
Current status on chemical thinning of peaches and pears in Michigan. 3913

NAPHTHYLPHTHALAMIC ACID, N-1-
Chemical thinning of peaches. I. Effect of N-1-naphthylphthalamic acid (peach thin 322) on fruit set of Hakuho peaches. 3705

NARCISSUS
Narcissus flies. 4748

NARCOTICS
Some recent aspects of veterinary toxicology: Attempted comparison with human toxiocology. 4316

NASOCORIS
On the genus Nasocoris Rt. (Het., Miridae). 2501

NASONIA VITRIPENNIS
Oosorption in Nasonia vitripennis (Hymenoptera: Pteromalidae). 2596
Sense organs on the antenna of a parasitic wasp, Nasonia vitripennis (Hymenoptera, Pteromalidae). 2655
The structure and possible mode of functioning of the female reproductive system in Nasonia vitripennis (Hymenoptera: Pteromalidae). 3228

NASONOVIA VANNESII
Nasonovia vannesii n. sp. (Homoptera, Aphididae) on Ribes x cultorum. 1329

NASSELLA TRICHOTOMA
Procedure for aerial spraying of serrated tussock. 3034

NATURAL CONTROL (INSECTS)
Comparison of the effectiveness of two pupal parasites in finding a host. 757
The importance of mortality factors on the occasion of the mass-appearance of the nunmoth in the forested district of Lower Austria, 1964-1967. 814
Palearctic species of egg parasites of the genus Telenomus Haliday (Hymenoptera, Scelionidae, Telenominae). 827
Parasites of ladybirds (Coleoptera, Coccinellidae) in Leningrad province. 835
A case of bacterial epizooty in a larval population of Selenephera lunigera Esp. (Lepidoptera, Lasiocampidae). 892
Natural regulation and artificial control of Brown Locust numbers. 1000
Investigations into the ecology of the Coleoptera fauna of coastal cultivated land near Greifswald. Part I. The Carabid fauna adjacent to fields and pastures with intermediate field borders. 1007
Natural enemies of fall webworm (Hypanthria cunea Dr.) in North America. 1619
On the value of our birds. 3927
The biology and control of Archips occidentalis (Wals.) and Tortrix dinota Meyr. (Lepidoptera: Tortricidae) on coffee in Kenya. 4744
Controlling the Japanese beetle. 5187
An acarid (Erythraeidae) parasite of Jassids (Homoptera, Auchenorrhyncha). 5249
Fluctuations in numbers and reduction of the Colorado beetle (Leptinotarsa decemlineata Say) in natural conditions. 5402
Ecological studies on aphids. I. On the temperature relations of the Virginoparae (Aliencolae) of Myzus persicae at constant temperatures on Swedes. 5675
On the agricultural importance of the rook (Corvus frugilegus L.). 6435
An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects. 7835

NATURAL HISTORY
New longicorns of the Museum of Natural History at Geneva. 1872

NATURAL SELECTION
Natural selection and feeding speed in a blood-sucking insect. 1397
An experiment on selection for mimicry. 7595

NEARCTAPHIS BAKERI
On the presence in France of Nearctaphis bakeri Cowen, a dangerous pest of cultivated clover in the U. S. A. (Homoptera, Aphididae). 5089

NEARCTIC REGION
The American species of the genera Euopius, Gnaptodon, and Pseudognaptodon (Hymenoptera: Braconidae). 7457

NECROSIS
Pratylenchus thornei - A cause of root necrosis in wheat. 1021
The possible involvement of thiamine in the aetiology of cerebro-cortical necrosis. 1064
Modification of selected host-reactive properties of endotoxin by treatment with sodium deoxycholate. 1708
Effect of soil temperature and necrosis infection on the content of phenolic substances in potato tubers. 1809
Necrosis in leaves induced by volatile materials produced in vitro by bacteria. 2725
Antibiotic substances in the potato formed during the necrotic reaction. 2771
Inactivation of lettuce necrotic yellows virus by chelating agents. 3355
Light and electron microscopy of cytoplasmic and unusual nuclear inclusion bodies evoked by a virus from necrotic peas. 3360
Structure of lettuce necrotic yellows virus. II. Electron microscopic studies on the effect of pH of phosphotungstic acid stain on the morphology of the virus. 3424
Boron in plants: A biochemical role. 4912
Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. 1. Production and translocation of a necrosisinducing toxin. 5890
A D serotype of satellite virus specifically associated with a D serotype of tobacco necrosis virus. 5949
Injured cells required for the initiation of plant virus infections. 5983
Studies on an Italian isolate of the tobacco necrosis virus. 6003
Effect of virus on the rice plant. 6137
Dietary hepatic necrosis associated with selenium-vitamin E deficiency in swine. 6723
Effect of floxosceles reclusa Gertsch and Mulaik venom against hemocytes of Acheta domesticus (Linnaeus). 7191
The protein subunit of the satellite tobacco necrosis virus. 7792
Abdominal fat necrosis as a herd problem in Georgia cattle. 7923

NECTAR
Investigation concerning the nectar and honey production of the quince (Cydonia vulgaris Pers.). 2701
Insect-flower associations in the high Arctic with special reference to nectar. 5366

NECTRIA GALLIGENA
Apple and pear canker. 2762

NECTRIA PTEROSPERMI
The accumulation of growth regulators in plant infected by Nectria pterospermi Saw. 956

NEEDLE BLIGHT
Elytroderma disease of ponderosa pine (Pinus ponderosa) in the Pacific Northwest. 5893
Sarcotrochila alpina and Lophodermium laricinum causing larch needle blight in North America. 6141

NEISSERIA OVIS
Infectious keratoconjunctivitis in cattle caused by Neisseria (Neisseria ovis n. sp. Lindqvist, 1960). 2945

NEMAPOGON LEVANTINUS
Taxonomy and distribution of the palearctic Nemapogon species (Lepidoptera, Tineidae). 3761

NEMAPOGON ORIENTALIS
Taxonomy and distribution of the palearctic Nemapogon species (Lepidoptera, Tineidae). 3761

NEMATOCIDES
The effective breadth and action of Temik. (Experiences from Germany). 135
Nematodes can be controlled. 294
The influence of DBCP on the soil fauna in azalea culture. 998
Reduction in mortality of peach trees following preplant soil fumigation. 2103
The current importance of plant protection. 2696
Appearance and damaging effect of Heterodera schachtii in sugar beet farms in the Rhein. 2849
Dynamics of the permeation of nematodes by water, nematocides and other substances. 3456
Stem eelworm on clover. 3460
A note on the nematicidal properties of 'Sevin'. 4051
Nematodes are destructive to your plants. 4053
Control of the citrus nematode, Tylenchulus semipenetrans, with 1,2-dibromo-3-chloropropane in Taiwan. 4057
Disinfection and disinfestation of the soil. Proceedings of the international Congress on Plant Disease. Sanremo, 1-4 December 1966. 4725
Tests of nematocidal fumigants in the control of the nematodes of beets (Heterodera schachtii Schm. and Meloidogyne spp.). 4766
The role of nematodes in horticulture. 4767
Fumigants and specific nematocides in the control of phytophagous nematodes. 4769
Peanut pod invasion by fungi in the presence of lesion nematodes in Georgia. 5974
The nematode of stems and tubercles (Ditylenchus destructor Thorne) as a dangerous potato pest. 6057
Italian beet culture. The protection against insect pests. 6233
Use of nickel morpholine dithiocarbamate as a nematocide. Patent 3,450,817. 6287
Cotton and plant parasitic nematodes. 6298
Tropical nematology. 6305
Chemical soil treatment for nematode control in tobacco. 6307
Persistent pesticides: A problem. 7110
Techniques for the systematic control of anthelmintics. gastrointestinal nematodes. Tests with a series of indole-hydrazines. 7194
Spiro thiophosphates. Patent 3,445,468. 7367
Pressurised soil fumigation equipment for control of eelworm. 7397

NEMATODE CONTROL
Developmental tendencies in Phytonematology. 2852
Potato tuber eelworm. 3459
Hot-water treatment of plant material. 3461

NEMATODE CONTROLLING FUNGI
Reduction of root knot of tomatoes in dextrose- and ammonium nitrate-amended soil infested with the nematophagous fungus Arthrobotrys oligospora. 2844
Catenaria vermicola on nematodes in India. 6304

NEMATODE INFESTATION
On the natural focus-problem of trichinellosis in Switzerland. 1743
Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. I. Selected environmental factors affecting penetration. 2835
Distribution and damaging effect of the genus Pratylenchus in Westphalia-Lippe. 2836
Ten year observations on the appearance of oat nematodes in the Rheinland-Pfalz. 2837
Breeding and propagation of virus-free grapes in hydroponic cultures. 4045
Experimental infection of laboratory animals with Ascaris suum. 4855
Use of nickel morpholine dithiocarbamate as a nematocide. Patent 3,450,817. 6287
Cotton and plant parasitic nematodes. 6298
'miracle' tree is in trouble. 6301
A nematode survey of tobacco soils in Rhodesia and Zambia, and the effects of grass-tobacco rotations on nematode populations. 6303
Note on Bourgelatia diducta, Oesophagostomum longicaudum and Globocephalus urosubulatus (Nematoda-Strongylidea) in swine of Minas Gerais, Brazil. 6911
Effects of gastrointestinal nematode parasites on performance in feedlot cattle. 6912
Study indicates most dairy cattle have worms. 6913
Basic,facts on the parasitic nematodes of the sheep (Ovis aries) in tunisia. 6915
Worms in pigs. 6916

Investigation of the effect of preparation Bayer 9015-12.50W.G. on adult Fasciola hepatica in sheep. 6922

In vitro culture and hatching of Ascaridia galli eggs. 6924

Histopathology of parafilariasis in mules. 6932

Epizootiologic factors of infestation by Trichostrongylidae in ovines in Leon. 6937

Worm control in swine. 6942

The epizootiology of ovine verminous bronchopneumonias in Leon. 6943

Contribution to the knowledge of parasitic fauna of domestic animals and some game in Vojvodina. 6945

Standard techniques for larval discovery in microascaridic infection by Toxocara canis (Werner, 1782) in the white mouse; observations on the larval migrations and burdens in the experimental infections conferred through oral, intraperitoneal and subcutaneous route. 6969

Some factors of ovine infestation with Protostrongylidae. 6975

Clinical observations and studies regarding the etiology of enzootically occurring bovine keratoconjunctivitis, with particular consideration of Thelazia. 6992

Further experiments on the treatment of Strongyloides infestation of horses with thiabendazole. 7011

Anthelmintic treatment of sows with thiabendazole. 7015

NEMATODE MIGRATION

Investigation into the vertical migration of Meloidogyne hapla. 2848

Some factors of ovine infestation with Protostrongylidae. 6975

NEMATODE MORPHOLOGY

The bionomics of a Mermithid nematode of larval mosquitoes in southwestern Louisiana. 1539

The routine differentiation of the ova and larvae of two parasites of swine, Hyostrongylus rubidus (Hassall et Stiles, 1892) and Oesophagostomum dentatum (Rud., 1803). 1742

Some observations on the biological cycle of Tylenchulus semipenetrans Cobb, 1913 (Nematoda, Tylenchulidae). 2250

The life history of Cooperia pectinata Ransom. 2997

The ultrastructure of the alimentary tract of the skin-penetrating larva of Nippostrongylus brasiliensis (Nematoda). 2998

Life cycle and reproduction of Meloidogyne hapla on potato. 4052

NEMATODE POPULATION

Some observations on the biological cycle of Tylenchulus semipenetrans Cobb, 1913 (Nematoda, Tylenchulidae). 2250

NEMATODE POPULATIONS

Population dynamics and pathogenicity of three species of Pratylenchus on peach. 2244

Crop rotation effects and nematodes. 2833

Nematodofauna of a mixed hornbeam-oak forest soil and of the neighboring cultivated lands at Bab near Nitra. 4055

NEMATODE VECTORS

Saprozoic nematodes transmit Streptomyces phage. 2245

Form and mechanism of transmission of plant viruses. Transmission of viruses by nematodes. 4729

Limitation of the Colorado beetle by nematodes and prospects for their practical utilization. 5580

Developmental tendencies in phytonematology. 6308

Thorny-headed worm infection in North American prehistoric man. 6974

Withering of citrus trees. 7805

NEMATODES

Protozoan and nematode infections of insects. 173

Eelworm in tea: Some important groups. 296

The increased attack of Ditylenchus dipsaci on onion caused by some fungicides. 297

Aphelenchoides bicaudatus, a parasite of cultivated mushroom. 299

Nematodes of the Northern Great Plains. 300

Bovine ostertagiosis. Analytical bibliographic review of the disease, its treatment and its prophylaxis. 406

Diagnostic station near Dunedin is New Zealand's watchdog against disease. 441

Agricultural control measures against intestinal parasites in cattle. 446

The incidence of disease resulting from infection with Haemonchus contortus in sheep sent to the Veterinary Investigation Centres in England and Wales from 1965 to 1967. 447

Potato cultivation in Mysore State. 980

On the effect of industrial air pollution on the nematode population in the soil of pine groves. 1020

Some parasites of the common crow, Corvus brachyrhynchos Brehm, Ohio. 1122

Pneumostrongylus tenuis in white-tailed deer in Maine. 1126

The anthelmintic activity of the optical isomers of tetramisole in sheep and cattle. 1128

An attempt at analysing the process of penetration by soil nematodes into plants. 1624

Analysis of the occurence of nematodes in alfalfa crops. II. Abundance and quantitative relations between species and ecological groups of species. 1628

Analysis of the occurrence of nematodes in alfalfa crops. I. Species composition of nematodes in two alfalfa crops of different age and penetration of species from soil to plants. 1629

Parasitic and ecological study of the small mammals (insectivores and rodents) of the Allondon valley (Geneva). 1643

Seasonal dynamics of the invasion extensity of the nematode Syngamus trachea (Montagu, 1811) in breeding turkeys (Meleagris gallopavo f. domestica). 1728

Cell and humoral factors of immunity in metastrongyliasis of swine. 1772

Rondonema thapari n. sp. from the millipede (Spirostreptus sp.). 1958

On a known and some new species of insect nematodes. 1959

An ecological study of some soil nematodes associated with apple trees in a New Zealand grassed orchard. 2241

Determination of the water content of nematode worms by interference microscopy. 2242

Pseudohookworm infection - trichostrongyliasis. Treatment with thiabendazole. (abstract). 2373

The effect of tetramisole on Muellerius capillaris in goats. 2374

Immunological studies on experimental ascariasis. 2378

Demodectic parasites in livestock. 2993

Comparative tests among various machines used for pest control in fruit orchards. 3073

Common names of British insect and other pests. 3135

The important crop diseases and pests in the Federal Republic of Germany in the growing seasons of 1965 and 1966 (November, 1964 through October, 1966). 3347

Role of root knot nematode in breaking resistance to Fusarium wilt in tomato. 3359

Nematode - bacteria team for insect control. 3435

The present status of rice pest research and control. 3446

The incidence of metastrongylosis in swine slaughtered in the Manila abattoir. 3615

Some aspects of the control of helminthosis in sheep. 3622

Studies on the spring rise phenomenon in ovine helminthiasis I. Spring rise in stabled sheep. 3630

Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes. 3799

Nematodes associated with bananas in the Windward Islands. 4048

Notice of filing of petition for food additive nitrodan. 4144

A study of oesophagostomiasis, encountered in young buffaloes of Casertano. 4269

Flaphostrongylus cervi Cameron, 1931 in the central nervous system of red deer (Cervus elaphus). 4271

Efficacy of several drugs for control of poultry nematodes. (Abstract). 4272

Experiments on the loss of Dictyocaulus filaria from the lungs of infected sheep. II. The demonstration of worms in the bronchial spare mucus. 4276

An attempt to eliminate the principal parasitic nematodes of dogs by using a new phosphoric ester. 4277

The finding of Gongylonema pulchrum Molin, 1857 (Nematoda) in man. 4278

Diazinon against plant pests. 4655

The viruses of the black and red currant. 4705

Disinfection and disinfestation of the soil. Proceedings of the international Congress on Plant Disease. Sanremo, 1-4 December 1966. 4725

The role of nematodes in horticulture. 4767

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 4841

Thiabendazole as a broad-spectrum anthelmintic. (abstract). 4853

Prevent worms to increase sheep profits. 4856

For a better and more profitable technique in the application of soil fumigants. 4946

On a new species of Mirzaiella Basir, 1942 from Gryllotalpa africana. 5302

Diagnosis of the diseases of insects. 5455

Note on the ovary, rachis, and spermatheca of an insect parasitic nematode, Contortylenchus elongatus (Massey, 1960) Nickle, 1963. 5497

The nematodes DD-136 (Neoaplectana sp.) and Neoaplectana carpocapsae Weiser, 1955 (Rhabditoidea) as insect parasites. A literature review. 5499

Description and taxonomic position of the DD-136 nematode (Steinernematidae, Rhabditoidea) and its relationship to Neoaplectana carpocapsae Weiser. 5533

Pesticidal use of benzothiophenes and benzothienothiophenes. Patent 3,433,874. 5792

1969 fruit spraying calendar, for commercial fruit growers. 5804

Pests of legume seed crops in north Queensland. 6245

Morphological variant of Tetylenchus joctus Thorne (Nemata: Tylenchida) associated with cultivated blueberries in Indiana. 6289

Burrowing nematodes may survive on variants of milam lemon. 6290

Cuticle ultrastructure of the Meloidogyne hapla larva. 6292

Soil nematode fauna occuring in the Jadwisin fields near Warsaw and the effect of environmental conditions on them. 6296

Races of Pratylenchus penetrans, and their effect on black root rot resistance of tobacco. 6300

Catenaria vermicola on nematodes in India. 6304

On the granular dermatitis in horses which contains a kind of true fungus in the foci II. 6460

Note on Bourgelatia diducta, Oesophagostomum longicaudum and Globocephalus urosubulatus (Nematoda-Strongylidea) in swine of Minas Gerais, Brazil. 6911

Basic,facts on the parasitic nematodes of the sheep (Ovis aries) in tunisia. 6915

Contribution to the problems of toxic action of Ascaridia galli on laboratory animals. 6917

Studies on the pathogenesis of trichocephaliasis in sheep. 6920

The systemic action of methyridine against helminths, especially whipworms, in dogs. 6929

The investigation of alkaline phosphatase in the feces of pigs during experimental oesophagostomosis. 6931

Pelecitus ceylonensis n. sp. from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 6938

Regional research in nematode parasites of ruminants in the western United States, a 10-year summary, 1958-1968. 6949

Amino acid composition of some strongyle parasites of cattle. 6952

Studies on the acquired resistance of goats to Haemonchus spp. 6954

The geographical and evolutionary relationships of Australian trichostrongyloid parasites and their hosts. 6955

On the nematode fauna of domestic fowl in the Lithuanian SSR. 6959

The investigations of main intestine enzymes--enterokinase and alkaline phosphatase in experimental pig trichocephaliasis. 6964

The dynamics of total protein amount and protein fractions in the blood serum during experimental pig trichocephaliasis. 6971

Efficacy of tetramisole on nematode infections of dogs. 6981

Ectoparasites and helminth endoparasites of the tree squirrels of southwest Tennessee. 6982

Chemotherapeutic agents. 6984

Adenosinetriphosphatase activity in muscle tissue mitochondria of swine ascarid (Ascaris suum, Goeze, 1758). 6990

Metastrongylus salmi Gepoelst, 1923--the pig parasite. 6996

A survey of parasites in laboratory primates. 6998

Treatment of gastrointestinal parasitism of cattle with Parbendazole. 7004

A comparative analysis of the localization of cholinesterase activity in some parasitic nematodes. II. Ascaris suum, Parascaris equorum, Neoascaris vitulorum and Oxyuris equi. 7021

Techniques for the systematic control of anthelmintics. gastrointestinal nematodes. Tests with a series of indole-hydrazines. 7194

Pressurised soil fumigation equipment for control of eelworm. 7397

Nematodes associated with the pine-bark beetle, Hylastes ater, in New Zealand. 7599

Selective control of Simulium damnosum and river management. 7760

Contemporary views on the immunological prophylaxis of helminthological diseases. 7949

NEMATODIASIS
- Assay on the treatment of intestinal nematodiasis of pigs by means of 2,2-Dichlorovinyl Dimethyl Phosphate (Dichlorvos, Atgard V) administered with dry food, in comparison to Piperazine Dihydrochloride administered in drinking water. 1759
- Assay of tetramizole, orally and subcutaneously, for treatment of gastro-intestinal nematoiasis of sheep. 1770
- The residual activity of Disophenol in the treatment of nematodiasis of ovine and bovine. 1771
- Pharmacodynamic properties on new anthelmintics. 2994
- Tropical nematology. 6305
- Techniques for the systematic control of anthelmintics. gastrointestinal nematodes. Tests with a series of indole-hydrazines. 7194

NEMATODIRUS
- Treatment of gastrointestinal parasitism of cattle with Parbendazole. 7004

NEMATODIRUS BATTUS
- Nematodirus disease in lambs. 3628
- The introduction of Nematodirus battus (Crofton and Thomas, 1951) into a new environment. 6951

NEMATODIRUS FILICOLLIS
- Nematodirus disease in lambs. 3628

NEMATOLOGY
- Oogenesis and reproduction of Heterodera oryzae and H. sacchari (Nematoda: Heteroderidae). 2842
- The importance of applied entomology for Austrian plant protection. 3926
- Regional research in nematode parasites of ruminants in the western United States, a 10-year summary, 1958-1968. 6949

NEMATOMORPHA
- The infection of immature aquatic insects by larval Paragordius (Nematomorpha). 4620
- The infection of immature aquatic insects by larval Paragordius (Nematomorpha). 5167

NEMATOSPORA CORYLI
- Isolation of the organism causing yeast-spot disease from the salivary system of the green stink bug. 6176

NEMERITIS CANESCENS
- Transmission of densonucleosis virus by parasitism of a hymenopteran. 7635

NEMESTRINIDAE
- Complement to the study of the larval biology of Symmiticus costatus Loew (Diptera Nemestrinidae), a grasshopper parasite, and general considerations on the biology of Nemestrinidae. 118
- The genus Trichopsidea Westwood, with a discussion of its relation to other genera of Nemestrinidae (Diptera). 5049
- Notes on Rhynchocephalus tauscheri Fischer (Diptera: Nemestrinidae). 5116

NEMOURA
- The distribution of nymphs of Brachyptera risi Mort. and Nemoura flexuosa Aub. (Plecoptera) in relation to oxygen. 5453

NEMOURIDAE
- The Nemouridae of Assam (Plectopera). 7

NEOAPLECTANA
- Description and taxonomic position of the DD-136 nematode (Steinernematidae, Rhabditoidea) and its relationship to Neoaplectana carpocapsae Weiser. 5533

NEOBACILLAPHIS SZELEGIEWICZI
- A new genus and four new species of Aphids (Homoptera, Aphididae) from Poland. 103

NEOBISIIDAE

A key to all stages of the British species of the family Neobisiidae (Pseudoscorpiones: Diplosphyronida). 5037

NEODIPRION SERTIFER

The use of a polyhedral virus disease in the control of the pine sawfly Neidiprion sertifer Geoffr. in North -West Scotland. 868

Observations on the histo-morphology of the labial glands in Neodiprion sertifer Geoffroy (Hymenoptera Diprionidae). 1961

The use of viruses in biological control. 4458

Differences among Scotch pine varieties in susceptibility to European pine sawfly. 6279

NEODIPRION SWAINEI

Trans-ovum transmission of insect viruses as a biological control. 4600

Study of the virus disease of Neodiprion swainei Midd. and results of its aerial dispersion. 4758

NEODIPRION TSUGAE

The hemlock sawfly in southeast Alaska. 5353

NEOLASIOPTERA MARTINELLI

Neolasioptera martelli sp. n., a gall midge injuring Agave in Mexico. 1305

NEOMYCIN

Studies on Salmonella infection among rabbits in the U. A. R. 6479

NEOPASITES

Biology of Dufourea and of its cleptoparasite, Neopasites (Hymenoptera: Apoidea). 5646

NEOPLASMS

Equine ovarian granulosa tumours. 372

Tonsillar carcinoma in rural dogs. 405

The history of investigation of tumors in animals. 430

Evidence for the possible existence of two envelope antigenic determinants and corresponding cell receptors for avian tumor viruses. 1651

Studies on the tumours of the domestic animals. I. Lymphatic leucaemia of the swine. 2308

Studies on the tumours of the domestic animals. II. Tumours of the swine. 2309

Research on the relationship between the tumor causing virus of the quail and the rous sarcoma virus. 2334

Hemangiosarcoma in a dog. 2342

Transmission of equine sarcoid. 2348

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants. 2645

Clinical signs and pathology of chronic pancreas diseases of the dog. 2893

Epidermal chalone and mitotic control in the Vx2 epidermal tumour. 2896

The onogenic action of bovine papilloma virus in hampsters. 2960

Skin tumors in New York deer. 3545

Contribution to the study of malignant ocular neoplasms in cattle. 3549

Studies of avian leukosis group-specific complement-fixing serum antibodies in pigeons. 3585

Pathologic characteristics of renal lesions induced by S(Dichlorovinyl)-L-cysteine in calves and rats. 3594

Early morphogenesis of tumours induced by Nosema acridophagus in Melanoplus sanguinipes. 3827

Spontaneous tumors of the brain in rats: A report of 3 cases. 4121

Proteins before and after inoculation with RSV. (Abstract). 4153

A meningioma in a cat associated with erosion of the skull. 4154

Spontaneous tumors in Holtzman-source rats of various ages. 4226

Avian virus-induced tumors. 4242

Investigations concerning the ultrastructure and etiology of the mast cell tumors in the dog. 4259

The mode of formation of intracytoplasmic structures in tumors induced by viruses of the avian sarcoma leucosis group. 4824

Genetic and environmental control of melanotic tumors in Drosophila. 5719

Pig diseases. 6489

Duodenal leiomyosarcoma: A case report. 6491

Sequence of RNA synthesis in chick fibroblasts infected with Sendai virus. 6503

Tumor localizing agents VI. Radioiodinated analogs of dichlorodiphenyldichloroethane (DDD). 6536

The effect of furan series' carboxylic acid N, N-bis-(2-chloroethyl) hydrazides and N, N-bis-(2-chlordethyl) amides on the growth of transplantable tumours and haematopoiesis of rats and mice. 6543

Chronic panleukopenia in cats. 6565

The comparative metabolism of ethylene dimethanesulphonate and ethylene dibromide. 6652

Urine-retention caused by a peri-urethal leiomyoma, in a female dog. 6691

Histochemical premises to the study of the adrenal medullary tumors of cattle. 6703

Vaginal papilloma of the cat. 6706

Properties of the in vitro soluble RNA methylase activity of hamster tumors induced by adenovirus-12. 6713

Establishment and characterization of a feline neurofibrosarcoma (FNFS) cell line. 6746

Herpesvirus in Marek's disease tumors. 6800

Notes on the spontaneous pathology of the dog in the laboratory. 2nd note: Hematoma of the spleen. 6850

Notes on the spontaneous pathology of the dog in the laboratory. 1st note: Leiomyosarcoma of the mesentery in a female dog. 6851

Adrenal neoplasms in slaughtered cattle. 6877

Toxicity of pesticides to man: Risks from present levels. 7107

NEOPLASTIC DISEASES

A contribution to the knowledge of trophism in rabies virus. 6566

NEOPLECTANA

The nematodes DD-136 (Neoaplectana sp.) and Neoaplectana carpocapsae Weiser, 1955 (Rhabditoidea) as insect parasites. A literature review. 5499

NEORHYNCHOCEPHALUS TAUSCHERI

Notes on Rhynchocephalus tauscheri Fischer (Diptera: Nemestrinidae). 5116

NEOSTEREOPALPUS NIPONICUS

A new genus (Neostereopalpus) of the Eurygeniini (Coleoptera: Anthicidae) from Japan. 586

NEOTROPICAL REGION

Distributional notes on Metamasius (Coleoptera: Curculionidae). 1339

Neotropical Miridae, CIII: Revision of the genus Resthenia Spinola (Hemiptera). 2478

Neotropical Miridae, CI: Revision of the Cylapus Say complex with descriptions of genera and new species. 2479

Notes on the types of some neotropical sarcophagid flies described by Enderlein (Diptera, Sarcophagidae). 2504

A new species on neotropical seed weevil affecting pigeon peas, with notes on two closely related species(Coleoptera: Bruchidae: Bruchinae). 3756

The neotropic species of Xanthopimpla (Hymenoptera: Ichneumonidae). 3782

Studies of neotropical caddis flies. VIII: The immature stages of Barypenthus claudens (Trichoptera: Odontoceridae). 3818

The American species of the genera Euopius, Gnaptodon, and Pseudognaptodon (Hymenoptera: Braconidae). 7457

NEPHANTIS SERINOPA

Diseases and pests of coconut in Kerala. 5814

A mite to combat coconut caterpillar. 6218

NEPHOTETTIX

Dwarf, yellow dwarf, stripe, and black-streaked dwarf diseases of rice. 5968

Leafhopper transmission of transitory yellowing of rice. 6167

Vectors of rice viruses in Asia. 6228

NEPHOTETTIX APICALIS

Hybrids of Nephotettix impicticeps Ish. and N. apicalis (Motsch.) and their ability to transmit the tungro virus to rice. 119

Transitory yellowing of rice in Taiwan. 6097

NEPHOTETTIX BIPUNCTATUS

Virus disease that resembles Tungro . 6048

NEPHOTETTIX CINCTICEPS

Effect of aerial spraying for the control of green rice leafhopper in autumn. Transl. 17058. 5425

Electron microscopic studies of rice viruses. 6077

Transitory yellowing of rice in Taiwan. 6097

Ecology of insect vectors, forecasting, and chemical control. 6205

NEPHOTETTIX IMPICTICEPS

Hybrids of Nephotettix impicticeps Ish. and N. apicalis (Motsch.) and their ability to transmit the tungro virus to rice. 119

Transmission experiments on the tungro virus in Thailand. 5429

Testing rice varieties for resistance to tungro disease. 5997

Penyakit merah disease, a virus infection of rice in Malaysia. 6085

NEPHRITIS

The nephrosis-nephritis syndrome in chickens caused by a Holte strain of infectious bronchitis virus. 1077

Haemorrhagic nephritis in experimental bovine leptospirosis bratislava. 2901

Etiology of kidney disease in dogs and cats. 2905

The isolation of Leptospira sejroe from the kidneys of aborting cattle. 6724

NEPIDAE

Comparative morphology of the male Australian Nepidae (Hemiptera: Aeteroptera). 2602

Centromere nature of the chromosomes of Ranatra (Heteroptera). 5701

NEPYTIA

A new species of Nepytia from the southern Rocky Mountains (Lepidoptera: Geometridae). 5134

NERVES

The properties of insect axons. 132

Neural lesions in the offspring of female rats fed a copperdeficient diet. 349

Effects of fumigants on the spiracles and the possible role of neurohumor on the spiracular activity of Periplaneta americana (L.). 754

Biogenic monoamines in Hirudo medicinalis. 1048

The development of the thorax muscles of Periplaneta after cutting of individual nerves. Preliminary report. 2021

Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration. 2060

Site of action of pharmacologically active compounds on the heart of Periplaneta americana L. 3247

Structure and function of the giant fibre system in the cockroach, Periplaneta americana. 3817

On ocular regeneration in Lithobius forficatus L. (Myriopoda Chilopoda). 3832

Concerning the extraocular light sensitivity of the Dictyoptera: Evidence of photoreceptors associated with the tegumentary nerves. 4464

Axis cylinder degeneration associated with ryegrass staggers in sheep and cattle. 4825

Modifications of the Bodian technique applied to insect nerves. 5263

The spike-frequency in motor neurons of the cockroach Periplaneta americana L. 5595

Some observations on Marek's disease (fowl paralysis). 6595

Neurosecretory cells in the ventral nerve cord of leech (Hirudinaria granulosa). 6973

Interaction of DDT with the components of lobster nerve membrane conductance. 7190

Evidence of a biogen amine in the stomatogastric nervous system of the Insecta: Histochemical and ultrastructural study. 7592

Neuromuscular transmission in insects: Effect of injected chemical agents. 7653

NERVOUS SYSTEM

Neurosecretion in Dolichopoda geniculata Costa: Observations on pars intercerebralis and on the retrocerebral endocrine system. 61

Functional aspects of the organizaion of the insect nervous system. 155

Feeding and crop emptying in the cockroach Leucophaea maderae. 782

Innervation of the gut of the migratory locust, Locusta migratoria L. (Orthoptera, Acrididae). 864

Postembryonic development of the eye and its ganglia of Drosophila melanogaster. 876

Postembryonic development of the eye ganglia in Anopheles stephensi Liston. 877

Biogenic monoamines in Hirudo medicinalis. 1048

On the light stimulus, transmitted by tegumentary nerves, controlling the neurosecretory cells in the Dictyoptera Blaberidae and Blattidae. 1368

Nervous system of the head of Prodenia litura (Lepidoptera, Noctuidae). 1478

Head nerves of the larva of Prodenia litura Fabr. (Lepidoptera, Noctuidae). 1479

The nervous control of insect flight and related behavior. 1491

Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 1649

Description and distribution of the neurosecretory cells in brain and ventral ganglia of Lethocerus indicum Lep. et Serv. (Heteroptera-Belostomatidae). 1928

Studies on the morphology of Lethocerus indicum Lep. and Serv. (Hemiptera--Heteroptera--Cryptocerata-Belostomatidae). Part V. The morphology of the stomodeal nervous system with special reference to the histology of the corpora cardiaca and allata. 1929

The anatomy and physiology of the morabine grasshoppers. III. Muscles, nerves, tracheae, and genitalia. 1930

Action of nicotine on neural transmission in the American cockroach (Periplaneta americana (L.)). 1963

Pathologic responses of the mature and developing nervous system to bluetongue virus. 2336

Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 3032

Studies on the neurosecretory system of the female mole cricket Gryllotalpa africana (Orthoptera: Gryllotalpidae). 3189

Structure and function of the giant fibre system in the cockroach, Periplaneta americana. 3817

Fundamental properties of intensity, form, and motion perception in the visual nervous systems of Calliphora, phaenicia and Musca domestica. 3849

Innervation of the gut of the migratory locust, Locusta migratoria L. (Orthoptera, Acrididae). 3864

Observations on the ultrastructure of the parasympathetic organs of the phasmids. 4585

Some effects of castration on the protocerebral neurosecretion of the females of Polistes (Hymenoptera, Vespidae). 4601

Single unit activity in the visual pathway of the butterfly Heliconius erato. 4605

Physiological responses of insects to nicotine. 4623

DDT: Sublethal effects on brook trout nervous system. 4892

Study of variations in neurosecretion at the level of the brain and the sub-esophageal ganglion in the female imagos of Rhodnius prolixus (Stal) Hemiptera. 5202

Histophysiological studies on neurosecretion in the ventral nervous system of Rhodnius prolixus Stal (Hemiptera) during the imago stage. 5213

The action of extracts of parasympathetic organs and corpora cardiaca on diuresis in several insects. 5225

A sodium and potassium stimulated adenosine triphosphatase in the cockroach nerve cord. 5337

Medium and long-term changes in the behavior of visual neurones in the tritocerebrum of locusts. 5371

Ionic composition of haemolymph and nervous function in the cockroach, Periplaneta americana L. 5528

Morphologic and histochemical studies on the nervous system of tapeworms revealed by the cholinesterase method (Taenia hydatigena, Dipylidium caninum and Moniezia expansa). 6963

DDT. Sublethal effects on brook trout nervous system. 7087

Studies on the transfer function of a cockroach mecanoreceptor. 7596

Experimental study on male reproduction systems of the mealworm: Tenebrio molitor (Coleoptera, Tenebrionidae). 7621

Effects of the electrical polarization of the sixth abdominal ganglion of the cockroach (Periplaneta americana) on the activity of the giant fibers. 7675

Study of the isolated nerve fibre of insect. Record of membrane and action potentials of the giant fibre of the cockroach, Periplaneta americana L.. 7676

Evidence of Gomori negative neurosecretory cells in the Pars intercerebralis of Musca domestica L. by a comparative study using an ordinary microscope and an electron microscope. 7683

The stomodaeal nervous system of Cybister confusus Shp. (Dytiscidae: Coleoptera). 7684

The method of conditioned reflexes in toxicology and its application for determining the toxicity of small quantities of pesticides. 7978

NERVOUS SYSTEM DISEASES
Clinical pattern of nervous distemper. 7908

NESOLOTIS
A new genus belonging to the tribe Pharini from the northern part of the Ryukyu islands (Coleoptera: Coccinellidae). 667

NESTING
Nest architecture and associated behavior of the nocturnal bee, Sphecodogastra texana (Hymenoptera: Halictidae). 643
Nests and social behavior of three species of Pseudaugochloropsis (Hymenoptera: Halictidae). 846
Nests of some African megachilid bees, with description of a new (oplitis (Hymenoptera, Aoiudea),. 847
Biological notes on Dioxys pomonae pomonae and on its host, Osmia nigrobarbata (Hyemnoptera: Megachilidae). 872
Nest architecture and brood development in a neotropical bumblebee, Bombus atratus. 5578

NESTING HABITS
A mixed colony of two species of Plebeia (Hymenoptera, Apoidea). 3266
Some biological notes on Bombus ignitus Smith with special reference to the nest structure (Hym. Apidae). 3834
Comparison of the structure and architecture of some nests of Evylacus (Hym., Halictidae) at the cell region. 4527

NEUQUENAPHIS PAPILLATA
Neuquenaphis papillata, a new Nothofagus-infesting aphid from Chile, with a review of related species from South America (Homoptera: Aphididae). 691

NEUROENDOCRINES
The influence of the corpora cardiaca on the duration of the fourth and fifth instars of Locusta migratoria L.. 4473

NEUROFIBROMA
Establishment and characterization of a feline neurofibrosarcoma (FNFS) cell line. 6746

NEUROLOGY
The excitation of insect skeletal muscles. 3791

NEUROPTERA
A review of the taxonomy and morphology of the Berothidae, with the description of a new subfamily from Chile (Neuroptera). 1290
Structures of unknown, possibly stridulatory, function of the wings and body of Neuroptera; with an appendix on other endopterygote orders. 2034
Two new Inocelliidae species from Asia (Neuroptera, Raphidiodea). 4991

NEUROSECRETION
On the light stimulus, transmitted by tegumentary nerves, controlling the neurosecretory cells in the Dictyoptera Blaberidae and Blattidae. 1368
Description and distribution of the neurosecretory cells in brain and ventral ganglia of Lethocerus indicum Lep. et Serv. (Heteroptera-Belostomatidae). 1928
A histological study of neurosecretion in ants (Formicoidea). 2580
The diversity of cell types in the neurosecretory system of the beetle Blaps mucronata. 5308

NEUROSPORA CRASSA
Serological relationships of physiologic races A-1 to A-8 of Phytophthora fragariae. 2744

NEUROTROPIC VIRUSES
A possible role of blood-sucking mosquitoes in spread of arbovirus infection in the area of the Zaisan Lake. 5747

NEUTRAL RED
Inhibitory effect of neutral red on bovine virus diarrheamucosal disease plaque formation. 1704

NEUTRONS
Marking insects with dietary manganese for detection by neutron activation. 41

NEW CALEDONIA
Anatea, an ant-mimicking Theridiid spider from New Caledonia (Araneae: Theridiidae). 5555

NEWCASTLE DISEASE
The production and effect of interferon on influenza virus growth in chick embryo lung epithelial and fibroblast cell cultures. 3546
Respiratory diseases of poultry. 3555
Investigation of some enzymatic activities (GOT, GPT, aldolase, LDH, LDP, SDH) in the liquid amnio-allantoids of healthy chick embryos or those infected with newcastle disease virus. 4133
Newcastle disease in poultry. 6455
Immune response of chickens to six strains of Newcastle disease virus as measured by hemagglutination-inhibition test. 6517
Newcastle disease in Francolinus francolinus, Francolinus pondicerianus and in Bambusciola thoracica. 6588
Ranikhet disease can be controlled. 6638
The use of an avian polyvalent vaccine in central Africa. 6780
Central African utilization of a polyvalent avarian vaccine. 6781
Immunogenic value of bivalent vaccine of atipic fowl pest and fowl pox produced on tissue culture. 7921

NEWCASTLE DISEASE VACCINES
Two sides to the vaccine picture. 345

NEWCASTLE DISEASE VIRUS
Penetration patterns of Mycoplasma gallisepticum and Newcastle disease virus through the outer structures of chicken eggs. 433
Comparative study of the multiplication of Newcastle Disease Virus (NDV) on Hela, KB and human amnion cells. 1701
An interference type of serological test for infectious bronchitis virus using Newcastle disease virus. 3510
Newcastle disease virus (NDV) in cell cultures. I. A comparative study of two strains in different cell systems. 3590
Virus involvement in the avian heart: Effect on protein synthesis. 3591
Fatty acid composition of three strains of Newcastle disease virus. 3597
Newcastle disease virus. Characteristics of a strain (2425) isolated in Cordoba, Argentina in 1961. II. Comparative study of immunologic relationships and cellular affinities. 4116
The interaction of a nonpathogenic Mycoplasma sp. (TU) with Mycoplasma gallisepticum, and Newcastle disease virus in the avian respiratory tract. (Abstract). 4134
The precision of virus end-point determinations. 6458
The effect of quaternary ammonium compounds on Newcastle disease virus and parainfluenza virus. 6670
Neuraminidase activity of the Newcastle disease virus. I. A study of the enzyme activity in differently cultivated strains. 6847
Immunogenic value of bivalent vaccine of atipic fowl pest and fowl pox produced on tissue culture. 7921

NEZARA VIRIDULA
The oxygen consumption of different color stages in the bug Nezara viridula (L.). 1436
Some effects of the southern green stinkbug on soybeans. 1558
The relationship of some insects (Aphididae, Largidae, Pentatomidae, Coccinellidae and Malachiidae) to the pearlhairs or glanduliform emergences of Carica papaya L. 4736

NICARBAZIN
Nicarbazin. Drugs for veterinary use; drug efficacy study implementation. 4174

NICKEL
Problems of fungicidal efficiency. 255
Nickel toxicity in young growing mice. 7212
Use of an electron capture detector in gas chromatography. III. An example of its application. A study of the response of some chlorinated and phosphorated pesticides. 7340

NICKEL COMPOUNDS
Use of nickel morpholine dithiocarbamate as a nematocide. Patent 3,450,817. 6287

NICOTIANA
Hypersensitivity of Nicotiana Xanthi n. c. to virus, temperature, and soluble proteins. 1396
Electron microscope study of the first stages of alterations of the chloroplasts in Nicotiana xanthi n. c. in its hypersensitive reaction to the tobacco mosaic virus. 2782
Flavone composition, flowering, and hypersensitivity to virus in vegetables. 7281

NICOTIANA DEBNEYI
The transfer of blue mold resistance to tobacco from Nicotiana debneyi. Part IV. Breeding progress 1957-1967. 968

NICOTIANA GLAUCA
Nitrogenous and phenolic compounds of Nicotiana plants. II. Selective incorporation of aromatic amino acids in phenolic compounds of tumorous Nicotiana hybrids. 953

NICOTIANA GLUTINOSA
Electron microscopic observations on the causal agent of the Brazilian tomato ring spot disease. 2175
Effects of kinetin and actinomycin D on the susceptibility of Nicotiana glutinosa L. to infection by tobacco mosaic virus. 6022

NICOTIANA LANGSDORFII
Nitrogenous and phenolic compounds of Nicotiana plants. II. Selective incorporation of aromatic amino acids in phenolic compounds of tumorous Nicotiana hybrids. 953

NICOTINAMIDE
Metabolic regulation in diseased leaves. II. Changes in nicotinamide nucleotide coenzymes in barley leaves infected with powdery mildew. 982

NICOTINAMIDE ADENINE DINUCLEOTIDE
Nicotinamide-adenine dinucleotide-linked form of lactic dehydrogenase of the symbionts and fat bodies of a cockroach. 5295

NICOTINE
Action of nicotine on neural transmission in the American cockroach (Periplaneta americana (L.)). 1963
Insect control for garden vegetables. 3916
Effects of heptachlor and nicotine on the barbels of a catfish (Heteropneustes fossilis). 4310
Physiological responses of insects to nicotine. 4623

NICOTINIC ACID
Simple method for determination of glycine and niacin in drug mixtures. 1180

NILAPARVATA LUGENS
Collecting method and preliminary analysis of the soluble salivary secretions of the planthoppers. 5618

NINHYDRIN REACTION
Separation of the free ninhydrin-positive fractions in Phormia and Drosophila using two-dimensional high voltage electrophoresis. 1940
Nitrogenous compounds in the xylem sap of American elms with Dutch elm disease. 6083

NIPPOSTRONGYLUS BRASILIENSIS
The ultrastructure of the alimentary tract of the skin-penetrating larva of Nippostrongylus brasiliensis (Nematoda). 2998

NITIDULIDAE
Investigation into the diapause, capacity adaptation and temperature resistance of several insects and snails. 1453
A new species of Epuraea associated with eastern gall rust (Coleoptera: Nitioulidae). 5066
The genus Lasiodactylus Perty in Japan (Coleoptera: Nitidulidae). 5067
An interesting species-group of the genus Epuraea from Africa and Madagascar (Coleoptera, Nitidulidae). 7481

NITRATED PHENOLS
Studies of phytotoxicity in the use of herbicides for controlling annual weeds in almond orchards. 4780
Application of herbicides in pulse crops. 6339
Weeds in barley and their control. 6381
Study of certain herbicides against weeds in garden peas. 6392
Industrial fertilizers as herbicides seen in the light of new and old experiments. 7102

NITRATES
Effect of agriculture on nitrate pollution of groundwater. 469
Molybdenum in soils and its availability to plants. 1164
Sweetclover-weevil feeding deterrent B: Isolation and identification. 1598
Nodulation of Medicago sativa in solution culture. III. Effects of nitrate on root hairs and infection. 2157
Nitrate-nitrite intoxication in swine. 3035
Some underground relationships between Agropyron spicatum and Bromus tectorum. 3470
Nodulation of Medicago sativa in solution culture. IV. Effects of indole-3-acetate in relation to acidity and nitrate. 3698
Environmental nitrates and animal health. 4315

NITRIFICATION
The effect of temperature and fumigation on the nitrification rate in soil. 215
The effect of some herbicides on the nitrification in soils. 6373

NITRILES
Complex addition products of phosphorus pentafluoride and substituted nitriles. Patent 3,438,983. 7331

NITRITES
Relationship between indole production, nitrate production and carbohydrate fermentation in Vibrio cholerae. 1090
Nitrite-induced germination of Clostridium butyricum and Clostridium tyrobutyricum spores. 2889
Nitrate-nitrite intoxication in swine. 3035
Retention and transformation of anhydrous ammonia in soil and effects on foot rot Fusaria. 6088

NITRO-4-HYDROXYPHENYLARSONIC ACID, 3-
Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Zoalene, 3-nitro-4-hydroxyphenylarsonic acid. 2268
Notice of filing of petition for food additives. 4143
Notice of filing of petition for food additives. 7157

NITROANILINES
Thin layer chromatography of substituted nitroanilines and related compounds. 8007

NITROBENZOHYDROXAMIC ACID, P
Chemical control of pigweed. Patent 3,408,176. 315

NITRODAN
Notice of filing of petition for food additive nitrodan. 4144

NITROFURANS
The effect of furan series' carboxylic acid N, N-bis-(2-chloroethyl) hydrazides and N, N-bis-(2-chlordethyl) amides on the growth of transplantable tumours and haematopoiesis of rats and mice. 6543

NITROFURAZONE
Effect of nitrofurazone and furazolidone on reproduction in chickens. 4169
Postirradiation modification of ultraviolet-sensitivity of normal and nitrofurazone-resistant strains of the blue-green alga Anacystis nidulans. 7217

NITROGEN
The excretion of nitrogen in insects. 69
Tempting the soybean's erratic appetite. 228
Are fertilizers creating pollution problems. 468
Morphological changes in wheat caused by the action of chlorcholinchloride-CCC. 524
Effect of nitrogen, silicon and their interaction on the agronomic characters in paddy rice. 533
Influence of some aminotriazine herbicides on some soil fungi. 537
Distribution of nitrogen during the embryonic development of the mealworm, Tenebrio molitor Linnaeus. 819
Indices of weed-crop interference in Zea mays Linn. 1633
Nitrogen supply system prevents contamination of chemicals. 1843
Changes in glycogen-, lipid-, and nitrogen metabolism of the imago of Pyrrhocoris apterus L. in connection with the reproduction process. 1989
Inhibition of growth of Bacillus thuringiensis by amino acids in defined media. 2050
A comparative study on urea sprays upon some deciduous fruit trees. 2100
Effects of potassium, magnesium, and nitrogen deficiencies on the concentration of chlorogenic acid and scopolin in tobacco. 2116
The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato. 2252
Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice. 2445
Response of cotton plant to certain combinations of fertilizers and Metaisosystox. 2447
Preliminary study on the effect of different doses of Nitrogen on the incidence of major pests of mustard. 2644
Tests of (2-chloroethyl)trimethylammonium chloride on varieties of hard wheat. 3050
Radiation sensitivity of Drosophila embryos in relation to age, in air and in nitrogen. 3213
Chronic melanization in the eggs of Aedes aegypti. 3304
A note on the natural incidence of sesamum phyllody virus in Brassica Spp. at Ludhiana. 3357
Defoliant compositions Patent 3,440,034. 3721
Are fertilizer programs related to fireblight and fruit disorders at harvest. 3933
Effect of Sclerospora graminicola infection on total nitrogen content and free amino acid composition of Bajra plants. 3995
Possibilities for Botrytis cinerea control, especially in tomatoes. 4019
Amino acids and isonitrogenous turkey starter diets. (Abstract). 4207
Lysine levels on chick growth and nitrogen utilization. (Abstract). 4264
Effect of storage on cottonseed and cottonseed products. 4283
Fertilization of semi-mature stands in Newfoundland. 4652
Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control. 4722
Imidazole: Fungitoxic derivatives. 4902

Range recovery and production as influenced by nitrogen and 2,4-D treatments. 5826

Studies on Botrytis cinerea in tomatoes. Effect of soil nitrogen level and of methods of deleafing upon the occurrence of B. cinerea under commercial conditions. 6118

Stubble burning helps control Wimmera rye grass. 6362

Broadleaf weed control in rice. 6370

On the permanent bedding of chicken. Some technical and hygienic-sanitary questions. 6414

Production of cellulase, antibiotic and antitumor substances by growing Eumyces ATCC 16425 Patent 3,438,864. 6445

Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis. 6646

Influence of various strains of the Aujeszky virus on the metabolism of cells cultured in vitro. 6658

Effect of paraquat on the nitrogen content and regrowth of Coastal bermudagrass (Cynodon dactylon (L.) Pers.). 7219

Nitrogen metabolism in developing seeds of Vicia faba. 7225

Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil. 7236

Studies on the molybdenum availability. Part I. Molybdenum uptake by plants under different nitrogen and phosphorus nutrition. 7288

Lodging in wheat and its control by (2-chloroethyl) trimethylammonium chloride (CCC) in solid form. 7308

Nitrogen increases bell pepper susceptibility to bacterial soft rot. 7309

Effects of 2-chloroethyl-trimethylammonium chloride (CCC) on yield and lodging of wheat. 7313

Substituted and unsubstituted N-lower alkyl benzhydrylcarbamates as herbicides. Patent 3,431,099. 7358

Pesticidal compositions comprising N-substituted gamma hydroxycarboxylic acid amides. Patent 3,436,463. 7359

Plant analyses uncover hidden hunger in Indiana. 7784

NITROGEN COMPOUNDS

Nitrogenous and phenolic compounds of Nicotiana plants. II. Selective incorporation of aromatic amino acids in phenolic compounds of tumorous Nicotiana hybrids. 953

Influence of crop sequence, nitrogen fertilizer and herbicides on weed seed populations in sugar beet fields. 1632

The utilization of some nitrogen compounds by some cellulosolytic fungi. 3351

Nitrogenous compounds in the xylem sap of American elms with Dutch elm disease. 6083

An observation on the influence of nitrogen fertilization on the attack of peas by powdery mildew (Erysiphe polygoni DC). 6131

Urea in the ration: How much can we safely add . 7868

NITROGEN-FIXING BACTERIA

Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host. 2261

Localization of dehydrogenases in the nodular tissues of leguminous crops. 3060

NITROPHENOL, P

Oscillopolarographic determination of parathion, paraoxon, and p-nitrophenol in fortified canned peaches following thin layer chromatography. 3659

Asymmetrical para-nitrophenyl phosphates. Patent 3,444,274. 7370

NITROSO COMPOUNDS

On the reversible character of delayed mutations induced by nitrosocompounds in Drosophila melanogaster. 5730

NITROSOGUANIDINE

Reaction of nitrosoguanidine (N-methyl-N'-nitro-N-nitrosoguanidine) with tobacco mosaic virus and its RNA. 6081

On the repair of the damages induced by N-methyl-N'-nitro-N-nitrosoguanidine in the bacterial DNA. 7373

NITROVIN

Payzone nitrovin-A new growth promoter for poultry. (Abstract). 4101

NITROXINIL

Tolerance of sheep to parenterally administered iqdo-3 hydroxy nitbo-5 benzonitril. 7168

NOCARDIA ASTEROIDES

Nocardia asteroides, cause of an endemic mastitis in the cow. 2950

NOCARDIA CAVIAE

Canine nocardiosis due to Nocardia caviae. 6733

NOCARDIOSIS

Nocardia asteroides, cause of an endemic mastitis in the cow. 2950

Canine nocardiosis due to Nocardia caviae. 6733

NOCTUIDAE

Sometimes old collections contain surprises. (Noctuidae). 10

Listing of the trifid Noctuidae of France and Belgium. 16

Notes on the fauna of the Armoricaine Mountains. 20

New species for the Belgian fauna. 35

Apamea pabulatricula Brahm in Belgium. (Noctuidae). 36

Biological notes on eye-frequenting moths from North Thailand. 71

Identification of cutworms of economic importance on Rhodesia (Lepidoptera: Noctuidae). 595

List of the nocturnal Trifids of France and Belgium. 599

Entomological tour of Spain. 653

Selection of lectotypes for some species of Euxoa Hubner described by J. B. Smith (Lepidoptera: Noctuidae). 712

New or little known Quadrifid Noctuidae of Madagascar III. (Lep. Noctuidae). 717

The adaptive feeding habit of a pine caterpillar. 825

Diseases of forest defoliators of Spain. 874

Noctuidae (Lep.). Description of 26 new palearctic species of Noctuidae Trifinae and of a new sub-genus of the subfamily Apatelinae. Contribution no. 160 to the study of Noctuidae Trifinae. 1222

Oligia fasciuncula hispanica, subsp. nov. (Lep., Noctuidae). 1285

A preliminary report of Plusia festata Graeser (Lep., Noctuidae). 1373

Further notes on melanism in Connecticut Panthea furcilla (Packard) (Lepidoptera: Noctuidae). 1421

Some interesting Noctuidae finds from the Tessin. 1908

Comparative chromatographic investigations of Arthropod cocoons. 1931

Rhyacia augur F. and other climbing cutworms (Lepidoptera). 2215

The genera of the Argentine Noctuinae (Agrotinae, sensu Hampson), Lep. Het. 3113

Pheromones from the abdominal brushes of male noctuid Lepidoptera. 3154

The occurence of a rickettsialike organism in a noctuid. 3236

Melanism in Connecticut Charadra deridens (Guenee) (Lepidoptera: Noctuidae). 3332

Conodontis peplaria Geyer, a noctuid, not a geometrid (Lepidoptera). 3762

Supplementary communication concerning the occurrence of Caradrina kadenii Frr. (Lep.Noct.) in Switzerland. 3771

On the identity of 'Dasythorax ogasawarae Matsumura' (Lepidoptera, Noctuidae, Cuculliinae). 3777

Taxonomic and nomenclatural notes on Gonodonta obesa (Walker)(Lepidoptera: Noctuidae). 3780

Problem insects in 1967 - how to control them in 1968. 3891

Hereditary nature of the two forms of Argyrogramma albostriata (Bremer and Grey) (Noctuidae, Plusiinae). 3898

Insect control for garden vegetables. 3916

Choice of resting site by Noctuidae (Lepidoptera). 4352

Listing of Trifid noctuidae of France and Belgium. 4361

Zanclognatha tenuialis Rebel in France (in Alsace and L'Isere). (Lep. Noctuidae, Hypeninae). 4376

Panthea coenobita Esp. in the French Jura. (Lepidoptera Noctuidae Pantheinae). 4377

Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413

Study of the phototrophism of the Noctuidae (Lepidoptera). Research on the variation of behavior following the frequency of intermittent monochromatic illumination. 4487

Two Noctuidae new for the fauna of Belgium. 5022

Entomological results of catches in the area of San Bernardino (Misox Gr), which has not been fully explored lepidoterologically. (A building block of the Swiss Lepidoptera fauna). 5147

Continuous variation in related species of the genus Catocala (Noctuidae). 5180

Life history notes on Lithophane subtilis (Noctuidae). 5270

Life history of Heliolonche carolus (Noctuidae). 5354

Behavioral adaptations of cryptic moths. I. Preliminary studies on bark-like species. 5583

Sex pheromones of noctuid moths. XIII. Changes in pheromone quantity, as related to reproductive age and mating history, in females of seven species of Noctuidae (Lepidoptera). 5603

Feeding mechanism of a fruit-sucking moth Othreis materna (Lepidoptera: Noctuidae). 5623

Seasonal distribution, sex ratios, and mating of female noctuid moths in blacklight trapping studies. 5655

Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract). 5690

Damage caused by adults of Lepidoptera Noctuidae in mango fruits in 1964. 6145

Control of insects on alfalfa and red clover. 6185

Insect pests of barley and their control. 6231

Studies on the antifeedant against the catterpillars of Pericallia ricini F. (Arctiidae) and Spodoptera littoralis Boesd. (Noctuidae: Lepidoptera) on castor (Ricinus communis L.). 6259

Annual pest control programs for Central California. 6260

Three species of the family Noctuidae new for the CSSR (Lepidoptera). 7505

Distribution of the Macrolepidoptera in the Baltic. III. Nocturnal moths (Fam. Noctuidae). 7548

Chemosterilisation of the red bollworm, Diparopsis castanea Hmps. (Lepidoptera: Noctuidae). 7585

The formation of a rudimentary spermatophore by the red bollworm. 7586

A first record of fruit-piercing noctuid moths in Europe. 7820

NODAMURA VIRUS
Variable results of sodium deoxycholate tests of Nodamura virus, an ether and chloroform resistant arbovirus. 1100

NODOSTOMA SUBCOSTATUM
The banana beetle can be checked. 6244

NODULES (PLANTS)
Nodulation of Medicago sativa in solution culture. III. Effects of nitrate on root hairs and infection. 2157

Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host. 2261

Contribution to the knowledge of dominant biotypes of the Phytophthora infestans on the potato. 2779

The effect of anti-fungal antibiotics on the nodulation of Trifolium subterraneum and the estimation of Rhizobium trifolii populations. 3061

Nodulation of Medicago sativa in solution culture. IV. Effects of indole-3-acetate in relation to acidity and nitrate. 3698

NOMADA
Results of the Albanian 1961 Expedition of the German Entomological Institute. 68. Contribution. Hymenoptera Apidae. III. (Genus Nomada Scopoli). 7537

NOMADACRIS SEPTEMFASCIATA
Operational research into aerial control of hoppers of the Red Locust (Nomadacris septemfasciata Serville) in an outbreak area. 994

NOMENCLATURE
Original descriptions, synonyms and geographical distribution of the species of the Syrphidae (Diptera) family in chile. 24

The nomenclature problem of Trichogramma species. 45

Notes on Plebeius argyrognomon Bgstr. (Lepidoptera, Lycaenidae). 54

The control of polymorphism in aphids. 115

Report of the committee on nomenclature and reporting of disease, Northwestern Conference on Avian Diseases, June 1968. 400

Pest control, education, and the New Breed. 577

Observations on postembryonic development in Eutrombicula splendens (Acari-Acariformes). 817

Two new African Coprophagids as well as a new synonomy (Col., Scarab.). 1247

Stenobothrus rubicundus (Germar, 1817): An invalid name (orthoptera). 1279

A new synonymy in Hybomitra (Diptera: Tabanidae). 1309

On the authorship of the generic name Tagalis and the invalidity of the family-group name Tagalidae (Hemiptera: Reduviidae). 1410

Salmonella species. First isolations, names and occurrence. QR82.S27K4. 2303

Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea. 2613

The special forms in the classification of phytopathogenic bacteria. 2793

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes. 2824

The proper name for Lycaena epixanthe from Newfoundland and the Maritime provinces. 3088

Ancyloxypha melanoneura orientalis subsp. nov. (Lep. Rhop. Hesperiidae). 3104

On the authorship of the generic name Tagalis and the invalidity of the family-group name Tagalidae (Hemiptera: Reduviidae). 3105

Common names of British insect and other pests. 3135

Cooperative description of type cultures of Strepomyces. II. Species descriptions from first study. 3349

Conodontis peplaria Geyer, a noctuid, not a geometrid (Lepidoptera). 3762

On nocturnal darkling beetles of the genus Melanesthes Lac. (Coleoptera, Tenebrionidae) from central Kazakhstan. 3772

Taxonomic and nomenclatural notes on Gonodonta obesa (Walker)(Lepidoptera: Noctuidae). 3780

Remarks concerning the terminology of the genitalia armor in the genus Argynnis (S.L.). (Lepidoptera, Nymphalidae). 4573

Studies on Phyllosticta blight of rice. 4703

Undescribed species of nematocerous Diptera. IX. 4983

The butterfly in the vernacular. 5079

What is Psallus dilutus Fieber 1858 (Hem.,Het.,Miridae. 5165

Pest control by the biological method. 5523

Zoological nomenclature in the Jet Age. 5577

Integrated and harmonious control of insect pests. 5667

Report of the Committee on Nomeclature of Rice Virus Diseases. 6031

Weeds and man. 6325

The queen in Dorylus (Anomma) kohli Wasmann (Hymenoptera: Formicidae). 7439

Suggestions concerning the terminology of the genital sheath of the Lepidoptera. 7515

The identity of Anthomyia melania Dufour, 1839 (Diptera: Fanniidae). 7523

A list of new taxa and new synonyms published in the Entomogical Review in the peroid 1945-1967. 7529

The terminology of the phenomena connected with the weather in ecology. 7704

Tolerance of virus infection in crop plants. 7804

NORBORMIDE
Thieves in the poultry house. 7041

NOREA
Pre-emergence weed control in the nursery. 6383

Microbial degradation of five substituted urea herbicides. 7276

NORMANDIA
Notes on Palearctic Dryopidae larvae: The genera Normandia Pic and Grouvellinus Champion (Col.). 7433

NORTHWEST TERRITORY
The Orthoptera of Alaska, Yukon and the MacKenzie district of the Northwest territories. 715

NORWAY
Stilbia anomala Hw. new for Scandinavia. (Lep., Noctuidae). 1304

NOSEMA
A new Nosema sp. of Euproctis chrysorrhoea L. 120

NOSEMA ACRIDOPHAGUS
Early morphogenesis of tumours induced by Nosema acridophagus in Melanoplus sanguinipes. 3827

NOSEMA APIS
The measurement and interrelationships of infections with Nosema apis and Malipighamoeba mellificae of honey-bee populations. 59
The fate of spores of Nosema apis Zander ingested by muscoid flies. 111
The occurrence of a Crithidia species within the gut of the honey bee, Apis mellifica L. 121
Nosema disease of honey bees. 2543
Nosema disease and amoeba disease. 3249
The fine structure of the spores of Nosema apis. 7717

NOSEMA DISEASE
The measurement and interrelationships of infections with Nosema apis and Malipighamoeba mellificae of honey-bee populations. 59
The occurrence of a Crithidia species within the gut of the honey bee, Apis mellifica L. 121
Nosema disease and amoeba disease. 3249

NOSEMA MELOLONTHAE
Developmental cycle and pathology of a microsporidosis brought about by Nosema melolonthae (Krieg) comb. nov. in grubs of Melolontha melolontha (L.) (Col. Melolonthidae). 104

NOTHOFAGUS
Neuquenaphis papillata, a new Nothofagus-infesting aphid from Chile, with a review of related species from South America (Homoptera: Aphididae). 691

NOTIOPHILUS
The larvae of some British Notiophilus species (Col., Carabidae). 612

NOTIOPHYGUS
A new species of Notiophygus Gory with supplementary information (Discolomidae Col.). 634

NOTODONTIDAE
Entomological tour of Spain. 653
Larval dimorphism and other characters of Heterocampa pulverea (Grote Robinson) (Lepidoptera: Notodontidae). 1422
A comparative morphological study of the male external genitalia of the type-species of some South African Notodontidae (Lepidoptera). 4611
On several Australian Notodontidae (Lepidoptera: Notodontoidea). 7489
The effects of methylfarnesoatdihydrochloride on the colour change and moulting behaviour in the larvae of Cerura vinula L. (Lepidoptera). 7618

NOTONECTIDAE
Notonecta borealis Bueno and Hussey (Hem., Notonectidae): A flightless species. 150
The Enithares (Hemiptera-Heteroptera: Notonectidae) of the Oriental region. 1281

NOVOBIOCIN
Observing the sensitivity of Francisella tularensis to antibiotics in vitro. 6621
Novobiocin for use in chicken and turkey feed. Drugs for veterinary use; drug efficacy study implementation. 7176

NOZZLES
Concentrate spraying. 570
Evaluation of spray deposits from low volume spray nozzles. 1844
Alternating sprays cuts resistance. 3342
A laboratory sprayer-flamer. 3728
Tifton ultra-low-volume nozzle tip. 3729
What you should know about concentrate spraying. 4342
Chemical growth inhibition in turf. 6349
Spray nozzles must be recalibrated at regular intervals. 7390
The microfoil boom. 7394
Log-normal spray drop distribution analyzed by two new computer programs. 7402
Application of pesticides to tobacco seed-beds. 8016

NUCLEAR MAGNETIC RESONANCE
Proton magnetic resonance spectra of some phenyl-phosphorus compounds. 4931
Nuclear magnetic resonance studies of phosphorus(V) pesticides- III, the hydrolysis of aliphatic pesticides by aqueous solutions. 7347

NUCLEAR POLYHEDROSIS VIRUS
Report of third work conference on the use of nuclearpolyhedrosis virus for control of Heliothis species. 1934

NUCLEASES
The effect of nucleases and nucleic acid synthesis inhibitors on sigma virus multiplication in Drosophila melanogaster. 1979

NUCLEIC ACIDS
Physiology of parasitism. 2. Biochemical changes in the Mung bean seedling infected with Rhizoctonia solani Kuehn. 954
Relationships among the polyhedrosis and granulosis viruses of insects. 1360
Variations of nucleic acid content in the salivary glands of Drosophila hydei during late larval development. 1949
The effect of nucleases and nucleic acid synthesis inhibitors on sigma virus multiplication in Drosophila melanogaster. 1979
Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants. 2645
Studies on alfalfa mosaic virus. I. The protein and nucleic acid. II. The structure of the virus components. 3379
Phycovirus SM-I: A virus infecting unicellular blue-green algae. 3409
Action of proteinic brain hormone to the prothoracic gland in an insect, Bombyx mori L. (Lepidoptera: Bombycidae). 5412
Nucleic acid content of a diploid and of a triploid strain of Drosophila melanogaster. 5705
Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. I. Assay, extraction, and concentration. II. Characterization and partial purification. 6051
Susceptibility of scrapie agent to ionizing radiation. 6575
Effect of trifluralin on growth, morphology, and nucleic acid synthesis. 7292
Base composition and thermal denaturation of DNA isolated from Anaplasma marginale. 7607
The metabolism of nucleic acids in the wing buds of Pieris brassicae (L.) (Lepidoptera, Pieridae). 7637

NUCLEOPROTEINS
Phycovirus SM-I: A virus infecting unicellular blue-green algae. 3409
Polysome formation with tobacco mosaic virus RNA. 4708
Assembly of protein and nucleoprotein particles from extracted tobacco rattle virus protein and RNA. 6074

NUCLEOSIDES
Enhancement by 2,4-dichlorophenoxyacetic acid of chromatin RNA polymerase in soybean hypocotyl tissue. 7278

NUCLEOTIDES
Isolation and characterization of ribonucleic acid from Musca domestica (L.). 3798
The biochemistry of Vibrio cholerae: Part IV. Acid soluble nucleotide constituents. 4927

NURSERIES
How to produce high yields. 194
Plant inspection and what it entails. 258
Chemical aids figure in plant propagators' reports. 516
Little noticed kinds of weeds in tree nurseries. 1034
Nurserymens experience in 1964-1965 with Mellicta athalia Rott. (Lep., Nymphalidae). 1442
Western gall rust on jack pine nursery stock in Manitoba. 2719
Spore dispersal by Scleroderris lagerbergii under nursery and plantation conditions. 4007
Insect and mite control on nursery stock in Ohio. 4743
Some observations and comments on stem-pitting of peach, its control and a nursery improvement program. 5782
Lemon scab (Sphaceloma fawcettii scabiosa). 6029
Use of herbicides in coffee nurseries with full exposure to sun. 6324
Weed control in nursery sod. 6371
Pre-emergence weed control in the nursery. 6383
Methods of chemical weed control. 6391
Studies on the weed control in the paddy field. I. On the herbicidal weed control in wet and dry nurseries. II. On the herbicidal weed control at the early stage of rice plants in the paddy field. 6401

NURSERY STOCK (HORTICULTURE)
Foreign quarantine notices. Nursery stock, plants, and seeds. Importation. 4346
Regulation in connection with field and greenhouse culture of nursery plants. 6284

NUTRIENT SOLUTIONS (PLANTS)
Tempting the soybean's erratic appetite. 228
Effect of iron and manganese on energy transformations in plants with inhibited chlorophyll synthesis. 1811
Serological relationships of physiologic races A-1 to A-8 of Phytophthora fragariae. 2744
Boron nutrition of sugar beet, cotton, and soybean. 3699
Fusarium wilt (race 2) of tomato: Calcium, pH, and micronutrient effects on disease development. 3974
Breeding and propagation of virus-free grapes in hydroponic cultures. 4045
Conversion of DDT to DDD in soil and the effect of these compounds on soil microorganisms. 5809
Effect and compatibility of nutrient sprays with insecticides and fungicides for groundnut (A. hypogea). 6063
Matricaria and lambsquarter control in Brassicas with analogs of propachlor. 6368
Antifungal action of a phosphate ester pesticide, O-Mchlorophenyl O,O-dimethyl phosphorothioate, used in nutrient media for fungi. (abstract). 7175
Effects of dimethyl sulfoxide on the biological activity of selected miticides and insecticides. 7280

NUTRITION
Feeding behavior and nutrition in grasshoppers and locusts. 75
Are fertilizers creating pollution problems . 468
Findings concerning nourishment and toxic residues in plants, other health hazards and life threats. 478
Production of extracellular enzymes by Phytophthora palmivora (Butl.) Butl.. 958
Simple method for determination of glycine and niacin in drug mixtures. 1180
Inhibition of growth of Bacillus thuringiensis by amino acids in defined media. 2050
Studies on the brown-eye-spot disease (Cercospora coffeicola Berk. et Cke.) of coffee (Coffea arabica L.). V. Nutritional requirements of the pathogen. 2186
Nutritional behavior of Trogoderma granarium Everts (Coleoptera: Dermestidae) on leguminous seeds. 5230
Report on forest research for the year ended March 1968. 5845
Nutritional requirements of Pasteurella tularensis for growth from small inocula. 6609
An endogenously produced substance essential for growth initiation of Pasteurella tularensis. 6610
Trichinella spiralis: Immune elimination in mice. 6935
Toxicity of pesticides to man: Risks from present levels. 7107
Nutritional management and bovine ketosis. 7899

NUTS
A guide to chemical weed control in tropical and subtropical fruit and nut crops in Hawaii. 327
Weed control in fruits and nuts. 4070

NYCTERIBIIDAE
Faunal and ecological study on the families Nycteribiidae and Streblidae (Dipt., Pupipara) of the Nangahar Province (Eastern Afghanistan). 3829

NYGMIA PHAEORRHOEA
A new Nosema sp. of Euproctis chrysorrhoea L. 120
The effect of diet on the physiology of the brown-tail moth, Euproctis chrysorrhoea L. (Lepidoptera, Liparidae). 3861

NYMPHALIDAE
A deviant form of Aglais urticae. (Nymphalidae). 33
A new sub-species of Cynandra opis Drury. 34
Notes on two Coenonympha of the Paris basin. (Lepidoptera Nymphalidae Satyrinae). 594
A probable hybrid between Melanargia russiae and Melanargia lachesis.(Nymphalidae Satyrinae). 895
Nurserymens experience in 1964-1965 with Mellicta athalia Rott. (Lep., Nymphalidae). 1442
Some new Heliconius pupae: Their taxonomic and evolutionary significance in relation to mimicry (Lepidoptera, Nymphalidae). 2535
A new Phyciodes from eastern Ecuador (Lep. Rhop. Nymphalidae). 3102
Remarks concerning the terminology of the genitalia armor in the genus Argynnis (S.L.). (Lepidoptera, Nymphalidae). 4573
Single unit activity in the visual pathway of the butterfly Heliconius erato. 4605
Chemotaxonomy and chemomimicry: The case of 3-hydroxykynurenine. 5006
Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVIII. Lepidoptera: Nymphalidae, Danaidae and Riodinidae. 5034
First records of two butterflies in Wisconsin (Nymphalidae, Pieridae). 5098
A new foodplant for Euphydryas phaeton (Nymphalidae). 5487
Sounds produced by Neptis hylas (Nymphalidae). 5596
Polymorphism in the mimetic butterfly Hypolimnas misippus L. in Ghana. 7604

NYMPHS
New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata). 4497
The nymphal instars of four lace bugs from Czechoslovakia. (Heteroptera, Tingidae). 4604
A key to all stages of the British species of the family Neobisiidae (Pseudoscorpiones: Diplosphyronida). 5037
The induction of NAD kinase by DDT in Triatoma infestans. 5182
The distribution of nymphs of Brachyptera risi Mort. and Nemoura flexuosa Aub. (Plecoptera) in relation to oxygen. 5453

NYSTATIN
Nystatin for feed formulation. Drugs for veterinary use. drug efficacy study implementation. 4179

OATS
Oat diseases and their control. 256
Manganous oxide (MnO) as a fertilizer for controlling manganese deficiency in oats. 257
Bacterial stripe blight of oats caused by Pseudomonas striafaciens (Elliott) Starr et Burkholder. 260
Effect of atrazine on oats (Avena sativa var. Minhafer) I and II. (Abstract). 490
Fixation of carbon dioxide in the dark by the malic enzyme of bean and oat stem rust uredospores. 981
The toxicity of biuret to plants as depending on soil conditions. 1166
Oat seed fungi and their control. 1566
Effect of iron and manganese on energy transformations in plants with inhibited chlorophyll synthesis. 1811
Hydroxyproline formation and its relation to auxin-induced cell elongation in the Avena coleoptile. 1812
Inheritance of crown rust resistance in Avena sterilis. 2108
Additional sources of tolerance to oat crown rust. 2176
A new source of high protein in oats. 2193
Critical study of a new device for gibberellin dosage by the elongation of the oat stem. 2454
Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba. 2646
Relations of disease resistance mechanisms to pathogen dynamics in oat crown rust epidemiology. 2723
The inheritance of resistance to stem and crown rust in Kyto oats. 2759
Barley yellow dwarf virus. 2767
Ten year observations on the appearance of oat nematodes in the Rheinland-Pfalz. 2837
Investigation into the oat nematode problem. 2839
Mycoplasma-like microorganism and virus particles in the leaphopper Javesella pellucida (F.) transmitting the oat sterile dwarf disease. 3431
Three laboratory techniques for screening small grains for resistance to the cereal leaf beetle. 3448
Crown rust of oats in Canada in 1968. 3958
O-isopropoxyphenol methylcarbamate. Notice of establishment of temporary tolerance for pesticide chemical. 4294
Studies on Phyllosticta blight of rice. 4703

Kota, a new South Dakota oat. 5775

Avena magna: An important new tetraploid species of oats. 5824

Resistance of genes isolated from Avena sterilis to isolates of oat crown rust prevalent in Canada in 1968. 5928

Experiments on the control of cereal smuts with a derivative of 1,4-oxathiin. 5987

The susceptibility of cereals and wild oats to an isolate of the aster yellows pathogen. 6128

Yield reduction of oats caused by the cereal leaf beetle. 6222

Host range studies of oat blue dwarf virus. 6274

Sources of tolerance to soil-borne oat mosaic virus from the World Oat Collection. 6602

Influence of some herbicides on accumulation of 32P in above-ground organs of oats. 7223

Influence of herbicides from s-triazine group on dynamics of some biochemical processes of oats in test experiments. Part II. Researches on action of propazine, prometrine, and prometone. 7248

Microbial degradation of five substituted urea herbicides. 7276

Influence of simazine on chloroplast metabolism. 7294

Loose smut of oats. 7766

The effect of the barley yellow dwarf virus disease on barley and oats in the Western Cape. 7816

OCCUPATIONAL DISEASES
Medical observations concerning ornithosis control in the poultry industry. 365

OCHRATOXIN
Screening method for zearalenone, aflatoxin, and ochratoxin. 4928

OCTOSPOREA
An octosporeosis of the black blowfly Phormia regina: Effect of temperature on the longevity of diseased adults. 5419

ODAGMIA ORNATA
On the problem of heterozygosity with respect to puffs and to the structure of separate bands in the giant chromosomes of two species of blackflies (Simuliidae, Diptera). 2680

ODOIPORUS LONGICOLLIS
A technique for maintenance and rearing of Odoiporus longicollis. 5424

ODONATA
Effects of temperature and photoperiod on larval development in Lestes eurinus (Odonata: Lestidae). 123

The insect fauna of Surinam, as well as a comparison of these insects with the Odonata fauna of the Antilles. 1251

Notes on the Odonata of the Netherlands. Crocothemis erythraea (Brulli, 1832) in the Netherlands (Libellulidae, Sympetrinae). 1273

Heterogeneity in the fibre composition of the flight muscles of dragonflies (Odonata). 1394

Temporal territorial behavior of the dragonfly Aeschna cyanea. 1415

Investigation into the diapause, capacity adaptation and temperature resistance of several insects and snails. 1453

The nervous control of insect flight and related behavior. 1491

A list of the type-specimens of Libellulidae and Corduliidae (Odonata) in the British Museum (Natural History). 2496

New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata). 3820

New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata). 4497

A new species of Lestinogomphus Martin 1912 (Odonata), and the hitherto undexcribed male of Microgomphus camerunensis Longfield 1951. 5038

Adults of Eumegacetes artamii from white leghorn pullets infected with the metacercariae from two dragonflies. 7009

Supplementary observations on the habits of Macromia splendens (Pictet 1843) and some other Odonata species occurring in Guienne (France). 7435

Pantala hymenea (Say) (Odonata: Libellulidae) of Quebec. 7455

Aeshna clepsydra (Say) Odonata: Aeshnidae) of Quebec. 7456

The copulatory complex of some species of Tramea Hagen (Libellulidae: Odonta) and its taxonomic importance. 7488

Two new Odonata from Southeast Asia, with comments on previously described species. 7499

Annulate lamellae and yolk nuclei in oocytes of the dragonfly, Libellula pulchella. 7626

On the ecology of zygopteran dragonfly populations. 7671

ODONTOCERIDAE
Studies of neotropical caddis flies. VIII: The immature stages of Barypenthus claudens (Trichoptera: Odontoceridae). 3818

ODONTOGLOSSUM
Some experiments on the transmission of Cymbidium mosaic virus and Odontoglossum ringspot virus. 5970

ODONTOPUS CALCEATUS
Observations of Odontopus calceatus (Coleoptera: Curculionidae), a leaf miner damaging yellow-popular. 7692

ODONTOTERMES OBESUS
Studies of an insect mycosis. I. Histopathology of the integument of the infected queen of the mound-building termite Odontotermes obesus. 3273

Studies of an insect mycosis. II. Biochemical changes in the blood of the queen of the mound-building termite Odontotermes obesus accompanying fungal infection. 3274

Termite control in rubber plantations. 4521

ODONTOTERMES REDEMANNI
Vitamin A in the vision of termites. 7694

ODONTRIA VARIECOLORATA
Resolute research to defeat grassgrub. 2806

ODORS
Odour similarities between the slave-keeping ants Formica sanguinea and Polyergus rufescens and their slaves Formica fusca and Formica rufibarbis. 4965

Insect venoms, attractants, and repellents. XI. Massoilactone from two species of formicine ants, and some observations on constituents of the bark oil of Cryptocarya massoia. 5257

Biologically active compounds in orchid fragrances. 5290

Host preferences and discrimination by the mosquitoes Aedes aegypti and Culex tarsalis (Diptera: Culicidae). 5461

Microbial degradation of aromatic compounds. 7346

OECOPHORIDAE
Male genitalia of the species of Depressaria Haworth s. l. (Lepidoptera, Oecophoridae) occurring in the Netherlands (Addenda). 5427

OEDEMERIDAE
A contribution to the knowledge of the Cerambycidae and the Oedemeridae of Iran. 4394

Catalogue of the Oedemeridae of Italy (Coleoptera). 5095

OESOPHAGOSTOMIASIS
Oesophagostomum longicaudum Goodey, 1925, (Nematoda: Cyathostomidae) in pig from the State of Sao Paulo, Brazil. 2992

A study of oesophagostomiasis, encountered in young buffaloes of Casertano. 4269

The investigation of alkaline phosphatase in the feces of pigs during experimental oesophagostomosis. 6931

OESOPHAGOSTOMUM
Hyostrongylus rubidus: A field study of its pathogenesis, diagnosis and treatment. 440

Hygromix (hygromycin B). Drugs for veterinary use; drug efficacy study implementation. 2364

Parasites of sows and pigs in Europe. 3625

A comparative study of the activities of 2,6-diiodopara-nitrophenol (Disophenol) and 2-para-thiazolylbenzimidazole (Thiabendazole) as anthelmenthic for sheep. 6999

Treatment of gastrointestinal parasitism of cattle with Parbendazole. 7004

Anthelmintic treatment of sows with thiabendazole. 7015

OESOPHAGOSTOMUM DENTATUM
The routine differentiation of the ova and larvae of two parasites of swine, Hyostrongylus rubidus (Hassall et Stiles, 1892) and Oesophagostomum dentatum (Rud., 1803). 1742

OESOPHAGOSTOMUM LONGICAUDUM
Oesophagostomum longicaudum Goodey, 1925, (Nematoda: Cyathostomidae) in pig from the State of Sao Paulo, Brazil. 2992

Note on Bourgelatia diducta, Oesophagostomum longicaudum and Globocephalus urosubulatus (Nematoda-Strongylidea) in swine of Minas Gerais, Brazil. 6911

OESOPHAGOSTOMUM RADIATUM
A study of oesophagostomiasis, encountered in young buffaloes of Casertano. 4269

Amino acid composition of some strongyle parasites of cattle. 6952

Epidemiology of helminth infestation of beef cattle in central Queensland. 7019

OESTRIDAE
Observations of defence reactions to oestrid flies by semidomestic forest reindeer (Rangifer tarandus L.) in Swedish Lapland. 6891

OIDIUM
Recommendations for chemical treatment of diseases of Hevea. 250

Gloeosporium. 2705

OIL MEAL
Relative efficacy of different oil-cakes on the incidence. of root-knot nematodes. 298

OIL SPRAYS
Scale insects, mealy bugs and lac insects. 1615

OILS
Pesticide residues in ointment bases of natural origin. 496

Estimation of chlorinated pesticide residues in animal and vegetable oils. 1151

Pre-bloom oil sprays for European red mite control. 1932

Lemon scab (Sphaceloma fawcettii scabiosa). 3394

Control of Ephestia clutella (Hb.)(Lepidoptera, Phycitidae) using dichlorvos in oil. 3438

Meiotic and morphological response of grain sorghum to atrazine, 2,4-D, oil, and their combinations. 3694

Prevention of the spread of non-persistent plant viruses by oil spraying. 3963

Comparison of attenuated live Pasteurella multocida given in drinking water to an oil-base bacterin administered to turkeys. (Abstract). 4117

Integrated control of the fruit-tree leaf roller, Archips argyrospilus (Walker), and the eye-spotted bud moth, Spilonota ocellana (Denis and Schiffermuller). 4553

Problems with scald inhibitors. 4863

Insect and mite control on ornamentals. 5471

Report of the Suffolk County Mosquito Control Commission. 5633

On the larvicidal action of crude cashewnut shell oil. 5757

Ultra low volume spraying of cotton. 5822

Results of tests of fall colza varieties 1963-1966. 6120

Baits for the control of leaf-cutting ants. I. Formulation. 6166

Postemergence weed control in soybeans. 6378

Effect of pesticides on chemical composition of soybean seed (Glycine max (L.) Merrill). 7965

OILSEEDS
Controlling diseases of oilseed crops. 6046

OLEANDOMYCIN
Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Oleandomycin. 1679

Investigation of the residues of two antibiotics of the macrolide family (oleandomycin and spiramycin) in the tissues of chickens receiving anibiotic feed supplements. 4301

OLEIC ACID
Influence of microorganisms on intestinal absorption: Oleic acid 131I and triolein 131I absorption by germfree and conventionalized rats. 427

Effect of prolonged infection by intestinal coccidia upon zinc-65 and oleic acid absorption in broilers. (Abstract). 4250

OLESICAMPE
Biological control of introduced forest insect pests. 1544

OLETHREUTIDAE
Natural enemies of Laspeyresia pomonella L. (Lepidoptera, Tortricidae) and the effect of chemical treatment on their useful activity. 3819

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

The genera of Palearctic Tortricidae. II. The subfamily Olethreutinae 7th part. Eucosmini (Heinr. 1923) tribe--continuation. 5115

Observation on Laspeyria pactolana Zell.: A pyralid of verticillate Picea. 5214

European pine shoot moth. 5663

OLFACTOMETERS
Observation of the sexual behavior of Hofmannophila pseudospretella. (Abstract). 810

Studies on the attack behavior of the southern pine bettle. II. Response to attractive host material. 1943

Studies on the attack behavior of the southern pine bettle. IV. Influence of host condition on aggregation pattern. 2064

Investigation of the effect of governing chemical compounds in trees on bark beetle orientation. 2593

Insect olfaction: Deciphering system for chemical messages. 2650

The distance- and contact-orientation of mosquitoes (Aedes aegypti). (Host finding, biting and blood-sucking). 3255

Study on attractant of the rice stem borer, Chilo suppressalis Walker. 3835

OLFACTORY RESPONSE
The mechanisms by which Blastophagus piniperda L. (Col., Scolytidae) reacts to the odour of an attractant fraction isolated from pine phloem. 2634

OLFACTORY RESPONSES
Specificity of population-aggregating pheromones in Dendroctonus. 3863

Honey bee recruitment to food sources: Olfaction or language. 4619

OLIGIA
Oligia fasciuncula hispanica, subsp. nov. (Lep., Noctuidae). 1285

OLIGONYCHUS UNUNGUIS
Mites collected from Douglas-fir foliage in Montana. 5030

OLIGOSACCHARIDES
Studies on the antigenic activities of yeasts. II. Isolation and inhibition assay of oligosaccharides from acetolysate of mannan of Candida albicans. 1707

Utilization of oligosaccharides by two pathogenic isolates of Colletotrichum dematium. 7782

Studies on the antigenic activities of yeast. III. Isolation and inhibition assay of the oligosaccharides from acid-hydrolysate of mannan of Candida albicans. 7809

OLIVE OIL
Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts. 5250

OLIVES
The olive fly, Dacus oleae Gmel. and its parasites in Corsica, in 1959 and 1960. 84

The damage brought about by Phloeotribus. 1006

A new mite, Aculus benakii n. sp. from Olea europea L.. 1263

Inducing abscission of olive fruits by spraying with ascorbic acid and iodoacetic acid. 1816

Simplifications in the control of the phytophaga of olives. 2800

Discovery and distribution of Fusicoccum canker of Russian olive in Illinois. 3950

1967: The results of artificial biological control of the olive fly. 5480

Indications on plant care for olive crop cultivation. 6192

OMMOCHROMES
The ommochrome I as a probable precursor of ommin in ommochrome synthesis of Plodia interpunctella and Ephestia kuhniella. 741

White eye, a new sex-linked mutant of Aedes aegypti. 1499

ONCHOCERCA VOLVULUS
Research on a type of dam spillway unfavorable to the proliferation of Simulium damnosum (Diptera) Simuliidae). 2689

Selective control of Simulium damnosum and river management. 7760

ONCHOCERCIASIS
Research on a type of dam spillway unfavorable to the proliferation of Simulium damnosum (Diptera) Simuliidae). 2689

On the biology of Simulium damnosum Theobald, 1903, the main vector of onchocerciasis in the Mahenge Mountains, Ulanga, Tanzania. 5360

ONCOGENIC VIRUSES
Research on the oncogenic constituents of three zones of hemagglutinating activity, obtained by centrifugation of polyoma virus purified in density gradients with cesium chloride. 4806

ONCOPELTUS FASCIATUS
Detection of antibody and antigen in the milkweed bug, Oncopeltus fasciatus. 784

Cellular differentiation and pattern formation during metamorphosis of the milkweed bug Oncopeltus. 831

Juvenile hormone: Activity of aromatic terpenoid ethers. 3805

Temperature and circadian control of cuticle growth on the bug, Oncopeltus fasciatus. 3814

A yellow mutant strain of the large milkweed bug, Oncopeltus fasciatus, that lacks erythropterin. 4645

Studies on the mode of action of the chemosterilants 5-imidazolidinone and 4-imidazolin-2-one in the house fly and in the large milkweed bug. 5591

Lipids in the melanic mutant of the large milkweed bug, Oncopeltus fasciatus. 5689

Electrophoresis and immunodiffusion of proteins from the hemolymph of the large milkweed bug, Oncopeltus fasciatus (Dallas) (Hemiptera, Lygaeidae). 7710

Immunoelectrophoresis of proteins in the hemolymph of the large milkweed bug, Oncopeltus fasciatus (Dallas). 7711

ONIONS

The increased attack of Ditylenchus dipsaci on onion caused by some fungicides. 297

Resistance mechanisms against onion pink root (Pyrenochaeta terrestris), bioassay of inoculum potential in soil and chemical control. 2174

Weed control tests in onion fields. 2858

Tests of chemical weed control in onion fields. 2872

Host resistance reflected in differential nematode population structures. 4058

The effectiveness of the newer herbicides for the control of weeds in cultivated plants with special attention to weeds which are difficult to control. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4081

Field observations on effectiveness of maleic hydrazide applied to onions by helicopter. 4327

The germination of conidia and the appressoriun formation of Alternaria porri on the surface of onion leaves. 5860

Control of Armillaria mellea with systemic chemicals. 6018

ONOCLEA SENSIBILIS

New antheridiogen from the fern Onoclea sensibilis. 4325

ONOPORDUM ACANTHIUM

Control and ecological studies of Scotch thistle. 3489

Some factors affecting germination and seedling growth of scotch thistle (Onopordum acanthium L.). 7293

ONTOGENY

Ontogeny of vessels influence the development of Verticillium in young cotton plants. 2166

Esterases in the ontogenesis of the house fly Musca domestica. 2627

Synoptic tables of larvae and imagos of the species of the family Chrysotribax Reitter. (Col. Carabidae). 5548

ONYCHIURIDAE

A defense mechanism in Onychiurus (Collembola, Onychiuridae). 166

OODERA HOGGARENSIS

New genera and species of chalcid flies (Hym., Chalcidoidea) and a new species of Foenatopus Smith (Hym., Ichneumonidae, Stephanidae) from Hoggar. 4391

OOGENESIS

Pre-gravid phase of ovarian development in Aedes detritus Aedes detritus Haliday. 151

The effect of the amount of blood taken and additional carbohydrate nutrition on oogenesis in females of bloodsucking mosquitoes of the genus Aedes (Diptera, Culicidae) of various weights and ages. 903

Repair of dominant lethal damage induced by X-rays in immature oocytes of Drosophila melanogaster. 930

Oviposition in Ornithodorus moubata Murray (Ixodoidea, Argasidae). 1411

Cellular and extracellular activities implementing selective assimilation of yolk proteins by Cecropia oocytes. 1919

Studies on the physiology of the fat body of Pyrrhocoris apterus L. 2008

Comparative analysis of spontaneous aneuploidy in males and females of Drosophila. 2682

Oogenesis and reproduction of Heterodera oryzae and H. sacchari (Nematoda: Heteroderidae). 2842

The onogenic action of bovine papilloma virus in hampsters. 2960

Influence of mating, insemination, and other factors on oogenesis and oviposition in the moth Zeiraphera diniana. 3169

Research on oogenesis, fertilization, egg segmentation, and spermatogenesis in Caloglyphus berlesei Michael 1903 and C. michaeli Oudemans 1924 (Acari, Acaridae). 3263

The influence of the genotype on the frequency of radiation-induced aneuploidy in the oogenesis of Drosophila melanogaster. 3897

The mode of action of the corpora allata in the course of yolk formation in Tenebrio molitor (Coleoptera). 4542

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). Growth and yolk formation. 4546

Regulation of growth of nurse nuclei in the development of egg follicles in Cecidomyiidae (Diptera). 4564

The presence of positive paraldehyde fuchsin granules in the pedicle of the ovary of Pyrilla perpusilla Walker (Insecta Homoptera Fulgoroidea). 4588

The influence of the genotype on the frequency of radiationinduced aneuploidy in the oogenesis of Drosophila melanogaster. V. A tentative explanation of the differences in the dose-response curves. 4635

Tritium labelling and cytochemistry of extra DNA in Acheta. 4642

Utilization of larval cholestrol-4-C14 for reproduction in house flies fed unlabeled cholesterol in the adult diet. 5481

Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 5529

Accessory glands of female Culex pipiens quinquefasciatus Say and autogenous Culex pipiens pipiens L. (Diptera, Culicidae): Appearance and behavior in relation to oogenesis. 5567

OOSPORA PUSTULANS

Interactions of Oospora pustulans, Rhizoctonia solani and Heterodera rostochiensis on the potato. 5917

OOSPORES

Competition and synergism between cholesterol and cholestanol in oospore formation in Phytophthora cactorum. 970

Note: Oospores of Sclerospora philippinensis Weston from corn leaf tissue. 976

OOTHECAE

The evolutionary significance of rotation of the ootheca in the Blattaria. 1464

Recent data on the origin of larval polymorphism at hatching in the migratory grasshopper, Schistocerca gregaria Forskal. 4578

OPEROPHTERA BRUMATA

Insect parasites of the winter moth, Operophtera brumata (L.) (Lepidoptera: Geometridae) in western Europe. 3316

Effects of the winter moth on growth and mortality of red oak in Nova Scotia. 6173

OPHIOBOLUS GRAMINIS

Saprophytic survival of Ophiobolus graminis on various hosts. 5889

Notes on the appearance in France of Ophiobolus graminis, avenae variety. 5995

Control of survival of Ophiobolus graminis between consecutive crops of winter wheat. 6072

OPIINAE

Redescription of some Opiinae (Hymenoptera, Braconidae). 620

OPILIOACARIDAE

Notes on the morphology of Alycus roseus C. L. Koch. 7613

OPILIOACHARIDAE

Studies on Opilioacarida (Arachnida). II. Redescription of Paralarus hexophthalmus (Redikorzev). 5350

OPISTHOSCELIS

Studies on the morphology and relationships of male Apiomorpha and Opisthoscelis (Hemiptera: Coccoidea). 2061

OPIUS

A large-scale experiment in the artificial biological control of the olive fly, Dacus oleae, by means of Opius concolor siculus in Sicily, Palermo, July-October 1966. 3444

Contribution to the knowledge of the hosts of the genus Opius (Hymenoptera, Braconidae). 4385

1967: The results of artificial biological control of the olive fly. 5480

OPOSSUMS

Isolation of western equine encephalomyelitis virus from an opossum. 1662

OPPIIDAE

A new genus and two new species of arboreal Oppiidae (Acari: Cryptostigmata) from New Zealand. 2529

OPSIUS STACTOGALUS
Opsius stactogalus Fieb. (Hem., Cicadellidae) in S. E. London. 4354

OPSIUS STATOGALUS
Opsius statogalus Fieb. (Hem., Cicadellidae) in and near London: a second note. 589

OPSONINS
Opsonins examination in the mouse after endotoxin-induced resistance to infection. 4833
Immunity in the invertebrates. I. Studies on the naturally occurring haemagglutinins in the fluid from invertebrates. 5462

OPTICS
The sexual difference in the silk worm cocoons relative to the optical properties. 2. Fluorescent spectro-characteristics of cocoons. 4973
Pigment movement and the crystalline threads of the firefly eye. 5372

OPUNTIA
On the structure of the abnormal nopaline metabolite in certain Crown gall tumors. 1564
Plains pricklypear: relation to grazing intensity and blue grama yield on Central Great Plains. 3466

ORANGES
Infesting oranges with larvae of the false codling moth, Lepidoptera: Cryptophlebia leucotreta (Meyr.). 996
Biphenyl residues in oranges; effect of biphenyl dosage and pad placement. 1149
Iron in citrus production. 1593
Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Dimethoate. 1789
Trapping for control of the Mexican fruit fly in mango and citrus groves. 1924
Effect of 2,4-D and urea sprays on yield and fruit quality of Balady oranges. 2462
Effectiveness of standard and new compounds for the control of bud mite, Aceria sheldoni Ewing, on navel oranges. 2821
Seasonal changes in gibberellin-like compounds in ovaries and young fruits of navel orange. 3064
Reduction of preharvest drop and water spot of navel oranges in Southern California. 4331
Decline of citrus trees in the regions of Araraquara and Bebedouro. 6059
Burrowing nematodes may survive on variants of milam lemon. 6290
Control of Texas citrus mite with new acaricides. 7830

ORCHARDS
The longevity of conidia of Sclerotinia fructicola (Wint.) Rehm under field conditions. 2140
Progress report on Johnsongrass control in orchards. 2256
An accurate and safe hand-operated, vehicle-mounted applicator for granular insecticides in seed orchards. 2469
First applications of biological control of Aonidiella aurantii in Morocco. 2542
The possibilities of the application of pathogenic bacteria for the control of defoliating caterpillars (abstract). 2581
General considerations on the significance of predators and parasites in orchards. 2600
Methods for the determination of population dynamics in orchards. (Including sampling and collection). 2657
Integrated control of pests in orchards. 2693
Materials concerning the knowledge of Lepidoptera pests of orchards. 2818
Reduction of preharvest drop and water spot of navel oranges in Southern California. 4331
Disease control in nonbearing orchards. 4699
Blackberry control near orchards and vegetable gardens. 4770
Botran used as an orchard spray vs. Botran in the hydrocooler and control of post-harvest decay of peaches. 5904
Some observations on the effects of using organochlorine sprays in an orchard. 7098

ORCHIDACEAE
Experiments concerning the sensitivity of Trichogramma (Hymenoptera, Chalcidoidea) to fungicides. 1190
An unusual strain of tobacco mosaic virus from orchids. 2794
Mosquito pollination of Habenaria obtusata (Orchidaceae). 4675
Biologically active compounds in orchid fragrances. 5290
Botrytis flower spot control in orchids. 6037

ORCHOPEAS
Ectoparasites and helminth endoparasites of the tree squirrels of southwest Tennessee. 6982

OREOPSYCHE
Materials for a revision of the genus Oreopsyche (Psychidae). 14
Materials for a revision of the genus Oreopsyche (Psychidae). 15

ORGANIC COMPOUNDS
Determination of arsenic in organic arsonates. 474
Extraction and cleanup procedure for the determination of organo-thiophosphate pesticide residues in vegetables and fruits by thin layer chromatography and gas liquid chromatography. 491
2,4-hexadienyl butyrate and related compounds highly attractive to yellow jackets (Vespula spp.). 778
A refinement in aerial applications of paris green granules. 935
Laboratory examination of organic fungicides against zoopathogenic fungi in soil. 1170
Properties and uses of poisonous chemicals. (JPRS 41,364) transl. 16680. 1179
A contribution to the knowledge of hygienic working conditions in the treatment of seed grain. 1197
Aerobic and anaerobic metabolism of larval and adult Taenia taeniaeformis: V. Glycogen synthesis, metabolic endproducts, and carbon balances of glucose and glycerol utilization. 1732
Residues in food and feed. Pesticide residues in total diet samples (II). 1788
Evaluation of fungicides for use against Marasmius palmivorus on oil palms. 2191
A refinement in aerial applications of paris green granules. 2686
Gas chromatographic study on the environmental and foodstuff pollution through residues of synthetic organo-chlorinated insecticides. 3029
Effect of pH and ionic force on the reaction rate of organophosphorus compounds with serum-derived cholinesterase. 3033
Chemical control of an organophosphorus- and carbamateresistant strain of Boophilus microplus (Can.) from Queensland. 3271
Genetical investigations on a strain of house-flies resistant to organophosphorus and carbamates. 3325
Health hazards associated with production and preparation of foods. 3657
Collaborative study of the ethyl acetate extraction, sweep co-distillation cleanup, and GLC determination, using six parent organophosphate pesticides. 3667
Method of defoliating plants with organomercurials. Patent 3,433,620. 3700
Method of defoliating plants with organomercurials. Patent 3,433,622. 3701
Method of defoliating plants with organomercurials. Patent 3,433,618. 3713
Note on the versatility of OV-17 substrate for gas chromatography of pesticides. 3715
Controlling insects and other pests with phosphonothioates. Patent 3,428,655. 3850
Current status of methods for identifying pesticides, a survey. (JPRS 32,031) 4303
Comparative toxicology of organic and inorganic arsenicals in swine. 4306
Proceedings of the American College of Veterinary Toxicologists, 1967. 4309
Diazinon against plant pests. 4655
Black stem- the second stem disease of grains. 4734
Interaction of pesticides with natural organic material. 7081
Effects of organic arsenical herbicides on cotton response and chemical residues. 7222
Microbial degradation of aromatic compounds. 7346
Seed treatment. Simple and cheap method of controlling diseases. 7815
Some observations on tobacco yellow dwarf control. 6033

ORGANIZATIONS
Water pollution. 2nd edition. 1781

Organization and methods of censusing birds and harmful rodents. 3499

Practical organization of field mice control. 6403

The organization of the collective prophylaxis of infectious animal diseases in France. 6520

The organisation of the australian poultry industry and its influence on disease. 7405

ORGANOPHOSPHATE COMPOUNDS

Grasshopper control, 1969. 5411

ORGANOPHOSPHATES

Systemic pesticides for control of sting and stubby-root nematodes on vegetables. 2239

Studies on stephanofilariasis in Orissa. I. Incidence and seasonal variation of the disease. 3629

Specificity in insecticides. 4507

ORGANOPHOSPHORUS

Blood cholinesterase activity as an index of acute toxicity of organophosphorus pesticides in sheep and cattle. 7861

Advances in cattle ectoparasite control with a discussion of some problems related to treatment with systemic insecticides. 7906

ORGANOPHOSPHORUS COMPOUNDS

Automated analysis of organophosphorus insecticides by wet digestion-oxidation and colorimetric determination of the derived orthophosphate. 485

Pesticide residues in ointment bases of natural origin. 496

The alfalfa weevil likes our state . 1001

A preliminary account of pests of apple in Madras. 1597

Quantitative paper chromatographic analysis of the organophosphorus pesticide VUAGT-3 . 1830

Polyamide layer chromatography of organophosphorus pesticides. 1839

Studies on the effect of commercial formulations of some organophosphorous insecticides on the cotton leaf worm, Prodenia litura F. under field conditions. 2073

Inheritance and biochemistry of OP-RESISTANCE in a New York strain of the two-spotted spider mite. 2080

Inheritance of resistance to organophosphorus acaricides in the cattle tick, Boophilus microplus. 2092

A laboratory comparison of the effects of some insecticides on the Argentine stem weevil (Hyperodes bonariensis Kuschel) (Coleoptera: Curculionidae). 2207

The effect of some pesticides on the soil invertebrate fauna in the South Taiga Zone in the Perm Region (USSR). 2238

Procedure for semi-quantitative confirmation of some organophosphorus pesticide residues in plant extracts. 2426

Consistency of Rst values of six organophosphorus pesticides resolved by thin-layer chromatography in the presence of plant extracts without elaborate clean-up. 2453

Simplified method of preparing column materials for gasliquid chromatographic separation of some pesticides. 2465

The use of Drosophila melanogaster Meig., Calandra oryzae L. and Tribolium confusum Duv. for the detection of pesticides and for the evaluation of some extractive techniques. 2547

The effect of pesticide application at the end of winter, on the winter eggs of Panonychus ulmi Koch. 2562

Acetylcholinesterase insensitivity in the Biarra strain of the cattle tick Boophilus microplus, as a cause of resistance to organophosphorus and carbamate acaricides. 2647

Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692

Cauliflower mosaic. 2763

Note on the control of gall-fly (Asphondylia sesami Felt.) on sesame. 2814

Control of lice in sheep and cattle. 2990

Stomach worm disease in young cattle. 2999

On the distribution of pest control agents. 3009

Commercial aspects of pesticide residues in foodstuff. 3025

A check of the resistance to washing of various pesticides on apples and grapes. 3028

Metabolism of diazinon-C14 in western corn rootworm beetles. 3176

Susceptibility of larvae of Culex pipens fatigans to organophosphorous. 3319

Tomato yellow top. 3395

Insect pests in food stores. 3642

Oscillopolarographic determination of parathion, paraoxon, and p-nitrophenol in fortified canned peaches following thin layer chromatography. 3659

Collaborative study of three gas chromatographic dual detection systems for analysis of multiple chlorinated and organophosphorus pesticides. 3668

Process for upgrading malathion. Patent 3,440,305. 3719

Two types of carboxyesterase degrading malathion in resistant houseflies and their inhibition by synergists. 3859

Genetics of organophosphate resistance in the two-spotted spider mite (Tetranychus urticae Koch). 3905

Current status of methods for identifying pesticides, a survey. (JPRS 32,031) 4303

Organic phosphate poisoning of sheep in Skull Valley, Utah. 4304

Specificity in insecticides. 4507

Watch for the cereal leaf beetle. 4557

Results of a study on controlling Tipula olercea L. showing a marked resistance to some chlororganic insecticides. 4750

Persistence and movement of parathion in irrigation waters. 4871

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas. 4876

The determination of the amount of diazinon residues in foodstuff by means of labeled diazinon. (Summary). 4877

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Parathion or its methyl homolog. 4881

Pesticide residues in cultivated mushrooms. 4891

Some observations concerning the maximum dosage ordinance. 4897

Proton magnetic resonance spectra of some phenyl-phosphorus compounds. 4931

Ants in the home and garden; how to control them. 5184

How to control bed bugs. 5185

The question of resistance to pesticides. 5207

Cotton pests control by ultra low volume spraying from the air. 5228

Effects on aquatic insects of forest spraying with phosphamidon in New Brunswick. 5336

Gesapon for insect pests. 5387

Insects and related pests of house plants; how to control them. 5395

The biology and control of the Ceanothus stem-gall moth, Periploca ceanothiella (Cosens). 5446

Trial of carbophos on larvae of Aedes and Culex mosquitoes. 5504

New strategy against the codling moth. 5520

Pasture mosquito resistance in California. 5590

Insecticidal and acaricidal effect of some binary mixtures. 5627

Relative susceptibility of stored-product insects to insecticides. 5631

Lace bugs. 5661

Bagworm. 5662

Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract). 5690

Unique problems in insect and pest control of NASA's Mississippi Test Facility. 5755

Crop protection; computers, simazine, corn seed beetle. 5780

Control of the castor shoot and capsule borer, Dichocrocis punctiferalis Guen. 6150

Studies on the strawberry mite (Tetranychus telarius (L). 6161

Control of some pests of evergreens. 6162

Study of the control of Antonina graminis (Maskell)--curse of hay (Digitaria pentzii) with granular systemic insecticides. 6175

Description, damage and control of the southwestern corn borer. 6188

Alfalfa weevil control, 1969. 6206

Grasshopper control 1969. 6207

The oriental fruit moth and its control. 6223

Insect pests of barley and their control. 6231

The principle insect pests of beets and the means of their control in turkey. 6234

Essay on insecticidal treatments on the apple fruit fly, Rhagoletis pomonella (Walsh) in southwest Quebec. 6237

Diapause gets 95 per cent kill. 6243

The problem of leaf hoppers on paddy. 6252

Fruit spray program for the home orchardist. 6257

Orangeworms in interior districts of Southern California. 6306

Method for destroying undesirable plant life. Patent 3,450,520. 6375

Advances in cattle ectoparasite control with a discussion of some problems related to treatment with systemic insecticides. 6902

1969, controlling insects on sheep and goats. 6905

Coumaphos, a new anthelmintic for control of Capillaria obsignata, Heterakis gallinarum, and Ascaridia galli in chickens. 6940

Fumigate stored rice to reduce loss to insects. 7030

Investigation of sheep dips. 3. The influence of breed on stripping and deposition in the fleece of diazinon. 7124

Some effects of diazinon on the microflora of submerged soils. 7133

High praise for low volume insecticide spraying. 7136

Effects in warmblooded animals of thiometon (2-ethylthioethyl o,o-dimethylthiophosphate) ingested in drinking water. 7149

Economic poisons containing certain pesticide chemicals for certain uses. Cancellation of registration. 7170

Degradation and activation of parathion analogs by microsomal enzymes. 7189

Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

Poisoning on the farm. A report of a case of organophosphorus poisoning. (abstract). 7197

Combined action of DDT with chlorophos and of thiophos with chlorophos. 7206

Biochemical studies on the teratogenic action of Bidrin and other neuroactive agents in developing hen eggs. 7207

Juice quality of grapefruit following June versus September applications of a 412 paraffinic petroleum oil with data on control of certain pests. 7238

Thin-layer chromatographic-enzymatic identification of organophosphorus insecticides. Actiuation of weak esterase inhibitors. 7324

Organophosphorus pesticides. A gas chromatographic screening technique based on the detection of methylated hydrolysis products. 7326

Fungicidal compositions and methods using mesomeric phosphonium compounds. Patent 3,445,570. 7329

Use of an electron capture detector in gas chromatography. III. An example of its application. A study of the response of some chlorinated and phosphorated pesticides. 7340

Nuclear magnetic resonance studies of phosphorus(V) pesticides- III, the hydrolysis of aliphatic pesticides by aqueous solutions. 7347

Method for deodorizing O,O-dialkyl S-(alkylthio)alkyl phosphorodithioates. Patent 3,439,071. 7357

Spiro thiophosphates. Patent 3,445,468. 7367

Resistance to organophosphates in New Zealand strains of the two-spotted spider mite, Tetranychus telarius (L.). 7571

The cereal leaf beetle in Ohio. 7647

The toxic effect of three organophosphate insecticides on female Lebistes reticulatus Peters. 7715

The broad mite: Hemitarsonemus latus (Banks) (Acarina: Tarsonemidae). 7825

Pear Psylla control studies. 7826

The gas-chromatographic determination of organophosphorus pesticides. Part V. Studies under field conditions. 7970

Responses of cell cultures to insecticides. IV. Relative toxicity of several organophosphates in mouse cell cultures. 7977

The chromatographic determination of organophosphorus pesticides. Part III. The effect of irradiation on the parent compounds. 8008

The gas-chromatographic examination of organophosphorus pesticides and their oxidation products. 8010

The application of gel chromatography to the separation of pesticides. Part I. Organophosphorus pesticides. 8011

Studies on a series of branched-chain analogs of diethyl malathion and malaoxon with regard to toxicity and in vitro enzymatic reactions. (abstract). 7151

Control of pasture Aedes mosquitoes by dripping larvicides into flowing water, with notes on residues in a pasture habitat. 5486

Degradation of the insecticide GS 13005 in the rat. Elucidation of the structure of the most important metabolites. 7341

The chemistry of GS 13005, a new insecticidal phosphoric acid ester. 7368

ORGANOPHOSPHORUS INSECTICIDES

The residual contact toxicity to honey bees of insecticides sprayed on to white clover (Trifolium repens L.) in the laboratory. 1942

Toxicity of organophosphorous insecticides applied as foliar spray, soil drench and seed treatment to Aphis gossypii Glover (Aphididae: Homoptera). 4757

ORGANOTIN COMPOUNDS

The use of organic tin compounds fungicides in agriculture, looked at from the toxicological point of view. 509

Organotin or mercury (carboxy hydrocarbylene amides). Patent 3,446,827. 7371

ORGYIA ANTIQUA

The biology of Orgyia antiqua (Linnaeus). (Lepidoptera). 82

ORIBATEI

Observations on the genus Pheroliodes. I.-- Pheroliodes roblensis n. sp. (Acarina, Oribatei). 1233

Two Euphthiracarid species from the Tien Shan and Altai mountains (Acari, Oribatei). 1292

Megeremaeidae, a new family of oribatid mites (Acari: Cryptostigmata). 1345

New species of horn mites (Acariformes, Aribatei) from the Caucasus and Transcaucasia. 1889

Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina). 2508

What the practitioner should know about arthropods. 3740

Some regularities in the zonal distribution of oribatoid mites. 5421

ORIBATELLIDAE

A new genus and species of Oribatellid mite from Colorado (Acarina: Oribatei). 725

ORIBATIDAE

Considerations on the classifications of the Oribatidae. Their division into six major groups. 5048

ORIENTAL REGION

A contribution to the systematics of Oriental and Australian Blissinae (Hemiptera: Lygaeidae). 5144

The distribution and host-range of the Shot-hole Borer (Xyleborus fornicatus Eichh.) of tea. 5278

ORNAMENTAL PLANTS

Weed control for the home garden. 306

Larva, pupa and life history of three species of Ibidionini (Coleoptera, Cerambycinae). 2611

Insects of the season 1967 related to fruit, vegetables and ornamentals. 2807

New contributions to the study of the gallicolous Itonididae (Cecidomydae) from the Botanical Garden of the University of Bucharest. 3122

Plant protection. Bulletin of the plant disease control station of Geneva. February. 3930

Plant protection. Bulletin of the plant disease control station of Geneva. August. 3931

Plant protection. Bulletin of the plant disease control station of Geneva. September. 3932

Plant protection. Bulletin of the Plant Disease Station of Geneva. March. 4010

Plant protection. Bulletin of the Plant Disease Station of Geneva. June. 4011

Plant protection. Bulletin of the Plant Disease Station of Geneva. October. 4012

Plant protection. Bulletin of the Plant Disease Station of Geneva. April. 4013

The development of chemical weed control in ornamental plants in fields. 4063

Some pests of ornamental plants in Madras. 4735

Inflated plastic bags as cages for insects on potted plants. 5212

Insect and mite control on ornamentals. 5471

Plant protection. Bulletin of the plant protection station of Geneva. January. 5844

The powdery mildews on the ornamental plants. 5982

Plant protection. Bulletin of the plant protection station of Geneva. 6094

Insects on trial in fight against lantana. 6276

Results of herbicide tests carried out in 1966 by the Vegetable Protection Service. 6326

ORNAMENTAL TREES

Pests of flowering trees. 1609

The influence of latent apple viruses on the growth of various ornamental apples. 2703

A survey of leaf-miners and their parasites on Laburnum. 3797

ORNITHINE

Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177

Arginine metabolism in germinating seeds of some members of the leguminosae. 7255

ORNITHODOROS

Oviposition in Ornithodorus moubata Murray (Ixodoidea, Argasidae). 1411

Some remarks on the tampans of the Ornithodoros moubata complex in southern Africa. 5102

Ultrastructure of the coxal glands of the genus Ornithodoros (Acari: Argasidae). 7612

ORNITHONYSSUS BURSA

Lice and mites in poultry. 6890

ORNITHONYSSUS SYLVIARUM

Control of the northern fowl mite on laying hens with Shell SD-8447. 2358

ORNITHOSIS

Medical observations concerning ornithosis control in the poultry industry. 365

Outbreak of ornithosis in a flock of carrier pigeons in Copenhagen. 6584

A study of experimental ornithosis in the white mouse infected through the peritoneal cavity. 6751

OROBANCHE

Control of Orobanche under natural and artifically infested conditions. 4068

OROSIUS ARGENTATUS

Some observations on tobacco yellow dwarf control. 6033

OROTIC ACID

Contribution to the study of arthritis of the dog. Attempts of treatment with orotic acid. 7900

ORTHOPODOMYIA

Overwintering habits of Orthopodomyia californica Bohart (Diptera: Culicidae). 2540

Distributional and biological notes on the tree hole mosquitoes of the western United States. 5112

ORTHOPTERA

On the orthopterous fauna in the south of the Krasnoyarsk Territory. 632

Gampsocleis glabra (Herbst) and Homorocoryphus nitidulus (Scopoli), two faunistically noteworthy grasshoppers in the Fischa-Wiese Nature Preserve near Gramatneusiedel, Lower Austria. (Orthopteroidea, Saltatoria). 639

The Orthoptera of Alaska, Yukon and the MacKenzie district of the Northwest territories. 715

Soil surface zoo-microbial complex of Orthoptera and Tenebrionids in the southeast Altai-mountains and their relationship to soil formation processes. 888

Ultrastructure of the sensory hairs of the antennae in the larvae of Speophyes lucidulus (Delar.) (Col. Bathysc.). 1375

Morphology, endoskeleton and muscles of an apterous acridid (Orthoptera: Proscopiidae). 1377

Orthopterological notes. XXII. The genus Myrmecophilus Berth. in Italy. 1866

A numerical taxonomy of orthopteroid insects. 1871

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. L. Orthoptera Gryllodea. 1874

The distribution of radioactive strontium, cesium and iodine in the bodies of some insects. 1937

The acclimatization of Zonabris variabilis Pall. (Coleoptera, Meloidae) in Sardinia, 20 years after its introduction. 1946

Histochemistry and ultrastructure of the feminine genital ducts of Gryllotalpa gryllotalpa L. 2016

The color change of Poecilimon ornatus Schmidt in the post-embryonic development. (Orthoptera-Tettigoniidae). 2017

Karyotypes and nuclear size in the spermatogenesis of grasshoppers belonging to the subfamilies Gomphomastacinae, Chininae and Biroellinae (Orthoptera, Eumastacidae). 2096

New Orthoptera from Afghanistan. 2531

On the Orthopterous fauna in the south of the Krasnoyarsk Territory. 3754

New European Orthoptera. 4390

Concerning the extraocular light sensitivity of the Dictyoptera: Evidence of photoreceptors associated with the tegumentary nerves. 4464

Patterns and pathways of chromosome evolution within the Orthoptera. 4640

A sound-activated method for recording insect activity. 4970

Wingless Camel Crickets in Lancashire. 4993

The modification of embryologic differentiation processes through total radiotherapy in eggs of Gryllus domesticus. 5362

The primary types of the Australian Pyrgomorphidae (Orthoptera: Acridoiea). 7487

A key to the orthopteran larvae of central Germany. 7518

Modes of establishing the flicker response in the insect eye in modulated illumination. 7589

ORTHOTYLUS ERICETORUM

Investigation into the variability of European populations of Orthotylus ericetorum Fall. (Heteroptera: Miridae). 7631

ORTHOTYLUS TENELLUS

Orthotylus tenellus (Fall.) (Hem., Miridae) in East Kent. 619

ORYCTES RHINOCEROS

The sensory physiology of the larva of the rhinoceros beetle Oryctes rhinoceros L. 2558

ORYCTOLAGUS CUNICULUS

Further records of fleas occurring as stragglers on rabbits collected in Kent. 845

ORYZAEPHILUS

Laboratory evaluation of malathion as a protectant for stored walnuts. 3666

ORYZAEPHILUS SURINAMENSIS

Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230

Effect of dietary serine on survival and rate of development of Oryzaephilus surinamensis (Coleoptera: Silvanidae). 2565

Quantitative dietary requirements for histidine in the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera, Silvanidae). 3183

Saw-toothed grain beetle. 3641

Response of some stored-product insects to Trogoderma granarium pheromones. 4625

Temperature effects on the toxicity of five insecticides against five species of stored-product insects. 5384

Effects of dietary lipids on survival and development of the saw-toothed grain beetle, Oryzaephilus surinamensis (L.) (Coleoptera: Silvanidae). 7600

ORYZOXYMYCIN

Oryzoxymycin, a new antibiotic. 371

OSCINELLA FRIT

The influence of the sowing time on the intesity of attack by the panicle generation of frit fly (Oscinella frit L.). 288

Investigations of the population fluctuations of Oscinella frit. (abstract). 1004

Investigation into the population fluctuations of Oscinella frit L.. 7651

OSMIA CORNUTA

Study of Osmia cornuta's construction after injections of labelled substances. 7616

OSMIA NIGROBARBATA

Biological notes on Dioxys pomonae pomonae and on its host, Osmia nigrobarbata (Hyemnoptera: Megachilidae). 872

OSMOSIS

Osmotic and ionic regulation in insects. 152

Effect of the venom of the bee Apis mellifera on osmotic fragility of cattle RBC. 2434

OSMOTIC PRESSURE

A fissure of physiological origin in carnation plants. 2742

Osmotic pressure of hemolymph of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae). 3293

Measurements of the osmotic pressure in the habitat of Polymorphus minutus (Acanthocephala) in the intestine of domestic ducks. 6930

The protonephridial system in the miracidium of the liver fluke, Fasciola hepatica L.. 7951

OSTEODYSTROPHY

The pathology of avian osteodystrophy. (Abstract). 4136

Feline osteodystrophy, its treatment and prevention. 6639

OSTERTAGIA

Treatment of gastrointestinal parasitism of cattle with Parbendazole. 7004

OSTERTAGIA OSTERTAGI

Bovine ostertagiosis. Analytical bibliographic review of the disease, its treatment and its prophylaxis. 406

Stomach worm disease in young cattle. 2999

Effects of gastrointestinal nematode parasites on performance in feedlot cattle. 6912

Amino acid composition of some strongyle parasites of cattle. 6952

OSTERTAGIASIS

Bovine ostertagiosis. Analytical bibliographic review of the disease, its treatment and its prophylaxis. 406

Bovine Ostertagia infection. Bibliography organized around the disease, its treatment, and its prevention. 6997

The sequential development of naturally occurring ostertagiasis in calves. 7930

OSTRINIA NUBILALIS

Methods concerning the determination of the effectiveness of insecticides against the European corn borer (Ostrinia (Pyrausta) nubilalis Hbn.) with small control tests and aerial chemical applications. 227

The biological control of the European corn borer through the use of bacteria. 1009

The effects of treatments against Ostrinia (Pyrausta) nubilalis Hb. on the production of hybrid corn. 3065

Insecticidal field treatments for the control of the European corn borer. Ostrinia nubilalis (Hubner) in Southwestern Quebec, 1967. 6193

Timing insecticide applications for European corn borer control in Southwestern Quebec, 1967. 6194

Influence of certain insecticides applied for the control of Ostrinia nubilalis Hbn. on the weeds of treated surfaces. 6372

OTIORHYNCHUS

The identification of Otiorrhynchus larvae from blackcurrant roots with description of the larvae of O. clavipes (Bonsd.) and O. singularis (L.) (Col., Curculionidae). 787

OTIORHYNCHUS CLAVIPES

The identification of Otiorrhynchus larvae from blackcurrant roots with description of the larvae of O. clavipes (Bonsd.) and O. singularis (L.) (Col., Curculionidae). 787

OTIORHYNCHUS SINGULARIS

The identification of Otiorrhynchus larvae from blackcurrant roots with description of the larvae of O. clavipes (Bonsd.) and O. singularis (L.) (Col., Curculionidae). 787

OTOBIUS MEGNINI

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia. 4424

OULEMA MELANOPA

Meigenia mutabilis Fall. (Dipt. Tachinidae) as a parasite of Oulema melanopa L. and its relation to Leptinotarsa decemlineata Say. 2544

The cereal leaf beetle in Ohio. 7647

OULEMA MELANOPUS

Current status of cereal leaf beetle control efforts. 287

Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 2111

The cereal leaf beetle-a new insect in Ontario. 2510

Three laboratory techniques for screening small grains for resistance to the cereal leaf beetle. 3448

Chromosomes of the cereal leaf beetle. 3900

Watch for the cereal leaf beetle. 4557

Watch for the cereal leaf beetle. 5186

Chromosomes of the cereal leaf beetle. 5729

Yield reduction of oats caused by the cereal leaf beetle. 6222

OVA

On the transport of microorganisms (Phi particles) by the female germinal cells in the homopteran Typhlocyba douglasi Edw.. 5454

OVARIAN CYSTS

Investigation of the general occurrence of pathologic-anatomic changes in the ovaries of cattle- a new way in the fight against sterility. 1065

Ovarian cysts in cattle and its therapy with Gestafortin and prolan preparations. 4186

Use of potassium iodide in the treatment of ovarian cysts in cows. 6552

OVARIES

Pre-gravid phase of ovarian development in Aedes detritus Aedes detritus Haliday. 151

Control by ovarian status of induced leukocytic responses in the sheep uterus. 346

Equine ovarian granulosa tumours. 372

Nests and social behavior of three species of Pseudaugochloropsis (Hymenoptera: Halictidae). 846

Study of the corpus luteum in insect ovaries by fluorescence microscopy. 917

Investigation of the general occurrence of pathologic-anatomic changes in the ovaries of cattle- a new way in the fight against sterility. 1065

Insulin and thyroid hormones in relation to mammary development in hypophysectomized rabbits. 1088

A quantitative study on the ovarian function of the lepidopterous pyralid Galleria mellonella L. by means of the graft technique. 1353

Study of the corpus luteum in insect ovaries by fluorescence microscopy. 1494

On the hormonal control of ovarian development in the female larva of the heterogonid gall gnat Heteropeza pygmaea Winnertz 1846 (Diptera, Cecidomyiidae). 2030

Hormonal control of ovarian development in a heterogonal gall mite. 2638

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants. 2645

Morphology and biology of Culex pipiens L. (Diptera, Culicidae) in Uzbekistan. 2662

Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones. 2880

Seasonal changes in gibberellin-like compounds in ovaries and young fruits of navel orange. 3064

Control of metabolism in the silkworm pupal ovary by the diapause hormone. 4508

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). The importance of the composition of the medium for survival, growth, and yolk formation. 4541

In vitro culture of the ovaries of Tenebrio molitor (Coleoptera). Growth and yolk formation. 4546

The importance of heterogeneity in the sexual attraction exercised by female Acrolepia assectella Zeller. 4587

The presence of positive paraldehyde fuchsin granules in the pedicle of the ovary of Pyrilla perpusilla Walker (Insecta Homoptera Fulgoroidea). 4588

Some effects of castration on the protocerebral neurosecretion of the females of Polistes (Hymenoptera, Vespidae). 4601

Ovarian response to corpus allatum in Iphita limbata Stal.. 5386

Attempts to induce crossing-over in Drosophila melanogaster males with ovarian extracts. 5739

Ovarian cycle in cows with irregular estrus cycles. 6644

Observations and experimental data on ovary activity in adult Galleria mellonella (Lepidoptera Pyralidae). 7568

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera). 7687

Polytene chromosomes of ovarian nurse cells of the gambiae complex of the genus Anopheles. 7728

Metabolism of ascarosides in the ovaries of Ascaris lumbricoides (Nematoda). 7943

OVICIDES

Lethal effects of synthetic juvenile hormone on the human body louse. 1726

OVIDUCTS

The morphologic response of the turkey oviduct to certain pathogenic agents. 6483

OVIPOSITION

The value of ovipositional ability in tick taxonomy. 1301

Oviposition in Ornithodorus moubata Murray (Ixodoidea, Argasidae). 1411

On the significance of the duration of preoviposition and oviposition periods in ixodid ticks. 1440

The evolutionary significance of rotation of the ootheca in the Blattaria. 1464

Study of the corpus luteum in insect ovaries by fluorescence microscopy. 1494

Selection for and against gregariousness in the choice of oviposition sites of the Drosophila pseudoobscura. 1501

The effectiveness of repellents on cloth as determined by oviposition of Aedes aegypti L.. 1527

A study of oviposition site, mortality and migration in the first (Overwintering) generation of Lygocoris pabulinus (Fallen) (Heteroptera: Miridae) on blackcurrant shoots (1966-7). 1620

Influence of changes in the cotton plant during the season on the feeding, oviposition, and development of the boll weevil. 1923

Influence of moisture content of bovine feces on oviposition and development of the face fly. 1927

Oviposition preference by Costelytra zealandica (White). II. 1997

The role of moisture in the winter survival of the boll weevil complex in Arizona. 2001

Developing alfalfa resistant to alfalfa weevil oviposition. 2101

A boll weevil oviposition suppression factor in cotton. 2208

Role of salts in oviposition site selection by the black salt-marsh mosquito, Aedes taeniorhynchus (Wiedemann). 2608

Oviposition, development of eggs, and chromosome complement of eggs of virgin females of the grasshopper Melanoplus sanguinipes. 2656

Morphology and biology of Culex pipiens L. (Diptera, Culicidae) in Uzbekistan. 2662

Influence of feeding, oviposition, and egg and larval development of the boll weevil on abscission of cotton squares. 2803

Results of investigations on the susceptibility of different varieties of Pisum sativum L. to attacks of Laspeyresis nigricana Steph. (Lep., Tortricidae). 2825

Influence of mating, insemination, and other factors on oogenesis and oviposition in the moth Zeiraphera diniana. 3169

Boron chemosterilants against screw-worm flies: Structure-activity relationship. 3279

Mating and oviposition behavior of the coffee leaf miner, Leucoptera coffeella (Lepidoptera: Lyonetiidae). 3888

The egg-laying cycle in the Machiloidea (Insecta Thysanura). 4459

Inhibition of the oviposition behavior of the migrator locust (Locusta migratoria L.) caused by the salinity of the soil. 4543

The validity of the separation of Thrips physapus L. and T. hukkineni Priesner (Thysanoptera: Thripidae). 5166

On the biology and ecology of the opilionid Mitopus morio F.. 5644

Resistance to boll weevil (Anthonomus grandis Boh.) oviposition in cotton. 6197

Oviposition in DDT resistant and susceptible strains of Aedes aegypti (L.) in relation to light preference. 7719

The control of Ernobius mollis Linnaeus (Coleoptera: Anobiidae) with dieldrin dips. 7834

OVIPOSITORS

Survival of eggs of Eretmapodites chrysogaster Graham (Diptera: Culicidae). 813

Laboratory rearing of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae). 2573

Contributions to the study of the ovipositor in Bombilidae. 3191

Temperature and humidity effects on the oviposition of Hyalomma aegyptium ticks of different engorgement weights. 5637

OVULATION

Contribution to the study of the population dynamic of insects: 1. Stimulating action of the host, Acrolepia assectella Z., on the multiplication of an hymenoptera Ichneumonidae (Diadromus sp.). 828

Uptake of water by eggs of Cardiaspina densitexta (Homoptera: Psyllidae) from leaf of host plant. 907

Auto-ecology of some Simuliidae species. 1123

Studies on the mechanism of gibberellin-induced seedlessness of Delaware grapes. II. Development of ovules and pollen as affected by prebloom gibberellin treatment. 1174

Behavioral and physiological aspects of mating and oviposition by the adult western corn rootworm, Diabrotica virgifera LeConte. 1936

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037

Oviposition cycles and the stimulus for oviposition in Dermestes maculatus DeGeer (Coleoptera: Dermestidae). 2601

Insect secretions in plants. 2811

Some relationships between plant lice (Aphididae) and their parasites. 3314

Observations on two species of Culex of the subgenus Melanoconion. 5349

The significance of oviposition rates in the egg parasite, Trichogramma embryophagum Htg.. 5410

Biology of Dufourea and of its cleptoparasite, Neopasites (Hymenoptera: Apoidea). 5646

Influences of an anti-ovulatory compound on the expression of vitamin D deficiency signs in laying hens. 6518

Method of controlling reproductive cycle with 6alpha - methyl - 17alpha hydroxyprogesterone 17-acetate. Patent 3,444,296. 7374

Investigations into the relation of egg length and egg quantity per batch to the size of the female Anopheles claviger typicus Meigen with references to the development in size of the larvae. (Investigation into the insect fauna from Area Nr. 15) (Diptera: Culicidae). 7633

The ecology of a natural population of Queensland fruit fly, Dacus tryoni. II. The distribution of eggs and its relation to behaviour. 7681

OXALIC ACID

Vetistat. Drugs for veterinary use - drug efficacy study implementation. 2272

Koagamin veterinary parenteral hemostat. Drugs for veterinary use - drug efficacy study implementation. 2879

Origin of oxalic acid in Ca oxalate crystals in the malpighian tubes of the tent caterpillar, Malacosoma neustria testacea. 3881

OXALIS VIOLACEA

The weed vegetation of flower beds and irrigated cultivations in Cairo and some adjacent provinces. 5837

OXATHIIN, 1,4-

Experiments on the control of cereal smuts with a derivative of 1,4-oxathiin. 5987

OXATHIINS, 1,4-

Field evaluation of a derivative of 1,4-oxathiin for control of cereal smuts. 5986

OXIDASES

Phenolic substances and oxidases in connection with the resistance of barley to the powdery mildew (Erysiphe graminis f. sp. hordei Marchal). 2736

The effect of carbamide and thiocarbamide on the resistance of apple to apple scab. 3375

OXIDATION

The in vitro and in vivo oxidation and hydrolysis of malathion by wheat grain esterases. (abstract). 566

Oxidative metabolism of phosphamidon in rats and a goat. 2388

Epoxidation of aldrin by plant materials. 2457

Some biochemical characteristics of the microsomal cyclodiene epoxidase system and its inheritance in the house fly. 3331

Factors affecting the oxidation of glycerol-1-phosphate by insect flight-muscle mitochondria. 3815

Effect of ultraviolet radiation on the oxidation of certain Krebs cycle substrates in Vibrio cholerae. 4930

Oxidative metabolism of C14-labeled Baygon by living house flies and by house fly enzyme preparations. 5604

OXIDATION-REDUCTION POTENTIAL

Vertical distribution of biological activity in peat of some virgin and drained swamp types. 950

The decarboxylation of luciferin in firefly bioluminescence. 5531

Electro-reduction of dieldrin and aldrin. 7378

OXIDES
Mineral deficit in cattle of the Szczecin Voyevodship. 1074
Crop response to applied zinc in ammoniated phosphate fertilizers. 2455
Possible toxic effects of accessory substances of pesticide products. 3043
Proton magnetic resonance spectra of some phenyl-phosphorus compounds. 4931
Controlling stem-end rot of ripe mango. 6035

OXYDEMETONMETHYL
Response of cotton plant to certain combinations of fertilizers and Metaisosystox. 2447
The biology and control of the Ceanothus stem-gall moth, Periploca ceanothiella (Cosens). 5446
Systemics, a new tool for the home gardener. 5688
Factors affecting the appearance of holly oaks in Southern California. 6160

OXYGEN
Inhibition of photosynthetic electron transport by ioxynil. 521
Growth of Sclerotium rolfsii at different concentrations of oxygen and carbon dioxide. 523
Effects of oxygen deprivation on aquatic midge larvae under natural and laboratory conditions. 745
Oxygen uptake of single insects determined with a polarographic oxygen electrode. 804
Fimbriation, pellicle formation and the amount of growth of Salmonellas in broth. 1089
Serum-mediated immune cellular responses to Brucella melitensis. V. Infection of macrophages under anaerobic conditions. 1095
The oxygen consumption of different color stages in the bug Nezara viridula (L.). 1436
On the problem of the importance of the larval haemoglobin for the respiration of the tropical chironomid Chironomus strenzkei Fittkau (Diptera). 1451
Aerobic and anaerobic metabolism of larval and adult Taenia taeniaeformis: V. Glycogen synthesis, metabolic endproducts, and carbon balances of glucose and glycerol utilization. 1732
On the physiology of invasive larvae of Trichostongylidae. 1739
Signs of water pollution in the Riviere des Prairies. 2385
Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination. 2421
On the application of herbicides on bodies of water. 3473
Breakdown and weight loss in Red Jonathan apples in controlled atmosphere storage. 3639
The effect of pre-planting seed treatment by gamma rays on the oxidative phosphorylation in cotton leaves. 3676
Molecular order of participation of inhibitors (or activators) in biological systems. 4339
The distribution of nymphs of Brachyptera risi Mort. and Nemoura flexuosa Aub. (Plecoptera) in relation to oxygen. 5453
Observations on the oxygen consumption of tsetse larvae (Glossina morsitans). 5542
The oxygen binding properties of some larval hemoglobins of Chironomus th. thummi. 5606
The behaviour of Chaoborus Licht. larvae under unfavourable oxygen conditions. 5608
2,4-D metabolism; enzymatic degradation of chlorocatechols. 5785
Comparative studies on blood-stream and culture forms of Trypanosoma lewisi--I. Oxygen utilization, carbon dioxide production and glucose uptake. 6625
Oxygen and carbon dioxide affect the growth of wood-decaying fungi. 7027
Conversion of DDT to DDD by pathogenic and saprophytic bacteria associated with plants. 7254
Effect of the triazine herbicides simazine and atrazine upon young plum trees. 7260

OXYGEN ELECTRODES
Oxygen uptake of single insects determined with a polarographic oxygen electrode. 804

OXYLOBIUM
Poison plants of Western Australia; the toxic species of the genera Gastrolobium and Oxylobium. 1025

OXYOPES SALTICUS
Response of the striped lynx spider, Oxyopes salticus, to two commonly used pesticides. 5550

OXYTETRACYCLINE
Collaborative study of microbiological assay of oxytetracycline in feeds. 545
Process for producing oxytetracycline antibiotic. Patent 3,408,258. 555
Contributions concerning the defense against Agrobacterium tumefaciens. 2720
Some preliminary observations on crown gall therapy with chemicals. 2747
Embryostat (oxytetracycline powder). Drugs for veterinary use, drug efficacy study implementation. 4173

OXYTROPIS
Locoweed toxicity in horses. 4312

OXYURIDAE
A comparative analysis of the localization of cholinesterase activity in some parasitic nematodes. II. Ascaris suum, Parascaris equorum, Neoascaris vitulorum and Oxyuris equi. 7021

OYSTERS
Galveston Bay pesticide study- water and oyster samples analyzed for pesticide residues following mosquito control program. 1786
The behavior of some human-pathogenic germs and bacterial toxins in food and their destruction through heat treatments of the food products. I. Salmonella. 3008
Residues in fish, wildlife, and estuaries. Chlorinated pesticide levels in the Eastern oyster (Crassostrea virginica) from selected areas of the South Atlantic and Gulf of Mexico. 4875

OZONE
The effect of bioclimate on the communication system of night-flying moths. 170
Plant injury by air pollutants: Influence of humidity on stomatal apertures and plant response to ozone. 4326

PACHYDIPLOSIS ORYZAE
Mass rearing technique of rice gall midge (Pachydiplosis oryzae Wood-Mason) and notes on its biology. 2002
Effect of natural parasitization on the population of paddy gallfly, Pachydiplosis oryzae Mani. 5546

PACKING
Biphenyl residues in oranges; effect of biphenyl dosage and pad placement. 1149
Modern R17,000 plant for packing insecticides. 1845
New developments in pesticide packaging. 1846
What pesticide formulators say about packaging. 1848
Insect pests in food stores. 3642

PACKING MATERIALS
Controlling stem-end rot of ripe mango. 6035
The permeability of protective clothing and packing materials in regard to insecticidal phosphoric acid derivatives. 7339

PAECILOMYCES
The reciprocal relationships in mixed cultures of entomophagous fungi and the effect of some Hyphomycetes on their growth. 4690

PAEDERUS FUSCIPES
Summary of chemical, physical, biological and medical research on pederin, extracted from the Coleoptera Paederus fuscipes Curt. 3260

PAINTS
Infestation of emulsion paint by the fly Megaselia scalaris (Loew) (Dipt., Phoridae). 126

PALEACRITA VERNATA
Gynandromorphic Paleacrita vernata (Lepidoptera: Geometridae). 854

PALEARCTIC REGION
New species of palearctic Torymidae (Hym. Torymidae). 49
Palearctic species of the genus Sphenometopa (Diptera, Sarcophagidae). 1321
The type-specimens of the Palearctic species of Scolytus Geoffr. (Coleoptera, Scolytidae) in the Institute of Zoology collection, USSR Academy of Sciences (Leningrad). 2513
On the systematic position of some genera of the Heliodinidae/Schreckensteiniidae as well as a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera). 7466
Coniopterygidae from Mongolia (Neuroptera). 7507

PALEOENTOMOLOGY
Studies on North American Carboniferous insects. 5. Palaeodictyoptera and Megasecoptera from Illinois and Tennessee, with a discussion of the order Sypharopteroidea. 1228
Undescribed fossil insects from the Upper Permian of Belmont, New South Wales. 1319
Evolution of the function of the ovipositor in relation to the origin of parasitism in Hymenoptera. 2641

A key to the Ipswich fossil beetles (Coleoptera) from the Permian of Australia.
4981

PALMAE
Cultivated palms of Venezuela.
941

Glossina palpalis gambiensis Vanderplank 1949 (Diptera in the Niayes and
1899

A new species of Stethorus Weise (Coleoptera-Coccinellidae), feeding on arecanut palm mites in Kerala, southern India.
3109

Aphytis mytilaspidis (Le Baron), a parasite of Parlatoria blanchardi (Targ) in the palm plantations of the Adrar region of Mauritania.
6211

Insect pests of palm trees.
6230

PALMITIC ACID COMPOUNDS
Incorporation of palmitate-1-C14 into lipids of the blowfly during flight.
3892

PALYNOLOGY
Nosema disease of honey bees.
2543

PAMPHILIIDAE
Record of Acantholyda circumcincta (Hymenoptera: Pamphiliidae) in Florida.
2210

PANCALIA
On the systematic position of some genera of the Heliodinidae/Schreckensteiniidae as well as a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera).
7466

PANCREAS
The gross and microscopic changes in sublethal staphylococcal alpha-toxin pancreatitis in dogs.
2276

Clinical signs and pathology of chronic pancreas diseases of the dog.
2893

Clinical signs and pathology of pancreas diseases of the dog.
2910

Studies on the pathogenesis of foot-and-mouth disease in the pancreas of goats.
3514

Oral therapy of diabetes mellitus in dogs with Glycodiazin.
4160

Effect of dietary lipids upon the lipase, pancreatic cholesterol esterase, plasma triglyceride and total plasma lipids level in the chick. (Abstract).
4261

PANCREATIC CYSTIC FIBROSIS
Clinical signs and pathology of pancreas diseases of the dog.
2910

PANICUM
Growth characteristics and herbicide susceptibility of Texas Panicum.
7232

PANICUM MAXIMUM
Studies on Phyllosticta blight of rice.
4703

Occurrence of accessory chromosomes in Panicum maximum Jacq..
7253

PANONYCHUS
Studies of Queensland Tetranychidae. 5. Records of the genus Panonychus from Queensland, with a note on the occurrence of Panonychus citri (McGregor) in New Guinea.
3095

PANONYCHUS CITRI
Studies of Queensland Tetranychidae. 5. Records of the genus Panonychus from Queensland, with a note on the occurrence of Panonychus citri (McGregor) in New Guinea.
3095

Systemic activity of UC-21149 against the citrus red mite, citrus thrips, California red scale, and spirea aphids on nonbearing orange trees.
6265

PANONYCHUS ULMI
Changes in the growth-regulator content of plum infested with fruit tree red spider mite, Panonychus ulmi (Koch).
267

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina).
867

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina).
1461

Pre-bloom oil sprays for European red mite control.
1932

The effect of pesticide application at the end of winter, on the winter eggs of Panonychus ulmi Koch.
2562

Experimental analysis of phenology of the European red mite Panonychus ulmi Koch (Acarina, Tetranychidae).
2642

A new active acaricide substance.
2661

Problem insects in 1967 - how to control them in 1968.
3891

Integrated control of fruit tree pests. Orchard mites. Orchard insects.
5292

Laboratory determination of resistance to tetradifon in the fruit tree red spider mite, Panonychus ulmi (Koch).
7823

PANSTRONGYLUS GENICULATUS
Studies on some silvatic reservoirs and vectors of Trypanosoma cruzi. XXI: observations on the ecology of Panstrongylus geniculatus (Latreille 1811) (Hemiptera Reduviidae).
9

PANTELIELLA
Cynipinae (Hymenoptera) occurring on Phlomis L.
5128

PANTOMORUS GODMANI
Growing camellias.
5859

PANTOTHENATE
The effects of pantothenic acid, pantoyltaurine, salicylate and related compounds on the in vitro and in vivo growth of Trypanosoma lewisi.
4839

PAPAVER
Insect-flower associations in the high Arctic with special reference to nectar.
5366

PAPAVERALDINE
Chemical characteristic of the products of drug decomposition. I. Polarographic examination of the products of papaverine hydrochloride decomposition.
1187

PAPAYAS
Fruit rot of papaya (Carica papaya L.) caused by Macrophomina phaseoli (Maubl). Ashby.
2143

Efficacy of fungicides, hot water and gamma-irradiation for control of postharvest fruit rots of papaya.
3971

A new virus disease of Carica papaya in India.
4005

The status of papaya breeding in La Molina, Peru.
4653

Papaya breeding in Hawaii.
4668

Basis for a program of papaya, Carica papaya L., improvment in Colombia.
4676

Inter-species and inter-genera crosses in Caricaceas and their phytotechnical implications.
4696

Inoculation of Carica papaya L. with the ringspot distortion virus under various conditions.
4733

The relationship of some insects (Aphididae, Largidae, Pentatomidae, Coccinellidae and Malachiidae) to the pearlhairs or glanduliform emergences of Carica papaya L.
4736

Field biology and control of Phytophthora parasitica on papaya (Carica papaya) in Hawaii.
5967

PAPER
Silverfish: A taste for paper.
1779

PAPER CONTAINERS
Fly and economic evaluation of urban refuse systems. Part II.AN efficiency analysis of paper bag containers.
452

PAPILIONIDAE
Notes on the classification of the Iberian families of Parnassius apollo (Papilionidae).
17

Iconography of the eggs of the Lepidoptera fauna of Belgium.
47

Selection and host plant overlap in two desert Papilio butterflies.
3194

PAPILLOMA
The onogenic action of bovine papilloma virus in hampsters.
2960

Vaginal papilloma of the cat.
6706

PAPILLOMA VIRUSES
Influence of a papilloma vaccine on chronic bovine enzootic hematuria.
6757

PAPOVAVIRUSES
Theory of classification of the densonucleose viruses , based on the study of molecular structures and physiochemical properties.
4823

PARA-NITROPHENOL
Insecticide exposure: A sensitive procedure for urinary p-nitrophenol determination as a measure of exposure to parathion.
7962

PARACLYSTIS
African termites of the genus Schedorhinotermes (Isoptera: Rhinotermitidae) and associated termitophiles (Lepidoptera Tineidae).
28

PARACOLOBACTRUM ARIZONAE
Research note: Observations on immune factors associated with arizona group infections in turkeys.
364

Research on diseases of poultry.
2331

Salmonella and Arizona in reptiles and man in Western Australia.
2922

Effect of spectinomycin on experimentally induced Arizona group infection in turkeys. (Abstract).
4265

Isolation of Arizona 7:1,7,8 from litter of pens housing infected turkeys.
6824

PARACONALIA
Coleoptera from northeast Africa. Mordellidae. Supplement: Paraconalia n. gen. a new genus from South America. 64. Contribution to the knowledge of the Mordellids.
4380

PARADICHLOROBENZENE
Softening of Coleoptera.
1380

PARAFFIN OILS
Juice quality of grapefruit following June versus September applications of a 412 paraffinic petroleum oil with data on control of certain pests.
7238

PARAFFINS
Physio-chemical problems of developing dusting chemicals and seed incrusting chemicals adhering in net conditions.
2810

PARAGONIMUS
Worm control in swine.
6942

PARAGORDIUS
The infection of immature aquatic insects by larval Paragordius (Nematomorpha).
5167

PARAINFLUENZA
Polyvalent parainfluenza CF antigen for serodiagnosis.
4166

Lipids of plasma membranes of monkey and hamster kidey cells and of parainfluenza virions grown in these cells.
7894

PARAINFLUENZA-1 VIRUS
Persistance of the genome of the Rous virus in hamster cells changed in vitro, and the action of inactivated Sendai virus on its transmission to chick cells.
4848

Sequence of RNA synthesis in chick fibroblasts infected with Sendai virus.
6503

The effect of quaternary ammonium compounds on Newcastle disease virus and parainfluenza virus.
6670

PARAINFLUENZA-3
Experimental infection of calves with Myxovirus parainfluenza-3 and Pasteurella haemolytica.
340

Virus diseases of the respiratory tract in cattle.
7866

PARALYSIS
Anti-rabies vaccinations at the Toulouse University Hospital Center in 1967.
339

Anti-rabies vaccinations at the Montpellier Center in 1967.
383

Anti-rabies vaccinations at the Pasteur Institute of Lyon in 1967.
384

Anti-rabies vaccinations at the Marsille Pasteur Center in 1967.
417

Bromolysergic acid diethylamide in physiological studies of lepidopterous larvae.
5199

PARAMETERS
A criterion of transformation for age-weight data on insect larval growth.
4481

Evaluation of some parameters of the individual energy budget of the larvae of Pteromalus puparum (L.) (Pteromalidae) and Pimpla instigator (Fabr.) (Ichneumonidae).
5264

A model of the plant-to-plant movement of aphids. II. Estimation of parameters and the application.
5602

PARAMPHISTOMUM
Cattle paramphistomatidosis in Polesye.
6972

PARAMPHISTOMUM CERVI
Research on paramphistoma-induced infections in the ruminants of the Tulcea district.
3634

PARAMYXOVIRUSES
The precision of virus end-point determinations.
6458

PARAOXON
Oscillopolarographic determination of parathion, paraoxon, and p-nitrophenol in fortified canned peaches following thin layer chromatography.
3659

PARAQUAT
A minimum cultivation trial with maize using paraquat herbicide.
309

Tree line weed control in Goulburn Valley orchards.
325

Collaborative study of a colorimetric method for paraquat in formulations.
550

Paraquat poisoning treated by forced diuresis.
1801

Paraquat poisoning, lung transplantation.
1803

Recovery from paraquat poisoning.
1804

Selective herbicides control weeds in lucerne at Cowra.
2262

Perennial weed grasses and their control in relation to cereal growing.
2859

On the application of herbicides on bodies of water.
3473

Effects of foliarly applied desiccants on selected species under tropical environment.
3679

The influence of darkness on the uptake and movement of diquat and paraquat in tomatoes, sugar beet and potatoes.
3680

Effect of paraquat on growth of Sclerotium rolfsii in liquid culture and soil.
3704

Combination of thin-layer chromatography and the ring-oven method for the semi-quantitative estimation of some herbicides.
3717

Chemical control of weeds in the Hungarian vineyards. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4086

The dipyridillics in tomato cultures.
4914

Part II proposed for paraquat.
4962

Recent advances in perennial grass control in avocado orchards.
6350

Chemical weed control in tropical root crops.
6352

Experimental husbandry farm experience with herbicides and tillage systems for cereal growing.
6399

These weeds mean trouble.
7042

Herbicide toxicity.
7155

Effect of paraquat on the nitrogen content and regrowth of Coastal bermudagrass (Cynodon dactylon (L.) Pers.).
7219

Selective herbicides control weeds in lucerne at Cowra.
7854

PARASEMIA PLANTAGINIS
A melanistic form of Parasemia plantaginis L.
607

PARASITES
Parasitic and ecological study of the small mammals (insectivores and rodents) of the Allondon valley (Geneva).
1643

Persistent viremia in EIA infected horses.
1664

On study of helminthofauna of domestic and wild carnivorous animals in Bukhara region.
1757

A study of immunological reactions in bovine fascioloidiasis (Fascioloides magna).
2359

Immunological studies on experimental ascariasis.
2378

Seasonal fluctuations in the protozoan parasites of the centipedes Lithobius variegatus and Lithobius forficatus in a Yorkshire woodland.
2603

Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea.
2613

Laboratory propagation of the parasite Chrysocharis laricinellae (Hymenoptera: Eulophidae) and notes on interaction with its host, Coleophora laricella.
2640

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes.
2824

Ascariasis in pig and in man.
2876

Stomach worm disease in young cattle.
2999

Some parasites from the Ceylon elephant (Elephas maximus).
3001

The important crop diseases and pests in the Federal Republic of Germany in the growing seasons of 1965 and 1966 (November, 1964 through October, 1966).
3347

Studies on the life history and biological control of the spittlebug, Clastoptera undulata Uhler (Cercopidae: Hemiptera).
3802

Comparative studies of American and African Trypanosomiasis.
3908

Experiment on the influence of Bacilluscereus var. Galleriae and of lindane on Sitotroga cerealella Oliv. and on Trichogramma cacoeciae March.
4591

Outline of Syrian parasitology.
4790

Parasites of man and domestic animals in Vietnam, Thailand, Laos, and Cambodia. Host list and bibliography.
6437

PARASITIC INSECTS
Descriptions of new and little known species of Mallophaga (Insecta) from maritime hosts of Chile, South America.
18

Complement to the study of the larval biology of Symmiticus costatus Loew (Diptera Nemestrinidae), a grasshopper parasite, and general considerations on the biology of Nemestrinidae.
118

Bionomics and ecology of Ephedrus pulchellus Stelfox an important parasite of leaf-curling aphids in Czechoslovakia with notes on the diapause (Hym. Aphidiidae).
160

Note on Sphenarches anisodactylus, Wkr. damaging bottle gourd (Lageneria lucantha, Rusby).
285

The effectiveness of Aphelinide, Prospaltella perniciosi Tower in the San Jose scale, Quadraspidiotus perniciosus (Comstock), infested area of South Western Germany.
583

Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera).
638

PARASITIC INSECTS

Review of the parasitic Diptera of the genus Eriothrix Meigen (Diptera, Tachinidae) in the USSR.
650

A key to ichneumonid parasites of rice stem borers in Asia (Hymenoptera: Ichneumonidae).
669

On the syrphid larvae attacking the aphids in Japan (Diptera).
677

A new genus of parasitic tachinid flies (Diptera, Tachinidae) from Soviet Central Asia.
694

Comments on population dynamics of exotic insects.
714

Ceroplastes rusci L. (Homoptera, Coccoidea, Lecaninae) an interesting example for the study of population dynamics.
749

Comparison of the effectiveness of two pupal parasites in finding a host.
757

Combined utilization of entomophages and microorganisms with a view of replacing or limiting the use of chemical treatments.
769

Parasites of social wasps (Vespidae).
793

The importance of mortality factors on the occasion of the mass-appearance of the nunmoth in the forested district of Lower Austria, 1964-1967.
814

Nesting biology of the social wasp Microstigmus comes (Hymenoptera, Sphecidae, Pemphredoninae).
844

The parasite complex of the European and North-American pine roller moth (Choristoneura spp., Lep. Tortricidae), from a bio-geographical point of view.
918

Drosophila and Pseudeucoila V: Contribution to the biological parasitology of Pseudeucoila bochei Weld (Cynipidae, Hymenoptera) and report on two new mutants.
926

Stem weevil the prey for tiny wasp.
990

Mass appearance of a typical permanent forest infestor, the larch casebearer (Coleophora laricella).
1013

New species of the genus Tachina Mg. (Diptera, Tachnidae) parasites of injurious Lepidoptera in the USSR.
1347

A first case of Macrocheles muscaedomesticae Scopoli, 1772 (Acarina: Mesostigmata) in Turkey.
1399

Occurence of Galleria mellonella and Acheronita atropos as honey bee parasites in Iran.
1456

Biological control of introduced forest insect pests.
1544

A preliminary account of pests of apple in Madras.
1597

The effect of Hoe-2910 on ectoparasites of animals.
1723

Some species of Pediobius Walker (Hymenoptera, Eulophidae) inhabiting cynipid oak galls.
1864

Strepsiptera from the Mississippi coast.
1888

Records of predators and parasites naturally prevalent in the Gujarat state.
2024

An annotated list of hymenopterous parasites of citrus soft scales in Israel.
2041

Chambers for incubating individual insect eggs and egg parasites.
2054

Hymenoptera and nematodes as parasites of Tachyporus species (Col.; Staphylinidae) with special consideration of Centistes lucidator (Nees) (Hym.; Braconidae).
2223

Aclerdaephagus planus Sugonjaev gen. et sp. n. (Hymenoptera, Aphelinidae)--parasite of Nipponaclerda turanica Arch. in South Tajikistan.
2532

Species of the genus Physcus How. (Hymenoptera, Chalcidoidea), parasites of scale insects in the USSR.
2536

Comperiella bifasciata How. (Hymenoptera, Encyrtidae), a parasite of the spruce scale in Adzharia.
2538

Meigenia mutabilis Fall. (Dipt. Tachinidae) as a parasite of Oulema melanopa L. and its relation to Leptinotarsa decemlineata Say.
2544

A tachinid parasite of Australian grasshoppers.
2545

Gall midges (Diptera-Cecidomyiidae) and their parasites (Hymenoptera) living in female birch catkins.
2586

The biology of some species of Alaptus (Mymaridae) parasitising eggs of Psocoptera.
2625

Epimegastigmus brevivalvus Gir. (Hymenoptera: Torymidae), a parasite of citrus gall wasp in the Sydney district.
2805

A parasite to destroy clover pest.
2815

Cuterebrid infestation of Microtus in eastern North Dakota, Pennsylvania, and New York.
2991

On a new species of Dexosarcophaga Townsend, 1917 (Diptera, Sarcophagidae) whose larvae parasitize Camponotus (Hymenoptera, Formicidae).
3115

A new myrmecophilous mite Divilia oculata gen. et sp. n. (Sarcoptiformes, Saproglyphidae).
3129

Aquanirmus species (Insecta, Mallophaga) of Rumania's fauna.
3163

Sources of alcohol dehydrogenase (NAD0-LINKED) in the cockroach, Leucophaea maderae.
3187

Tyrosinase activity of the symbionts and fat bodies of the cockroach, Leucophaea maderae.
3208

The structure and possible mode of functioning of the female reproductive system in Nasonia vitripennis (Hymenoptera: Pteromalidae).
3228

Notes on the biology and rearing of Anaphes ovijentatus, a new parasite of Lygus hesperus in Arizona.
3286

Some relationships between plant lice (Aphididae) and their parasites.
3314

Zectran and naled affect incidence of parasitism of the budworm Choristoneura occidentalis in Montana.
3315

Insect parasites of the winter moth, Operophtera brumata (L.) (Lepidoptera: Geometridae) in western Europe.
3316

Bioecology and chemical control of the apple codling moth (Carpocapsa pomonella) L. in Mendoza.
3436

A mite to combat coconut caterpillar.
3442

Ungulates. In: Diseases of man acquired from his pets.
3520

Relation of ration to short-nosed cattle louse infestations.
3607

New concepts for cattle tick control.
3609

New Perilampidae (Hymenoptera: Chalcidoidea).
3742

Microterys clauseni Compere (Hym.: Encyrtidae).
3796

A survey of leaf-miners and their parasites on Laburnum.
3797

Review of the parasitic Diptera of the genus Eriothrix meigen (Diptera, Tachinidae) in the USSR.
3838

Parasites of ladybirds (Coleoptera, Coccinellidae) in Leningrad Province.
3844

Community studies on Hymenoptera found on Brassica napus L. Part III. Braconidae and Aphidiidae.
3853

Notes on the parasites of the root aphids (Hymenoptera, Aphidiidae).
3876

Ticks of the National Reactor Testing Station.
4267

Aphidius smithi Sharma and Subba Rao (Hymenoptera: Aphidiidae) a parasite of the pea aphid new in Southern Ontario.
4350

Contribution to the knowledge of the hosts of the genus Opius (Hymenoptera, Braconidae).
4385

The first discovery of free-living larvae of the ear tick, Otobius megnini (Duges), in British Columbia.
4424

Identification of the braconid parasites of rice borers (Hymenoptera: Braconidae).
4440

New species of the genus Trachina Mg. (diptera, Tachnidae), parasites of injurious Lepidoptera in the Ussr.
4445

The introduction, release, and recovery of parasites of the alfalfa weevil in Eastern United States.
4466

Adult emergence interval and reproduction in parasitic Hymenoptera influenced by host size and density.
4545

Contribution to the biological study of the Diptera Sarcophagidae, parasites of acridids. The biological cycle of Blaesoxipha rossica Vill., injection of larvae in the body of the host by the female Sarcophagidae.
4547

Observations on the morpho-biology of Pnigalio mediterraneus Ferr. and Del. (Hym. Eulophidae).
4615

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta.
4745

Notes on macrochelids associated with manure and coprid beetles in Israel. II. Three new species of the Macrocheles pisentii complex, with notes on their biology.
5013

Epimyodex talpae n. g., n. sp., a sub-cutaneous parasite of the mole in Belgium (Demodicidae: Trombidiformes). 5029

Faunistic studies on some acari of the families Myobiidae and Cheyletidae, parasitizing on small mammals in Bulgaria. 5084

Dennyus aequatorialis n. sp. (Mallophaga: Menoponidae) from the mottled swift, Apus aequatorialis. 5090

A new species of Dermanyssus from marine birds, with observations on its biology (Acarina: Dermanyssidae). 5113

On the knowledge of German fleas. II. Fauna and Ecology of the fleas of birds (Insecta, Siphonaptera). 5121

A widely distributed pine sap injurious, Acanthophila piceana n. sp. (Lep. Gelechiidae) in Latvia. 5150

An acarid (Erythraeidae) parasite of Jassids (Homoptera, Auchenorrhyncha). 5249

Features of microclimatic regimen of habitats of sandflies in a village of Karshinsky Oasis. 5329

Polynema striaticorne Girault (Hymenoptera: Mymaridae), a parasite of the buffalo treehopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in Quebec. 5465

The biology of Scrapter and its cuckoo bee, Pseudodichrda (Hymenoptera: Colletidae and Anthrophoridae). 5570

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae). 5600

Functional response to host density in a parasitic wasp, with reference to population regulation. 5640

Biology of Dufourea and of its cleptoparasite, Neopasites (Hymenoptera: Apoidea). 5646

Parasite phylogeny problems of the Mallophaga of Passeriformes and Piciformes. 5693

How do native insect parasites behave in relation to imported insect hosts, alien to the native fauna . 5695

Some birds of Uruguay parasitized by Ornithoctonia erythrocephala (Diptera, Hippoboscidae). 5754

Bionomics of Drosicha mangiferae (Green) on citrus including new record of its three natural enemies. 6246

Mortality in sheep due to Ixodes species. 6907

Respiratory mites of poultry in the territory of Papua New Guinea. 6909

The Alysiinae (Hym. Braconidae) parasites of the Agromyzidae (Dipterh). IV. The parasites of Hexomyza Enderlein, Helanagromyza Hendel, Ophiomyia Braschnikov and Napomyza Westwood. 7470

The establishment in New Zealand of Bracon variegator Nees (Hymenoptera: Braconidae) a parasite of Coleophora species (Lepidoptera: Coleophoridae). 7552

Transmission of densonucleosis virus by parasitism of a hymenopteran. 7635

On the relationships between ants and parasites of coccids and aphids on citrus. 7840

The hymenopterous parasites of soft scales on citrus in Israel. 7841

A review of hymenopterous parasites of citrus pest aphids of the world and biological control projects (Hym., Aphidiidae; Hom., Aphidoidea). 7842

Living ceratopogonid larvae (Diptera) in the intestines of fish. 7926

PARASITIC MITES

Mite parasites of small mammals from scrub typhus foci in Australia. 2989

Ectoparasitic mites (Acarina: Parasitiformes) from small mammals from the Tarnasjo and Ammarnas areas in Swedish Lapland. 4353

PARASITIC NEMATODES

Diagnosis of heartworm disease by examination of the blood. 1747

Radiographic examination of the heartworm-infected patient. 1751

Laboratory evaluation of the heartworm-infected patient. 1762

Pathology of heartworm disease. 1765

The immune phenomenon. 1766

Rondonema thapari n. sp. from the millipede (Spirostreptus sp.). 1958

Hymenoptera and nematodes as parasites of Tachyporus species (Col.; Staphylinidae) with special consideration of Centistes lucidator (Nees) (Hym.; Braconidae). 2223

The life history of Cooperia pectinata Ransom. 2997

Studies on the pathogenicity in stephanofilarial humpsore among cattle in India. 3618

Observations of the pathogenicity of D. filaria infection and report of treatment with Dictycide -- cyanacethydrazide. 3619

Larval development of a nematode parasite of the dog circulatory system in dulcaquicoles mollusks. 4857

PARASITIC PLANTS

Dwarfmistletoe on Brewer spruce in Oregon. 1028

Biological control for dwarf mistletoe. 1631

PARASITISM

Biological notes on eye-frequenting moths from North Thailand. 71

The olive fly, Dacus oleae Gmel. and its parasites in Corsica, in 1959 and 1960. 84

Palearctic encyrtids parasites of psyllids. 85

Multiple parasitism in Diparopsis watersi Roths. (Lep. Agrotidae). 90

Fly enemies...your allies. 117

The principal parasites observed on the leaf roller moths of spain with particular attention to Lymantria dispar. L. 143

A new contribution to the study of the cabbage moth control (Mamestra brassicae L.). 159

Investigations concerning the biological control of the apple moth (Carpocapsa pomonella (L.)) by means of egg parasites of the genus Trichogramma. 161

Protozoan and nematode infections of insects. 173

Variation in the host-parasite relationship of a crop disease. 218

Didymella bryoniae, a new fungus parasite of cucumber cultures. 232

The need for conserving natural enemies of pests. 270

Aphelenchoides bicaudatus, a parasite of cultivated mushroom. 299

Strain variation in the response of Haemonchus contortus in sheep and goats given phenothiazine: Efficacy of N.F. and purified products on pure parasitic infections. 439

Hyostrongylus rubidus: A field study of its pathogenesis, diagnosis and treatment. 440

Certain metal salt complexes useful for controlling helminths and improving growth in animals. Patent 3,408,444. 442

Control of internal parasites of swine and sheep with dimethyl 2,2-dichlorovinyl phosphate. Patent 3,408,443. 444

Gains from worm drenching ewe hoggets in South Canterbury. 445

Agricultural control measures against intestinal parasites in cattle. 446

The incidence of disease resulting from infection with Haemonchus contortus in sheep sent to the Veterinary Investigation Centres in England and Wales from 1965 to 1967. 447

The life span of Fasciola hepatica in cattle. 448

Records and descriptions of African Encyrtidae-- 4 (Hymenoptera: Chalcidoidea). 592

Bibliography on the systematique of entomophagous insects. V. 603

A new species of Alysia parasitic on carrion-feeding flies (Hymenoptera: Braconidae). 661

The host and present status of Alysia ridibunda Say in Missouri (Hymenoptera: Braconidae). 762

Parasites of ladybirds (Coleoptera, Coccinellidae) in Leningrad province. 835

Life cycle and development of Leiophron pallipes Curtis (Hymenoptera: Braconidae, Euphorinae) in five mirid hosts in the Belleville district. 836

An interesting brood of Eudia pavonia (Attacidae). 838

Biological notes on Dioxys pomonae pomonae and on its host, Osmia nigrobarbata (Hyemnoptera: Megachilidae). 872

The creation of artificial foci of parasites- a new method of aphid parasite release. 887

Apanteles pieridis (Bouche) (Hym., Braconidae), a parasite of Aporia crataegi (L.) (Lep. Pieridae). 910

Physiology of parasitism. 2. Biochemical changes in the Mung bean seedling infected with Rhizoctonia solani Kuehn. 954

On Diaporthe on plum-trees - a study of literature. 977

PARASITISM

The effect of malachite green as a fungicide. 1050

Attachment of Bdellovibrio bacteriovorus to cell wall mutants of Salmonella spp. and Escherichia coli. 1113

Some parasites of the common crow, Corvus brachyrhynchos Brehm, Ohio. 1122

Pneumostrongylus tenuis in white-tailed deer in Maine. 1126

On the collection and preparation of bird- and mammal parasites (mallophaga). 1202

Ecological points of view in faunistic work-shown on the example of the larvae of leaf wasps. 1348

The external morphology of the post-embryonic developmental stages of Spinturnix myoti Kol. (Acari: Mesostigmata). 1386

Epizootiology of Trypanosoma cruzi in Southwestern North America. XII. Does Gause's rule apply to the ectoparasitic Triatominae (Hemiptera: Reduviidae) (Kinetoplastidae: Trypanosomidae) (Rodentia: Cricetidae). 1467

A note on two isolates of Rhizoctonia solani Kuhn from wheat. 1560

Phenological observations on the fungi of the trees and shrubs in the park of the experimental farm Koniczynka near Torun. 1594

The soybean cyst nematode threat. 1621

Internal parasitism of dairy cattle. 1733

A new species of Otidoecus. (Philopteridae, Mallophaga). 1873

Biological notes on Spilonota ocellana Denis and Schiffermuller (Lepidoptera Tortricidae) in the foothill region of Friuli and preliminary indications on the factors adverse to its development. 1970

Investigation into a conditional host modification by the ichneumonid fly Perithous divinator (Rossi) (Hym., Ichneum.). 1984

Heat-extraction technique for recovery of potato tuberworm larvae from potato tubers. 2029

Fluctuations in the population of Schizolachnus piniradiatae (Davidson) (Aphididae-Homoptera) in the Eastern Provinces during 1967. 2048

Reduction in mortality of peach trees following preplant soil fumigation. 2103

An oak leaf tier, Croesia semipurpurana (Kft.) (Lepidoptera: Tortricidae) in the region of Quebec. 2212

Hymenoptera and nematodes as parasites of Tachyporus species (Col.; Staphylinidae) with special consideration of Centistes lucidator (Nees) (Hym.; Braconidae). 2223

Mutual antagonism between Heterodera tabacum and some other parasitic nematodes. 2248

Arceuthobium pusillum on eastern larch in Wisconsin. 2257

Pulmonary diseases of pig in Madagascar. 2335

Insecticidal drug containing lindane. Drugs for veterinary use; drug efficacy study implementation announcement. 2355

Arthropod parasites on the starling, Sturnus vulgaris L., in southwest Virginia. 2356

Concerning the larva migrans visceralis of Ascaris lumbricoides in the experimental host (mice). 2360

Liver-fluke in Madagascar. Biological cycle of Fasciola gigantica. 2361

Notice of filing of petition for food additives diethylcarbamazine, styrylpyridinium chloride. 2362

Toxoplasma gondii in tissue culture and maintenance at low temperatures. 2363

AH-NBC capsules. Drugs for veterinary use; drug efficacy study implementation. 2365

Dr. Mayfield large roundworm tablets. Drugs for veterinary use; drug efficacy study implementation. 2366

Dizan powder and tablets. Drugs for veterinary use; drug efficacy study implementation announcement. 2367

Cadmium salts. Drugs for veterinary use - drug efficacy study implementation. 2368

Caparsolate sodium. Drugs for veterinary use - drug efficacy study implementation. 2369

D.N.P. disophenol. Drugs for veterinary use - drug efficacy study implementation. 2370

Vermiplex capsules. Drugs for veterinary use - drug efficacy study implementation. 2371

Vermex poultry tablets and vermex powder. Drugs for veterinary use - drug efficacy study implementation. 2372

Pseudohookworm infection - trichostrongyliasis. Treatment with thiabendazole. (abstract). 2373

Sparganosis in a cat. 2376

The effect of dimethialium on experimental chicken coccidosis. 2377

First applications of biological control of Aonidiella aurantii in Morocco. 2542

General considerations on the significance of predators and parasites in orchards. 2600

Orientation and progress in the studies on the parasitism of entomophagous insects. 2610

Parasites of Sphaerolecanium prunastri Fonsc. (Homoptera, Coccoidea). 2616

Evolution of the function of the ovipositor in relation to the origin of parasitism in Hymenoptera. 2641

Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the help of Trichogramma embryophagum (Hartig). (abstract). 2652

Some concluding remarks. 2670

Inoculum production and infection by foliage pathogens. 2733

Occurence of a new physiologic race of coffee rust (Hemileia vastatrix). 2789

Some problems regarding the defense of the apple against the infestations by some aphid species. 2802

Economically important plant parasitic nematodes in Ontario. 2843

Epidemiological trends in disease of livestock kept under intensive conditions. 2877

Host-parasite relationships in Brucellosis. I. Reservoirs of infection and interhost transmissibility of the parasite. 2941

Isolation of Toxoplasma gondii from the flesh of sheep, swine and cattle. 2983

An electron microscopic analysis of phagocytes infected with Brucella abortus. 2984

Demodectic parasites in livestock. 2993

Pharmacodynamic properties on new anthelmintics. 2994

Trichinae in garbage fed swine. 2995

Host resistance in the control of coccidial infections. 2996

Metamorphosis in ontogenesis of parasitic angiospermous plants. 3063

Three new aphid parasites from Hongkong. (Hymenoptera: Aphidiidae). 3116

On the ecology of Prospaltella perniciosi Tower (Hym. Aphelinidae), a specific parasite imported by Quadraspidiotus perniciosus Comst. (Hom. Diaspinidae). 3168

Studies on the biology of Rhyssa persuasoria (L.) (Hymenoptera: Ichneumonidae) incorporating an X-ray technique. 3219

Influence of oophagous parasites on the regulation of the Cassida deflorata Suff. population. 3232

Insect parasites of the winter moth, Operophtera brumata (L.) (Lepidoptera: Geometridae) in western Europe. 3316

The pine chrysomelid, Glyptoscelis pubescens, in northwestern Wisconsin. 3441

Animal parasites of animals which affect man in Malaysia. 3584

Parasites of Felis domestica from Belo Horizonte, Minas Gerais, Brazil. 3613

Some aspects of the control of helminthosis in sheep. 3622

Wenyonella philiplevinei, n. sp., a coccidial organism of the white Pekin duck. 3627

Studies on the spring rise phenomenon in ovine helminthiasis I. Spring rise in stabled sheep. 3630

Contributions to the knowledge of Analgesoidea of Czechoslovakia. 3743

Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes. 3799

Parasites of ladybirds (Coleoptera, Coccinellidae) in Leningrad Province. 3844

Comparative studies of the development of Plasmodium cynomolgi bastianellii in Anopheles stephensi and A. albimanus. 3860

The rate of contamination in relation to the percentage of infection in the parasitic diseases of plants. 4029

The oleander scale, Pseudaulacaspis pentagona (Targ.), (Homoptera, Coccidae) in Bermuda. 4043

Control of Orobanche under natural and artificially infested conditions.
4068

Hygiene and animal diseases in Deux-Sevres (region of Coulonges-sur-l'Autize).
4141

Disinfection in parasitoses.
4148

An improvement of the indirect fluorescent antibody test for the diagnosis of intraerythrocytic parasitic infections.
4183

Mid small intestinal parasitism and absorption of amino acids and protein. (Abstract).
4251

Minimum time for development and life span of metacercariae.
4270

Brief communication on the occurance of thelaciaepathogens of an enzootic eye disease in cattle in the German Democratic Republic.
4273

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Coumaphos.
4274

Fish as observed hosts of Ascarids--their significance in regard to man's health.
4275

An attempt to eliminate the principal parasitic nematodes of dogs by using a new phosphoric ester.
4277

The anaemia of acute and chronic ovine fascioliasis.
4280

Information on a natural bacterial epizootic disease on Ephestia kuhniella Zeller, caused by a bacillus of the type of Bacillus thuringiensis.
4537

Diapause in Apanteles congregatus.
4586

Diazinon against plant pests.
4655

The problem of the potato blackleg disease.
4697

Contribution to the study of a parasitic complex which attaches itself to the exposed parts of cotton plants and causes their withering.
4712

The role of nematodes in horticulture.
4767

Axis cylinder degeneration associated with ryegrass staggers in sheep and cattle.
4825

Pathological studies on pseudotuberculosis rodentium. III. Spontaneous swine cases.
4829

Thiabendazole as a broad-spectrum anthelmintic. (abstract).
4853

Prevent worms to increase sheep profits.
4856

Host-parasite relationship. 1. Studies on the productivity of sheep as affected by Haemonchosis.
4858

Obligatory and additional hosts of helminths.
4859

Evaluation of the anthelmintic activity of thiabendazole in man. (abstract).
4860

Nymphal stage of Linguatula serrata found in mesenteric lymph node of a bovine.
4861

The Alysiinate (Hym. Braconidae) parasites of the Agromyzidae (Diptera). V. The parasites of Liriomyza Mik and certain small genera of Phytomyzinae.
5051

Contributions to the knowledge of the family Anoetidae (Acari).
5140

Two species of Copidosoma parasitic on the potato tuber moth (Hymenoptera: Chalcidoidea-Encyrtidae).
5151

Argas (Argas) Japonicus, new species, associated with swallows in Japan and Korea (Ixodoidea, Argasidae).
5174

Parasitism in fall populations of the bollworm (Heliothis zea Boddie) and the tobacco budworm (Heliothis virescens F.) from cotton on the high and rolling plains, 1967.
5235

Evaluation of some parameters of the individual energy budget of the larvae of Pteromalus puparum (L.) (Pteromalidae) and Pimpla instigator (Fabr.) (Ichneumonidae).
5264

Effect of food availability on rates of loss of 45calcium from Hyphantria cunea (Lepidoptera: Arctiidae).
5268

On a new species of Mirzaiella Basir, 1942 from Gryllotalpa africana.
5302

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan; June 1961-June 1966. Part I. Scale insects.
5323

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan. June 1961 - June 1969. Part II. Fruit flies.
5324

Mosquitoes feeding on insect larvae.
5359

Contribution to the physiology of the guest-host-relations (myrmecophily) in ants. I. The relation between the myrmecophilic Atemeles- and Lomechusa-larvae and Formica.
5369

Heterotylenchus spp. parasitising the Australian bush fly: Additional information on the origin of the parasite of the face fly.
5375

Infection rate of Culex pipiens L. mosquitoes with parasitizing fungus Entomophthora conglomerata Sorok. in the vicinity of Novocherkassk.
5382

Decrease in immunity of insects under the influence of bacterial infection transmitted by hymenopterous parasites.
5385

Certain host-parasite relationships between rodents (Muridae) and fleas (Aphaniptera).
5393

Some observations on flagellate parasites of hemipterans Corimelaena, Euschistus, Gerris, Leptocoris and Oncopeltus in the United States.
5444

1967: The results of artificial biological control of the olive fly.
5480

Note on the ovary, rachis, and spermatheca of an insect parasitic nematode, Contortylenchus elongatus (Massey, 1960) Nickle, 1963.
5497

Recent advances in the physiology and biochemistry of Plasmodia.
5526

Effect of natural parasitization on the population of paddy gallfly, Pachydiplosis oryzae Mani.
5546

Parasites as vectors of granulosis virus of Hadena sordida Bkh.
5599

Aphidofauna of honey plants as a source of subsidiary hosts of aphidiid wasps (Hymenoptera, Aphidiidae).
5628

Basic functions in Bacillus thuringiensis affecting its mode of pathogensis.
5636

Use of some host insects to increase trichogram effectiveness.
5692

Falciparum malaria transmissible from monkey to man by mosquito bite.
5751

Some problems of plant-parasite relationship.
5838

Erysiphaceae (Mycophyta) in the nature preserve of Cheile Turzii.
5871

Ponderosa pine dwarf mistletoe in relation to topography and soils on the Manitou Experimental Forest, Colorado.
5955

Biology of Ascochyta species parasitic on pea plants.
6023

Rare symptoms on Chrysanthemum morifolium infected with Puccinia horiana.
6139

Aphytis mytilaspidis (Le Baron), a parasite of Parlatoria blanchardi (Targ) in the palm plantations of the Adrar region of Mauritania.
6211

Old pests with new appetites.
6215

Cotton and plant parasitic nematodes.
6298

Injury to Heterodera tabacum by high soil temperatures.
6299

A nematode survey of tobacco soils in Rhodesia and Zambia, and the effects of grass-tobacco rotations on nematode populations.
6303

Progress in witchweed control seen as pest fails to spread.
6319

Veterinary science.
6438

Pig diseases.
6489

Resistance of vaccinated mice to typical and atypical strains of Coccidioides immitis.
6635

Plasmodium brasilianum in Columbian monkeys.
6704

An assessment of eimerian lesions in buffalo-calves (Bubalus bubalis) and their significance.
6759

Detection of complement fixing antibody to the agents of tick typhus fever of northern Asia and Q fever in wild animals of the extreme north of western Siberia.
6810

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs.
6811

The impala as a source of food and by-products. Data on production potential, parasites and pathology of free-living impalas of the Kruger National Park.
6880

The occurrence of the capillate louse, Solenopotes capillatus, in South Africa.
6887

A record of the mite, Speleognathus australis, in bovines in South Africa.
6888

Attacks on cattle by mosquitoes and biting midges.
6908

Note on Bourgelatia diducta, Oesophagostomum longicaudum and Globocephalus urosubulatus (Nematoda-Strongylidea) in swine of Minas Gerais, Brazil.
6911

Effects of gastrointestinal nematode parasites on performance in feedlot cattle.
6912

Study indicates most dairy cattle have worms.
6913

Basic,facts on the parasitic nematodes of the sheep (Ovis aries) in tunisia. 6915

Contribution to the problems of toxic action of Ascaridia galli on laboratory animals. 6917

Studies on the pathogenesis of trichocephaliasis in sheep. 6920

Measurements of the osmotic pressure in the habitat of Polymorphus minutus (Acanthocephala) in the intestine of domestic ducks. 6930

Epizootiologic factors of infestation by Trichostrongylidae in ovines in Leon. 6937

A helminthological survey of wild mink in Wisconsin. 6939

Coumaphos, a new anthelmintic for control of Capillaria obsignata, Heterakis gallinarum, and Ascaridia galli in chickens. 6940

Helminthoses as allergic diseases. 6941

The epizootiology of ovine verminous bronchopneumonias in Leon. 6943

The effects of low temperature on the sporulation and survival of oocysts of Eimeria perforans, media, magna and irresidua. 6944

Contribution to the knowledge of parasitic fauna of domestic animals and some game in Vojvodina. 6945

Regional research in nematode parasites of ruminants in the western United States, a 10-year summary, 1958-1968. 6949

The geographical and evolutionary relationships of Australian trichostrongyloid parasites and their hosts. 6955

Study of blood serum of parasitized animals. I. Electrophoresis. 6966

Echinococcus granulosus equinus Williams and Sweatman, 1963 in italy; epizootiological aspects and morphological and biological studies of the parasite. 6968

The guilty fox. 6977

Efficacy of tetramisole on nematode infections of dogs. 6981

Ectoparasites and helminth endoparasites of the tree squirrels of southwest Tennessee. 6982

Blood parasites found in imported birds at postmortem examination. 6987

A survey of parasites in laboratory primates. 6998

A field study of chemical prophylaxis against the developing stages of Dirofilaria limitis in the dog. 7003

Adults of Eumegacetes artamii from white leghorn pullets infected with the metacercariae from two dragonflies. 7009

Anthelmintic treatment of sows with thiabendazole. 7015

Nebraska's specific pathogen-free (SPF) swine program; tenth year report. 7016

Biology of the European chafer, Amphimallon majalis (Coleoptera: Scarabaeidae) in Northeastern United States. 7709

Endocarditis in horses. 7937

Obligate and optional hosts for helminths. 7947

PARASITOLOGY

Medical parasitology and exotic pathology. 185

On the collection and preparation of bird- and mammal parasites (mallophaga). 1202

Clinical effectiveness of sulfamonomethoxine and sulfadimethoxine in spontaneous coccidial infections in rabbits. 3633

Outline of Syrian parasitology. 4790

Parasitological situation on the hen farms in Lithuania. 6960

PARATEPHRITIS TRANSITORIA

Paratephritis transitoria Rhod. (Diptera, Tephritidae), a fly that forms galls on tassel flowers in the Maritime Territory. 3833

PARATHION

Controlling soil insects with parathion-pentachlorophenol compositions. Patent 3,408,442. 78

Residual effect of a number of insecticides on adults of the carabid Pseudophonus rufipes (Dej.). 79

Can one reconcile the control of San Jose scale (Quadraspidiotus perniciosus Comst.) with the fight against the carpocapsa (Carpocapsa pomonella L.). 125

A note on the control of the semi-cooper, Achaea Janata L., on castor. 291

Residues of parathion and methylparathion in potato tubers and in the soil, following soil treatments. 487

Parathion residue in cured alfalfa. 495

Reduction of parathion residue on celery. 497

The toxicological effect on animals of mixtures of chlorophos and DDT. 1156

The toxicological effect on animals of mixtures of thiophos, and chlorophos. 1157

A bioassay method for measuring mosquito larvicide depositions. 1533

The effect of the column support material on the gas chromatographic resolution of methyl parathion, ethyl parathion, ethyl paraoxon, malathion, and malaoxon. 1831

Inheritance and biochemistry of OP-RESISTANCE in a New York strain of the two-spotted spider mite. 2080

Procedure for semi-quantitative confirmation of some organophosphorus pesticide residues in plant extracts. 2426

Effect of DDT or parathion on condition avoidance response of offspring from DDT or parathion treated mothers. (abstract). 2427

Consistency of Rst values of six organophosphorus pesticides resolved by thin-layer chromatography in the presence of plant extracts without elaborate clean-up. 2453

The use of Drosophila melanogaster Meig., Calandra oryzae L. and Tribolium confusum Duv. for the detection of pesticides and for the evaluation of some extractive techniques. 2547

The effect of pesticide application at the end of winter, on the winter eggs of Panonychus ulmi Koch. 2562

Note on the control of gall-fly (Asphondylia sesami Felt.) on sesame. 2814

Effectiveness of standard and new compounds for the control of bud mite, Aceria sheldoni Ewing, on navel oranges. 2821

On the distribution of pest control agents. 3009

Commercial aspects of pesticide residues in foodstuff. 3025

A check of the resistance to washing of various pesticides on apples and grapes. 3028

The utilization of the in vitro cholinesterasis reaction for the identification and separation of insecticide residues. 3067

The effect of the association of organic material with clays on parathion and DDT adsorption. 3072

Metabolism of S35-parathion in the house fly. 3256

Glasshouse symphylids. 3443

Oscillopolarographic determination of parathion, paraoxon, and p-nitrophenol in fortified canned peaches following thin layer chromatography. 3659

The San Jose scale a pest of ornamental shrubs. 4033

Some remarks on plant protection preparation-tolerances. 4292

Persistence and movement of parathion in irrigation waters. 4871

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas. 4876

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Parathion or its methyl homolog. 4881

Pesticide residues in cultivated mushrooms. 4891

A preliminary study of the extraction of parathion and Diazinon by the Mills, Onley, Gaither Acetonitrile Procedure. 4937

New strategy against the codling moth. 5520

Insecticide resistance in the house fly: Decreased rate of absorption 1s the mechanism of action of a gene that acts as an intensifier of resistance. 5532

Effect of insecticide poisoning on chemoreception in the house fly, Musca domestica vicinaL. (Diptera: Muscidae). 5619

Control of the castor shoot and capsule borer, Dichocrocis punctiferalis Guen. 6150

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia. 6174

The oriental fruit moth and its control. 6223

The banana beetle can be checked. 6244

Degradation and activation of parathion analogs by microsomal enzymes. 7189

Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

Combined action of DDT with chlorophos and of thiophos with chlorophos. 7206

Resistance to organophosphates in New Zealand strains of the two-spotted spider mite, Tetranychus telarius (L.). 7571

The cotton leaf weevil, Bucculatrix thurberiella Busck. The history, habits, biology and methods of control. 7839

Collection and analysis of synthetic organic pesticides from surface and ground water. 7957

Insecticide exposure: A sensitive procedure for urinary p-nitrophenol determination as a measure of exposure to parathion. 7962

Cuticula of leaves and the residue problem. 7966

The method of conditioned reflexes in toxicology and its application for determining the toxicity of small quantities of pesticides. 7978

Recent developments in the detection and determination of pesticides and their residues by oscillographic polarography. 8003

Applications of polarography for the detection and determination of pesticides and their residues. 8004

Selective detection and identification of pesticide residues. 8006

Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 8012

Japanese laws and regulations concerned with pesticide and food additive residues in foodstuffs. 8019

PARENA PERFORATA
- Description of the larva of Parena (Parena) perforata (Bates), with some notes on its life history (Carabidae). 3825

PARENCHYMA TISSUE
- A fissure of physiological origin in carnation plants. 2742

PARESIS
- Recent advances in our knowledge of parturient paresis with particular reference to the role of vitamin D in its prevention. 2956
- Clinical pattern of nervous distemper. 7908

PARIANA
- A new genus and two new species of Cecidomyiidae associated with Pariana spp. (Gramineae) in South America (Diptera). 3749

PARLATORIA BLANCHARDII
- Aphytis mytilaspidis (Le Baron), a parasite of Parlatoria blanchardi (Targ) in the palm plantations of the Adrar region of Mauritania. 6211

PARLATORIA PERGANDII
- Juice quality of grapefruit following June versus September applications of a 412 paraffinic petroleum oil with data on control of certain pests. 7238

PARMENA BALTEUS
- Notes on rearing Parmena balteus L.(Cerambycidae). 889

PARMENA PUBESCENS SOLIERI
- Notes on rearing Parmena balteus L.(Cerambycidae). 889

PARNASSIUS
- Parnassiana nava XLIV. Supplementary considerations on the revision of the Parnassiinae subfamily (Continuation 17). Three new subspecies Kailasius charltonius bryki Haude and K. charltonius basharianus subsp. nova. 7453

PARNASSIUS APOLLO
- Notes on the classification of the Iberian families of Parnassius apollo (Papilionidae). 17

PAROCHLUS
- Descriptions of Lasiodiamesa bipectinata spec. nov. and Parochlus kiefferi (Garrett) Brundin (Diptera: Chironomidae). 7543

PARTHENOGENESIS
- Investigation into the tendency of parthenogenic reproduction of Solenobia manni Z. (Lepidoptera, Psychidae). 1433
- Oviparous morphs of Lipaphis erysimi (Kaltenbach) in India (Homoptera: Aphididae). 1446
- Genotypes and environment in the determination of the ground- and winged forms of aphids. 2554
- The biology of some species of Alaptus (Mymaridae) parasitising eggs of Psocoptera. 2625
- Oviposition, development of eggs, and chromosome complement of eggs of virgin females of the grasshopper Melanoplus sanguinipes. 2656
- On parthenogenic reproduction in Arammichnus cribricollis Gyll (Insecta Coleoptera Curculionidae). 4463
- Experimental induction of androgenesis, gynogenesis, and polyploidy in Bombyx mori by treatment with CO2 gas. 4647
- Sex-Determination. 5273
- Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 5529

PARTICLE SIZE DETERMINATION
- Concentrate spraying. 570
- Effect of droplet size on persistence of ULV malathion and comparison of toxicity of ULV and EC malathion to tobacco budworm larvae. 2031
- Purification and properties of broad bean wilt virus. 2189
- Oil deposit on grapefruit leaves with 3 types of spray equipment in relation to control of certain citrus pests. 7101
- The microfoil boom. 7394

PARTURITION
- Histamine in the cow: Pre- and postparturition histamine concentrations in plasma, milk, and tissue. 337
- Recent advances in our knowledge of parturient paresis with particular reference to the role of vitamin D in its prevention. 2956

PASPALUM DILATATUM
- Ergot poisoning of cattle grazing Dallisgrass. 6596

PASTEURELLA
- Properties of pasteurella organisms isolated from birds fed antibiotics for a long period. 6569
- The role of Argas persicus in epizootic poultry cholera. 6893
- Observations on the incidence and histopathology of pneumonia of sheep and goats in India. 7911

PASTEURELLA ANATIPESTIFER
- Central-nervous-system lesions of spontaneous Pasteurella anatipestifer infection in ducklings. 6654

PASTEURELLA HAEMOLYTICA
- Experimental infection of calves with Myxovirus parainfluenza-3 and Pasteurella haemolytica. 340

PASTEURELLA MULTOCIDA
- Classification of strains of Pasteurella multocida isolated from poultry. 1686
- Experimental Pasteurella multocida infection in chickens exposed to cold: Biochemical and bacteriological investigations. 2301
- Pulmonary diseases of pig in Madagascar. 2335
- Electron microscopic aspects of germs of Pasteurella animalium (P. multocida) in different stages of incubation and conservation. 3595
- Comparison of attenuated live Pasteurella multocida given in drinking water to an oil-base bacterin administered to turkeys. (Abstract). 4117
- Experimental Pasteurella infection in normal and chloropromazine-premedicated cockerels, subjected to heat stress. 6657
- What's new with bovine respiratory problems. 7905

PASTEURELLA PESTIS
- Effect of differences in ambient temperature upon the fate of Pasteurella pestis in Xenopsylla cheopis. 6894

PASTEURELLA PSEUDOTUBERCULOSIS
- Pathological studies on pseudotuberculosis rodentium. III. Spontaneous swine cases. 4829

PASTEURELLA TULARENSIS
- Notes on Pasteurella tularensis isolated from a vole, Microtus oeconomus Pallas, in Alaska. 2959
- Nutritional requirements of Pasteurella tularensis for growth from small inocula. 6609
- An endogenously produced substance essential for growth initiation of Pasteurella tularensis. 6610
- Observing the sensitivity of Francisella tularensis to antibiotics in vitro. 6621
- Results of microbiological examination of reservoir animals in the west Slovakia region for tularemia. 6701
- Electron microscopy study of the localization of antigens in a virulent and an avirulent strain of Francisella tularensis, using mercury-labelled antibodies. 6719
- A virus inhibitor circulating in the blood of chickens, induced by Francisella tularensis and Listeria monocytogenes. 7901

PASTEURELLOSIS
- Simultaneous prophylactic vaccinations of swine against hog cholera and pasteurellosis. 6673

PASTEURIZATION
- Heat pasteurization and chemical fungicides for control of Fusarium rot of California cantaloups. 263
- Determination of DDT residues and its metabolites in pasteurized frozen yolks by gas-liquid chromatography. 1143

PASTURE MANAGEMENT
- Heptachlor residues in soil, pasture, and stock resulting from the treatment of soil or pasture with heptachlor granules. 2424
- Resolute research to defeat grassgrub. 2806
- Procedure for aerial spraying of serrated tussock. 3034
- Gorse control at a profit. 3488
- Porina and grassgrubs put curbs on production. 6187

PASTURES
- Chemical control of weeds in fields and in the open country. 302
- Bovine ostertagiosis. Analytical bibliographic review of the disease, its treatment and its prophylaxis. 406
- DDT residues on pasture and in the butterfat of cows grazing pasture treated with DDT prills and DDTsuperphosphate. (abstract). 477
- The harvester termite, Hodotermes mossambicus (Hagen), as a pest of natural pasture. 1008
- Oviposition preference by Costelytra zealandica (White). II. 1997
- Differences between the invertebrate faunas of grazed and ungrazed chalk grassland. II. The faunas of sample turves. 3252
- Control of thorn trees can double veld capacity. 3343
- The effects of an acute insecticide stress on a semi-enclosed grassland ecosystem. 3655
- A Nimbaspis Balachw. (Coccoidea-Odonaspidini) new in the Central African grasslands. 4992
- Grasshopper control, 1969. 5411
- Pasture mosquito resistance in California. 5590
- Grasshopper control 1969. 6207
- Experiments with fattening pigs on pasture. 6426
- A study of natural pastures in Madagascar. Productivity and pratical applications. 6427
- Some observations of hypomagnesemic tetany in cattle. 6606
- Observations on crooked calf disease. 6814
- Control of pasture Aedes mosquitoes by dripping larvicides into flowing water, with notes on residues in a pasture habitat. 5486

PATANGA
- A note on the outbreak of the Bombay locust, Patanga succinctal, Cyrtacanthacrinae, Acrididae, in the Laccadive Islands during 1967. 1939

PATENTS
- Controlling soil insects with parathion-pentachlorophenol compositions. Patent 3,408,442. 78
- Chemical control of pigweed. Patent 3,408,176. 315
- Certain metal salt complexes useful for controlling helminths and improving growth in animals. Patent 3,408,444. 442
- Control of internal parasites of swine and sheep with dimethyl 2,2-dichlorovinyl phosphate. Patent 3,408,443. 444
- Mono-ethers of 2,2'-dihydroxydiphenyl sulfone and method of making the sulfone and mono-ethers. Patent 3,408,402. 547
- Carotenoid compounds. Patent 3,408,406. 552
- Process for preparing bis-(3,5,6-trichloro-2-hydroxyphenyl) methane. Patent 3,408,408. 553
- Process for producing oxytetracycline antibiotic. Patent 3,408,258. 555
- Insect resistant thermoplastic compositions. Patent 3,408,323. 556
- O,o-diisopropyl-ethylsulfinylmethyl-dithiophosphate. Patent 3,408,426. 569
- Method of controlling and eradicating mites. Patent 3,427,385. 2237
- Stabilization of animal and poultry feeds containing a tetracycline antibiotic. Patent 3,427,166. 2264
- Composition containing penicillin and dye indicator for treating udders. Patent 3,427,377. 2265
- Attenuated infectious canine hepatitis live virus vaccine and method of producing same. Patent 3,432,391. 2298
- Method of hindering the metamorphosis and reproduction of arthropodes. Patent 3,429,970. 3272
- Process of killing plants. Patent 3,416,912. 3481
- Barban for wild oat control. Patent 3,416,913. 3490
- Method for dispersing toxicants to kill disease-spreading water-spawned larva, trematodes, mollusks and similar organisms, and products used in such method. Patent 3,417,181. 3491
- Process for detecting staphylococcienterotoxin in foodstuffs Patent 3,408,259. 3646
- Process for de-toxifying substances contaminated with aflatoxin. Patent 3,429,709. 3672
- Method of defoliating and desiccating plants with substituted triphenyl phosphates and phosphites. Patent 3,416,911. 3690
- Process for upgrading malathion. Patent 3,440,305. 3719
- Method for combating undesired plant growth. Patent 3,429,688. 3720
- Defoliant compositions Patent 3,440,034. 3721
- Synergistic biocidal compositions and methods. Patent 3,417,185. 3723
- Erythromycin derivative and process for the preparation thereof. Patent 3,417,077. 3725
- Germicidal composition. Patent 3,440,319. 3727
- Controlling insects and other pests with phosphonothioates. Patent 3,428,655. 3850
- Animal food composition. Patent 3,428,457. 4159
- Prosphanilic acid derivatives. Patent 3,442,938. 4335
- Halobenzyl carbamates. Patent 3,442,892. 4336
- Process for the production of substituted triazines. Patent 3,428,636. 4337
- Emulsifiers for agricultural pesticides. Patent 3,442,818. 4338
- Phytotoxic alpha-halo-acetanilides. Patent 3,442,945. 4340
- Pesticidal uses of thiosubstituted phenols. Patent 3,443,012. 4341
- Sterilization of female mosquitoes with a hormone derived from male mosquitoes, Patent 3,450,816. 5272
- Pyridine composition and method for attracting insects. patent 3,325,355. 5330
- Simultaneously effective anti-fungal and insecticidal or acaricidal pesticides. Patent 3,450,818. 5527
- Combating bacterial and fungal plant diseases with hexachlorophene(2,2'-methylene bis-(3,4,6-trichlorophenol). Patent 3,420,936. 6134
- Use of nickel morpholine dithiocarbamate as a nematocide. Patent 3,450,817. 6287
- Halo-substituted phenoxyethyl carbamates and derivatives thereof. Patent 3,439,021. 6334
- Method for destroying undesirable plant life. Patent 3,450,520. 6375
- Improving egg quality in poultry by orally administering androgens. Patent 3,438,783. 6433
- Production of cellulase, antibiotic and antitumor substances by growing Eumyces ATCC 16425 Patent 3,438,864. 6445
- Sprayable or subcutaneously adminstrable vaccine for the immunization of mustelines against distemper and process for its preparation. Patent 3,420,934. 6454
- Monophosphoric acid esters of halogen containing 2,2'-methylenediphenols. Patent 3,439,069. 7017
- Fungicidal compositions and methods using mesomeric phosphonium compounds. Patent 3,445,570. 7329
- Complex addition products of phosphorus pentafluoride and substituted nitriles. Patent 3,438,983. 7331
- Alpha-(4-chloro-2-methylphenoxy) propionalides. Patent 3,439,018. 7332
- Tri(C8-C10 alkyl) m- and p-nitrobenzyl quaternary ammonium halides. Patent 3,446,844. 7333
- Bromination process. Patent 3,450,757. 7334
- Carotenoid compounds. Patent 3,446,801. 7335
- Zirconium compounds as algaecides. Patent 3,446,656. 7336
- Herbicidal, halogenated urea derivative. Patent 3,431,289. 7344
- Lower alkanoyl esters of polymyxin antibiotics. Patent 3,450,687. 7350
- Producing alkyllead halide. Patent 3,439,012. 7351
- Novel substituted 1,2,4-triazoles(4H). Patent 3,444,162. 7352
- Bromination process of salicylanilide. Patent 3,450,756. 7355

2,3-dihydro-1,4-dithiins as stabilizers for chlorinated hydrocarbons. Patent 3,439,051. 7356

Method for deodorizing O,O-dialkyl S-(alkylthio)alkyl phosphorodithioates. Patent 3,439,071. 7357

Substituted and unsubstituted N-lower alkyl benzhydrylcarbamates as herbicides. Patent 3,431,099. 7358

Method for control of algae growth. Patent 3,443,924. 7363

Anticoccidial composition containing 6,7-disubstitutedquinoline - 3-carboxylates. Patent 3,448,193. 7364

Phenoxythioacetic esters as desiccants. Patent 3,445.221. 7366

Spiro thiophosphates. Patent 3,445,468. 7367

N-benzoyloxymethyl benzamides and their preparation. Patent 3,439,019. 7369

Asymmetrical para-nitrophenyl phosphates. Patent 3,444,274. 7370

Organotin or mercury (carboxy hydrocarbylene amides). Patent 3,446,827. 7371

Method of controlling reproductive cycle with 6alpha - methyl - 17alpha hydroxyprogesterone 17-acetate. Patent 3,444,296. 7374

Antibiotic lambertellin and method for production. Patent 3,438,998. 7375

Dimethyl fluoride-substituted methylene bisphenol germicides and fungicides. Patent 3,341,343. 7376

Immobilizing insects by sudden reduction of body temperature. Patent 3,446,892. 7377

Killing of pests with alkyl sulfonamide phosphates and phosphonates. Patent 3,446,896. 7379

Process for destroying microorganisms in agriculture. Patent 3,444,301. 7380

Pyridine esters of cyclopropanecarboxylic acid. Patent 3,438,993. 7385

Method of facilitating harvest of mature plants. Patent 3,447,919. 7386

PATHOGENESIS

Etiology of kidney disease in dogs and cats. 2905

Malaria in mammals excluding man. 2908

Pathogenesis of foot-and-mouth disease in endocrine glands of experimentally infected goats. 3513

Studies on the pathogenesis of foot-and-mouth disease in the pancreas of goats. 3514

Pathogenesis of and recovery from respiratory syncytial and influenza infections in ferrets. 4215

Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. 1. Production and translocation of a necrosisinducing toxin. 5890

PATHOGENIC BACTERIA

Bacteriophage reactions and pathogenic spectra of Xanthomonas species to cotton. 2135

The possibilities of the application of pathogenic bacteria for the control of defoliating caterpillars (abstract). 2581

Concerning Bacillus thuringiensis and its applications. 3231

PATHOGENICITY

Studies on Sclerotium rot of mints. 1577

A rapid method for determining the pathogenicity and factors associated with pathogenicity of Phytophthora cactorum. 2123

Bacteriophage reactions and pathogenic spectra of Xanthomonas species to cotton. 2135

A laboratory assay for determining pathogenicity of Phytophthora spp. to tomato. 2169

Pythium root rot of wheat in Queensland soil. 3383

Experimental Trypanosoma cruzi infection in beagle puppies. The effect of variations in the dose and source of infecting trypanosomes and the route of inoculation on the course of the infection. 3566

The in vivo interaction of Candida albicans and Salmonella typhimurium. 3577

Studies on the pathogenicity in stephanofilarial humpsore among cattle in India. 3618

Observations of the pathogenicity of D. filaria infection and report of treatment with Dictycide -- cyanacethydrazide. 3619

Lupine, a cause of crooked calf disease. 6815

Root rot of young maize plants--the casual fungi. 7777

Survey, identification and pathogenicity tests of nematodes associated with tobacco grown in Cagayan Valley and the Ilocos Region. 7845

PATHOLOGY

Leptospirosis in pigs: Epidemiology, microbiology and pathology. 1690

Pathology of heartworm disease. 1765

Epidemiology and prevention of bacterial blight disease of rice in India. 2183

Lupinosis. 2907

Venezuelan equine encephalitis. 2927

Porcine polioencephalomyelitides. 2942

East Coast fever. 2981

Bovine Leptospira pomona infection: The disease in cattle infected during an experimental outbreak. 3537

The physio-pathology of chicken caecal coccidiosis: Experimental study of immunogenesis, action of specific antilymphocytic sera. 4809

Studies on Salmonella infection among rabbits in the U. A. R. 6479

Ergot poisoning of cattle grazing Dallisgrass. 6596

Salmonella typhimurium infection in dairy cows. 6763

PEACHES

Control of post-harvest decay and the influence of postharvest treatments on decay in clingstone-peaches. 233

Study of the interaction of growth retardants and a virus on the growth of Prunus persica line GF 305. 535

New controls for peach fungus diseases. 1589

Reduction in mortality of peach trees following preplant soil fumigation. 2103

Bacteriophage labeling of Pseudomonas syringae. 2134

Population dynamics and pathogenicity of three species of Pratylenchus on peach. 2244

The effect of pesticide application at the end of winter, on the winter eggs of Panonychus ulmi Koch. 2562

Some preliminary observations on crown gall therapy with chemicals. 2747

Gibbereilic acid and its use in fruit cultures. 3048

Oscillopolarographic determination of parathion, paraoxon, and p-nitrophenol in fortified canned peaches following thin layer chromatography. 3659

Chemical thinning of peaches. I. Effect of N-1-naphthylphthalamic acid (peach thin 322) on fruit set of Hakuho peaches. 3705

Current status on chemical thinning of peaches and pears in Michigan. 3913

This may be the year for spray thinning. 3917

Disease control in nonbearing orchards. 4699

Pruning produces perfect, pest-free peaches. 4762

Some observations and comments on stem-pitting of peach, its control and a nursery improvement program. 5782

The present and future situation of peach culture in Ferrara. 5789

Pesticide application for fruit trees at the of winter and in the spring. 5820

Botran used as an orchard spray vs. Botran in the hydrocooler and control of post-harvest decay of peaches. 5904

Peach leaf curl. 6006

The oriental fruit moth and its control. 6223

Controlling peach yellows in a peach breeding program. 6232

Calcium oxytetracycline. Notice of extension of temporary tolerance. 7117

PEANUT BUTTER

Collaborative study of a versatile procedure for assay of aflatoxins in peanut products, including preparatory separation and confirmation of identity. 1181

PEANUT MEAL

Collaborative study of a versatile procedure for assay of aflatoxins in peanut products, including preparatory separation and confirmation of identity. 1181

PEANUTS

Effect of boron toxicity on some leaf constituents in groundnut (Arachis hypogaea, Linn.) plants. 522

Diplopoda (Myriapoda) harmful to cultivated plants in the Central African Republic. Description of Haplothysanus haplothysarioides n. sp. (Odontopygidae). 1448

Relative susceptibility of three peanut cultivars to fat leg (seedling growth anomaly) caused by seed treatment with an organic mercury fungicide. 2119

Notice of filing of petitions regarding pesticide chemicals and food additives. 2396

Succinic acid 2,2-dimethylhydrazide. Notice of extension of temporary tolerance. 2405

Studies of peanut stunt virus on Trifolium species, especially Trifolium repens L. 2722

An investigation of certain factors in the host-pathogen relationship of Cercospora arachidicola on the peanut plant Arachis hypogaea var. Argentine. 2790

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 2866

Competitive effects of annual weeds on Spanish peanuts. 3471

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 3692

Persistance pattern for diuron and linuron in Norfolk and Duplin sandy loam soils. 3712

Biology of the fungus Aspergillus flavus Link and its infectivity to plants and animals. 3973

Studies on weed control in groundnut (Arachis hypoceae) - a review. 4082

Specialist advice on groundnuts. 5776

Man insects and pesticides. 5817

Verticillium wilt of groundnut in Israel: Screening for varietal resistance. 5931

Peanut pod invasion by fungi in the presence of lesion nematodes in Georgia. 5974

Effect and compatibility of nutrient sprays with insecticides and fungicides for groundnut (A. hypogea). 6063

Disulfoton as a systemic insecticide for control of adult white-fringed beetles on peanuts. 6153

Termites need no longer threaten groundnut in Nimar. 6202

Control peanut insects and diseases. 6266

Chemical weed control in groundnuts. 6374

Chemical weed control in peanut crops at Katherine, Northern Territory. 6400

Aflatoxin in the groundnut crop at harvest in Northern Nigeria. 7185

A sub-surface applicator for herbicides. 7399

Groundnuts. 7410

Ridding groundnut of red hairy caterpillar. 7837

A promising new pre-emergence herbicide for groundnut. 7853

PEARLMILLET

Sclerospora graminicola axenic culture. 1591

Effect of Sclerospora graminicola infection on total nitrogen content and free amino acid composition of Bajra plants. 3995

Ergot disease of bajra--its symptoms and control. 6100

PEARS

Fireblight: A disease we don't want. 230

Gibberellin-like substances in the transpiration stream of apple and pear trees. 1165

Venturia pirina Aderh.; pear (Pyrus communis). Ed. 2. 1644

Early stages of pathogenesis engendered by Erwinia amylovora in apple and pear tissue. 2717

Apple and pear canker. 2762

Environmental biology of Eriosoma pyricola Baker and Davidson. 2822

Current status on chemical thinning of peaches and pears in Michigan. 3913

This may be the year for spray thinning. 3917

Supplement to the Plant Protection bulletin. 3923

Comparative interactions of Erwinia carotovora and Erwinia amylovora with pear and potato tissues. 4008

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Food additives. Phosalone. 4298

Effect of seeded fruits and foliar-applied auxin on seedless fruit set of pear the following year. 4332

Diagnoses of pear decline and rootstock identification in young pear orchards. 4687

Disease control in nonbearing orchards. 4699

Biology and control of leopard moth on pear trees in the United Arab Republic. 5294

Codling moth control with carbofuran. 5547

Nursery stock, plants, and seeds. Foreign nurseries certified as producing specified disease-free material. 5803

Pesticide application for fruit trees at the of winter and in the spring. 5820

Absorption of boron by bartlett pears. 5898

Investigations on certain virus diseases on pear tree in Bulgaria. 6112

Foliar penetration of plant growth substances with special reference to binding by cuticular surfaces of pear leaves. 7230

Bacteria associated with frost-damaged apple blossoms. 7781

Pear Psylla control studies. 7826

Applications of polarography for the detection and determination of pesticides and their residues. 8004

PEAS

Influence of soil water and temperature on the pea root rot complex caused by Pythium ultimum and Fusarium solani f. sp. pisi. 2146

An approach to the study of the population dynamics of Aphanomyces euteiches in soil. 2155

The influence of a small application of manure near the seeds on the plant's resistance to infection by nematodes. 2240

Use of carbon to reduce uptake of insecticidal soil residues by crop plants. Effects of carbon on insecticide adsorption and toxicity in soils. 2419

Chickpea, a new host of Fusarium solani f. sp. pisi. 2757

Results of investigations on the susceptibility of different varieties of Pisum sativum L. to attacks of Laspeyresis nigricana Steph. (Lep., Tortricidae). 2825

Light and electron microscopy of cytoplasmic and unusual nuclear inclusion bodies evoked by a virus from necrotic peas. 3360

On the effect of herbicides on some agrophytocoenoses. 3485

Damage to seeds through storage on chemically treated wood. 3637

Modification of gamma ray mutagenic action by temperature shock. 5790

The weed vegetation of flower beds and irrigated cultivations in Cairo and some adjacent provinces. 5837

Changes in growth and metabolism of excised pea roots associated with iron deficiency. I. Changes in number of cells, nitrogenous constituents and respiration rate. 5856

Influence of soil temperature on the development of pea root rot. 5872

Metabolic activity of pea root ribosomes under conditions of boron deficiency. 5877

Crown gall: Effect of temperature on tumorigenesis in pea seedlings. 5988

Biology of Ascochyta species parasitic on pea plants. 6023

Relationship of pea mosaic virus with its vector Aphis craccivora Koch.. 6092

An observation on the influence of nitrogen fertilization on the attack of peas by powdery mildew (Erysiphe polygoni DC). 6131

Studies on the transmission of pea leaf roll virus by Myzus persicae (Sulz.). 6132

Study of certain herbicides against weeds in garden peas. 6392

Effects of indoleacetic acid on intracellular distribution of Beta-glucanase activities in the pea epicotyl. 7237

Effect of light and gibberellic acid on the growth of pea internodes. 7277

Effects of simulated radioactive fallout decay on growth and yield of cabbage, maize, peas and radish. 7298

Some observations of pea enation mosaic virus isolated in Slovakia. 7787

Transmission of pea leaf rolling virus by aphids. 7788

Difference in the transmission of pea leaf rolling virus by two strains of pea aphid Acyrthosiphon pisum Harris. 7789

Vector-virus relationship of two less known aphid vectors of pea mosaic virus. 7790

PEAT

Vertical distribution of biological activity in peat of some virgin and drained swamp types. 950

A new culture method for Rhynchosciara. 4563

Interaction of soil reaction and method of seed inoculation on alfalfa. 5781

PECANS
Notice of filing of petition regarding pesticide chemicals. 4293
Apple scab, pecan scab, and the duration of leaf wetness. 5878

PECTINASE
Isolation and a study of the mode of action of a polygalacturonase in insects (Pyrrhocoris apterus). 4482

PECTINOPHORA GOSSYPIELLA
Effects of temperature and water on viability and virulence fo Bacillus thuringiensis var. thuringiensis Berliner spores. 106
The effect of day length on geographical races of Pectinophora gossypiella (Saund.) (Lepidoptera, Gelechiidae). 1356
Pink bollworm versus the Sterile concept. 1417
Sex pheromone of the pink bollworm moth: Biological masking by its geometrical isomer. 2590
Production of fourth-instar pink bollworm larvae from sodium hypochlorite-treated and untreated eggs. 3237
Circadian clock action spectrum in a photoperiodic moth. 4465
Attack on moco cotton by pink bollworm in Ceara. 4756
Field experiments with Trichogramma brasiliensis Fland. for the possible control of the pink bollworm of cotton, Pectinophora gossypiella Saund., in Mexico. 6198
The pink bollworms of cotton, Pectinophora gossypiella Saund., in a protected northwest zone and diagnostic characteristics. 6227
All we know about pink bollworms. 6271
Effect of DDT poisoning on the longevity and fecundity of the pink bollworm. 7566
Joint action of dDT-CONTAINING insecticide mixtures against dDT-RESISTANT pink bollworms. 7645

PECTOLYTIC ENZYMES
Cellulytic and pectolytic enzymes in the nematode, Aphelenchus avenae. 6285
Pectolytic activity of phytopathogenic xanthomonads. 7808

PEDICULASTER ARCANUS
New Pyemotidae finds in Hamburg (Acarina, Pyemotidae). 2519

PEDICULUS HUMANUS
Lethal effects of synthetic juvenile hormone on the human body louse. 1726

PEDIOBIUS
Some species of Pediobius Walker (Hymenoptera, Eulophidae) inhabiting cynipid oak galls. 1864

PEDIPALPIDA
Scorpions, whip scorpions and wind scorpions of Florida. 5108

PEGOMYA BETAE
New insecticides against pests of rape and beets. 6248

PELARGONIUM
A day of study on the Pelargonium. 2761

PELECITUS
Pelecitus ceylonensis n. sp. from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 6938

PEMPHIGUS
A contribution to the study of the pemphigose of poplars and its pathogen Pamphigus spirothecae. 4035

PENETRATION
An attempt at analysing the process of penetration by soil nematodes into plants. 1624
Location and time of penetration of duodenal epithelial cells by Eimeria acervulina sporozoites. 6555

PENICILLIN
Notice of filing of petition for food additives decoquinate and procaine penicillin. 379
Tick fever in poultry. 415
Separation of penicillins by paper and thin layer chromatography. 558
Peptide antibiotics. Do they represent only a few of many yet undiscovered microbial peptides. 1832
Composition containing penicillin and dye indicator for treating udders. Patent 3,427,377. 2265
Investigations of the properties of capsulogenus strains of Staphylococcus aureus. 3596
Effects of dimetridazole and antibiotics on growth and reproduction in turkeys. 6415
Parenteral chemotherapy of ovine foot-rot. 6561
Controlling bloat in cattle grazing clover. 6578
Effects of penicillin and glycine on cell wall glycopeptides of the two varieties of Vibrio fetus. 6585
Field observations on parenteral antibiotic treatment of ovine foot-rot. 6613
Some characteristics of Staphylococcus aureus isolated from the skin and upper respiratory tract of domesticated and wild (Feral) birds. 6615
Penicillin and other inhibitory substances in milk: The development and application of a routine test in New Zealand. 7061
Contribution to the study of antibiotic substances in meats. 7141
Notice of filing of petition for food additives. 7157
Notice of withdrawal of petition for food additives dienestrol diacetate, amprolium, and penicillin. 7158
Increase in resistance to antibiotics in mastitis agents. 7213

PENICILLINS
Effect of penicillin on the composition of amino sugars in acid-soluble fraction and mucopeptides from Bacillus subtilis. 2467

PENICILLIUM
Studies on the microfungi in the forest floor of subarctic pine forests. 983
Mycotoxicoses. 2297
Influence of moisture content, temperature, and time of storage upon invasion of rough rice by storage fungi. 2380
The effect of molds on the enzymic acivity, respiration and viability of stored grain. 2381
A compilation of descriptions of new Penicillium species. 3348
Biochemistry of aflatoxins. 6846
Sensitivity of stored melon fruit fungi to gamma irradiation. 7025
Thermodynamic state of the water in healthy or infected grains of wheat. 7801

PENICILLIUM EXPANSUM
Studies with two systemic fungicides, benlate and thiabendazole. 5962

PENICILLIUM RUBRUM
How fungi infect stored grains. 261
Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine. 7869

PENTACHLOROCYCLOHEXENE
Lindane: Metabolism to a new isomer of pentachlorocyclohexene. (abstract). 5551
Lindane: Metabolism to a new isomer of pentachlorocyclohexene. 5552

PENTACHLORONITROBENZENE
Notice of amended filing of petition regarding pesticide chemicals. 1791
Enzymic browning and free tyrosine in potatoes as affected by pentachloronitrobenzene. 2188
Chemical control of stripe smut in Merion Kentucky bluegrass. 3964
Fungus diseases of cotton seedlings in Egypt. 3972
The occurrence of some previously unreported diseases of potatoes in Mexico. 5910

PENTACHLOROPHENOL
Controlling soil insects with parathion-pentachlorophenol compositions. Patent 3,408,442. 78
Isolation of microorganisms from preservative-treated wood. 1546
Annosus root-rot in slash pine plantations four years after thinning and stump treatments. 2138
Effects of foliarly applied desiccants on selected species under tropical environment. 3679
Preservative treatments and service life of fence posts in Puerto Rico. 4658
Studies of phytotoxicity in the use of herbicides for controlling annual weeds in almond orchards. 4780

PENTAFLUORIDE
Complex addition products of phosphorus pentafluoride and substituted nitriles. Patent 3,438,983. 7331

PENTALONIA NIGRONERVOSA
Studies on the population of the aphid Pentalonia nigronervosa Coq. on banana plants in Kerala. 4752

PENTANEDIONE, 2,3-
2,3- Pentanedione as an attractant for Hippelates (Diptera: Chloropidae). 5771

PENTASTOMIDA
Occurrence of nymphs of the family Linguatulidae (Pentastomida) in African hoofed animals and their paraselism. 1719

PENTATOMIDAE

Supplementary notes on the orbitalis (Westw.) group of Antestiopsis (Hemiptera, Pentatomidae). 26

Hemiptera of the State Preserve of Westhoek. Pentatomoidea. 662

Alophora obesa F. (Dipt., Tachinidae) bred from Neottiglossa pusilla Gmel. (Hem., Pentatomidae). 740

On the genus Chloropepla Stal, 1867, with a description of a new species (Hemiptera, Pentatomidae, Pentatominae). 1257

The homologies of the female genitalia in the Pentatomoidea (Hemiptera-Heteroptera). 1468

Some effects of the southern green stinkbug on soybeans. 1558

The fine structure of the cuticle. A contribution to the question of the protection against its own poison of the Madeira roach. 1971

Morphology of the head capsule of Aelia rostrata Boh. (Hemiptera: Pentatomidae). 2051

The spined citrus bug--Biprorulus bibax Bredd. (Hemiptera: Pentatomidae). 2804

The use of a Heteroptera, Pentatomidae perillus bioculatus (Fabr.) in the fight against the potato beetle Leptinotarsa decemlineata (Say): First results obtained in France. 4544

Comparison of the structure of symbiotic bacteria in various sap sucking insects. 5433

A contribution to the knowledge of the diapause in Perillus bioculatus (Fabr.) (Heteroptera, Pentatomidae). 7622

PENTHETRIA RITSUMEIKANA

A new species of Penthetria from Japan (Diptera, Bibionidae). 3769

PENTOBARBITAL SODIUM

Glycemia in dogs. 4184

PENTOSES

Boron in plants: A biochemical role. 4912

PENYAKIT MERAH

Penyakit merah disease, a virus infection of rice in Malaysia. 6085

PEPTIDES

Peptide antibiotics. Do they represent only a few of many yet undiscovered microbial peptides. 1832

Separation of the free ninhydrin-positive fractions in Phormia and Drosophila using two-dimensional high voltage electrophoresis. 1940

Effect of penicillin on the composition of amino sugars in acid-soluble fraction and mucopeptides from Bacillus subtilis. 2467

Physiologically active substance in Capsella bursapastoris. 3058

Studies on alfalfa mosaic virus. I. The protein and nucleic acid. II. The structure of the virus components. 3379

Polygene structure of insect hemaglobin. Chironomus th. thummi (Diptera). 7579

Spider venoms: biochemical aspects. 7655

PERENNIAL PLANTS

Detrimental effect of Russianthistle on semidesert range in west-central New Mexico. 940

Distribution and host range of maize dwarf mosaic virus in Virginia. 3998

Perennial bindweeds. 4074

The relationship of Johnson grass and other perennial hosts of maize dwarf mosaic virus to disease spread and control. 6108

Competition between burroweed and annual and perennial grasses for soil moisture. 6328

Weed control in turf - 1967. 6345

Selective control of hoary alyssum in alfalfa. 6355

PERICALLIA RICINI

Studies on the antifeedant against the catterpillars of Pericallia ricini F. (Arctiidae) and Spodoptera littoralis Boesd. (Noctuidae: Lepidoptera) on castor (Ricinus communis L.). 6259

PERIDERMIUM HARKNESSII

Western gall rust on jack pine nursery stock in Manitoba. 2719

PERILAMPIDAE

New Perilampidae (Hymenoptera: Chalcidoidea). 3742

PERILAMPUS PHILEMBIA

New Perilampidae (Hymenoptera: Chalcidoidea). 3742

PERILLUS BIOCULATUS

Observations on the rearing of Perillus bioculatus (Fabr.) (Heteropt. Pentatomidae), a predator of the Colorado beetle, imported from North America. 789

The use of a Heteroptera, Pentatomidae perillus bioculatus (Fabr.) in the fight against the potato beetle Leptinotarsa decemlineata (Say): First results obtained in France. 4544

A contribution to the knowledge of the diapause in Perillus bioculatus (Fabr.) (Heteroptera, Pentatomidae). 7622

PERIODATES

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Calcium periodate. 1776

PERIPLANETA

The development of the thorax muscles of Periplaneta after cutting of individual nerves. Preliminary report. 2021

PERIPLANETA AMERICANA

Effects of fumigants on the spiracles and the possible role of neurohumor on the spiracular activity of Periplaneta americana (L.). 754

Effects of malathion on the histophysiology of Malpighian tubules of Periplaneta americana (Linn.), Dictyoptera. 1925

The function of the accessory sex glands in Periplaneta americana (L.), I. A quantitative bioassay for the juvenile hormone. 1933

Action of nicotine on neural transmission in the American cockroach (Periplaneta americana (L.)). 1963

The embryonic development of the brain in paurometabolic insects. A study on Carausius morosus and Periplaneta americana. 2007

Lysozyme retention by cockroach Periplaneta americana L. 2666

The electrical activity of cockroach visceral muscle fibers. 3167

On the presence of adenotriphosphatase activity of both sodium and potassium (Na, K ATPase) in the nerve cord of Periplaneta americana. 3210

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana. 3217

Site of action of pharmacologically active compounds on the heart of Periplaneta americana L. 3247

The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress. 3788

Structure and function of the giant fibre system in the cockroach, Periplaneta americana. 3817

Salt and water transport by the in vitro cockroach midgut. 3870

The hyperglycaemic activity of the corpus allatum in an insect. 3877

Notes on the chromosomes of two species of cockroaches. 3904

The existence of inclusions which have a lamella ultrastructure in the nucleus of certain bacteriocytes in the adipose tissue of Periplaneta americana (Insecta, Blattidae). 4498

Electrical resistance of intact integument throughout the molt cycle of a cockroach. 4593

The action of extracts of parasympathetic organs and corpora cardiaca on diuresis in several insects. 5225

Modifications of the Bodian technique applied to insect nerves. 5263

Relation of eye color to molting in Periplaneta americana l. 5309

A sodium and potassium stimulated adenosine triphosphatase in the cockroach nerve cord. 5337

Chlorinated hydrocarbon insecticide inhibition of cockroach and honey bee ATPases. 5414

Ionic composition of haemolymph and nervous function in the cockroach, Periplaneta americana L. 5528

The spike-frequency in motor neurons of the cockroach Periplaneta americana L. 5595

A relationship between ionic environment and hormonal activation of phosphorylase in an insect. 5629

Cuticular water pump in insects. 5681

Studies on the transfer function of a cockroach mecanoreceptor. 7596

The pharmacology of cardioaccelerators in the central nervous system of Periplaneta americana (L.). 7609

The effect of iontophoretic injection of L-glutamic acid and gamma-amino-n-butyric acid on the miniature end-plate potentials and contractures of the coxal muscles of the cockroach Periplaneta americana L. 7625

Ionic distribution studies in haemolymph from different parts of Periplaneta americana by radioactive tracers. 7638

Adenosinetriphosphatases from thoracic muscle mitochondria of the American cockroach. 7659

Fatty acid composition of the glyceride and free fatty acid fractions of the fat body and hemolymph of the cockroach, Periplaneta americana (L.).
7663

Effects of the electrical polarization of the sixth abdominal ganglion of the cockroach (Periplaneta americana) on the activity of the giant fibers.
7675

Study of the isolated nerve fibre of insect. Record of membrane and action potentials of the giant fibre of the cockroach, Periplaneta americana L..
7676

Electrical measurements on cuticles excised from adult male Periplaneta americana (L.).
7695

PERIPLANETA BRUNNEA
VPI cockroach research.
5339

PERITONEUM
A new type in experimental intraperitoneal infection of staphylococci in mice.
414

PERITONITIS
Infectious peritonitis in cats.
2351

Magnetic probes in prophylaxis and therapy of traumatic reticuloperitonitis in cattle.
6514

PERKINSIELLA SACCHARICIDA
Polymorphism in males of the sugarcane leafhopper, Perkinsiella saccharicida.
4576

PERMEABILITY
Permeability of the cuticle to Pyrethrin II.
1404

Effect of infection by Hypomyces solani f. sp. Cucurbitae on apparent free space, cell membrane permeability, and respiration of squash hypocotyls.
1565

The fine structure of the cuticle. A contribution to the question of the protection against its own poison of the Madeira roach.
1971

On the fine structure of insect cuticle. A contribution to the question of the characteristic protection against toxins of the Hemiptera cuticle.
1972

Permeability phenomena in plant disease.
2796

Dynamics of the permeation of nematodes by water, nematocides and other substances.
3456

Insects and physiology; essays presented to Sir Vincent Wigglesworth, CBE, MD, FRS on his retirement from the Quick Chair of Biology and directorship of the Unit of Insect Physiology in the University of Cambridge.
3800

Shell quality effect on Salmonella penetration. (Abstract).
4225

Physiological responses of insects to nicotine.
4623

Changes in permeability of the mucosa during intestinal coccidiosis infections in the fowl.
6777

Retardation of the elaboration of aflatoxin in cottonseed by impermeability of the seedcoats.
7268

The permeability of protective clothing and packing materials in regard to insecticidal phosphoric acid derivatives.
7339

PERONOSPORA
Severe attacks of Peronospora on large-scale rose cultures.
3370

Some observations on the late occurrence of Peronospora on grapes in the period 1964-1966.
3966

PERONOSPORA PARASITICA
Junctions between epidermal cells as sites of appressorium formation by plant pathogenic fungi.
1578

Downy mildew of stocks.
2741

PERONOSPORA TABACINA
Comparison of chloro and thiocyanato groups as fungal toxiphores in dinitrobenzenes.
2187

Tobacco blue mould (Peronospora tabacina Adam) in north Queensland. 3. Fungicide screening and efficacy experiments.
3404

PEROSIS
Specificity of the chick's requirement for choline. (Abstract).
4221

PEROXIDASES
Peroxidase isozymes in barley leaves from irradiated seeds.
554

Study of the selectivity of herbicides for sugarbeets, using laboratory, greenhouse and physiological methods. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4785

Formation of symmetrical azo derivatives of monochlorotoluidines by peroxidatic catalysis.
7259

Histochemical and spectrophotometric demonstration of peroxidase in Moniezia expansa (Cestoda).
7934

The effect of CCC and Amo-1618 on growth, catalase, peroxidase and indoleacetic acid oxidase activity of young barley seedlings.
4908

PEROXIDES
Action of microorganisms on the peroxides and carbonyls of fresh lard.
7066

PEROXYACETYL NITRATE
Air pollution damage to chrysanthemum foliage.
2387

PERSULFATES
Copper and manganese content in different varieties of spring and winter wheat.
5783

PERTHANE
Pesticide residues.
7973

PEST CONTROL
The use of micro-organisms for the control of insect pests.
136

Forty years of pest control work.
210

Status of seed treatment for barley smut control.
240

Nematodes can be controlled.
294

Eelworms in tea: Some problems.
295

Get rid of grubs in a hurry.
435

Fly and economic evaluation of urban refuse systems. Part II.AN efficiency analysis of paper bag containers.
452

Pest control, education, and the New Breed.
577

Comments on population dynamics of exotic insects.
714

Activities of the working groups. Working group population dynamics of the Colorado beetle.
734

Activities of the working groups. Working group San Jose louse .
735

1966 plant inspection statistics.
944

A guide to the use of pesticides for the control of agricultural pests.
952

The crow mass trap, a possibility for the reduction of the carrion crow population (Corvus corone corune).
1042

Introduction of foreign diseases must be prevented.
1053

Rabbit destruction present and future.
1061

Eradication of cattle tick (Boophilus microplus) from Magnetic Island, Queensland, in the presence of native fauna.
1121

Micro-encapsulation-A method for increasing specificity and controlling persistence of pesticides.
1188

Possible new and more selective means of pest control.
1392

Developments in the control of tea pests.
1580

Internal parasitism of dairy cattle.
1733

Effect of radiofrequency electric field treatment on protein metabolism in yellow mealworm larvae.
1993

Bats in California.
2357

Campaign against stored grain pests in villages of IADP District Ludhiana.
2382

When algae are a nuisance.
2853

Sheep disease problems associated with high density stocking.
2878

Liver fluke in the north of Scotland.
3002

The conservation of viruses and entomopathogenous bacteria in tablet form.
3297

Concerning the interrelationship between soil pests, weeds and their control.
3661

The use of attractants in pest control. 2. Sex attractants.
3848

Stretch your pest control dollars.
3922

Termite control in rubber plantations.
4521

Preservative treatments and service life of fence posts in Puerto Rico.
4658

Annual report of the Department of Agriculture for the year 1962/63. (II).
4665

Disinfection and disinfestation of the soil. Proceedings of the international Congress on Plant Disease. Sanremo, 1-4 December 1966.
4725

Pest-management concepts and control of tick paralysis in British Columbia.
4849

Bulk wheat pests can be controlled by simple precautions.
4866

A synopsis of the pesticide problem.
4899

Some problems of method and content in working-up a forecast -demonstrated on the example of the plant protection- and pesticide manufacturing industry.
4957

Unique problems in insect and pest control of NASA's Mississippi Test Facility.
5755

Pest control as an occupation, formerly and now. II. 5808

Soya beans - practical aspects. 5830

Forest disease control in California; July 1, 1966 to June 30, 1967. aSB761.A3. 6117

Regulation in connection with field and greenhouse culture of nursery plants. 6284

Injury to Heterodera tabacum by high soil temperatures. 6299

'miracle' tree is in trouble. 6301

The biology and control of the rice field mole rat of Ceylon, Gonomys cracilis (Nehring). 6405

All must pull their weight in pest control. 6409

A new method of rat control in coconuts. 6412

Control of sparrows on poultry farms. 6443

Pesticide safety: Plain ol' good judgement. 7193

Pest control with helicopter and biplane. 7391

Theoretical and practical aspects of room spraying. 7401

Pest control's 1969 directory of pesticides. 7403

Many problems in teaching pest control to Indonesians. 7418

Pest control: Advise and consent. 7424

PEST CONTROL OPERATORS

NPCA conference speakers hit PCO pricing methods. 4949

1969-Pest Control's economic forecast. 4951

Our struggle against pests. 4960

PESTALOTIA

A new species of Pestalotia on the leaves of Phoenix rupicola Ander. 2721

PESTICIDE ANALYSIS

Note on the evaluation of the efficacy of rodenticides. 7044

Organophosphorus pesticides. A gas chromatographic screening technique based on the detection of methylated hydrolysis products. 7326

Insecticide exposure: A sensitive procedure for urinary p-nitrophenol determination as a measure of exposure to parathion. 7962

Gas chromatographic characteristics of chlordane. II. Observed compositional changes of the pesticide in aqueous and non-aqueous environments. 8000

PESTICIDE APPLICATION

Recommendations for chemical treatment of diseases of Hevea. 250

Chemical weed control. 301

Weed control for the home garden. 306

Control of Dalmatian toadflax. 320

Factors influencing the selectivity of herbicides. 500

Safe use of pesticides. 506

Farmers' expenditures for custom pesticide service in 1964. 574

Pest control, education, and the New Breed. 577

A guide to the use of pesticides for the control of agricultural pests. 952

What are pesticides . 1159

Pressurised soil fumigation equipment for control of eelworm. 1194

Research note no.5: Pack sprayer for research plots. 1195

Small doses of D-D soil fumigant to control free-living nematodes injurious to sugar beet. 1630

Galveston Bay pesticide study- water and oyster samples analyzed for pesticide residues following mosquito control program. 1786

Contribution to the application method for fungicides to control potato blight. 2128

Omega, a useful index of soil sorption equilibria. 2464

The possibility of the use of some biological analytical techniques for the control of the safety periods of pesticides. 2694

Moisture loss after application of soil fumigants. 2697

Alternating sprays cuts resistance. 3342

Method for dispersing toxicants to kill disease-spreading water-spawned larva, trematodes, mollusks and similar organisms, and products used in such method. Patent 3,417,181. 3491

Response of woody species to 2,4-D, 2,4,5-T, and picloram as a function of treatment method. 3684

Tifton ultra-low-volume nozzle tip. 3729

Ain't nuthin' as good as it used to be . 3730

Some cost figures for concentrate sprays. 3732

Behavior studies on the use of agricultural chemicals. 3733

Controlling household pests. 3790

New chemicals look good for weed control in Michigan orchards. 3994

The development of chemical weed control in ornamental plants in fields. 4063

What you should know about concentrate spraying. 4342

DPA for scald control. 4715

Spider mites on cotton; how to control them. 4737

Drench your trees against San Jose scale. 4738

Investigation of effects of large-scale applications of 2,4-D on aquatic fauna and water quality. 4888

A synopsis of the pesticide problem. 4899

For a better and more profitable technique in the application of soil fumigants. 4946

The practical use of aerial application. 4958

Bombs away on bugs. 5194

The question of resistance to pesticides. 5207

Method of killing pests by application of an O,Odiloweralkyl phosphorodithioyl methyl-substituted mercaptoacetate. Patent 3,433,870. 5345

Insects and related pests of house plants; how to control them. 5395

Rational pesticide application. 5614

Fruit growing note of the season. 5778

1969 fruit spraying calendar, for commercial fruit growers. 5804

Pesticide application for fruit trees at the of winter and in the spring. 5820

Arsenal for disease control. 5864

Fungicides for gladiolus corms. 6002

Peach leaf curl. 6006

Investigation of means for the chemical control of basal rot (Phytophthora capsici Leon.) of pepper. 6010

Control of vegetable insects and diseases. 6017

A guide to the use of pesticides for the control of agricultural pests. 6240

1969, strawberry insect and disease control. 6247

Fruit spray program for the home orchardist. 6257

Application of herbicides in pulse crops. 6339

Effects of methods of placement on performance of trifluralin, CDEC, and DCPA applied to soil. 6364

Cultural and chemical weed control in field crops, 1969. 6365

Broadleaf weed control in rice. 6370

Controlling weeds in turf. 6387

Herbicidal treatment effect on carbohydrate levels of alligatorweed. 6397

Soil factors contributing to atrazine carryover. 7084

Herbicide toxicity. 7155

Effects of organic arsenical herbicides on cotton response and chemical residues. 7222

Juice quality of grapefruit following June versus September applications of a 412 paraffinic petroleum oil with data on control of certain pests. 7238

The effect of the application of herbicides in the control of weeds in corn fields. 7272

Chemistry of pesticides. (JPRS 47038) 7360

New equipment answer to demand for improved herbicide product. 7387

Spray nozzles must be recalibrated at regular intervals. 7390

Pest control with helicopter and biplane. 7391

The microfoil boom. 7394

Pressurised soil fumigation equipment for control of eelworm. 7397

Air blast sprayer covers 24 rows. 7400

Production and sales of pesticides show increase. 7409

Application of pesticides to tobacco seed-beds. 8016

PESTICIDE RESIDUES

Pesticides and perspective. 472

Excretion and storage of dieldrin in dairy cows fed thyroprotein and different levels of energy. 473

Pesticide residue levels in foods in the United States from July 1, 1963, to June 30 1967. 475

Rapid cleanup for carbaryl, using channel layer chromatography. 476

Findings concerning nourishment and toxic residues in plants, other health hazards and life threats. 478

Dieldrin residue in an orchard-dairy area of Wisconsin. 481

Official FDA tolerances. 482

Effect of DDT on temperature selection by young atlantic salmon, Salmon solar. (Abstract). 484

Collaborative study of the thin layer chromatographic method for carbaryl residues in apples and spinach. 486

Residues of parathion and methylparathion in potato tubers and in the soil, following soil treatments. 487

Isolation and determination of chlorohydrins in foods fumigated with ethylene oxide or with propylene oxide. 489

Extraction and cleanup procedure for the determination of organo-thiophosphate pesticide residues in vegetables and fruits by thin layer chromatography and gas liquid chromatography. 491

Establishment of tolerances for pesticide residues. 493

Improved GLC method for s-triazine residue determination. 498

Factors influencing the selectivity of herbicides. 500

The use of organic tin compounds fungicides in agriculture, looked at from the toxicological point of view. 509

Guide to the analysis of pesticide residues. 546

Monitoring the environment. 548

A guide to the use of pesticides for the control of agricultural pests. 952

Distribution of radioactivity in milk resulting from oral administration of 14C-labeled carbaryl. 1137

Caution with chemicals. 1138

Responsibilities and organisation of toxicology in veterinary medicine. 1141

Studies of losses of pesticides during sample preparation. 1142

Determination of sec-Butylamine residues in fruit. 1144

The present state of the knowledge concerning the influence of fungicides on the fermentation of grape juices. 1145

Thin layer chromatography identification of pesticides using dip-coated presensitized microscope slides. 1146

On the behavior of pesticide residues during the preparation and processing of foods. 1st. Communication. The behavior of radioactive labelled lindane during the baking process. 1150

Estimation of chlorinated pesticide residues in animal and vegetable oils. 1151

The toxicological effect on animals of mixtures of chlorophos and DDT. 1156

The feasibility of mass spectrometric methods in residue analysis. 1185

Micro-encapsulation-A method for increasing specificity and controlling persistence of pesticides. 1188

Statistical inestigations of the accuracy of gas-chromatographic residue analysis. (Sources of error of the GCstandards). 1193

Reflections on regulations-certain aspects in the official control of pesticides in various countries. 1200

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Oleandomycin. 1679

Galveston Bay pesticide study- water and oyster samples analyzed for pesticide residues following mosquito control program. 1786

Residues in food and feed. Pesticide residues in total diet samples (II). 1788

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Dimethoate. 1789

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethoate. 1790

Notice of amended filing of petition regarding pesticide chemicals. 1791

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 2-Chloro-1- (2,4,5-trichlorophenyl) vinyl dimethyl phosphate. 1792

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 3-(p-Bromophenyl)-1-methoxy-1-methylurea. 1793

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Atrazine. 1794

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Simazine. 1795

Chlorinated hydrocarbon pesticide residues in or on alfalfa grown in soil with a previous history of aldrin and heptachlor application. 1797

Oxidative metabolism of phosphamidon in rats and a goat. 2388

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Miscellaneous amendments. 2389

Notice of filing of petition regarding pesticide chemicals. 2391

Notice of filing of petition regarding pesticide chemicals. 2392

Notice of filing of petition regarding pesticide chemicals. 2393

Notice of withdrawal of petition regarding pesticides. 2394

Notice of filing of petition regarding pesticide chemicals. 2395

Notice of filing of petitions regarding pesticide chemicals and food additives. 2396

Biochemical transformations of pesticides by soil micro-organisms. 2397

Removal of DDT, malathion, and carbaryl from tomatoes by commercial and home preparative methods. 2398

Bromide residues from methyl bromide fumigation of food commodities. 2399

Thin-layer chromatography of bromacil residues in soils. 2401

Residues in pasture following application of a granular heptachlor preparation. 2403

Effects of isobenzan on soil fauna and soil structure. 2404

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Coordination product of zinc ion and maneb. 2406

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Endosulfan. 2408

Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Thiabendazole. 2409

Notice of filing of petition regarding pesticide chemicals. 2410

Notice of filing of petition regarding pesticide chemicals. 2411

Notice of filing of petition regarding pesticide chemicals. 2412

Notice of filing of petition regarding pesticide chemicals. 2413

Notice of filing of petition regarding pesticide chemicals. 2414

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Diphenamid. 2415

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O-ethyl S-phenyl ethylphosphonodithioate. 2416

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Thiram. 2417

Behavior of DDT in potatoes during commercial and home preparation. 2418

Use of carbon to reduce uptake of insecticidal soil residues by crop plants. Effects of carbon on insecticide adsorption and toxicity in soils. 2419

PESTICIDE RESIDUES

Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination. 2421

Residues of organochlorine insecticides in dead birds in the United Kingdom. 2422

Effect of soil systemic insecticides on flavor and residue in coffee. 2423

Improved method for determination of sulfonamides in milk and tissues. 2425

Procedure for semi-quantitative confirmation of some organophosphorus pesticide residues in plant extracts. 2426

The use of Drosophila melanogaster Meig., Calandra oryzae L. and Tribolium confusum Duv. for the detection of pesticides and for the evaluation of some extractive techniques. 2547

Beekeeping methods in North America. 2664

Birds and plant protection-a reply. 2700

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Endosulfan. 3015

Drug residues, synergism and antagonism. 3017

Biological methods for the detection of pesticide residues. 3018

Commercial aspects of pesticide residues in foodstuff. 3025

PHASE-CONTRAST MICROSCOPY
Investigations of the properties of capsulogenus strains of Staphylococcus aureus. 3596
Cytochemical studies on the neurosecretory cells of the brain of Labidura riparia Pallas (Dermaptera). 5611

PHASMATIDAE
A remarkable teratological specimen of the Indian stick insect Carausius morosus Br. (Phasmidae, Orthoptera). 1449
Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 5529

PHASMATODEA
Notes on the biology of some Australian stick insects (Phasmatodea). 3164
Observations on the ultrastructure of the parasympathetic organs of the phasmids. 4585

PHAULACRIDIUM VITTATUM
Control of grasshoppers (Phaulacridium vittatum) by ultra-low volume aerial application of technical maldison. 5253

PHEASANTS
Dieldrin effects in two generations of penned hen pheasants. 502

PHEIDOLE
New species of Pheidole from Pacific Coast Islands (Hymenoptera: Formicidae). 5050

PHEIDOLE MEGACEPHALA
Rates of competitive exclusion by the Argentine ant in Bermuda. 5274

PHEMIGOSTOLA SYNEMONISTIS
Discovery of the female of Phemigostola synemonistis Strand, 1909 (Lep. Agaristidae). 716

PHENACASPIS PINIFOLIAE
Control of some pests of evergreens. 6162

PHENANTHRENES
3,6,9,10-tetrahalogenphenanthrene. A new cycliarylation reaction of DDT derivatives. 1191

PHENOL COMPOUNDS
Effect of soil temperature and necrosis infection on the content of phenolic substances in potato tubers. 1809
An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818
Phenolic substances and oxidases in connection with the resistance of barley to the powdery mildew (Erysiphe graminis f. sp. hordei Marchal). 2736
Koagamin veterinary parenteral hemostat. Drugs for veterinary use - drug efficacy study implementation. 2879
Morphological transformations and lysis of Halobacterium salinarium by 4-(2,4-dichlorophenoxy)butyric acid and related compounds. 6377
A hemagglutination-inhibition test for Mycoplasma meleagridis antibodies. 6787

PHENOLASES
Resistance mechanisms against onion pink root (Pyrenochaeta terrestris), bioassay of inoculum potential in soil and chemical control. 2174
Tyrosinase activity of the symbionts and fat bodies of the cockroach, Leucophaea maderae. 3208
The effect of carbamide and thiocarbamide on the resistance of apple to apple scab. 3375
The effect of rootstocks on the transformation of some factors of the physiological immunity in leaves of mildew-susceptible grape varieties. 4717
Relation between black spot and composition of the potato tuber. 7312
Influence of temperature on polyphenol oxidase activity in three species of Heterodera. 7846
Phenol metabolism in relation to disease resistance of potato tuber. I. Activities of phenol oxidase and some enzymes related to glycolysis as affected by chlorogenic acid treatment. 7998

PHENOLS
Nitrogenous and phenolic compounds of Nicotiana plants. II. Selective incorporation of aromatic amino acids in phenolic compounds of tumorous Nicotiana hybrids. 953
Mechanism of resistance of carrot roots to Pythium aphanidermatum (Eds.) Fitz. 2126
The accumulation of phenolic acids in tissue culture pathogen combinations of Solanum tuberosum and Phytophthora infestans. 2780
Studies of an insect mycosis. I. Histopathology of the integument of the infected queen of the mound-building termite Odontotermes obesus. 3273
Emulsifiers for agricultural pesticides. Patent 3,442,818. 4338
On the role of the phenol constituents in the course of infection of the cacaopods of Theobroma cacao L. by Phytophthora palmivora Butl.. 4709
Some pathological effects of sub-acute and acute poisoning of rainbow trout by phenol in hard water. 4898
Boron in plants: A biochemical role. 4912
Effects of chemical preservatives and storage on constituents used to characterize lemon juice. 4940
2,4-D metabolism. Enzymatic hydroxylation of chlorinated phenols. 5784
Phenol metabolism in relation to disease resistance of potato tuber. II. Exponential equation relating levels of phenols or phenolic enzymes to distance from locus of injury of plant tissue. 7997

PHENOTHIAZINE
Strain variation in the response of Haemonchus contortus in sheep and goats given phenothiazine: Efficacy of N.F. and purified products on pure parasitic infections. 439
Vermex poultry tablets and vermex powder. Drugs for veterinary use - drug efficacy study implementation. 2372
Strain variation in the response of Haemonchus contortus in sheep and goats given phenothiazine: Efficacy of N. F. and purified products on pure parasitic infections. 6527
The efficiency of copper sulphate, phenothiazine and sodium chloride mixture against sheep helminthoses. 7005

PHENOXIDES
Halo-substituted phenoxyethyl carbamates and derivatives thereof. Patent 3,439,021. 6334

PHENOXY ACID COMPOUNDS
Defoliation effects on forest ecology. 4062
Ragwort. 4073
Perennial bindweeds. 4074
Defoliation effects on forest ecology. 4080
Reduction of preharvest drop and water spot of navel oranges in Southern California. 4331
Response of mixed crop of wheat and rape to three chlorophenoxy herbicides. 4777

Finesse in weed control. 4778

Studies of phytotoxicity in the use of herbicides for controlling annual weeds in almond orchards. 4780

Weeds and their control. 4782

Investigation of effects of large-scale applications of 2,4-D on aquatic fauna and water quality. 4888

Range recovery and production as influenced by nitrogen and 2,4-D treatments. 5826

Herbicide action on Fusarium graminearum Schw. 5831

Herbicide selectivity. 6317

Chemical growth inhibition in turf. 6349

Broadleaf weed control in rice. 6370

Weed control in nursery sod. 6371

Weeds in barley and their control. 6381

Alligatorweed found in Arkansas. 6384

Controlling weeds in turf. 6387

Chemical weed control in sweet potatoes. 6396

Effect of range treatment with 2,4-D on rodent population. 6408

Locoweed poisoning. 6581

Interaction of pesticides with natural organic material. 7081

Industrial fertilizers as herbicides seen in the light of new and old experiments. 7102

Translocation of labeled assimilates into and out of bean leaves as affected by 2,4-D and benzyl adenine. 7262

Penetration of chlorinated phenoxyacetic and benzoic acids into leaves. 7289

Response of flax to postemergence herbicides. 7314

PHENOXYACETIC ACID

2,4-D metabolism. Enzymatic hydroxylation of chlorinated phenols. 5784

2,4-D metabolism; enzymatic degradation of chlorocatechols. 5785

PHENOXYACETIC ACID COMPOUNDS

Phenoxythioacetic esters as desiccants. Patent 3,445,221. 7366

PHENTHOATE

Initial and residual activity of Cidial (Phenthoate) against mosquitoes as compared with that of other well-known products. 1542

Simplifications in the control of the phytophaga of olives. 2800

PHENYL N-METHYLCARBAMATES

Substituted phenyl-N-methylcarbamates. Cholinesterasis inhibition and insecticidal action. 7382

PHENYLALANINE

The influence of high level of L-phenylalanine on chicks hatched from pullets fed same level of L-phenylalanine. (Abstract). 4246

PHENYLHYDRAZINE

The effects of a single massive dose of phenylhydrazine on different hematological traits of chickens. (Abstract). 4104

PHENYLMERCURIC COMPOUNDS

A field comparison of fungicides as medium volume sprays on apples. 7795

PHENYLUREA COMPOUNDS

Specific detection of urea herbicide residues by separation of their amines on cellulose thin-layer plates. 7963

PHERMONES

Attraction of female boll weevils to traps baited with males or extracts of males. 1945

Studies on the attack behavior of the southern pine beetle. I.THE spreading and collapse of outbreaks. 5942

PHEROMONES

Reproductive behavior and social organization in the Coleoptera. 916

Spectrometric identification of insect sex attractants. 1475

Biological factors influencing responses of the female boll weevil to the male sex pheromone in field and large-cage tests. 1978

Field and laboratory studies of attraction of the synthetic sex pheromone to male cabbage looper moths. 1986

Isolation of a sex pheromone of the codling moth. 2013

Artificial sex pheromones for the codling moth. 2014

Isolation of the population aggregating pheromone of the southern pine bettle. 2033

Insect and host factors in the aggregation of the southern pine beetle. 2065

Male boll weevils are more attractive than cotton plants to boll weevils. 2217

Sex pheromone of the pink bollworm moth: Biological masking by its geometrical isomer. 2590

Pheromones from the abdominal brushes of male noctuid Lepidoptera. 3154

A quantitative bioassay for the sex pheromone of Epiphyas postvittana (Lepidoptera) and factors limiting male responsiveness. 3161

A polyethylene bag for dispersing the synthetic sex pheromone of the cabbage looper. 3292

Studies on sex pheromones of Pyralididae. Changes in the quality of the sex pheromone in the female almond moth, Cadra cautella Walker (Phycitinae). 3841

The use of attractants in pest control. 2. Sex attractants. 3848

Specificity of population-aggregating pheromones in Dendroctonus. 3863

Studies on sex pheromones of pyralididae. II. Mass rearing of virgin females of the almond moth, Cadra cautella Walker (Phycitinae). 3880

Specificity in insecticides. 4507

Response of some stored-product insects to Trogoderma granarium pheromones. 4625

Western pine beetle: Field response to its sex pheromone and a synergistic host terpene, myrcene. 5217

Airborne factor affecting the grouping behaviour of locusts. 5328

The alarm-defence system of the ant Acanthomyops claviger. 5553

Sex pheromones of noctuid moths. XIII. Changes in pheromone quantity, as related to reproductive age and mating history, in females of seven species of Noctuidae (Lepidoptera). 5603

Studies of physiologically active arthropod secretions. II. Some observations on the scent pencils of male Vitula edmandsae (Lepidoptera: Phycitidae). 5670

PHILAENUS SPUMARIUS

The accumulation of ferritin in the nuclei and cytoplasm of certain mesenteron cells in old Homoptera Cercopidae. 4500

Control of insects on alfalfa and red clover. 6185

PHILODROMUS

The Imbecillus and Rufus groups of the spider genus Philodromus in North America. (Araneida: Thomisidae). 5020

PHILONICUS

Diptera larvae in soil treated with organic and mineral fertilizers. (I). Family Asilidae-Diptera-Brachycera. 5541

PHILOPTERIDAE

A new species of Otidoecus. (Philopteridae, Mallophaga). 1873

PHLAEOTHRIPIDAE

New records of South African Thysanoptera with description of a new Phlaeothripid genus. 4446

PHLEBOTOMUS

Age structure, population dynamics and vector potential of Phlebotomus in Northern California. I. Distinguishing parous from nulliparous flies. 765

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). 4. Investigation of alimentary preference of the females of P. townsendi in nature. 1102

Rancho Grande (Venezuela). 2. Microhabitats of. 4595

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). 3. Bionomical notes on Phlebotomus townsendi Ortiz, 1959 and P. vexillarius Fairchild Heritig, 1952. 4596

Features of microclimatic regimen of habitats of sandflies in a village of Karshinsky Oasis. 5329

Aggressiveness of different species of sandflies towards man and their infection rate with L. tropica major at the moment of blood-sucking. 5694

PHLOEM

Trophic symbiosis between forest ants and plant lice with studies on the reciprocal effects between plant lice and plant tissues. 824

A rapid method for determining the pathogenicity and factors associated with pathogenicity of Phytophthora cactorum. 2123

Investigation of the effect of governing chemical compounds in trees on bark beetle orientation. 2593

The mechanisms by which Blastophagus piniperda L. (Col., Scolytidae) reacts to the odour of an attractant fraction isolated from pine phloem. 2634

Diagnoses of pear decline and rootstock identification in young pear orchards. 4687

Relation of beet yellows virus to the phloem and to movement in the sieve tube. 5923

PHLOEOTRIBUS
The damage brought about by Phloeotribus. 1006

PHLOMIS
Cynipinae (Hymenoptera) occurring on Phlomis L. 5128

PHLYCTAENA GOSSYPII
Contribution to the study of a parasitic complex which attaches itself to the exposed parts of cotton plants and causes their withering. 4712

PHOMA
Contribution to the study of a parasitic complex which attaches itself to the exposed parts of cotton plants and causes their withering. 4712

Effects of insecticides on insects and pathogenic fungi associated with alsike clover roots. 5815

Phoma destructiva, its variability, host range and varietal reaction of tomatoes. 5869

PHOMA BETAE
Physiological studies on Phoma betae Frank and Rhizoctonia solani(Prill and Delacr.) Bourd and Galz which cause damping-off and root diseases of sugar beet in Egypt. 5867

PHOMA EXIGUA
Potato gangrene. 3392

Phoma exigua Desm. and its varieties. 3945

PHORATE
Notice of filing of petition regarding pesticide chemicals. 2390

Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination. 2421

Effect of soil systemic insecticides on flavor and residue in coffee. 2423

An accurate and safe hand-operated, vehicle-mounted applicator for granular insecticides in seed orchards. 2469

Absorption, translocation, and distribution of phorate in loblolly pine seedlings. 3454

Experiments to control acorn weevils with systemic insecticides. dorsey, c k. 6142

Study of the control of Antonina graminis (Maskell)--curse of hay (Digitaria pentzii) with granular systemic insecticides. 6175

Herbicides in cotton and their compatibility with soil-applied insecticides. 6388

PHORESY
An unusual instance of phoresy in Acarina. 581

The evolution and significance of the epizoic mode of life in Chironomidae-larvae (Diptera). 7706

Observations on phoresy in Lamprochernes nodosus (Schrank). 7721

PHORIDAE
Infestation of emulsion paint by the fly Megaselia scalaris (Loew) (Dipt., Phoridae). 126

Miscellaneous studies on Phorid flies. III. 1219

PHORMIA
Free amino acids and derivitives in eggs of Drosophila, Culex and Phormia. 768

PHORMIA REGINA
The fate of spores of Nosema apis Zander ingested by muscoid flies. 111

Electrophysiological responses of the chemoreceptors of the blowfly to sodium salts of fatty acids. 780

Separation of the free ninhydrin-positive fractions in Phormia and Drosophila using two-dimensional high voltage electrophoresis. 1940

Fructose diphosphate aldolase during growth and development of the blowfly, Phorma regina (Meigen). 3162

Dietary choline requirements, phospholipids and development in Phormia regina. 4511

Trehalose regulation of gucose-6-phosphate hydrolysis in blowfly extracts. 5317

Long-term regulation of sugar intake by the blowfly. 5322

An octosporeosis of the black blowfly Phormia regina: Effect of temperature on the longevity of diseased adults. 5419

A comparison of the carbohydrate composition of the hemolymph and fat body of Phormia regina during larval development. 7718

PHOSALONE
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Food additives. Phosalone. 4298

PHOSFON
Effect of gibberellic acid and Phosfon on the critical dark period requirement for flowering of Impatiens balsamina cv. Rose. 1172

Influence of retardants on the growth and flowering of plants. 7231

PHOSPHAGEN
The identification and determination of phosphagen in insects and their eggs. 7601

PHOSPHAMIDON
Potentiation of toxicology of sumithion by phosphamidon in the rat. (abstract). 505

Preliminary results in the chemical control of the white louse, Unaspis citri Comst., on citrus. 1610

Oxidative metabolism of phosphamidon in rats and a goat. 2388

A test of the immediate and residual efficacy of some phosphorous esters against the larvae of the olive fruit fly (Dacus oleae Gmelin). 2605

Bioecology and chemical control of the apple codling moth (Carpocapsa pomonella) L. in Mendoza. 3436

Spraying in mustard is a must. 5258

Effects on aquatic insects of forest spraying with phosphamidon in New Brunswick. 5336

Observations on various treatments applied in Lebanon in 1966 against Ceratitis capitata Wied. 5392

The problem of leaf hoppers on paddy. 6252

PHOSPHATASES
Determination of the molecular weight of proteins, esterases, and basic phosphomonoesterases in the hemolymph of Galleria mellonella L. prepupa and pupa using a thinlayer chromatography. 2604

Esterase and phosphatase polymorphism in natural population of wild silkworm, Theophila mandarina L. 4626

PHOSPHATES
Control of internal parasites of swine and sheep with dimethyl 2,2-dichlorovinyl phosphate. Patent 3,408,443. 444

Control tests against Dacus oleae Gmel. in the coastal region of Tuscany during 1965. 1960

Crop response to applied zinc in ammoniated phosphate fertilizers. 2455

Carbamyl phosphate synthetase in the chick. 3502

Method of defoliating and desiccating plants with substituted triphenyl phosphates and phosphites. Patent 3,416,911. 3690

Factors affecting the oxidation of glycerol-1-phosphate by insect flight-muscle mitochondria. 3815

Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control. 4722

Phosphate distribution in healthy and TMV infected tomato plants. 6052

Corn lodging. I. Relations between soluble solids, inorganic phosphates and basal stalk and root rots in mature plants. 6066

Arsenic and low phosphate soils. 6360

Antifungal action of a phosphate ester pesticide, O-Mchlorophenyl O,O-dimethyl phosphorothioate, used in nutrient media for fungi. (abstract). 7175

Asymmetrical para-nitrophenyl phosphates. Patent 3,444,274. 7370

Killing of pests with alkyl sulfonamide phosphates and phosphonates. Patent 3,446,896. 7379

Some observations on tobacco yellow dwarf control. 6033

PHOSPHATIDYLETHANOLAMINE
Fatty acid composition of phosphatidyl ethanolamine of Mycobacterium tuberculosis. 4939

PHOSPHINE
Phosphine: A versatile fumigant. 882

Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230

Susceptibility of eggs and young adults of Cryptolestes ferrugineus and C. turcicus to hydrogen phosphide. 3160

Proton magnetic resonance spectra of some phenyl-phosphorus compounds. 4931

Studies on the effectiveness of fox den fumigation for rabies control in the district of Wolgast. 6696

PHOSPHITES
Method of defoliating and desiccating plants with substituted triphenyl phosphates and phosphites. Patent 3,416,911. 3690

PHOSPHOADENOSINE-5'-PHOSPHOSULPHATE, 3'
Studies on enzyme synthesis of cerebroside sulphate from 3'-phosphoadenosine-5'-phosphosulphate. 4788

PHOSPHOLIPASE
Studies on the phospholipase A in larvae of Culex pipiens fatigans. 3265
Phospholipase A in the venom of the Australian bulldog ant Myrmecia pyriformis. 7180
Phospholipase activity in Musca domestica L.. 7627

PHOSPHOLIPIDS
Lipids of Salmonella typhimurium and Escherichia coli: Structure and metabolism. 1648
Phospholipid metabolism during changes in the proportions of membrane-bound respiratory pigments in Haemophilus parainfluenzae. 1710
Composition of the gut contents of third-instar tsetse larvae (Glossina morsitans Westwood). 4478
Dietary choline requirements, phospholipids and development in Phormia regina. 4511

PHOSPHONATES
Killing of pests with alkyl sulfonamide phosphates and phosphonates. Patent 3,446,896. 7379

PHOSPHONIC ACIDS
Prosphanilic acid derivatives. Patent 3,442,938. 4335

PHOSPHONOTHIOATES
Controlling insects and other pests with phosphonothioates. Patent 3,428,655. 3850

PHOSPHORIC ACID
The permeability of protective clothing and packing materials in regard to insecticidal phosphoric acid derivatives. 7339

PHOSPHORIC ACID ESTERS
Can one reconcile the control of San Jose scale (Quadraspidiotus perniciosus Comst.) with the fight against the carpocapsa (Carpocapsa pomonella L.) . 125
Two types of carboxyesterase degrading malathion in resistant houseflies and their inhibition by synergists. 3859
Monophosphoric acid esters of halogen containing 2,2'-methylenediphenols. Patent 3,439,069. 7017
Tolerance of sheep with regard to a new phosphoric ester: Chlorfenvinphos. 7167
The chemistry of GS 13005, a new insecticidal phosphoric acid ester. 7368

PHOSPHORIC TRIAMIDE
Sterilizing effect of a phosphoramide on Culex fatigans Weid. 5530

PHOSPHORIC TRIAMIDE DERIVATIVES
Phosphoric triamide derivatives as herbicides. Patent 3,433,623. 6323

PHOSPHORUS
Tempting the soybean's erratic appetite. 228
The importance of the isotope dilution in the study of the renewal of phosphorus during-larval growth of Plodia interpunctella. 775
Properties and uses of poisonous chemicals. (JPRS 41,364) transl. 16680. 1179
Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination. 2421
Effect of soil systemic insecticides on flavor and residue in coffee. 2423
Response of cotton plant to certain combinations of fertilizers and Metaisosystox. 2447
Effects of diets low in calcium and/or phosphorus in lambs. 2903
Studies on the blood chemistry of cattle in a herd infected with Johne's disease. 2930
Chemical control of an organophosphorus- and carbamateresistant strain of Boophilus microplus (Can.) from Queensland. 3271
Genetical investigations on a strain of house-flies resistant to organophosphorus and carbamates. 3325
A note on the natural incidence of sesamum phyllody virus in Brassica Spp. at Ludhiana. 3357
Collaborative study of the ethyl acetate extraction, sweep co-distillation cleanup, and GLC determination, using six parent organophosphate pesticides. 3667
Collaborative study of three gas chromatographic dual detection systems for analysis of multiple chlorinated and organophosphorus pesticides. 3668
Regulations for the enforcement of the federal insecticide, fungicide, and rodenticide act. Pesticides containing phosphorus paste. 3737
Controlling insects and other pests with phosphonothioates. Patent 3,428,655. 3850
Are fertilizer programs related to fireblight and fruit disorders at harvest . 3933
The determination of the amount of diazinon residues in foodstuff by means of labeled diazinon. (Summary). 4877
Imidazole: Fungitoxic derivatives. 4902
Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil. 5880
The response to phosphorus of some ecologically distinct plant species. I. Growth rates and phosphorus absorption. 6058
Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis. 6646
A histologic study of medullary bone of laying hens under different diet and housing conditions. 6789
Role of calcium in the nutritional etiology of a metabolic disorder in ruminants fed a high grain ration. 6857
Influence of some herbicides on accumulation of 32P in above-ground organs of oats. 7223
Studies on the molybdenum availability. Part I. Molybdenum uptake by plants under different nitrogen and phosphorus nutrition. 7288

PHOSPHORUS COMPOUNDS
Effect of pH and ionic force on the reaction rate of organophosphorus compounds with serum-derived cholinesterase. 3033
Pesticide pollution control. 3651
Effects of tobacco mosaic virus on the phosphorus metabolism of Nicotiana xanthi n. c. 4000
Complex addition products of phosphorus pentafluoride and substituted nitriles. Patent 3,438,983. 7331

PHOSPHORUS ISOTOPES
32P and 35S transfer from susceptible wheat to Erysiphe graminis f. sp. tritici during primary infection. 2156
Proton magnetic resonance spectra of some phenyl-phosphorus compounds. 4931
Mutations produced by transmutation of phosphorus-32 to sulfur-32 within Drosophila DNA. 5437
Veterinary treatment of farm animals in the case of external radioactive contamination. First communication. Veterinary treatment of sheep and pigs externally contaminated with phosphorus32 and strontium89. 6428

PHOSPHORYLASES
A relationship between ionic environment and hormonal activation of phosphorylase in an insect. 5629

PHOSPHORYLATION
The effect of pre-planting seed treatment by gamma rays on the oxidative phosphorylation in cotton leaves. 3676
Salicylanilides: A new group of active uncouplers of oxidative phosphorylation. 5679

PHOSPHOTUNGISTIC ACID
Electron microscopy as an aid to the rapid identification of animal viruses. 4239

PHOTINUS
The decarboxylation of luciferin in firefly bioluminescence. 5531

PHOTOCHEMISTRY
Photochemical and exhaust fume damage to plants. 193
Preparation of non-infectious arbovirus antigens by photodynamic inactivation. 1552
Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid. 2178
Factors influencing expression of oxidant damage to plants. 3052
Photoaldrin and its toxicity to mosquito larvae. 3341
Properties and effects of WL-9385-D on rice and some weed species. 6332
Prevention of photoreactivation of tobacco mosaic virus--ribonucleic acid by reconstitution. 7996

PHOTOGRAPHY
Information retrieval and film filing system for biological research. 1206
The identity of Sitophilus oryzae. 4462
Report on forest research for the year ended March 1968. 5845
Bagworm photographs: Eggs, larvae, pupae, and adults of Thyridopteryx ephemeraeformis (Psychidae: Lepidoptera). 7674

PHOTOMETRY
Defense mechanisms of arthropods. XX. Quantitative assessment of hydrogen cyanide production in two species of millipedes. 1385

PHOTOMICROGRAPHY
Salivary gland chromosome variation in the Drosophila affinis subgroup. II. Comparison of C-chromosome patterns in D. athabasca and five related species. 5725

PHOTOPERIODISM
Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth. 540

Major environmental factors inducing the termination of larval diapause in Chaoborus americanus Johannsen (Diptera: Culicidae). 758

Photoperiodism in the honey bee, Apis mellifera L. (Hymenoptera, Apidae). 770

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 867

Circadian systems, II. The oscillation in the individual Drosophila pupa; its independence of developmental stage. 884

Effect of gibberellic acid and Phosfon on the critical dark period requirement for flowering of Impatiens balsamina cv. Rose. 1172

The effect of day length on geographical races of Pectinophora gossypiella (Saund.) (Lepidoptera, Gelechiidae). 1356

Induced shift of the diurnal emergence and calling of the peach tree borer. 1412

Variability of the photoperiodic reaction in a number of successive generations of spider mites (Acarina). 1461

Colonization of Culex salinarius in the laboratory. 1489

Modified container for study of photoperiodism. 1857

Hints on the permanent rearing of Dacus oleae Gmelin (Diptera, Tyrpetidae)in the laboratory. 1938

On the mechanism involved in perception of light stimuli during the photoperiodic reaction in Lepidoptera caterpillars. (TT 61-23975). 1967

Laboratory rearing of aphids. 2019

Photoperiodic induction of vernal phenotype in Pieris protodice Boisduval and Le Conte (Lepidoptera: Pieridae). 2047

On the photoperiodic reaction of Chilocorus renipustulatus Scriba (Coleoptera, Coccinellidae). 2629

Environmental biology of Eriosoma pyricola Baker and Davidson. 2822

Loss of gibberellins by leaching from stems and foliage of Chrysanthemum morifolium 'Princess Anne'. 3057

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana. 3217

Growth responses of Marquillo X Kenya Farmer wheat dwarf 1 and 2 to gibberellic acid, kinetin, and indolebutyric acid under controlled environmental conditions. 3714

Photoperiodism in the honey bee, Apis mellifera L. (Hymenoptera, Apidae). 3809

The influence of photoperiod and temperature on the induction of diapause in mulberry pyralid, Glyphodes pyloalis Walker. 3858

Circadian clock action spectrum in a photoperiodic moth. 4465

The cumulative effects of long photoperiods and the determination of the phase characteristics of the migratory grasshopper, Locusta migratoria migratorioides (R. and F.), gregarious phase. 4472

Control of metabolism in the silkworm pupal ovary by the diapause hormone. 4508

Diapause in Apanteles congregatus. 4586

The influence of external factors on the anticipated elimination of the diapause of Psylla pyri (Homoptera: Psyllidae). 4608

The photoperiod as a control agent against Adoxophyes reticulana (Lepidoptera; Tortricidae). 5193

Electroretinogram of the scorpion Androctonus australis in response to periodical illumination. 5252

Physiological modifications caused by the photoperiod during the time preceeding diapause in the Pieris brassicae L. larvae. 5265

Two major effects of the corpus allatum in the adult Colorado beetle (Leptinotarsa decemlineata Say). 5281

Diel patterns of swarming and other activities of two arctic dipterans (Chironomidae and Trichoceridae) on Spitsbergen. 5639

On emergence times within the genus Polamorphylax Wallengren (Trichoptera, Linnephilidae). 5645

Sensitivity duration in the photoperiod for the inhibition of maturation of a group of Locusta migratoria migratoria L. (Orthoptera), group Kazalinsk . 5665

Ethylene prevents normal photoperiodic response in Chrysanthemum morifolium. 7286

Larval diapause in the tick Ixodes ricinus L. and its relation to external conditions. 7. On the sensitivity to photoperiodic stimuli during bloodsucking. 7573

A contribution to the knowledge of the diapause in Perillus bioculatus (Fabr.) (Heteroptera, Pentatomidae). 7622

Daily periodicity of the formation of honeybee endocuticle layers. 7657

PHOTOSENSITIZATION
Change in the photic reaction due to DDT in the grain weevil, Sitophilus granarius (L.)(Coleoptera: Curculionidae). 5209

Central nervous system control of circadian rhythmicity in the cockroach. II. The pathway of light signals that entrain the rhythm. 5500

Modes of establishing the flicker response in the insect eye in modulated illumination. 7589

PHOTOSYNTHESIS
Inhibition of photosynthetic electron transport by ioxynil. 521

Effects of gibberellin on photosynthesis in red clover (Trifolium pratense L.). 542

Effect of simazine on the photosynthetic pigments of green algae. 1821

Effect of gibberellin (GA) and mineral nutrition on the growth and productivity of cucumber plants. 1825

Effect of prometryne on !4Co2 fixation in cotton and soybean. 3707

Boron in plants: A biochemical role. 4912

Physiological changes in sunflowers infected by storage rot. 6041

Selective control of hoary alyssum in alfalfa. 6355

Influence of some herbicides on accumulation of 32P in above-ground organs of oats. 7223

Influence of simazine on apparent photosynthesis of aquatic plants and herbicide residue removal from water. 7305

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production. 7315

PHOTOTROPISM
Effects of selection and migration on geotactic and phototactic behaviour of Drosophila. I. 1382

Observations on the fluorescence and function of spiders' eyes. 2674

Concerning the extraocular light sensitivity of the Dictyoptera: Evidence of photoreceptors associated with the tegumentary nerves. 4464

Study of the phototrophism of the Noctuidae (Lepidoptera). Research on the variation of behavior following the frequency of intermittent monochromatic illumination. 4487

Effects of selection and migration on geotactic and phototactic behaviour of Drosophila. II. 5702

Positive phototaxis of Chironomidae larvulae as a factor regulating their distribution in stagnant bodies of water. 7497

Heritability of phototactic and geotactic responses in Drosophila pseudoobscura. 7749

PHOTURIS
Flashes of Photuris fireflies: Their value and use in recognizing species. 2005

PHRAGMIDIUM
The creation of artificial foci of parasites- a new method of aphid parasite release. 887

PHTHORIMAEA OPERCULELLA
Heat-extraction technique for recovery of potato tuberworm larvae from potato tubers. 2029

PHYCITIDAE
Studies on sex pheromones of Pyralididae. Changes in the quality of the sex pheromone in the female almond moth, Cadra cautella Walker (Phycitinae). 3841

Studies on sex pheromones of pyralididae. II. Mass rearing of virgin females of the almond moth, Cadra cautella Walker (Phycitinae). 3880

Studies of physiologically active arthropod secretions. II. Some observations on the scent pencils of male Vitula edmandsae (Lepidoptera: Phycitidae). 5670

PHYCITINAE
Phycitinae-study V (Lepidoptera Pyralidae). 7530

PHYCOMYCETES
Contribution to the knowledge of the mycoflora of the Apus mountains. 5900

PHYCOMYCOSIS
Phycomycosis in mule. Entomophthora coronata isolation. 1676

Phycomycosis and aspergillosis of cattle. 7919

PHYLLACTINIA ANGULATA
The identity of Phyllactinia on winged elm in Georgia. 3965

PHYLLOCOPTRUTA OLEIVORA
The feeding behavior and biology of Parapronematus acaciae (Acarina: Tydeidae). 2225

PHYLLODY
A note on the natural incidence of sesamum phyllody virus in Brassica Spp. at Ludhiana. 3357
Transmission of clover phyllody by a new leafhopper vector, Euscelidius variegatus. 6179

PHYLLOSTICTA
Studies on Phyllosticta blight of rice. 4703

PHYLLOSTICTA ZEAE
The occurrence of Phyllosticta leaf spot of corn in Pennsylvania. 6068

PHYLLOTRETA
Lea beetles (Phyllotreta species) and sugar beets. (Short communication). 1014
Investigations of effects and effect mechanisms of seed treatment preparations on leaf eating beetles. 1596

PHYLLOXERA VITIFOLIAE
Phylloxera: Scourge of the vineyard. 289
A viticultural crisis of more than a quarter of a century: It has been a century since France discovered Phylloxera. 6254

PHYLLOXERIDAE
Control of some pests of evergreens. 6162

PHYMATOTRICHUM OMNIVORUM
Studies with two systemic fungicides, benlate and thiabendazole. 5962

PHYSALOSPORA
Stability of taxonomic characters in cultures of Diplodia and related genera as influenced by various carbon sources. (Abstract). 4330

PHYSICAL CHEMISTRY
Annual report 1967. 1826

PHYSICS
Annual report 1967. 1826

PHYSIOLOGY
Dieldrin effects in two generations of penned hen pheasants. 502
Apparent sap velocities in big sagebrush as related to nearby environment. 573
Electron microscope studies on the life cycle of Trypanosoma cruzi. With special consideration on the developmental forms in the vector, Rhodnius prolixus. 1365
Effect of sublethal DDT on the lateral line of brook trout, Salvelinus fontinalis. 1649
Fatty acids of Listeria monocytogenes. 1700
On the physiology of invasive larvae of Trichostongylidae. 1739
Experimental investigation into the physiological change in color of Hirudinea. 2375
Effect of the venom of the scorpion Tityus serrulatus on adrenal gland catecholamines. 2433
Effect of the venom of the bee Apis mellifera on osmotic fragility of cattle RBC. 2434
Multivesicular bodies in Sclerotinia fructigena and their possible relation to extracellular enzyme secretion. 2718
Inactivation of Candida albicans by ultraviolet radiation. 2897
Effects of diets low in calcium and/or phosphorus in lambs. 2903
Toxoplasma and toxoplasmosis. 2923
Infectious keratoconjunctivitis in cattle caused by Neisseria (Neisseria ovis n. sp. Lindqvist, 1960). 2945
The post-embryonic developmental stages of cestodes. 3003
Concerning Bacillus thuringiensis and its applications. 3231
Susceptibility of several forest insects of British Columbia to commercially produced Bacillus thuringiensis. I. Studies on the physiological properties of some commercial products. 3253
Association of increased recipient ability for R factors and reduced virulence among variants of Salmonella choleraesuis var. kunzendorf. 4819
Competitive development of enzymatic activity of transcriptase and replicase in the course of a viral disease in cattle. 4837
Reduction of flight organs in some cryptobrachypterous Lygaeidae (Hem., Het., Lygaeidae). 5398
Comparisons of cells, refractile bodies, and spores off Bacillus popilliae. 5477
The nematodes DD-136 (Neoaplectana sp.) and Neoaplectana carpocapsae Weiser, 1955 (Rhabditoidea) as insect parasites. A literature review. 5499
Recent advances in the physiology and biochemistry of Plasmodia. 5526
Competitive saprophytic ability and inoculum potential of cotton root-infecting fungi in five soils. 6062
S.N.F. content of milk. 6446
Mesosomes in m-tyrosine-inhibited Bacillus thuringiensis. 6474
Sites of avian leukosis virus multiplication in congenitally infected chickens. 6556
Influence of synthetic insect T. C. medium on the survival of malaria sporozoits in vitro (Plasmodium berghei yoeli and P. cathemerium). 6576
In vivo growth and distribution of anthrax bacilli in resistant, susceptible, and immunized hosts. 6653
Relation of infection to tissue temperature in mice infected with Mycobacterium marinum and Mycobacterium leprae. 6813
Biochemical and biophysical characteristics of vesicular exanthema virus and the viral ribonucleic acid. 6864
Growth and respiration of monolayer cell cultures of chick embryo heart and skeletal muscle: Action of malathion and malaoxon. 6871
Growth and development of poultry echinostomatids in the organism of definitive host. 6961
Oxygen and carbon dioxide affect the growth of wood-decaying fungi. 7027
Note on a microbiological assay for aflatoxin B$_1$: A rapid confirmatory test by effects on growth of Bacillus megaterium. 7052
Effect of DDT and dieldrin on RNA and protein synthesis in subcellular fractions of HeLa S cells. 7097
Interaction of DDT with the components of lobster nerve membrane conductance. 7190
The influence of tobacco ring spot virus and tobacco mosaic virus on the growth of Meloidogyne javanica. 7844
The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures. 7847
Physiological events in the course of the growth and differentiation of Trypanosoma cruzi. 7881
Spectrophotometric studies on the succinate oxidase system of Taenia hydatigena. 7933
The influence of some biological and ecological factors on the catalase activity in Ascaridia galli. 7945
A physiological study of the development of the egg of Fasciola hepatica L., the common liver fluke. 7950

PHYTATES
Effect of phytate on the apparent calcium requirements of chicks. (Abstract). 4190
Effect of a soluble fraction of oil seed meals on uptake of 65Zn from ca.mg.65Zn.phytate complexes by the chick. 6690

PHYTIC ACID
Inositol metabolism in plants. VI. Conversion of myo-inositol to phytic acid in Wolffiella floridana. 1822

PHYTOLACCA AMERICANA
Properties of a virus causing pokeweed mosaic. 2173
Electron microscopy of pokeweed leaf cells infected with pokeweed mosaic virus. 3381

PHYTOMETRA
Some pests of ornamental plants in Madras. 4735

PHYTOMYZA ATRICORNIS
Preliminary study on the effect of different doses of Nitrogen on the incidence of major pests of mustard. 2644

PHYTOPATHOGENIC FUNGI
On the methods of the study of chemical-properties of cellular walls in phytopathogenic fungi. 979

PHYTOPATHOLOGY
Phytopathological problems in Austria. 4021
The law of host-parasite balance in the process of pathogenesis and its implications in ecology. 4714
A note on the anatomical derangement in the root tissue of root (wilt) diseased coconut palm. 5383
Abnormal ray tissue in three true firs infested by the balsam woolly aphid. 6226

PHYTOPHAGOUS INSECTS
Measuring newly hatched phytophagous larvae in the field or greenhouse. 2058
Oxidative metabolism of carbohydrates in phytophagous insects. I. Glycolysis in the cotton stainer Dysdercus fasciatus Signoret (Pyrrhocoridae, Hemiptera). 5189

Physiological studies on the digestion of coccinellid beetles (Coleoptera: Coccinellidae), with special reference to their food habits.
5579

Collecting method and preliminary analysis of the soluble salivary secretions of the planthoppers.
5618

On the photopositive responses of some insects towards monochromatic lights.
5691

PHYTOPHAGOUS MITES
The influence of spray chemicals on predatory- and phytophagous mites on apple trees in laboratory- and field trials in the Netherlands.
2663

PHYTOPHTHORA
Recommendations for chemical treatment of diseases of Hevea.
250

Phytophthora leaf fall and pod rot.
252

A laboratory assay for determining pathogenicity of Phytophthora spp. to tomato.
2169

Phytophthora crown and root rot of hops in California.
2181

Long-term preservation and pathogenicity of selected st rains of Colletotrichum, Rhizoctonia, and Phytophthora. (Abstract).
2753

Fusarium foot rot of kenaf (Hibiscus lannabinus L.) in Iran.
4723

A modified soil percolator for zoospore production and infection in studies on zoosporic root pathogens.
5868

Investigations on chemical control of zebra disease in Agave hybrid no. 11648.
6036

PHYTOPHTHORA CACTORUM
Competition and synergism between cholesterol and cholestanol in oospore formation in Phytophthora cactorum.
970

Streptomycin resistance and morphological variation in Phytophthora cactorum.
984

A rapid method for determining the pathogenicity and factors associated with pathogenicity of Phytophthora cactorum.
2123

Serological relationships of physiologic races A-1 to A-8 of Phytophthora fragariae.
2744

Suitability of several fungicides for treating soil infested with Phytophthora cactorum to prevent crown rot disease of apple trees.
6012

PHYTOPHTHORA CAPSICI
Cytology of the sporangium of Phytophthora capsici.
2194

Investigation of means for the chemical control of basal rot (Phytophthora capsici Leon.) of pepper.
6010

PHYTOPHTHORA CINNAMOMI
Phytophthora cinnamomi Rands on conifers in New South Wales.
2121

Phytophthora cinnamomi Rands on conifers in New South Wales.
7770

PHYTOPHTHORA CITRICOLA
Comparative behavior of the oospores and oogonia of Phytophthora citricola during germination on an artificial medium.
5798

PHYTOPHTHORA FRAGARIAE
Serological relationships of physiologic races A-1 to A-8 of Phytophthora fragariae.
2744

PHYTOPHTHORA INFESTANS
The culture of Phytophtora infestans on fully synthetic culture medium substrata.
525

Late blight disease on potatoes and its control.
959

Disinfection of potatoes with maneb and magnesium. comparative effect of maneb and magnesium solfate in the yield of Capiro potato at the experimental substation at La Selva .
964

Control of the Gota of tomatoes. Aspersion of maneb in tomatoes at distinct weekly intervals and levels of rain for the control of Phytophthora infestans.
965

The effect of adhesive protective applications combined with maneb to control Phytophthora infestans of potatoes.
966

Genetics of pathogenicity of Phytophthora infestans.
2737

Late blight of potato.
2769

Antibiotic substances in the potato formed during the necrotic reaction.
2771

Contribution to the knowledge of dominant biotypes of the Phytophthora infestans on the potato.
2779

The accumulation of phenolic acids in tissue culture pathogen combinations of Solanum tuberosum and Phytophthora infestans.
2780

The occurrence of some previously unreported diseases of potatoes in Mexico.
5910

The expression of R-gene resistance to Phytophthora infestans in tissue cultures of Solanum tuberosum.
5969

Agricultural and horticultural fungicides-past, present, and future.
7416

Phytophthora infestans sporangial germination and tuber rot reduced by soil residues of fungicides.
7773

Phenol metabolism in relation to disease resistance of potato tuber. II. Exponential equation relating levels of phenols or phenolic enzymes to distance from locus of injury of plant tissue.
7997

PHYTOPHTHORA MACROSPORA
Downy mildew of cereals and grasses (Phytophthora macrospora).
2770

PHYTOPHTHORA PALMIVORA
Production of extracellular enzymes by Phytophthora palmivora (Butl.) Butl..
958

The resistance of Fx and IAN rubber clones to leaf diseases in Brazil.
4693

On the role of the phenol constituents in the course of infection of the cacaopods of Theobroma cacao L. by Phytophthora palmivora Butl..
4709

PHYTOPHTHORA PARASITICA
Zoospore in Phytophthora parasitica var. subdariffae.
4666

Field biology and control of Phytophthora parasitica on papaya (Carica papaya) in Hawaii.
5967

Serological differentiation of Pythium aphanidermatum from Phytophthora parasitica var. nicotianae and Ph. parasitica.
6021

Betel's wilt disease can be kept under control.
6025

PHYTOPHTHORA PHASEOLI
The rapid development and spread of strain B downy mildew of lima beans.
2198

PHYTOSEIIDAE
Some observations on the ecology of phytoseiid mites (Acarina: Phytoseiidae) in California.
766

Three new species of phytoseiid mites from Western Sudan (Acarina: Phytoseiidae).
1242

The genus Phytoseius Ribaga,1902 (Acarina: Phytoseiidae).
3093

Sibling species of phytoseiidae (Acarina: Mesostigmata).
7512

PHYTOSEIULUS PERSIMILIS
Life history and life table of Phytoseiulus persimilis Athias-Heriot.
1428

Biosystematics of Phytoseiulus persimilis AthiasHenriot (Acarina: Phytoseiidae).
5407

PHYTOSEIUS
The genus Phytoseius Ribaga,1902 (Acarina: Phytoseiidae).
3093

PHYTOTOXICITY
Chemical and biological properties of phytotoxic glycopeptides isolated from Corynebacterium michiganense.
2167

Several factors affecting adsorption of atrazine and diphenamid by soils.
2386

Selective action of chloroxuron on soybean and morningglory.
2448

The influence of plants on the inactivation of soil herbicides for example of simazine and atrazine.
3046

Factors influencing expression of oxidant damage to plants.
3052

Dissipation and phytotoxicity of dicamba.
3687

The response of Kentucky bluegrass to soil residues of preemergence herbicides.
3709

Prevention of the spread of non-persistent plant viruses by oil spraying.
3963

Phytotoxic alpha-halo-acetanilides. Patent 3,442,945.
4340

Studies of phytotoxicity in the use of herbicides for controlling annual weeds in almond orchards.
4780

Study of the selectivity of herbicides for sugarbeets, using laboratory, greenhouse and physiological methods. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4785

Ultra low volume spraying of cotton.
5822

Chemosterilization of the two-spotted spider mite. III. Effect on host plant.
7252

Microbial degradation of five substituted urea herbicides.
7276

PICEA
Spruce galls in Wisconsin.
241

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season.
949

Phenomena in the infestation pattern of phytophagous insects.
1017

Sustained natural infestation by the mountain pine beetle in seven new Pinus and Picea hosts. 3437

The life history of Aphrastasia pectinatae (Chol.) var. ishiharai Inouye (Homoptera: Adelgidae). 3439

Concerning the problem of controlling the occurence, as well as estimating the degree of infestation of tree stands by Ips typographus L. 6263

Do small mammals and birds affect reproduction of spruce and fir . 6406

PICEA ABIES

Infestation density of Trypodendron lineatum (Olivier) (Coleoptera: Scolytidae) in relation to felling date of logs. 1778

Control of some pests of evergreens. 6162

PICEA BREWERIANA

Dwarfmistletoe on Brewer spruce in Oregon. 1028

PICEA ENGELMANNI

Wood-and-bark-feeding Coleoptera of felled spruce in interior British Columbia. 4425

Spruce budworm damage symptoms related to radial growth of grand fir, Douglas-fir, and Engelmann spruce. 6275

PICEA GLAUCA

Wood-and-bark-feeding Coleoptera of felled spruce in interior British Columbia. 4425

PICEA MARIANA

Arceuthobium pusillum on eastern larch in Wisconsin. 2257

PICEA ORIENTALIS

The dispersion of the resettlement of Dendroctonus micans Kugel. on Picea orientalis Link, in the Borshom Gorge. 826

PICEA PARRYANA

Chemical aids figure in plant propagators' reports. 516

PICLORAM

Control of Dalmatian toadflax. 320

Effect of moisture stress on the absorption and transport of herbicides in woody plants. 1814

Influence of time and method of application on turkey oak response to picloram plus 2,4-D. 3468

Rainfall effects following herbicidal treatment of woody plants. 3487

Control and ecological studies of Scotch thistle. 3489

Response of woody species to 2,4-D, 2,4,5-T, and picloram as a function of treatment method. 3684

The role of light, concentration, and species in foliar uptake of herbicides in woody plants. 6331

Control of the guanxumas roxa e branca in pasture with hormone-like herbicides. 6335

Herbicidal control of western ironweed. 6363

The use of herbicides for site preparation and their effects on tree survival. 6369

Response of flax to postemergence herbicides. 7314

Effects of picloram and ethylene on leaf movement in huisache and mesquite seedlings. 7983

PICORNAVIRUSES

The virus-caused respiratory diseases of the cat. 2906

Investigations on the viruses of the Orphan type occurring in pigs in Poland. IV. Haematological findings in piglets artificially infected with virus L1. 6500

PICROTOXIN

The pharmacology of cardioaccelerators in the central nervous system of Periplaneta americana (L.). 7609

PIERIDAE

Pterins of Pieridae II. 1414

Contribution to the fauna of Congo (Brazzaville). Mission of A. Villiers and A. Descarpentries. LII. Lepidoptera Pieridae. 1869

Some biometrics in Pieris and Colias (Lepidoptera: Pieridae) in Quebec and Nova Scotia. 4502

Two variant females of Colias (Zerene) cesonia (Pieridae). 4997

First records of two butterflies in Wisconsin (Nymphalidae, Pieridae). 5098

Observation on the sex ratio in Pieris brassicae (L.) (Lepidoptera-Pieridae). 5233

On the metabolism of pterine and its hydrogen derivatives in Colias croceus (Fourcroy) (Lepidoptera Pieridae). 5286

Polymorphism in Pieris: Supposed lethality of homozygous subtalba (Lep., Pieridae). 5697

PIERIS

Photoperiodic induction of vernal phenotype in Pieris protodice Boisduval and Le Conte (Lepidoptera: Pieridae). 2047

What is Pieris dubiosa Rober (Lep., Pieridae) . 5133

PIERIS BRASSICAE

A study proteolytic enzymes contained in the chyle of Pieris brassicae and of substances active on the crystal of Bacillus thuringiensis. 77

The role of the intestinal microflora of insects in the disease development brought about by Bac. cereus var. galleriae. 108

Comparative study of the enzymatic hydrolysis of the crystals of the strains of Bacillus thuringiensis serotype I Berliner and serotype II Anduze. 114

Characterization of the thermostable toxin in the different industrial preparations of Bacillus thuringiensis Berliner. 761

Combined utilization of entomophages and microorganisms with a view of replacing or limiting the use of chemical treatments. 769

The energetics of the development of cabbage white Pieris brassicae L. (Lepidoptera). 1372

On the mechanism involved in perception of light stimuli during the photoperiodic reaction in Lepidoptera caterpillars. (TT 61-23975). 1967

The immigration of Pieris brassicae L. (Lep., Pieridae) into Finland in 1966, with a general discussion on insect migration. 2660

Laboratory breeding of Pieris brassicae transmitting a granulosis virus. 3182

Teratological effects on the nymphs and adults of insects, the larvae of which have ingested sublethal doses of the thermostable toxin of Bacillus thuringiensis Berliner. 4468

Evidence, by cellulose acetate electrophoresis, of a vitellogenetic protein in the hemolymph of the female imago of the cabbage pierid (Pieris brassicae L.). 4538

Poisoning of Pieris brassicae L. by an enzyme fraction of the toxin of the crystals of the strains Bacillus thuringiensis serotype U Berliner and serotype. III. Anduze. 4560

Practical application of Bacillus thuringiensis. 4612

Observation on the sex ratio in Pieris brassicae (L.) (Lepidoptera-Pieridae). 5233

Evaluation of some parameters of the individual energy budget of the larvae of Pteromalus puparum (L.) (Pteromalidae) and Pimpla instigator (Fabr.) (Ichneumonidae). 5264

Physiological modifications caused by the photoperiod during the time preceeding diapause in the Pieris brassicae L. larvae. 5265

Exudates of germinating spores of Bacillus thuringiensis. 5502

Development of virus antigen in tissues of Pieris brassicae inoculated with Tipula iridescent virus. 5534

Factors influencing the persistence of the granulosis virus of Pieris brassicae in the environment. 5752

The metabolism of nucleic acids in the wing buds of Pieris brassicae (L.) (Lepidoptera, Pieridae). 7637

PIERIS RAPAE

Tests on standardization of Bacillus thuringiensis preparations. 100

Combined utilization of entomophages and microorganisms with a view of replacing or limiting the use of chemical treatments. 769

The technique of determining the effectiveness of Bacillus thuringiensis preparations (spore- Endotoxin -complex) on caterpillars in the laboratory. 807

Comparative susceptibility in the laboratory of larval instars of Trichoplusia ni and Pieris rapae to Bacillus thuringiensis var. thuringiensis. 3166

Some biometrics in Pieris and Colias (Lepidoptera: Pieridae) in Quebec and Nova Scotia. 4502

What is Pieris dubiosa Rober (Lep., Pieridae) . 5133

Estimation of the individual number entering each development stage in an insect population. 5413

The effect of barometric pressure and other factors on eclosion of the cabbage butterfly Pieris rapae (Pieridae). 5416

PIGEONPEAS

A new species on neotropical seed weevil affecting pigeon peas, with notes on two closely related species(Coleoptera: Bruchidae: Bruchinae). 3756

Bionomics of tur plume moth (Marasmarcha liophanes, Meyrick) on pigeon pea (Cajanns cajan, Milisp). 4477

PIGEONS

Water balance in pinottii malaria of pigeons. 1086

The use of a capillary-tube technique for artifically feeding Argas reflexus reflexus ticks. 2643

Studies of avian leukosis group-specific complement-fixing serum antibodies in pigeons. 3585

A morphological study of the exogenous stages of Eimeria labbeana, a parasite of the common pigeon, Columba livia. 3592

Parasite phylogeny problems of the Mallophaga of Passeriformes and Piciformes. 5693

New contributions to the subject 'birds and agriculture'. 6411

Type C Botulism in a dove (Streptopelia roseogrisea bornuensis) from Ferlo (Senegal). 6557

Outbreak of ornithosis in a flock of carrier pigeons in Copenhagen. 6584

Brachylaima degiustii n. sp. from Columba livia in Venezuela. 6980

Pharmacodynamics of dielorin in pigeons. 7131

Biological methods for determining the toxicity of grain in connection with its infestation with toxigenic microfungi. 7147

Damage to the flowers of fruit trees by birds. 7857

PIGMENTATION

The pigmented coliforms of dehydrated food. 7051

Possible occurrence of viral pneumonia in indigenous sheep and goats - a morphological study of pneumonic lung lesions. 7886

PIGMENTS

Phospholipid metabolism during changes in the proportions of membrane-bound respiratory pigments in Haemophilus parainfluenzae. 1710

Stemphone, a biologically active yellow pigment produced by Stemphylium sarcinaeforme (Cau.) Wiltshire. 1798

Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration. 2060

Experimental investigation into the physiological change in color of Hirudinea. 2375

Pigment movement and the crystalline threads of the firefly eye. 5372

PIGMENTS (INSECT)

The biochemistry of the insect fat body. 110

Integumental pigments of the millipede, Polydesmus angustus (Latzel). 133

Changes in insecticide sensitivity in the bean weevil Acanthoscelides obtectus Say, brought about by induced pigment formation. 3867

An autosomal recessive yellow-eyed mutation in the blowfly. 7591

Studies in aging: IV. Genetic control of pigment accumulation and its bearing on the adult life span in Drosophila melanogaster. 7753

Honey bee drones with jet black bodies. 7758

PIGMENTS (PLANT)

An attempt to describe living space of an insect form (model and outdoor experiments with Drosophilidae). (Abstract). 751

Effect of simazine on the photosynthetic pigments of green algae. 1821

PIGWEED

Chemical control of pigweed. Patent 3,408,176. 315

Chemical weed control in peanut crops at Katherine, Northern Territory. 6400

A sub-surface applicator for herbicides. 7399

PIMARADIENE

(-)-pimaradiene: A new precursor of the gibberellins. 7337

Biosynthesis of gibberellic acid. A correction. 7338

Aspects of gibberellin biosynthesis. 7349

PIMELIAPHILUS PLUMIFER

The biology of the conenose bug parasite, Pimeliaphilus plumifer Newell and Ryckman (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5191

Ecological observations on three species of Pimeliaphilus parasites of triatominae in the United States (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5192

PIMPLA TURIONELLAE

Comparison of the effectiveness of two pupal parasites in finding a host. 757

PINE NEEDLES

New evidence that a number of leaf- and needle-eating insects depend on the sugar-content of their food. 881

PINEAPPLES

The chemical control of weeds in pineapple plantations. 319

Preliminary trial with seven acaricides for the control of mites at the base of pineapple leaves. 1612

Tropical nematology. 6305

PINOCYTOSIS

Study of pinocytosis in the tissues of the Rosaceae Leptomonas ctenocephali. 1569

Pinocytosis during vitellogenesis in the mealworm, Tenebrio molitor L. (Coleoptera, Tenebrionidae). 3789

PINUS

A new pine bark beetle in Germany, Gnathotrichus materiarius Fitch. 623

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season. 949

Studies on the microfungi in the forest floor of subarctic pine forests. 983

On the effect of industrial air pollution on the nematode population in the soil of pine groves. 1020

Little noticed kinds of weeds in tree nurseries. 1034

Cronartium comandrae Pk.; hard pines (Pinus spp.) and Comandra spp. Ed. I. 1681

The mechanisms by which Blastophagus piniperda L. (Col., Scolytidae) reacts to the odour of an attractant fraction isolated from pine phloem. 2634

Status of American stem rusts of pine. 2777

Resolute research to defeat grassgrub. 2806

Sustained natural infestation by the mountain pine beetle in seven new Pinus and Picea hosts. 3437

Occurrence of Cronartium comptoniae in the Maritime Provinces. 4018

The adaptability of Blastophagus piniperda L. (Col. Scolytidae) to various Pinus and the preferences of this insect in regard to these forest species. 4476

The important forest pests of Spain. 4660

Comandra blister rust of hard pines. 4711

A new species of Epuraea associated with eastern gall rust (Coleoptera: Nitioulidae). 5066

A widely distributed pine sap injurious, Acanthophila piceana n. sp. (Lep. Gelechiidae) in Latvia. 5150

On the theoretical concept of self-extinction of bark beetles. (TT 68-50402) 5515

Hosts and geographic distribution of Scirrhia pini--the cause of red band needle blight in California. 5895

PINUS ATTENUATA

A new needle disease of hard pines in Oregon and California. 5884

PINUS BALFOURIANA

Lophodermium durilabrum found on foxtail pine in California. 3986

PINUS BANKSIANA

Susceptibility of three pine species to Scleroderris lagerbergii in Upper Michigan. 2129

Western gall rust on jack pine nursery stock in Manitoba. 2719

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

Study of the virus disease of Neodiprion swainei Midd. and results of its aerial dispersion. 4758

A technique for sampling populations of the jack-pine budworm. 5033

Life history, habits, and damage of Chrysobothris orono (Coleoptera: Buprestidae) on red pine in Michigan. 5680

PINUS CARIBAEA

Observations on blue-stain and pin-hole beetles and their control, in unpeeled logs of Pings caribaea in trinidad. 207

PINUS CLAUSA

Record of Acantholyda circumcincta (Hymenoptera: Pamphiliidae) in Florida. 2210

PINUS CONTORTA

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

PINUS CONTORTA LATIFOLIA

Biological control for dwarf mistletoe. 1631

PINUS ECHINATA

A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

PINUS ELLIOTTII

Annosus root-rot in slash pine plantations four years after thinning and stump treatments. 2138

PINUS MONTICOLA

Growth of the rust fungus Cronartium ribicola in tissue cultures of Pinus monticola. 5952

PINUS NIGRA

Concerning a mass population increase of the false pine webworm, Acantholyda erythrocephala Chr. in Steinfeld, Lower austria, in the years 1964-1967. Preliminary communication. 6196

PINUS PATULA
Studies on Stereum sanguinolentum in Kenya pine plantations. 5948

PINUS PINASTER
The attraction to Pissodes notatus (Col. Curculionidae) of the wounds formed by Matsuococcus feytaudi Duc. (Hom. Coccoidea) on maritime pine. 4034

PINUS PONDEROSA
Absorption, translocation and metabolism of 3-amino-1,2,4-triazole in Pinus ponderosa and Abies concolor. 1167
Isolation of microorganisms from preservative-treated wood. 1546
Comandra rust damage to ponderosa pine in Oregon and Washington. 2104
Red rot in residual ponderosa pine stands on the Navajo Indian Reservation. 4663
A new needle disease of hard pines in Oregon and California. 5884
Dwarfmistletoe effects on ponderosa pine growth and trunk form. 5892
Elytroderma disease of ponderosa pine (Pinus ponderosa) in the Pacific Northwest. 5893
Ponderosa pine dwarf mistletoe in relation to topography and soils on the Manitou Experimental Forest, Colorado. 5955

PINUS RADIATA
Studies on the biology of Rhyssa persuasoria (L.) (Hymenoptera: Ichneumonidae) incorporating an X-ray technique. 3219
Red band disease on pines ((Dothistroma pini) Hulbary var. (linearis) Thyr and Shan). 3369

PINUS RESINOSA
Effects of herbicides on seed germination and early seedling development of Pinus resinosa. 1823
Fluctuations in the population of Schizolachnus piniradiatae (Davidson) (Aphididae-Homoptera) in the Eastern Provinces during 1967. 2048
Susceptibility of three pine species to Scleroderris lagerbergii in Upper Michigan. 2129
Temperature and relative humidity regimes in the pine stump habitat of Fomes annosus. 3412
A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745
Life history, habits, and damage of Chrysobothris orono (Coleoptera: Buprestidae) on red pine in Michigan. 5680
Influence of soil and site on red pine (Pinus resinosa Ait.) plantations in New York. II. Soil type and physical properties. 7240
Effects of herbicides on respiration of red pine seedlings. II. Monuron, diuron, DCPA, dalapon, CDEC, CDAA, EPTC, and NPA. 7290

PINUS STROBUS
The adaptive feeding habit of a pine caterpillar. 825
The pine chrysomelid, Glyptoscelis pubescens, in northwestern Wisconsin. 3441
Response of pines irradiated with lethal and sublethal doses of gamma-radiation. 5829

PINUS SYLVESTRIS
Susceptibility of three pine species to Scleroderris lagerbergii in Upper Michigan. 2129
Investigation of the effect of governing chemical compounds in trees on bark beetle orientation. 2593
Elements for a study on the needle-cast fungus of scotch pine Lophodermium pinastri (Schrad.) Chev. Phenological study: fall of needles and development of hysterothecia. 3979
Control of some pests of evergreens. 6162
Differences among Scotch pine varieties in susceptibility to European pine sawfly. 6279
Growth-regulating substances from Pinus silvestris separated on Sephadex LH-20. 7990

PINUS TAEDA
Studies on the attack behavior of the southern pine bettle. IV. Influence of host condition on aggregation pattern. 2064
Fomes annosus and chemical stump treatment in Virginia--a three-year study. 2707
Responses of the pales weevil to natural and synthetic host attractants. 3291
Absorption, translocation, and distribution of phorate in loblolly pine seedlings. 3454
A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745
Infestation rate and damage by the Nantucket pine tip moth in six loblolly pine stand categories. 6156
Studies on the attack behavior of the southern pine beetle. III. Sequence of tree infestation within stands. 6177

PINUS THUNBERGI
Response of pines irradiated with lethal and sublethal doses of gamma-radiation. 5829

PINUS VIRGINIANA
Virginia pine, a new host for Cronartium comandrae. 3993
A study of Phanerotoma toreutae, a parasite of the pine cone moth Laspeyresia toreuta. 4745

PIONOSOMUS NITENS
Pionosomus nitens nov. sp., a new type of Lygaeidae from North Africa (Hem. Het. Lygaeidae). 718

PIPECOLIC ACID
Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants. 978

PIPER BETLE
Betel's wilt disease can be kept under control. 6025

PIPER NIGRUM
Biology of Gynaikothrips karnyi Bagnall, the marginal gall forming thrips of pepper. 4616

PIPERAZINE
Assay on the treatment of intestinal nematodiasis of pigs by means of 2,2-Dichlorovinyl Dimethyl Phosphate (Dichlorvos, Atgard V) administered with dry food, in comparison to Piperazine Dihydrochloride administered in drinking water. 1759
Vermex poultry tablets and vermex powder. Drugs for veterinary use - drug efficacy study implementation. 2372
Parasites of sows and pigs in Europe. 3625

PIPERAZINE PHOSPHATE
Efficacy of several drugs for control of poultry nematodes. (Abstract). 4272

PIPERONAL
Piperonylic acid conjugates with alanine, glutamate, glutamine, glycine, and serine in living houseflies. 5296

PIPERONYL ALCOHOL
Piperonylic acid conjugates with alanine, glutamate, glutamine, glycine, and serine in living houseflies. 5296

PIPERONYL BUTOXIDE
The metabolism of piperonyl butoxide in the rat with C14 in the methylenedioxy or alpha-methylene group. 3037
Synergistic toxicity and carcinogenicity of 'freons' and piperonyl butoxide. 7160
On the toxicology of Pyrethrum to warm blooded animals. 7384
Water-base insecticides. 8015

PIRICULARIA
The problems of plant disease control. 6034

PIRICULARIA ORYZAE
Identification of races of Piricularia oryzae in Colombia. 5939
Pyricularia oryzae. 6098

PIROPLASMOSIS
Tick fever in poultry. 415
Tick-borne diseases of cattle in Trinidad. 438
Development of Aegyptianella pullorum Carpano. 1928, in the soft tick Argas (Persicargas) persicus (Oken, 1818) and transmission. 1717
The incidence of clinical babesiosis in cattle in Queensland. 6651
On pyroplasmodias in sheep and goats. II. Research into anaplasmosis. 6686
Identification of a piroplasme found with sufficient frequency in our cattle. 6790
Detection of complement fixing antibody to the agents of tick typhus fever of northern Asia and Q fever in wild animals of the extreme north of western Siberia. 6810
Experimental studies on bovine tick-borne fever. 1. Clinical and haematological data, some properties of the causative agent, and homologous immunity. 6844
Electron and light-microscope investigations on two species of feline Babesia. 7877

PISSODES APPROXIMATUS
A serological comparison of Pissodes strobi and P. approximatus (Coleoptera: Curculionidae). 2632
Sound production in the white-pine weevil, Pissodes strobi, and the northern pine weevil, P. approximatus. 4506

PISSODES NOTATUS
The attraction to Pissodes notatus (Col. Curculionidae) of the wounds formed by Matsuococcus feytaudi Duc. (Hom. Coccoidea) on maritime pine. 4034

PISSODES STROBI
A serological comparison of Pissodes strobi and P. approximatus (Coleoptera: Curculionidae). 2632

Sound production in the white-pine weevil, Pissodes strobi, and the northern pine weevil, P. approximatus. 4506

PISUM SATIVUM
Results of investigations on the susceptibility of different varieties of Pisum sativum L. to attacks of Laspeyresis nigricana Steph. (Lep., Tortricidae). 2825
The influence of illumination on the development of tumors caused by Agrobacterium tumefaciens (Smith and Town) Conn. on pea seedlings, Pisum sativum L.. 4707
Arginine metabolism in germinating seeds of some members of the leguminosae. 7255

PITH
The in vitro establishment of pith calluses and nodal tumors of Brassica oleracea. 4004

PITHOMYCES CHARTARUM
Effect of thiabendazole on Pithomyces chartarum (Berk. Curt.) M. B. Ellis. 2340

PITRESSIN
The influence of feed and water restriction and pitressin administration upon thyroxine secretion in domestic fowl. 4100

PITUITARY GLAND
P.L.A. (pituitary luteinizing hormone). Drugs for veterinary use - drug efficacy study implementation. 2271
F.S.H.-P. (follicle stimulating hormone-pituitary). Drugs for veterinary use - drug efficacy study implementation announcement. 2313
Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones. 2880
The role of the hypophyseal-suprarenal system in the etiopathogenesis of primary ketosis in cattle. 6767

PLAGUE
Duck virus enteritis (duck plague). Interstate movement. 4110

PLANIPENNIA
Sympherobius elegans Steph. 1836 (Neuroptera, Planipennia) new to Norway. 1258
The cryptonephridism of the larvae of Planipennia and their variations in function with the ecology of the Insecta. 4494

PLANKTON
First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) II. Plankton in general and phytoplankton. 204
First report of the regular limnological survey of Lake Biwa (Oct. 1965 -Dec. 1966) III. Zooplankton. 336
Biological investigations of an infiltration area and experiments with some algicides. 7076
An investigation of the content of the chlorinated hydrocarbon residues of the crustacean plankton in the Balaton. 7128
Positive phototaxis of Chironomidae larvulae as a factor regulating their distribution in stagnant bodies of water. 7497

PLANOCOCCUS CITRI
Endomitosis in the mealy bug, Planococcus citri (Homoptera: Coccoidea). 3901
Analysis of chronatin in male and female mealy bugs. (Planococcus citri). 5718

PLANT ABNORMALITIES
Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth. 540
Relative susceptibility of three peanut cultivars to fat leg (seedling growth anomaly) caused by seed treatment with an organic mercury fungicide. 2119
Meiotic and morphological response of grain sorghum to atrazine, 2,4-D, oil, and their combinations. 3694
Lodging in wheat and its control by (2-chloroethyl) trimethylammonium chloride (CCC) in solid form. 7308

PLANT ADAPTATION
Cultivated palms of Venezuela. 941
Seedlings vigor evaluation of four birdsfoot trefoil varieties grown under two temperature regimes. 2106
1968 vegetable crop investigations in southwest Kansas. 7762

PLANT ANALYSIS
Investigation into herbicide residues. 3023
Sulfur response of alfalfa in Western Montana. 7296
Plant analyses uncover hidden hunger in Indiana. 7784

PLANT ANATOMY
Short-term growth response to growth regulators in roots of Zea mays. 515
Virulence of various groups of loose smut of barley (Ustilago nuda (Jens.) Rostri) physiological races in the light of anatomical investigations of barley varieties different with regard to resistance. 2. The effect of infection upon anatomical features of plants. 2145
Virulence of various groups of loose smut of barley, (Ustilago nuda (Jens.) Rostr.) physiological races in the light of anatomical investigations of spring barley varieties different with regard to resistance. I. Spreading of pathogene in host plant tissue. 3978
The effect of 3-amino-1,2,4-triazole on the ultrastructure of plastids of Triticum vulgare seedlings. 4685
Vegetative reproduction in western ironweed. 5839

PLANT BIOCHEMISTRY
The influence of herbicides on the incidence of disease with particular reference to temperate fruit crops. 238
Bacterial stripe blight of oats caused by Pseudomonas striafaciens (Elliott) Starr et Burkholder. 260
The state of weeds when applying herbicides and insecticides in corn fields. 318
Shifts in disease resistance induced by growth regulators. 514
Chemical aids figure in plant propagators' reports. 516
Effects of gibberellic acid on flower thinning and bloom delay of stone fruits. 517
Translocation of systemic fungicides. 519
Inhibition of photosynthetic electron transport by ioxynil. 521
Effect of boron toxicity on some leaf constituents in groundnut (Arachis hypogaea, Linn.) plants. 522
Morphological changes in wheat caused by the action of chlorcholinchloride-CCC. 524
The culture of Phytophtora infestans on fully synthetic culture medium substrata. 525
The influence of plant-growth factors on the initiation and growth of crown-gall tumours on primary pinto bean leaves. 527
GA increases tangelo yields. 530
Identification of gibberellins in crude plant extracts by combined gas chromatography-mass spectrometry. 534
Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein. 536
Effect of hormones on the sugar level of maize (Zea mays L.) plants. 538
Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth. 540
Effects of gibberellin on photosynthesis in red clover (Trifolium pratense L.). 542
On the antibiotically active substances of the tulip (Tulipa gesneriana). 543
The outer layer of the cell envelope of Halobacterium halobium. 564
Metabolic regulation in diseased leaves. II. Changes in nicotinamide nucleotide coenzymes in barley leaves infected with powdery mildew. 982
Molybdenum in soils and its availability to plants. 1164
On the structure of the abnormal nopaline metabolite in certain Crown gall tumors. 1564
Research on the physiological modifications brought about by the virus of tobacco mosaic in normal and tumor tissue of tobacco grown in vitro. 1581
Free amino-acids in healthy and virus-infected chrysanthemum. 1587
Trace element studies on some pathogenic fungi. 1590
The biosynthesis of tobacco mosaic virus RNA: Relationships to the biosynthesis of virus-specific ribonuclease-resistant RNA. 1595
Lipids of Salmonella typhimurium and Escherichia coli: Structure and metabolism. 1648
Chain initiation in a polycistronic message: Sequential versus simultaneous derepression of the enzymes for histidine biosynthesis in Salmonella typhimurium. 1653
Variability in Candida albicans (Robin) Berkhout. I. Studies on morphology and biochemical activity. 1655
Cell wall composition of the mycelial and blastospore forms of Candida albicans. 1658
Regulation of alkaline phosphatase production in the auxotrophs of Bacillus anthracis. 1661
Isolation and mapping of Salmonella typhimurium mutants defective in the utilization of trehalose. 1706
DDT toxicity in rye (Secale spp.). 1800

Effect of soil temperature and necrosis infection on the content of phenolic substances in potato tubers. 1809

Effect of iron and manganese on energy transformations in plants with inhibited chlorophyll synthesis. 1811

Inducing abscission of olive fruits by spraying with ascorbic acid and iodoacetic acid. 1816

On the action of gibberellin on the chlorophyll content in plants. 1817

An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818

Effect of simazine on the photosynthetic pigments of green algae. 1821

Effect of gibberellin (GA) and mineral nutrition on the growth and productivity of cucumber plants. 1825

For earlier, larger blooms; producing camellias with various solutions of gibberellic acid. 1828

Ribonucleic acid synthesis and glutamate excretion in Escherichia coli. 1833

Enrichment of auxotrophic mutants of Aspergillus flavus by tritium suicide. 1834

Infectious drug resistance among clinically isolated Escherichia coli. 1835

A new source of high protein in oats. 2193

Carbohydrate reserves in mountain range plants with respect to phenological stage of development and artifical defoliation. 2446

Critical study of a new device for gibberellin dosage by the elongation of the oat stem. 2454

Crop response to applied zinc in ammoniated phosphate fertilizers. 2455

Plant treatment in relation to the rhizosphere effect. II. Foliar applications of certain chemicals and antibiotics in relation to the rhizosphere microflora of rice (Oryza sativa L.). 2458

Effect of 2,4-D and urea sprays on yield and fruit quality of Balady oranges. 2462

Inoculum production and infection by foliage pathogens. 2733

Phenolic substances and oxidases in connection with the resistance of barley to the powdery mildew (Erysiphe graminis f. sp. hordei Marchal). 2736

Factors influencing expression of oxidant damage to plants. 3052

Localization of dehydrogenases in the nodular tissues of leguminous crops. 3060

The utilization of some nitrogen compounds by some cellulosolytic fungi. 3351

Ions and the grower. 3352

Microorganisms in the rhizosphere of wheat. 3371

The effect of carbamide and thiocarbamide on the resistance of apple to apple scab. 3375

Interaction of TMV-PROTEINS during electrophoretic separation in polyacrylamide gels. 3411

Breakdown and weight loss in Red Jonathan apples in controlled atmosphere storage. 3639

Method of defoliating and desiccating plants with substituted triphenyl phosphates and phosphites. Patent 3,416,911. 3690

Biosynthesis of an estrogenic metabolite by Fusarium graminearum. (Abstract). 3696

Effect of prometryne on 14Co2 fixation in cotton and soybean. 3707

Biochemistry of plant immunity and dormancy as the foundation for the crop protection against diseases and germination. 3985

Effect of Sclerospora graminicola infection on total nitrogen content and free amino acid composition of Bajra plants. 3995

Herbicides in the perspectives of 20 months and 20 years. 4089

Harmlessness of herbicides for the biocenosis. In: Collection of reports geven at the International Herbicide Conference, Prague, June 21-24, 1966. 4090

Gibberellin-induced asymmetric growth of apple fruits. 4318

Hormonal regulation in higher plants. 4319

Steroid alkaloids as compounds produced by potato tubers under stress. 4323

New antheridiogen from the fern Onoclea sensibilis. 4325

Plant injury by air pollutants: Influence of humidity on stomatal apertures and plant response to ozone. 4326

Reduction of preharvest drop and water spot of navel oranges in Southern California. 4331

Chemical regulators in horticulture. 4333

The action of formamide on turnip yellow mosaic virus: Obtaining artificial capsids. 4686

The action of urea on turnip yellow mosaic virus. The properties of RNA obtained at the time of artificial capsid formation. 4701

Studies on the application of electrophoresis to the isolation of RNA infective fractions from tobacco plants infected with the potato virus X. I. Characterisation of RNA preparations from tobacco leaves, analysed by means of electrophoresis in coloured agar gels. 4710

Some observations on ecological, physiological and biochemical aspects of weed control. 4776

Growth retardant tests on potted poinsettias. 4905

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 4907

Diurnal variation in some Krebs cycle enzymes in cactus (Nopalea dejecta) phylloclades. 4910

Boron in plants: A biochemical role. 4912

The determination of the embryo viability of weed seeds by the TTC method. 4917

A biochemical mechanism of natural resistance of apple to Venturia inaequalis. 5834

Effect of the low temperature treatment of the wet culture Aspergillus oryzae 8F1 and germinated seed on the increase of the fermentation activity. 5848

Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil. 5880

Changes in amino-acid content of Amaranthus tricolor leaves infected with Alternaria sp.. 5891

Mobilization factors in uredospores and bean leaves infected with bean rust fungus. 5908

Copper deficiency in citrus. 5916

Biosynthesis of furanocoumarins in diseased celery. 5929

Auxin destruction by Marasmius perniciosus. 5985

A study of the synthesis of lysopine from lysine by crown-gall tissues. 5994

Phosphate distribution in healthy and TMV infected tomato plants. 6052

The effect of TMV on the Hill reaction in chloroplasts from various tobacco species with different resistance. 6060

Reaction of nitrosoguanidine (N-methyl-N'-nitro-N-nitrosoguanidine) with tobacco mosaic virus and its RNA. 6081

Saprophytic development of the flax rust Melampsora lini, race No. 3. 6115

Study of the transfer of amino acids from aminoacyl transfer ribonucleic acid into protein by ribosomes from uredospores of the bean rust fungus. 6879

Persistent pesticides: A problem. 7110

Postirradiation modification of ultraviolet-sensitivity of normal and nitrofurazone-resistant strains of the blue-green alga Anacystis nidulans. 7217

The effect of magnesium on the growth of lucerne, grown on grey forest soils. 7228

An injection method for treating Hemerocallis spikes with colchicine. 7229

Foliar penetration of plant growth substances with special reference to binding by cuticular surfaces of pear leaves. 7230

Auxin and wall extensibility: Reversibility of auxin-induced wall-loosening process. 7233

Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil. 7236

Effects of indoleacetic acid on intracellular distribution of Beta-glucanase activities in the pea epicotyl. 7237

Interaction of plant hormones. 7241

Effect of the composition of the nutrient medium on the amylase localization in Aspergillus oryzae. 7242

Fungal polysaccharide composition and method for making same. Patent 3,436,311. 7244

Cytochemical effects of indoleacetic acid and kinetin on megagametophytic development in Lilium. 7245

The metabolism of 3,4-dichloropropionanilide in plants. Partial purification and properties of an aryl acylamidase from rice. 7246

Changes in ration of sugars and amino acids in cotton-plant and maize upon gamma-irradiation of seeds prior to sowing. 7250

The effect of some treatment conditions on the radiomimetic activity of 1-methyl-3-nitro-1-nitrosoguanidine in plants. 7258

Enhancement by 2,4-dichlorophenoxyacetic acid of chromatin RNA polymerase in soybean hypocotyl tissue. 7278

Flavone composition, flowering, and hypersensitivity to virus in vegetables. 7281

The effect of trace elements on the yield and quality of camomile flowers and peppermint leaves. 7282

Translocation and metabolism of C14-labeled tetramine by Douglas-fir, orchard grass, and blackberry. 7284

Studies on the molybdenum availability. Part I. Molybdenum uptake by plants under different nitrogen and phosphorus nutrition. 7288

Penetration of chlorinated phenoxyacetic and benzoic acids into leaves. 7289

The differential interaction of aflatoxins B1,G1 and G2 with deoxyribonucleic acids from different sources. 7291

Effects of simulated radioactive fallout decay on growth and yield of cabbage, maize, peas and radish. 7298

Effect of acar on bloom date of Richared apples. 7304

The preparation of L- and D-alpha-amino-beta-methylaminopropionic acids and the identification of the compound isolated from Cycas circinalis as the L-isomer. 7311

Relation between black spot and composition of the potato tuber. 7312

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production. 7315

Effect of CCC and glycine betaine on growth and growth-substance content of primary leaves of dwarf French bean (Phaseolus vulgaris L.). 7317

The occurrence of gibberellin-like substances in tulip bulbs. (Tulipa sp.). 7981

Radiation glycemia in tuber tissue in Solanum tuberosum. 7986

Growth-regulating substances from Pinus silvestris separated on Sephadex LH-20. 7990

Physiological classification of plant growth inhibitors. 7991

Pyrimidine dimer formation in ultraviolet irradiated TMV-RNA. 7992

Prevention of photoreactivation of tobacco mosaic virus--ribonucleic acid by reconstitution. 7996

PLANT BREEDING

Sorghum on the move. 188

68th annual report of the Bureau of Sugar Experiment Stations. 191

Triticale in 1967. 225

Coffee berry disease. 226

Plant inspection and what it entails. 258

Phylloxera: Scourge of the vineyard. 289

New developments in hybrid barley research. 520

The transfer of blue mold resistance to tobacco from Nicotiana debneyi. Part IV. Breeding progress 1957-1967. 968

Resistance of tomato lines to TMV. 1568

Alfalfa variety tests in central California. 1582

DDT toxicity in rye (Secale spp.). 1800

Developing alfalfa resistant to alfalfa weevil oviposition. 2101

Resistance to brown stem rot in soybeans. 2102

Inheritance of crown rust resistance in Avena sterilis. 2108

Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 2111

Local reaction and cross protection for strains of squash mosaic virus. 2131

Heritability of seeding disease characteristics in flax. 2162

The effect of aphid numbers and stage of plant growth in determining tolerance to barley yellow dwarf virus in cereals. 2179

Plot techniques with maize dwarf mosaic virus: I. Field studies, 1966. 2192

Inheritance of resistance to bacterial blight of cotton. IV. Tanzania selections. 2754

The use of disease resistance in the glasshouse tomato. 2775

Reaction of barley varieties to Helminthosporium teres Sacc. and Helminthosporium sativum Pam. King and Bakke. 2788

A study of the maize mosaic virus occurrence and its effect on the growth and yield of some corn varieties and hybrids. 2795

Potato cyst eelworm and the advent of eelworm-resistant potatoes in SW. Lancashire. 2830

Investigation into the oat nematode problem. 2839

Genetic complementation in Ustilago hordei. 3346

Report on six years of tobacco blue mold disease in the Federal Republic of Germany (1959-1964). 3358

Interrelationship of three laboratory screening procedures for breeding alfalfa resistant to the alfalfa weevil. 3429

The present status of rice pest research and control. 3446

Virus diseases and the selection of grapes. 3937

Survey, screening, and breeding for bacterial blight resistance in cotton. 3952

Breeding and propagation of virus-free grapes in hydroponic cultures. 4045

The status of papaya breeding in La Molina, Peru. 4653

Breeding work for the creation of glandless cotton varieties in chad. 4654

Research possibilities and the improvement of the carnation cultivated as a cut flower. 4656

Papaya breeding in Hawaii. 4668

Basis for a program of papaya, Carica papaya L., improvment in Colombia. 4676

Inter-species and inter-genera crosses in Caricaceas and their phytotechnical implications. 4696

Inoculation of Carica papaya L. with the ringspot distortion virus under various conditions. 4733

Resistance of Lycopersicon species to the carmine spider mite. 4760

Kota, a new South Dakota oat. 5775

The present and future situation of peach culture in Ferrara. 5789

The sugar beet. 5791

Breeding and management of forage crops in the Eastern Plains. 5797

A contribution to the knowledge of heterosis in potato. 5813

Breeding potatoes for resistance to wart and golden nematode. 5828

Quantitative genetic estimates for brown spot resistance in corn. 5846

Combining abilities and relative dominance among maize inbreds for resistance to earworm injury. 5852

Control of smut on sugarcane. Regulation of varieties of sugarcane which can be cultivated in the state of Sao Paulo. 5854

Results of tests of wheat varieties as to their resistance against grain diseases, carried out in the reclaimed land of the North East between 1961 and 1964. 5875

Breeding for Septoria and Fusarium resistance in wheat. 5925

Verticillium wilt of groundnut in Israel: Screening for varietal resistance. 5931

The occurrence and observation of Puccinia striiformis in the State of Washington. 5935

Progress through research- blue mould of tobacco. 5960

Strains of the fungus Thielaviopsis basicola (Berk. et Br.) Ferr. isolated from the roots of blue lupin (Lupinus 5976

The problems of plant disease control. 6034

Selection of parents and crosses suitable for use in breeding for resistance to scab. 6038

Evidence for the presence of the Ohio strain III of tobacco mosaic virus in tomato in The Netherlands. 6045

Considerations on the resistance of varieties of tomatoes to Fusarium wilt . 6080

Recent trends in disease control in coffee. 6099

Genetics of and breeding for resistance to rice virus diseases. 6111

Selecting and breeding coconut palms (Cocos nucifera L.) resistant to lethal yellowing disease. A review of recent work in Jamaica. 6130

Controlling peach yellows in a peach breeding program. 6232

The problem of leaf hoppers on paddy. 6252

All we know about pink bollworms. 6271

Differences among Scotch pine varieties in susceptibility to European pine sawfly. 6279

An injection method for treating Hemerocallis spikes with colchicine. 7229

Influence of inbreeding carried out during many years on hemp growth and development. 7318

Trials of obtaining artifical tobacco poliploids. 7319

Disease resistance breeding. 7772

Testing cherry rootstocks for resistance to infection by raspberry ringspot and cherry leaf roll viruses. 7774

Tolerance of virus infection in crop plants. 7804

PLANT COMPOSITION

The boron status of deciduous fruit as reflected by leaf and fruit composition. 221

PLANT CONTAMINATION

Bacterial blight elmiminated from California gins. 4724

Mosquito control and/or honey bees. 5769

PLANT CUTTINGS

Chemical aids figure in plant propagators' reports. 516

Losses from fusarium stem rot caused by Fusarium roseum, in production of cuttings of carnation, Dianthus caryophyllus. 3969

Efficiency of some fungicides in the disinfection of the carnation roots. 4692

The dipyridillics in tomato cultures. 4914

PLANT CYTOLOGY

Possibilities for inter- and intracellular translocation of some icosahedral plant viruses. 969

The role of calcium and cell permeability in the disease blossom-end rot of tomatoes. 988

Cytology of the sporangium of Phytophthora capsici. 2194

Electron microscope study of the first stages of alterations of the chloroplasts in Nicotiana xanthi n. c. in its hypersensitive reaction to the tobacco mosaic virus. 2782

Respective roles of the pathogen and gall mites in the morphogenesis and histo-cytological development of two Chermesidae galls. Placed in evidence by the achievement of two similarly mixed galls. 4753

Preliminary observations placed in evidence that phages of Agrobacterium tumefaciens are responsible for Crown-Gall. 5966

Trials of obtaining artifical tobacco poliploids. 7319

Intracellular inclusions in epidermal cells of tobacco infected by tobacco rattle virus. 7802

PLANT DECAY

The death and decay of trees. 985

PLANT DISEASE CONTROL

Protection against virus diseases, an essential aspect of maintenance breeding in fruit growing in Czechoslovakia. 223

Verticillium wilt in the tomato cultures of the Valais. 231

Control of race 2 Fusarium of tomatoes. 237

Dieback. 251

Phytophthora leaf fall and pod rot. 252

Oat diseases and their control. 256

Plant inspection and what it entails. 258

The method of testing seed potatoes by mean of the callose (Igel-Lange) test. 292

Diseases of citrus trees. 975

Observations on the timing of irrigation and the incidence of potato common scab (Streptomyces scabies). 1573

The plant protection law as a responsibility for the control of plant pests and diseases. 1853

Arsenal for disease control. 2115

Modern methods of disease control in florist and nursery crops. 2117

Where does potato blight come from . 2713

Control of tobacco mosaic virus in tobacco. 2731

Rhynchosporium leaf blotch of barley. 2745

Trends in the development of plant virology. 2752

Cauliflower mosaic. 2763

Late blight of potato. 2769

Status of American stem rusts of pine. 2777

Infection, recovery from infection and resistance of apricot trees to Verticillium albo-atrum. 2791

Fungus leaf spot in soybeans. 3353

Report on six years of tobacco blue mold disease in the Federal Republic of Germany (1959-1964). 3358

Anthracnose disease of jowar (Sorghum vulgare Pers.) caused by Colletotrichum graminicolum (Ces.) Wils. in the Punjab. 3363

Market quality of asparagus; effects of maturity at harvest and of high carbon dioxide atmospheres during simulated transit. 3384

Care of tobacco seedlings. 3388

Brassica diseases. 3418

Hot-water treatment of plant material. 3461

Plant protection. Bulletin of the plant disease control station of Geneva. September. 3932

Virus diseases and the selection of grapes. 3937

Problems around the incidence and control of Fusarium oxysporum in tulips. 3943

The present state of grape culture virus research. 3948

Efficacy of fungicides, hot water and gamma-irradiation for control of postharvest fruit rots of papaya. 3971

Fruit disease problems and new approaches to their controls. 3975

Research possibilities and the improvement of the carnation cultivated as a cut flower. 4656

Fairway disease control. 4674

Wheat. 4691

Fungus diseases of bermudagrass and overseeded coolseason grasses on golf greens. 4730

Some observations and comments on stem-pitting of peach, its control and a nursery improvement program. 5782

Growing vegetables in South Dakota. 5832

Pest and disease control aspect of changing cropping patterns. 5842

Black spots of apples: A warning service for fruit-growers. 5865

Italian beet culture. The diseases: Fungi and viruses. 5926

Alfalfa diseases. 5977

Results from a three-year test with the anaerobic method in barley seed disinfection from Ustilago nuda (Pers.) Kell. et sw. 6019

The problems of plant disease control. 6034

Relationship of iron, manganese, and bicarbonate to chlorosis of rice grown in calcareous soil. 6039

Diseases of fruits and vegetables. 6050

Control of survival of Ophiobolus graminis between consecutive crops of winter wheat. 6072

Chemical soil treatment for nematode control in tobacco. 6307

Burning weeds in drainage ditches to suppress populations of green peach aphids and incidence of beet western yellows disease in sugarbeets. 6395

Memorandum on plant pathology. 7765

Some observations on tobacco yellow dwarf control. 6033

PLANT DISEASE RESISTANCE

Varietal resistance to clover rot in white clover. 217

Variation in the host-parasite relationship of a crop disease. 218

Triticale in 1967. 225

The susceptibility of some cultivated plants to Sclerotium rolfsii Sacc. 247

Resistance power of the Austrian winter wheat assortment against dwarf bunt (Tilletia controversa Kuhn). 264

Shifts in disease resistance induced by growth regulators. 514

On the antibiotically active substances of the tulip (Tulipa gesneriana). 543

The transfer of blue mold resistance to tobacco from Nicotiana debneyi. Part IV. Breeding progress 1957-1967. 968

Atkinson, a rootknot and Fusarium wilt resistant tomato variety of the Rutgers class. 1545

Varietal resistance of eggplant to Verticillium wilt. 1562

Resistance of tomato lines to TMV. 1568

Virulence of various groups of physiological races of loose smut of barley Ustilago nuda (Jens.) Rostr.) in the light of anatomical investigations of spring barley varieties different with regard to resistance. 3. The effect of infection upon morphological features of plants. 1571

Alfalfa variety tests in central California. 1582

Varietal resistance of cotton to Fusarium wilt. 1585

Effect of different dates of sowing on yield, disease resistance and other characteristics of American cotton varieties. 1586

Specificity of insect viruses. 1987

Resistance to brown stem rot in soybeans. 2102

Inheritance of crown rust resistance in Avena sterilis. 2108

Relative susceptibility of three peanut cultivars to fat leg (seedling growth anomaly) caused by seed treatment with an organic mercury fungicide. 2119

Phytophthora cinnamomi Rands on conifers in New South Wales. 2121

A rapid method for determining the pathogenicity and factors associated with pathogenicity of Phytophthora cactorum. 2123

Mechanism of resistance of carrot roots to Pythium aphanidermatum (Eds.) Fitz. 2126

Effect of 2,4-dichlorophenoxyacetic acid on tobacco mosaic virus infection. 2127

Susceptibility of three pine species to Scleroderris lagerbergii in Upper Michigan. 2129

Local reaction and cross protection for strains of squash mosaic virus. 2131

Host resistance responses- an induction hypothesis. 2139

Grain yield of corn reduced by maize dwarf mosaic virus infection. 2141

Virulence of various groups of loose smut of barley (Ustilago nuda (Jens.) Rostri) physiological races in the light of anatomical investigations of barley varieties different with regard to resistance. 2. The effect of infection upon anatomical features of plants. 2145

Biochemical control of disease resistance in plants. 2147

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 2151

Gene dosage effects on monogenic chlorotic lesion resistance to northern corn leaf blight. 2158

Heritability of seeding disease characteristics in flax. 2162

Cytogenetic studies on the resistance of Hordeum sativum Jess. mutants, valticky variety, to some fungus diseases. 2170

Cucurbit virus studies in Hawaii. 2172

Resistance mechanisms against onion pink root (Pyrenochaeta terrestris), bioassay of inoculum potential in soil and chemical control. 2174

Additional sources of tolerance to oat crown rust. 2176

The effect of aphid numbers and stage of plant growth in determining tolerance to barley yellow dwarf virus in cereals. 2179

Epidemiology and prevention of bacterial blight disease of rice in India. 2183

Differences in reaction to Puccinia striiformis between first and second leaves in wheat crosses. 2185

Interaction of maize dwarf mosaic virus strains and sugarcane mosaic virus H in corn. 2190

Plot techniques with maize dwarf mosaic virus: I. Field studies, 1966. 2192

A new source of high protein in oats. 2193

Effect of maleic hydrazide on wheat and barley against different rusts. 2704

Relations of disease resistance mechanisms to pathogen dynamics in oat crown rust epidemiology. 2723

A preliminary study on the variability of Xanthomonas oryzae on some rice varieties. 2730

Resistance in Florida citrus to Cercospora citrigrisea. 2735

Phenolic substances and oxidases in connection with the resistance of barley to the powdery mildew (Erysiphe graminis f. sp. hordei Marchal). 2736

Genetics of pathogenicity of Phytophthora infestans. 2737

Inheritance of resistance to bacterial blight of cotton. IV. Tanzania selections. 2754

Chickpea, a new host of Fusarium solani f. sp. pisi. 2757

Antibiotic substances in the potato formed during the necrotic reaction. 2771

The use of disease resistance in the glasshouse tomato. 2775

Contribution to the knowledge of dominant biotypes of the Phytophthora infestans on the potato. 2779

The accumulation of phenolic acids in tissue culture pathogen combinations of Solanum tuberosum and Phytophthora infestans. 2780

Further evidence supporting the hypothesis that two genetic systems control disease reaction to maize dwarf mosaic virus strain A and strain B. 2783

Reaction of barley varieties to Helminthosporium teres Sacc. and Helminthosporium sativum Pam. King and Bakke. 2788

Occurence of a new physiologic race of coffee rust (Hemileia vastatrix). 2789

Infection, recovery from infection and resistance of apricot trees to Verticillium albo-atrum. 2791

Permeability phenomena in plant disease. 2796

Insect secretions in plants. 2811

Fungus leaf spot in soybeans. 3353

Radiation glycemia in tuber tissue in Solanum tuberosum. 7986

PLANT GALLS

Concerning some aspects of tissue nourishing gall mites. 129

Current literature XIX: An annotated bibliography. 201

Spruce galls in Wisconsin. 241

The influence of plant-growth factors on the initiation and growth of crown-gall tumours on primary pinto bean leaves. 527

Acacia galling by a lycaenid (Lep.). 901

Nitrogenous and phenolic compounds of Nicotiana plants. II. Selective incorporation of aromatic amino acids in phenolic compounds of tumorous Nicotiana hybrids. 953

Histochemical localization of the soluble amine and aminopeptidase products in the nutrient tissues of the Cecidomyiid galls. 1554

Some species of Pediobius Walker (Hymenoptera, Eulophidae) inhabiting cynipid oak galls. 1864

Kinetin-like substances produced by plant tumors. 2125

An incidence of the effect of glycine on the virulence of a strain of Agrobacterium tumefaciens (Smith and Town) Conn. 2149

Biochemical analysis of aphid saliva and its importance in gall development. 2233

Species dominance in co-incident infections by Meloidogyne hapla and M. javanica on tomato. 2247

Nebraska root-gall nematode of sugar beets. 2253

Western gall rust on jack pine nursery stock in Manitoba. 2719

A day of study on the Pelargonium. 2761

Application of Ark's method modified in isolation of Agrobacterium rhizogenes in association with Agrobacterium tumefaciens in galls from Rosa sp. and infected soils. 2776

Callusomorphic stage in development of galls caused by Ustilago maydis (DC) CDA. on corn leaves. 2787

New contributions to the study of the gallicolous Itonididae (Cecidomydae) from the Botanical Garden of the University of Bucharest. 3122

Paratephritis transitoria Rhod. (Diptera, Tephritidae), a fly that forms galls on tassel flowers in the Maritime Territory. 3833

The in vitro establishment of pith calluses and nodal tumors of Brassica oleracea. 4004

Overwintering of Meloidogyne incognita in southwestern Ontario. 4047

Respective roles of the pathogen and gall mites in the morphogenesis and histo-cytological development of two Chermesidae galls. Placed in evidence by the achievement of two similarly mixed galls. 4753

A new species of Epuraea associated with eastern gall rust (Coleoptera: Nitioulidae). 5066

Morphology, anatomy and development of the gall of Rhabdophaga ramicola rubs. in Salix purpurea L. 5449

A chemotherapeutic treatment for selectively eradicating crown gall and olive knot neoplasms. 6071

Notes on gall-midges from Israel and their parasites. 6178

A viticultural crisis of more than a quarter of a century: It has been a century since France discovered Phylloxera. 6254

PLANT GENETICS

Variation in the host-parasite relationship of a crop disease. 218

New developments in hybrid barley research. 520

Effect of gibberellic acid on gamma irradiated barley seeds. 531

The transfer of blue mold resistance to tobacco from Nicotiana debneyi. Part IV. Breeding progress 1957-1967. 968

A noninfectious lethal leaf spot in maize. 987

DDT toxicity in rye (Secale spp.). 1800

Developing alfalfa resistant to alfalfa weevil oviposition. 2101

Resistance to brown stem rot in soybeans. 2102

Inheritance of crown rust resistance in Avena sterilis. 2108

Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 2111

DDT resistance in barley, Hordeum vulgare- I. Induced mutants for resistance. 2114

Crown gall tumors in various species and hybrids of Kalanchoideae. 2122

Kinetin-like substances produced by plant tumors. 2125

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 2151

Gene dosage effects on monogenic chlorotic lesion resistance to northern corn leaf blight. 2158

The identification of genes for pathogenicity in Cochliobolus carbonum. 2160

Heritability of seeding disease characteristics in flax. 2162

Cytogenetic studies on the resistance of Hordeum sativum Jess. mutants, valticky variety, to some fungus diseases. 2170

Differences in reaction to Puccinia striiformis between first and second leaves in wheat crosses. 2185

A boll weevil oviposition suppression factor in cotton. 2208

Relations of disease resistance mechanisms to pathogen dynamics in oat crown rust epidemiology. 2723

Genetics of pathogenicity of Phytophthora infestans. 2737

Inheritance of resistance to bacterial blight of cotton. IV. Tanzania selections. 2754

The inheritance of resistance to stem and crown rust in Kyto oats. 2759

Contribution to the knowledge of dominant biotypes of the Phytophthora infestans on the potato. 2779

Further evidence supporting the hypothesis that two genetic systems control disease reaction to maize dwarf mosaic virus strain A and strain B. 2783

Genetic complementation in Ustilago hordei. 3346

Electron microscope examination of ultra-thin sections of Streptomyces viridochromogenes for hyphal anastomoses. 3910

The causes of disease in plant pathology. 3939

Lodging resistance in wheat. II. Identification of superior genetic stocks. 3977

Wild species as a source of resistance to diseases. 4016

Breeding work for the creation of glandless cotton varieties in chad. 4654

The inheritance of a new source of resistance to the potato virus Y in pepper (Capsicum annuum L.). 4713

Kota, a new South Dakota oat. 5775

Modification of gamma ray mutagenic action by temperature shock. 5790

A contribution to the knowledge of heterosis in potato. 5813

Quantitative genetic estimates for brown spot resistance in corn. 5846

Combining abilities and relative dominance among maize inbreds for resistance to earworm injury. 5852

A study of factors influencing the genetics of reaction of barley to root rot caused by Helminthosporium sativum. 5896

Resistance of genes isolated from Avena sterilis to isolates of oat crown rust prevalent in Canada in 1968. 5928

The inheritance of resistance to powdery mildew in the cantaloupe variety seminole. 5953

The expression of R-gene resistance to Phytophthora infestans in tissue cultures of Solanum tuberosum. 5969

Chromosome location and linkage studies involving the Pm3 locus for powdery mildew resistance in wheat. 6013

Studies on the natural accumulation of loose smut infection on wheat - Ustilago tritici (Pers.) Jensen. 6020

Selection of parents and crosses suitable for use in breeding for resistance to scab. 6038

Interrelationships of Ledum species and their rust parasites in Western Canada and Alaska. 6067

Reaction of nitrosoguanidine (N-methyl-N'-nitro-N-nitrosoguanidine) with tobacco mosaic virus and its RNA. 6081

Inheritance of mosaic resistance in sugarcane. 6084

Effects of growth regulators on ear density mutants in barley. 6095

Genetics of and breeding for resistance to rice virus diseases. 6111

Selecting and breeding coconut palms (Cocos nucifera L.) resistant to lethal yellowing disease. A review of recent work in Jamaica. 6130

Radiobiological damage: A new class identified in barley seeds stored after irradiation. 7022

Effect of the moisture content and post-irradiation temperature on the radiosensitivity of wheat and barley seeds. 7239

Occurrence of accessory chromosomes in Panicum maximum Jacq.. 7253

The effect of some treatment conditions on the radiomimetic activity of 1-methyl-3-nitro-1-nitrosoguanidine in plants. 7258

Cytogenic activity of the herbicides-simazine and maleic acid hydrazide. 7302

The mutagenic effect by the action of herbicides on barley. 7303

Disease resistance breeding. 7772

PLANT GEOGRAPHY

Effect of soil fertility on the distribution of plant communities as shown by pot cultures and field trials. 539

Venturia pirina Aderh.; pear (Pyrus communis). Ed. 2. 1644

Cronartium comandrae Pk.; hard pines (Pinus spp.) and Comandra spp. Ed. 1. 1681

New host plant of Acherontia atropos Linn. (Lepidoptera: Sphingidae). 2809

Concerning the problem of the persistence of certain weeds in weeded cultures and in the fall sowing of the Banat region. 3467

The control of rushes. 3479

Biology of the fungus Aspergillus flavus Link and its infectivity to plants and animals. 3973

Preliminary observations on the choice of host plants by adults of the citrus psylla, Trioza erypreae (Del Guercio) (Homoptera: Psyllidae). 4749

The weed vegetation of flower beds and irrigated cultivations in Cairo and some adjacent provinces. 5837

Helminthosporium solani. 5855

The occurrence of some previously unreported diseases of potatoes in Mexico. 5910

Fusariosis of the legume crops in Lithuania. 3. Main forms of lupine fusariosis and its distribution. 6065

Pyricularia oryzae. 6098

Infestation rate and damage by the Nantucket pine tip moth in six loblolly pine stand categories. 6156

Weeds and man. 6325

Locoweed poisoning. 6581

PLANT GRAFTING

Coralloid root systems in plants showing lime induced chlorosis. 234

The influence of latent apple viruses on the growth of various ornamental apples. 2703

Latent viruses in apple varieties and grafting stock. 2749

Apple and pear canker. 2762

PLANT GROWTH INHIBITORS

Short-term growth response to growth regulators in roots of Zea mays. 515

Study of the interaction of growth retardants and a virus on the growth of Prunus persica line GF 305. 535

Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth. 540

The interaction of coumarin and temperature in the germination of lettuce seed. 1163

On the effect of isopropyl-N-3-chlorophenyl-carbamate (CIPC) on the sugar content of potato tubers. 1169

Volatile growth inhibitors produced by Salvia leucophylla: effect on seedling growth and respiration. 1171

An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818

Study on the sucker control of decapitated (topped) tobacco plants. 1819

Effect of metabolic inhibitors on systems involved in the growth of elongating cells during root formation. 1827

Resistance mechanisms against onion pink root (Pyrenochaeta terrestris), bioassay of inoculum potential in soil and chemical control. 2174

Selective action of chloroxuron on soybean and morningglory. 2448

Effect of trifluralin on growth of Sclerotium rolfsii in liquid culture and soil. 2459

Phenethyl alcohol and tryptophol: Autoantibiotics produced by the fungus Candida albicans. 3059

Light filtration by foliar canopies: Significance for light-controlled weed seed germination. 3486

Dissipation and phytotoxicity of dicamba. 3687

B-Nine reversal of Benzimidazole-or IAA-INDUCED inhibition of growth and yield of cowpea plants. 3697

Effect of prometryne on 14Co2 fixation in cotton and soybean. 3707

The response of Kentucky bluegrass to soil residues of preemergence herbicides. 3709

Inactivation of herbicides by activated carbon and other adsorbents. 3716

Field observations on effectiveness of maleic hydrazide applied to onions by helicopter. 4327

Chemical regulators in horticulture. 4333

Gibberellin delays ripening of tomatoes. 4906

Studies on the effect of growth regulators on pollen germination and tube growth in shoe flower (Hibiscus Rosasinensis L.). 4920

Sorbic acid as an inhibitor of the Fusarium vasinfectum fungus, which induces wilt in the cotton plant. 6030

Chemical growth inhibition in turf. 6349

Effects of growth retardants on Vitis vinifera L. 7218

Auxin and wall extensibility: Reversibility of auxin-induced wall-loosening process. 7233

Cytochemical effects of indoleacetic acid and kinetin on megagametophytic development in Lilium. 7245

Interaction of CCC and Coumarin or IAA on seedling growth of rice. 7274

Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate. 7285

Effect of trifluralin on growth, morphology, and nucleic acid synthesis. 7292

Investigation of the effect of growth inhibitors on shoot growth of Pozegaca plum cultivar. 7300

On the mechanism of gibberellin-auxin interaction. IV. Effect of gibberellin treatment on the oxidative destruction of indoleacetic acid in bean hypocotyl tissues. 7310

Effects of 2-chloroethyl-trimethylammonium chloride (CCC) on yield and lodging of wheat. 7313

Method for controlling the growth of potato plant organisms. Patent 3,443,928. 7328

Physiological classification of plant growth inhibitors. 7991

PLANT GROWTH REGULATOR

Effect of gibberellic acid and Phosfon on the critical dark period requirement for flowering of Impatiens balsamina cv. Rose. 1172

Weed control with growth regulating substances in micro granule herbicides. 2874

Modification of 2,4-dichlorophenoxyacetic acid movement in bean petioles by light. 3689

Plant growth promoting metabolites of Sclerotinia sclerotiorum (II) The synthesis of sclerotinin B. 4673

The occurrence of gibberellin-like substances in tulip bulbs. (Tulipa sp.). 7981

Gibberellin-like substances in the fruits of Ginkgo biloba L.. 7982

PLANT HARDINESS

Chemical weed control. 301

Persistance of diverse alfalfa varieties under grazing. 947

The physiology, inter-relationships and effects on the wood of fungi which attack birch and aspen pulpwood. 1567

Studies on the attack behavior of the southern pine bettle. IV. Influence of host condition on aggregation pattern. 2064

Seedlings vigor evaluation of four birdsfoot trefoil varieties grown under two temperature regimes. 2106

DDT resistance in barley, Hordeum vulgare- I. Induced mutants for resistance. 2114

Additional sources of tolerance to oat crown rust. 2176

How to prevent sun and heat damage to desert-grown tomatoes. 3909

Red rot in residual ponderosa pine stands on the Navajo Indian Reservation. 4663

Cultivation of the sapogenin-bearing Dioscorea species. 4664

Rust infection protects beans against heat injury. 4732

Results of tests of fall colza varieties 1963-1966. 6120

Conversion of 4-(2,4-dichlorophenoxy) butyric acid to homologs by alfalfa; mechanism of resistance to this herbicide. 7264

PLANT HISTOLOGY

Dutch elm disease recurrence and recovery in American elm. 962

Some histological effects of 2,4,5-trichlorophenoxyacetic acid appied to mature apricot leaves. 1810

Translocation patterns of selected herbicides and influence of fenac on some physiological and histological changes in mugwort. 3062

Red ring disease of the coconut palm, inoculation studies and histopathology. 3455

Respective roles of the pathogen and gall mites in the morphogenesis and histo-cytological development of two Chermesidae galls. Placed in evidence by the achievement of two similarly mixed galls. 4753

Vegetative reproduction in western ironweed. 5839

On the significance of the Lygus species as a plant pest. 6154

Effect of trifluralin on growth, morphology, and nucleic acid synthesis. 7292

PLANT HORMONES

Gibberellin A23 in immature seeds of Lupinus luteus. 199

Effects of gibberellin on photosynthesis in red clover (Trifolium pratense L.). 542

Growth regulator control of fruit set and development in the highbush blueberry (VACCINIUM CORYMBOSUM L.). 2450

Critical study of a new device for gibberellin dosage by the elongation of the oat stem. 2454

The nature of TIBA action. 3691

The occurrence of 20-Hydroxy-ecdyson in Vitex megapotamica. 3703

Distribution, importance and problems of herbicide use in Yugoslavia. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4083

Hormonal regulation in higher plants. 4319

New antheridiogen from the fern Onoclea sensibilis. 4325

Chemical regulators in horticulture. 4333

Some experiments on polarity of IAA-2-C14 transport in Helianthus annuus seedlings. 4903

Gibberellins as plant hormones. 4904

Auxin destruction by Marasmius perniciosus. 5985

Effects of indoleacetic acid on intracellular distribution of Beta-glucanase activities in the pea epicotyl. 7237

Interaction of plant hormones. 7241

Gibberellin and growth in stone fruits: Induction of parthenocarpy in plum. 7251

On the mechanism of gibberellin-auxin interaction. IV. Effect of gibberellin treatment on the oxidative destruction of indoleacetic acid in bean hypocotyl tissues. 7310

Role of growth regulators in differentiation processes of maize (Zea mays L.) organs. 7995

PLANT HOSTS

A massive invasion of Stilpnotia salicis. (Lymantriidae). 46

Morphological and biological investigations on clones and field populations of the foxglove-aphid, Aulacorthum solani KLTB. 1843 sensu latiore (Hemipt. Aphid.). 127

A fruit pest is being sterilized. 272

Middle German leaf miner finds. Part 2. 1208

The North American Aegeriidae (Lepidoptera): A revision based on late-in tar larvae. 1893

Macrosiphum alpinum n. sp. (Homoptera: Aphididae). 1898

Concerning knowledge of the order Periommatus Chapuis (Coleoptera, Platypodidae). III. 1901

Greenhouse studies of host plant suitability to Graminella nigrifrons, a vector of corn stunt virus. 2206

Some observations on the biological cycle of Tylenchulus semipenetrans Cobb, 1913 (Nematoda, Tylenchulidae). 2250

Host suitability of a number of plants for the nematode Tylenchorynchus dubius. 2251

Electron microscopy of plant viruses. Bibliography 1935-1965. 2714

Additions to host records of root knot nematodes. 2840

Wild and cultivated grass hosts of the southern root-knot nematode, Meloidogyne incognita. 2846

Imported Cerambycidae. 3151

Zanclognatha tenuialis Rebel in France (in Alsace and L'Isere). (Lep. Noctuidae, Hypeninae). 4376

Host range of Xanthomonas oryzae in the Philippines. 4689

Black stem- the second stem disease of grains. 4734

Study of the dependence of the population dynamic of the apple moth (Carpocapsa pomonella L.) on the fruit yield of the hostplant. 4755

PLANT INJURIES

Photochemical and exhaust fume damage to plants. 193

Dieback. 251

Ratoon stunting disease and drought a disastrous combination. 259

The Hessian fly. 281

Phylloxera: Scourge of the vineyard. 289

External and internal symptomology on Vitis from plant sucking insects. 290

The sugarbeet nematode. Problems and progress in its control in Colorado. 293

Eelworms in tea: Some problems. 295

Slugs cause damage in Ohio cornfields. 328

New developments in hybrid barley research. 520

Effect of gibberellic acid on gamma irradiated barley seeds. 531

Studies on the mechanism of injurious effects of toxic gases on crop plants. I. Relation between the concentration of sulfur dioxide and the degree of leaf injuries in several crops. 541

The structure of the damage done by Chilo suppressalis in the first outbreak area. I. Relation of boring stage to growth of larvae and amount of rice plants damaged. Transl. 16860. 791

Cultivated palms of Venezuela. 941

The death and decay of trees. 985

A mite of the genus Tydeus (Acariformes, Tydeidae) that is a grape pest in Moldavia. 1002

Canada thistle and its control. 1029

One previously described and one new species of South American Bruchidae injurious to commercial legume seed crops (Coleoptera). 1275

Studies on some land snails injurious to agriculture in U.A.R. 1363

Junctions between epidermal cells as sites of appressorium formation by plant pathogenic fungi. 1578

Developments in the control of tea pests. 1580

The rate of crown fade of trees killed by the Douglas-fir beetle in southwestern Oregon. 1599

Scale insects, mealy bugs and lac insects. 1615

Small doses of D-D soil fumigant to control free-living nematodes injurious to sugar beet. 1630

Further observations on the susceptibility of maincrop potato cultivars to slug damage. 1640

DDT toxicity in rye (Secale spp.). 1800

A note on the outbreak of the Bombay locust, Patanga succinctal, Cyrtacanthacrinae, Acrididae, in the Laccadive Islands during 1967. 1939

Certain minor crop pests hitherto unrecorded from the Gujarat state. 2025

Biotic factors involved in crucifer aphid outbreaks following insecticide application. 2039

A new biotype of cabbage aphid (Brevicoryne brassicae (L.)) on aphid resistant rape (Brassica napus L.). 2220

Population dynamics and pathogenicity of three species of Pratylenchus on peach. 2244

Citrus-root nematode in Iran. 2246

Potato tuber eelworm. 2249

The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato. 2252

Sofar unnoticed damage to fruit trees, brought about by field mice. 2263

Air pollution damage to chrysanthemum foliage. 2387

Apple and pear canker. 2762

Status of American stem rusts of pine. 2777

Effect on young sugar beet (Beta vulgaris L.) plants of Heterodera schachtii Schmidt 1871, alone, and in combination with Rhizoctonia solani Kuhn 1858. 2778

Insects of the season 1967 related to fruit, vegetables and ornamentals. 2807

Economically important plant parasitic nematodes in Ontario. 2843

Herbicide screening trials on vegetable crops. 2854

Factors influencing expression of oxidant damage to plants. 3052

Chemical control of the Gujhia weevil, Tanymecus indicus Faust. (Curculiondae: Coleoptera). 3082

On the problem of increase of injury in practical plant protection. 3345

Market quality of asparagus; effects of maturity at harvest and of high carbon dioxide atmospheres during simulated transit. 3384

Controlling stem-end rot of ripe mango. 3398

Watch for new cotton insects. 3425

Insect pests of safflower. 3447

Lygus-bug feeding on developing carrot seed: Effect on plants grown from that seed. 3449

Investigation of the soil of a vineyard flooded with kerosine. 3652

Soybean injury from triazine residues in soil. 3686

Persistance pattern for diuron and linuron in Norfolk and Duplin sandy loam soils. 3712

How to prevent sun and heat damage to desert-grown tomatoes. 3909

Brown rot control in Southern California. 4015

Buggy-whip of corn and its relation to the incidence of common smut. 4017

The peach twig borer and its control. 4032

The attraction to Pissodes notatus (Col. Curculionidae) of the wounds formed by Matsuococcus feytaudi Duc. (Hom. Coccoidea) on maritime pine. 4034

Plant injury by air pollutants: Influence of humidity on stomatal apertures and plant response to ozone. 4326

Chemical injury on Golden Delicious apples treated with diphenylamine. 4328

Plant protection in agriculture. 4670

The problem of the potato blackleg disease. 4697

Rust infection protects beans against heat injury. 4732

Spider mites on cotton; how to control them. 4737

Resistance of Lycopersicon species to the carmine spider mite. 4760

Sex lure hoax may prove male beet wireworm's undoing. 4765

Blackberry control near orchards and vegetable gardens. 4770

Watch for the cereal leaf beetle. 5186

Controlling the Japanese beetle. 5187

Hard to kill pests of fruit trees - woolly apple-aphid. 5195

Early season insects no problem for B. A. Jordan. 5196

Lawn insects; how to control them. 5658

Bagworm. 5662

Life history, habits, and damage of Chrysobothris orono (Coleoptera: Buprestidae) on red pine in Michigan. 5680

Combining abilities and relative dominance among maize inbreds for resistance to earworm injury. 5852

Growing camellias. 5859

Occurence and host range of Ascochyta phaseolorum in Queensland. 5862

It takes more than tender, loving care to prevent blackspot. 5870

Elytroderma disease of ponderosa pine (Pinus ponderosa) in the Pacific Northwest. 5893

Injured cells required for the initiation of plant virus infections. 5983

Septoria spot on grapefruit in Southern California. 6101

Studies on resistance to yellow mosaic in barley. II. Comparison of varietal reactions to the viruses of different sources and relation between disease symptom and damage. 6103

Fusarium foot-and-stem disease of the carnation. 6127

Field studies on the chemical control of the stem borer Chilo partellus on hybrid sorghum in India.
6143

Damage caused by adults of Lepidoptera Noctuidae in mango fruits in 1964.
6145

Alfalfa hopper damages small soybean plants.
6151

On the significance of the Lygus species as a plant pest.
6154

Alfalfa insects in Ohio.
6158

Effects of the winter moth on growth and mortality of red oak in Nova Scotia.
6173

Insecticidal field treatments for the control of the European corn borer. Ostrinia nubilalis (Hubner) in Southwestern Quebec, 1967.
6193

Bloodworms- pests of rice.
6200

Termites need no longer threaten groundnut in Nimar.
6202

Capsid bugs on fruit.
6225

A viticultural crisis of more than a quarter of a century: It has been a century since France discovered Phylloxera.
6254

Studies on the antifeedant against the catterpillars of Pericallia ricini F. (Arctiidae) and Spodoptera littoralis Boesd. (Noctuidae: Lepidoptera) on castor (Ricinus communis L.).
6259

Effects of spittlebug injury on root production and sod reserves of Coastal bermudagrass.
6264

How to control jute pests economically.
6267

The amount of foliage consumed or destroyed by laboratory-reared larvae of the black-headed budworm, Acleris variana.
6272

Spruce budworm damage symptoms related to radial growth of grand fir, Douglas-fir, and Engelmann spruce.
6275

Insects on trial in fight against lantana.
6276

Phenology of the potato tuber moth, Gnorimoschema operculella Zell., in Israel in the spring.
6280

The golden nematode of potatoes and tomatoes.
6283

The muskrat in Loire-Atlantique.
6410

New contributions to the subject 'birds and agriculture'.
6411

Snails and slugs in Central California.
6413

Determination of residual bHC and lindane quantities in the soil and plants and investigations on their toxicity.
7091

Tobacco stalk and root destruction with herbicides and their effect on tobacco mosaic virus.
7249

Recovery from gamma radiation injury in barley seeds.
7256

Relation between black spot and composition of the potato tuber.
7312

The microfoil boom.
7394

The cereal leaf beetle in Ohio.
7647

Abscission of cotton flower buds and petioles caused by protein from boll weevil larvae.
7831

The grass stunt mite, Aceria neocynodonis Keifer in South Africa.
7833

Growth and fruit drop of young fruit trees sprayed with the acaricides demeton-methyl or tetradifon.
7984

Phenol metabolism in relation to disease resistance of potato tuber. II. Exponential equation relating levels of phenols or phenolic enzymes to distance from locus of injury of plant tissue.
7997

PLANT LAYERING
Propagation of grape (Vitis vinifera L.) by air layering with the aid of plant regulators.
7299

PLANT METABOLISM
Coralloid root systems in plants showing lime induced chlorosis.
234

Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants.
978

Metabolic regulation in diseased leaves. II. Changes in nicotinamide nucleotide coenzymes in barley leaves infected with powdery mildew.
982

Metabolism of glucomannan-protein during germination of bean rust spores.
1118

Absorption, translocation and metabolism of 3-amino-1,2,4-triazole in Pinus ponderosa and Abies concolor.
1167

The effects of gibberellin on the metabolism of ethanol-soluble constituents in the cotyledons of hazel seeds (Corylus avellana L.).
1173

Tree physiology and forest pests.
1607

Inositol metabolism in plants. VI. Conversion of myo-inositol to phytic acid in Wolffiella floridana.
1822

Biochemical aspects of triazine based herbicides.
2255

The influence of plants on the inactivation of soil herbicides for example of simazine and atrazine.
3046

Storage effects on forcing response and gibberellin levels in easter lilies.
3053

Seasonal changes in gibberellin-like compounds in ovaries and young fruits of navel orange.
3064

The effect of pre-planting seed treatment by gamma rays on the oxidative phosphorylation in cotton leaves.
3676

Biochemistry of plant immunity and dormancy as the foundation for the crop protection against diseases and germination.
3985

Effects of tobacco mosaic virus on the phosphorus metabolism of Nicotiana xanthi n. c.
4000

Boron in plants: A biochemical role.
4912

Changes in growth and metabolism of excised pea roots associated with iron deficiency. I. Changes in number of cells, nitrogenous constituents and respiration rate.
5856

Phosphate distribution in healthy and TMV infected tomato plants.
6052

Herbicide selectivity.
6317

Properties and effects of WL-9385-D on rice and some weed species.
6332

Nitrogen metabolism in developing seeds of Vicia faba.
7225

The metabolism of 3,4-dichloropropionanilide in plants. Partial purification and properties of an aryl acylamidase from rice.
7246

Arginine metabolism in germinating seeds of some members of the leguminosae.
7255

Enzyme studies in nematode infected root-knots of the tomato plant.
7257

Translocation of the growth retardant N,N'-dimethylaminosuccinamic acid-14C (B-995-14c)9.
7275

Translocation and metabolism of C14-labeled tetramine by Douglas-fir, orchard grass, and blackberry.
7284

Influence of simazine on chloroplast metabolism.
7294

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production.
7315

The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part I. Water balance and the optake of some mineral nutrients.
7316

Utilization of oligosaccharides by two pathogenic isolates of Colletotrichum dematium.
7782

Ion uptake of sweet potato roots infected by the black rot fungus.
7989

Phenol metabolism in relation to disease resistance of potato tuber. II. Exponential equation relating levels of phenols or phenolic enzymes to distance from locus of injury of plant tissue.
7997

Phenol metabolism in relation to disease resistance of potato tuber. I. Activities of phenol oxidase and some enzymes related to glycolysis as affected by chlorogenic acid treatment.
7998

The effect of CCC and Amo-1618 on growth, catalase, peroxidase and indoleacetic acid oxidase activity of young barley seedlings.
4908

PLANT MORPHOLOGY
Morphological changes in wheat caused by the action of chlorcholinchloride-CCC.
524

The transfer of blue mold resistance to tobacco from Nicotiana debneyi. Part IV. Breeding progress 1957-1967.
968

Virulence of various groups of physiological races of loose smut of barley Ustilago nuda (Jens.) Rostr.) in the light of anatomical investigations of spring barley varieties different with regard to resistance. 3. The effect of infection upon morphological features of plants.
1571

Effect of different dates of sowing on yield, disease resistance and other characteristics of American cotton varieties.
1586

An attempt at analysing the process of penetration by soil nematodes into plants.
1624

Morphology, pathogenicity, and cultural characteristics of single conidium isolates of Alternaria longipes.
2180

The rapid development and spread of strain B downy mildew of lima beans.
2198

Variation in the smut fungi.
2695

Concentration of potato-M-virus in potatoes and tomatoes. 2709

A new species of Pestalotia on the leaves of Phoenix rupicola Ander. 2721

Vesicular-arbuscular mycorrhiza and plant growth. 2740

Citrus cancroid. 3356

The ultrastructure of cells of Dianthus caryophyllus infected with a virus. 3408

Spore development in the brown rot fungi (Sclerotinia spp). 3423

Some underground relationships between Agropyron spicatum and Bromus tectorum. 3470

The control of rushes. 3479

Some observations on experimental infection with Histoplasma farciminosum (Rivolta) and the morphology of the organism. 3589

The nature of TIBA action. 3691

Meiotic and morphological response of grain sorghum to atrazine, 2,4-D, oil, and their combinations. 3694

Morphological variation in the sugarcane smut, Ustilago scitaminea Syd. 3920

The influence of herbicides on the morphology of cereal cultures. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4320

Morphology and mode of germination of conidia of Helminthosporium oryzae in relation to its taxonomy. 4657

Mosquito pollination of Habenaria obtusata (Orchidaceae). 4675

Studies on Phyllosticta blight of rice. 4703

Respective roles of the pathogen and gall mites in the morphogenesis and histo-cytological development of two Chermesidae galls. Placed in evidence by the achievement of two similarly mixed galls. 4753

Diurnal variation in some Krebs cycle enzymes in cactus (Nopalea dejecta) phylloclades. 4910

A note on the anatomical derangement in the root tissue of root (wilt) diseased coconut palm. 5383

Utility value of different cultivated Mentha piperita varieties. 5788

Avena magna: An important new tetraploid species of oats. 5824

Relation of beet yellows virus to the phloem and to movement in the sieve tube. 5923

Interrelationships of Ledum species and their rust parasites in Western Canada and Alaska. 6067

Water hyacinth: Noxious weed that must be checked. 6379

Gibberellin and growth in stone fruits: Induction of parthenocarpy in plum. 7251

Effect of trifluralin on growth, morphology, and nucleic acid synthesis. 7292

Response of two species of Ipomoea to gibberellic acid treatment. 7987

Application of the gametocide FW-450 for producing male sterility in radish (Raphanus sativus V. Radicola D. C.). 7994

PLANT MUTATION

A noninfectious lethal leaf spot in maize. 987

DDT resistance in barley, Hordeum vulgare- I. Induced mutants for resistance. 2114

Cytogenetic studies on the resistance of Hordeum sativum Jess. mutants, valticky variety, to some fungus diseases. 2170

Progress and goals of chemical weed control. 2871

Effects of growth regulators on ear density mutants in barley. 6095

PLANT NEMATODE RESISTANCE

Atkinson, a rootknot and Fusarium wilt resistant tomato variety of the Rutgers class. 1545

The influence of a small application of manure near the seeds on the plant's resistance to infection by nematodes. 2240

Host suitability of a number of plants for the nematode Tylenchorynchus dubius. 2251

Meloidogyne incognita acrita infection failure in aerial parts of cotton. 2829

Potato cyst eelworm and the advent of eelworm-resistant potatoes in SW. Lancashire. 2830

Relationships between infection pressure and terminal infection in the case of Heterodera rostochiensis Woll.,. 2831

Sugar beet nematode (Heterodera schachtii) reared on axenic Beta vulgaris root explants. I. Selected environmental factors affecting penetration. 2835

Investigation into the oat nematode problem. 2839

Stem eelworm on clover. 3460

Host resistance reflected in differential nematode population structures. 4058

The role of nematodes in horticulture. 4767

Resistance to boll weevil (Anthonomus grandis Boh.) oviposition in cotton. 6197

Burrowing nematodes may survive on variants of milam lemon. 6290

PLANT NEMATODES

Pests are endangering our cultivated plants. 211

The sugarbeet nematode. Problems and progress in its control in Colorado. 293

Nematodes can be controlled. 294

Eelworms in tea: Some problems. 295

Relative efficacy of different oil-cakes on the incidence. of root-knot nematodes. 298

Diseases of citrus trees. 975

Losses caused by potato cyst eelworm in the Isle of Ely. 1022

The biology of Rotylenchulus parvus. 1023

Control of Meloidogyne javanica in potato tubers and M. hapla in the roots of young rose bushes by means of heated water. 1024

Pressurised soil fumigation equipment for control of eelworm. 1194

Atkinson, a rootknot and Fusarium wilt resistant tomato variety of the Rutgers class. 1545

Plant pathology in New Zealand. 1555

The soybean cyst nematode threat. 1621

The determination of the number of successive generations Heterodera schachtii during one vegetation period in Slovakia (CSSR). 1622

Desiccation survival in the plant parasitic nematodes, Heterodera rostochiensis Wollenweber and Ditylenchus dipsaci (Kuhn) Filipjev. 1623

Threadworms and the plant protection. 1625

Domestic quarantine notices. Soybean cyst nematode. Regulated areas. 1626

Analysis of the occurrence of nematodes in alfalfa crops. III. Some observations on age structure. 1627

Analysis of the occurence of nematodes in alfalfa crops. II. Abundance and quantitative relations between species and ecological groups of species. 1628

Small doses of D-D soil fumigant to control free-living nematodes injurious to sugar beet. 1630

North Carolina initiates nematode advisory service. 1849

The plant protection law as a responsibility for the control of plant pests and diseases. 1853

Diseases of sugarbeet in Arizona. 2112

Systemic pesticides for control of sting and stubby-root nematodes on vegetables. 2239

Survival of soybean cyst nematodes in seed bags. 2243

Population dynamics and pathogenicity of three species of Pratylenchus on peach. 2244

Saprozoic nematodes transmit Streptomyces phage. 2245

Citrus-root nematode in Iran. 2246

Species dominance in co-incident infections by Meloidogyne hapla and M. javanica on tomato. 2247

Mutual antagonism between Heterodera tabacum and some other parasitic nematodes. 2248

Potato tuber eelworm. 2249

Some observations on the biological cycle of Tylenchulus semipenetrans Cobb, 1913 (Nematoda, Tylenchulidae). 2250

Host suitability of a number of plants for the nematode Tylenchorynchus dubius. 2251

The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato. 2252

Nebraska root-gall nematode of sugar beets. 2253

Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host. 2261

Effect on young sugar beet (Beta vulgaris L.) plants of Heterodera schachtii Schmidt 1871, alone, and in combination with Rhizoctonia solani Kuhn 1858. 2778

Golden nematode. Notice of public hearing. 2827

Pathogenecity of Pratylenchus brachyurus to citrus. 2828

Meloidogyne incognita acrita infection failure in acrial parts of cotton. 2829

Observations on soil exhaustion by Rosaceae. 2832

Crop rotation effects and nematodes. 2833

Distribution and damaging effect of the genus Pratylenchus in Westphalia-Lippe. 2836

Ten year observations on the appearance of oat nematodes in the Rheinland-Pfalz. 2837

Discocriconemella yossifovichi n. sp. (Nematoda: criconematidae) on grape vine in Yugoslavia. 2838

Cereal cyst nematode--a nematode new to New South Wales. 2841

Economically important plant parasitic nematodes in Ontario. 2843

Results of the control of Tylenchulus semipenetrans Cobb., a parasitic nematode of citrus, by means of 1,2-dibromo-3-chloropropane. 2845

Investigation into the vertical migration of Meloidogyne hapla. 2848

Costs and results of the control of the golden nematode of the potato. 2850

The dynamics of nematode movement. 2851

Developmental tendencies in Phytonematology. 2852

Effects of soil fumigation on disease incidence, growth, and yield of spring wheat. 3367

Pests and diseases of cultivated plants. 3372

On the possibilities of insects as the carriers of root-rot fungus (Fomes annosus (Fr.) Cooke). 3445

Red ring disease of the coconut palm, inoculation studies and histopathology. 3455

Dynamics of the permeation of nematodes by water, nematocides and other substances. 3456

The distribution of the cereal cyst nematode (Heterodera avenae) in Victoria and its relation to soil type. 3457

Cereal cyst eelworm. 3458

Potato tuber eelworm. 3459

Stem eelworm on clover. 3460

Hot-water treatment of plant material. 3461

Nematodes in an irrigated vineyard. 3462

Transmission of viruses by Longidorus elongatus. 3463

Crop rotation hygiene in grain cultures. 3912

The plant protection import controls in Bavaria. 3918

The present state of research and of the control of rice pests. 3924

Virus diseases and the selection of grapes. 3937

The present state of grape culture virus research. 3948

The rate of contamination in relation to the percentage of infection in the parasitic diseases of plants. 4029

Influence of six cover crops on population density of Pratylenchus penetrans. 4046

Overwintering of Meloidogyne incognita in southwestern Ontario. 4047

Nematodes associated with bananas in the Windward Islands. 4048

Survival of the soybean cyst nematode in seed stocks. 4049

Nine varieties of southern peas resistant to the soybean cyst nematode. 4050

Life cycle and reproduction of Meloidogyne hapla on potato. 4052

Nematodes are destructive to your plants. 4053

Longidorus africanus a pathogen of head lettuce in the Imperial Valley of southern California. 4054

Nematodofauna of a mixed hornbeam-oak forest soil and of the neighboring cultivated lands at Bab near Nitra. 4055

Golden nematode found in Delaware. 4056

Control of the citrus nematode, Tylenchulus semipenetrans, with 1,2-dibromo-3-chloropropane in Taiwan. 4057

Host resistance reflected in differential nematode population structures. 4058

The status of papaya breeding in La Molina, Peru. 4653

Plant protection in agriculture. 4670

Narcissus flies. 4748

Domestic quarantine notices. Soybean cyst nematode. Quarantine and regulations. 4764

Tests of nematocidal fumigants in the control of the nematodes of beets (Heterodera schachtii Schm. and Meloidogyne spp.). 4766

Nematodes attack bananas. 4768

Fumigants and specific nematocides in the control of phytophagous nematodes. 4769

The present status of rice pest research and control. A literature review. 5827

Breeding potatoes for resistance to wart and golden nematode. 5828

Interactions of Oospora pustulans, Rhizoctonia solani and Heterodera rostochiensis on the potato. 5917

Peanut pod invasion by fungi in the presence of lesion nematodes in Georgia. 5974

Diseases of fruits and vegetables. 6050

Insect pests of palm trees. 6230

Italian beet culture. The protection against insect pests. 6233

The golden nematode of potatoes and tomatoes. 6283

Regulation in connection with field and greenhouse culture of nursery plants. 6284

Cellulytic and pectolytic enzymes in the nematode, Aphelenchus avenae. 6285

Losses caused by potato cyst eelworm in the Isle of Ely. 6286

Significance of males in reproduction of the soybean cyst nematode (Heterodera glycines). 6288

Morphological variant of Tetylenchus joctus Thorne (Nemata: Tylenchida) associated with cultivated blueberries in Indiana. 6289

Burrowing nematodes may survive on variants of milam lemon. 6290

Control of eelworm diseases of bananas in Western Australia. 6291

Cuticle ultrastructure of the Meloidogyne hapla larva. 6292

A nematological study of some cultivations on the south coast of Spain. 6294

Nematodes and roses. 6297

Cotton and plant parasitic nematodes. 6298

Injury to Heterodera tabacum by high soil temperatures. 6299

'miracle' tree is in trouble. 6301

The conditions for occurrence of potato root eelworm (Heterodera rostochiensis Woll.) in Poland. 6302

A nematode survey of tobacco soils in Rhodesia and Zambia, and the effects of grass-tobacco rotations on nematode populations. 6303

Tropical nematology. 6305

Developmental tendencies in phytonematology. 6308

Gnotobiotic culture and its significance to plant nematology. 6309

Enzyme studies in nematode infected root-knots of the tomato plant. 7257

On some problems with the bionomics of the beet nematode (Heterodera schachtii Schmidt, 1871). 7597

Testing of fungicides and insecticides 1967. 7763

Survey, identification and pathogenicity tests of nematodes associated with tobacco grown in Cagayan Valley and the Ilocos Region. 7845

The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures. 7847

In vitro feeding of Telotylenchus loofi on great millet (Sorghum vulgare) roots. 7849

Glass-house and laboratory studies on the biology of the needle nematode, Longidorus elongatus. 7851

PLANT NUTRITION

Concerning some aspects of tissue nourishing gall mites. 129

PLANT NUTRITIONAL DEFICIENCIES

The boron status of deciduous fruit as reflected by leaf and fruit composition. 221

Tempting the soybean's erratic appetite. 228

Manganous oxide (MnO) as a fertilizer for controlling manganese deficiency in oats. 257

Growth of planted chestnut trees (Castanea crenata) in relation to soil nutrients in Korea. 528

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season. 949

Molybdenum in soils and its availability to plants. 1164

A note on the occurrence of watercore breakdown in apples during 1966. 1583

Iron in citrus production. 1593

Effect of gibberellin (GA) and mineral nutrition on the growth and productivity of cucumber plants. 1825

A comparative study on urea sprays upon some deciduous fruit trees. 2100

Citrus-root nematode in Iran. 2246

The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato. 2252

Loss of gibberellins by leaching from stems and foliage of Chrysanthemum morifolium 'Princess Anne'. 3057

The utilization of some nitrogen compounds by some cellulosolytic fungi. 3351

Ions and the grower. 3352

Boron nutrition of sugar beet, cotton, and soybean. 3699

Are fertilizer programs related to fireblight and fruit disorders at harvest. 3933

Micronutrients: The secret of better yields for farmers. 3976

The effects of increasing molybdenum rates on building of dry material of clover. 4322

Stability of taxonomic characters in cultures of Diplodia and related genera as influenced by various carbon sources. (Abstract). 4330

Rhizosphere root exudates and their effect on microbial activity. 4662

Possibilities of limiting tillage measures in potato cultures when using herbicides. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4773

Trials with carbon dioxide, light and growth substances on forest tree plants. 4909

Boron in plants: A biochemical role. 4912

Manures and fertilizers. 5853

It takes more than tender, loving care to prevent blackspot. 5870

Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil. 5880

The effect of viral infection on the total choline content in potato and black currant leaves. 5894

Copper deficiency in citrus. 5916

The response to phosphorus of some ecologically distinct plant species. I. Growth rates and phosphorus absorption. 6058

Zinc deficiency may limit maize yields. 6075

PLANT PESTS

Notes on some Japanese Eriosomatinae (Homopt., Aphididae) and their life cycle. 1408

Tree physiology and forest pests. 1607

Plant protection in agriculture. 4670

Attack on moco cotton by pink bollworm in Ceara. 4756

PLANT PHYSIOLOGICAL DISEASES

A fissure of physiological origin in carnation plants. 2742

A physiological defoliation of the rose. 2743

Pests and diseases of cultivated plants. 3372

Diseases and parasites of the rose. 3956

DPA for scald control. 4715

Report on experiments with varieties of medium early to late potatoes for human consumption and industrial use 1964-1966 (series 46). 5806

Diseases of fruits and vegetables. 6050

Mechanical control of lodging in rice and extent of reduction in yield due to topping. 7814

PLANT PHYSIOLOGY

Container growing. Chapter 22: Insects and diseases. 206

Varietal resistance to clover rot in white clover. 217

Physiologic races of Puccinia recondita f. sp. tritici in the United States from 1926 through 1960. 236

Directional growth of the urediospore germ tubes and stomatal penetration. 242

Physiological races of Puccinia striiformis in the wheat of Iran. 246

Chemical weed control. 301

Studies of the influence of some predominant weeds on the yield pattern of spring barley. 313

Reduction of parathion residue on celery. 497

Factors influencing the selectivity of herbicides. 500

Shifts in disease resistance induced by growth regulators. 514

Effects of gibberellic acid on flower thinning and bloom delay of stone fruits. 517

Manganese toxicity in tomato seedlings. 518

Translocation of systemic fungicides. 519

Effect of boron toxicity on some leaf constituents in groundnut (Arachis hypogaea, Linn.) plants. 522

Growth of Sclerotium rolfsii at different concentrations of oxygen and carbon dioxide. 523

Morphological changes in wheat caused by the action of chlorcholinchloride-CCC. 524

The influence of plant-growth factors on the initiation and growth of crown-gall tumours on primary pinto bean leaves. 527

Growth of planted chestnut trees (Castanea crenata) in relation to soil nutrients in Korea. 528

PLANT PHYSIOLOGY

Effect of several growth regulators and temperature treatment to rice seed on the germination and initial growth of seedling. 529

Effect of nitrogen, silicon and their interaction on the agronomic characters in paddy rice. 533

Study of the interaction of growth retardants and a virus on the growth of Prunus persica line GF 305. 535

Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein. 536

Effect of hormones on the sugar level of maize (Zea mays L.) plants. 538

Effect of soil fertility on the distribution of plant communities as shown by pot cultures and field trials. 539

Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth. 540

The status of some micronutrients in healthy Robusta banana plants. 544

Peroxidase isozymes in barley leaves from irradiated seeds. 554

The creation of artificial foci of parasites- a new method of aphid parasite release. 887

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season. 949

Physiology of parasitism. 2. Biochemical changes in the Mung bean seedling infected with Rhizoctonia solani Kuehn. 954

Investigations on disease complex of rice in West Bengal (India). 1. Study of rhizosphere microflora of the affected plants. 967

The role of calcium and cell permeability in the disease blossom-end rot of tomatoes. 988

Studies on the Wooly beech scale Cryptococcus fagi Baer (Insecta, Coccina), a representative bark-sucker. 999

Investigations of the population fluctuations of Oscinella frit. (abstract). 1004

Lawn weeds and their control. 1027

Canada thistle and its control. 1029

Biological methods of weed control. Transl. 16892. 1032

Seasonal dynamics of weeds in winter wheat culture. 1038

The interaction of coumarin and temperature in the germination of lettuce seed. 1163

The toxicity of biuret to plants as depending on soil conditions. 1166

Effect of uracil and 5-nitrouracil on growth and flowering of tomato. 1168

Volatile growth inhibitors produced by Salvia leucophylla: effect on seedling growth and respiration. 1171

Effect of gibberellic acid and Phosfon on the critical dark period requirement for flowering of Impatiens balsamina cv. Rose. 1172

Studies on the mechanism of gibberellin-induced seedlessness of Delaware grapes. II. Development of ovules and pollen as affected by prebloom gibberellin treatment. 1174

The effects of 1-naphthylacetic acid on the growth of excised tomato roots. 1176

Some effects of the southern green stinkbug on soybeans. 1558

On the structure of the abnormal nopaline metabolite in certain Crown gall tumors. 1564

Effect of infection by Hypomyces solani f. sp. Cucurbitae on apparent free space, cell membrane permeability, and respiration of squash hypocotyls. 1565

The physiology, inter-relationships and effects on the wood of fungi which attack birch and aspen pulpwood. 1567

Virulence of various groups of physiological races of loose smut of barley Ustilago nuda (Jens.) Rostr.) in the light of anatomical investigations of spring barley varieties different with regard to resistance. 3. The effect of infection upon morphological features of plants. 1571

Junctions between epidermal cells as sites of appressorium formation by plant pathogenic fungi. 1578

A new Cercospora leaf spot of cardamom. 1579

Research on the physiological modifications brought about by the virus of tobacco mosaic in normal and tumor tissue of tobacco grown in vitro . 1581

Free amino-acids in healthy and virus-infected chrysanthemum. 1587

New controls for peach fungus diseases. 1589

Investigations of effects and effect mechanisms of seed treatment preparations on leaf eating beetles. 1596

Tree physiology and forest pests. 1607

An attempt at analysing the process of penetration by soil nematodes into plants. 1624

Analysis of the occurrence of nematodes in alfalfa crops. III. Some observations on age structure. 1627

Herbicide research and finesse. 1639

Effect of soil temperature and necrosis infection on the content of phenolic substances in potato tubers. 1809

Some histological effects of 2,4,5-trichlorophenoxyacetic acid appied to mature apricot leaves. 1810

Effect of iron and manganese on energy transformations in plants with inhibited chlorophyll synthesis. 1811

Hydroxyproline formation and its relation to auxin-induced cell elongation in the Avena coleoptile. 1812

Effect of moisture stress on the absorption and transport of herbicides in woody plants. 1814

Changes in enzymatic activities in etiolated bean seedling leaves after a brief illumination. 1815

On the action of gibberellin on the chlorophyll content in plants. 1817

An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818

Effect of simazine on the photosynthetic pigments of green algae. 1821

Inositol metabolism in plants. VI. Conversion of myo-inositol to phytic acid in Wolffiella floridana. 1822

Effects of herbicides on seed germination and early seedling development of Pinus resinosa. 1823

Ecological investigations on the influence of triazine derivative simazine (W 6658) on Sinapis alba L.. 1824

Effect of gibberellin (GA) and mineral nutrition on the growth and productivity of cucumber plants. 1825

Effect of metabolic inhibitors on systems involved in the growth of elongating cells during root formation. 1827

For earlier, larger blooms; producing camellias with various solutions of gibberellic acid. 1828

Designing systemic insecticides. 1829

Studies on the biocidal activity of cyanomethyl xanthates. 1837

A comparative study on urea sprays upon some deciduous fruit trees. 2100

Developing alfalfa resistant to alfalfa weevil oviposition. 2101

Seedlings vigor evaluation of four birdsfoot trefoil varieties grown under two temperature regimes. 2106

Germination, growth, and respiration rates of birdsfoot trefoil at three temperatures during the early nonphotosynthetic stage of development. 2110

Effects of potassium, magnesium, and nitrogen deficiencies on the concentration of chlorogenic acid and scopolin in tobacco. 2116

Crown gall tumors in various species and hybrids of Kalanchoideae. 2122

Effect of 2,4-dichlorophenoxyacetic acid on tobacco mosaic virus infection. 2127

Alfalfa mosaic virus-induced lesions on bean: Effect of light and temperature. 2133

The longevity of conidia of Sclerotinia fructicola (Wint.) Rehm under field conditions. 2140

Grain yield of corn reduced by maize dwarf mosaic virus infection. 2141

Biochemical control of disease resistance in plants. 2147

Survival of Fomes annosus spores in soil. 2148

Morphology, pathogenicity, and cultural characteristics of single conidium isolates of Alternaria longipes. 2180

The effect of drainage on physiological disorders of rice grown on the sub-coastal plains of the Adelaide River, N.T. 2184

Enzymic browning and free tyrosine in potatoes as affected by pentachloronitrobenzene. 2188

Cytology of the sporangium of Phytophthora capsici. 2194

The rapid development and spread of strain B downy mildew of lima beans. 2198

The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato. 2252

Nebraska root-gall nematode of sugar beets. 2253

Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host. 2261

Air pollution damage to chrysanthemum foliage. 2387

Use of carbon to reduce uptake of insecticidal soil residues by crop plants. Effects of carbon on insecticide adsorption and toxicity in soils. 2419

Carbohydrate reserves in mountain range plants with respect to phenological stage of development and artifical defoliation. 2446

Response of cotton plant to certain combinations of fertilizers and Metaisosystox. 2447

Selective action of chloroxuron on soybean and morningglory. 2448

Growth regulator control of fruit set and development in the highbush blueberry (VACCINIUM CORYMBOSUM L.). 2450

Preliminary study on the effect of gibberellic acid on fruit set in the Cherimoya. 2452

Critical study of a new device for gibberellin dosage by the elongation of the oat stem. 2454

Crop response to applied zinc in ammoniated phosphate fertilizers. 2455

Characteristics of in vitro protein synthesis systems from Rhizoctonia solani and Sclerotium bataticola. 2456

Epoxidation of aldrin by plant materials. 2457

Effect of trifluralin on growth of Sclerotium rolfsii in liquid culture and soil. 2459

Biological activity of PA-X, a plant regulator from bean seeds. 2460

Degradation of monosodium methanearsonic acid by soil microorganisms. 2461

Effect of 2,4-D and urea sprays on yield and fruit quality of Balady oranges. 2462

Variation in the smut fungi. 2695

The growth process in fungi. 2699

Investigation concerning the nectar and honey production of the quince (Cydonia vulgaris Pers.). 2701

The influence of latent apple viruses on the growth of various ornamental apples. 2703

The recovery of Gibberella zeae from wheat straws. 2716

Early stages of pathogenesis engendered by Erwinia amylovora in apple and pear tissue. 2717

Vesicular-arbuscular mycorrhiza and plant growth. 2740

Electron microscope study of the first stages of alterations of the chloroplasts in Nicotiana xanthi n. c. in its hypersensitive reaction to the tobacco mosaic virus. 2782

A study of the maize mosaic virus occurrence and its effect on the growth and yield of some corn varieties and hybrids. 2795

Influence of feeding, oviposition, and egg and larval development of the boll weevil on abscission of cotton squares. 2803

Insect secretions in plants. 2811

Results of investigations on the susceptibility of different varieties of Pisum sativum L. to attacks of Laspeyresis nigricana Steph. (Lep., Tortricidae). 2825

Effect of repeated annual use of atrazine on corn. 2857

Effect of herbicides on growing wheat applied simultaneously with calcium cyanamide fertilizers. 2860

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 2866

The role of interfacial water in the tolerance of roots to toxic solutions. 3031

Chloroplast ribosomes: Stereospecificity of inhibition by chloramphenicol. 3049

Tests of (2-chloroethyl)trimethylammonium chloride on varieties of hard wheat. 3050

Ethylene: A factor in defoliation induced by auxins. 3051

Factors influencing expression of oxidant damage to plants. 3052

Storage effects on forcing response and gibberellin levels in easter lilies. 3053

Mother-daughter frond interaction in the course of growth of duckweed (Lemna minor L.) colony. 3054

The sterol esters of maize seedlings. 3055

Loss of gibberellins by leaching from stems and foliage of Chrysanthemum morifolium 'Princess Anne'. 3057

Physiologically active substance in Capsella bursapastoris. 3058

The effect of anti-fungal antibiotics on the nodulation of Trifolium subterraneum and the estimation of Rhizobium trifolii populations. 3061

Translocation patterns of selected herbicides and influence of fenac on some physiological and histological changes in mugwort. 3062

Metamorphosis in ontogenesis of parasitic angiospermous plants. 3063

Seasonal changes in gibberellin-like compounds in ovaries and young fruits of navel orange. 3064

Genetic complementation in Ustilago hordei. 3346

The occurrence of 20-Hydroxy-ecdyson in Vitex megapotamica. 3703

Effect of prometryne on 14Co2 fixation in cotton and soybean. 3707

Responses of lettuce (Lactuca sativa L.) to plant growth regulator sprays. 3708

The response of Kentucky bluegrass to soil residues of preemergence herbicides. 3709

Effect of foliar spray of hormones on the rhizosphere mycoflora of leguminous weeds. 3711

Method of defoliating plants with organomercurials. Patent 3,433,618. 3713

Growth responses of Marquillo X Kenya Farmer wheat dwarf 1 and 2 to gibberellic acid, kinetin, and indolebutyric acid under controlled environmental conditions. 3714

Electron microscope examination of ultra-thin sections of Streptomyces viridochromogenes for hyphal anastomoses. 3910

Electrifying agriculture and horticulture. 3921

Some observations on the shape and localization of different viruses in experimentally infected plants, and on the fine structure of the host cells. IV:ABABIS mosaic virus in Petunia hybrida Hort. 3959

Virulence of various groups of loose smut of barley, (Ustilago nuda (Jens.) Rostr.) physiological races in the light of anatomical investigations of spring barley varieties different with regard to resistance. I. Spreading of pathogene in host plant tissue. 3978

Elements for a study on the needle-cast fungus of scotch pine Lophodermium pinastri (Schrad.) Chev. Phenological study: fall of needles and development of hysterothecia. 3979

Breeding and propagation of virus-free grapes in hydroponic cultures. 4045

Chemical weed control problems in outdoor vegetable growing. 4088

Gibberellin-induced asymmetric growth of apple fruits. 4318

Hormonal regulation in higher plants. 4319

An unexpected effect of benomyl on two gladiolus varieties. 4321

Growth regulator survey for activity in inducing parthenocarpy in the highbush blueberry. 4324

Chemical regulators in horticulture. 4333

Research possibilities and the improvement of the carnation cultivated as a cut flower. 4656

Rhizosphere root exudates and their effect on microbial activity. 4662

Cultivation of the sapogenin-bearing Dioscorea species. 4664

Zoospore in Phytophthora parasitica var. subdariffae. 4666

Plant growth promoting metabolites of Sclerotinia sclerotiorum (II) The synthesis of sclerotinin B. 4673

The use of growth promoters to increase potato yields. 4677

Physiological studies on incitants of guava wilt Fusarium solani (Mart.) App. and Wr. emend Snyder and Hansen and Macrophomina phaseoli (Maubl.) Ashby. 4688

The reciprocal relationships in mixed cultures of entomophagous fungi and the effect of some Hyphomycetes on their growth. 4690

Black spot of apple. 4700

Studies on Phyllosticta blight of rice. 4703

The effect of rootstocks on the transformation of some factors of the physiological immunity in leaves of mildew-susceptible grape varieties. 4717

Some observations on ecological, physiological and biochemical aspects of weed control. 4776

Response of mixed crop of wheat and rape to three chlorophenoxy herbicides. 4777

Notice of filing of petition regarding pesticide chemical. 4879

Some experiments on polarity of IAA-2-C14 transport in Helianthus annuus seedlings. 4903

Growth retardant tests on potted poinsettias. 4905

Gibberellin delays ripening of tomatoes. 4906

Trials with carbon dioxide, light and growth substances on forest tree plants. 4909

Ribonucleic acids in crown-gall bacteria, Agrobacterium tumefaciens (Smith and Town), treated with sodium borate. 4911

The dipyridillics in tomato cultures. 4914

Germination of Russian thistle seeds. 4916

Effect of foliar sprays of plant regulators (IAA and GA) on the growth and yield of Knol Khol (Brassica oleracea Linn. var. gongylodes). 4918

Effect of gibberellic acid on the fruit-set, and partheno-carpic development of fruit in Bhokri grapes. (Vitis vinifera L). 4919

Studies on the effect of growth regulators on pollen germination and tube growth in shoe flower (Hibiscus Rosasinensis L.). 4920

Systemics, a new tool for the home gardener. 5688

Interaction of soil reaction and method of seed inoculation on alfalfa. 5781

Some observations and comments on stem-pitting of peach, its control and a nursery improvement program. 5782

Virus enhancement with a growth product of Streptomyces scabies. I. Production and properties of scaben. 5810

Virus enhancement with a growth product of Streptomyces scabies. II. Increased release of coxsackievirus B5 from hEp-2 monolayers treated with scaben. 5811

A contribution to the knowledge of heterosis in potato. 5813

Response of pines irradiated with lethal and sublethal doses of gamma-radiation. 5829

Growing vegetables in South Dakota. 5832

Effects of age, burial, and region on germination and viability of halogeton seed. 5836

Some problems of plant-parasite relationship. 5838

Vegetative reproduction in western ironweed. 5839

Changes in growth and metabolism of excised pea roots associated with iron deficiency. I. Changes in number of cells, nitrogenous constituents and respiration rate. 5856

Hot-water treatment of seed as a method for decreasing the incidence of certain cotton and flax seedling diseases. 5857

Physiological studies on Phoma betae Frank and Rhizoctonia solani(Prill and Delacr.) Bourd and Galz which cause damping-off and root diseases of sugar beet in Egypt. 5867

It takes more than tender, loving care to prevent blackspot. 5870

Anthracnose in beans:Determination and variations in the malonic acid content in the different parts of healthy and parasitized plants. 5886

Possibilities for inter- and intracellular translocation of some icosahedral plant viruses. 5906

Copper deficiency in citrus. 5916

Interactions of Oospora pustulans, Rhizoctonia solani and Heterodera rostochiensis on the potato. 5917

Effect of red clover vein mosaic virus on dry weight of tissues of Gomphrena globosa. 5922

Relation of beet yellows virus to the phloem and to movement in the sieve tube. 5923

Poor stands of corn and reduction of root growth caused by Fusarium moniliforme. 5937

The action of calcium cyanamide on the development of some basidiomycetes of wood. 5941

Peanut pod invasion by fungi in the presence of lesion nematodes in Georgia. 5974

Effects of kinetin and actinomycin D on the susceptibility of Nicotiana glutinosa L. to infection by tobacco mosaic virus. 6022

Khaira disease of rice and its control. 6028

Physiological changes in sunflowers infected by storage rot. 6041

Mycological techniques in plant pathology. 6044

The response to phosphorus of some ecologically distinct plant species. I. Growth rates and phosphorus absorption. 6058

Corn lodging. I. Relations between soluble solids, inorganic phosphates and basal stalk and root rots in mature plants. 6066

Effects of growth regulators on ear density mutants in barley. 6095

Effects of spittlebug injury on root production and sod reserves of Coastal bermudagrass. 6264

'miracle' tree is in trouble. 6301

Herbicide selectivity. 6317

Progress in witchweed control seen as pest fails to spread. 6319

Weed control in field brassica crops. 6321

Competition between burroweed and annual and perennial grasses for soil moisture. 6328
Microsporogenesis of the bird's-foot trefoil (Lotus corniculatus L.). 6329
The effect of three fumigants on natural weed infestation in a tobacco seed bed. 6337
The economic importance of early weed control in cereals. 6354
Herbicidal N,N-dialkenyl-3-chlorobenzamides and method. Patent 3,436,208. 6356
Herbicidal control of western ironweed. 6363
Desmosterol as a common intermediate in the conversion of a number of C28 and C29 plant sterols to cholesterol by the tobacco hornworm. 6835
Radiobiological damage: A new class identified in barley seeds stored after irradiation. 7022
Effect of paraquat on the nitrogen content and regrowth of Coastal bermudagrass (Cynodon dactylon (L.) Pers.). 7219
Effects of organic arsenical herbicides on cotton response and chemical residues. 7222
Influence of some herbicides on accumulation of 32P in above-ground organs of oats. 7223
Stimulatory effects of gibberelins on the growth of Chlorella pyrenoidosa (Chick). 7224
Influence of retardants on the growth and flowering of plants. 7231
Growth characteristics and herbicide susceptibility of Texas Panicum. 7232
Effect of DDT, dieldrin, heptachlor on the growth of selected bacteria. 7234
Effect of DDT, dieldrin and heptachlor on the growth of selected bacteria. (Abstract). 7235
Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil. 7236
Effects of indoleacetic acid on intracellular distribution of Beta-glucanase activities in the pea epicotyl. 7237
Influence of herbicides from s-triazine group on dynamics of some biochemical processes of oats in test experiments. Part II. Researches on action of propazine, prometrine, and prometone. 7248
Tobacco stalk and root destruction with herbicides and their effect on tobacco mosaic virus. 7249
Gibberellin and growth in stone fruits: Induction of parthenocarpy in plum. 7251
Effect of the triazine herbicides simazine and atrazine upon young plum trees. 7260
Translocation of labeled assimilates into and out of bean leaves as affected by 2,4-D and benzyl adenine. 7262
A note on cycocel (2-chloroethyl trimethyl ammonium chloride), a newly released plant growth regulant. 7263
Effects of selected herbicides upon growth of soil algae. 7265
Influence of magnesium and zinc fertilizing on the yield, quality as well as health of hops. 7266
Retardation of the elaboration of aflatoxin in cottonseed by impermeability of the seedcoats. 7268
Reaction of selected sorghum varieties and lines to downy mildew. 7270
Formation of adventitious roots in tomato seedlings by CCC treatment. 7273
Interaction of CCC and Coumarin or IAA on seedling growth of rice. 7274
Effect of light and gibberellic acid on the growth of pea internodes. 7277
The effect of microelements on the rate and percentage of germination with lucerne and soybean. 7279
Effect of Bordeaux Mixture spray on fruit set in coffee (Coffea arabica L.). 7283
Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate. 7285
Ethylene prevents normal photoperiodic response in Chrysanthemum morifolium. 7286
Effects of herbicides on respiration of red pine seedlings. II. Monuron, diuron, DCPA, dalapon, CDEC, CDAA, EPTC, and NPA. 7290
Some factors affecting germination and seedling growth of scotch thistle (Onopordum acanthium L.). 7293
Increases in the levels of cytokinins in bleeding sap of Vitis vinifera L. after CCC treatment. 7295
The distribution of trace elements in the leaves of the coconut palm, and the effect of trace element injections. 7297
Effects of simulated radioactive fallout decay on growth and yield of cabbage, maize, peas and radish. 7298
Propagation of grape (Vitis vinifera L.) by air layering with the aid of plant regulators. 7299
Assimilation of the herbicide phenazone and its detoxication within plants. 7301
Cytogenic activity of the herbicides-simazine and maleic acid hydrazide. 7302
Effect of acar on bloom date of Richared apples. 7304
The influence of increasing doses of simazine upon the rate of root and green parts growth of winter wheat. 7306
The influence of increasing doses of simazine upon the rate of root and green parts growth of some weeds occuring in the winter wheat stand. 7307
Relation between black spot and composition of the potato tuber. 7312
Response of flax to postemergence herbicides. 7314
Effect of CCC and glycine betaine on growth and growth-substance content of primary leaves of dwarf French bean (Phaseolus vulgaris L.). 7317
Influence of inbreeding carried out during many years on hemp growth and development. 7318
Trials of obtaining artifical tobacco poliploids. 7319
Distribution of labelled plant growth regulators within cells. 7321
Method for controlling the growth of potato plant organisms. Patent 3,443,928. 7328
Fire as an agent in the establishment of a plant disease. 7785
Thermodynamic state of the water in healthy or infected grains of wheat. 7801
Dieldrin translocation and accumulation in corn. 7958
Effects of picloram and ethylene on leaf movement in huisache and mesquite seedlings. 7983
Growth and fruit drop of young fruit trees sprayed with the acaricides demeton-methyl or tetradifon. 7984
Inhibition of strawberry runner production with Alar, Cycocel, maleic hydrazide, and TIBA. 7985
Response of two species of Ipomoea to gibberellic acid treatment. 7987
Physiological classification of plant growth inhibitors. 7991
Role of growth regulators in differentiation processes of maize (Zea mays L.) organs. 7995
Systemic activity of UC-21149 against the citrus red mite, citrus thrips, California red scale, and spirea aphids on nonbearing orange trees. 6265
The effect of CCC and Amo-1618 on growth, catalase, peroxidase and indoleacetic acid oxidase activity of young barley seedlings. 4908

PLANT PROPAGATION
Citrus culture. 202
Retardation of flowering by auxin-gibberellin spray in Chrysanthemum morifolium. 1175
Figs for commercial and home orchards in Louisiana. 5850

PLANT PROTECTION
Official register of plant protection preparations-and equipment 1968. 189
Official register of plant protection preparations-and equipment 1967. 190
An appraisal of high medium and low volume methods of spray application. 192
Plant protection and the economical position of farming. 195
Annual plant protection report 1966. 197
Container growing. Chapter 22: Insects and diseases. 206
Sampling pests and diseases of tea: III. 208
Pests are endangering our cultivated plants. 211
Protection against virus diseases, an essential aspect of maintenance breeding in fruit growing in Czechoslovakia. 223
The factors determining the efficacy of biological preparations in plant protection. 229

Control of post-harvest decay and the influence of postharvest treatments on decay in clingstone-peaches. 233

SUBJECT INDEX

PLANT PROTECTION

Control of race 2 Fusarium of tomatoes. 237

Problems of fungicidal efficiency. 255

Ultrasound to stop the moths settling. 265

Tender trap. (Abstract). 266

The need for conserving natural enemies of pests. 270

Virus insecticides. 275

Research yields easily applied virus deadly to codling moth larvae. 276

The Hessian fly. 281

What happens when sprays are no longer needed for control of codling moth . 282

Ethion a new acaricide for control of red spider, scarlet, pink and purple mites. 284

An outline of the biology of Hypsipyla robusta Moore, the shoot borer of the meliaccae (mahoganies) of Nigeria, together with brief comments of two stem borers and one other lepidopteran fruit borer also found in Nigerian Meliacaea. 286

Phylloxera: Scourge of the vineyard. 289

A note on the control of the semi-cooper, Achaea Janata L., on castor. 291

The method of testing seed potatoes by mean of the callose (Igel-Lange) test. 292

The sugarbeet nematode. Problems and progress in its control in Colorado. 293

Nematodes can be controlled. 294

Relative efficacy of different oil-cakes on the incidence. of root-knot nematodes. 298

A minimum cultivation trial with maize using paraquat herbicide. 309

Weed biology - A future. 321

Pesticide residues in ointment bases of natural origin. 496

Reduction of parathion residue on celery. 497

The use of organic tin compounds fungicides in agriculture, looked at from the toxicological point of view. 509

The influence of chemical plant protection preparations on beneficial insects. 808

Changes in usage of plant protection preparations during the last fifteen years. 943

1966 plant inspection statistics. 944

Integrated pest control from the point of view of zoological pesticide examination. 948

A guide to the use of pesticides for the control of agricultural pests. 952

The accumulation of growth regulators in plant infected by Nectria pterospermi Saw. 956

Late blight disease on potatoes and its control. 959

Potato cultivation in Mysore State. 980

White fir stands killed by tussock mothi 70-mm. color photography aids detection. 1019

Hardworking herbicides. 1035

Fish deaths and plant protection preparations. 1136

Pink bollworm versus the Sterile concept. 1417

Principles of the integrated control of plant pests. 1547

Is it worth protecting potato against infection. 1570

Record of Verticillium wilt of cotton in Madras state. 1576

Developments in the control of tea pests. 1580

Troubles with potato blight. 1592

The soybean cyst nematode threat. 1621

Threadworms and the plant protection. 1625

Chemical weed control in strawberry plantations. 1637

Economic estimation of chemical weed control of sugar beet. 1638

DDT toxicity in rye (Secale spp.). 1800

Study on the sucker control of decapitated (topped) tobacco plants. 1819

North Carolina initiates nematode advisory service. 1849

The new seed legislation and its consequences for the planting of seed potatoes. 1852

The plant protection law as a responsibility for the control of plant pests and diseases. 1853

The new plant protection law. 1854

The plant protection law and its responsibility towards human health. 1855

The plant protection law as a responsibility for the protection of living communities. 1856

Standardized procedures adopted for cooperative Ohio Valley States alfalfa weevil research. 1920

Conclusions and resolutions of the general assembly of the International Commission for the Biological Control of Plant Pests (C. I. L. B.). Tunis, March 26-April 4, 1962. 2105

Preliminary results of attempts to form the advisory board for integrated plant protection. 2113

Local reaction and cross protection for strains of squash mosaic virus. 2131

Nodulation of Medicago sativa in solution culture. III. Effects of nitrate on root hairs and infection. 2157

Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice. 2445

Laboratory investigations on the effect of insecticides on the larvae and adults of Coccinella septempunctata L. (Col., Coccinellidae). 2668

The possibility of the use of some biological analytical techniques for the control of the safety periods of pesticides. 2694

The current importance of plant protection. 2696

Birds and plant protection-a reply. 2700

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes. 2824

Herbicides in plant protection. 2864

On the problem of increase of injury in practical plant protection. 3345

Reducing DDT persistence. 3434

Nematode - bacteria team for insect control. 3435

Control of Ephestia elutella (Hb.)(Lepidoptera, Phycitidae) using dichlorvos in oil. 3438

A large-scale experiment in the artificial biological control of the olive fly, Dacus oleae, by means of Opius concolor siculus in Sicily, Palermo, July-October 1966. 3444

Insect pests of safflower. 3447

Inclusion of biological objects in a documentation card index. 3734

The promulgation of a maximum tolerance level ordinance (plant protection). 3735

Plant protection in the heart of Europe. Austrias contribution to the international fight against plant pests and diseases and, through this, to the improvement of the food situation. 3911

Crop rotation hygiene in grain cultures. 3912

The training course of the European Plant Protection Organization in England. 3914

Plant protection Annual Report 1967. 3915

The plant protection import controls in Bavaria. 3918

Stretch your pest control dollars. 3922

The importance of applied entomology for Austrian plant protection. 3926

New ways for organizing the cooperation between plant protection services and apiculturists. 3929

The plant disease observatory of Milan. 3940

Avoid yellow dwarf virus by late sowing. 3981

Biochemistry of plant immunity and dormancy as the foundation for the crop protection against diseases and germination. 3985

Plant protection. Bulletin of the Plant Disease Station of Geneva. March. 4010

Plant protection. Bulletin of the Plant Disease Station of Geneva. June. 4011

Plant protection. Bulletin of the Plant Disease Station of Geneva. October. 4012

Plant protection. Bulletin of the Plant Disease Station of Geneva. April. 4013

Domestic quarantine notices. Witchweed. Regulated areas. 4067

Control of Orobanche under natural and artificially infested conditions. 4068

Some remarks on plant protection preparation-tolerances. 4292

The first maximum dosage regulation for plant protection preparations in the Federal Republic of Germany. 4347

Plant protection in agriculture. 4670

Co-operative spraying against banana pests. 4683

The problem of the potato blackleg disease. 4697

1967 field trials on control of coffee berry disease in Kenya. I.-V. 4698

Sugar beet crop protected through aerial application. 4721

Chemical control of some important cereal plant diseases in India. 4727

Rust infection protects beans against heat injury. 4732

Control of date palm leafhoppers in Iraq by aerial spraying. 4739

Narcissus flies. 4748

Sex lure hoax may prove male beet wireworm's undoing. 4765

Nematodes attack bananas. 4768

Problems with scald inhibitors. 4863

Our struggle against pests. II. 4872

Trials with carbon dioxide, light and growth substances on forest tree plants. 4909

Some problems of method and content in working-up a forecast -demonstrated on the example of the plant protection- and pesticide manufacturing industry. 4957

The law and the use of pesticides. 4964

Applying insecticides to cotton crops. 4971

Early season insects no problem for B. A. Jordan. 5196

Contribution to the knowledge of the Cosmopolites sordidus (Germar)(Coleoptera, Curculionidae). (2). 5216

Insect answers; insecticide toxicity to alfalfa-pollinating bees. 5394

Use of bioassay in plant protection. 5677

Specialist advice on groundnuts. 5776

Fruit growing note of the season. 5778

Crop protection; computers, simazine, corn seed beetle. 5780

Practical soil biology. 5786

The present and future situation of peach culture in Ferrara. 5789

Sorghum - specialist advice. 5793

Breeding and management of forage crops in the Eastern Plains. 5797

The use of microbiological preparations in plant protection based on entomopathological bacteria Bacillus thuringiensis. 5801

1969 fruit spraying recommendations for commercial growers. 5802

Nursery stock, plants, and seeds. Foreign nurseries certified as producing specified disease-free material. 5803

Pest control as an occupation, formerly and now. II. 5808

Plant protectors. 5812

Diseases and pests of coconut in Kerala. 5814

Pests and diseases of arecanut. 5841

Projects and problems of plant protection in developing countries. 5847

Plant protection is also health protection. 5849

Manures and fertilizers. 5853

Diseases of the seed potato; how to recognize them before planting. 5905

Wheat and stem rust - specialist advice. 5958

Injured cells required for the initiation of plant virus infections. 5983

The problems of plant disease control. 6034

Botrytis flower spot control in orchids. 6037

On the elm-tree dieback. 6043

Plant protection. Bulletin of the plant protection station of Geneva. 6094

Recent trends in disease control in coffee. 6099

Septoria spot on grapefruit in Southern California. 6101

Forest disease control in California; July 1, 1966 to June 30, 1967. aSB761.A3. 6117

An observation on the influence of nitrogen fertilization on the attack of peas by powdery mildew (Erysiphe polygoni DC). 6131

Control of the castor shoot and capsule borer, Dichocrocis punctiferalis Guen. 6150

The biological control of red scale Aonidiella aurantii (Mask), on citrus in South Africa. 6155

Control of some pests of evergreens. 6162

Comparative efficacy and economics of various measures adopted for eradication of white grub beetle (Holotrichia serrata Fabricius) damaging sugarcane in Uttar Pradesh. 6204

Gypsy moth (Ocneria dispar) control in the roadside plantations. Transl. 17032. 6209

A mite to combat coconut caterpillar. 6218

Controlling peach yellows in a peach breeding program. 6232

Insect pests of grain in the field of Turkey. 6235

A guide to the use of pesticides for the control of agricultural pests. 6240

Preliminary observations on Heteronychus robustus ArrowA beetle pest of sugarcane in Uttar Pradesh. 6250

Effect of climatic factors on the susceptibility of insects to insecticides. 6251

Fruit spray program for the home orchardist. 6257

Citrus pest control programs for California and Arizona desert areas. 6262

Bark beetles. 6273

Nematodes and roses. 6297

Proclaimed noxious weeds. 6313

Study of certain herbicides against weeds in garden peas. 6392

The biology and control of the rice field mole rat of Ceylon, Gonomys cracilis (Nehring). 6405

New contributions to the subject 'birds and agriculture'. 6411

Agricultural pesticides and their detractors. 7080

High praise for low volume insecticide spraying. 7136

Agricultural and horticultural fungicides-past, present, and future. 7416

Testing of fungicides and insecticides 1967. 7763

Basic premises of a theory of the protection of plants against pests. 7836

PLANT PROTECTIVE DEVICES

Mechanism of resistance of carrot roots to Pythium aphanidermatum (Eds.) Fitz. 2126

Spider mites on cotton; how to control them. 4737

Ecdysones and analogs: Effects on development and reproduction of insects. 5835

Some problems of plant-parasite relationship. 5838

PLANT PROTEINS

Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein. 536

Wheat. 4691

PLANT QUARANTINE

Fireblight: A disease we don't want. 230

Domestic quarantine notices. Japanese beetle. Regulated areas. 1617

Domestic quarantine notices. European chafer. Regulated areas. 1618

Domestic quarantine notices. Soybean cyst nematode. Regulated areas. 1626

Preliminary results of attempts to form the advisory board for integrated plant protection. 2113

Domestic quarantine notices. Witchweed. Regulated areas. 2259

The plant protection import controls in Bavaria. 3918

Domestic quarantine notices. Witchweed. Regulated areas. 4067

Foreign quarantine notices. Nursery stock, plants, and seeds. Importation. 4346

Domestic quarantine notices. Soybean cyst nematode. Quarantine and regulations. 4764

Nursery stock, plants, and seeds. Foreign nurseries certified as producing specified disease-free material. 5803
Plant protectors. 5812

PLANT REGULATORS
Gibberellin A23 in immature seeds of Lupinus luteus. 199
Changes in the growth-regulator content of plum infested with fruit tree red spider mite, Panonychus ulmi (Koch). 267
Shifts in disease resistance induced by growth regulators. 514
Short-term growth response to growth regulators in roots of Zea mays. 515
Chemical aids figure in plant propagators' reports. 516
Effects of gibberellic acid on flower thinning and bloom delay of stone fruits. 517
Growth of Sclerotium rolfsii at different concentrations of oxygen and carbon dioxide. 523
The influence of plant-growth factors on the initiation and growth of crown-gall tumours on primary pinto bean leaves. 527
Effect of several growth regulators and temperature treatment to rice seed on the germination and initial growth of seedling. 529
GA increases tangelo yields. 530
Effect of gibberellic acid on gamma irradiated barley seeds. 531
The accumulation of growth regulators in plant infected by Nectria pterospermi Saw. 956
Investigations on disease complex of rice in West Bengal (India). I. Study of rhizosphere microflora of the affected plants. 967
Effect of uracil and 5-nitrouracil on growth and flowering of tomato. 1168
Retardation of flowering by auxin-gibberellin spray in Chrysanthemum morifolium. 1175
The effects of 1-naphthylacetic acid on the growth of excised tomato roots. 1176
Gibberellin and hull controlled inhibition of germination in Aegilops kotschyi Boiss. 1177
Herbicide research and finesse. 1639
Increasing the yield of dried fruit from the Sultana with growth regulators. 1808
Hydroxyproline formation and its relation to auxin-induced cell elongation in the Avena coleoptile. 1812
CCC as a growth regulant of soft white winter wheat. 1813
An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818
Studies on the biocidal activity of cyanomethyl xanthates. 1837
Succinic acid 2,2-dimethylhydrazide. Notice of extension of temporary tolerance. 2405
Growth regulator control of fruit set and development in the highbush blueberry (VACCINIUM CORYMBOSUM L.). 2450
Biological activity of PA-X, a plant regulator from bean seeds. 2460
Gibberellic acid and its use in fruit cultures. 3048
Tests of (2-chloroethyl)trimethylammonium chloride on varieties of hard wheat. 3050
Ethylene: A factor in defoliation induced by auxins. 3051
Effects of foliarly applied desiccants on selected species under tropical environment. 3679
Effects produced on tomato plants, Lycopersicum esculentum, by seed or root treatment with gibberellic acid and indol-3yl-acetic acid. 3681
The nature of TIBA action. 3691
Halotyrosines as plant root growth stimulants. Patent 3,436,206. 3693
B-Nine reversal of Benzimidazole-or IAA-INDUCED inhibition of growth and yield of cowpea plants. 3697
Responses of lettuce (Lactuca sativa L.) to plant growth regulator sprays. 3708
Gibberellin-induced asymmetric growth of apple fruits. 4318
Hormonal regulation in higher plants. 4319
Growth regulator survey for activity in inducing parthenocarpy in the highbush blueberry. 4324
Effect of seeded fruits and foliar-applied auxin on seedless fruit set of pear the following year. 4332
Chemical regulators in horticulture. 4333
The use of growth promoters to increase potato yields. 4677
Growth retardant tests on potted poinsettias. 4905
Gibberellin delays ripening of tomatoes. 4906
Effect of foliar sprays of plant regulators (IAA and GA) on the growth and yield of Knol Khol (Brassica oleracea Linn. var. gongylodes). 4918
Effect of gibberellic acid on the fruit-set, and partheno-carpic development of fruit in Bhokri grapes. (Vitis vinifera L). 4919
Studies on the effect of growth regulators on pollen germination and tube growth in shoe flower (Hibiscus Rosasinensis L.). 4920
TIBA fractures the soybean yield barrier. 5787
Auxin destruction by Marasmius perniciosus. 5985
Effects of kinetin and actinomycin D on the susceptibility of Nicotiana glutinosa L. to infection by tobacco mosaic virus. 6022
The response to phosphorus of some ecologically distinct plant species. I. Growth rates and phosphorus absorption. 6058
Effects of growth regulators on ear density mutants in barley. 6095
Studies on Botrytis cinerea in tomatoes. Effect of soil nitrogen level and of methods of deleafing upon the occurrence of B. cinerea under commercial conditions. 6118
Weed problems now and in the past. 6351
Stimulatory effects of gibberelins on the growth of Chlorella pyrenoidosa (Chick). 7224
Foliar penetration of plant growth substances with special reference to binding by cuticular surfaces of pear leaves. 7230
Influence of retardants on the growth and flowering of plants. 7231
Auxin and wall extensibility: Reversibility of auxin-induced wall-loosening process. 7233
Interaction of plant hormones. 7241
Cytochemical effects of indoleacetic acid and kinetin on megagametophytic development in Lilium. 7245
The influence of indole-3-acetic acid and vitamin B1 on the growth and yields of sunflower plants. 7261
Translocation of the growth retardant N,N'-dimethylaminosuccinamic acid-14C (B-995-14c)9. 7275
Effect of light and gibberellic acid on the growth of pea internodes. 7277
Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate. 7285
Some factors affecting germination and seedling growth of scotch thistle (Onopordum acanthium L.). 7293
Sulfur response of alfalfa in Western Montana. 7296
Propagation of grape (Vitis vinifera L.) by air layering with the aid of plant regulators. 7299
The mutagenic effect by the action of herbicides on barley. 7303
Effect of acar on bloom date of Richared apples. 7304
Lodging in wheat and its control by (2-chloroethyl) trimethylammonium chloride (CCC) in solid form. 7308
On the mechanism of gibberellin-auxin interaction. IV. Effect of gibberellin treatment on the oxidative destruction of indoleacetic acid in bean hypocotyl tissues. 7310
Distribution of labelled plant growth regulators within cells. 7321
Synthesis of compounds related to gibberellic acid. Iii. Analogs of ring A of the gibberllins. 7327
Aspects of gibberellin biosynthesis. 7349
Novel substituted 1,2,4-triazoles(4H). Patent 3,444,162. 7352
Inhibition of strawberry runner production with Alar, Cycocel, maleic hydrazide, and TIBA. 7985
The effect of CCC and Amo-1618 on growth, catalase, peroxidase and indoleacetic acid oxidase activity of young barley seedlings. 4908

PLANT REPRODUCTION
The growth process in fungi. 2699

Plains pricklypear: relation to grazing intensity and blue grama yield on Central Great Plains. 3466

Vegetative reproduction in western ironweed. 5839

Do small mammals and birds affect reproduction of spruce and fir. 6406

Influence of retardants on the growth and flowering of plants. 7231

Response of two species of Ipomoea to gibberellic acid treatment. 7987

PLANT RESIDUES

The effects of plant amendments and their associated microflora on Rhizoctonia solani Kuehn. 2451

PLANT RESPIRATION

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season. 949

On the effect of isopropyl-N-3-chlorophenyl-carbamate (CIPC) on the sugar content of potato tubers. 1169

Volatile growth inhibitors produced by Salvia leucophylla: effect on seedling growth and respiration. 1171

Studies on the mechanism of gibberellin-induced seedlessness of Delaware grapes. II. Development of ovules and pollen as affected by prebloom gibberellin treatment. 1174

Germination, growth, and respiration rates of birdsfoot trefoil at three temperatures during the early nonphotosynthetic stage of development. 2110

Study of the selectivity of herbicides for sugarbeets, using laboratory, greenhouse and physiological methods. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4785

Changes in growth and metabolism of excised pea roots associated with iron deficiency. I. Changes in number of cells, nitrogenous constituents and respiration rate. 5856

The respiratory pathways of tobacco leaves infected with potato virus x. 5918

Respiration of tobacco leaves infected with different strains of potato virus X. 5919

Physiological changes in sunflowers infected by storage rot. 6041

Auxin and wall extensibility: Reversibility of auxin-induced wall-loosening process. 7233

Effects of herbicides on respiration of red pine seedlings. II. Monuron, diuron, DCPA, dalapon, CDEC, CDAA, EPTC, and NPA. 7290

PLANT SENESCENCE

Shifting of virus Y from stems to tubers in dependence on the plant age. 5874

Aflatoxin in the groundnut crop at harvest in Northern Nigeria. 7185

PLANT TAXONOMY

Physiologic races of Puccinia recondita f. sp. tritici in the United States from 1926 through 1960. 236

Cultivated palms of Venezuela. 941

Phenological observations on the fungi of the trees and shrubs in the park of the experimental farm Koniczynka near Torun. 1594

A compilation of descriptions of new Penicillium species. 3348

Mushrooms; How to identify and grow them. 3350

Hendersonia dracaenae sp. nov. 3403

Stability of taxonomic characters in cultures of Diplodia and related genera as influenced by various carbon sources. (Abstract). 4330

Morphology and mode of germination of conidia of Helminthosporium oryzae in relation to its taxonomy. 4657

Studies on Phyllosticta blight of rice. 4703

The sugar beet. 5791

Identification of races of Piricularia oryzae in Colombia. 5939

Common aquatic weeds. 6398

PLANT TISSUE

Research on the physiological modifications brought about by the virus of tobacco mosaic in normal and tumor tissue of tobacco grown in vitro. 1581

PLANT TISSUES

The healthy juice effect in virus transmission. 961

Shifting of virus Y from stems to tubers in dependence on the plant age. 5874

Injured cells required for the initiation of plant virus infections. 5983

Radiation glycemia in tuber tissue in Solanum tuberosum. 7986

PLANT TRANSLOCATION

Coralloid root systems in plants showing lime induced chlorosis. 234

Chemical weed control. 301

Monitoring for chlorinated hydrocarbon insecticide residues in soybeans- 1966. 471

Effect of atrazine on oats (Avena sativa var. Minhafer) I and II. (Abstract). 490

Translocation of systemic fungicides. 519

The status of some micronutrients in healthy Robusta banana plants. 544

Sugar transport in Mycoplasma gallisepticum. 1099

Absorption, translocation and metabolism of 3-amino-1,2,4-triazole in Pinus ponderosa and Abies concolor. 1167

Effect of moisture stress on the absorption and transport of herbicides in woody plants. 1814

Consistency of Rst values of six organophosphorus pesticides resolved by thin-layer chromatography in the presence of plant extracts without elaborate clean-up. 2453

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 2866

Translocation patterns of selected herbicides and influence of fenac on some physiological and histological changes in mugwort. 3062

Absorption, translocation, and distribution of phorate in loblolly pine seedlings. 3454

The influence of darkness on the uptake and movement of diquat and paraquat in tomatoes, sugar beet and potatoes. 3680

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 3692

Boron nutrition of sugar beet, cotton, and soybean. 3699

Some experiments on polarity of IAA-2-C14 transport in Helianthus annuus seedlings. 4903

Vegetative reproduction in western ironweed. 5839

Shifting of virus Y from stems to tubers in dependence on the plant age. 5874

Transmission and translocation of red clover vein mosaic virus in clover. 5921

DDT-C14 translocation in alfalfa. 6270

Herbicide selectivity. 6317

Translocation of diazinon from planting water by cabbage and tobacco seedlings. 7122

Effects of indoleacetic acid on intracellular distribution of Beta-glucanase activities in the pea epicotyl. 7237

Translocation of labeled assimilates into and out of bean leaves as affected by 2,4-D and benzyl adenine. 7262

Translocation of the growth retardant N,N'-dimethylaminosuccinamic acid-14C (B-995-14c)9. 7275

Effects of dimethyl sulfoxide on the biological activity of selected miticides and insecticides. 7280

Translocation and metabolism of C14-labeled tetramine by Douglas-fir, orchard grass, and blackberry. 7284

Penetration of chlorinated phenoxyacetic and benzoic acids into leaves. 7289

Dieldrin translocation and accumulation in corn. 7958

Ion uptake of sweet potato roots infected by the black rot fungus. 7989

PLANT TRANSPIRATION

Gibberellin-like substances in the transpiration stream of apple and pear trees. 1165

PLANT WATER RELATIONS

The effect of drainage on physiological disorders of rice grown on the sub-coastal plains of the Adelaide River, N.T. 2184

The growth process in fungi. 2699

The effect of 2-chloroethyl trimethyl-ammonium chloride (CCC) on the water regime of plants. 3688

Irrigation by spraying. 4659

It takes more than tender, loving care to prevent blackspot. 5870

Competition between burroweed and annual and perennial grasses for soil moisture. 6328

PLANTAGO

Cell inclusions of Holmes' ribgrass virus, an analog of tobacco mosaic virus. 2153

PLANTAGO MAJOR
Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate. 7285

PLANTATIONS
Chemical weed control in strawberry plantations. 1637
Spore dispersal by Scleroderris lagerbergii under nursery and plantation conditions. 4007
Termite control in rubber plantations. 4521
Notes on insect and gastropode damage to enclosed cotton plantations. 4671
Gypsy moth (Ocneria dispar) control in the roadside plantations. Transl. 17032. 6209

PLANTING
How to produce high yields. 194
Citrus culture. 202
The sugarbeet nematode. Problems and progress in its control in Colorado. 293
Survival of soybean cyst nematodes in seed bags. 2243
Ions and the grower. 3352
Fungus leaf spot in soybeans. 3353
Care of tobacco seedlings. 3388
Placement of EPTC-FERTILIZER when seeding birdsfoot trefoil. 3476
The effect of pre-planting seed treatment by gamma rays on the oxidative phosphorylation in cotton leaves. 3676
Avoid yellow dwarf virus by late sowing. 3981
Cultivation of the sapogenin-bearing Dioscorea species. 4664
Plant and profit in '68. 4963
The sugar beet. 5791
Effects of age, burial, and region on germination and viability of halogeton seed. 5836
Kenaf promising as profit crop. 5851
Growing camellias. 5859
Weed control techniques aid trials with hedge row planting of blackcurrants. 6314

PLANTING DATE
Effect of different dates of sowing on yield, disease resistance and other characteristics of American cotton varieties. 1586
Pest and disease control aspect of changing cropping patterns. 5842

PLANTS
Plant protection and the economical position of farming. 195
Defoliation in Vietnam. 214
Effect of soil fertility on the distribution of plant communities as shown by pot cultures and field trials. 539
Trophic symbiosis between forest ants and plant lice with studies on the reciprocal effects between plant lice and plant tissues. 824
Hoverflies (Dipt., Syrphidae) from Spitsbergen. 1271
Designing systemic insecticides. 1829
The ecology of Sminthurus viridis (L.)(Collembola). I. Processes influencing numbers in pastures in Western Australia. 2067
Method of controlling and eradicating mites. Patent 3,427,385. 2237
Measurement of residues of phorate and its oxygen analog sulfone in plant tissues by total phosphorus determination. 2421
Metamorphosis in ontogenesis of parasitic angiospermous plants. 3063
Attractants for the Japanese beetle. 3199
Soil fumigation at Boskoop. 3925
Regulating the shipment of living pests, pathogens and vectors. 4345
Foreign quarantine notices. Nursery stock, plants, and seeds. Importation. 4346
Contribution to the knowledge of the hosts of the genus Opius (Hymenoptera, Braconidae). 4385
The machinery generally used for efficient sterilization and disinfestation of the soil. 4945
Sex-Determination. 5273
Notes on larval host acceptance in a California population of Plebejus acmon (Lycaenidae). 5331
Some observations on the interrelations of plants and insects in the foothills of southern Tajikistan. 6229
Survey, identification and host-parasite relationships of root-knot nematodes occurring in some parts of the Philippines. 7850

PLAQUE
Inhibitory effect of neutral red on bovine virus diarrheamucosal disease plaque formation. 1704

PLASMA MEMBRANE
Biogenic monoamines in Hirudo medicinalis. 1048
Permeability phenomena in plant disease. 2796
Effect of dietary lipids upon the lipase, pancreatic cholesterol esterase, plasma triglyceride and total plasma lipids level in the chick. (Abstract). 4261
The particle lining of the plasmic membrane in connection with excretion in a specialized region of the middle intestine of higher termites. 4574
Oxidative enzymes in Escherichia coli plasma membrane. 4792
Lipids of plasma membranes of monkey and hamster kidey cells and of parainfluenza virions grown in these cells. 7894

PLASMODIOPHORA BRASSICAE
Chemicals for control of cabbage clubroot - Plasmodiophora brassicae Wor. IV. Effect on the pathogen. 5915
Detection of Plasmodiophora brassicae races 2 and 6 in Ontario. 6056

PLASMODIUM
The United States and malaria: Debits and credits. 937
Studies on the blood parasites of various wild birds of Switzerland. 1085
Chloroquine: Retention by Anopheles stephensi after ingestion in a blood meal. 1537
Notes on the sporogonic stages of Plasmodium (Giovannolaia) polare in Culiseta longiareolata. 2556
Malaria in mammals excluding man. 2908
Comparative studies of the development of Plasmodium cynomolgi bastianellii in Anopheles stephensi and A. albimanus. 3860
Heterologous immunity in avian hosts infected with Plasmodium relictum and Plasmodium lophurae. 4232
Recent advances in the physiology and biochemistry of Plasmodia. 5526
Influence of synthetic insect T. C. medium on the survival of malaria sporozoits in vitro (Plasmodium berghei yoeli and P. cathemerium). 6576
Plasmodium brasilianum in Columbian monkeys. 6704
Blood parasites found in imported birds at postmortem examination. 6987

PLASMODIUM FALCIPARUM
Falciparum malaria transmissible from monkey to man by mosquito bite. 5751

PLASMODIUM GALLINACEUM
Mass isolation of malaria sporozoites from mosquitoes by density gradient centrifugation. 2552

PLASMODIUM LOPHURAE
A filterable, proliferating factor simulating autoimmunity in malarious and nonmalarious ducklings. 392

PLASMODIUM PINOTTII
Water balance in pinottii malaria of pigeons. 1086

PLASMOLYSIS
Concerning some aspects of tissue nourishing gall mites. 129
Permeability phenomena in plant disease. 2796
Immuno-fluorescent study of antibody formation in immunization of guinea pigs with a live brucella culture. 6478

PLASTICITY
Genetic plasticity of stored-product insects in relation to insecticides: Comparative susceptibility of confused and red flour beetles from various areas of California to malathion. 3337

PLASTICS
Insect resistant thermoplastic compositions. Patent 3,408,323. 556
New developments in pesticide packaging. 1846
Foaming agents as ground cover against weeds. 4078
Trials with carbon dioxide, light and growth substances on forest tree plants. 4909
Methods for protecting melons from cucumber mosaic virus. The benefit of covering the soil with plastic reflecting films. 6015

PLASTIDS
The effect of 3-amino-1,2,4-triazole on the ultrastructure of plastids of Triticum vulgare seedlings.
4685

Changes of plastids which arise under the influence of turnip yellow mosaic virus.
6016

PLATELETS
Hematological effects of apholate on channel catfish (Ictalurus punctatus).
7156

PLATYHELMINTHES
Animal parasites of animals which affect man in Malaysia.
3584

PLATYPODIDAE
Concerning knowledge of the order Periommatus Chapuis (Coleoptera, Platypodidae). III.
1901

A note on the Nigerian species of the genus Sosylus Erichson (Col. Colydiidae), parasites and predators of ambrosia beetles.
2524

Notes on the biology of ambrosia beetles of the genus Trachyostus Schedl (Coleoptera: Platypodidae) in West Africa.
3125

On some Scolytidae and Platypodidae of economic importance from the territory of Papua and New Guinea. 250. Contribution to the morphology and taxonomy of the Scolytoidea).
5142

PLATYZOSTERIA
Australian Blattidae (Blattodea). VII. The Platyzosteria group; general remarks and revision of the subgenera Platyzosteria Brunner and Leptozosteria Tepper.
1894

PLEBEJUS ARGYROGNOMON
Notes on Plebeius argyrognomon Bgstr. (Lepidoptera, Lycaenidae).
54

PLECOPTERA
The Plecoptera of a headwater stream (Gaitscale Gill, English Lake District).
4569

North American species of Taeniopteryx (Plecoptera, Insecta).
5132

The distribution of nymphs of Brachyptera risi Mort. and Nemoura flexuosa Aub. (Plecoptera) in relation to oxygen.
5453

Apparent DDT tolerance in an aquatic insect disproved by test.
5622

Life cycles of benthic insects in Lapland streams (Ephemeroptera, Plecoptera, Trichoptera, Diptera Simuliidae).
5653

Plecoptera from the Hamburg vicinity (Insecta-Plecoptera) (A contribution to the knowledge of the Plecoptera fauna of the north German lowlands.
7508

PLESIOCORIS RUGICOLLIS
Capsid bugs on fruit.
6225

PLEUROPNEUMONIA
Contagious bovine pleuropneumonia, its treatment and control.
2286

Study of the virulence of Contagious Bovine Pleuropneumonia organism (Assam strain) on subcutaneous pathogenicity test.
6542

Observations of infectious diarrhea as part of the shipping fever syndrome in feedlot cattle.
7889

PLEUROPNEUMONIA-LIKE ORGANISMS
Special reference to viral and P. P. L. O. infections.
6741

PLODIA INTERPUNCTELLA
The ommochrome I as a probable precursor of ommin in ommochrome synthesis of Plodia interpunctella and Ephestia kuhniella.
741

The importance of the isotope dilution in the study of the renewal of phosphorus during-larval growth of Plodia interpunctella.
775

Biochemical study of Plodia interpunctella (Hbn.) (Lepidoptera). I. Variations in body weight, dry weight and water content.
1376

Reproduction in the Pyralididae (Lepidoptera). I. Post-embryonic development and structure of the male reproductive systems of Cadra cautella and Plodia interpunctella.
2591

Neutral lipid metabolism during embryonic development of the Indian-meal moth, Plodia interpunctella (Hubner).
3320

Laboratory evaluation of malathion as a protectant for stored walnuts.
3666

Insect pathogens and microbial control of insects in stored products. I. Test with Bacillus thuringiensis Berliner against moths.
4864

Susceptibility of different stored-products moth larvae to Bacillus thuringiensis.
4867

The effects of certain elements on the host-pathogen relationship of Plodia interpunctella (Hbn.) and Bacillus thuringiensis var. Thuringiensis Berliner.
7673

PLOWING
Effect of topsoil deepening on weed infestation of following crops.
310

Slugs cause damage in Ohio cornfields.
328

Perennial weed grasses and their control in relation to cereal growing.
2859

Weed control and plant residue maintenance with various tillage treatments in a winter wheat-fallow rotation.
2862

Autumn weed control for continuous cereal growers.
2867

PLUMS
Changes in the growth-regulator content of plum infested with fruit tree red spider mite, Panonychus ulmi (Koch).
267

On Diaporthe on plum-trees - a study of literature.
977

Stem pitting of Italian prune.
2124

Investigations concerning ringspot virus disease of the cherry. III. Serological investigations.
2168

Psylla pruni Scop.-The plum psylla.
2801

Disease control in nonbearing orchards.
4699

Spraying trials against Sclerotinia diseases of plums on flowers and fruits.
6053

New disease in European plums.
6129

Gibberellin and growth in stone fruits: Induction of parthenocarpy in plum.
7251

Effect of the triazine herbicides simazine and atrazine upon young plum trees.
7260

Investigation of the effect of growth inhibitors on shoot growth of Pozegaca plum cultivar.
7300

PLUSIA PARILIS
Distribution and distributional centers of North Atlantic insects.
4407

PNEUMONIA
Respiratory disease in the pig. II.
4798

Staphylococcal intoxication of young suckling whelps.
4840

Contribution to the study of prophylaxis of bovine pneumonia in the Republic of Haute-Volta.
6551

Bovine respiratory disease, diagnosis and control.
6593

Ultrastructural changes in experimental lipid pneumonia.
7867

Caprine pneumonitis caused by a virus of psittacosis lymphogranuloma venerum (PLV) group.
7871

Experimental infection of calves with bovine adenovirus types 1 and 2.
7876

Possible occurrence of viral pneumonia in indigenous sheep and goats - a morphological study of pneumonic lung lesions.
7886

Observations on the incidence and histopathology of pneumonia of sheep and goats in India.
7911

PNEUMOSTRONGYLUS TENUIS
Pneumostrongylus tenuis in white-tailed deer in Maine.
1126

PNIGALIO MEDITERRANEUS
Observations on the morpho-biology of Pnigalio mediterraneus Ferr. and Del. (Hym. Eulophidae).
4615

POA
The stripe smut problem in Merion Bluegrass.
5965

Fusarium blight and Merion bluegrass.
6114

POA ANNUA
Machinery and timing in renovation-bluegrass.
1040

Renovation toward bentgrass.
1041

Chemical control of annual bluegrass as related to vertical mowing.
4091

Finesse in weed control.
4778

Arsenic and low phosphate soils.
6360

POA PRATENSIS
Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba.
2646

The response of Kentucky bluegrass to soil residues of preemergence herbicides.
3709

Chemical control of stripe smut in Merion Kentucky bluegrass.
3964

POA TRIVIALIS
Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba.
2646

PODAGRICA
Breeding work for the creation of glandless cotton varieties in chad.
4654

PODISUS MACULIVENTRIS
The effect of predator age on the functional response of Podisus maculiventris to the prey size of Galleria mellonella.
5485

PODOSPHAERA LEUCOTRICHA

Structures and pesticidal activities of derivitives of dinitrophenols. X. Effects of substitution of dinitrophenols with C3 to C13 alpha-branched alkyl groups and of esterification on the eradication of barley mildew. 3401

Structures and pesticidal activities of derivatives of dinitrophenols. IX. Effects of substitution of dinitrophenols with C4 to C13 alpha-branched alkyl groups and of esterification on the eradication of apple mildew. 3402

Effect of 6-azauracil against apple powdery mildew and apple scab. 5909

Intensive field comparison of fungicides for apple mildew control. 7769

A field comparison of fungicides as medium volume sprays on apples. 7795

PODZOL SOILS

Concerning the problem of the persistence of certain weeds in weeded cultures and in the fall sowing of the Banat region. 3467

Third contribution to the knowledge of keratinolytic and keratinophilic soil fungi in the region of Szczecin. 5818

POECILMITIS

A new species of Poecilmitis Butler (Rhopalocera) from the South Western Cape. 5120

POECILOCERUS HIEROGLYPHICUS

Food-plant selection by Poecilocerus hieroglyphicus (Klug) (Acrididae: Pyrgomorphinae) and somc of the receptors involved. 736

POGONOCHERUS PERROUDI

Imported Cerambycidae. 3151

POISON GLANDS

The fine structure of the cuticle. A contribution to the question of thc protcction against its own poison of thc Madeira roach. 1971

POISONING

Look what's happening to insect control. 94

Decay of rubber wood in a replanting and its effect on root disease. 245

Rat poison and insecticide. 329

Findings concerning nourishment and toxic residues in plants, other health hazards and life threats. 478

Macrozamia poisoning. 508

Suspected sodium fluoroacetate poisoning in sheep and cattle. 511

Oral and parenteral toxicity of Bacillus thuringiensis exotoxin , and its inactivation in larvae of Galleria mellonella. 880

Experimental whitewood, Atalaya hemiglauca, poisoning in the horse. (Abstract). 1114

A case of Diquat poisoning in cattle. 1161

Properties and uses of poisonous chemicals. (JPRS 41,364) transl. 16680. 1179

Paraquat poisoning treated by forced diuresis. 1801

Methylmercuric poisoning. 1802

Paraquat poisoning, lung transplantation. 1803

Recovery from paraquat poisoning. 1804

Childhood poisoning accidents. 1807

Mycotoxicoses. 2297

Nitrate-nitrite intoxication in swine. 3035

First aid in cases of acute poisoning with agricultural pesticides. 3036

Water containing algae may be dangerous to stock. 3039

Electrocardiographic aspects of experimental methyl-parathion poisoning. 3041

Birds. In: Diseases of man acquired from his pets. 3515

Philippine field rats and their control. 4093

Organic phosphate poisoning of sheep in Skull Valley, Utah. 4304

Experimental studies on the ammonia poisoning of the goat. I. On the capacity to detoxicate ammonia entering through the portal blood. 4305

Environmental nitrates and animal health. 4315

Some recent aspects of veterinary toxicology: Attempted comparison with human toxiocology. 4316

A comparative study on the effects of aerial versus ground spraying of poisoned baits against the Mediterranean fruit fly on the natural enemies of scale insects in citrus groves. 4454

Poisoning of Pieris brassicae L. by an enzyme fraction of the toxin of the crystals of the strains Bacillus thuringiensis serotype U Berliner and serotype. III. Anduze. 4560

Search for new insecticides. 4893

Some pathological effects of sub-acute and acute poisoning of rainbow trout by phenol in hard water. 4898

Ergot disease of bajra--its symptoms and control. 6100

A laboratory method for assessing the toxicity of stomach poisons to slugs. 6407

Relation between DDT in diets of laying birds and viability of their eggs. 6431

Pig diseases. 6489

An outbreak of male fern (Dryopteris filix-mas) poisoning. 6822

Thallium poisoning in dogs. 6884

Notes on precautions to be taken in the use of spray chemicals. 7159

The management of cases of suspected poisoning. 7173

Diagnosis and treatment of poisoning in cats and dogs. 7183

Zieria arborescens (stinkwood) intoxication in cattle. 7188

Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

Poisoning on the farm. A report of a case of organophosphorus poisoning. (abstract). 7197

Fluorosis in cattle and sheep, observed around industrial plants in Bulgaria. 7205

Ammonia poisoning in carp. 3. The oxygen content as a factor influencing the toxic limit of ammonia. 7208

Combating poisoning due to insecticides. 7211

Effect of DDT poisoning on the longevity and fecundity of the pink bollworm. 7566

POISONOUS FUNGI

Mushrooms; How to identify and grow them. 3350

British poisonous plants. 4308

POISONOUS PLANTS

Poison plants of Western Australia; the toxic species of the genera Gastrolobium and Oxylobium. 1025

Enlarged thyroid glands in calves born to heifers fed a sole diet of Leucaena leucocephala. 1072

Toxicity of Crotalaria mucronata to sheep. 1080

Neuronopathy in sheep fed Swainsona luteola and S. galegifolia. 1081

Experimental whitewood, Atalaya hemiglauca, poisoning in the horse. (Abstract). 1114

Cycad husk from Guam: Its toxicity to rats. 1162

Lupinosis. 2907

Procedure for aerial spraying of serrated tussock. 3034

Ragwort. 4073

22 plants poisonous to livestock in the Western United States. 4109

Notes on toxicology: The clover. 4122

British poisonous plants. 4308

Proceedings of the American College of Veterinary Toxicologists, 1967. 4309

Proclaimed noxious weeds in Victoria. 6312

Water hyacinth: Noxious weed that must be checked. 6379

Locoweed poisoning. 6581

Ergot poisoning of cattle grazing Dallisgrass. 6596

Cassia occidentalis toxicosis in cattle. 6717

Variation in concentration and composition of toxic alkaloids among strains of Phalaris tyberisa L. 6750

Lupine, a cause of crooked calf disease. 6815

Common poisonous plants in home and grounds. 7161

Zieria arborescens (stinkwood) intoxication in cattle. 7188

POISONS

Mercury which poisons the environment in Sweden. 1782

Noteworthy poisons which are pesticides. 1806

Relative efficacy of different insecticides, as contact poisons, to the adults of singhara beetle, Galerucella birmanica Jacoby, (Coleoptera: Chrysomellidae). 3301

Regulations for the enforcement of the federal insecticide, fungicide, and rodenticide act. Pesticides containing phosphorus paste. 3737

Weeds mean waste Know your weeds and how to control them. 4066

Current status of methods for identifying pesticides, a survey. (JPRS 32,031) 4303

Part II proposed for paraquat. 4962

Heart poisons in the monarch butterfly. 5554

Thallium poisoning in dogs. 6884

Thieves in the poultry house. 7041

Symptoms of intoxications by poisonous pesticides. (JPRS 46216) 7143

Maximum place of work concentrations of health-endangering industrial materials. 7154

Experimental arsanilic acid poisoning in pigs. 7169

Economic poisons containing certain pesticide chemicals for certain uses. Cancellation of registration. 7170

POLARIZATION

Studies of losses of pesticides during sample preparation. 1142

Some experiments on polarity of IAA-2-C14 transport in Helianthus annuus seedlings. 4903

Polarized light observations on striated muscle contraction in a mite. 5198

POLAROGRAPHY

The dosage of the insecticides: DDT, HCH and methoxychlor for chromatography on a thin layer and for polarography. 562

Oxygen uptake of single insects determined with a polarographic oxygen electrode. 804

Polarographic analysis of s-triazine herbicides. 1183

Chemical characteristic of the products of drug decomposition. I. Polarographic examination of the products of papaverine hydrochloride decomposition. 1187

Oscillopolarographic determination of parathion, paraoxon, and p-nitrophenol in fortified canned peaches following thin layer chromatography. 3659

Recent developments in the detection and determination of pesticides and their residues by oscillographic polarography. 8003

Applications of polarography for the detection and determination of pesticides and their residues. 8004

Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 8012

POLIOENCEPHALOMALACIA

Polioencephalomalacia: Response to thiamine treatment in sheep and a cow. 6539

POLIOENCEPHALOMYELITIS

Differential diagnosis of bovine encephalitides. 2890

POLIOMYELITIS

The effect of conditions of cultivation of the poliomyelitis virus on the frequency of mutations affecting the guanidine character. 2911

POLISTES

Some effects of castration on the protocerebral neurosecretion of the females of Polistes (Hymenoptera, Vespidae). 4601

Unique problems in insect and pest control of NASA's Mississippi Test Facility. 5755

POLISTES BISCHOFFI

The position of Polistes (Leptopolistes) bischoffi Weyrauch (Hymenoptera: Vespidae). 27

POLLEN

Beekeeping methods in North America. 2664

Initiation of pollen consumption and pollen movement through the alimentary canal of newly emerged honey bees. 3188

Form and mechanism of transmission of plant viruses. Transmission of viruses by seeds, pollen and contact of roots. 4702

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybeeIi. Effect of vitamin content of pollens. 5347

Effect of the age of pollen used in pollen supplements on their nutritive value for the honeybee. I. Effect on thoracic weight, development of hypopharyngeal glands, and brood rearing. 5348

Substances that attract caged honeybee colonies to consume pollen supplements and substitutes. 5565

Microsporogenesis of the bird's-foot trefoil (Lotus corniculatus L.). 6329

POLLEN TUBE

Studies on the effect of growth regulators on pollen germination and tube growth in shoe flower (Hibiscus Rosasinensis L.). 4920

POLLINATION

Pollination with the spray apparatus . 209

Nest architecture and associated behavior of the nocturnal bee, Sphecodogastra texana (Hymenoptera: Halictidae). 643

Aspects of the biology of Chilicola ashmeadi in Costa Rica (Hymenoptera: Colletidae). 781

Studies on the mechanism of gibberellin-induced seedlessness of Delaware grapes. II. Development of ovules and pollen as affected by prebloom gibberellin treatment. 1174

Honey bees essential for pollination of apple trees. 2628

Pollination of some tundra plants with miniature flowers on niwot ridge in Boulder County, Colorado. 2698

Effect of seeded fruits and foliar-applied auxin on seedless fruit set of pear the following year. 4332

A record of Megachile rotundata (F.) from Ashcroft. British Columbia. 4358

Mosquito pollination of Habenaria obtusata (Orchidaceae). 4675

Insect-flower associations in the high Arctic with special reference to nectar. 5366

Figs (Ficus spp.) and fig-wasps (Chalcidoidea). 6190

Weeds. 6344

Influence of inbreeding carried out during many years on hemp growth and development. 7318

POLYACRYLAMIDE

The coat protein gene of tobacco mosaic virus. I. Location of the gene by mixed infection. 2142

POLYCENTROPODIDAE

The proventriculus of some trichopterous larvae. 3206

POLYDESMUS

Integumental pigments of the millipede, Polydesmus angustus (Latzel). 133

POLYERGUS LUCIDUS

Flights of the ant Polyergus lucidus Mayr. 893

POLYETHYLENE

A polyethylene bag for dispersing the synthetic sex pheromone of the cabbage looper. 3292

POLYETHYLENE GLYCOL

Concentration of certain myxoviruses with polyethylene glycol. 378

POLYGONUM CONVOLVULUS

Studies of the influence of some predominant weeds on the yield pattern of spring barley. 313

Perennial bindweeds. 4074

POLYGUANYLIC ACID

Polyguanylic acid and its effect on amino acid incorporation. 4925

POLYHEDRA

RNA isolated from polyhedra of a nuclear polyhedrosis of the silkworm. 3218

POLYHEDROSES

Electrophoretic separation of the hemolymph proteins in the silkworm, Bombyx mori L., infected with the nuclearpolyhedroses virus. 171

Manifestations of viral infection in Agrotis segetum Schiff. and in Hadena sordida BKH under conditions of the simultaneous existence of two viruses. 771

Host range of insect viruses. 794

The development of the polyhedrosis virus after oral infection of Galleria mellonella L. 805

The polyhedrosis of Mamestra brassicae. 815

The use of a polyhedral virus disease in the control of the pine sawfly Neidiprion sertifer Geoffr. in North -West Scotland. 868

Optimum periods for the proliferation of polyhedrosis in the caterpillars of Lymantria dispar (Lep. Lymantriidae). 873

Diseases of forest defoliators of Spain. 874

Stability mechanism of polyhedra. 894

Virulence of an insect virus increased by repeated passages. 900

Polyhedral pre-viral genome containing genes synthesizing deoxyribonuclease and protease. 915

Relationships among the polyhedrosis and granulosis viruses of insects. 1360

A field test comparing resistant varieties plus applications of polyhedral virus with insecticides for control of Heliothis spp. and other pests of cotton, 1967. 1962

Specificity of insect viruses. 1987

The isolation and biophysical characterization of an insect virus from Pachypasa capensis (Lepidoptera: Lasiocampidae). 2570

Change in the shape of silkworm polyhedra by means of passage through chick embryo. 3149

RNA isolated from polyhedra of a nuclear polyhedrosis of the silkworm.
3218

A cytoplasmic polyhedrosis of Hemerocampa pseudotsugata.
3239

Polyhedral sensitivity of the caterpillars of bombyx disparate (Lymantria dispar L.) during the various gradation phases of their development in nature.
3298

The use of viruses in biological control.
4458

The problem of viral latency in insect tissue cultures.
4484

A preliminary study on the polyhedrosis virus of jute semilooper, Anomis sabulifera Guen.
4516

Electron microscope study of the virus of the granulosis of the fall webworm (Hyphantria cunea Drury).
4613

Study of the virus disease of Neodiprion swainei Midd. and results of its aerial dispersion.
4758

Ultrastructure of a cytoplasmic polyhedrosis virus affecting the monarch butterfly, Danaus plexippus. I. Development of virus and normal polyhedra in the larva.
5197

Pathogens of the gypsy moth.
5289

Conditions determining the initiation and development of nuclear polyhedrosis epizootics in Lepidoptera.
5506

The study of virus epizootics in insect populations.
5625

Initiation of polyhedrosis production in vitro.
5685

Determination of nucleopolyhedron counts and size frequency distributions by means of a Coulter transducer.
6009

Concerning a mass population increase of the false pine webworm, Acantholyda erythrocephala Chr. in Steinfeld, Lower austria, in the years 1964-1967. Preliminary communication.
6196

Virus diseases as limiting factors of some lepidopterous defoliators on poplar trees in Vojvodina.
6249

POLYMERIZATION
Tympanol. Drugs for veterinary use; drug efficacy study implementation.
2315

The oxygen binding properties of some larval hemoglobins of Chironomus th. thummi.
5606

POLYMERS
Insect resistant thermoplastic compositions. Patent 3,408,323.
556

Enhancement by 2,4-dichlorophenoxyacetic acid of chromatin RNA polymerase in soybean hypocotyl tissue.
7278

POLYMORPHISM
A revision of the genus Copris Muller of the Western Hemisphere (Coleoptera, Scarabaeidae). matthews, e g.
5

Trichogrammidae--the smallest winged insects.
42

The control of polymorphism in aphids.
115

The influence of wing-dimorphism on the distribution of Curculionidae.
890

Chromosomal polymorphism in Drosophila tetrachaeta.
919

Sexual dimorphism of the Campsomerinae (Hymenoptera, Scoliidae).
1362

Larval dimorphism and other characters of Heterocampa pulverea (Grote Robinson) (Lepidoptera: Notodontidae).
1422

Allomorphic growth patterns in relation to sex-limited polymorphism in some mycophagous Tubulifera (Thysanoptera).
1496

Genetics of natural populations. XXXIX. A test of the possible influence of two insecticides on the chromosomal polymorphism in Drosophila pseudoobscura.
1497

Chromosomal polymorphism in Drosophila tetrachaeta.
1498

Frequency-dependent selection at the esterase 6 locus in Drosophila melanogaster.
1509

Adaptive chromosomal polymorphism and flexible control of recombination by Phryne cincta (Diptera, Nematocera).
1525

Photoperiodic induction of vernal phenotype in Pieris protodice Boisduval and Le Conte (Lepidoptera: Pieridae).
2047

Neural adaptations in the visual pathway of certain heliconiine butterflies, and related forms, to variations in wing coloration.
2060

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism.
2077

Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. II. Mating behaviour.
2081

Genetic heterogeneity among the founders of laboratory populations of Drosophila melanogaster. III. Sternopleural chaetae.
2085

Pericentric inversion polymorphism in Trimerotropis helferi (Orthoptera: Acrididae) and its effect on chiasma frequency.
2088

A review of the genus Gosodesmus Chamberlin, with the synonymy of Eucybe Chamberlin (Diplopoda: Platydesmida: Andrognathidae).
2476

On food forms of the flat-headed pear-borer Agrilus viridis (Coleoptera, Buprestidae).
2539

Selection of phase types based on hopper coloration in Locustana pardalina (Walker).
2624

Inversional polymorphism in Boophtora erythrocephala (Simuliidae, Diptera).
2678

A monographic revision of the American Galeritini (Coleoptera, Carabidae).
3124

Population biology of tropical African butterflies. Sex ratio and genetic variation in Acraea encedon.
3259

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism.
3329

Hereditary nature of the two forms of Argyrogramma albostriata (Bremer and Grey) (Noctuidae, Plusiinae).
3898

Polymorphism in males of the sugarcane leafhopper, Perkinsiella saccharicida.
4576

Recent data on the origin of larval polymorphism at hatching in the migratory grasshopper, Schistocerca gregaria Forskal.
4578

Esterase and phosphatase polymorphism in natural population of wild silkworm, Theophila mandarina L.
4626

Parallel polymorphism for supernumerary segments in Chorthippus parallelus (Zetterstedt). I. British populations.
4638

Cytological studies of Antipodean Teleogryllus species and their hybrids (Orthoptera: Gryllidae).
4641

Barriers to gene flow in natural populations of grasshoppers. I. The Black Canyon of the Gunnison River and Arphia conspersa.
4650

The effects of implantations of corpora allata on reproduction of collected females of Schistocerca gregaria (Forsk.) and on the polymorphism of their progeny.
5255

The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae.
5468

Sexual dimorphism of larvae and pupae of Aedes aegypti (Linn.).
5659

Polymorphism in Pieris: Supposed lethality of homozygous subtalba (Lep., Pieridae).
5697

On polymorphism within a chromosomes from populations of ground beetles Carabus auronitens Fabr.
5745

Morphological variant of Tetylenchus joctus Thorne (Nemata: Tylenchida) associated with cultivated blueberries in Indiana.
6289

Contribution to the knowledge of the variability of the species Lithobius lucifugus L. Koch, 1862 (Chilopoda).
7438

Cytotaxonomy of North-American Chironomidae species.
7565

Polymorphism in the mimetic butterfly Hypolimnas misippus L. in Ghana.
7604

An analysis of natural selection in laboratory populations of Dacus (Tephritidae: Diptera).
7610

Experimental investigation into the morphological variability of Musca domestica L. (Dipt. Muscidae).
7639

The origin of heterogeneity in newly-hatched populations of the migrating grasshopper, Schistocerca gregaria Forsk. (gregarious phase).
7670

Karyotype variation in dermestid beetles.
7737

Phase transformation and chiasma formation in locusts.
7744

Heterozygoos puffs in Sciara ocellaris.
7746

POLYMYXIN
Lower alkanoyl esters of polymyxin antibiotics. Patent 3,450,687.
7350

POLYOMA VIRUS
Control of DNA synthesis in cells infected with polyoma virus.
2894

Observations on polyoma virus filaments.
2938

Research on the oncogenic constituents of three zones of hemagglutinating activity, obtained by centrifugation of polyoma virus purified in density gradients with cesium chloride.
4806

POLYOXYETHYLENE DERIVATIVES

On antibiotic-antimycotic therapy in cattle mastitis. 6802

POLYPHYLLA

Polyphylla Harris in America, north of Mexico. I. The diffracta complex (Coleoptera: Scarabaeidae: Malolonthinae). 730

POLYPLOIDY

Comparative analysis of spontaneous aneuploidy in males and females of Drosophila. 2682

The contribution of Italy to research concerning the use of nuclear energy in insect control. 3246

The influence of the genotype on the frequency of radiation-induced aneuploidy in the oogenesis of Drosophila melanogaster. 3897

The influence of the genotype on the frequency of radiationinduced aneuploidy in the oogenesis of Drosophila melanogaster. V. A tentative explanation of the differences in the dose-response curves. 4635

Experimental induction of androgenesis, gynogenesis, and polyploidy in Bombyx mori by treatment with CO2 gas. 4647

Nucleic acid content of a diploid and of a triploid strain of Drosophila melanogaster. 5705

Utility value of different cultivated Mentha piperita varieties. 5788

Avena magna: An important new tetraploid species of oats. 5824

Trials of obtaining artifical tobacco poliploids. 7319

The polytenic chromosomes of the bristle forming cell of Calliphora erythrocephala with special consideration on the sex-linked heterozygous structure and the puff model during metamorphosis. 7748

POLYPORUS BETULINUS

The night-day activity rhythm of Tetratoma fungorum F. (Col., Tetratomidae). 885

POLYSACCHARIDES

The biochemistry of sugars and polysaccharides in insects. 176

Biochemical studies on Sclerotium rolfsii Sacc. 2144

Protein-lipid-polysaccharide complex from the culture and mycelium of the fungus Verticillium dahliae Kleb, the causative agent of verticilliaceous wilt of cotton. 2758

Fungal polysaccharide composition and method for making same. Patent 3,436,311. 7244

POMPILIDAE

Studies on neotropical Pompilidae (Hymenoptera) IV. Examples of dual sex-limited mimicry in Chirodamus. 3195

Spider wasps of Finland (Hym., Pompiloidea). 5171

Results of the Albanian 1961 Expedition of the German Entomological Institute. 67. Contribution. Hymenoptera. Pompilidae and Ceropalidae. 7564

PONDS

A field evaluation of abate briquettes in woodland pools. 1528

Comparative studies of the molluscicidal effect of cuprous chloride and copper sulfate in Iran. 2471

Ammonia poisoning in carp. 3. The oxygen content as a factor influencing the toxic limit of ammonia. 7208

PONGAMIA

Pongamia cake can control tobacco beetle. 6201

POPILLIA JAPONICA

The present status of milky disease of Japanese beetle in Connecticut. 62

Cytology of milky disease bacteria. I. Morphogenesis of Bacillus popilliae in vivo. 64

A sporulating strain of Bacillus popilliae. 886

Insecticidal dusts against Japanese beetles and European chafers for disinsectization of transport vehicles. 1389

Domestic quarantine notices. Japanese beetle. Regulated areas. 1617

Attractants for the Japanese beetle. 3199

Feeding larvae of the Japan beetle in the laboratory. 3209

Attractants for the Japanese beetle. 3277

Controlling the Japanese beetle. 5187

POPULATION

The measurement and interrelationships of infections with Nosema apis and Malipighamoeba mellificae of honey-bee populations. 59

The fate of immature housefly populations at low and high densities. 66

Larval movement of Lasioderma serricorne (F.) (Coleopterai Anobiidae) in a plane. 116

Morphological and biological investigations on clones and field populations of the foxglove-aphid, Aulacorthum solani KLTB. 1843 sensu latiore (Hemipt. Aphid.). 127

From grasshopper to a locust. 141

A mathematical model for two Tribolium populations in competition. 164

Defoliation in Vietnam. 214

The state of weeds when applying herbicides and insecticides in corn fields. 318

The life span of Fasciola hepatica in cattle. 448

A consideration of insecticide effects on hypothetical avian populations. 499

Research on the fauna of the Sarno river. I.Description of the course of the water and population data on the invertebrates in the source and upper stream. 580

Comments on population dynamics of exotic insects. 714

Activities of the working groups. Working group population dynamics of the Colorado beetle. 734

Ceroplastes rusci L. (Homoptera, Coccoidea, Lecaninae) an interesting example for the study of population dynamics. 749

Age structure, population dynamics and vector potential of Phlebotomus in Northern California. I. Distinguishing parous from nulliparous flies. 765

Contribution to the study of the population dynamic of insects: I. Stimulating action of the host, Acrolepia assectella Z., on the multiplication of an hymenoptera Ichneumonidae (Diadromus sp.). 828

The question of the statistical proof of diet-dependent mortality. 859

Contribution to the study of population dynamics. I. Populational analysis of Nasonia vitripennis Walk. (Hymenop., Pteromalidae). 865

Chromosomal polymorphism in Drosophila tetrachaeta. 919

Studies on the microfungi in the forest floor of subarctic pine forests. 983

Studies on the Wooly beech scale Cryptococcus fagi Baer (Insecta, Coccina), a representative bark-sucker. 999

Natural regulation and artificial control of Brown Locust numbers. 1000

Investigations of the population fluctuations of Oscinella frit. (abstract). 1004

Investigations into the ecology of the Coleoptera fauna of coastal cultivated land near Greifswald. Part I. The Carabid fauna adjacent to fields and pastures with intermediate field borders. 1007

A method of estimating the size of native populations of oriental, melon, and Mediterranean fruit flies, to establish the overflooding ratios required for sterile-male releases. 1480

Study of the corpus luteum in insect ovaries by fluorescence microscopy. 1494

Genetics of natural populations. XXXIX. A test of the possible influence of two insecticides on the chromosomal polymorphism in Drosophila pseudoobscura. 1497

Population assessment of cotton bollworm in relation to pest control practices. 1974

Principles of crowding effect in Aphis gossypii Glover (Aphididae, Homoptera). 1975

The relative abundance of species in a wild population of Macro-Lepidoptera. 1985

Sampling to detect economic infestations of Limonius spp. 2022

Isolation of the population aggregating pheromone of the southern pine bettle. 2033

Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037

Fluctuations in the population of Schizolachnus piniradiatae (Davidson) (Aphididae-Homoptera) in the Eastern Provinces during 1967. 2048

Insect and host factors in the aggregation of the southern pine beetle. 2065

Gross variations in the response to man among yellow-fever mosquito populations in the laboratory. 2098

An approach to the study of the population dynamics of Aphanomyces euteiches in soil. 2155

End of squaring as an economic indicator of approximate time to end insecticidal treatments for boll weevil control. 2227

POPULATION (INSECTS)

A technique for evaluating varietal resistance of castor to castor jassid (Empoasca flavescens Fabricius). 2232

Aphid populations in relation to tristeza in Florida citrus. 2235

Gall midges (Diptera-Cecidomyiidae) and their parasites (Hymenoptera) living in female birch catkins. 2586

Some factors influencing the population dynamics of Synanthedon tipuliformis Cl. (Lepidoptera, Aegeriidae). 2826

Seasonal population changes in cocoa capsids (Hemiptera, Miridae) in Ghana. 3207

Influence of oophagous parasites on the regulation of the Cassida deflorata Suff. population. 3232

Systematic foundations of forest ant reproduction in Germany. 3234

Population biology of tropical African butterflies. Sex ratio and genetic variation in Acraea encedon. 3259

Population models for supression of the sugarcane borer by inherited partial sterility. 3303

The entomology of the Isle of Rhum National Nature Reserve. 3775

Host resistance reflected in differential nematode population structures. 4058

Hygiene and animal diseases in Deux-Sevres (region of Coulonges-sur-l'Autize). 4141

Are woodpeckers the answer to pine bark beetle attacks . 4450

A criterion of transformation for age-weight data on insect larval growth. 4481

Esterase and phosphatase polymorphism in natural population of wild silkworm, Theophila mandarina L. 4626

Parallel polymorphism for supernumerary segments in Chorthippus parallelus (Zetterstedt). I. British populations. 4638

Barriers to gene flow in natural populations of grasshoppers. I. The Black Canyon of the Gunnison River and Arphia conspersa. 4650

The effects of soil sterilization procedures on the microbiological equilibrium of the soil. 4672

Cryptogama diseases of the root system. Prevention and control. 4681

Studies on the population of the aphid Pentalonia nigronervosa Coq. on banana plants in Kerala. 4752

Biological control of snails exerted by Euglandina rosea (Ferussac) in Bermuda. 4786

Observation on the sex ratio in Pieris brassicae (L.) (Lepidoptera-Pieridae). 5233

Selection for divergent emigration rates in laboratory populations of Musca domestica. 5269

Rates of competitive exclusion by the Argentine ant in Bermuda. 5274

Incidence of Bacillus popilliae (Dutky) in Costelytra zealandica (White) larva. 5406

The significance of oviposition rates in the egg parasite, Trichogramma embryophagum Htg.. 5410

Estimation of the individual number entering each development stage in an insect population. 5413

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae). 5600

Functional response to host density in a parasitic wasp, with reference to population regulation. 5640

Effects of selection and migration on geotactic and phototactic behaviour of Drosophila. II. 5702

The variation from year to year of the concentration and allelism of lethal mutations in neighbouring natural populations of Drosophila melanogaster. 5707

Timing insecticide applications for European corn borer control in Southwestern Quebec, 1967. 6194

Chemical control of codling moth with DDT and sevin, the resistance problem of codling moth to DDT and additional observations on the effect of fruit thinning of sevin. 6195

Effect of range treatment with 2,4-D on rodent population. 6408

New contributions to the subject 'birds and agriculture'. 6411

The effects of DDT on a breeding population of the rufoussided towhee (Pipilo e. erythrophthalmus Linnaeus). 6418

Sympatric host race formation and speciation in frugivorous flies of the genus Rhagoletis (Diptera, Tephritidae). 7583

Nights flight of the Australian plague locust. Chortoicetes terminifera Walk., in relation to storms. 7593

Polymorphism in the mimetic butterfly Hypolimnas misippus L. in Ghana. 7604

An analysis of natural selection in laboratory populations of Dacus (Tephritidae: Diptera). 7610

Investigation into the variability of European populations of Orthotylus ericetorum Fall. (Heteroptera: Miridae). 7631

On a method of population estimation using capture-recapture data. 7649

Investigation into the population fluctuations of Oscinella frit L.. 7651

Investigation of the latent period of the oak leaf roller Tortrix viridana L. (Lepidoptera). 7660

Contribution to the study of mosquitoes (Diptera, Culicinae) occurring in some areas of central and south Moravia. 7668

The origin of heterogeneity in newly-hatched populations of the migrating grasshopper, Schistocerca gregaria Forsk. (gregarious phase). 7670

On the ecology of zygopteran dragonfly populations. 7671

Mountain systems as centers of species formation. 7697

Locomotor activity in Drosophila--V. A comparative biochemical study of selectively bred populations. 7714

The B-chromosome system of Myrmeleotettix maculatus (Thunb.). III. The statistics. 7735

The stochastic simulation of Tribolium populations. 7743

Studies in aging: IV. Genetic control of pigment accumulation and its bearing on the adult life span in Drosophila melanogaster. 7753

The effects of some soil-borne fungi on the sex ratio of Heterodera rostochiensis on tomato. 7786

On the distribution of the infestation of the cabbage gallgnat Dasineura brassicae, in large fields. 7832

An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects. 7835

Basic premises of a theory of the protection of plants against pests. 7836

On the relationships between ants and parasites of coccids and aphids on citrus. 7840

Forest entomology in the USSR. 7843

Ecology of lice on sheep. VII. Population dynamics of Damalinia ovis (Schrank). 7928

POPULATION (INSECTS)

The mass increase in the population of Tortrix viridana L. 756

POPULATION INCREASE

The mass increase in the population of Tortrix viridana L. 756

POPULATION STATISTICS

Computing a population budget from sequentially sacrificed, replicated cultures. 156

Tolerance of spruce budworm to malathion; Montana, New Mexico populations show no differences. 839

Biology and control of native and introduced forest insects in the Nearctic Zone. 4375

Quantitative genetic estimates for brown spot resistance in corn. 5846

Chlorinated hydrocarbons and eggshell changes in raptorial and fish-eating birds. 7108

Certain problems concerning the study of Chironomidae populations. 7576

POPULUS

A massive invasion of Stilpnotia salicis. (Lymantriidae). 46

A contribution to the study of the pemphigose of poplars and its pathogen Pamphigus spirothecae. 4035

The important forest pests of Spain. 4660

Biological observations on Aegeria apiformis Cl. 5642

Virus diseases as limiting factors of some lepidopterous defoliators on poplar trees in Vojvodina. 6249

POPULUS BALSAMIFERA

Rhytidiella moriformis n. gen., sp. causing roughbark of Populus balsamifera. 6140

POPULUS TREMULOIDES
The physiology, inter-relationships and effects on the wood of fungi which attack birch and aspen pulpwood. 1567

PORASWAMMERDAMIA CAESIELLA
How do native insect parasites behave in relation to imported insect hosts, alien to the native fauna . 5695

PORK
Botulism after eating pork in Dortmund. 1134
Survival of encysted larvae of Trichinella spiralis: Effect of exposure to 0 F, using precooled and fresh ground pork. 7039
Interaction of salt, pH, and temperature on the growth and survival of Salmonellae in ground pork. 7047
Salmonella food poisoning associated with imported canned meat. 7050
Investigations into the source of bacterial contamination of pork. II. In steaming. 7054

PORPHYRINS
Integumental pigments of the millipede, Polydesmus angustus (Latzel). 133
Problems in monitoring DDT and its metabolites in the environment. 4889

PORTHETRIA DISPAR
Some experiences with the use of Bacillus thuringiensis Berl. against forest pests. 72
Tests on standardization of Bacillus thuringiensis preparations. 100
The principal parasites observed on the leaf roller moths of spain with particular attention to Lymantria dispar. L. 143
Pathologic complications during the larval development of Lymantria despar in the laboratory. 145
The gypsy moth threat in America. 216
The technique of determining the effectiveness of Bacillus thuringiensis preparations (spore- Endotoxin -complex) on caterpillars in the laboratory. 807
Optimum periods for the proliferation of polyhedrosis in the caterpillars of Lymantria dispar (Lep. Lymantriidae). 873
Differential sensitivity of the larvae of Lymantria dispar L. to achromatic stimuli of varied distinctiveness. 1964
Influence of the form of traps upon the attractiveness of sexual odour of gypsy moth females. 2472
The conservation of viruses and entomopathogenous bacteria in tablet form. 3297
Polyhedral sensitivity of the caterpillars of bombyx disparate (Lymantria dispar L.) during the various gradation phases of their development in nature. 3298
Studies on the sex ratio of the gypsy moth. 5248
Pathogens of the gypsy moth. 5289
Utilization of Bacillus thuringiensis in the control of Porthetria dispar in Spain. 5575
Those hungry gypsies (Photo story). 6189
Gypsy moth (Ocneria dispar) control in the roadside plantations. Transl. 17032. 6209

POSTHITIS
Sheath rot is on the increase. 1674
Effect of thiabendazole on ovine posthitis. 6827
The control and treatment of posthitis. 6829

POTASH
Role of potash application in reducing black rust of wheat. 4680
Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control. 4722

POTASSIUM
Tempting the soybean's erratic appetite. 228
A note on the occurrence of watercore breakdown in apples during 1966. 1583
Effects of potassium, magnesium, and nitrogen deficiencies on the concentration of chlorogenic acid and scopolin in tobacco. 2116
Response of cotton plant to certain combinations of fertilizers and Metaisosystox. 2447
Studies on the blood chemistry of cattle in a herd infected with Johne's disease. 2930
On the presence of adenotriphosphatase activity of both sodium and potassium (Na, K ATPase) in the nerve cord of Periplaneta americana. 3210
Changes in insecticide sensitivity in the bean weevil Acanthoscelides obtectus Say, brought about by induced pigment formation. 3867
Are fertilizer programs related to fireblight and fruit disorders at harvest . 3933
Role of potash application in reducing black rust of wheat. 4680
A sodium and potassium stimulated adenosine triphosphatase in the cockroach nerve cord. 5337
Ionic composition of haemolymph and nervous function in the cockroach, Periplaneta americana L. 5528
Intracellular concentration of electrolytes in the housefly. 5598
A relationship between ionic environment and hormonal activation of phosphorylase in an insect. 5629
An anion-stimulated adenosine triphosphatase from the potassium-transporting midgut of the larva of Hyalophora cecropia. 5651
Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil. 5880
Chemicals for control of cabbage clubroot - Plasmodiophora brassicae Wor. IV. Effect on the pathogen. 5915
Interaction of rubidium and potassium in chick diets. 6797
Industrial fertilizers as herbicides seen in the light of new and old experiments. 7102
Relation between black spot and composition of the potato tuber. 7312
The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part II. Net assimilation rate and sugar production. 7315
The effect of potassium on the metabolism of sugar beet plants infected with sugar beet yellows virus. Part I. Water balance and the optake of some mineral nutrients. 7316
Plant analyses uncover hidden hunger in Indiana. 7784

POTASSIUM GIBBERELLATE
For earlier, larger blooms; producing camellias with various solutions of gibberellic acid. 1828

POTASSIUM HYDROXIDE
Reduction of parathion residue on celery. 497
For earlier, larger blooms; producing camellias with various solutions of gibberellic acid. 1828

POTASSIUM IODIDE
Use of potassium iodide in the treatment of ovarian cysts in cows. 6552

POTASSIUM NITRATE
Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate. 7285

POTASSIUM PHOSPHATE
Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil. 7236

POTASSIUM SALTS
Etiology and treatment of hypomagnesemia in cattle. 3535

POTASSIUM SORBATE
Effects of chemical preservatives and storage on constituents used to characterize lemon juice. 4940

POTASSIUM SULFATE
The influence of a small application of manure near the seeds on the plant's resistance to infection by nematodes. 2240

POTASSIUM TARTRATE
Dr. Mayfield large roundworm tablets. Drugs for veterinary use; drug efficacy study implementation. 2366

POTATO SEEDS
Tests on dry fumigation of potato seedlings against Rhizoctonia disease. 4023

POTATO-TUBER
Residues of parathion and methylparathion in potato tubers and in the soil, following soil treatments. 487
Effect of soil temperature and necrosis infection on the content of phenolic substances in potato tubers. 1809
Heat-extraction technique for recovery of potato tuberworm larvae from potato tubers. 2029

POTATOES
The detection of primary infections of virus diseases in potato plant cultures. 244
The method of testing seed potatoes by mean of the callose (Igel-Lange) test. 292
Late blight disease on potatoes and its control. 959
Disinfection of potatoes with maneb and magnesium. comparative effect of maneb and magnesium solfate in the yield of Capiro potato at the experimental substation at La Selva . 964

POTATOES

The effect of adhesive protective applications combined with maneb to control Phytophthora infestans of potatoes. 966
Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants. 978
Potato cultivation in Mysore State. 980
Losses caused by potato cyst eelworm in the Isle of Ely. 1022
Control of Meloidogyne javanica in potato tubers and M. hapla in the roots of young rose bushes by means of heated water. 1024
On the effect of isopropyl-N-3-chlorophenyl-carbamate (CIPC) on the sugar content of potato tubers. 1169
Is it worth protecting potato against infection. 1570
Observations on the timing of irrigation and the incidence of potato common scab (Streptomyces scabies). 1573
Troubles with potato blight. 1592
Membrane feeding and infectivity neutralization used in a serological comparison of potato leaf roll and beet western yellows viruses. 1601
Aphids and the increase of potato leaf roll virus in seed potatoes on the Wolds of the East Riding of Yorkshire. 1604
Further observations on the susceptibility of maincrop potato cultivars to slug damage. 1640
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dimethoate. 1790
Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. 3-(p-Bromophenyl)-1-methoxy-1-methylurea 1793
The plant protection law as a responsibility for the control of plant pests and diseases. 1853
The new plant protection law. 1854
Arsenal for disease control. 2115
Contribution to the application method for fungicides to control potato blight. 2128
Enzymic browning and free tyrosine in potatoes as affected by pentachloronitrobenzene. 2188
Behavior of DDT in potatoes during commercial and home preparation. 2418
Procedure for semi-quantitative confirmation of some organophosphorus pesticide residues in plant extracts. 2426
Concentration of potato-M-virus in potatoes and tomatoes. 2709
Where does potato blight come from . 2713
Genetics of pathogenicity of Phytophthora infestans. 2737
Interpreting plant disease dispersal gradients. 2746
Late blight of potato. 2769
Antibiotic substances in the potato formed during the necrotic reaction. 2771
About potato virus diagnosed in Yugoslavia. 2773
Contribution to the knowledge of dominant biotypes of the Phytophthora infestans on the potato. 2779
The accumulation of phenolic acids in tissue culture pathogen combinations of Solanum tuberosum and Phytophthora infestans. 2780
Golden nematode. Notice of public hearing. 2827
Potato cyst eelworm and the advent of eelworm-resistant potatoes in SW. Lancashire. 2830
Relationships between infection pressure and terminal infection in the case of Heterodera rostochiensis Woll.,. 2831
The condition of cysts of potato nematodes in purification plants. 2847
Costs and results of the control of the golden nematode of the potato. 2850
Investigation into herbicide residues. 3023
Inhibitory ability of sap from different tobacco varieties on potato virus Y. 3362
Potato blight control. 3386
Potato gangrene. 3392
Potato tuber eelworm. 3459
Studies on weed control in potato by pre-emergence treatment with 2,4-dichlorophenoxyacetic acid. 3484
The influence of darkness on the uptake and movement of diquat and paraquat in tomatoes, sugar beet and potatoes. 3680
Comparative interactions of Erwinia carotovora and Erwinia amylovora with pear and potato tissues. 4008
Illustrative scales for the evaluation of potato scab and Rhizoctonia infection. 4024
Plant virus diseases in Turkey which are transmitted by insect vectors. 4036
Life cycle and reproduction of Meloidogyne hapla on potato. 4052
Golden nematode found in Delaware. 4056
Perennial bindweeds. 4074
Chemical weed control in potato (Solanum tuberosum L.). A review. 4075
The effectiveness of the newer herbicides for the control of weeds in cultivated plants with special attention to weeds which are difficult to control. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4081
Steroid alkaloids as compounds produced by potato tubers under stress. 4323
The use of a Heteroptera, Pentatomidae perillus bioculatus (Fabr.) in the fight against the potato beetle Leptinotarsa decemlineata (Say): First results obtained in France. 4544
The use of growth promoters to increase potato yields. 4677
New fungicide for potato blight. 4684
The problem of the potato blackleg disease. 4697
Studies on the application of electrophoresis to the isolation of RNA infective fractions from tobacco plants infected with the potato virus X. I. Characterisation of RNA preparations from tobacco leaves, analysed by means of electrophoresis in coloured agar gels. 4710
Sex lure hoax may prove male beet wireworm's undoing. 4765
Test results with patoran. 4772
Possibilities of limiting tillage measures in potato cultures when using herbicides. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4773
Comparison of various methods for the determination of the herbicidal action of herbicide preparations against annual weeds in sugarbeets and potatoes. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4774
Chemical weed control and defoliation in potato fields. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4775
Weed control in potato cultures without adverse effects on the potato quality. 4781
Egg reduction of the Colorado beetle (Leptinotarsa decemlineata Say) as a hunger-dependent reaction. 5650
Report on experiments with varieties of medium early to late potatoes for human consumption and industrial use 1964-1966 (series 46). 5806
A contribution to the knowledge of heterosis in potato. 5813
Breeding potatoes for resistance to wart and golden nematode. 5828
Helminthosporium solani. 5855
Arsenal for disease control. 5864
It takes more than tender, loving care to prevent blackspot. 5870
Shifting of virus Y from stems to tubers in dependence on the plant age. 5874
The effect of viral infection on the total choline content in potato and black currant leaves. 5894
Diseases of the seed potato; how to recognize them before planting. 5905
The occurrence of some previously unreported diseases of potatoes in Mexico. 5910
Potato early blight and storage rot. 5911
Interactions of Oospora pustulans, Rhizoctonia solani and Heterodera rostochiensis on the potato. 5917
Purification of potato virus X and preparation of infectious ribonucleic acid by degradation with lithium chloride. 5930
The expression of R-gene resistance to Phytophthora infestans in tissue cultures of Solanum tuberosum. 5969
The behavior of potato mop-top virus in soil, and evidence for its transmission by Spongospora subterranea (Wallr.) Lagerh. 5979

Selection of parents and crosses suitable for use in breeding for resistance to scab. 6038

Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. I. Assay, extraction, and concentration. II. Characterization and partial purification. 6051

The nematode of stems and tubercles (Ditylenchus destructor Thorne) as a dangerous potato pest. 6057

Tests on the behavior of X and Y viruses of some rieties of potatoes, important in Brazil. 6079

Phenology of the potato tuber moth, Gnorimoschema operculella Zell., in Israel in the spring. 6280

Generalities on the white potato grub Premnotrypes vorax (Hustache). 6282

The golden nematode of potatoes and tomatoes. 6283

Regulation in connection with field and greenhouse culture of nursery plants. 6284

Losses caused by potato cyst eelworm in the Isle of Ely. 6286

The conditions for occurrence of potato root eelworm (Heterodera rostochiensis Woll.) in Poland. 6302

Are herbicides doing their job . 6311

Problems of herbicide treatments in the potato crop. 6327

Reduction in or elimination of cultural practices in potato cultures following the application of herbicides. 6394

A new disease of potato tubers caused by Gilmaniella humicola Barron. 7029

The effect of some herbicides on weediness and yield of potatoes on alluvium soil. 7227

Relation between black spot and composition of the potato tuber. 7312

Method for controlling the growth of potato plant organisms. Patent 3,443,928. 7328

Pest control with helicopter and biplane. 7391

Disease resistance breeding. 7772

Yield experiments with potato virus S-free and potato virus S-infected Bintje potatoes. 7798

Radiation glycemia in tuber tissue in Solanum tuberosum. 7986

Phenol metabolism in relation to disease resistance of potato tuber. II. Exponential equation relating levels of phenols or phenolic enzymes to distance from locus of injury of plant tissue. 7997

Phenol metabolism in relation to disease resistance of potato tuber. I. Activities of phenol oxidase and some enzymes related to glycolysis as affected by chlorogenic acid treatment. 7998

POTEBNIAMYCES

Potebniamyces (Phacidiella) disease of the true firs in British Columbia. 5936

POTENTILLA

Long-term effects of 2,4-D on lanceleaf rabbitbrush and associated species. 3475

POULTRY

Urinary conversion products of injected progesterone-4-14-C in the domestic fowl. 332

Interstate transportation of animals and poultry. Scabies in sheep. Interstate movement. 338

Diagnosis and prophylaxis of infectious laryngeal tracheitis of poultry in the USSR. 343

Nutrient requirements of poultry. 397

Report of the committee on nomenclature and reporting of disease, Northwestern Conference on Avian Diseases, June 1968. 400

Tick fever in poultry. 415

Disease reports of the Southern Conference on Avian Diseases (SCAD) 1967. 421

Official FDA tolerances. 482

Carotenoid compounds. Patent 3,408,406. 552

Crop and livestock depredation reduced by wildlife services damage control programs. 579

Classification of strains of Pasteurella multocida isolated from poultry. 1686

On study of feeding peculiarities of the Helminth Ascaridia galli. 1756

Stabilization of animal and poultry feeds containing a tetracycline antibiotic. Patent 3,427,166. 2264

Vermex poultry tablets and vermex powder. Drugs for veterinary use - drug efficacy study implementation. 2372

Notice of filing of petition regarding pesticide chemicals. 2395

Improved method for determination of sulfonamides in milk and tissues. 2425

Epidemiological trends in disease of livestock kept under intensive conditions. 2877

Epidemiological studies on Salmonella senftenberg. II. Infections in farm animals. 2918

Dermal lesions in avain leucosis. 2940

Infectious bursal disease (gumboro). 2947

Renal pathology of the fowl. 2968

Host resistance in the control of coccidial infections. 2996

An interference type of serological test for infectious bronchitis virus using Newcastle disease virus. 3510

The effect of antibacterials on Salmonella typhimurium within hatching eggs. 3527

Studies on acute Marek's disease. VII. Airborne transmission of the GA isolate. 3533

Respiratory diseases of poultry. 3555

Research note: Some observations on experimental avian encephalomyelitis. 3571

Insects and mites of livestock and in farm buildings. 3792

Enumeration of bacteria on poultry carcass skin. (Abstract). 4094

Abstracts of papers presented at the 57th Annual Meeting of the Poultry Science Association. 4102

Serological typing of mycobacteria for tracing possible sources of avian mycobacterial infections in man. 4170

Efficacy of several drugs for control of poultry nematodes. (Abstract). 4272

Thermoresistant Clostridium perfringens of the A type in poultry. 4807

An inventory of market news reports for poultry. 4954

Parasite phylogeny problems of the Mallophaga of Passeriformes and Piciformes. 5693

Isotopes in agriculture. 6440

Newcastle disease in poultry. 6455

Fungal flora of the avian respiratory tract. 6591

Ranikhet disease can be controlled. 6638

Experimental Pasteurella infection in normal and chloropromazine-premedicated cockerels, subjected to heat stress. 6657

Abortion in cattle associated with the feeding of poultry litter. 6679

Special reference to viral and P. P. L. O. infections. 6741

The in vitro sensitivity of avian salmonella strains to 6 drugs. I. Investigation on 1024 strains isolated 1945-1958. 6808

Lice and mites in poultry. 6890

1969 insect control guide for Colorado. III. Livestock pests, poultry pests, farm fly control. 6892

Pre-treated rice hull litter for the control of the lesser mealworm (Alphitobius diaperinus Panzer). 6896

Insect and mite pests of livestock, poultry, and farm buildings. 6899

Respiratory mites of poultry in the territory of Papua New Guinea. 6909

Pelecitus ceylonensis n. sp. from the chick and ash-dove experimentally infected with larvae from Mansonia crassipes, and from naturally-infected crows in Ceylon. 6938

Growth and development of poultry echinostomatids in the organism of definitive host. 6961

Aeschna grandis L., a new additional host of prosthogonimus cuneatus (Rud., 1809) (Trematoda. Prosthogonimidae). 6962

Thieves in the poultry house. 7041

Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

Carotenoid compounds. Patent 3,446,801. 7335

Prevalence of salmonellae in Virginia poultry flocks and in feed. 7902

Diagnostic potentialities of indirect hemagglutination test in chicken artificially infected with Salmonella. 7913

House fly, Musca domestica, control with chemosterilants and insecticides. 7927

Shell products for animal health. 6423

POULTRY DISEASE PREVENTION

Accredited pullorum tested flock scheme hatchery scheme. 2948

Accredited pullorum tested flock scheme hatchery scheme. 3536

POULTRY DISEASES

Diagnosis and prophylaxis of infectious laryngeal tracheitis of poultry in the USSR. 343

Considerations about some diseases of fowl transmittable to man: Aspergillosis, moniliasis, staphylococcosis. 355

Medical observations concerning ornithosis control in the poultry industry. 365

Report of the committee on nomenclature and reporting of disease, Northwestern Conference on Avian Diseases, June 1968. 400

Breast blisters in turkeys. 402

Tick fever in poultry. 415

The effects of various drugs on experimental chicken coccidiosis. 425

On the cultivation of Trypanosoma brucei and of its reproductive capacity in virus-infected hosts. 1055

The nephrosis-nephritis syndrome in chickens caused by a Holte strain of infectious bronchitis virus. 1077

Mycotoxins in poultry foods. 1092

The organisation of the Australian poultry industry and its influence on disease. 1196

Fatty liver and kidney disease in broiler chickens receiving diets with varying contents of protein. 1654

A study on toxicity of pyrimethamine for chicks. 1775

Research on diseases of poultrv. 2331

Research on the relationship between the tumor causing virus of the quail and the rous sarcoma virus. 2334

The effect of dimethialium on experimental chicken coccidosis. 2377

Pathogenic Escherichia coli strains prevalent in poultry flocks in Israel. 2914

Dermal lesions in avain leucosis. 2940

Infectious bursal disease (gumboro). 2947

The incidence of avian leucosis complex in non-native poultry. 3506

Avian leucoses: 1966-1967. 3523

The effect of manganese on young poultry growth. 3575

Fowl plague prevention by immunization. 3576

Epizootiologic and laboratory researches on Aspergillus fumigatus in fowl, young cattle and sheep. 3580

Newcastle disease virus (NDV) in cell cultures. I. A comparative study of two strains in different cell systems. 3590

Fatty acid composition of three strains of Newcastle disease virus. 3597

Electron microsocpy of fowl-pox virus. 3605

Wenyonella philiplevinei, n. sp., a coccidial organism of the white Pekin duck. 3627

Hemagglutinins induced in chickens with Mycoplasma gallisepticum infection. (Abstract). 4108

Duck virus enteritis (duck plague). Interstate movement. 4110

Inherited resistance to sulfaquinoxaline toxicity in the chicken. (Abstract). 4111

Intestinal histology of vitamin A deficient chicks. (Abstract). 4113

Newcastle disease virus. Characteristics of a strain (2425) isolated in Cordoba, Argentina in 1961. II. Comparative study of immunologic relationships and cellular affinities. 4116

Comparison of attenuated live Pasteurella multocida given in drinking water to an oil-base bacterin administered to turkeys. (Abstract). 4117

Experimental control Mycoplasma meleagridis in turkeys by the temperature differential dipping of eggs in tylosin and spiramycin. (Abstract). 4118

Penetration and development of Eimeria maxima sporozoites and the static effect of decoquinate. (Abstract). 4128

Observations on the effect of the re-use of broiler litter on the incidence of Marek's disease. (Abstract). 4129

The infectious bursal agent and pathology of the disease. (Abstract). 4131

Investigation of some enzymatic activities (GOT, GPT, aldolase, LDH, LDP, SDH) in the liquid amnio-allantoids of healthy chick embryos or those infected with newcastle disease virus. 4133

The interaction of a nonpathogenic Mycoplasma sp. (TU) with Mycoplasma gallisepticum, and Newcastle disease virus in the avian respiratory tract. (Abstract). 4134

The pathology of avian osteodystrophy. (Abstract). 4136

Notice of filing of petition for food additives. 4143

Factors related to immunity of chickens to coccidiosis. (Abstract). 4145

Studies on acute Marek's disease. 9. Resistance to MD by inoculation with the GA isolate. 4147

Proteins before and after inoculation with RSV. (Abstract). 4153

Epizootiology of influenza in turkeys. (Abstract). 4157

The efficacy of trans and cis vitamin A. (Abstract). 4158

Relationship of biotin to leg weakness in turkeys. (Abstract). 4161

Activity of decoquinate against field strains of chicken coccidia. (Abstract). 4162

Floor pen evaluations of the anticoccidial effects of decoquinate on single and mixed species of chicken coccidia. (Abstract). 4163

Pathogenesis of infectious synovitis in gnotobiotic chickens. (Abstract). 4165

Control of Mycoplasma meleagridis infection in turkeys. (Abstract). 4171

Nicarbazin. Drugs for veterinary use; drug efficacy study implementation. 4174

Safety and compatability of sulfadimethoxine potentiated mixture (Ro 5-0013), a new broad spectrum coccidiostat-antibacterial, in chickens. (Abstract). 4185

The linoleic acid requirement of the hen for reproduction. (Abstract). 4192

Anticoccidial activity of sulfadimethoxine potentiated mixture (Ro 5-0013) in chickens. 4196

Antibacterial activity of sulfadimethoxine potentiated mixture (Ro 5-0013). (Abstract). 4197

The use of serologic methods for the control of Mycoplasma meleagridis in turkeys. (Abstract). 4198

Epidemiological analysis of disease reports of the Southern Conference on Avian Diseases. (Abstract). 4201

Dietary amino acids and muscular dystrophy. (Abstract). 4203

Amino acids Versus protein in low protein cage-layer diets. abstract). 4206

Amino acids and isonitrogenous turkey starter diets. (Abstract). 4207

The effect of added energy on induced Mycoplasma gallisepticum infection in broilers. (Abstract). 4212

Field significance of Mycoplasma meleagridis infection. (Abstract). 4214

Bacterial contamination and performance of leghorn breeders on sloping wire Versus litter floors. (Abstract). 4216

Buquinolate-A review. 4218

Specificity of the chick's requirement for choline. (Abstract). 4221

Fumigation and reuse of broiler litter. (Abstract). 4222

Shell quality effect on Salmonella penetration. (Abstract). 4225

Egg transmission studies of Type II leukosis infection (Marek's disease). 4230

The levels of Type II infection (Marek's disease) in 8-week-old chickens processed at dressing plants. (Abstract). 4231

Effect of an iodophor on shelf life of poultry. (Abstract). 4238

Avian virus-induced tumors. 4242

Therapeutic efficacy of ronidazole in water against histomoniasis and effect of continuous feed levels on growth in turkeys. (Abstract). 4245

Optimum destruction of rachitogenic activity of C-1 protein. (Abstract). 4247

Effect of prolonged infection by intestinal coccidia upon zinc-65 and oleic acid absorption in broilers. (Abstract). 4250

Mid small intestinal parasitism and absorption of amino acids and protein. (Abstract). 4251

Role of the cuticle in egg spoilage. (Abstract). 4253

Hematology of an inherited anemia in the domestic fowl. 4256

Effect of environmental temperature on iron deficiency anemia in Athens-Canadian randombred chicks. 4257

Persistance of Mycoplasma meleagridis in the genitalia of experimentally infected turkeys. (Abstract). 4263

Effect of spectinomycin on experimentally induced Arizona group infection in turkeys. (Abstract). 4265

A study of carcasses condemned for skin leukosis. (Abstract). 4284

Salmonella organisms in poultry feeds. (Abstract). 4289

The Amprolium-Ethopabate combination. A new stage in the prevention of avian coccidiosis. 4720

Thermoresistant Clostridium perfringens of the A type in poultry. 4807

Studies on the treatment and prophylaxis of Salmonella pullorum infection in chicks with chloromycetin. 4820

Sanitary legislation in France concerning animal salmonellosis. 6417

Practice of pullorum disease eradication at a poultry plant in Baku. 6820
The organisation of the australian poultry industry and its influence on disease. 7405

POULTRY MANURE
The bacterial population of an indoor poultry lagoon. 6416

POULTRY MEAT
The organisation of the Australian poultry industry and its influence on disease. 1196
Clinical and laboratory notes on parathion poisoning in fowl, screening availabilities in meat and various tests. 7196

POULTRY PRODUCTS
The behavior of some human-pathogenic germs and bacterial toxins in food and their destruction through heat treatments of the food products. I. Salmonella. 3008
Improving egg quality in poultry by orally administering androgens. Patent 3,438,783. 6433
Heat resistance of Salmonella in various egg products. 7057

POULTS
Eimeria adendeides and E. meleagrimitis: Pathogenic effect in turkey poults. 6620

POWDERY MILDEW
Metabolic regulation in diseased leaves. II. Changes in nicotinamide nucleotide coenzymes in barley leaves infected with powdery mildew. 982
Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars. 2151
Phenolic substances and oxidases in connection with the resistance of barley to the powdery mildew (Erysiphe graminis f. sp. hordei Marchal). 2736
Powdery mildew of apple (Podosphaera leucotricha). 3396
The identity of Phyllactinia on winged elm in Georgia. 3965
Resistance to benomyl in powdery mildew of cucurbits. 4003
The effect of low doses of gamma irradiation upon the rate of infection of plants with powdery mildew. II. A differentiated susceptibility of winter wheat zelazna variety to infection with powdery mildew (Erysiphe graminis F. tritici DC March). 4009
Disease control in nonbearing orchards. 4699
Effect of 6-azauracil against apple powdery mildew and apple scab. 5909
The inheritance of resistance to powdery mildew in the cantaloupe variety seminole. 5953
The powdery mildews on the ornamental plants. 5982
Chromosome location and linkage studies involving the Pm3 locus for powdery mildew resistance in wheat. 6013
Diseases of pulses pose a challenge to plant pathologists, breeders. 6047
An observation on the influence of nitrogen fertilization on the attack of peas by powdery mildew (Erysiphe polygoni DC). 6131
Studies of the development of powdery mildew (Erysiphe graminis f. sp. hordei Marchal) on barley. I. Conidia germination. 7800

POX-TUMOR VIRUSES
Shope fibroma virus growth curve in suspended tissue culture. 2932

POXVIRUSES
Isolation and characterization of the aetiologic agent of buffalo-pox. 3588
Studies on goat-pox virus. II. Serological reactions. 6806

PRAON
Two new species of Praon Haliday from Czechoslovakia (Hym., Aphidiidae). 5146

PRATYLENCHUS
Reduction in mortality of peach trees following preplant soil fumigation. 2103
Distribution and damaging effect of the genus Pratylenchus in Westphalia-Lippe. 2836
Economically important plant parasitic nematodes in Ontario. 2843
Races of Pratylenchus penetrans, and their effect on black root rot resistance of tobacco. 6300
A nematode survey of tobacco soils in Rhodesia and Zambia, and the effects of grass-tobacco rotations on nematode populations. 6303
Chemical soil treatment for nematode control in tobacco. 6307

PRATYLENCHUS BRACHYURUS
Population dynamics and pathogenicity of three species of Pratylenchus on peach. 2244
Pathogenecity of Pratylenchus brachyurus to citrus. 2828
Peanut pod invasion by fungi in the presence of lesion nematodes in Georgia. 5974

PRATYLENCHUS PENETRANS
Mutual antagonism between Heterodera tabacum and some other parasitic nematodes. 2248
Influence of six cover crops on population density of Pratylenchus penetrans. 4046
Injury to Heterodera tabacum by high soil temperatures. 6299

PRATYLENCHUS THORNEI
Pratylenchus thornei - A cause of root necrosis in wheat. 1021

PRATYLENCHUS VULNUS
Population dynamics and pathogenicity of three species of Pratylenchus on peach. 2244

PRATYLENCHUS ZEAE
Population dynamics and pathogenicity of three species of Pratylenchus on peach. 2244

PRAYS OLEELUS
Simplifications in the control of the phytophaga of olives. 2800
Observations on the use of a preparation of Bacillus thuringiensis var. thuringiensis Berliner, for the control of the olive moth (Prays oleae Bern.). 5686

PRE-HARVEST DROP
Growth and fruit drop of young fruit trees sprayed with the acaricides demeton-methyl or tetradifon. 7984

PRECIPITATION
Residues of parathion and methylparathion in potato tubers and in the soil, following soil treatments. 487
Research on the fauna of the Sarno river. I.Description of the course of the water and population data on the invertebrates in the source and upper stream. 580
Report of the Suffolk County Mosquito Control Commission. 5633

PRECIPITIN TEST
The multiplicity of bands in the gel diffusion precipitin analysis of the protein of tobacco mosaic virus. 2756
Equine infectious anemia-A diagnostic problem. 2943
Equine infectious anemia--The second time around . 2953
Serum antibody to Salmonella flagellar antigens. I. Methods of antibody assay. 4850
Immunotaxonomic investigations of the Coleoptera. 5007
A physico-chemical approach to the serological diagnosis of cysticercosis. 6976
Antigenic relationships of the venom of Atractaspis microlepidota to that of other snakes. 7186

PREDACEOUS INSECTS
Taxonomic problems in ecological research on entomophagous insects. 12
Bibliography on the systematics of entomophagus insects VI. 19
Look what's happening to insect control. 94
Fly enemies...your allies. 117

Spiders and their insect prey from heads of oxeye daisy, Chrysanthemum leucanthemum L., in southwestern Ontario.
582

Bibliography on the systematique of entomophagous insects. V.
603

Activities of the working groups. Working group population dynamics of the Colorado beetle.
734

Observations on the rearing of Perillus bioculatus (Fabr.) (Heteropt. Pentatomidae), a predator of the Colorado beetle, imported from North America.
789

The importance of mortality factors on the occasion of the mass-appearance of the nunmoth in the forested district of Lower Austria, 1964-1967.
814

Nesting biology of the social wasp Microstigmus comes (Hymenoptera, Sphecidae, Pemphredoninae).
844

Attack behavior of diguetid spiders and the origin of prey wrapping in spiders.
1241

Dysmachus trigonus (Meigen) (Diptera, Asilidae) as a predator of Ischnura elegans (Van Der Linden) (Odonata, Coenagriidae).
1400

Vespula maculifrons (Hymenoptera: Vespidae) preying on the European earwig Forficula auricularia.
1425

Biological control of introduced forest insect pests.
1544

The importance of pesticides in Indian food production.
1614

The mosquitoes attracted to turtles.
1716

The acclimatization of Zonabris variabilis Pall. (Coleoptera, Meloidae) in Sardinia, 20 years after its introduction.
1946

Records of predators and parasites naturally prevalent in the Gujarat state.
2024

Fluctuations in the population of Schizolachnus piniradiatae (Davidson) (Aphididae-Homoptera) in the Eastern Provinces during 1967.
2048

An artificial diet for larvae and adults of Chrysopa carnea, an insect predator of crop pests.
2063

The feeding behavior and biology of Parapronematus acaciae (Acarina: Tydeidae).
2225

General considerations on the significance of predators and parasites in orchards.
2600

Orientation and progress in the studies on the parasitism of entomophagous insects.
2610

Parasites of Sphaerolecanium prunastri Fonsc. (Homoptera, Coccoidea).
2616

The influence of spray chemicals on predatory- and phytophagous mites on apple trees in laboratory- and field trials in the Netherlands.
2663

Some problems regarding the defense of the apple against the infestations by some aphid species.
2802

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes.
2824

A new species of lady-bird beetle (Col. Coccinellidae) feeding on Adelges spp. (Hem. Adelgidae) in North-Western India.
3110

Taxonomy, ecology and biological control.
3114

Preparation of entomophagous Diptera.
3216

Studies on the biology of Rhyssa persuasoria (L.) (Hymenoptera: Ichneumonidae) incorporating an X-ray technique.
3219

The giant bark beetle (Dendroctonus micans Kugel) in Georgia (USSR).
3230

Insect parasites of the winter moth, Operophtera brumata (L.) (Lepidoptera: Geometridae) in western Europe.
3316

The mite battle goes on and on.
3428

Studies on the insect fauna on Scotch broom Sarothamnus scoparius (L.) Wimmer.
3784

Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes.
3799

Natural enemies of Laspeyresia pomonella L. (Lepidoptera, Tortricidae) and the effect of chemical treatment on their useful activity.
3819

Description of the larva of Parena (Parena) perforata (Bates), with some notes on its life history (Carabidae).
3825

The oleander scale, Pseudaulacaspis pentagona (Targ.), (Homoptera, Coccidae) in Bermuda.
4043

Coenosia lineatipes Zett. (Dipt., Muscidae) preying on Typhlocyba cruenta H. S. (Hem., Cicadellidae).
4448

Predatory behaviour of a Dolichopodid and an Ephydrid (Dipt.).
4449

Fauna of the predator bugs (Hemiptera-Heteroptera) occurring on apple trees in the district of Poznan.
4532

Investigations of fauna overwintering in or under the bark of apple trees. Part II. Studies on Arachnida.
4534

The use of a Heteroptera, Pentatomidae perillus bioculatus (Fabr.) in the fight against the potato beetle Leptinotarsa decemlineata (Say): First results obtained in France.
4544

Predatory activity of Luciola cruciata (Olivier, 1886) (Coleoptera: Lampyridae) larvae on newly hatched Biomphalaria glabrata.
4558

Biology of wasps of the tribe Cercerini, with a list of the Coleoptera used as prey.
4597

Biology of Gynaikothrips karnyi Bagnall, the marginal gall forming thrips of pepper.
4616

Contribution to the knowledge of the Cosmopolites sordidus (Germar)(Coleoptera, Curculionidae). (2).
5216

Western pine beetle: Field response to its sex pheromone and a synergistic host terpene, myrcene.
5217

Oviposition responses by aphidophagous Syrphipae (Diptera).
5260

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan; June 1961-June 1966. Part I. Scale insects.
5323

Final report, studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan. June 1961 - June 1969. Part II. Fruit flies.
5324

Final report. Studies on scale insects, fruit flies and mites, and their natural enemies in West Pakistan, June 1961 - June 1966. Part III. Mites.
5325

Integrated insect control - a payoff from research.
5435

The Columbian timber beetle, Corthylus columbianus. VII. The effect of climatic integrants on historic density fluctuations.
5464

The effect of predator age on the functional response of Podisus maculiventris to the prey size of Galleria mellonella.
5485

The ingestion in wolf spiders. I. Capacity of gut of Lycosa pseudoannulata.
5493

New record of a braconid parasite, Apantales colemani Viereck., from the larvae of Euproctis lunata Walker.
5514

Physiological studies on the digestion of coccinellid beetles (Coleoptera: Coccinellidae), with special reference to their food habits.
5579

Egg reduction of the Colorado beetle (Leptinotarsa decemlineata Say) as a hunger-dependent reaction.
5650

Field experiments with Trichogramma brasiliensis Fland. for the possible control of the pink bollworm of cotton, Pectinophora gossypiella Saund., in Mexico.
6198

A mite to combat coconut caterpillar.
6218

Can we conquer the 'mighty' mites .
6293

Adaptation,culturing of R. sibirica in rabbit lice and preparation of a combined antigen for diagnosis of infection.
6783

A list of the hosts of entomophagous insects of New Zealand.
7557

Hunting behavior of the Ctenizidae.
7580

Various aspects of the biology of Agelena consociata Denis when bred in the laboratory.
7632

Bionomics of Stethorus gilvifrons Mulsant (Coleoptera: Coccinellidae).
7650

Predatory behavior of Argiope argentata (Fabricius).
7689

On the practical significance of biologic feeding investigations of predatory Coleoptera.
7701

PREDACEOUS MITES
A defense mechanism in Onychiurus (Collembola, Onychiuridae).
166

PREDACEOUS NEMATODES
The role of nematodes in horticulture.
4767

PREDATORS
An experiment on selection for mimicry.
7595

PREDATORY ANIMALS
Crop and livestock depredation reduced by wildlife services damage control programs.
579

Studies on the effectiveness of fox den fumigation for rabies control in the district of Wolgast.
6696

The feeding habits of the yellow mongoose, Cynictis penicillata, the suricate, Suricata suricatta and the Cape ground squirrel, Xerus inauris. 1. Analysis of stomach contents 2. Observations on free-living and captive animals.
6886

PREDATORY BIRDS
Are woodpeckers the answer to pine bark beetle attacks . 4450

PREDNISONE
On antibiotic-antimycotic therapy in cattle mastitis. 6802

PREEMERGENCE
How herbicides work. 3464
Pre-emergence weed control in the nursery. 6383

PREGNANCY
Immunity in ewes resulting from natural exposure to Vibrio fetus. 2321
Spring rise phenomenon in ovine helminthiasis Ii. In stabled ewes experimentally infected with Haemonchus contortus. 3000
Protein-bound iodine in the horse. 3500
Ovarian cysts in cattle and its therapy with Gestafortin and prolan preparations. 4186
Some observations on the incidence of Brucellosis in animals in West Pakistan. 6471
A progressive spastic syndrome in cattle. 6481
Clinico-microbiological and immunological studies on experimental oral infection in pregnant sheep with Salmonella abortus ovis. 7865
Livestock health - planning to prevent pregnancy toxaemia. 7887
Bovine brucellosis in Madhya Pradesh (a serological study). 7892

PREGNANCY DISEASE
Sheep disease problems associated with high density stocking. 2878

PREMNOTRYPES VORAX
Generalities on the white potato grub Premnotrypes vorax (Hustache). 6282

PREVENTIVE MEDICINE
Disease prevention. 330
Anti-rabies vaccinations at the Toulouse University Hospital Center in 1967. 339
Drugs: How do you use them . 350
Anti-rabies vaccinations at the Montpellier Center in 1967. 383
Anti-rabies vaccinations at the Pasteur Instiute of Lyon in 1967. 384
Anti-rabies vaccinations at the Pasteur Institute in 1967. 387
Anti-rabies vaccinations at the Marsille Pasteur Center in 1967. 417
A protective bag for teats of cows as a preventive measure against mastitis. 1103
Importance of pesticides in preventive medicine. 1532
Thiacetarsamide for preventive treatment of Dirofilaria immitis. 1744
Preventative therapy with diethylcarbamazine. 1752
Recommendations of the symposium panel: Treatment and prevention of heartworm disease in dogs. 1760
The organization of the collective prophylaxis of infectious animal diseases in France. 6520
On antibody metabolism in pigs and calves, following the application of homologous and heterologous specific gamma-globulins. 6718
Trichophytosis prophylaxis by feeding. 6770

PRICE CONTROL
NPCA conference speakers hit PCO pricing methods. 4949

PRICES
Wheat as a stock fodder. 1056
Some cost figures for concentrate sprays. 1199
News on economics. 7408

PRIMATES
Non-human primates. In: Diseases of man acquired from his pets. 3517

PRISTIPHORA
The species of the Pristiphora abietina Christ group (Hymenoptera, Tenthredinidae). 657
The question of the statistical proof of diet-dependent mortality. 859

PRISTIPHORA AMBIGUA
Phenomena in the infestation pattern of phytophagous insects. 1017

PRISTIPHORA ERICHSONII
Considerations on the toxic and labile substance produced by Bacillus thuringiensis var. thuringiensis Berliner (labile exotoxin). 154
Biological control of introduced forest insect pests. 1544

PROBOSCIDEA JUSSIEUI
Proclaimed noxious weeds in Victoria. 6312
Proclaimed noxious weeds. 6313

PROCAINE
Notice of filing of petition for food additives decoquinate and procaine penicillin. 379
Use of potassium iodide in the treatment of ovarian cysts in cows. 6552

PROCESSING
Process for preparing bis-(3,5,6-trichloro-2-hydroxyphenyl) methane. Patent 3,408,408. 553
Process for producing oxytetracycline antibiotic. Patent 3,408,258. 555
Erythromycin derivative and process for the preparation thereof. Patent 3,417,077. 3725
Process for the production of substituted triazines. Patent 3,428,636. 4337

PRODENIA ERIDANIA
A technique for mass rearing the southern armyworm in the laboratory. 3283

PRODENIA LITURA
Nervous system of the head of Prodenia litura (Lepidoptera, Noctuidae). 1478
Head nerves of the larva of Prodenia litura Fabr. (Lepidoptera, Noctuidae). 1479
On the food utilization and digestion of major food nutrients in the lepidoaterous larvae feeding on cauliflowers. 2009
Studies on the effect of commercial formulations of some organophosphorous insecticides on the cotton leaf worm, Prodenia litura F. under field conditions. 2073
Notes on insect and gastropode damage to enclosed cotton plantations. 4671
Metabolism of organophosphorus insecticides. IX. Distribution, excretion and metabolism of dimethoate Prodenia lituria. (abstract). 5690

PRODUCTION ECONOMICS
Guidelines for production of vegetables for processing in Arkansas. 5833
Aspects of the industrial production of microbial insect control agents. 7404
U. S. pesticide production again tops billion pound level. 7407
Costs to produce avocados in Ventura County. 7413
Beekeeping: The economics of mechanization. 8014

PRODUCTIVITY
Gains from worm drenching ewe hoggets in South Canterbury. 445
The analysis of response in crop and livestock production. 942
Pisciculture: Raising trout in salt water. 1046
The fourth study circle on the problems and various options of animal nutrition Lyon 1968. 1047
Effect of gibberellin (GA) and mineral nutrition on the growth and productivity of cucumber plants. 1825
1968 U.S. rice production statistics. 2099
A rice seed farm in Central America. 2107
Egg production and disease. 2888
Seed crops; annual summary, 1968: Acreage, yield, production, seasonal average price, value of production, by states. 1967-1968. 3344
Sulfur amino acid requirement of laying hens. (Abstract). 4156
Effect of nitrofurazone and furazolidone on reproduction in chickens. 4169
Influence on egg quantity and quality with sorghum grain diets supplemented with corn oil and/or furazolidone. (Abstract). 4223
Host-parasite relationship. 1. Studies on the productivity of sheep as affected by Haemonchosis. 4858
Guidelines for production of vegetables for processing in Arkansas. 5833

PROFITS
Pesticide industry's ties with the P.C.O. s. 3731
Prevent worms to increase sheep profits. 4856
Kenaf promising as profit crop. 5851

PROGESTERONE
Urinary conversion products of injected progesterone-4-14-C in the domestic fowl. 332
Progesterone-estradiol benzoate (hormonal implant). Drugs for veterinary use; drug efficacy study implementation. 2305

Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones. 2880

Treatment of anoestrus in dairy cattle. 6624

Effect of exogenous progesterone on Corpora lutea in unilaterally hysterectomized heifers. 6876

Method of controlling reproductive cycle with 6alpha - methyl - 17alpha hydroxyprogesterone 17-acetate. Patent 3,444,296. 7374

PROGRAMMING (COMPUTERS)

An automated repellency assay system. I. Statistical methods. 1416

Log-normal spray drop distribution analyzed by two new computer programs. 7402

Pesticide chemicals; a programmed text. TP248.P47C6. 7419

PROLAN

Ovarian cysts in cattle and its therapy with Gestafortin and prolan preparations. 4186

PROLINE

Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein. 536

Salmonella typhimurium proline mutants. 1675

Nutrition of the silkworm, Bombyx mori. XVI. Quantitative requirements for essential amino acids. 4451

PROMACHUS

The Mexican species of Promachus in the subgenus Amblyonychus (0Promachina) (Diptera: Asilidae). 842

PROMAZINE HYDROCHLORIDE

Promazine hydrochloride in endotoxin shock in a horse (a case report). 6525

PROMETONE

Influence of herbicides from s-triazine group on dynamics of some biochemical processes of oats in test experiments. Part II. Researches on action of propazine, prometrine, and prometone. 7248

PROMETRYNE

Improved GLC method for s-triazine residue determination. 498

Influence of some aminotriazine herbicides on some soil fungi. 537

Several year old tests on chemical control of wild sorgum (Echinocloa crus galli) in corn. 2855

Effect of prometryne on 14Co2 fixation in cotton and soybean. 3707

The lasting influence of triazines and the effect of herbicide mixtures in the treatment of corn. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4064

New herbicides for controlling weeds in upland rice. 4076

Distribution, importance and problems of herbicide use in Yugoslavia. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4083

Chemical control of weeds in the Hungarian vineyards. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4086

Chemical weed control in sunflower cultures. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4087

The influence of herbicides on the morphology of cereal cultures. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4320

Studies on chemical weed control with fodder kale. 4771

Results from experiments with herbicides for weed control in pea grain crops grown in Dobroudja. 6336

Preplanting applications of prometryne in cotton. 6340

Chemical weed control in tropical root crops. 6352

Herbicides in cotton and their compatibility with soil-applied insecticides. 6388

Study of certain herbicides against weeds in garden peas. 6392

The influence of some electrolytes on the adsorption and release of symmetrical triazines on some organic colloids. 7104

The effect of some herbicides on weediness and yield of potatoes on alluvium soil. 7227

Influence of herbicides from s-triazine group on dynamics of some biochemical processes of oats in test experiments. Part II. Researches on action of propazine, prometrine, and prometone. 7248

PROPANIL

Mechanical means for weed control in rice fields. 3075

New herbicides for controlling weeds in upland rice. 4076

The water weevil problem. 6146

Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana. (abstracts). 6168

Broadleaf weed control in rice. 6370

Chemical weed control in high yielding rice varieties. 6393

The metabolism of 3,4-dichloropropionanilide in plants. Partial purification and properties of an aryl acylamidase from rice. 7246

PROPARGYL BROMIDE

Methyl bromide, Trizone and Telone PBC compared in the control of fusarium wilt of the greenhouse tomato. 4716

PROPAZIN

Influence of herbicides from s-triazine group on dynamics of some biochemical processes of oats in test experiments. Part II. Researches on action of propazine, prometrine, and prometone. 7248

PROPAZINE

Improved GLC method for s-triazine residue determination. 498

The feasibility of mass spectrometric methods in residue analysis. 1185

Studies on chemical weed control with fodder kale. 4771

PROPERDIN

Specific activation of the properdin system in orientation experiments for a therapeutic control of bovine leukosis. 6727

PROPERTIES

The properties of insect axons. 132

Modification of selected host-reactive properties of endotoxin by treatment with sodium deoxycholate. 1708

Pharmacodynamic properties on new anthelmintics. 2994

The infection of leafhoppers by western x-disease virus. V. Properties of the infectious agent. 3422

The sexual difference in the silk worm cocoons relative to the optical properties. 2. Fluorescent spectro-characteristics of cocoons. 4973

Characterization of a cytoplasmic fraction from Sindbis virus-infected cultures. 6553

Properties of pasteurella organisms isolated from birds fed antibiotics for a long period. 6569

Immunogenic properties of polyvalent and associated emulsion vaccine against paratyphoid fever and brucellosis of sheep. 6637

Properties of the in vitro soluble RNA methylase activity of hamster tumors induced by adenovirus-12. 6713

PROPIONATES

Effects of Salmonella senftenberg injection on chicks hatched from eggs in treatment of testosterone propionate. 6736

PROPIONIC ACID

Volatile fatty acids excreted by Fasciola hepatica, L.. 7006

The preparation of L- and D-alpha-amino-beta-methylaminopropionic acids and the identification of the compound isolated from Cycas circinalis as the L-isomer. 7311

PROPOLIS

In vivo activity of propolis against Bacillus larvae. 1430

PROPYLENE GLYCOL

On antibiotic-antimycotic therapy in cattle mastitis. 6802

PROPYLENE OXIDE

Isolation and determination of chlorohydrins in foods fumigated with ethylene oxide or with propylene oxide. 489

On the sensitiveness of several wood-decaying fungi to gaseous sterilization with propylene oxide. 2449

PROSAPIA BICINCTA

Effects of spittlebug injury on root production and sod reserves of Coastal bermudagrass. 6264

PROSIMULIUM ALBIONENSE

The status of the name Prosimulium albionense Rothfels. 681

PROSIMULIUM HIRTIPES

Contributions to the (Diptera, Simuliidae) fauna of Austria. III. The fauna of the valley of the YBBS. 4851

PROSOPIS JULIFLORA

Competition between burroweed and annual and perennial grasses for soil moisture. 6328

Effects of picloram and ethylene on leaf movement in huisache and mesquite seedlings.
7983

PROSPALTELLA PERNICIOSI

The effectiveness of Aphelinide, Prospaltella perniciosi Tower in the San Jose scale, Quadraspidiotus perniciosus (Comstock), infested area of South Western Germany.
583

Activities of the working groups. Working group San Jose louse .
735

On the ecology of Prospaltella perniciosi Tower (Hym. Aphelinidae), a specific parasite imported by Quadraspidiotus perniciosus Comst. (Hom. Diaspinidac).
3168

Actual state of research in progress on integrated pest control in the case of Coccidae in France.
3430

PROSTHOGONIMUS CUNEATUS

Aeschna grandis L., a new additional host of prosthogonimus cuneatus (Rud., 1809) (Trematoda. Prosthogonimidae).
6962

PROTAMONE

Influence of protamone on bone fragility of caged hens. (Abstract).
4103

PROTECTIVE CLOTHING

Spider mites on cotton; how to control them.
4737

The permeability of protective clothing and packing materials in regard to insecticidal phosphoric acid derivatives.
7339

PROTEIN FRACTIONS

Contribution to the question of the effect of radioactive iodine on thyroid function in goats.
3494

PROTEIN HYDROLYSATES

Aerial applications of PIB-7 and malathion to suppress populations of Anastrepha suspensa.
2234

Whole town treatment for fruit fly control.
2236

A comparative study on the effects of aerial versus ground spraying of poisoned baits against the Mediterranean fruit fly on the natural enemies of scale insects in citrus groves.
4454

PROTEIN SYNTHESIS

Ageing and protein synthesis in Drosophila melanogaster.
1358

Effects of two inhibitors of protein synthesis on the multiplication of tobacco mosaic virus and turnip yellow mosaic virus.
1548

Regulation of alkaline phosphatase production in the auxotrophs of Bacillus anthracis.
1661

Changes in enzymatic activities in etiolated bean seedling leaves after a brief illumination.
1815

Demonstration of the synthesis of a yolk protein under the influence of the corpora allata in Leucophaea maderae.
2046

Characteristics of in vitro protein synthesis systems from Rhizoctonia solani and Sclerotium bataticola.
2456

Structure of lemmasterone, a novel C29 insect-moulting substance from Lemmaphyllum microphyllum.
3071

Factors affecting protein synthesis in Hymenolepis diminuta (Cestoda).
3623

Cold-sensitive mutations in Salmonella typhimurium which affect ribosome synthesis.
4844

Metabolic activity of pea root ribosomes under conditions of boron deficiency.
5877

Cell-free synthesis of tobacco mosaic virus coat protein and its combination with ribonucleic acid to yield tobacco mosaic virus.
6073

PROTEINASES

Polyhedral pre-viral genome containing genes synthesizing deoxyribonuclease and protease.
915

On the bacterial effect of ionizing irradiation on certain microorganisms. Second communication. A study of the bactericidal effect of gamma rays on certain bacteria and the spores of Bac. anthracis.
6425

The effect of hormones on the intestinal proteinase activity of adult Pyrrhocoris apterus L. (Hemiptera).
7619

Qualitative estimation of digestive enzymes in midgut of Gryllodes sigillatus Walker.
7705

PROTEINS

Amino acid and protein metabolism in insect development.
73

A study proteolytic enzymes contained in the chyle of Pieris brassicae and of substances active on the crystal of Bacillus thuringiensis.
77

Melanin in an insect, Lucilia cuprina (Wied.)
97

Metabolic control mechanisms in insects.
98

The biochemistry of the insect fat body.
110

The chitin/protein complexes of insect cuticles.
144

Electrophoretic separation of the hemolymph proteins in the silkworm, Bombyx mori L., infected with the nuclearpolyhedroses virus.
171

On the occurrence and treatment of actinobacillosis in cattle.
235

Nutrient requirements of dairy cattle.
398

Nutrient requirements of horses.
399

Studies on the chromatin isolated from the organs of animals received whole-body x-ray irradiation.
423

Studies on wheat plants using 14C-labelled compounds. XXII. Incorporation into wheat protein.
536

The outer layer of the cell envelope of Halobacterium halobium.
564

The significance of Puffing in the giant chromosomes of Diptera. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff.
921

Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants.
978

The primary importance of food.
1049

Serological changes in ex-germfree rats mono-associated with Salmonella typhimurium.
1117

Relationships among the polyhedrosis and granulosis viruses of insects.
1360

Hypersensitivity of Nicotiana Xanthi n. c. to virus, temperature, and soluble proteins.
1396

On some fibrin-like properties of the secretion products of the salivary gland of the Chironomus larva.
1493

Degradation of alfalfa mosaic virus by pancreatic ribonuclease.
1553

Localization of tobacco mosaic virus protein in tobacco leaf cells during the early stages of infection.
1572

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction.
1584

Fatty liver and kidney disease in broiler chickens receiving diets with varying contents of protein.
1654

Ribonucleic acid synthesis and glutamate excretion in Escherichia coli.
1833

Cellular and extracellular activities implementing selective assimilation of yolk proteins by Cecropia oocytes.
1919

The feeding of the mole cricket and its effect on outbreaks and control.
1973

Effect of radiofrequency electric field treatment on protein metabolism in yellow mealworm larvae.
1993

Developmental changes in the late larva of Calliphora stygia. I. Haemolymph.
1998

Aspects of RNA and protein synthesis in imaginal discs of Drosophila melanogaster.
2078

The coat protein gene of tobacco mosaic virus. I. Location of the gene by mixed infection.
2142

A new source of high protein in oats.
2193

Effect of arginine or serine on the need for glycine by the chick fed amino acid or casein diets.
2273

Metabolism of blood proteins in hens during natural and artificial moulting.
2310

Loss of serum proteins via the intestinal tract in calves with infectious diarrhea.
2317

Gastrointestinal protein loss in cattle. A clinical and pathophysiological study.
2324

Kinetics of viral deoxyribonucleic acid, protein, and infectious particle production and alterations in host macromolecular syntheses in equine abortion (Herpes) virus-infected cells.
2327

Determination of the molecular weight of proteins, esterases, and basic phosphomonoesterases in the hemolymph of Galleria mellonella L. prepupa and pupa using a thinlayer chromatography.
2604

The multiplicity of bands in the gel diffusion precipitin analysis of the protein of tobacco mosaic virus.
2756

Protein-lipid-polysaccharide complex from the culture and mycelium of the fungus Verticillium dahliae Kleb, the causative agent of verticilliaceous wilt of cotton.
2758

The effects of balancing and imbalancing safflower protein on food consumption, body weight gain and concentrations of plasma free amino acids in the young rat.
2881

Protein-deficient diet and DDT toxicity.
2892

The proteins specified by herpes simplex virus. I. Time of synthesis, transfer into nuclei, and properties of proteins made in productively infected cells.
2973

Screening of feed components for Salmonella with polyvalent H agglutination.
3005

Changes in body weight, fat, glycogen, and protein during diapause of Trogoderma granarium.
3226

Conversion of serine to glycine during the formation of egg-shells in the silkworm, Bombyx mori.
3227

Nutrients derived from the fungus cultured by the fungusgrowing ant Atta columbia tonsipes.
3240

Lampbrush Y chromosomes in the course of spermatogenesis of Drosophila. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff.
3324

Proteinaceous and virus-like inclusions in cells infected with beet mosaic virus.
3377

Studies on alfalfa mosaic virus. I. The protein and nucleic acid. II. The structure of the virus components.
3379

Interaction of TMV-PROTEINS during electrophoretic separation in polyacrylamide gels.
3411

The infectivity of tobacco mosaic virus RNA in coat proteins from spherical viruses.
3421

Protein-bound iodine in the horse.
3500

Mastitis conditioned by feeding.
3574

The effect of manganese on young poultry growth.
3575

Virus involvement in the avian heart: Effect on protein synthesis.
3591

Fatty acid composition of three strains of Newcastle disease virus.
3597

Changes in soluble proteins during foot-pad development in Sarcophaga bullata.
3821

The relation of protein level of alfalfa meals to their vitamin K activity. (Abstract).
4130

Effect of energy-protein balance, energy intake and methionine on growth and body composition of ducklings. (Abstract).
4140

The amino acid deficiencies of blood meal for the chick.
4149

Proteins before and after inoculation with RSV. (Abstract).
4153

Amino acids Versus protein in low protein cage-layer diets. abstract).
4206

Cobalt and vitamin C for chicks. (Abstract).
4210

Cottonseed meal, lysine, and methionine for layers. (Abstract).
4219

Lysine requirement of the growing chick. (Abstract).
4233

Optimum destruction of rachitogenic activity of C-1 protein. (Abstract).
4247

Mid small intestinal parasitism and absorption of amino acids and protein. (Abstract).
4251

Evidence, by cellulose acetate electrophoresis, of a vitellogenetic protein in the hemolymph of the female imago of the cabbage pierid (Pieris brassicae L.).
4538

Polyacrylamide gel electrophoretic analysis of the proteins of Locusta migratoria (L.) and the corresponding albino mutant.
4561

Intraspecific qualitative and quantitative variations of the hemolymph proteins of Cophopodisma pyrenae (Fisch.), (Orthoptera, Catantopidae) as a function of biogeographic area.
4562

Protective action of the encephalitogen and other basic proteins in experimental allergic encephalomyelitis.
4808

The pale muscle problem in pigs.
4845

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors.
4907

Immunotaxonomic investigations of the Coleoptera.
5007

A comparative electrophoresis study of the Triatoma rubida Complex (Hemiptera: Reduviidae: Triatominae).
5181

Effects of temperature on Drosophila--V. Weight and water, protein and RNA content.
5247

Action of proteinic brain hormone to the prothoracic gland in an insect, Bombyx mori L. (Lepidoptera: Bombycidae).
5412

Effect of starvation on the scorpion Palamnaeus bengalensis.
5612

Assembly of protein and nucleoprotein particles from extracted tobacco rattle virus protein and RNA.
6074

S.N.F. content of milk.
6446

Catabolite repression in Escherichia coli. A study of tow hypotheses.
6732

Study of the transfer of amino acids from aminoacyl transfer ribonucleic acid into protein by ribosomes from uredospores of the bean rust fungus.
6879

Ancylostoma caninum: Food reserves and changes in composition with age in third stage larvae.
6928

The dynamics of total protein amount and protein fractions in the blood serum during experimental pig trichocephaliasis.
6971

Effect of DDT and dieldrin on RNA and protein synthesis in subcellular fractions of HeLa S cells.
7097

Effect of paraquat on the nitrogen content and regrowth of Coastal bermudagrass (Cynodon dactylon (L.) Pers.).
7219

Influence of simazine on chloroplast metabolism.
7294

The nature of activating action of dinitrophenol on ATPASE activity of myosin.
7365

Base composition and thermal denaturation of DNA isolated from Anaplasma marginale.
7607

RNA and protein synthesis in puffs isolated from salivary gland chromosomes of Chironomus.
7641

Protein synthesis in cell-free preparations from Musca domestica L..
7643

Electrophoresis and immunodiffusion of proteins from the hemolymph of the large milkweed bug, Oncopeltus fasciatus (Dallas) (Hemiptera, Lygaeidae).
7710

Immunoelectrophoresis of proteins in the hemolymph of the large milkweed bug, Oncopeltus fasciatus (Dallas).
7711

Structures derived from cowpea chlorotic mottle and brome mosaic virus protein.
7768

Self-construction of RNA extracts of three different viruses and of the protein sub-units of the lucerne (alfalfa) mosaic virus,.
7791

The protein subunit of the satellite tobacco necrosis virus.
7792

Linear variation in stability of tobacco mosaic virus to stripping of protein by detergent.
7810

Exposure of ribonucleic acid at both ends of tobacco mosaic virus by extensive protein stripping.
7811

Abscission of cotton flower buds and petioles caused by protein from boll weevil larvae.
7831

Urea in the ration: How much can we safely add .
7868

Effect of pesticides on chemical composition of soybean seed (Glycine max (L.) Merrill).
7965

PROTEUS

Cross-protection against Salmonella enteritidis infection in mice.
6528

PROTONS

The mutagenic effect of 600 MeV protons in Drosophila melanogaster.
5717

PROTOPARCE FERONIA

A new South American hawk moth Protoparce feronia sp. n. (Lep. Sphingidae).
644

PROTOZOA

Protozoan and nematode infections of insects.
173

Acquired resistance to Babesia divergens in experimental calves.
1076

Water balance in pinottii malaria of pigeons.
1086

Equine protozoan diarrhea (equine intestinal Trichomoniasis) at Trinidad racetracks.
2278

The effects of moldy alfalfa hay feeding on rumen activity, rumen protozoa and dairy steer performance, and analysis of toxic substance(s) associated with molding.
2323

Seasonal fluctuations in the protozoan parasites of the centipedes Lithobius variegatus and Lithobius forficatus in a Yorkshire woodland.
2603

The passive dispersal of viable algae and protozoa by an aquatic beetle.
2614

Evolutionary trends in mammalian trypanosomes.
2917

Toxoplasma and toxoplasmosis.
2923

East Coast fever.
2981

Biological methods for the detection of pesticide residues.
3018

Rodents. In: Diseases of man acquired from his pets.
3516

Animal parasites of animals which affect man in Malaysia.
3584

A morphological study of the exogenous stages of Eimeria labbeana, a parasite of the common pigeon, Columba livia.
3592

Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes. 3799

The natural occurrence of surra in the African longhaired fox. 4236

Information on a natural bacterial epizootic disease on Ephestia kuhniella Zeller, caused by a bacillus of the type of Bacillus thuringiensis. 4537

Crithidia mellificae n. sp. an acidophilic trypanosomatid of the honey bee Apis mellifera. 4539

Toxoplasma gondii: Fecal forms separated from eggs of the nematode Toxocara cati. 4811

Toxoplasma gondii: Transmission through feces in absence of Toxocara cati eggs. 4841

An octosporeosis of the black blowfly Phormia regina: Effect of temperature on the longevity of diseased adults. 5419

Diagnosis of the diseases of insects. 5455

Recent advances in the physiology and biochemistry of Plasmodia. 5526

Suitable blood sources permitting reacquisition of infectivity by culture-form Trypanosoma (Trypanozoon) brucei. 6461

Duck coccidia in the Lithuanian SSR. 6472

On the domestic geese coccidia in the Lithuanian SSR. 6473

Eimeria adendeides and E. meleagrimitis: Pathogenic effect in turkey poults. 6620

An assessment of eimerian lesions in buffalo-calves (Bubalus bubalis) and their significance. 6759

A survey of parasites in laboratory primates. 6998

Role of protozoa in rumen metabolism with special reference to bloat. 7904

Methods of controlling protozoa infections with N-substituted 1,4-diamino 2,3-anthraquinonedicarboximides. Patent 3,436,460. 6495

PROTOZOAL VACCINES
The Amprolium-Ethopabate combination. A new stage in the prevention of avian coccidiosis. 4720

PRUNE DWARF
Investigations concerning ringspot virus disease of the cherry. III. Serological investigations. 2168

PRUNING
How to produce high yields. 194

Coffee berry disease. 226

Dieback. 251

Effects of gibberellic acid on flower thinning and bloom delay of stone fruits. 517

Study on the sucker control of decapitated (topped) tobacco plants. 1819

Ear removal and cell death rate in corn stalk tissue. 2163

Apple and pear canker. 2762

Control of branch wilt disease of grapes. 2766

Some factors influencing the population dynamics of Synanthedon tipuliformis Cl. (Lepidoptera, Aegeriidae). 2826

Powdery mildew of apple (Podosphaera leucotricha). 3396

Disease and insect control in home orchards. 3983

Pruning produces perfect, pest-free peaches. 4762

The 24-inch branch as a sample unit for egg mass surveys of the western budworm. 5463

Fruit growing note of the season. 5778

PRUNUS
Stem pitting of Italian prune. 2124

Stem pitting in Prunus spp. other than peach. 2154

Aerobiology of Monilinia (Sclerotinia) laxa (Aderh. and Ruhl.) honey on stone fruits, Prunus spp., in California. 2726

Insect transmission and pathogenicity studies of Ceratocystis fimbriata in stone fruits. 2812

Observations on soil exhaustion by Rosaceae. 2832

Nursery stock, plants, and seeds. Foreign nurseries certified as producing specified disease-free material. 5803

PRUNUS CAROLINIANA
Use of cherry-laurel foliage for preparation of an effective insect-killing jar. 4504

PRUNUS SPINOSA
Psylla pruni Scop.-The plum psylla. 2801

PRUNUS YEDOENSIS
New record of Agriosphodrus dohrni Signoret from Shikoku (Hemiptera: Reduviidae). 729

PSALLUS SERIATUS
Two methods of operating a vacuum sampler to sample populations of the cotton fleahopper on wild hosts. 5559

PSENINI
Contribution to the knowledge of Indo-Australian, South Pacific and East Asiatic Psenini genus Psen latreille (Hymenoptera, Sphecidae). 5092

PSEUDALETIA UNIPUNCTA
Record of the moth ear mite, Dicrocheles phalaenodectes, in Ohio (Acarina: Mesostigmata). 3865

PSEUDAUGOCHLOROPSIS
Nests and social behavior of three species of Pseudaugochloropsis (Hymenoptera: Halictidae). 846

PSEUDAULACASPIS PENTAGONA
The oleander scale, Pseudaulacaspis pentagona (Targ.), (Homoptera, Coccidae) in Bermuda. 4043

PSEUDEUCOILA BOCHEI
Drosophila and Pseudeucoila V: Contribution to the biological parasitology of Pseudeucoila bochei Weld (Cynipidae, Hymenoptera) and report on two new mutants. 926

PSEUDHOMALOPODA SHIKOKUENSIS
Discovery of the male of the genus Pseudhomalopoda (Hymenoptera: Chalcidoidea-Encyrtidae). 710

PSEUDOCOCCIDAE
New species of mealybugs (Homoptera, Coccoidea, Pseudococcidae) from East Kazakhstan. 2509

A new species of Antonina Signoret from South Dakota with new records for A. boutelouae Parrott (Homoptera: Coccoidea: Pseudococcidae). 3757

Analysis of chronatin in male and female mealy bugs. (Planococcus citri). 5718

Growing camellias. 5859

Control of some pests of evergreens. 6162

Pests of legume seed crops in north Queensland. 6245

Mealybugs. 7819

PSEUDOCOCCUS
Notes on insect and gastropode damage to enclosed cotton plantations. 4671

Discovery of the genus Anusioidea Girault from Asia (Hymenoptera: Chalcidoidea-Encyrtidae). 5152

PSEUDOCOCCUS MARITIMUS
Cytology and cytochemistry of the mycetone of Pseudococcus maritimus (Earhorn) (Homoptera Coccidae. 4550

PSEUDOCOCCUS OBSCURUS
The development of the serosa in male embryos of the mealy bug, Pseudococcus obscurus Essig. 181

PSEUDOGNAPTODON
The American species of the genera Euopius, Gnaptodon, and Pseudognaptodon (Hymenoptera: Braconidae). 7457

PSEUDOMONADACEAE
Experiences with culture media for the selective microbiological analysis of meatproducts. 4869

Tricarboxylic acid cycle activity in a pseudomonad. 4922

PSEUDOMONADS
Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177

PSEUDOMONAS
DNA base composition and hybridization in the taxonomy of phytopathogenic bacteria. 2729

Etiology of mummy disease of cultivated mushrooms. (Abstract). 3413

The tobacco mosaic virus (TMV) in the nutritive solution of the tomato hydroponous culture. 4014

Bacteria associated with frost-damaged apple blossoms. 7781

PSEUDOMONAS AERUGINOSA
Cytochrome c and evolution. 434

Pulmonary diseases of pig in Madagascar. 2335

Pseudomonas aeruginosa in species of Diabrotica. 3212

Melioidosis in animals in north Queensland. V. Serological methods of diagnosis in sheep. 3560

Role of the cuticle in egg spoilage. (Abstract). 4253

The nature of pathogenicity of Pseudomonas aeruginosa for Galleria mellonella. 4551

Cross-protection against Salmonella enteritidis infection in mice. 6528

A new antibiotic: Gentamicin sulphate in Pseudomoniasis by Pseudomonas aeruginosa in Chinchilla laniger. 6570

An enzooty of strangles caused by virus A2 equi Miami 63 in the region of Lyon. 6656

An unusual case of pseuoomonas conjunctivitis in a Siamese cat. 6663

PSEUDOMONAS CORONAFACIENS
Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177

PSEUDOMONAS FLUORESCENS
Effect of DDT, dieldrin, heptachlor on the growth of selected bacteria. 7234
Effect of DDT, dieldrin and heptachlor on the growth of selected bacteria. (Abstract). 7235

PSEUDOMONAS GLYCINEA
Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177

PSEUDOMONAS PHASEOLICOLA
Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177
Halo blight of bean (Pseudomonas phaseolicola). 2768
Growth of Pseudomonas phaseolicola in susceptible and in resistant bean plants. 3397
Identification of races of Pseudomonas phaseolicola from Quebec bean fields. 4022
Seed contamination in transmission of halo blight in beans. 4694
Chemical control of bean bacterial diseases in Wisconsin. 5951

PSEUDOMONAS PSEUDOMALLEI
Melioidosis in animals in north Queensland. V. Serological methods of diagnosis in sheep. 3560
Melioidosis in animals in north Queensland. VI. Serological methods of diagnosis in goats, pigs, cattle, horses, and man. 3561

PSEUDOMONAS SAVASTANOI
A chemotherapeutic treatment for selectively eradicating crown gall and olive knot neoplasms. 6071

PSEUDOMONAS STRIAFACIENS
Bacterial stripe blight of oats caused by Pseudomonas striafaciens (Elliott) Starr et Burkholder. 260

PSEUDOMONAS SYRINGAE
Bacteriophage labeling of Pseudomonas syringae. 2134
Pseudomonas syringae infection of sweet cherry fruit in Utah. 3934
Chemical control of bean bacterial diseases in Wisconsin. 5951

PSEUDOMONAS TABACI
Some comparisons of chlorosis-inducing Pseudomonad toxins. 2177

PSEUDOPHYLLIDEA
Sparganosis in a cat. 2376

PSEUDOPYGMEPHORUS LATIPILOSUS
New Pyemotidae finds in Hamburg (Acarina, Pyemotidae). 2519

PSEUDORABIES
A focal point of pseudorabies of dogs in the Department of Ain. 366
Contribution to the occurrence of Aujeszky's virus in clinically healthy porkers from chronically infested pig fattening centres. 1711
Respiratory disease in the pig. II. 4798
Clinical observation of experimental pseudorabies in mink and ferrets. 6600
Influence of various strains of the Aujeszky virus on the metabolism of cells cultured in vitro. 6658
On antibody metabolism in pigs and calves, following the application of homologous and heterologous specific gamma-globulins. 6718
Avirulent mutant of Aujeszky's virus, induced by 5-iodo-2-deoxiuridine (IUDR). 6838
Comparative study of the Aujeszky virus and of the herpes simplex virus by the immunofluorescence method. II. Kinetic study of the herpes simplex virus by the immunofluorescence method. 6843
Pathomorphological studies on rabbits and guinea-pigs experimentally infected with the virus of Aujeszky's disease. 6854

PSEUDORABIES VIRUS
Studies on several strains of pseudorabies (Aujeszky) virus showing different virulence by means of the immuno- and acridine orange fluorescence. 4266
Clinical observation of experimental pseudorabies in mink and ferrets. 6600
Effect of cytostatics on the replication of vaccinia, pseudo-rabies and sindbis viruses and on the interferon production by tissue culture cells. 6791
Detection of pseudorabies virus by immunofluorescence. 6833

PSEUDOSINELLA
New species of Pseudosinella from caves (Insecta: Collembola). 5045

PSEUDOTORYMUS AMETHYSTINUS
New species of palearctic Torymidae (Hym. Torymidae). 49

PSEUDOTSUGA MENZIESII
The rate of crown fade of trees killed by the Douglas-fir beetle in southwestern Oregon. 1599
Distribution of hibernating larvae of the western budworm, Choristoneura occidentalis, on Douglas-fir in Colorado. 2226
Susceptibility of coastal form and central Montana Douglas-fir to Arceuthobium douglasii. 4025
Mites collected from Douglas-fir foliage in Montana. 5030
The 24-inch branch as a sample unit for egg mass surveys of the western budworm. 5463
A microbiological control of Melampsora medusae. 6011
Control of some pests of evergreens. 6162
Spruce budworm damage symptoms related to radial growth of grand fir, Douglas-fir, and Engelmann spruce. 6275
Design and analysis of forest-mammal repellent tests. 6404
Translocation and metabolism of C14-labeled tetramine by Douglas-fir, orchard grass, and blackberry. 7284
The control of Ernobius mollis Linnaeus (Coleoptera: Anobiidae) with dieldrin dips. 7834

PSEUDOTUBERCULOSIS
Pathological studies on pseudotuberculosis rodentium. III. Spontaneous swine cases. 4829

PSILA ROSAE
A contribution to the fight against the genuine carrot rust fly (Psila rosae FABR.) with liquid sprays and granular insecticides. 974
Guide lines for the testing of materials on carrot flies on carrots. 6169

PSILIDAE
Guide lines for the testing of materials on carrot flies on carrots. 6169

PSITTACOSIS
Management and diseases of caged birds. 2936

PSOCOPTERA
The biology of some species of Alaptus (Mymaridae) parasitising eggs of Psocoptera. 2625
Management and diseases of caged birds. 2936
The electrentomoid psocids (Psocoptera). 5105
Wing reduction in endemic Hawaiian psocids. 5643

PSORERGATES
New descriptions of Psorergate species (Psorergatidae: Trombidiformes). 5093

PSOROPHORA CONFINNIS
Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana. (abstracts). 6168

PSOROPHORA CYANESCENS
The occurence of Psorophora cyanescens (Coquillett), P. horrida (Dyar Knab) and P. varipes (Coquillett) in Delaware. 1280

PSOROPHORA HORRIDA
The occurence of Psorophora cyanescens (Coquillett), P. horrida (Dyar Knab) and P. varipes (Coquillett) in Delaware. 1280

PSOROPTES OVIS
Evaluation of acaricidal dips for control of Psoroptes ovis on sheep. 6900

PSYCHIDAE
Materials for a revision of the genus Oreopsyche (Psychidae). 14
Materials for a revision of the genus Oreopsyche (Psychidae). 15
Investigation into the tendency of parthenogenic reproduction of Solenobia manni Z. (Lepidoptera, Psychidae). 1433
Bagworm. 5662

PSYCHODIDAE
New contribution to the knowledge of the Italian Psychodidae (Diptera). 5141
Equipment for the experimental feeding of sandflies. 7567

PSYLLA
Psylla pruni Scop.-The plum psylla. 2801

PSYLLA PYRICOLA
The influence of external factors on the anticipated elimination of the diapause of Psylla pyri (Homoptera: Psyllidae). 4608
Pear Psylla control studies. 7826

PSYLLIDAE
Palearctic encyrtids parasites of psyllids. 85

Polish species of the family Triozidae (Homoptera, Psyllodea). 649

New psyllids (Homoptera, Psylloidea) from the far east of the USSR. 658

Notes on the biology of Artytaina spartiophila Forster and A. genistae Latreille (Homoptera: Psyllidae) on Broom (Sarothamnus scoparius (L.) Wimmer) in Britain. 1018

Supplementary information on Korean Psyllidae. (Homoptera Psyllodea). 1999

A new species of Diclidophlebia (Homoptera: Psyllidae) from Nigeria. 2514

A new genus and species of Psyllidae (Homoptera) from South Africa. 4367

Preliminary observations on the choice of host plants by adults of the citrus psylla, Tri oza erypreae (Del Guercio) (Homoptera: Psyllidae). 4749

PSYLLIODES CHRYSOCEPHALA
New insecticides against pests of rape and beets. 6248

PTERIDINE
The biochemistry of the insect fat body. 110

The ommochrome I as a probable precursor of ommin in ommochrome synthesis of Plodia interpunctella and Ephestia kuhniella. 741

Identification of pteridines in Aedes aegypti (L.). 2612

A yellow mutant strain of the large milkweed bug, Oncopeltus fasciatus, that lacks erythropterin. 4645

PTERIDIUM
Bracken and locust ecdysones: Their effect on molting in the desert locust. 5251

PTERIDIUM AQUILINUM
New antheridiogen from the fern Onoclea sensibilis. 4325

PTERIDOPHYTA
A revision of the fern aphids of Japan with descriptions of three new species (Homoptera: Aphididae). 5104

PTEROMALIDAE
Some biological notes on the pteromalid (Hym., Chalcidoidea) genera Caenacis Foerster, Cecidostiba Thomson and Hobbya Delucchi, with descriptions of two new species. 6

Note on two type specimens of British Pteromalidae (Hym., Chalcidoidea) in the G. T. Rudd collection (Yorkshire Museum, York). 624

Contribution to the study of population dynamics. I. Populational analysis of Nasonia vitripennis Walk. (Hymenop., Pteromalidae). 865

Post-fertilization effect of incompatibility factors in Mormoniella. 928

Evaluation of some parameters of the individual energy budget of the larvae of Pteromalus puparum (L.) (Pteromalidae) and Pimpla instigator (Fabr.) (Ichneumonidae). 5264

PTEROPHORIDAE
Some thoughts on the Pterophoridae of the French fauna. 11

PTEROSTICHUS
Prothetely in Carabidae of the genus Pterostichus. 4577

PTERYGOSOMIDAE
Study of the cycle of Geckobia latastei and Geckobia loricata, Acarine parasites of the Gecko Tarentola mauritanica. 5044

The biology of the conenose bug parasite, Pimeliaphilus plumifer Newell and Ryckman (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5191

Ecological observations on three species of Pimeliaphilus parasites of triatominae in the United States (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5192

PTESIMOGASTER GUNDLACHII
On the status of Cresson's Stenophasmus species from Cuba (Hymenoptera: Braconidae: Doryctinae). 3759

PTINUS
Notes on the biology of two Central American Ptinus (Coleoptera: Ptinidae) with a description of a new species. 1211

Insect pests in food stores. 3642

PTINUS TECTUS
Interactions between the grain beetles Sitophilus granarius (L.) (Curculionidae) and Ptinus tectus Boield. (Ptinidae). 914

PUBESCENCE
Leaf pubescence in common wheat, Triticum aestivum L., and resistance to the cereal leaf beetle, Oulema melanopus (L.). 2111

PUBLIC HEALTH
Problems of public health and medical entomology. 186

Objectives and role of the water pollution control administration on water quality standards. 467

Findings concerning nourishment and toxic residues in plants, other health hazards and life threats. 478

New directions in mosquito control. 933

Specifications for pesticides used in Public Health. 1192

Why is the Navy concerned with weed control. 1636

The distribution of the Q fever agent in dairy cattle. 1683

Paraquat poisoning, lung transplantation. 1803

The plant protection law and its responsibility towards human health. 1855

The plant protection law as a responsibility for the protection of living communities. 1856

Development and perspectives of biological control. 1976

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Endosulfan. 2408

Research on a type of dam spillway unfavorable to the proliferation of Simulium damnosum (Diptera) Simuliidae). 2689

The role of meat inspection in public health. 3006

The campaign of the National Society for the Prevention of Accidents against the use of pesticides, with particular reference to the Emilia-Romagna region. 3078

The effect of household freezing on the infestiveness of Diphyllobotarium latum from fish to man. 3631

Health hazards associated with production and preparation of foods. 3657

The first maximum dosage regulation for plant protection preparations in the Federal Republic of Germany. 4347

Our struggle against pests. 4960

The control of the house fly in the city of Tunis. 5297

Public health pesticides. 5764

Plant protection is also health protection. 5849

Sanitary legislation in France concerning animal salmonellosis. 6417

Interagency environmental hazards coordination; pesticides and public policy. 7423

PUBLIC RELATIONS
1969-Pest Control's economic forecast. 4951

Our struggle against pests. 4960

PUBLICITY
Some cost figures for concentrate sprays. 1199

PUCCINIA
Effect of maleic hydrazide on wheat and barley against different rusts. 2704

PUCCINIA ANTIRRHINI
Directional growth of the urediospore germ tubes and stomatal penetration. 242

Snapdragon rust. 5882

PUCCINIA CORONATA
Additional sources of tolerance to oat crown rust. 2176

Relations of disease resistance mechanisms to pathogen dynamics in oat crown rust epidemiology. 2723

Crown rust of oats in Canada in 1968. 3958

Studies on the varietal characters of Italian ryegrass. III. Varietal difference in degree of infection by crown rust. 5984

A single-spore analysis of rust pustules produced by mixing isolates of two races of Puccinia coronata var. avenae. 7023

PUCCINIA GLUMARUM
Physiological races of Puccinia striiformis in the wheat of Iran. 246

PUCCINIA GRAMINIS
Metabolism of glucomannan-protein during germination of bean rust spores. 1118

Stem rust of wheat in Canterbury. 3953

PUCCINIA GRAMINIS TRITICI
Role of potash application in reducing black rust of wheat. 4680

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 4907

PUCCINIA HORIANA
Wind dispersal of Puccinia horiana. 2196

On the incubation period of Puccinia horiana. 2197

Rare symptoms on Chrysanthemum morifolium infected with Puccinia horiana.
6139

PUCCINIA POLLINIAE
Studies on aecial development in rust fungi: Puccinia polliniae.
6082

PUCCINIA POLYSORA
Interpreting plant disease dispersal gradients.
2746

PUCCINIA RECONDITA
Physiologic races of Puccinia recondita f. sp. tritici in the United States from 1926 through 1960.
236

Leaf rust of wheat in Canada in 1968.
3999

PUCCINIA STRIIFORMIS
Physiological races of Puccinia striiformis in the wheat of Iran.
246

Differences in reaction to Puccinia striiformis between first and second leaves in wheat crosses.
2185

The occurrence and observation of Puccinia striiformis in the State of Washington.
5935

Investigations on yellow rust in wheat and barley, 1962-1965.
6096

PULEX
Comparative morphology of the larvae of certain genera of fleas (Aphaniptera).
2598

PULICIDAE
Effect of differences in ambient temperature upon the fate of Pasteurella pestis in Xenopsylla cheopis.
6894

PULLORUM DISEASE
The organisation of the Australian poultry industry and its influence on disease.
1196

Pullorum disease--an important cause of chicken deaths.
3554

Practice of pullorum disease eradication at a poultry plant in Baku.
6820

Diagnostic potentialities of indirect hemagglutination test in chicken artificially infected with Salmonella.
7913

PULMONARY ADENOMATOSIS
Induction of lung adenomatosis (jaagziekte) in sheep. II.
6564

PULMONARY ASPERGILLOSIS
Pulmonary aspergillosis in the calf.
1669

PULVINARIA
A contribution to the study of the Mediterranean Rhizopulvinariae. (Hom. Coccidae).
1370

PUMPKINS
We Squashed the weeds.
326

Feeding of Aulacophora foveicollis on cucurbitacin.
6253

PUPAE
The fate of immature housefly populations at low and high densities.
66

Preliminary laboratory study on the effects of X rays on the fertility of the apple moth (Laspeyresia pomonella L.).
86

Melanin in an insect, Lucilia cuprina (Wied.).
97

Computing a population budget from sequentially sacrificed, replicated cultures.
156

A fruit pest is being sterilized.
272

Effect of ecdysone on the puparium formation in irradiated Ephestia kuhniella Z.
532

Separation of free amino acids and derivatives in the tsetse fly Glossina palpalis (Diptera) by ion-exchange chromatography.
746

An interesting brood of Eudia pavonia (Attacidae).
838

Circadian systems, II. The oscillation in the individual Drosophila pupa; its independence of developmental stage.
884

Changes in acetylcholine level during diapause in normal and irradiated pupae.
1402

Some new Heliconius pupae: Their taxonomic and evolutionary significance in relation to mimicry (Lepidoptera, Nymphalidae).
2535

Larva, pupa and life history of three species of Ibidionini (Coleoptera, Cerambycinae).
2611

Effects of surface tension on pupae of Culex pipiens quinquefasciatus Say and Aedes aegypti (L.).
2622

Some factors affecting eclosion of Glossina morsitans Westw. from pupae.
3185

Effects of gamma radiation on the tobacco budworm. I. Irradiation of pupae. II. Irradiation of moths. III. Irradiation of eggs and larvae.
3192

Pupal development and moth emergence of the red bollworm (Diparopsis castanea)Hmps. in Malawi and Rhodesia.
3295

Mass production of insect viruses during the shedding of the pupal skin.
3296

The treatment of pupal integuments with chemosterilants as a way of the turnip moth sexual sterilization.
3452

Changes in soluble proteins during foot-pad development in Sarcophaga bullata.
3821

A description of the developmental stages of Ctenophora guttata Wied. and a review of the Czechoslovak species of the genus Ctenophora (Dipt., Tipulidae).
3847

Taxonomic notes on the larva of British Diptera. no. 25, The larva and pupa of Dioctria rufipes (Degeer) (Asilidae).
4363

Control of metabolism in the silkworm pupal ovary by the diapause hormone.
4508

An action of insect hormones on carbohydrate metabolism in insects.
4531

The immature stages of Lype diversa (Banks) (Trichoptera, psychomyiidae).
5032

Notes on some larval and pupal chironomids (Diptera) from Lake Kariba, Rhodesia.
5101

The infection of immature aquatic insects by larval Paragordius (Nematomorpha).
5167

Biochemical correlates of respiratory and developmental changes in anoxic Tribolium confusum pupae.
5408

Production of dauer pupae in Bombyx mori L.
5482

Visual centers during postembryonic life of Callosobruchus maculatus (F.).
5588

Sex pheromones of noctuid moths. XIII. Changes in pheromone quantity, as related to reproductive age and mating history, in females of seven species of Noctuidae (Lepidoptera).
5603

Growth of cells derived from Culiseta inornata and Aedes vexans in tissue culture. A preliminary note.
5638

An infection of Streptococcus faecalis Andrewes et Horder in the pine looper moth, Bupalus piniarius L. (Lepidoptera, Geometridae).
5654

Sexual dimorphism of larvae and pupae of Aedes aegypti (Linn.).
5659

Crossing-over in the males of Drosophila ananassae: exchanges in irradiated pupae.
5712

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia.
6174

Type C Botulism in a dove (Streptopelia roseogrisea bornuensis) from Ferlo (Senegal).
6557

Chironomidae of a moss cover in northern Hungary.
7432

Immature stages of Curculionidae. 1. Some genera in the tribe Araucariini (Cossoninae).
7506

A pupal structure in Simulium clathrinum Mackerras and Mackerras and related species (Diptera: Simuliidae).
7603

Plastron respiration in the marine fly Canace.
7617

Some characteristics of glycogen from a fly pupa (Calliphora erythrocephala Meig.).
7642

On the absence of circadian rhythmicity in Drosophila pseudoobscura pupae.
7722

Mutant traits of the larval and pupal stadia of the wax moth.
7752

PUPAL CASES
Comparative chromatographic investigations of Arthropod cocoons.
1931

Nutrition of the silkworm, Bombyx mori. XVII. Effect of dietary levels of amino acids on growth of fifth-instar larvae and on cocoon quality.
4517

The sexual difference in the silk worm cocoons relative to the optical properties. 2. Fluorescent spectro-characteristics of cocoons.
4973

Puparium formation in flies: Contraction to puparium induced by ecdysone.
5223

Effect of ligaturing on puparium formation in the larva of the tsetse fly, Glossina morsitans Westwood.
5432

PURIFICATION
Partial purification of sugarcane mosaic virus by filtration through gel.
219

Nitrogen supply system prevents contamination of chemicals.
1843

Purification and properties of broad bean wilt virus.
2189

Infrared spectography of myxoviruses.
2291

Biochemistry of friend virus-infected cells. I. Virionspecific RNA.
2292

Phycovirus SM-1: A virus infecting unicellular blue-green algae.
3409

Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. I. Assay, extraction, and concentration. II. Characterization and partial purification. 6051

PURIFICATION PROCEDURES
Purification of potato virus X and preparation of infectious ribonucleic acid by degradation with lithium chloride. 5930

PURINES
The biochemistry of the insect fat body. 110

PUTO
Meiosis in the male of Puto albicans (Coccoidea-Homoptera). 3894

PYCNIDIA
Biology of Ascochyta species parasitic on pea plants. 6023

PYCNOSCELUS INDICUS
Chromosomes of the Pycnoscelus indicus and P. surinamensis complex (Blattaria: Blaberidae: Pycnoscelinae). 871

PYCNOSCELUS SURINAMENSIS
Chromosomes of the Pycnoscelus indicus and P. surinamensis complex (Blattaria: Blaberidae: Pycnoscelinae). 871

PYEMOTES VENTRICOSUS
A mite to combat coconut caterpillar. 3442
A mite to combat coconut caterpillar. 6218

PYEMOTIDAE
New Pyemotidae finds in Hamburg (Acarina, Pyemotidae). 2519

PYRALIDAE
Biological notes on eye-frequenting moths from North Thailand. 71
Two new species of Crambus Fabricius from western North America (Lepidoptera: Pyralididae). 1276
The North American Microcrambus (Lepidoptera: Pyralididae). 1277
Pyralidae of Texel. 1437
The North American Microcrambus (Lepidoptera:Pyralididae). 3112
Studies on sex pheromones of Pyralididae. Changes in the quality of the sex pheromone in the female almond moth, Cadra cautella Walker (Phycitinae). 3841
The influence of photoperiod and temperature on the induction of diapause in mulberry pyralid, Glyphodes pyloalis Walker. 3858
Studies on sex pheromones of pyralididae. II. Mass rearing of virgin females of the almond moth, Cadra cautella Walker (Phycitinae). 3880
First records of eye-frequenting moths from Ceylon. 4365
Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413
Apomyelois bistriatella: A moth which feeds in an ascomycete fungus (Lepidoptera: Pyralidae). 4583
Don't take lightly these brinjal borers. 4759
Contributions to a study of the Pyraustinae (Lepidoptera: Pyralidae) of temperate East Asia. V. 5109
Functional response to host density in a parasitic wasp, with reference to population regulation. 5640
Field studies on the chemical control of the stem borer Chilo partellus on hybrid sorghum in India. 6143
Crambinae from Turkey and from Greece (Lep., pyralidae) (Crambinae-study, Part 46). 7436
Phycitinae-study V (Lepidoptera Pyralidae). 7530

PYRAMIN
Further test of the control of Avena fatua in sugar beets. 4079

PYRAUSTA NUBILALIS
Resistance to cold in Ceratomia catalpae. 1

PYRAUSTIDAE
Field test of lindane against overwintering broods of the western pine beetle. 5094
Control of the castor shoot and capsule borer, Dichocrocis punctiferalis Guen. 6150

PYRAUSTINAE
Contributions to a study of the Pyraustinae (Lepidoptera: Pyralidae) of temperate East Asia. V. 5109

PYRAZON
Some considerations on chemical weed control in Italian beet fields and a survey of some experimental data collected in 1966. 2856
A study of pyrazon and its herbicidal residues in the soil. 3019
Study of the selectivity of herbicides for sugar-beets, using laboratory, greenhouse and physiological methods. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4785
Assimilation of the herbicide phenazone and its detoxication within plants. 7301

PYRAZON PLUS LENACIL
Factors influencing the selectivity of herbicides. 500

PYRENE
Extraction and estimation of polycyclic aromatic hydrocarbons in total diet composites. 1184

PYRENOCHAETA TERRESTRIS
Resistance mechanisms against onion pink root (Pyrenochaeta terrestris), bioassay of inoculum potential in soil and chemical control. 2174

PYRETHRUM
Pyrethrum as an insect repellent. III. A study of the persistence of pyrethrins films, when applied in three types of formulation, as insect repellents to human skin. 187
Permeability of the cuticle to Pyrethrin II. 1404
Insect pests in food stores. 3642
Factors influencing the toxicity of aqueous formulations of pyrethrum against an aphid, Macrosiphum Euphoribae (Thomas). (abstract). 3664
Studies on the increment of the efficacy of insecticides (IX). On the synergistic action of pyrethrosin with pyrethroid. 3826
Specificity in insecticides. 4507
How to control bed bugs. 5185
Development and study of filler composition of aerosol dispensers for controlling flying insects. 5660
Malaria and victory in Vietnam. 5763
Study of the insecticidal action of trans-chrysanthemate alletrholone on Musca domestica. 6693
Saving stored rice from attacks of insect pests. 7037
On the toxicology of Pyrethrum to warm blooded animals. 7384
Relative activity of pyrethroids in aerosol form. 7575
Pyrethrum effects on domestic cats. 7980
Water-base insecticides. 8015

PYRGOMORPHIDAE
Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVII. Orthoptera: Pyrgomorphidae and Acrididae. 1238
Further records of some little-known Pyrgomorphidae and Trigonopterygidae from Fiji, New Guinea and Borneo (Orthoptera: Acridoidea). 5081
The primary types of the Australian Pyrgomorphidae (Orthoptera: Acridoiea). 7487

PYRIDINE
Pyridine esters of cyclopropanecarboxylic acid. Patent 3,438,993. 7385

PYRIDINE COMPOUNDS
Pyridine composition and method for attracting insects. patent 3,325,355. 5330

PYRILLA PERPUSILLA
The presence of positive paraldehyde fuchsin granules in the pedicle of the ovary of Pyrilla perpusilla Walker (Insecta Homoptera Fulgoroidea). 4588

PYRIMETHAMINE
A study on toxicity of pyrimethamine for chicks. 1775

PYRIMIDINES
Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth. 540
Effect of uracil and 5-nitrouracil on growth and flowering of tomato. 1168
Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid. 2178
Carbamyl phosphate synthetase in the chick. 3502
Safety and compatability of sulfadimethoxine potentiated mixture (Ro 5-0013), a new broad spectrum coccidiostat-antibacterial, in chickens. (Abstract). 4185
Pyrimidine dimer formation in ultraviolet irradiated TMV-RNA. 7992

PYROGALLOL
Detection and differentiation of pathogenic Clostridia and their toxins. 7144

PYROPHOSPHATASES
Pseudo-allosteric behavior of firefly luciferase. 2567

PYRRHOCORIDAE
Studies on the anatomy of the male reproductive system of the red-cotton bug, Dysdercus cingulatus (Fabr.), (Heteroptera, Pyrrhocoridae). 5229

PYRRHOCORIS APTERUS
The effects of juvenile hormone analogues on the embryonic development of silkworms. 1462
Changes in glycogen-, lipid-, and nitrogen metabolism of the imago of Pyrrhocoris apterus L. in connection with the reproduction process. 1989

Studies on the physiology of the fat body of Pyrrhocoris apterus L. 2008

An autosomal recessive gene in Pyrrhocoris. 3903

Isolation and a study of the mode of action of a polygalacturonase in insects (Pyrrhocoris apterus). 4482

The effect of hormones on the intestinal proteinase activity of adult Pyrrhocoris apterus L. (Hemiptera). 7619

PYRUVIC ACID

Polioencephalomalacia: Response to thiamine treatment in sheep and a cow. 6867

PYTHIUM

Phytophthora crown and root rot of hops in California. 2181

Pythium root rot of wheat in Queensland soil. 3383

Effects of fungicide drenches on established poinsettia plants. 7267

PYTHIUM APHANIDERMATUM

Mechanism of resistance of carrot roots to Pythium aphanidermatum (Eds.) Fitz. 2126

Serological differentiation of Pythium aphanidermatum from Phytophthora parasitica var. nicotianae and Ph. parasitica. 6021

PYTHIUM ULTIMUM

Influence of soil water and temperature on the pea root rot complex caused by Pythium ultimum and Fusarium solani f. sp. pisi. 2146

Fungus diseases of cotton seedlings in Egypt. 3972

Fungicides and turf disease control - 1964. 5883

Q FEVER

The distribution of the Q fever agent in dairy cattle. 1683

Serological investigations into Q-fever in sheep. 6760

Detection of complement fixing antibody to the agents of tick typhus fever of northern Asia and Q fever in wild animals of the extreme north of western Siberia. 6810

Infection of some species of Gamasidae with R. burneti in the natural Q-fever foci. 6910

QUAIL

Mortality among bobwhites confined to a heptachlor contaminated environment. 1155

Research on the relationship between the tumor causing virus of the quail and the rous sarcoma virus. 2334

Transmission of classical Marek's disease by affected and carrier birds. 6666

Aspergillosis in Japanese quail. 6749

QUALITY CONTROL

Corn with built-in insurance. 5796

Juice quality of grapefruit following June versus September applications of a 412 paraffinic petroleum oil with data on control of certain pests. 7238

QUANTITATIVE ANALYSIS

The use of gas chromatography in detecting lindane in sewage effluent. 483

Collaborative study of an ultraviolet method for measuring diquat content in formulations. 549

Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera). 638

Quantitative determination of acid and alkaline phosphatase in different parts of the alimentary canal of desert locust, Schistocerca gregaria (Forskal). 856

Toxicological problems of dinitro-ortho-cresol with particular consideration of its quantitative detection in biological material. 1154

Development of eggs of the tick, Ixodes ricinus L., depending on temperature and humidity and the thermopreferendum and daily activity of its larvae. 1379

Defense mechanisms of arthropods. XX. Quantitative assessment of hydrogen cyanide production in two species of millipedes. 1385

Analysis of the occurence of nematodes in alfalfa crops. II. Abundance and quantitative relations between species and ecological groups of species. 1628

Analysis of the occurrence of nematodes in alfalfa crops. I. Species composition of nematodes in two alfalfa crops of different age and penetration of species from soil to plants. 1629

Galveston Bay pesticide study- water and oyster samples analyzed for pesticide residues following mosquito control program. 1786

Residues in food and feed. Pesticide residues in total diet samples (II). 1788

Quantitative paper chromatographic analysis of the organophosphorus pesticide VUAGT-3 . 1830

Chemical analysis of the fungicidal mixtures of dithiocarbamates and copper. 1840

Fatty acids in Hyalophora cecropia: Biosynthesis and constitution during development. 2055

An approach to the study of the population dynamics of Aphanomyces euteiches in soil. 2155

Influence of the proliferation virus upon the quality and quantity of apple fruits. 2199

Chromosome analyses of quantitative characters in Drosophila melanogaster. 2675

Aerial photography for the study of plant diseases. 2715

Inoculum production and infection by foliage pathogens. 2733

Trends in the development of plant virology. 2752

Investigations on the entomofauna accompanying aphids occurring on fruit trees and bushes. 2824

Influence of larval population density on the development of Ceratitis capitata Wied. II. 3241

Resistance to American foulbrood in honey bees. IX. Effects of honey-bee larval food on the growth and viability of Bacillus larvae. 3270

Changes in hemolymph total solids and blood volume of the greater wax moth, Galleria mellonella, during the course of starvation. 3280

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism. 3329

Sex and selection for a quantitative character in Drosophila. I. Single-sex selection. 3330

Effectiveness of regular cycles of intermittent artifical selection for a quantitative character in Drosophila melanogaster. 3335

Leptospirosis II. 3599

The determination of dimethoate residues in fruits and vegetables. 3653

Combination of thin-layer chromatography and the ring-oven method for the semi-quantitative estimation of some herbicides. 3717

Rapid analysis of halogenated organic insecticides in aqueous animal dips, using sodium biphenyl. 3718

Collaborative study of infrared analysis of dicamba. 3724

Current status of methods for identifying pesticides, a survey. (JPRS 32,031) 4303

Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518

Residues in fish, wildlife, and estuaries. Chlorinated pesticide levels in the Eastern oyster (Crassostrea virginica) from selected areas of the South Atlantic and Gulf of Mexico. 4875

Residues in food and feed. Chlorinated pesticide residues in fluid milk and other dairy products in the United States. 4880

S.N.F. content of milk. 6446

Metabolic substances of Staphylococcus aureus of bovine udder origin - a quantitative study. 6739

Strontium-90: Concentrations in surface waters of the Atlantic Ocean. 7070

Separation and quantitative analysis of the active ingredient dimethoate and of its changed components contained in emulsions and wettable powders. 7325

A comparison of new techniques for the detection and determination of triazine herbicides separated by thin-layer chromatography. III. Fluorescence quenching. 7343

A rapid and sensitive procedure for the routine determination of organo-chlorine pesticide residues in vegetables. 7972

QUARANTINE

Domestic quarantine notices. Cereal leaf beetle. 2201

Anthrax. 3526

Can mastitis be eliminated . 3604

Mexican fruit containment. 3879

Regulating the shipment of living pests, pathogens and vectors. 4345

Watch for the cereal leaf beetle. 5186

Domestic quarantine notices. White-fringed beetle. 5620

The golden nematode of potatoes and tomatoes. 6283

No serious problem with pesticide residues. 7089

Controlling footrot - equipment used in the Armidale quarantine area. 7918

QUARANTINE TREATMENTS

Watch for new cotton insects. 3425

QUATERNARY AMMONIUM COMPOUNDS
The effect of quaternary ammonium compounds on Newcastle disease virus and parainfluenza virus. 6670
Comparative susceptibility of Aspergillus towards various fungicides and antiseptics. 7226

QUEBEC
Control of a spruce budworm outbreak in Quebec through aerial spraying operations. 7821

QUERCETIN
An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818

QUERCUS
The mass increase in the population of Tortrix viridana L. 756
Treehoppers of certain Mississippi River islands (Homoptera, Membracidae). 779
The alternate generation of Callirhytis quercus-suttonii (Bassett)(Hymenoptera: Cynipoidea). 4038
The important forest pests of Spain. 4660
Tree-wounding insects as vectors of the oak wilt fungus. 6055
Experiments to control acorn weevils with systemic insecticides. dorsey, c k. 6142
Contribution to the knowledge of Microlepidoptera on oaks in Israel. 6258

QUERCUS ILEX
Diseases of forest defoliators of Spain. 874
Factors affecting the appearance of holly oaks in Southern California. 6160

QUERCUS LAEVIS
Influence of time and method of application on turkey oak response to picloram plus 2,4-D. 3468
Rainfall effects following herbicidal treatment of woody plants. 3487

QUERCUS RUBRA
An oak leaf tier, Croesia semipurpurana (Kft.) (Lepidoptera: Tortricidae) in the region of Quebec. 2212
Effects of the winter moth on growth and mortality of red oak in Nova Scotia. 6173

QUERCUS STELLATA
Spraying post oak brush pays dividends. 4084

QUERCUS VIRGINIANA
Live oak in Mississippi infected by Endothia parasitica. 3992

QUINAPYRAMINE
Observations on the use of Antrycide Prosalt and the resistance of cattle to Trypanosomiasis. 2285

QUINCES
Investigation concerning the nectar and honey production of the quince (Cydonia vulgaris Pers.). 2701

QUINOLINE
Quinoline derivatives: Part XIX. Potential amoebicidal agents. 551
Anticoccidial composition containing 6,7-disubstitutedquinoline - 3-carboxylates. Patent 3,448,193. 7364
Pyridine esters of cyclopropanecarboxylic acid. Patent 3,438,993. 7385

QUINOLINOL, 8-
Carbamate esters of 8-quinolinols. 1841

QUINONES
Stemphone, a biologically active yellow pigment produced by Stemphylium sarcinaeforme (Cau.) Wiltshire. 1798

RABBIT FIBROMA VIRUS
Shope fibroma virus growth curve in suspended tissue culture. 2932

RABBITS
The productivity of Glossina austeni Newst. maintained on cop-eared rabbits. 109
Endotoxin properties of Leptospira canicola. 359
Contribution to the study of the protection of domestic rabbit against total irradiation by gamma radiation. 407
False-positive coagulase reactions in the characterization of microorganisms isolated from foods. 457
Further records of fleas occurring as stragglers on rabbits collected in Kent. 845
Rabbit destruction present and future. 1061
Immunofluorescent demonstration of staphyloccal leucocidin components F and S. 1070
Insulin and thyroid hormones in relation to mammary development in hypophysectomized rabbits. 1088
The collection of biting flies in west Texas with Malaise and animal-baited traps. 1383
Varying virulence in rabbits infected with different filamentous types of Histoplasma capsulatum. 1660
Response and specificity of antibodies for Candida albicans. 1665
Effects of cortisone acetate on mammary development of rabbits under various endocrine conditions. 1694
On the type specificities of rabbit anti-S. typhi antibodies. 1695
A possible case of host reversal encountered in a single generation of a laboratory colony of Hyalomma marginatum isaaci. 1721
Eimeria stiedae: Cytochemical identification of acid and alkaline phosphatases, carboxylic ester hydrolases, and succinate, lactate, and glucose-6-phosphate dehydrogenases in endogenous stages from rabbit tissues. 1740
Establishment and treatment of cutaneous Candida albicans infection in the rabbit. 2316
An experimental study of the allergen-specific-enzymatic factor . II. Isolation trials of the allergen-specific enzymatic factor from the urine of rabbits. 2322
Coccidiosis in wild rabbits, Oryctolagus cuniculus (L.), at four sites in different climatic regions in eastern Australia. I. Relationship with the age of the rabbit. 2343
Toxoplasma gondii in tissue culture and maintenance at low temperatures. 2363
Mammary development in hypophysectomized castrated rabbits injected with, thyroxine, cortisone, and ovarian hormones. 2880
Toxoplasmosis infrction from rabbit to men. Report of a case. 2913
Shope fibroma virus growth curve in suspended tissue culture. 2932
Essay on prevention of rabbit rabies by means of a tissue extract of the interference type injected during the incubation period. 2977
Gorse control at a profit. 3488
Studies on the stability of some biological properties of the rabbit-adapted swine fever virus strain C. 3522
Clinical effectiveness of sulfamonomethoxine and sulfadimethoxine in spontaneous coccidial infections in rabbits. 3633
Hemagglutination inhibiting antibodies to arboviruses in the population of Hajdu-Bihar District, Hungary. 4167
Lymphoepithelial tissues of the intestine and differentiation of antibody production. 4213
Ultrastructure of homogeneous bodies and cellular bodies during the course of rickettsial infections. 4813
Experimental infection of laboratory animals with Ascaris suum. 4855
An instrument to hold rabbits for blood sucking Simuliid experiments. 5574
All must pull their weight in pest control. 6409
Adrenergic mechanism in Bordetella pertusis treated animals. 6475
Studies on Salmonella infection among rabbits in the U. A. R. 6479
Biological assay of virus contents of tissues of rabbits infected with lapinised rinderpest virus. 6485
Immunofluorescent and immunophoretic data on antigenic properties of Candida albicans. 6490
Hepatic lesions in the rabbit caused by Vibrio sp. 6512
Clinical observation of experimental pseudorabies in mink and ferrets. 6600
Studies on the method of experimental infection of Vibrio parahaemolyticus. I. Infection of Vibrio parahaemolyticus into intestinal segments of rabbits. II. Influence of chemotherapeutic agents on intestinal segments of rabbit infected with Vibrio parahaemolyticus. 6617
Staphylococcus epizootic in western Oregon cottontails. 6712
Electron microscopy study of the localization of antigens in a virulent and an avirulent strain of Francisella tularensis, using mercury-labelled antibodies. 6719
The evaluation of the metabolic-inhibition technique for the study of Mycoplasma gallisepticum. 6839
Pathomorphological studies on rabbits and guinea-pigs experimentally infected with the virus of Aujeszky's disease. 6854
The development of the infective larva of the canine oesophageal tumour worm Spirocerca lupi in rabbits and its histopathology. 6926

The effects of low temperature on the sporulation and survival of oocysts of Eimeria perforans, media, magna and irresidua. 6944

Cortisone nephropathy in the rabbit. The effect of warfarin administration. 7195

On the behavior of xanthurenic acid in rabbits treated with massive doses of pyridoxine. 7203

RABIES

Anti-rabies vaccinations at the Toulouse University Hospital Center in 1967. 339

The practice of the present diagnostic of rabies. 377

Anti-rabies vaccinations at the Montpellier Center in 1967. 383

Anti-rabies vaccinations at the Pasteur Instiute of Lyon in 1967. 384

Anti-rabies vaccinations at the Pasteur Institute in 1967. 387

An outbreak of rabies in swine. 413

Anti-rabies vaccinations at the Marsille Pasteur Center in 1967. 417

The re-appearance of rabies in France. The first case in a fox from the Moselle region. 1054

Cooperation between veterinary examination centers and vaccination stations of human medicine in the control and protection of persons potentially exposed to rabies infection. 1075

The incubation period of rabies virus inoculated into guinea-pigs intramuscularly. 1692

Rabies diagnosis. Studies on the incubation period and course of the disease in the mouse test from 1960 to 1966. 1693

History and epidemiology of rabies in wildlife in New York. 2293

Control of rabies in wildlife in New York. 2329

Bats in California. 2357

The pathogenesis of street rabies virus in rats. 2884

Differential diagnosis of bovine encephalitides. 2890

Rabies diagnosis. Comparative study on susceptibility of adult and suckling mice. 2951

Essay on prevention of rabbit rabies by means of a tissue extract of the interference type injected during the incubation period. 2977

Anaphylactic shock type reactions subsequent to rabies vaccination of cattle. 3563

Isolation of the rabies virus in foxes in Argentina. 3601

The reappearance of rabies in France. First case in a fox in Moselle. 4793

Rabies, disease of today. Its new etiological and epidemiological aspects. 6519

Infectious disease review: newer concepts of rabies. 6563

Zoonoses in india. 6667

Studies on the effectiveness of fox den fumigation for rabies control in the district of Wolgast. 6696

A case of pruriginous rabies in goats. 6742

Diagnosis of rabies. What is necessary in the field laboratory. 6743

The feeding habits of the yellow mongoose, C ynictis penicillata, the suricate, Suricata suricatta and the Cape ground squirrel, Xerus inauris. 1. Analysis of stomach contents 2. Observations on free-living and captive animals. 6886

RABIES VIRUS

Isolation of rabies virus from fruit bats in Thailand. 419

The role of interferon in the interference phenomenon between vaccinia virus and fixed rabies virus. 4847

A contribution to the knowledge of trophism in rabies virus. 6566

Hemagglutinin of rabies and some other bullet-shaped viruses. 6611

The experience with the indirect immunofluorescence application to the rabies virus identification. 6632

A formalinized and adjuvanted rabies vaccine of tissue culture origin. 6683

Action of Bayer preparation A 139 on rabies virus. 6785

RADIATION

The effect of bioclimate on the communication system of night-flying moths. 170

A fruit pest is being sterilized. 272

The use of radioactive isotopes and of ionizing rays in applied entomology. 822

On the behavior of pesticide residues during the preparation and processing of foods. 1st. Communication. The behavior of radioactive labelled lindane during the baking process. 1150

Sex-ratio depression as a brood-pattern criterion of radiation damage in Drosophila melanogaster. 1505

Influence of distance on attraction of tobacco hornworm and corn earworm moths to radiations of a blacklight lamp. 2057

The influence of the genotype on the frequency of radiation-induced aneuploidy in the oogenesis of Drosophila melanogaster. 3897

Ticks of the National Reactor Testing Station. 4267

Effect of ionizing radiation on Dacus zonatus fruit fly eggs and larvae in situ. 4505

Data in evidence of a retardation of development of Drosophila melanogaster by a reduction in the natural environmental radiation. 4582

The modification of embryologic differentiation processes through total radiotherapy in eggs of Gryllus domesticus. 5362

New strategy against the codling moth. 5520

Elimination of radiation-induced chromosome aberrations in experimental populations of Drosophila melanogaster. 5723

Isotopes in agriculture. 6440

Susceptibility of scrapie agent to ionizing radiation. 6575

Effect of the moisture content and post-irradiation temperature on the radiosensitivity of wheat and barley seeds. 7239

Recovery from gamma radiation injury in barley seeds. 7256

Photochemical decomposition of DDT by a free-radical mechanism. 7361

Mutagenic effects of ethyl methanesulfonate on rice seeds. 7807

Radiation glycemia in tuber tissue in Solanum tuberosum. 7986

RADIOACTIVE CONTAMINATION

Veterinary treatment of farm animals in the case of external radioactive contamination. First communication. Veterinary treatment of sheep and pigs externally contaminated with phosphorus32 and strontium89. 6428

Strontium-90: Concentrations in surface waters of the Atlantic Ocean. 7070

Effects of simulated radioactive fallout decay on growth and yield of cabbage, maize, peas and radish. 7298

RADIOACTIVE ISOTOPES

Whole-body turnover of sodium in adult Drosophila (Drosophiladae) and Megaselia (Phoridae). 2572

Oxidative metabolism of C14-labeled Baygon by living house flies and by house fly enzyme preparations. 5604

Synthesis of radioactive Trichinella spiralis larval antigen in vitro. 6799

Biochemical and biophysical characteristics of vesicular exanthema virus and the viral ribonucleic acid. 6864

RADIOACTIVE SUBSTANCES

Excretion of radioactive mestranol in the milk of animals. 6444

Penetration of chlorinated phenoxyacetic and benzoic acids into leaves. 7289

Metabolism of DDT by rumen microorganisms in vitro. (Abstract). 7345

RADIOACTIVE TRACERS

Redistribution of 45Ca in Trifolium subterraneum L and Antirrhinum majus L. 243

The use of radioactive isotopes and of ionizing rays in applied entomology. 822

A study on the synthesis and absorption of cholesterol in hydatid cysts (Echinococcus granulosus). 1068

The effects of gibberellin on the metabolism of ethanol-soluble constituents in the cotyledons of hazel seeds (Corylus avellana L.). 1173

Ageing and protein synthesis in Drosophila melanogaster. 1358

The replicative organization of DNA in polytene chromosomes of Drosophila hydei. 1515

Phospholipid metabolism during changes in the proportions of membrane-bound respiratory pigments in Haemophilus parainfluenzae. 1710

The distribution, excretion, and metabolites of maleic hydrazide in rats and a method for the detection of metaldehyde in plants. 3026

The metabolism of piperonyl butoxide in the rat with C14 in the methylenedioxy or alpha-methylene group. 3037

Translocation patterns of selected herbicides and influence of fenac on some physiological and histological changes in mugwort. 3062

Seasonal changes in gibberellin-like compounds in ovaries and young fruits of navel orange. 3064

Dynamics of the permeation of nematodes by water, nematocides and other substances. 3456

Half-periods of serum proteins in the dog. 3497

Factors affecting protein synthesis in Hymenolepis diminuta (Cestoda). 3623

New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata). 3820

Incorporation of palmitate-1-C14 into lipids of the blowfly during flight. 3892

The influence of the brood comb on food exchange between honeybee workers (Apis mellifera). 4486

Cytoplasmic particles carrying rapidly labeled RNA in developing insect epidermis. 4523

Tritium labelling and cytochemistry of extra DNA in Acheta. 4642

Chromosome replication in Salmonella typhimurium. 4805

The localization of spermidine in salivary gland cells of Drosophila melanogaster and its effect on H-3-uridine incorporation. 5288

Metabolism of aniline in the cattle tick Boophilus microplus Canestrini. 5368

Contribution to the physiology of the guest-host-relations (myrmecophily) in ants. I. The relation between the myrmecophilic Atemeles- and Lomechusa-larvae and Formica. 5369

Fatty acid metabolism in D. melanogaster: Formation of palmitoleate. 5404

A bioassay to characterize strains and preparations of Bacillus thuringiensis Berliner. 5451

Utilization of larval cholestrol-4-C14 for reproduction in house flies fed unlabeled cholesterol in the adult diet. 5481

The use of radioactivity for the assessment of dose in bioassays involving bacterial insect pathogens. 5566

A study of the synthesis of lysopine from lysine by crown-gall tissues. 5994

Synthesis of saturated long chain fatty acids from sodium acetate-1-C14 by Mycoplasma. 6772

Metabolic fate of histidine in the parasitic worm Fasciola hepatica L.. 6965

Translocation and metabolism of C14-labeled tetramine by Douglas-fir, orchard grass, and blackberry. 7284

Distribution of labelled plant growth regulators within cells. 7321

The conversion of glutamate to alanine in the tsetse fly (Glossina morsitans). 7582

Study of Osmia cornuta's construction after injections of labelled substances. 7616

RNA and protein synthesis in puffs isolated from salivary gland chromosomes of Chironomus. 7641

The metabolism of C-14 labeled DDT in larvae, pupae, and adults of Drosophila melanogaster. 7656

Studies on the allosteric control of an enzyme involved in insect tanning. 7686

The synthesis of fatty acids from acetate by intact tissue and muscle extract of Ascaris lumbricoides Suum. 7931

Dieldrin translocation and accumulation in corn. 7958

Phenol metabolism in relation to disease resistance of potato tuber. I. Activities of phenol oxidase and some enzymes related to glycolysis as affected by chlorogenic acid treatment. 7998

RADIOACTIVITY
Urinary conversion products of injected progesterone-4-14-C in the domestic fowl. 332

Defense possibilities of society against pollution of food and environment. 466

The importance of the isotope dilution in the study of the renewal of phosphorus during-larval growth of Plodia interpunctella. 775

Experiments with radioactive isotopes on forest ants. 797

Distribution of radioactivity in milk resulting from oral administration of 14C-labeled carbaryl. 1137

Effect of radiofrequency electric field treatment on protein metabolism in yellow mealworm larvae. 1993

Biochemistry of friend virus-infected cells. I. Virionspecific RNA. 2292

Radiation sensitivity of Drosophila embryos in relation to age, in air and in nitrogen. 3213

Origin of oxalic acid in Ca oxalate crystals in the malpighian tubes of the tent caterpillar, Malacosoma neustria testacea. 3881

The influence of feed and water restriction and pitressin administration upon thyroxine secretion in domestic fowl. 4100

Mid small intestinal parasitism and absorption of amino acids and protein. (Abstract). 4251

An action of insect hormones on carbohydrate metabolism in insects. 4531

Intestinal transport and metabolism of D-amino acids in the silkworm, Bombyx mori L. 4599

A preliminary study of the extraction of parathion and Diazinon by the Mills, Onley, Gaither Acetonitrile Procedure. 4937

More abstracts of papers presented at the 1967 Annual Wildlife Disease Conference Urbana, Illinois June 15-16, 1967. 6533

Tumor localizing agents VI. Radioiodinated analogs of dichlorodiphenyldichloroethane (DDD). 6536

Retention and vooatilization of lindane and DDT in presence of organic colloids isolated from soils and leonardite. 7129

RADIOBIOLOGY
Peroxidase isozymes in barley leaves from irradiated seeds. 554

Absorption measurements on butterflies of the genus Zygaena Fab. (Lep.) as an explanation of the litoral melanism. 3173

Action of natural ionizing radiations on reproduction in the metazoa: Research on Drosophila melanogaster. 4581

On the biosynthesis of cantharidins. I. 5594

Radiobiological damage: A new class identified in barley seeds stored after irradiation. 7022

RADIOGRAPHY
Radiographic examination of the heartworm-infected patient. 1751

Radiographic study of intestinal transit in a higher termite. 5418

Duodenal leiomyosarcoma: A case report. 6491

Rheumatoid arthritis in a dog. 6695

RADIOISOTOPES
The distribution of radioactive strontium, cesium and iodine in the bodies of some insects. 1937

Serum antibody to Salmonella flagellar antigens. I. Methods of antibody assay. 4850

Isotopes in agriculture. 6440

Ionic distribution studies in haemolymph from different parts of Periplaneta americana by radioactive tracers. 7638

Effects of insecticides on algae. 7976

RADISHES
Reduction of residues of heptachlor and chlordane in carrots with soil applications of activated carbon. 7085

Effects of simulated radioactive fallout decay on growth and yield of cabbage, maize, peas and radish. 7298

Application of the gametocide FW-450 for producing male sterility in radish (Raphanus sativus V. Radicola D. C.). 7994

RADOPHOLUS SIMILIS
Pathogenecity of Pratylenchus brachyurus to citrus. 2828

Burrowing nematodes may survive on variants of milam lemon. 6290

Tropical nematology. 6305

RAGIMILLET
Transmission of the virus component of the ragi (Eleusine coracana) disease-complex in Mysore, India. 4028

RAINFALL
Analysis of the occurence of nematodes in alfalfa crops. II. Abundance and quantitative relations between species and ecological groups of species. 1628

The effect of climatic integrants on population fluctuations of the Columbian timber beetle Corthylus columbianus Hopkins (Coleoptera; Scolytidae). 2015

Effects of simulated rain and dew on the toxicity of certain ultra-low-volume insecticidal spray formulations. 2020

Loss of gibberellins by leaching from stems and foliage of Chrysanthemum morifolium 'Princess Anne'.
3057

Selection and host plant overlap in two desert Papilio butterflies.
3194

Effects of rainfall on range forage and populations of grasshoppers, San Carlos Apache Indian Reservation, Arizona.
3257

How herbicides work.
3464

Rainfall effects following herbicidal treatment of woody plants.
3487

Virus isolation and serologial studies of arthropod-borne virus infections in a high rainfall area of North Queensland.
3539

Some observations on the late occurrence of Peronospora on grapes in the period 1964-1966.
3966

Spore dispersal by Scleroderris lagerbergii under nursery and plantation conditions.
4007

Sorghum - specialist advice.
5793

Splash dispersal of fungus spores and fungicides in the laboratory and greenhouse.
5799

Trends in disease.
6000

Effect of climatic factors on the susceptibility of insects to insecticdes.
6251

Competition between burroweed and annual and perennial grasses for soil moisture.
6328

Experiments with fattening pigs on pasture.
6426

Nights flight of the Australian plague locust. Chortoicetes terminifera Walk., in relation to storms.
7593

The B-chromosome system of Myrmeleotettix maculatus (Thunb.). III. The statistics.
7735

RAMS

Ovine genital brucellosis. Epididmytis of the ram (Brucella ovis). The utilization of a new antigen for the complement fixation test and intradermal reaction.
4126

Clinical and pathological studies of Border Leicester rams naturally infected with Actinobacillus seminis.
6487

Brucella ovis infection. 2. The infection status in breeding flocks as measured by examination of rams and the perinatal lamb mortality.
6618

Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis.
6646

RANATRA

Centromere nature of the chromosomes of Ranatra (Heteroptera).
5701

RANDOX

Combination of thin-layer chromatography and the ring-oven method for the semi-quantitative estimation of someherbicides.
3717

RANGE MANAGEMENT

Effect of range treatment with 2,4-D on rodent population.
6408

RANGES

Invasion of grassland by Baccharis pilularis DC.
314

Apion seed weevil introduced for biological control of Scotch broom.
2254

Carbohydrate reserves in mountain range plants with respect to phenological stage of development and artifical defoliation.
2446

Differences between the invertebrate faunas of grazed and ungrazed chalk grassland. II. The faunas of sample turves.
3252

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Dicamba.
4295

Range recovery and production as influenced by nitrogen and 2,4-D treatments.
5826

RAPE

Molybdenum in soils and its availability to plants.
1164

The toxicity of biuret to plants as depending on soil conditions.
1166

A new biotype of cabbage aphid (Brevicoryne brassicae (L.)) on aphid resistant rape (Brassica napus L.).
2220

Community studies on Hymenoptera found on Brassica napus L. Part VI. Chalcidoidea.
2613

Damage to seeds through storage on chemically treated wood.
3637

Community studies on Hymenoptera found on Brassica napus L. Part III. Braconidae and Aphidiidae.
3853

Community studies on Hymenoptera found on Brassica napus. Part IV. Aculeata.
4567

Response of mixed crop of wheat and rape to three chlorophenoxy herbicides.
4777

Ecological studies on aphids. I. On the temperature relations of the Virginoparae (Aliencolae) of Myzus persicae at constant temperatures on Swedes.
5675

Indications on plant care for olive crop cultivation.
6192

New insecticides against pests of rape and beets.
6248

Matricaria and lambsquarter control in Brassicas with analogs of propachlor.
6368

On the distribution of the infestation of the cabbage gallgnat Dasineura brassicae, in large fields.
7832

RAPHIDIA ALOYSIANA

Sialis nigripes Pictet,Raphidia (Agulla) aloysiana Costa and Inocellia keiseri Aspoeck, new for Switzerland. (Neuroptera s.l.).
22

RASPBERRIES

Line pattern disease of raspberry.
2118

Raspberry moth.
4039

A new gene from Rubus occidentalis L. for resistance to strains 1, 2 and 3 of the rubus aphid, Amphorophora rubi Kalt.
4746

RATOON STUNT

Plant inspection and what it entails.
258

Ratoon stunting disease and drought a disastrous combination.
259

RATS

The effect of mucin on the amino acid absorption in the rat intestine.
203

Rat poison and insecticide.
329

Neural lesions in the offspring of female rats fed a copperdeficient diet.
349

Infection in rats: Histopathological examination.
362

Influence of microorganisms on intestinal absorption: Oleic acid 131I and triolein 131I absorption by germfree and conventionalized rats.
427

Potentiation of toxicology of sumithion by phosphamidon in the rat. (abstract).
505

Studies of toxicity and enzyme activity resulting from interaction between chlorinated hydrocarbon and carbamate bon and carbamate insecticides. (Abstract).
512

Serological changes in ex-germfree rats mono-associated with Salmonella typhimurium.
1117

The toxicological effect on animals of mixtures of chlorophos and DDT.
1156

The toxicological effect on animals of mixtures of thiophos, and chlorophos.
1157

Cycad husk from Guam: Its toxicity to rats.
1162

Diseases transmitted by rats and other rodents.
1652

Respiratory components of Aspergillus niger mitochondria.
1709

Experimental Fascioliasisi Some effects on Fasciola hepatica of treatment of rat hosts with bithionol (actamer).
1734

Observation of the migrant larva of Trichinella spiralis in the capillary blood.
1769

Infection experiments with the Filaria of the cotton rat, Litomosoides carinii Chandler 1931 (Filariidae) in inadequate hosts.
1774

Nature of the water-soluble metabolites of carbaryl in bean plants and their fate in rats.
2267

Stability of Escherichia coli endotoxin in the rat gastrointestinal tract.
2279

Failure of oral Escherichia coli endotoxin to induce either specific tolerance or toxic symptoms in rats.
2280

Effects of DDT on brain electrical activity in awake, unrestrained rats.
2352

Oxidative metabolism of phosphamidon in rats and a goat.
2388

The early effects of low DDT doses on the nervous system in animal experiments.
2428

The effect of DDT in the diet on the resting and loading electrocorticogram record.
2430

Toxicity of fentin hydroxide to rats.
2431

Cholinesterase inhibition in the acute toxicity of alkylsubstituted 2-aminoethanols.
2432

The effects of balancing and imbalancing safflower protein on food consumption, body weight gain and concentrations of plasma free amino acids in the young rat.
2881

The pathogenesis of street rabies virus in rats.
2884

Protein-deficient diet and DDT toxicity.
2892

Shared group-specific antigen of murine and feline leukemia viruses.
2909

The distribution, excretion, and metabolites of maleic hydrazide in rats and a method for the detection of metaldehyde in plants.
3026

The metabolism of piperonyl butoxide in the rat with C14 in the methylenedioxy or alpha-methylene group.
3037

A new induced transplantable rat mammary carcinoma.
3543

Pathologic characteristics of renal lesions induced by S(Dichlorovinyl)-L-cysteine in calves and rats.
3594

Philippine field rats and their control.
4093

Spontaneous tumors of the brain in rats: A report of 3 cases.
4121

Spontaneous tumorsin Holtzman-source rats of various ages.
4226

Epizootics of trichinosis in pigs and its relation with anti-rat procedures using warfarin.
4227

Trichinella spiralis infection in Rattus norvegicus from the municipal ahattoir of Santiago, Chile.
4228

Experimental transmission of plague by Synopsyllus fonquernici of Madagascar.
4800

Hormonal effect on certain glycolytic enzymes of rat mammary gland.
4831

The effects of pantothenic acid, pantoyltaurine, salicylate and related compounds on the in vitro and in vivo growth of Trypanosoma lewisi.
4839

Structure of Klein's metaholites of aldrin and of dieldrin.
4926

Plant insect and disease control in Peru.
6061

A new method of rat control in coconuts.
6412

Effect of some pesticides on the adrenal glands in the rat.
6424

Excretion of radioactive mestranol in the milk of animals.
6444

Combined action of Rous sarcoma virus and chemical carcinogen in rats.
6456

Tumor localizing agents VI. Radioiodinated analogs of dichlorodiphenyldichloroethane (DDD).
6536

A contrihution to the knowledge of trophism in rabies virus.
6566

In vivo growth and distribution of anthrax bacilli in resistant, susceptible, and immunized hosts.
6653

Studies on Mycoplasma of rats. I. Observation of Mycoplasma in the respiratory system of rats.
6752

Evidence for conversion of DDT to TDE in rat liver: Ii. Conversion of p,p'DDT to p,p'TDE in axenic rats.
6753

Effects of aflatoxin B1 on polysomal profiles and RNA synthesis in rat liver.
6793

Tolerance status of some rats to an anticoagulant rat poison.
7038

Anticoagulant resistance in Europe.
7040

Thieves in the poultry house.
7041

Note on the evaluation of the efficacy of rodent icides.
7044

No effect level of DDT in induction of microsomal epoxidation.
7105

Effects in warmblooded animals of thiometon (2-ethylthioethyl o,o-dimethylthiophosphate) ingested in drinking water.
7149

Enhanced metabolism of methyprylon, meprobamate, and chlordiazepoxide hydrochloride after chronic feeding of a low dietary level of DDT to male and female rats.
7152

Purification and properties of in vitro--produced anthrax toxin components.
7162

Effect of aminotriazole on thyroid function in the rat.
7164

Aversion to strychnine sulfate by Norway rats, roof rats, and pocket gophers. (abstract).
7171

An in vitro and in vivo study of the effect of DDT on the phagocytic activity of rat white blood cells.
7174

Effect of carbaryl on the neuroendocrine system of rats.
7201

The cellular pattern in invasive oncospheres of Hymenolepis diminuta as revealed by an enzyme--acetic acid--orcein method.
7948

RATTLE DISEASE

Electron microscopic observations on the causal agent of the Brazilian tomato ring spot disease.
2175

Assembly of protein and nucleoprotein particles from extracted tobacco rattle virus protein and RNA.
6074

Intracellular inclusions in epidermal cells of tobacco infected by tobacco rattle virus.
7802

RAVINIA ASSIDUA

The host and present status of Alysia ridibunda Say in Missouri (Hymenoptera: Braconidae).
762

REARING

In vitro development of invasive Nematode-larvae to parasitic stages.
1738

RECTUM

Structure and function of the rectal pads in Hymenoptera.
1922

Structure, function and development of the rectal apparatus for forming excrements (Kotpresse) of Central European Clytrinae and Cryptocephalinae (Coleoptera, Chrysomelidae).
2571

RECURVARIA LEUCATELLA

The apple moth (Recurvaria leucatella Cl.) a little known pest of our fruit trees.
269

RED BAND

Red band disease on pines ((Dothistroma pini) Hulbary var. (linearis) Thyr and Shan).
3369

RED BAND (PINUS)

Hosts and geographic distribution of Scirrhia pini--the cause of red band needle blight in California.
5895

RED CLOVER

Effects of gibberellin on photosynthesis in red clover (Trifolium pratense L.).
542

Junctions between epidermal cells as sites of appressorium formation by plant pathogenic fungi.
1578

Purification and properties of broad bean wilt virus.
2189

Aphids and leafhoppers found on red clover in eastern Washington.
2221

Interaction of a fungus gnat, Bradysia sp. (Sciaridae) with Fusarium spp. on alfalfa and red clover.
2222

Red clover necrotic mosaic virus, a new virus infecting red clover (Trifolium pratense) in Czechoslovakia.
2764

Course of red clover mottle virus infection in some host plants.
2765

Stem eelworm on clover.
3460

Host resistance reflected in differential nematode population structures.
4058

Transmission and translocation of red clover vein mosaic virus in clover.
5921

Control of survival of Ophiobolus graminis between consecutive crops of winter wheat.
6072

Control of insects on alfalfa and red clover.
6185

RED LEAD

Controlling stem-end rot of ripe mango.
6035

RED RING

Red ring disease of the coconut palm, inoculation studies and histopathology.
3455

Tropical nematology.
6305

RED ROT

Red rot in residual ponderosa pine stands on the Navajo Indian Reservation.
4663

RED WATER DISEASE

Inherited resistance to sulfaquinoxaline toxicity in the chicken. (Abstract).
4111

REDPEPPERS (VEGETABLE)

A new herbicide for use on cultivated plants.
3047

The inheritance of a new source of resistance to the potato virus Y in pepper (Capsicum annuum L.).
4713

Screening method for zearalenone, aflatoxin, and ochratoxin.
4928

Investigation of means for the chemical control of basal rot (Phytophthora capsici Leon.) of pepper.
6010

Nitrogen increases bell pepper susceptibility to bacterial soft rot.
7309

REDUVIIDAE

Studies on some silvatic reservoirs and vectors of Trypanosoma cruzi. XXI: observations on the ecology of Panstrongylus geniculatus (Latreille 1811) (Hemiptera Reduviidae).
9

Hemipteran Reduviidae and Pachynomiidae from the Tchad region.
1342

On the authorship of the generic name Tagalis and the invalidity of the family-group name Tagalidae (Hemiptera: Reduviidae).
1410

Revision of African Reduviidae. II. Harpactorinae. Genus Nagusta Stal.
1914

The actual placing of the Zelurus species Hahn of the group Formosus (Hemiptera, Reduviidae).
2500

On the authorship of the generic name Tagalis and the invalidity of the family-group name Tagalidae (Hemiptera: Reduviidae). 3105

Hemipterous Reduviidae and Pachynomidae of Sudan and Ethiopia. 3138

Notes on synomynus of African Reduviidae. 5164

A comparative electrophoresis study of the Triatoma rubida Complex (Hemiptera: Reduviidae: Triatominae). 5181

The biology of the conenose bug parasite, Pimeliaphilus plumifer Newell and Ryckman (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5191

Ecological observations on three species of Pimeliaphilus parasites of triatominae in the United States (Acarina: Pterygosomidae) (Hemiptera: Reduviidae). 5192

Study of variations in neurosecretion at the level of the brain and the sub-esophageal ganglion in the female imagos of Rhodnius prolixus (Stal) Hemiptera. 5202

Histophysiological studies on neurosecretion in the ventral nervous system of Rhodnius prolixus Stal (Hemiptera) during the imago stage. 5213

Mechanical transmission of Trypanosoma lewisi (Kinetoplastida: Trypanosomidae) by Rhodnius prolixus (Hemiptera: Reduviidae). 5261

Commentary on the Harpactorinae in the Royal Institute of Natural Sciences of Belgium (Hemiptera-Heteroptera: Reduviidhe). 7451

REDUVIUS

Epizootiology of Trypanosoma cruzi in Southwestern North America. XI-XII. Biology of the genus Reduvius in North America and the possible relationship of Reduvius to the epizootiology of Trypanosoma cruzi (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomidae). 875

REFERENCE MATERIALS

REPRODUCTION

Observations on the reproduction of Hemitarsonemus latus (Banks) (Acarina Tarsonemidae). 137

Responses of aphids to pressure applied to liquid diet behind parafilm membrane longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L9) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions. 172

The studies of the behavior of Culex pipiens fatigans with special reference to dispersal, mating and feeding. 178

Directional growth of the urediospore germ tubes and stomatal penetration. 242

Inhibition of flowering in Hyoscyamus niger by 6-azauracil without suppression of stem growth. 540

The larvae of some British Notiophilus species (Col., Carabidae). 612

Activities of the working groups. Working group San Jose louse . 735

Contribution to the study of the population dynamic of insects: 1. Stimulating action of the host, Aerolepia assectella Z., on the multiplication of an hymenoptera Ichneumonidae (Diadromus sp.). 828

The effects of injected aminopterin on egg production in Rhodnius prolixus. 861

Rate of multiplication and sex ratio in relation to the quantity of food material in Bracon brevicornis Wesmael and Perisierola nephantidis Muesebeck. 866

Uptake of water by eggs of Cardiaspina densitexta (Homoptera: Psyllidae) from leaf of host plant. 907

Bombus jonellus (Kirby) (Hym., Apidae) has two generations in a season. 1435

A study of area occupation and mating behavior in Incisalia iroides (Lepidoptera: Lycaenidae). 1452

Biological control of insects. 1495

The determination of the number of successive generations Heterodera schachtii during one vegetation period in Slovakia (CSSR). 1622

A contribution to the systematic position of Aegyptianella pullorum Carpano, 1928. 1667

Endodyogeny of Toxoplasma gondii. A morphologic analysis. 1712

Influence of moisture content of bovine feces on oviposition and development of the face fly. 1927

Competitive mating tests between normal and aspermic male house flies. 2035

Organogenesis of the female reproductive system of an aedine mosquito. 2038

Performance of the English grain aphid on sterilized and unsterilized artificial diet. 2059

Modern methods of disease control in florist and nursery crops. 2117

Effect of DDT or parathion on condition avoidance response of offspring from DDT or parathion treated mothers. (abstract). 2427

Responses of aphids to pressure applied to liquid diet behind parafilm membrane. Longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L.) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions. 2665

A sex-ratio aberration in Drosophila melanogaster (Meigen). 2683

Oogenesis and reproduction of Heterodera oryzae and H. sacchari (Nematoda: Heteroderidae). 2842

Wild and cultivated grass hosts of the southern root-knot nematode, Meloidogyne incognita. 2846

The leucocyte counts of cattle aborting due to Brucella abortus infection compared to leucocyte counts of noninfected cattle calving normally. 2891

Reproduction in brook trout (Salvelinus fontinalis) fed sublethal concentrations of DDT. 3022

Anopheline mosquitos found breeding in Israel in 1963-1965 during the last stage of the malaria eradication project. 3159

Multiple mating of Glossina morsitans Westw. and its potential effect on the sterile male technique. 3179

Spermatophores in arthrops and their evolution as far as insects are concerned. 3198

Systematic foundations of forest ant reproduction in Germany. 3234

Research on oogenesis, fertilization, egg segmentation, and spermatogenesis in Caloglyphus berlesei Michael 1903 and C. michaeli Oudemans 1924 (Acari, Acaridae). 3263

Clover disease. 3598

Insects and physiology; essays presented to Sir Vincent Wigglesworth, CBE, MD, FRS on his retirement from the Quick Chair of Biology and directorship of the Unit of Insect Physiology in the University of Cambridge. 3800

The effect of essential amino acid deficiency on the sex-specific accumulation of a blood protein in female house-flies (Musca domestica L.). 3804

Mating and oviposition behavior of the coffee leaf miner, Leucoptera coffeella (Lepidoptera: Lyonetiidae). 3888

Life cycle and reproduction of Meloidogyne hapla on potato. 4052

Estrogenic activity of o,p'-DDT in the mammalian uterus and avian oviduct. 4095

The effects of reserpine on the reproductive performance of breeder turkeys receiving artificial insemination. 4106

Emtryl and antibiotics for turkey breeders. (Abstract). 4112

Reproductive abnormalities in hens deficient in linoleic acid. (Abstract). 4123

Effect of nitrofurazone and furazolidone on reproduction in chickens. 4169

The linoleic acid requirement of the hen for reproduction. (Abstract). 4192

Study of the multiplication of Sindbis arbovirus in Drosophila. 4509

Adult emergence interval and reproduction in parasitic Hymenoptera influenced by host size and density. 4545

Effect of melatonin on egg production of the boll weevil, Anthonomus grandis. 4571

Virus multiplication. 4614

Seasonal changes in the direction of mating in Drosophila melanogaster in the experiments with a natural inversion. 4636

Study of the multiplication, in a unique clone cycle, of classic swine fever virus in an immunofluorescent medium. 4794

Inhibition of the multiplication of foot-and-mouth virus in an adult mouse which had first been treated with the adjuvant of Freude . 4814

Pesticide residues in a marine population of double-crested cormorants. 4883

On the influence of effluent of the starch factory upon the Yubetsu River and the Shokotsu river, and of effluent of the best factory upon the benthic animals in the Abashiri River (Hokkaido). 4955

Effects of reroductive-diapause boll weevil (Heliothis zea Boddie) insecticidal control programs on the abundance of bollworms and tobacco budworms (Heliothis virescens F.) in cotton in the rolling plains of Texas, 1967. 5236

Results of consecutive matings of female Anopheles gambiae species B with fertile and sterile males. 5242

The effects of implantations of corpora allata on reproduction of collected females of Schistocerca gregaria (Forsk.) and on the polymorphism of their progeny. 5255

Studies on interspecies competition between the azuki bean weevil and the southern cowpea weevil. III. Some characteristics of strains of two species. 5318

The influence of the duration of copulation on the fertility of the females of Acanthoscelides obtectus Say (Insecta Coleoptera). 5376

Estimation of the individual number entering each development stage in an insect population. 5413

Conditions for the massive multiplication of the intestinal cytoplasmic virus of Mamestra brassicae L. (Lepidoptera). 5426

Hormonal control of the reproductive diapause in the grasshopper, Oedipoda miniata. 5522

Oogenesis in the parthenogenetic stick insect Sipyloidea sipylus Westwood (Orthoptera, Phasmidae). 5529

Intraspecies competition in a field population of Gregopimpla himalayensis (Hymenoptera: Ichneumonidae) parasitic on Malacosoma neustria testacea (Lepidoptera: Lasiocampidae). 5600

Ecological studies on aphids. I. On the temperature relations of the Virginoparae (Aliencolae) of Myzus persicae at constant temperatures on Swedes. 5675

Male genital disc defect in Drosophila melanogaster. 5683

Effects of sublethal doses of DDT on the reproduction and susceptibility of Culex pipiens L. 5773

Comparative behavior of the oospores and oogonia of Phytophthora citricola during germination on an artificial medium. 5798

Significance of males in reproduction of the soybean cyst nematode (Heterodera glycines). 6288

Effects of dimetridazole and antibiotics on growth and reproduction in turkeys. 6415

On the effect of Sevin on sexual functions of warm-blooded animals. 6439

Treatment of anoestrus in dairy cattle. 6624

Ovarian cycle in cows with irregular estrus cycles. 6644

The influence of streptococci on the genitals and fertility of thoroughbred mares. 6804

Chlorinated hydrocarbons and eggshell changes in raptorial and fish-eating birds. 7108

Propagation of grape (Vitis vinifera L.) by air layering with the aid of plant regulators. 7299

Changes in lipid content during the reproductive cycle of Leucophaea maderae and effects of the juvenile hormone on lipid metabolism in vitro. 7611

Dieldrin and DDT: Effects on sparrow hawk eggshells and reproduction. 7679

Influence of corpus allatum on reproduction of female Iphita limbata Stal (Hemiptera). 7680

REPRODUCTIVE ORGANS

On the accessory glands of the male reproductive apparatus of Dolichopoda geniculata Costa (Orthoptera, Raphidophoridae). 138

Cultures of insect tissues with the aid of mammalian serum. 168

Preliminary study of an enterovirus isolated from a balanoposthite lesion of cattle. 357

Morphology, musculature and inervation of the reproduction organs of Lethocerus indicum (Hemiptera: Belostomatidae). 753

Morphology and relationships of the male of an Asterolecanium species (Homoptera: Coccoidea: Asterolecaniidae). 796

The male genitalia of some Criorhina Meigen species from North America (Diptera: Syrphidae). 857

Male genitalia of the Sericomyiini complex (Diptera: Syrphidae). 905

Equine coital exanthema. 1091

Notes on Coleoptera XI. (Comments on the genus Heteropelidnota Ohaus, with a description of a new species (Col. Scarabaeidae, Rutelinae). 1294

Some notes on the species authorization of Amischa sarsi Munst. and the sex characteristics of Amischa cavifrons Sharp (Col., Staphylinidae). 1331

Sexual dimorphism of the Campsomerinae (Hymenoptera, Scoliidae). 1362

Further studies on the internal anatomy of the Meloidae. III. The digestive and reproductive systems as bases for tribal designation of Pseudomeloe miniaceomaculata (Blanchard) (Coleoptera: Meloidae). 1403

Adverse effects of folic acid on the gonads of adult Drosophila (Insecta, Diptera). Modifications in morphology and histopathology. 1444

The homologies of the female genitalia in the Pentatomoidea (Hemiptera-Heteroptera). 1468

Nest architecture and associated behavior of the nocturnal bee, Sphecodogastra texana (Hymenoptera: Halictidae). 643

Sitona brevirostris Solari (Col., Curculionidae) new to the British list. 645

Two new species of Gigantolaelaps (Acarina: Laelaptidae) with a key to the females. 655

Descriptions of two new species of the genus Stethorus Weise from Japan (Coleoptera: Coccinellidae). 666

A new genus belonging to the tribe Pharini from the northern part of the Ryukyu islands (Coleoptera: Coccinellidae). 667

N ew reared neotropical species of Rogas Nees (Hymenoptera: Braconidae). 671

Supplementary notes on the genus Pseudoliprus of Japan (Coleoptera: Chrysomelidae-Alticinae). 676

The status of the name Prosimulium albionense Rothfels. 681

SUBJECT INDEX

Two new species of Menoponidae (Mallophaga) from the Falconiformes. 686

The macropterous form of Ulopa trivia Germar (Hem., Cicadellidae). 689

Notes on a few Mexican Scarabaeidae (Coleoptera). 695

A new species of Agathymus and a new subspecies of Megathymus (Lepidoptera, Rhopalocera, Megathymidae). 705

Discovery of the male of the genus Pseudhomalopoda (Hymenoptera: Chalcidoidea-Encyrtidae). 710

Notes on the mallophagan genus Comatomenopon and descriptions of two new species. 713

A new genus and species of Oribatellid mite from Colorado (Acarina: Oribatei). 725

Larval stages of the leaf-miners found in Shikoku. (Coleopterous leaf-miners of Japan. VII). 728

New record of Agriosphodrus dohrni Signoret from Shikoku (Hemiptera: Reduviidae). 729

Food-plant selection by Poecilocerus hieroglyphicus (Klug) (Acrididae: Pyrgomorphinae) and some of the receptors involved. 736

Seasonal and daily chirping cycles in the northern spring and fall field crickets, Gryllus veletis and G. pennsylvanicus. 738

Myiolia caesio Harr. (Dipt., Trypetidae) recaptured near Eltham, N. W. Kent; with a suggestion as to the probable host-plant. 739

Alophora obesa F. (Dipt., Tachinidae) bred from Neottiglossa pusilla Gmel. (Hem., Pentatomidae). 740

A life history study of the ash seed weevils, Thysanocnemis bischoffi Blatchley and T. helvola Leconte. (Coleoptera; curculionidae). 748

The occurrence of Dermestes peruvianus La Porte and Dermestes haemorrhoidalis Kuster (Col., Dermestidae) in Britain. 752

Morphology, musculature and inervation of the reproduction organs of Lethocerus indicum (Hemiptera: Belostomatidae). 753

Studies on North American ants. II. Myrmecina. 759

The establishment of a laboratory colony of the tomato hornworm Protoparce quinquemaculata Haw. (Lepidoptera: Sphingidae). 764

Some species of Leptoconops of the Oriental and Pacific Regions (Diptera, Ceratopogonidae). 767

Studies on free colonies of Cryptocerus texanus Santschi (Hymenoptera: Formicidae). 776

2,4-hexadienyl butyrate and related compounds highly attractive to yellow jackets (Vespula spp.). 778

Aspects of the biology of Chilicola ashmeadi in Costa Rica (Hymenoptera: Colletidae). 781

Feeding and crop emptying in the cockroach Leucophaea maderae. 782

The spermatophore of Tetrix Latreille (Orthoptera: Tetrigidae). 783

Sawflies (Hym., Symphyta) in Berkshire: addenda and corrigenda. 785

Experiments with radioactive isotopes on forest ants. 797

A rapid method of marking corn earworm moths with dyes for release studies. 803

Survival of eggs of Eretmapodites chrysogaster Graham (Diptera: Culicidae). 813

Observations on postembryonic development in Eutrombicula splendens (Acari-Acariformes). 817

Differential spectra of cytochromes in development of the flight-muscles in Antheraea pernyi. 821

Trophic symbiosis between forest ants and plant lice with studies on the reciprocal effects between plant lice and plant tissues. 824

Contribution to the study of the population dynamic of insects: 1. Stimulating action of the host, Acrolepia assectella Z., on the multiplication of an hymenoptera Ichneumonidae (Diadromus sp.). 828

A review of the British Trigonotylus (HeteropteraMiridae, Mirinae). 830

Life cycle and development of Leiophron pallipes Curtis (Hymenoptera: Braconidae, Euphorinae) in five mirid hosts in the Belleville district. 836

The Mexican species of Promachus in the subgenus Amblyonychus (0Promachina) (Diptera: Asilidae). 842

Further records of fleas occurring as stragglers on rabbits collected in Kent. 845

Nests and social behavior of three species of Pseudaugochloropsis (Hymenoptera: Halictidae). 846

Further investigations on the artificial breeding of the olive fly-Dacus oleae Gmel.-under aseptic conditions. 849

New or little-known Elateridae from Japan. X. (Coleoptera). 858

Epizootiology of Trypanosoma cruzi in Southwestern North America. XI-XII. Biology of the genus Reduvius in North America and the possible relationship of Reduvius to the epizootiology of Trypanosoma cruzi (Hemiptera: Reduviidae) (Kinetoplastida: Trypanosomidae). 875

Some muscid flies (Dipt.), of Lancashire and Cheshire. 883

The night-day activity rhythm of Tetratoma fungorum F. (Col., Tetratomidae). 885

Notes and descriptions of some Leptopsyllid fleas (Siphonaptera). 898

Acacia galling by a lycaenid (Lep.). 901

Male genitalia of the Sericomyiini complex (Diptera: Syrphidae). 905

An abnormal intermediate form of Dactynotus (D.) hypochoeridis H.R.L. (Hem., Aphididae). 913

Interactions between the grain beetles Sitophilus granarius (L.) (Curculionidae) and Ptinus tectus Boield. (Ptinidae). 914

New directions in mosquito control. 933

Fence posts used to evaluate preservatives. 938

Detrimental effect of Russianthistle on semidesert range in west-central New Mexico. 940

Integrated pest control from the point of view of zoological pesticide examination. 948

On Diaporthe on plum-trees - a study of literature. 977

The mite battle goes on and on. 992

The fourth study circle on the problems and various options of animal nutrition Lyon 1968. 1047

The effect of malachite green as a fungicide. 1050

Recent research on enzyme induction. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff. 1051

Immunofluorescent demonstration of staphyloccal leucocidin components F and S. 1070

Variable results of sodium deoxycholate tests of Nodamura virus, an ether and chloroform resistant arbovirus. 1100

Studies on the etiology of bovine leucosis - 4. Genetic studies. 1116

Some parasites of the common crow, Corvus brachyrhynchos Brehm, Ohio. 1122

What are pesticides. 1159

Laboratory examination of organic fungicides against zoopathogenic fungi in soil. 1170

Polarographic analysis of s-triazine herbicides. 1183

Field screening of new chemicals for herbicidal activity, 1968. 1189

Experiments concerning the sensitivity of Trichogramma (Hymenoptera, Chalcidoidea) to fungicides. 1190

Opportunities for establishing viable crop and livestock protection programs in the developing countries. 1198

Boll weevil; Anthonomus grandis Boh.; abstracts of research publications, 1961-65. 1205

A new technique for the recovery of spider venom. 1259

Studies on California ants. 4. Two species of Camponotus (Hymenoptera: Formicidae). 1327

Contribution to the study of temperature and humidity factors on the duration of the embryonic development of the Collembola Hypogastruridae. 1486

Plant pathology in New Zealand. 1555

Seasonal dynamics of the invasion extensity of the nematode Syngamus trachea (Montagu, 1811) in breeding turkeys (Meleagris gallopavo f. domestica). 1728

Residues in food and feed. Pesticide residues in total diet samples (II). 1788

An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818

Studies on the biocidal activity of cyanomethyl xanthates. 1837

RESEARCH

Modified container for study of photoperiodism. 1857

A vacuum probe for manipulating insects. 1859

A technique for studying the feeding habits of the horn fly. 1860

An automated repellency-assay system. II. A new electronic bitometer-timer.. 1861

Standardized procedures adopted for cooperative Ohio Valley States alfalfa weevil research. 1920

Field and laboratory studies of attraction of the synthetic sex pheromone to male cabbage looper moths. 1986

A comparative study of communication in grasshoppers. 2023

Records of predators and parasites naturally prevalent in the Gujarat state. 2024

Competitive mating tests between normal and aspermic male house flies. 2035

The use of imaginal disks for the determination of the developmental stage of larvae of Chironomus (Dipt.). 2071

Problems in plant pathology and entomology field trials. 2109

Metabolic studies with O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate (dursban) insecticide in a lactating cow. 2296

Experimental Pasteurella multocida infection in chickens exposed to cold: Biochemical and bacteriological investigations. 2301

Studies on the tumours of the domestic animals. I. Lymphatic leucaemia of the swine. 2308

Studies on the tumours of the domestic animals. II. Tumours of the swine. 2309

An experimental study of the allergen-specific-enzymatic factor . II. Isolation trials of the allergen-specific enzymatic factor from the urine of rabbits. 2322

Studies on bovine tuberculosis. Effects of repeated tuberculations in infected cattle. 2326

Research on diseases of poultry. 2331

Pathologic responses of the mature and developing nervous system to bluetongue virus. 2336

Research and testing of preparations on rodents in the habitat of man. 2442

Preliminary study on the effect of gibberellic acid on fruit set in the Cherimoya. 2452

A portable instrumented tower for use in meteorologically related research. 2468

A new species of Colpocephalum (Hallophaga: Menoponidae) from the kea. 2517

Studies on the Byron Bog in southwestern Ontario XXXIII. Distribution of Dytiscidae and Hydrophilidae (Coleoptera) in the bog. 2592

Orientation and progress in the studies on the parasitism of entomophagous insects. 2610

The development of research on insect secretions. 2630

Problems in plant virus investigations. 2710

Studies of peanut stunt virus on Trifolium species, especially Trifolium repens L. 2722

Relations of disease resistance mechanisms to pathogen dynamics in oat crown rust epidemiology. 2723

Aerobiology of Monilinia (Sclerotinia) laxa (Aderh. and Ruhl.) honey on stone fruits, Prunus spp., in California. 2726

Insect transmission and pathogenicity studies of Ceratocystis fimbriata in stone fruits. 2812

Research and current directions in the field of the defense of cultivated plants against the attacks of arthropods. 2817

Developmental tendencies in Phytonematology. 2852

Sheep foot rot control. 2898

Studies on E. coli vaccines to protect pigs against postweaning coliform infections. 2921

Studies on the blood chemistry of cattle in a herd infected with Johne's disease. 2930

Bovine leukemia: A clinical, epidemiological and experimental study. 2931

The onogenic action of bovine papilloma virus in hampsters. 2960

Spreading characteristics of commercial hog cholera modified live virus vaccines in swine. I. In vivo studies. 2985

Tests of (2-chloroethyl)trimethylammonium chloride on varieties of hard wheat. 3050

Chemical control of the Gujhia weevil, Tanymecus indicus Faust. (Curculiondae: Coleoptera). 3082

Pheromones from the abdominal brushes of male noctuid Lepidoptera. 3154

Preparation techniques for Ichneumonidae, facilitating their systematic study. 3156

Spermatophores in arthrops and their evolution as far as insects are concerned. 3198

A study of free amino acids in rice moth larvae during mycotoxicosis. 3215

The contribution of Italy to research concerning the use of nuclear energy in insect control. 3246

Summary of chemical, physical, biological and medical research on pederin, extracted from the Coleoptera Paederus fuscipes Curt. 3260

Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the aid of Trichogramma embryophagum Hartig. 3276

Relative efficacy of different insecticides, as contact poisons, to the adults of singhara beetle, Galerucella birmanica Jacoby, (Coleoptera: Chrysomellidae). 3301

Electron-microscope studies of rickettsiella chironomi in the midge Camptochironomus tentans. 3309

Genetical investigations on a strain of house-flies resistant to organophosphorus and carbamates. 3325

On the problem of increase of injury in practical plant protection. 3345

A note on the natural incidence of sesamum phyllody virus in Brassica Spp. at Ludhiana. 3357

Actual state of research in progress on integrated pest control in the case of Coccidae in France. 3430

A large-scale experiment in the artificial biological control of the olive fly, Dacus oleae, by means of Opius concolor siculus in Sicily, Palermo, July-October 1966. 3444

Studies on weed control in potato by pre-emergence treatment with 2,4-dichlorophenoxyacetic acid. 3484

Fingerprinting disease. 3512

Studies on acute Marek's disease. VII. Airborne transmission of the GA isolate. 3533

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 3534

Skin tumors in New York deer. 3545

Efficiency of various diagnostic tests for mastitis. 3556

Research note: Cultivation of avian encephalomyelitis virus in chicken embryo kidney cell culture. 3565

Research note: Some observations on experimental avian encephalomyelitis. 3571

Isolation and characterization of the aetiologic agent of buffalo-pox. 3588

Hornflies tested in anaplasmosis vector study. 3610

Studies on the spring rise phenomenon in ovine helminthiasis I. Spring rise in stabled sheep. 3630

The determination of dimethoate residues in fruits and vegetables. 3653

Collaborative study of the ethyl acetate extraction, sweep co-distillation cleanup, and GLC determination, using six parent organophosphate pesticides. 3667

Collaborative study of three gas chromatographic dual detection systems for analysis of multiple chlorinated and organophosphorus pesticides. 3668

An attempt of biochemical and serological classification of 24 strains of the bacillus of the type B. thuringiensis. 3677

Collaborative study of infrared analysis of dicamba. 3724

The detection of imidazoles including histidine and some of its derivatives in biological fluids. 3726

The present state of research and of the control of rice pests. 3924

The present state of grape culture virus research. 3948

Studies on weed control in groundnut (Arachis hypoceae) - a review. 4082

Choice of resting site by Noctuidae (Lepidoptera). 4352

Opsius stactogalus Fieb. (Hem., Cicadellidae) in S. E. London. 4354

Predatory behaviour of a Dolichopodid and an Ephydrid (Dipt.). 4449

The occurrence of Theognis occidentalis in the Midwestern United States (Heteroptera: Coreidae). 4592

On the investigative methods of the sound characteristics of small cicadas (Homoptera-Cicadina). 4603

Preservative treatments and service life of fence posts in Puerto Rico. 4658

Red rot in residual ponderosa pine stands on the Navajo Indian Reservation. 4663

Needed: A miracle method for soil borne disease control. 4695

1967 field trials on control of coffee berry disease in Kenya. I.-V. 4698

Studies on the application of electrophoresis to the isolation of RNA infective fractions from tobacco plants infected with the potato virus X. I. Characterisation of RNA preparations from tobacco leaves, analysed by means of electrophoresis in coloured agar gels. 4710

Weed control studies in strawberries. 4779

Studies on enzyme synthesis of cerebroside sulphate from 3'-phosphoadenosine-5'-phosphosulphate. 4788

Studies of serum enzymes in swine infected by two strains of hog cholera virus. 4804

Our struggle against pests. II. 4872

Pesticides in hatchery trout---differences between species and residues levels occuring in commercial fish food. 4874

Residues in fish, wildlife, and estuaries. Insecticide concentrations in wildlife at Presidio, Texas. 4876

An evaluation of the effects of the Aedes aegypti eradication program on wildlife in South Florida. 4884

Search for new insecticides. 4893

A synopsis of the pesticide problem. 4899

Theory of disinfectant testing. 4941

How Ian Hendrif is steering Shell International into expanding pesticide markets. 4948

On the influence of effluent of the starch factory upon the Yubetsu River and the Shokotsu river, and of effluent of the best factory upon the benthic animals in the Abashiri River (Hokkaido). 4955

Our struggle against pests. 4960

The stimulation of 2,4-dinitrophenol-activated ATPASE by anions. 4976

X-ray analysis of hyphal and sclerotial walls of Sclerotium rolfsii Sacc. 5059

Proceedings of the Entomological Society of Ontario. 5158

The hemlock sawfly in southeast Alaska. 5353

Toxicological studies on cutworms. I. Laboratory studies on the toxicity of insecticides to the dark-sided cutworm. 5357

Karyological studies on the Indian spiders. VIII. Mitosis and meiosis in two species belonging to the family Gnaphosidae. 5478

Male genital disc defect in Drosophila melanogaster. 5683

Genetics of octanol dehydrogenase in Drosophila metzii. 5733

Regular segregation of seven asynaptic sex chromosomes in the male of Asphaera daniela Bechyne (Coleoptera, Alticidae). 5743

Comparative behavior of the oospores and oogonia of Phytophthora citricola during germination on an artificial medium. 5798

Virus enhancement with a growth product of Streptomyces scabies. I. Production and properties of scaben. 5810

Virus enhancement with a growth product of Streptomyces scabies. II. Increased release of coxsackievirus B5 from hEp-2 monolayers treated with scaben. 5811

Horticulture. 5825

Mycological investigations on field retting of fiber flax, species and distribution. 5932

Progress through research- blue mould of tobacco. 5960

Some experiments on the transmission of Cymbidium mosaic virus and Odontoglossum ringspot virus. 5970

Studies on host range of PVY - group viruses in leguminous plants in Japan, and the identification of them by the selected differential test plants. 5971

Research on sap infections. 6070

Investigations on certain virus diseases on pear tree in Bulgaria. 6112

Rhytidiella moriformis n. gen., sp. causing rough-bark of Populus balsamifera. 6140

Chemical control of codling moth with DDT and sevin, the resistance problem of codling moth to DDT and additional observations on the effect of fruit thinning of sevin. 6195

A contribution to the study of the zoocecidia of Snowdonia National Park and adjacent parts of North Wales. 6212

Host range studies of oat blue dwarf virus. 6274

Can we conquer the 'mighty' mites . 6293

Long distance dispersal of seeds by retention in digestive tract of birds. 6436

Animal science. 6442

Evolution of botulism. V. Evolution of pathogenic propertis of Cl. botulinum. 6505

More abstracts of papers presented at the 1967 Annual Wildlife Disease Conference Urbana, Illinois June 15-16, 1967. 6533

Contribution to the study of prophylaxis of bovine pneumonia in the Republic of Haute-Volta. 6551

Animal diseases and pests. 6818

A single-spore analysis of rust pustules produced by mixing isolates of two races of Puccinia coronata var. avenae. 7023

Influence of herbicides from s-triazine group on dynamics of some biochemical processes of oats in test experiments. Part II. Researches on action of propazine, prometrine, and prometone. 7248

Pesticide chemicals; a programmed text. TP248.P47C6. 7419

Fish and Wildlife Act of 1956 as amended; an excerpt from title 16 of the United States Code. 7420

Twenty-second annual conference report on cotton insect research and control, New Orleans. 1969. 7817

RESERPINE
- Neuroleptic substances and insect behavior-- VI. The influence of reserpine on the body weight of Tribolium confusum. 2633
- The effects of reserpine on the reproductive performance of breeder turkeys receiving artificial insemination. 4106

RESERVOIRS
- Investigation of effects of large-scale applications of 2,4-D on aquatic fauna and water quality. 4888
- Conditions of formation of water reservoirs-Breeding places of blood-sucking mosquitoes (Culicidae). 5200

Agricultural engineering.
7392

Agricultural economics and rural sociology.
7412

List of the type materials in the entomological collections of the Royal Institute of Natural Sciences of Belgium. Coleoptera 12-29-Helodidae, Dascillidae, Eucinetidae, Ptilodactylidae, Eurypogonidae, Honalisidae, Drilidae, Chaetosomatidae, Phloeophilidae, Trogositidae, Cleridae, Melyridae, Lymexylidae, Helotidhe, Biphyllidae, Phalacridae, Endomychidae, Mycetophagidae.
7447

Results of the Albanian 1961 Expedition of the German Entomological Institute. 60. Contribution. Review of the first evaluation period 1961 until 1965.
7462

A review of old world species of Thyreus Panzer (0Crocisa Jurine) (Hym., Apoidea, Anthophoridae). Part 4. Palearctic species.
7498

Contemporary Mallophaga literature.
7605

A review of hymenopterous parasites of citrus pest aphids of the world and biological control projects (Hym., Aphidiidae; Hom., Aphidoidea).
7842

Contemporary views on the immunological prophylaxis of helminthological diseases.
7949

RHABDITIS
Demodectic parasites in livestock.
2993

The resistance of Rhabditis sp. and Anguina tritici (Nematoda) to drying and action of low and superlow temperatures.
7847

RHABDOPHAGA
Morphology, anatomy and development of the gall of Rhabdophaga ramicola rubs. in Salix purpurea L.
5449

RHABDOPHAGA RAMICOLA
Biological observations on Rhabdophaga ramicola Rubs.
40

RHACOLETIS
Development of resistance to DDT by the apple maggot, Rhagoletis pomonella.
6214

RHADINAPHELENCHUS COCOPHILUS
Red ring disease of the coconut palm, inoculation studies and histopathology.
3455

Tropical nematology.
6305

RHADINOCERAEA REITTERI
A contribution to the bionomics and morphology of Rhadinoceraea reitteri Knw. with a description of the larva. (Hym., Tenthredinidae).
3801

RHAGOLETIS
Sympatric host race formation and speciation in frugivorous flies of the genus Rhagoletis (Diptera, Tephritidae).
7583

RHAGOLETIS CERASI
Are sick plants dangerous.
5943

RHAGOLETIS MENDAX
Comparative serology of a complex species group of food-plant specialists: The Rhagoletis pomonella complex (Diptera: Tephritidae).
7545

RHAGOLETIS POMONELLA
Essay on insecticidal treatments on the apple fruit fly, Rhagoletis pomonella (Walsh) in southwest Quebec.
6237

Comparative serology of a complex species group of food-plant specialists: The Rhagoletis pomonella complex (Diptera: Tephritidae).
7545

RHINOTRACHEITIS
The virus-caused respiratory diseases of the cat.
2906

RHIPICEPHALUS SANGUINEUS
Resistance capacity of ticks against starvation under laboratory conditions.
140

The value of ovipositional ability in tick taxonomy.
1301

On the significance of the duration of preoviposition and oviposition periods in ixodid ticks.
1440

RHIZINIA INFLATA
Fire as an agent in the establishment of a plant disease.
7785

RHIZOBIUM
DNA base composition and hybridization in the taxonomy of phytopathogenic bacteria.
2729

Localization of dehydrogenases in the nodular tissues of leguminous crops.
3060

The effects of increasing molybdenum rates on building of dry material of clover.
4322

RHIZOBIUM TRIFOLII
Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host.
2261

The effect of anti-fungal antibiotics on the nodulation of Trifolium subterraneum and the estimation of Rhizobium trifolii populations.
3061

RHIZOCTONIA
Interpreting plant disease dispersal gradients.
2746

Long-term preservation and pathogenicity of selected strains of Colletotrichum, Rhizoctonia, and Phytophthora. (Abstract).
2753

Stem and root diseases of beans.
3941

Tests on dry fumigation of potato seedlings against Rhizoctonia disease.
4023

Illustrative scales for the evaluation of potato scab and Rhizoctonia infection.
4024

Arsenal for disease control.
5864

Field and greenhouse studies on the effects of plant amendments on Rhizoctonia hypocotyl rot of snapbean.
6008

RHIZOCTONIA GOSSYPII
Fungus diseases of cotton seedlings in Egypt.
3972

RHIZOCTONIA SOLANI
Physiology of parasitism. 2. Biochemical changes in the Mung bean seedling infected with Rhizoctonia solani Kuehn.
954

A note on two isolates of Rhizoctonia solani Kuhn from wheat.
1560

Heritability of seeding disease characteristics in flax.
2162

Enzymic browning and free tyrosine in potatoes as affected by pentachloronitrobenzene.
2188

The effects of plant amendments and their associated microflora on Rhizoctonia solani Kuehn.
2451

Characteristics of in vitro protein synthesis systems from Rhizoctonia solani and Sclerotium bataticola.
2456

Effect on young sugar beet (Beta vulgaris L.) plants of Heterodera schachtii Schmidt 1871, alone, and in combination with Rhizoctonia solani Kuhn 1858.
2778

Some cultural studies on Rhizoctonia solani the causal organism of sheath blight of paddy.
3382

Changes in fungi with age. iv. Role of coenzymes in the respiratory decreases in Rhizoctonia solani and Sclerotium bataticola.
4669

New fungicide promises effective and economical plant disease control.
4682

Hot-water treatment of seed as a method for decreasing the incidence of certain cotton and flax seedling diseases.
5857

Physiological studies on Phoma betae Frank and Rhizoctonia solani(Prill and Delacr.) Bourd and Galz which cause damping-off and root diseases of sugar beet in Egypt.
5867

Fungicides and turf disease control - 1964.
5883

The occurrence of some previously unreported diseases of potatoes in Mexico.
5910

Interactions of Oospora pustulans, Rhizoctonia solani and Heterodera rostochiensis on the potato.
5917

Effects of fungicide drenches on established poinsettia plants.
7267

The influence of soil conditions on development of Rhizoctonia solani, Kuhn, on tobacco.
7783

The effects of some soil-borne fungi on the sex ratio of Heterodera rostochiensis on tomato.
7786

RHIZOMES
The stripe smut problem in Merion Bluegrass.
5965

RHIZOPUS
New controls for peach fungus diseases.
1589

Botran used as an orchard spray vs. Botran in the hydrocooler and control of post-harvest decay of peaches.
5904

Mycotoxicosis associated with hemorrhagic enterocolitis and abortion in swine. 7869

RHIZOPUS NIGRICANS
Control of post-harvest decay and the influence of postharvest treatments on decay in clingstone-peaches. 233

RHIZOPUS STOLONIFER
Mechanism of resistance of carrot roots to Pythium aphanidermatum (Eds.) Fitz. 2126

RHIZOSPHERE
Investigations on disease complex of rice in West Bengal (India). I. Study of rhizosphere microflora of the affected plants. 967

Plant treatment in relation to the rhizosphere effect. II. Foliar applications of certain chemicals and antibiotics in relation to the rhizosphere microflora of rice (Oryza sativa L.). 2458

Microorganisms in the rhizosphere of wheat. 3371

Effect of foliar spray of hormones on the rhizosphere mycoflora of leguminous weeds. 3711

Nematodes associated with bananas in the Windward Islands. 4048

Rhizosphere root exudates and their effect on microbial activity. 4662

Competitive saprophytic ability and inoculum potential of cotton root-infecting fungi in five soils. 6062

Accustoming of fungi-antagonists to cotton rhizosphere and their effects on cotton productivity and disease with verticillium wilt. 7247

RHODNIUS
Studies on wild reservoirs and vectors of Trypanosoma cruzi. XXVIII. on the presence of Triatoma sordida Stal., 1859 and Rhodnius neglectus Lent, 1954 in nests of Furnariid birds (Hemiptera, Reduviidae). 2885

RHODNIUS PROLIXUS
The effects of injected aminopterin on egg production in Rhodnius prolixus. 861

Electron microscope studies on the life cycle of Trypanosoma cruzi. With special consideration on the developmental forms in the vector, Rhodnius prolixus. 1365

Chemical structure and juvenile hormone activity: Comparative tests on Rhodnius prolixus. 3313

Experimental Trypanosoma cruzi infection in beagle puppies. The effect of variations in the dose and source of infecting trypanosomes and the route of inoculation on the course of the infection. 3566

Study of the morphogenesis of the maxillary stylet of Rhodnius prolixus by transplantations of incomplete stylogenetic organs. 3862

Histochemical data on the neurosecretory allata terminations in Antheraea pernyi Guer. (Lepidoptera, Attacidae) and in Rhodnius prolixus Stal. (Hemiptera, Reduviidae). 4469

Study of variations in neurosecretion at the level of the brain and the sub-esophageal ganglion in the female imagos of Rhodnius prolixus (Stal) Hemiptera. 5202

Histophysiological studies on neurosecretion in the ventral nervous system of Rhodnius prolixus Stal (Hemiptera) during the imago stage. 5213

Mechanical transmission of Trypanosoma lewisi (Kinetoplastida: Trypanosomidae) by Rhodnius prolixus (Hemiptera: Reduviidae). 5261

The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. Ii Muscle structure at molting. 5648

The fine structure of the ventral intersegmental abdominal muscles of the insect Rhodnius prolixus during the molting cycle. II. Muscle changes in preparation for molting. 5649

Survival of western equine encephalitis virus in Triatominae. 5761

RHODUS ORIUNDUS
Cynipinae (Hymenoptera) occurring on Phlomis L. 5128

RHOPALOCERA
Entomological tour of Spain. 653

Phylogenetic relationships within the Rhopalocera on the basis of the functional morphology of the genital apparatus. 3878

RHOPALOSIPHUM FITCHII
Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba. 2646

RHOPALOSIPHUM MAIDIS
A model of the plant-to-plant movement of aphids. I. Description of the model. 153

A model of the plant-to-plant movement of aphids. II. Estimation of parameters and the application. 5602

Performance of sweetcorn under natural epiphytotic of maize dwarf mosaic virus. 7812

RHOPALOSIPHUM PADI
Observations on Rhopalosiphum padi and R. fitchii (Homoptera: Aphididae) in Manitoba. 2646

Insecticide granules and virus in autumn-sown wheat. 4041

The effect of the barley yellow dwarf virus disease on barley and oats in the Western Cape. 7816

RHYACIA AUGUR
Rhyacia augur F. and other climbing cutworms (Lepidoptera). 2215

RHYACIONIA
An accurate and safe hand-operated, vehicle-mounted applicator for granular insecticides in seed orchards. 2469

RHYACIONIA BUOLIANA
Comparison of the effectiveness of two pupal parasites in finding a host. 757

Easy recognition of mated females of the European pine shoot moth. 3180

European pine shoot moth. 5663

RHYNCHOPHORA
Chemical control of the Gujhia weevil, Tanymecus indicus Faust. (Curculiondae: Coleoptera). 3082

RHYNCHOSCIARA
Osmotic pressure of hemolymph of Rhynchosciara angelae Nonato and Pavan, 1951 (Diptera, Mycetophilidae). 3293

A new culture method for Rhynchosciara. 4563

Patterns of ribonucleic acid synthesis in salivary glands of Rhynchosciara angelae larvae during development. 7723

RHYNCHOSPORIUM
Rhynchosporium leaf blotch of barley. 2745

RHYPAROCHROMINAE
The biology and ecology of the Rhyparochrominae of New England (Heteroptera: Lygaeidae). I. 50

The world Rhyparochrominae (Hemiptera: Lygaeidae). IV. On some Rhyparochrominae types in the Museum National d'Histoire Naturelle, Paris. 7539

RHYSSA PERSUASORIA
Studies on the biology of Rhyssa persuasoria (L.) (Hymenoptera: Ichneumonidae) incorporating an X-ray technique. 3219

RHYTIDIELLA MORIFORMIS
Rhytidiella moriformis n. gen., sp. causing rough-bark of Populus balsamifera. 6140

RHYZOPERTHA DOMINICA
Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230

RIBONUCLEASE
Degradation of alfalfa mosaic virus by pancreatic ribonuclease. 1553

The biosynthesis of tobacco mosaic virus RNA: Relationships to the biosynthesis of virus-specific ribonuclease-resistant RNA. 1595

RIBONUCLEIC ACID
Effect of ecdysone on the puparium formation in irradiated Ephestia kuhniella Z. 532

The outer layer of the cell envelope of Halobacterium halobium. 564

The significance of Puffing in the giant chromosomes of Diptera. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff. 921

Degradation of alfalfa mosaic virus by pancreatic ribonuclease. 1553

In vivo removal of protein from tobacco mosaic virus after inoculation of tobacco leaves. II. Some characteristics of the reaction. 1584

Experimental salmonellosis. XI. Induction of cellular immunity and formation of antibody by transfer agent of mouse mononuclear phagocytes. 1691

Changes in enzymatic activities in etiolated bean seedling leaves after a brief illumination. 1815

Ribonucleic acid synthesis and glutamate excretion in Escherichia coli. 1833

Observations on the histo-morphology of the labial glands in Neodiprion sertifer Geoffroy (Hymenoptera Diprionidae). 1961

Aspects of RNA and protein synthesis in imaginal discs of Drosophila melanogaster. 2078

The coat protein gene of tobacco mosaic virus. I. Location of the gene by mixed infection. 2142

Pyrimidine hydrates and dimers in ultraviolet-irradiated tobacco mosaic virus ribonucleic acid. 2178

Purification and properties of broad bean wilt virus. 2189

Biochemistry of friend virus-infected cells. I. Virionspecific RNA.
2292

Changes in the metabolism of nucleic acids in the ovaries of the house fly, Musca domestica, after application of chemosterilants.
2645

RNA isolated from polyhedra of a nuclear polyhedrosis of the silkworm.
3218

Lampbrush Y chromosomes in the course of spermatogenesis of Drosophila. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff.
3324

The infectivity of tobacco mosaic virus RNA in coat proteins from spherical viruses.
3421

Virus involvement in the avian heart: Effect on protein synthesis.
3591

Isolation and characterization of ribonucleic acid from Musca domestica (L.).
3798

Control of metabolism in the silkworm pupal ovary by the diapause hormone.
4508

Cytoplasmic particles carrying rapidly labeled RNA in developing insect epidermis.
4523

The action of formamide on turnip yellow mosaic virus: Obtaining artificial capsids.
4686

The action of urea on turnip yellow mosaic virus. The properties of RNA obtained at the time of artificial capsid formation.
4701

Studies on the application of electrophoresis to the isolation of RNA infective fractions from tobacco plants infected with the potato virus X. I. Characterisation of RNA preparations from tobacco leaves, analysed by means of electrophoresis in coloured agar gels.
4710

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors.
4907

Ribonucleic acids in crown-gall bacteria, Agrobacterium tumefaciens (Smith and Town), treated with sodium borate.
4911

Some biochemical changes taking place in the course of the transformation of streptomycin resistance in streptococci.
4932

Effects of temperature on Drosophila--V. Weight and water, protein and RNA content.
5247

D-Amino acids in animals.
5271

Cytodifferentiation during insect metamorphosis: The galea of silkmoths.
5399

Action of proteinic brain hormone to the prothoracic gland in an insect, Bombyx mori L. (Lepidoptera: Bombycidae).
5412

Inhibition of DNA-DEPENDENT RNA polymerase by the exotoxin of Bacillus thuringiensis var. gelechiae.
5597

Mutants at the bobbed locus in Drosophila melanogaster: Relation to ribosomal RNA synthesis .
5706

Unusual filamentous structures in the paragonia of male Drosophila.
5742

Purification of potato virus X and preparation of infectious ribonucleic acid by degradation with lithium chloride.
5930

Cell-free synthesis of tobacco mosaic virus coat protein and its combination with ribonucleic acid to yield tobacco mosaic virus.
6073

Assembly of protein and nucleoprotein particles from extracted tobacco rattle virus protein and RNA.
6074

Purification, bioassy, properties, and serology of rice viruses.
6102

Sequence of RNA synthesis in chick fibroblasts infected with Sendai virus.
6503

Characterization of a cytoplasmic fraction from Sindbis virus-infected cultures.
6553

Properties of the in vitro soluble RNA methylase activity of hamster tumors induced by adenovirus-12.
6713

Catabolite repression in Escherichia coli. A study of tow hypotheses.
6732

Effects of aflatoxin B1 on polysomal profiles and RNA synthesis in rat liver.
6793

Biochemical and biophysical characteristics of vesicular exanthema virus and the viral ribonucleic acid.
6864

Study of the transfer of amino acids from aminoacyl transfer ribonucleic acid into protein by ribosomes from uredospores of the bean rust fungus.
6879

Effect of DDT and dieldrin on RNA and protein synthesis in subcellular fractions of HeLa S cells.
7097

Enhancement by 2,4-dichlorophenoxyacetic acid of chromatin RNA polymerase in soybean hypocotyl tissue.
7278

RNA and protein synthesis in puffs isolated from salivary gland chromosomes of Chironomus.
7641

Effect of 6-azauridine on the development of the ovaries in the house fly Musca domestica L. (Diptera).
7687

Patterns of ribonucleic acid synthesis in salivary glands of Rhynchosciara angelae larvae during development.
7723

Equilibrium variations in the redundancy of DNA in Drosophila melanogaster.
7750

Self-construction of RNA extracts of three different viruses and of the protein sub-units of the lucerne (alfalfa) mosaic virus,.
7791

Exposure of ribonucleic acid at both ends of tobacco mosaic virus by extensive protein stripping.
7811

Ribonucleic acids synthesized in Venezuelan Equine Encephalitis-infected cells.
7925

Pyrimidine dimer formation in ultraviolet irradiated TMV-RNA.
7992

Prevention of photoreactivation of tobacco mosaic virus--ribonucleic acid by reconstitution.
7996

RIBOSOMES

Cytology of the sporangium of Phytophthora capsici.
2194

Characteristics of in vitro protein synthesis systems from Rhizoctonia solani and Sclerotium bataticola.
2456

Chloroplast ribosomes: Stereospecificity of inhibition by chloramphenicol.
3049

Cold-sensitive mutations in Salmonella typhimurium which affect ribosome synthesis.
4844

Mutants at the bobbed locus in Drosophila melanogaster: Relation to ribosomal RNA synthesis .
5706

Metabolic activity of pea root ribosomes under conditions of boron deficiency.
5877

Study of the transfer of amino acids from aminoacyl transfer ribonucleic acid into protein by ribosomes from uredospores of the bean rust fungus.
6879

Some aspects of the bobbed problem in Drosophila.
7725

Amplification of ribosomal cistrons in the heterochromatin of Acheta.
7740

Equilibrium variations in the redundancy of DNA in Drosophila melanogaster.
7750

RICE

Hybrids of Nephotettix impicticeps Ish. and N. apicalis (Motsch.) and their ability to transmit the tungro virus to rice.
119

Application of insecticides to paddy water for more effective rice pest control.
205

Inhibition by blasticidin S of the ability of leafhoppers to transmit rice stripe virus.
279

Effect of several growth regulators and temperature treatment to rice seed on the germination and initial growth of seedling.
529

Effect of nitrogen, silicon and their interaction on the agronomic characters in paddy rice.
533

Studies on the mechanism of injurious effects of toxic gases on crop plants. I. Relation between the concentration of sulfur dioxide and the degree of leaf injuries in several crops.
541

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 3. Subfamilies Ophioninae, Cremastinae and Ichneumoninae.
668

A key to ichneumonid parasites of rice stem borers in Asia (Hymenoptera: Ichneumonidae).
669

Notes on Sciomyzidae collected in paddy field (Diptera), I.
727

The structure of the damage done by Chilo suppressalis in the first outbreak area. I. Relation of boring stage to growth of larvae and amount of rice plants damaged. Transl. 16860.
791

The mosquito problem in Colusa County, California.
908

New directions in mosquito control.
933

Investigations on disease complex of rice in West Bengal (India). I. Study of rhizosphere microflora of the affected plants.
967

Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants.
978

The contribution of insect control to high yields of rice.
993

Mass rearing technique of rice gall midge (Pachydiplosis oryzae Wood-Mason) and notes on its biology.
2002

1968 U.S. rice production statistics.
2099

A rice seed farm in Central America.
2107

RICE

Epidemiology and prevention of bacterial blight disease of rice in India. 2183

The effect of drainage on physiological disorders of rice grown on the sub-coastal plains of the Adelaide River, N.T. 2184

Influence of moisture content, temperature, and time of storage upon invasion of rough rice by storage fungi. 2380

A new simple method for protecting rice against rice weevil (Sitophilus oryzae). 2384

Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice. 2445

Plant treatment in relation to the rhizosphere effect. II. Foliar applications of certain chemicals and antibiotics in relation to the rhizosphere microflora of rice (Oryza sativa L.). 2458

A preliminary study on the variability of Xanthomonas oryzae on some rice varieties. 2730

Chemical weed control experiments DPA in rice. 2873

Mechanical means for weed control in rice fields. 3075

A study of free amino acids in rice moth larvae during mycotoxicosis. 3215

Some cultural studies on Rhizoctonia solani the causal organism of sheath blight of paddy. 3382

The present status of rice pest research and control. 3446

Study on attractant of the rice stem borer, Chilo suppressalis Walker. 3835

The present state of research and of the control of rice pests. 3924

Occurrence of Ephelis on rice variety IR-8 and cotton grass in India. 4020

Bloodworms--pests of rice. 4037

Further research on the control of Echinochloa in rice fields. 4060

New herbicides for controlling weeds in upland rice. 4076

2,4-dichlorophenyl p-nitrophenyl ether. Notice of extension of temporary tolerances. 4296

Ichneumonidae (Hymenoptera) collected in paddy fields of the Orient, with descriptions of new species. Part 2. Subfamilies Porizontinae, Metopiinae and Diplazontinae. 4412

Identification of the braconid parasites of rice borers (Hymenoptera: Braconidae). 4440

Plant growth promoting metabolites of Sclerotinia sclerotiorum (II) The synthesis of sclerotinin B. 4673

Host range of Xanthomonas oryzae in the Philippines. 4689

Studies on Phyllosticta blight of rice. 4703

Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control. 4722

Effect of gibberellic acid on the fruit-set, and partheno-carpic development of fruit in Bhokri grapes. (Vitis vinifera L). 4919

Ag firm concentrates on waterless spraying. 4943

Effect of natural parasitization on the population of paddy gallfly, Pachydiplosis oryzae Mani. 5546

The present status of rice pest research and control. A literature review. 5827

The present status of virus diseases of rice in Ceylon. 5858

Hoja blanca disease of rice. 5938

Identification of races of Piricularia oryzae in Colombia. 5939

Transmission of hoja blanca virus of rice. 5940

Dwarf, yellow dwarf, stripe, and black-streaked dwarf diseases of rice. 5968

The virus diseases of the rice plant. Proceedings of a symposium at the International Rice Research Institute, April, 1967. 5973

Tropical crop losses with special reference to rice. 5978

Varietal resistance to hoja blanca. 5990

Rice stripe disease in Korea. 5992

Testing rice varieties for resistance to tungro disease. 5997

Transmission of rice viruses in Southeast Asia. 5998

Khaira disease of rice and its control. 6028

Report of the Committee on Nomeclature of Rice Virus Diseases. 6031

Virus diseases of rice in Southeast Asia. 6032

Relationship of iron, manganese, and bicarbonate to chlorosis of rice grown in calcareous soil. 6039

Virus disease that resembles Tungro. 6048

Varietal resistance to stripe, dwarf, yellow dwarf, and black-streaked dwarf. 6064

Electron microscopic studies of rice viruses. 6077

Penyakit merah disease, a virus infection of rice in Malaysia. 6085

Screening rice varieties for resistance to bacterial blight. 6093

Transitory yellowing of rice in Taiwan. 6097

Pyricularia oryzae. 6098

Purification, bioassy, properties, and serology of rice viruses. 6102

Some rice diseases suspected to be of virus origin in South Viet Nam. 6110

Genetics of and breeding for resistance to rice virus diseases. 6111

Concluding remarks on the virus diseases of the rice plant. 6122

Virus diseases of rice in Thailand. 6125

Effect of virus on the rice plant. 6137

The water weevil problem. 6146

Leafhopper transmission of transitory yellowing of rice. 6167

Studies on a biological and a chemical method of controlling the dark rice field mosquito in Louisiana. (abstracts). 6168

Bloodworms- pests of rice. 6200

Ecology of insect vectors, forecasting, and chemical control. 6205

Effect of rice-pathogenic viruses on their insect vectors. 6216

Vectors of rice viruses in Asia. 6228

The problem of leaf hoppers on paddy. 6252

Review of work on major insect pests of rice in Malaysia. Part I. Malayan region. 6281

Tropical nematology. 6305

Properties and effects of WL-9385-D on rice and some weed species. 6332

Broadleaf weed control in rice. 6370

Alligatorweed found in Arkansas. 6384

Chemical weed control in high yielding rice varieties. 6393

Studies on the weed control in the paddy field. I. On the herbicidal weed control in wet and dry nurseries. II. On the herbicidal weed control at the early stage of rice plants in the paddy field. 6401

The biology and control of the rice field mole rat of Ceylon, Gonomys cracilis (Nehring). 6405

Studies on stored grain fungi. Part I.--Fungi from wheat and rice from Karachi. 7026

Fumigate stored rice to reduce loss to insects. 7030

Saving stored rice from attacks of insect pests. 7037

Reduction in aflatoxin contamination of rice by milling procedures. 7200

The metabolism of 3,4-dichloropropionanilide in plants. Partial purification and properties of an aryl acylamidase from rice. 7246

Interaction of CCC and Coumarin or IAA on seedling growth of rice. 7274

Mutagenic effects of ethyl methanesulfonate on rice seeds. 7807

Mechanical control of lodging in rice and extent of reduction in yield due to topping. 7814

Dosage studies with low volume applications of dursban insecticide. 833

Bioassay determination of aircraft swaths and rice canopy penetration by low volume insecticidal sprays at Colusa, California. 912

The effect of low volume application of DURSBAN on non-target organisms. 1152

Entomological evaluation within the Colusa project. 763

Residues of Dursban insecticide following mosquito control applications. 1153

Laboratory tests of five new insecticides as protectants for stored rough rice. (abstract). 7031

RICKETS
Optimum destruction of rachitogenic activity of C-I protein. (Abstract). 4247

RICKETTSIA
Eradication efforts against tropical bont tick, Amblyomma variegatum in the Virgin Islands. 2354
Study of several physiological and biological characteristics in the third instar of Melolontha melolontha L. larvae which have been contaminated by two pathologic agents. 2584
Ixodes ricinus borne parasites of cattle in the Netherlands. 6210
Adaptation,culturing of R. sibirica in rabbit lice and preparation of a combined antigen for diagnosis of infection. 6783

RICKETTSIA BURNETI
Infection of some species of Gamasidae with R. burneti in the natural Q-fever foci. 6910

RICKETTSIA CONJUNCTIVAE-BOVIS
Investigations concerning the ecology and control of the face fly, Musca autumnalis de Geer. 1125

RICKETTSIA PROWAZEKI
Ultrastructure of homogeneous bodies and cellular bodies during the course of rickettsial infections. 4813

RICKETTSIA-LIKE ORGANISMS
The occurence of a rickettsialike organism in a noctuid. 3236

RICKETTSIAL DISEASES
Electron microscopic study of the intracellular rickettsia pathogenesis using Melolontha melolontha L. 169
The distribution of the Q fever agent in dairy cattle. 1683
Serological survey on the Rickettsioses in dromedary in Chad. 2319
Eperythrozoon tuomii, sp. n. (Rickettsiales) third species of Eperythrozoon in cattle in Malagasy Republic. 2347
The occurence of a rickettsialike organism in a noctuid. 3236
Electron-microscope studies of rickettsiella chironomi in the midge Camptochironomus tentans. 3309
Ultrastructure of homogeneous bodies and cellular bodies during the course of rickettsial infections. 4813

RICKETTSIELLA
Some remarks on the Hydrophilia disease of the larvae of Melolontha melolontha C.(Col. Scarabaeidae). 105

RIFT VALLEY FEVER
The immunity induced in cattle and sheep by inoculation of neurotropic or pantropic Rift Valley fever viruses. 6523
Experimental infection of cattle with pantropic Rift Valley fever virus. 6524

RINDERPEST
Rinderpest protection in cattle by measles virus. Application in calves with passive immunity from maternal antibodies. 6779
Studies on the epizootiology of rinderpest in blue wildebeest and other game species of northern Tanzania and southern Kenya, 1965-7. 6840
Diagnosis of rinderpest. 7915

RINDERPEST VIRUS
Application of the kinctic seroneutralization test to the research of Rinderpest neutralizing antibodies in cattle sheep and goat. 2282
Presence of antibodies against Rinderpest in dromedary in Chad. 2318
Protection against Rinderpest conferred to cattle by an inactivated virus adapted to cattle cells. 4835
Susceptibility of European Zebu crossbred cattle to lapinsed rinderpest vaccine. 6484
Biological assay of virus contents of tissues of rabbits infected with lapinised rinderpest virus. 6485
Duration of rinderpest virus excretion in cattle immunized with an inactivated vaccine. 6496
Investigations on the incidence of rinderpest virus infection in game animals of n. Tanganyika and s. Kenya 1960/63. 6769
Diagnosis of rinderpest. 7915

RING MOSAIC
Investigations on certain virus diseases on pear tree in Bulgaria. 6112

RING SPOT
The healthy juice effect in virus transmission. 961
Possibilities for inter- and intracellular translocation of some icosahedral plant viruses. 969
Line pattern disease of raspberry. 2118
Investigations concerning ringspot virus disease of the cherry. III. Serological investigations. 2168
Distribution of cucurbit viruses in Kansas. 2171
Electron microscopic observations on the causal agent of the Brazilian tomato ring spot disease. 2175
Transmission of viruses by Longidorus elongatus. 3463
Supplement to the Plant Protection bulletin. 3923
Investigations on hydrangea ring spot virus and proof of its presence in Italy. 3942
Inter-species and inter-genera crosses in Caricaceas and their phytotechnical implications. 4696
Inoculation of Carica papaya L. with the ringspot distortion virus under various conditions. 4733
Some experiments on the transmission of Cymbidium mosaic virus and Odontoglossum ringspot virus. 5970
Testing cherry rootstocks for resistance to infection by raspberry ringspot and cherry leaf roll viruses. 7774
The influence of tobacco ring spot virus and tobacco mosaic virus on the growth of Meloidogyne javanica. 7844

RING TEST
Mechanism of the ring forming in the ABR test. 2274
Study on the immunogenicity of cocoa beans. 7024

RINGWORM
Studies on the curative effect of Cassia tora seeds against ringworm in cattle. 1670
Treatment of Microsporum canis ringworm in a cat colony. 1735
Sodium silicofluoride from a local florosil preparation in the treatment of cattle tricophytia. 3562
Latent skin fungus infections in animals and their importance for the epidemiology of animal and human dermatomycoses. 4119
Ringworm due to Trichophyton mentagrophytes in a dog. 6529
Trichophytosis prophylaxis by feeding. 6770

RIODINIDAE
Contribution to the fauna of the Congo (Brazzaville). Mission A. Villiers and A. Descarpentries. LXXVIII. Lepidoptera: Nymphalidae, Danaidae and Riodinidae. 5034

RNA VIRUSES
Reaction of nitrosoguanidine (N-methyl-N'-nitro-N-nitrosoguanidine) with tobacco mosaic virus and its RNA. 6081

RODENT CONTROL
Pests are endangering our cultivated plants. 211
Rat poison and insecticide. 329
Research and testing of preparations on rodents in the habitat of man. 2442
Epizootics of trichinosis in pigs and its relation with anti-rat procedures using warfarin. 4227
Public health pesticides. 5764
1969 fruit spraying calendar, for commercial fruit growers. 5804
Rodent pests and their control. 6402
Practical organization of field mice control. 6403
The muskrat in Loire-Atlantique. 6410
Anticoagulant resistance in Europe. 7040
Thieves in the poultry house. 7041

RODENTICIDES
Rat poison and insecticide. 329
Specifications for pesticides used in Public Health. 1192
Research and testing of preparations on rodents in the habitat of man. 2442
Economic poisons, Warning, caution, and antidote statements on labels. 3669
Labeling claims involving use of term germ proof and related terms in labeling of economic poisons. Proposed interpretation under Federal Insecticide, Fungicide, and Rodenticide Act. 3736
Regulations for the enforcement of the federal insecticide, fungicide, and rodenticide act. Pesticides containing phosphorus paste. 3737
Public health pesticides. 5764
Plant insect and disease control in Peru. 6061
Rodent pests and their control. 6402

Practical organization of field mice control. 6403

Anticoagulant resistance. (Part 2). 6640

Tolerance status of some rats to an anticoagulant rat poison. 7038

Anticoagulant resistance in Europe. 7040

Thieves in the poultry house. 7041

Control of rodents. 7043

Note on the evaluation of the efficacy of rodenticides. 7044

Aversion to strychnine sulfate by Norway rats, roof rats, and pocket gophers. (abstract). 7171

The effect of sex and age on the response to warfarin in a non-inbred strain of mice. 7198

Pest control's 1969 directory of pesticides. 7403

RODENTS

Studies on some silvatic reservoirs and vectors of Trypanosoma cruzi. XXI: observations on the ecology of Panstrongylus geniculatus (Latreille 1811) (Hemiptera Reduviidae). 9

Staining technique to differentiate insect fragments, bird feathers, and rodent hairs from plant tissue. 453

Peromyscopsylla hamifer hamifer (Rothschild): An addition to the entomological fauna of New York State. 1214

Parasitic and ecological study of the small mammals (insectivores and rodents) of the Allondon valley (Geneva). 1643

Diseases transmitted by rats and other rodents. 1652

Sofar unnoticed damage to fruit trees, brought about by field mice. 2263

Research and testing of preparations on rodents in the habitat of man. 2442

An explanation of the oscillatory free-runs in circadian rhythms. 2631

Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692

Lasting interruptions in epizootic activity of natural plague foci and their possible causes. 2925

Host-parasite relationships in Brucellosis. I. Reservoirs of infection and interhost transmissibility of the parasite. 2941

Organization and methods of censusing birds and harmful rodents. 3499

Rodents. In: Diseases of man acquired from his pets. 3516

Zoonosis with special reference to the diseases transmitted from dogs and cats. 3521

Controlling household pests. 3790

The insect fauna in the burrows of the long-clawed mole-vole, a Caucasian endemic species. 3845

The present state of research and of the control of rice pests. 3924

On the value of our birds. 3927

Damages done to beet seeds by the forest mouse (Apodemus sylvaticus). 4092

Certain host-parasite relationships between rodents (Muridae) and fleas (Aphaniptera). 5393

Unique problems in insect and pest control of NASA's Mississippi Test Facility. 5755

The present status of rice pest research and control. A literature review. 5827

Insect pests of palm trees. 6230

Rodent pests and their control. 6402

Practical organization of field mice control. 6403

The biology and control of the rice field mole rat of Ceylon, Gonomys cracilis (Nehring). 6405

Effect of range treatment with 2,4-D on rodent population. 6408

On the effect of Sevin on sexual functions of warm-blooded animals. 6439

Results of microbiological examination of reservoir animals in the west Slovakia region for tularemia. 6701

Thorny-headed worm infection in North American prehistoric man. 6974

Control of rodents. 7043

The murids in the vicinity of Lake Kivu and neighboring regions (Central Africa) and their ecology. 7045

Aversion to strychnine sulfate by Norway rats, roof rats, and pocket gophers. (abstract). 7171

RODOLIA FUMIDA

Bionomics of Drosicha mangiferae (Green) on citrus including new record of its three natural enemies. 6246

ROE

The effect of malachite green as a fungicide. 1050

ROGAS

New reared neotropical species of Rogas Nees (Hymenoptera: Braconidae). 671

ROMALEA MICROPTERA

Defensive mechanisms of arthropods, XXIII. An allenic sesquiterpenoid from the grasshopper Romalea microptera. 2609

RONCUS

The external morphology and life history of the pseudoscorpion Roncus lubricus. 3203

RONIDAZOLE

Therapeutic efficacy of ronidazole in water against histomoniasis and effect of continuous feed levels on growth in turkeys. (Abstract). 4245

RONNEL

Cockroach insecticides--how repellent are they . 1780

Notice of filing of petition regarding pesticide chemicals. 2414

Flies and other insects in poultry houses. 3612

Studies in pesticide residues. 3. Ronnel residues in the perirenal and omental fat of cattle following dermal application. 3662

Notice of filing of petition for food additive ronnel. 4096

How to control bed bugs. 5185

Trolene toxicity for bed bugs. 7165

Collection and analysis of synthetic organic pesticides from surface and ground water. 7957

ROOT CROPS

Notice of filing of petition regarding pesticide chemicals. 2391

Distribution, importance and problems of herbicide use in Yugoslavia. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966. 4083

Chemical weed control in tropical root crops. 6352

ROOT DISEASE

Microorganisms in the rhizosphere of wheat. 3371

ROOT HAIRS

Nodulation of Medicago sativa in solution culture. III. Effects of nitrate on root hairs and infection. 2157

Glasshouse symphylids. 3443

Rhizosphere root exudates and their effect on microbial activity. 4662

ROOT KNOT

Relative efficacy of different oil-cakes on the incidence. of root-knot nematodes. 298

Atkinson, a rootknot and Fusarium wilt resistant tomato variety of the Rutgers class. 1545

North Carolina initiates nematode advisory service. 1849

Reduction of root knot of tomatoes in dextrose- and ammonium nitrate-amended soil infested with the nematophagous fungus Arthrobotrys oligospora. 2844

Enzyme studies in nematode infected root-knots of the tomato plant. 7257

ROOT KNOT NEMATODE

Additions to host records of root knot nematodes. 2840

Survey, identification and host-parasite relationships of root-knot nematodes occurring in some parts of the Philippines. 7850

ROOT ROT

Reduction in mortality of peach trees following preplant soil fumigation. 2103

Phytophthora cinnamomi Rands on conifers in New South Wales. 2121

Annosus root-rot in slash pine plantations four years after thinning and stump treatments. 2138

Influence of soil water and temperature on the pea root rot complex caused by Pythium ultimum and Fusarium solani f. sp. pisi. 2146

An approach to the study of the population dynamics of Aphanomyces euteiches in soil. 2155

Phytophthora crown and root rot of hops in California. 2181

The effect of drainage on physiological disorders of rice grown on the sub-coastal plains of the Adelaide River, N.T. 2184

Chickpea, a new host of Fusarium solani f. sp. pisi. 2757

Plain 1 and plains 2; new broomcorn varieties resistant to anthracnose stalk rot.
3378

Pythium root rot of wheat in Queensland soil.
3383

On the possibilities of insects as the carriers of root-rot fungus (Fomes annosus (Fr.) Cooke).
3445

Hybrid corn yield reduction by stalk and root rot in Nebraska.
4027

Influence of soil temperature on the development of pea root rot.
5872

Spread of Fomes annosus root rot in thinned shortleadf pine plantations.
5873

A study of factors influencing the genetics of reaction of barley to root rot caused by Helminthosporium sativum.
5896

Relationships of the clover root curculio, Fusarium wilt, and bacterial wilt in alfalfa.
5961

Fusariosis of the legume crops in Lithuania. 3. Main forms of lupine fusariosis and its distribution.
6065

Corn lodging. I. Relations between soluble solids, inorganic phosphates and basal stalk and root rots in mature plants.
6066

Retention and transformation of anhydrous ammonia in soil and effects on foot rot Fusaria.
6088

Some aspects of Fusarium infection of wheat seeds.
6107

Phytophthora cinnamomi Rands on conifers in New South Wales.
7770

Root rot of young maize plants--the casual fungi.
7777

Fungal root rots, leaf spots and boll rot of cotton in the Ord valley, north Western Australia.
7780

ROOT-KNOT NEMATODE

Chemical soil treatment for nematode control in tobacco.
6307

ROOTS

Container growing. Chapter 22: Insects and diseases.
206

Coralloid root systems in plants showing lime induced chlorosis.
234

Decay of rubber wood in a replanting and its effect on root disease.
245

Eelworms in tea: Some problems.
295

Short-term growth response to growth regulators in roots of Zea mays.
515

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season.
949

Damage to field corn by Symphylans.
997

Pratylenchus thornei - A cause of root necrosis in wheat.
1021

The effects of 1-naphthylacetic acid on the growth of excised tomato roots.
1176

Investigations of effects and effect mechanisms of seed treatment preparations on leaf eating beetles.
1596

Effect of metabolic inhibitors on systems involved in the growth of elongating cells during root formation.
1827

Mechanism of resistance of carrot roots to Pythium aphanidermatum (Eds.) Fitz.
2126

Ear removal and cell death rate in corn stalk tissue.
2163

Citrus-root nematode in Iran.
2246

Species dominance in co-incident infections by Meloidogyne hapla and M. javanica on tomato.
2247

Interrelationships between root-nodule bacteria, plant-parasitic nematodes and their leguminous host.
2261

Survival of root-infecting fungi in soil. X. Sensitivity of propagules of Thielaviopsis basicola to soil fungistasis in natural and alfalfa-amended soil.
2444

Plant treatment in relation to the rhizosphere effect. II. Foliar applications of certain chemicals and antibiotics in relation to the rhizosphere microflora of rice (Oryza sativa L.).
2458

Vesicular-arbuscular mycorrhiza and plant growth.
2740

Environmental biology of Eriosoma pyricola Baker and Davidson.
2822

Meloidogyne incognita acrita infection failure in aerial parts of cotton.
2829

The role of interfacial water in the tolerance of roots to toxic solutions.
3031

Mycorrhizae: Indispensable invasions by fungi.
3374

Some underground relationships between Agropyron spicatum and Bromus tectorum.
3470

Halotyrosines as plant root growth stimulants. Patent 3,436,206.
3693

Inactivation of herbicides by activated carbon and other adsorbents.
3716

Notes on the parasites of the root aphids (Hymenoptera, Aphidiidae).
3876

Cryptogama diseases of the root system. Prevention and control.
4681

Diagnoses of pear decline and rootstock identification in young pear orchards.
4687

Efficiency of some fungicides in the disinfection of the carnation roots.
4692

Form and mechanism of transmission of plant viruses. Transmission of viruses by seeds, pollen and contact of roots.
4702

Pesticides in soil. Monitoring for chlorinated hydrocarbon pesticides in soil and root crops in the Eastern States in 1965.
4886

A note on the anatomical derangement in the root tissue of root (wilt) diseased coconut palm.
5383

The clearing of underbrush and the destruction of undesireable vegetation in the forest. Inventory of materials and techniques.
5800

Changes in growth and metabolism of excised pea roots associated with iron deficiency. I. Changes in number of cells, nitrogenous constituents and respiration rate.
5856

Physiological studies on Phoma betae Frank and Rhizoctonia solani(Prill and Delacr.) Bourd and Galz which cause damping-off and root diseases of sugar beet in Egypt.
5867

Metabolic activity of pea root ribosomes under conditions of boron deficiency.
5877

Poor stands of corn and reduction of root growth caused by Fusarium moniliforme.
5937

Strains of the fungus Thielaviopsis basicola (Berk. et Br.) Ferr. isolated from the roots of blue lupin (Lupinus
5976

Preliminary studies on mycorrhiza in Adonis vernalis.
5991

Bloodworms- pests of rice.
6200

Effects of spittlebug injury on root production and sod reserves of Coastal bermudagrass.
6264

DDT-C14 translocation in alfalfa.
6270

Tobacco stalk and root destruction with herbicides and their effect on tobacco mosaic virus.
7249

Effects of fungicide drenches on established poinsettia plants.
7267

Formation of adventitious roots in tomato seedlings by CCC treatment.
7273

The influence of increasing doses of simazine upon the rate of root and green parts growth of winter wheat.
7306

The influence of increasing doses of simazine upon the rate of root and green parts growth of some weeds occuring in the winter wheat stand.
7307

A preliminary survey of the relationships between the soil fauna and the roots of fruit trees.
7827

In vitro feeding of Telotylenchus loofi on great millet (Sorghum vulgare) roots.
7849

ROOTSTOCKS

The influence of latent apple viruses on the growth of various ornamental apples.
2703

Latent viruses in apple varieties and grafting stock.
2749

The effect of rootstocks on the transformation of some factors of the physiological immunity in leaves of mildew-susceptible grape varieties.
4717

RORIPPA SYLVESTRIS

Little noticed kinds of weeds in tree nurseries.
1034

ROSA

Control of Meloidogyne javanica in potato tubers and M. hapla in the roots of young rose bushes by means of heated water.
1024

Little noticed kinds of weeds in tree nurseries.
1034

A physiological defoliation of the rose.
2743

Application of Ark's method modified in isolation of Agrobacterium rhizogenes in association with Agrobacterium tumefaciens in galls from Rosa sp. and infected soils.
2776

Observations on soil exhaustion by Rosaceae.
2832

Severe attacks of Peronospora on large-scale rose cultures.
3370

Chemical control of the rose mite--Tetranychus urticae (Koch, 1836) Bordreaux and Dosse, 1963 (Acarina, Tetranychidae). 3450

The forage plants of Rhagades pruni Schiff. 3828

Diseases and parasites of the rose. 3956

Nematodes and roses. 6297

ROSA DAMASCENA

An investigation of growth inhibitors in Damask rose (Rosa damascena Mill) in connection with falling of buds. 1818

ROSACEAE

Study of pinocytosis in the tissues of the Rosaceae Leptomonas ctenocephali. 1569

ROT

Varietal resistance to clover rot in white clover. 217

Control of post-harvest decay and the influence of postharvest treatments on decay in clingstone-peaches. 233

Heat pasteurization and chemical fungicides for control of Fusarium rot of California cantaloups. 263

Phoma destructiva, its variability, host range and varietal reaction of tomatoes. 5869

Botran used as an orchard spray vs. Botran in the hydrocooler and control of post-harvest decay of peaches. 5904

Potato early blight and storage rot. 5911

A note on Drechslera rot of tomato. 5981

Perennial canker and bull's eye rot of apples. 6007

Field and greenhouse studies on the effects of plant amendments on Rhizoctonia hypocotyl rot of snapbean. 6008

Sensitivity of stored melon fruit fungi to gamma irradiation. 7025

ROTENONE

Destruction of wasps. 743

Insect control for garden vegetables. 3916

Interaction of antimycin A and rotenone in fish bioassays. 4097

The warble fly. 4568

Insects and related pests of house plants; how to control them. 5395

ROTYLENCHULUS

Nematodes associated with bananas in the Windward Islands. 4048

A nematode survey of tobacco soils in Rhodesia and Zambia, and the effects of grass-tobacco rotations on nematode populations. 6303

ROTYLENCHULUS PARVUS

The biology of Rotylenchulus parvus. 1023

ROUGH BARK

Rhytidiella moriformis n. gen., sp. causing rough-bark of Populus balsamifera. 6140

ROUND HEART DISEASE

Pathogenesis of the round heart syndrome in turkeys. 410

ROUS SARCOMA

Research on the relationship between the tumor causing virus of the quail and the rous sarcoma virus. 2334

ROUS SARCOMA VIRUS

Interference phenomenon in the culture of chick embryo cells infected with Schmidt-Ruppin strain of Rous sarcoma virus. 1673

A modified mixed hemadsorption test and its application in the study of the avian leukosis-sarcoma viruses. 2337

Studies of avian leukosis group-specific complement-fixing serum antibodies in pigeons. 3585

Proteins before and after inoculation with RSV. (Abstract). 4153

The presence of particles with the appearance of nucleocapsids associated with mitochrondrites in the cells of a hamster infected with Rous virus. 4812

Persistance of the genome of the Rous virus in hamster cells changed in vitro, and the action of inactivated Sendai virus on its transmission to chick cells. 4848

Combined action of Rous sarcoma virus and chemical carcinogen in rats. 6456

Avian leukosis-sarcoma viruses and antibody in field flocks, and their relationship to leukosis mortality. 6784

ROYSTONEA OLERACEA

Red ring disease of the coconut palm, inoculation studies and histopathology. 3455

RUBBER

Dieback. 251

Phytophthora leaf fall and pod rot. 252

A new leaf spot of para rubber (Hevea brasiliensis) in Nigeria. 3936

Termite control in rubber plantations. 4521

The resistance of Fx and IAN rubber clones to leaf diseases in Brazil. 4693

RUBBERY WOOD

Rubbery wood disease becomes more extensive. 6121

RUBIACEAE

A new leaf spot disease of Mussaenda frondosa Linn.. 5989

RUBIDIUM

Interaction of rubidium and potassium in chick diets. 6797

RUBROSTERONE

Synthesis of rubrosterone, a metabolite of insect-moulting substances from Achyranthes rubrofusca. 102

RUBUS

Translocation and metabolism of C14-labeled tetramine by Douglas-fir, orchard grass, and blackberry. 7284

RUMEN

Rumen bacteria. Drugs for veterinary use; drug efficacy study implementation. 1082

The effects of moldy alfalfa hay feeding on rumen activity, rumen protozoa and dairy steer performance, and analysis of toxic substance(s) associated with molding. 2323

Metabolism of DDT by rumen microorganisms in vitro. (Abstract). 7345

RUMINANTS

Epizootiology of bluetongue. Abstract. 390

Toxicological problems of dinitro-ortho-cresol with particular consideration of its quantitative detection in biological material. 1154

Tympanol. Drugs for veterinary use; drug efficacy study implementation. 2315

Liver-fluke in Madagascar. Biological cycle of Fasciola gigantica. 2361

Kale anaemia in ruminants. I. Survey of the literature and experimental induction of kale anaemia in lactating cows. 4152

Investigations on Coccidia in zoo ruminants. 4195

Four cases of systemic mycosis in cervids. 6577

The treatment of coccidiosis in domestic ruminants with Amprolium . 6603

Regional research in nematode parasites of ruminants in the western United States, a 10-year summary, 1958-1968. 6949

Role of protozoa in rumen metabolism with special reference to bloat. 7904

RURAL DEVELOPMENT

The 'Local Angle'. 576

RUSSIAN SPRING-SUMMER ENCEPHALITIS

Isolation of the tick-borne encephalitis virus from the squirrel Sciurus vulgaris. 4168

RUST

Metabolism of glucomannan-protein during germination of bean rust spores. 1118

Comandra rust damage to ponderosa pine in Oregon and Washington. 2104

Differences in reaction to Puccinia striiformis between first and second leaves in wheat crosses. 2185

A new source of high protein in oats. 2193

Wind dispersal of Puccinia horiana. 2196

Effect of maleic hydrazide on wheat and barley against different rusts. 2704

Western gall rust on jack pine nursery stock in Manitoba. 2719

Diseases of corn and soybeans in Rio Grande do Sul, Brazil in 1968. 2748

Rust infection protects beans against heat injury. 4732

Infection structures from rust urediospores: Effect of RNA and protein synthesis inhibitors. 4907

A new species of Epuraea associated with eastern gall rust (Coleoptera: Nitioulidae). 5066

Snapdragon rust. 5882

Testing slash pine for rust resistance. 5975

Diseases of pulses pose a challenge to plant pathologists, breeders. 6047

Study of the transfer of amino acids from aminoacyl transfer ribonucleic acid into protein by ribosomes from uredospores of the bean rust fungus. 6879

A single-spore analysis of rust pustules produced by mixing isolates of two races of Puccinia coronata var. avenae.
7023

RUST (BEANS)
Mobilization factors in uredospores and bean leaves infected with bean rust fungus.
5908

RUST (WHEAT)
Wheat and stem rust - specialist advice.
5958

RUTABAGAS
Matricaria and lambsquarter control in Brassicas with analogs of propachlor.
6368

RUTACEAE
Preliminary observations on the choice of host plants by adults of the citrus psylla, Trioza erypreae (Del Guercio) (Homoptera: Psyllidae).
4749

RUTHENIUM
New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata).
4497

RUTHENIUM ISOTOPES
New data on accumulation of S35 and Ru106 by dragonfly nymphs (Odonata).
3820

RYE
Triticale in 1967.
225

DDT toxicity in rye (Secale spp.).
1800

Investigation into herbicide residues.
3023

S-TRIAZINE
Influence of some herbicides on accumulation of 32P in above-ground organs of oats.
7223

Influence of herbicides from s-triazine group on dynamics of some biochemical processes of oats in test experiments. Part II. Researches on action of propazine, prometrine, and prometone.
7248

SACBROOD
Minor brood diseases and disorders.
3248

SACCHARIDES
Salmonellosis in sheep. I. Production of a complex antigen and some of its chemical and serological features.
6725

SACCHAROMYCES
Yeasts and yeast-like fungi in the genital organs of cows and heifers. V. Genital candidiasis and abortions caused by yeasts belonging to the genera Candida, Trichosporon and Saccharomyces.
6608

SAFETY DEVICES
A look at the plant pest control divison.
4887

SAFETY EDUCATION
The spotted alfalfa aphid; how to control it.
3426

Methyl bromide can be dangerous.
3675

Use insecticides safely.
4901

Combating poisoning due to insecticides.
7211

Commonsense precautions with agricultural chemicals.
7417

SAFFLOWER
The effects of balancing and imbalancing safflower protein on food consumption, body weight gain and concentrations of plasma free amino acids in the young rat.
2881

Insect pests of safflower.
3447

Proclaimed noxious weeds.
6313

SAHLBERGELLA SINGULARIS
Seasonal population changes in cocoa capsids (Hemiptera, Miridae) in Ghana.
3207

SAINFOIN
Sainfoin - a dryland forage crop for Montana.
322

SAISSETIA OLEAE
The hymenopterous parasites of soft scales on citrus in Israel.
7841

SALDIDAE
The systematic position of Orthophrys mexicanum Van Duzee (Hemiptera Heteroptera: Saldidae).
1282

The relations between transpiration, humidity reaction, thirst and water content in the shorebug Saldula saltatoria L. (Heteroptera: Saldidae).
5443

On the Saldidae types in the Provancher collection, and a new name for Salda coriacea Uhler (Heteroptera).
7485

SALES
A good year for pesticide sales.
1847

1969-Pest Control's economic forecast.
4951

The pesticide review.
4952

SALICYLANILIDES
Anthelmintic effect of salicylanilide preparation on common liver flukes.
449

Salicylanilides: A new group of active uncouplers of oxidative phosphorylation.
5679

Bromination process. Patent 3,450,757.
7334

Bromination process of salicylanilide. Patent 3,450,756.
7355

SALINE SOILS
Inhibition of the oviposition behavior of the migrator locust (Locusta migratoria L.) caused by the salinity of the soil.
4543

SALINE WATER
Pisciculture: Raising trout in salt water.
1046

SALIVA
Biochemical analysis of aphid saliva and its importance in gall development.
2233

SALIVARY GLANDS
Isolation of rabies virus from fruit bats in Thailand.
419

Chromosomal polymorphism in Drosophila tetrachaeta.
919

The distribution and activity levels of carbohydrases in the alimentary canal of the cockroach, Blaberus craniifer Burmeister.
2617

The structure of the alimentary canal and salivary glands in Acrotelsa collaris (Thysanura: Lepismatidae).
2619

Comparative study of some glands of bees (Hymenoptera, Apoidea) and the respective evolutionary implications.
3177

The presence of lipid substances in the salivary glands of Trigona (Hymenoptera, Apoidea).
3178

Salivary gland chromosome variation in the Drosophila affinis subgroup. II. Comparison of C-chromosome patterns in D. athabasca and five related species.
3899

A specific chromosome element, the telomere of Drosophila polytene chromosomes.
4628

On the structure of the salivary chromosomes of Bilobella massoudi Cassagnau (Collembola: Neanuridae).
4630

The salivary gland chromosomes of the mosquito Culex pipiens. I. The normal chromosome complement.
4632

Salivary gland chromosome variation in the Drosophila affinis subgroup. II. Comparison of C-chromosome patterns in D. athabasca and five related species.
5725

Mycoplasma-like bodies in the salivary glands of insect vectors carrying the aster yellows agent.
6191

SALIVARY GLANDS (INSECTS)
Intranucleolar DNA in the salivary gland cells of the melonfly, Dacus cucurbitae.
799

Mass preparation of nuclei from the larval salivary glands of Drosophila hydei.
922

On some fibrin-like properties of the secretion products of the salivary gland of the Chironomus larva.
1493

Karyotypic stability and speciation in Hawaiian Drosophila.
1500

Salivary gland chromosome variation in the Drosophila affinis subgroup. I. The C chromosome of western and eastern Drosophila athabasca.
1513

The replicative organization of DNA in polytene chromosomes of Drosophila hydei.
1515

A contribution to the genetic fine structure of the region adjacent to white in Drosophila melanogaster.
1518

Variations of nucleic acid content in the salivary glands of Drosophila hydei during late larval development.
1949

Observations on the histo-morphology of the labial glands in Neodiprion sertifer Geoffroy (Hymenoptera Diprionidae).
1961

Biochemical analysis of aphid saliva and its importance in gall development.
2233

Insect secretions in plants.
2811

The localization of spermidine in salivary gland cells of Drosophila melanogaster and its effect on H-3-uridine incorporation.
5288

Ultrastructure of the secretory inclusions of the salivary gland cell in Drosophila.
5562

Collecting method and preliminary analysis of the soluble salivary secretions of the planthoppers.
5618

Salivary secretion in the cattle tick as a means of water elimination.
5641

Chromosomal rearrangements induced in Drosophila salivary gland chromosomes by an acridine half mustard.
5715

The salivary chromosomes of Anopheles stephensi stephensi.
5737

Isolation of the organism causing yeast-spot disease from the salivary system of the green stink bug.
6176

Patterns of ribonucleic acid synthesis in salivary glands of Rhynchosciara angelae larvae during development. 7723

Patterns of puffing activity in the salivary gland chromosomes of Drosophila. I. Autosomal puffing patterns in a laboratory stock of Drosophila melanogaster. 7724

Cell differentiation in the salivary glands of Camptochironomus tentants and C. pallidivittatus. 7733

Cytochemical investigations on puffs isolated from salivary gland chromosomes of Chironomus. 7739

SALIX

Biological observations on Rhabdophaga ramicola Rubs. 40

SALIX VIMINALIS

Chlorthiamid against bind weed in basket willow cultures. 2865

SALMON

Effect of DDT on temperature selection by young atlantic salmon, Salmon solar. (Abstract). 484

Degradation of DDT in Atlantic salmon (Salmo salar). 2400

Mortality among chinook salmon associated with the fungus Dermocystidium. 2882

DDT residues and metabolites in Canadian Atlantic coast fish. 3011

Degradation of DDT in Atlantic salmon (Salmo salar). 3038

DDT: Criticism, curbs are on the upswing. 7077

In vitro degradation of DDT by intestinal contents of Atlantic salmon (Salmo salar). 7096

Effects on wild young salmon of spraying DDT over New Brunswick forests. 7103

Studies on effects of forest sprayings with insecticides, 1952-63, on fish and aquatic invertebrates in New Brunswick streams: Introduction and summary. 7113

Toxicities of two insecticides to young coho salmon. 7210

SALMONELLA

Retailing of barbecued chickens: A Canadian survey. 459

Immunofluorescent screening for Salmonella in foods: Comparison with culture methods. 461

Note on the simultaneous use of polyvalent H and Spicer-Edwards H antisera as a preliminary step in the identification of Salmonellae. 464

The molecular structure of the transducing particles of Salmonella-phage P 22. I. Density gradient analysis of intact phages. 1101

Attachment of Bdellovibrio bacteriovorus to cell wall mutants of Salmonella spp. and Escherichia coli. 1113

The heat resistance of Salmonellae in egg albumen. 1777

Salmonella species. First isolations, names and occurrence. QR82.S27K4. 2303

Salmonella infection in calves and other animals. II. Comparison of selective media. 2325

Research on diseases of poultry. 2331

Antigen conversion in Salmonella. XI. Conversio in the N(O:30) group. 2437

A new species of Salmonella of Nigerian origin, Salmonella Biafra. (3, 10:z10:26). 2439

Transmissible resistance factors in enterobacteriaceae isolated in Algeria. 2441

Salmonellosis. 2900

Salmonella and Arizona in reptiles and man in Western Australia. 2922

Antibiotic-sensitivity of S- and R- forms of Salmonella minnesota. 2964

Screening of feed components for Salmonella with polyvalent H agglutination. 3005

The behavior of some human-pathogenic germs and bacterial toxins in food and their destruction through heat treatments of the food products. I. Salmonella. 3008

Low temperature growth of Salmonella. 3638

The detection of salmonella organisms in milk powder. 3644

A note on the salmonella problem in the United States. 3645

Salmonella organisms in milk powders, The characteristics and importance of Salmonellae. 3648

Shell quality effect on Salmonella penetration. (Abstract). 4225

Salmonella organisms in poultry feeds. (Abstract). 4289

Salmonella abony-Salmonella typhimurium recombinant nonvirulent for the mouse. 4822

Isolation of conjugation-constitutive mutants of Colicin factor Ib. 4832

Serum antibody to Salmonella flagellar antigens. I. Methods of antibody assay. 4850

Salmonella in the starling (Sturnus vulgaris). 6771

A study of the relationship between the serological Salmonella types isolated from humans and from foodstuffs. 6774

The in vitro sensitivity of avian salmonella strains to 6 drugs. I. Investigation on 1024 strains isolated 1945-1958. 6808

Evaluation of several methods of isolating salmonellae from poultry litter and animal feedstuffs. 6836

Interaction of salt, pH, and temperature on the growth and survival of Salmonellae in ground pork. 7047

Salmonella food poisoning associated with imported canned meat. 7050

Investigations into the source of bacterial contamination of pork. II. In steaming. 7054

Comparison of two procedures for detection of Salmonella in food, feed, and pharmaceutical products. 7056

Heat resistance of Salmonella in various egg products. 7057

The isolation of salmonellas from animal feedingstuffs. 7059

Salmonella in meat imported from South American countries. 7064

Dry milk equipment design and its relation to the salmonella problem. 7065

Accelerated procedure for Salmonella detection in dried foods and feeds involving only broth cultures and serological reactions. 7068

Prevalence of salmonellae in Virginia poultry flocks and in feed. 7902

Diagnostic potentialities of indirect hemagglutination test in chicken artificially infected with Salmonella. 7913

SALMONELLA ABORTUSOVIS

Clinico-microbiological and immunological studies on experimental oral infection in pregnant sheep with Salmonella abortus ovis. 7865

SALMONELLA BACTERINS

Further studies on the screening technique for determining Salmonella-negative samples of pasteurized dried egg. 7048

SALMONELLA CHOLERAESUIS

Experience obtained from the use of formol-adsorbat vaccines against Salmonella cholerae-suis in pig stocks. 2339

Association of increased recipient ability for R factors and reduced virulence among variants of Salmonella choleraesuis var. kunzendorf. 4819

Immunoglobulin development in sera of pigs injected with killed suspensions of Salmonella choleraesuis. 6788

Experimental salmonellosis in swine and its clinical-hematological characteristics. 6825

SALMONELLA DUBLIN

Abortions in cattle: Isolation of Salmonella dublin. 2912

A contribution to the salmonellosis of cattle and its therapy. 4243

SALMONELLA ENTERITIDIS

Effect of specific immune mouse serum on the growth of Salmonella enteritidis in nonvaccinated mice challenged by various routes. 1062

Effect of specific immune mouse serum on the growth of Salmonella enteritidis in mice preimmunized with living or ethyl alcohol-killed vaccines. 1063

Cross-protection against Salmonella enteritidis infection in mice. 6528

Serum mediated killing of three group D salmonellas. 7873

SALMONELLA GALLINARUM

Correlation between the bacteriological characteristics of Salmonella pullorum and Salmonella gallinarum and their ranges of sensitivity to bacteriophages obtained from off-shoots of the same batch of lysogenic stock. 1672

Serum mediated killing of three group D salmonellas. 7873

SALMONELLA PULLORUM

Correlation between the bacteriological characteristics of Salmonella pullorum and Salmonella gallinarum and their ranges of sensitivity to bacteriophages obtained from off-shoots of the same batch of lysogenic stock. 1672

Accredited pullorum tested flock scheme hatchery scheme. 2948

Accredited pullorum tested flock scheme hatchery scheme. 3536

Pullorum disease--an important cause of chicken deaths. 3554

Studies on the treatment and prophylaxis of Salmonella pullorum infection in chicks with chloromycetin. 4820

Serum mediated killing of three group D salmonellas. 7873

SALMONELLA SANDOW

A new salmonella serotype of the C 2 group, Salmonella sandow. 1087

SALMONELLA SENFTENBERG

The heat resistance of Salmonellae in egg albumen. 1777

Epidemiological studies on Salmonella senftenberg. II. Infections in farm animals. 2918

Effects of Salmonella senftenberg injection on chicks hatched from eggs in treatment of testosterone propionate. 6736

Evaluation of several methods of isolating salmonellae from poultry litter and animal feedstuffs. 6836

SALMONELLA TYPHIMURIUM

Modifications of the natural resistance to infection of mice treated by several histone fractions. 403

Diagnosis and treatment of chronic Salmonella typhimurium infection in sows. 443

Retailing of barbecued chickens: A survey in British Columbia. 463

Effect of volatile fatty acids on Salmonella typhimurium. 1071

Fimbriation, pellicle formation and the amount of growth of Salmonellas in broth. 1089

The recombination of bromouracil-containing deoxyribonucleic acid in Salmonella typhimurium transduction. 1115

Serological changes in ex-germfree rats mono-associated with Salmonella typhimurium. 1117

Lipids of Salmonella typhimurium and Escherichia coli: Structure and metabolism. 1648

Chain initiation in a polycistronic message: Sequential versus simultaneous derepression of the enzymes for histidine biosynthesis in Salmonella typhimurium. 1653

Salmonella typhimurium proline mutants. 1675

On the type specificities of rabbit anti-S. typhi antibodies. 1695

Isolation and mapping of Salmonella typhimurium mutants defective in the utilization of trehalose. 1706

The heat resistance of Salmonellae in egg albumen. 1777

Salmonellosis in calves. 2935

The effect of antibacterials on Salmonella typhimurium within hatching eggs. 3527

The in vivo interaction of Candida albicans and Salmonella typhimurium. 3577

Effect of an iodophor on shelf life of poultry. (Abstract). 4238

Oxidation of D-malic and beta-alkylmalic acids by wild-type and mutant strains of Salmonella typhimurium and by Aerobacter aerogenes. 4240

Regulation of branched-chain amino acid biosynthesis in Salmonella typhimurium: Isolation of regulatory mutants. 4801

Chromosome replication in Salmonella typhimurium. 4805

2-deoxyribose gene-enzyme complex in Salmonella typhimurium: Regulation of phosphodeoxyribomutase. 4818

Salmonella abony-Salmonella typhimurium recombinant nonvirulent for the mouse. 4822

Cold-sensitive mutations in Salmonella typhimurium which affect ribosome synthesis. 4844

Use of ampicillin instead of streptomycin in Salmonella-infected mouse peritoneal macrophage cultures. 6605

Early antibody response in mice to either infection or immunization with Salmonella typhimurium. 6665

Salmonella typhimurium infection in dairy cows. 6763

Colostral immunity against salmonella infection in calves. 6794

Salmonella penetration of the outer structures of white- and speckled-shell turkey eggs. 6868

Investigations concerning the microflora of isterband , a Swedish fermented type of sausage. 7062

SALMONELLA TYPHOSA

Intracellular localization and characteristics of lactate dehydrogenase activity of Salmonella typhosa (NCTC 8385). 4936

SALMONELLOSIS

Experimental salmonellosis. X. Cellular immunity and its antibody in mouse mononuclear phagocytes. 1682

Experimental salmonellosis. XI. Induction of cellular immunity and formation of antibody by transfer agent of mouse mononuciear phagocytes. 1691

Experiments for liquidating abortions in ewes on sheep farms with abortions. 2330

Experience obtained from the use of formol-adsorbat vaccines against Salmonella cholerae-suis in pig stocks. 2339

Salmonellosis. 2900

Salmonellosis in calves. 2935

Management and diseases of caged birds. 2936

Salmonella organisms in milk powders, The characteristics and importance of Salmonellae. 3648

A contribution to the salmonellosis of cattle and its therapy. 4243

Sanitary legislation in France concerning animal salmonellosis. 6417

Studies on Salmonella infection among rabbits in the U. A. R. 6479

Immunogenic properties of polyvalent and associated emulsion vaccine against paratyphoid fever and brucellosis of sheep. 6637

Zoonoses in india. 6667

Salmonellosis in sheep. I. Production of a complex antigen and some of its chemical and serological features. 6725

Central African utilization of a polyvalent avarian vaccine. 6781

Dynamics of Salmonella infection in chicks reared on litter. 6823

Experimental salmonellosis in swine and its clinical-hematological characteristics. 6825

Salmonella control programs: Baking industry. 7049

Salmonella control program - Michigan. 7422

The prevalence of Salmonellosis and symptomatic carbuncles in cattle subjected to bacteriological examination during 1968, in the State of Sao Paulo. 7883

Swine salmonellosis in a Hawaiian piggery. 7884

SALSOLA KALI

Detrimental effect of Russianthistle on semidesert range in west-central New Mexico. 940

Germination of Russian thistle seeds. 4916

SALTS

Certain metal salt complexes useful for controlling helminths and improving growth in animals. Patent 3,408,444. 442

Control of weeds in wheat crop by 2,4-D. 2260

Cadmium salts. Drugs for veterinary use - drug efficacy study implementation. 2368

Notice of withdrawal of petition regarding pesticides. 2394

Mycostasis in semi-arid soil of West Pakistan. 3376

Use of alkylguanidine salts as virucides. Patent 3,436,461. 3586

Effects of freezing on African horse-sickness virus. 6754

Industrial fertilizers as herbicides seen in the light of new and old experiments. 7102

SALVIA LEUCOPHYLLA

Volatile growth inhibitors produced by Salvia leucophylla: effect on seedling growth and respiration. 1171

SALVINIA AURICULATA

The possible role of pathogenic fungi in local degeneration of Salvinia auriculata Aublet on Lake Kariba. 3477

SAMBUCUS NIGRA

Preliminary note on a chemical attractant for the grass grub beetle (Costelytra zealandica (White)) from the flowers of elder (Sambucus nigra L.). 5508

SAMIA CYNTHIA

Artificial diet for cecropia and other saturniid silkworms. 5560

SAMIA CYNTHIA PRYERI
An action of insect hormones on carbohydrate metabolism in insects. 4531

SAMIA CYNTHIA RICINI
A semi-synthetic diet for Eri-silkworm raising. 4492
The development of an artificial diet not containing leaf powder of any food plants for Eri-silkworm raising. 4493

SAMPLING
Parathion residue in cured alfalfa. 495
A corer for sampling soil and litter arthropods. 3083

SAMPLING (STATISTICS)
The question of the statistical proof of diet-dependent mortality. 859
On the precision of some methods of forest inventory. 951
Gibberellin-like substances in the transpiration stream of apple and pear trees. 1165
Sampling to detect economic infestations of Limonius spp. 2022
A method for accurate counting of blackfly larvae (Diptera: Simuliidae). 2988
Changes in the arthropod fauna of an experimental bulk of stored wheat. 3640
A technique for sampling populations of the jack-pine budworm. 5033
The 24-inch branch as a sample unit for egg mass surveys of the western budworm. 5463

SANDY SOILS
Small doses of D-D soil fumigant to control free-living nematodes injurious to sugar beet. 1630
Investigation into the vertical migration of Meloidogyne hapla. 2848

SANITATION
Control of tobacco mosaic virus. 3366
Swine brucellosis. 3578
Saw-toothed grain beetle. 3641
Insect pests in food stores. 3642
A note on the salmonella problem in the United States. 3645
Contribution to the study of hydrogen sulfide poisoning of domestic animals. 4311
The reappearance of rabies in France. First case in a fox in Moselle. 4793
Control of household insects. 5593
On the permanent bedding of chicken. Some technical and hygienic-sanitary questions. 6414
Control of hydatid disease at abattoirs and country slaughterhouses. 6497
Experiences and ideas regarding cattle tuberculosis sanitation in a state practitioners area. 6834
The significance of deep litter for prophylaxis of chicken coccidiosis. 6842
Helminthological evaluation of deep litter in poultry houses. 6986

SANITATION CONTROL (INSECTS)
Phytosanitation campaigns for cargo under the Director General for Vegetable Sanitation. 7952

SANNINOIDEA EXITIOSA
Induced shift of the diurnal emergence and calling of the peach tree borer. 1412
Disease and insect control in home orchards. 3983

SANTALUM
A symptomless carrier of sandal spike disease. 6027

SAP
Apparent sap velocities in big sagebrush as related to nearby environment. 573
Gibberellin-like substances in the transpiration stream of apple and pear trees. 1165
Proof of the presence of the tomato bushy stunt virus in grape tendrils. 2120
Control of tobacco mosaic virus in tobacco. 2731
Inhibitory ability of sap from different tobacco varieties on potato virus Y. 3362
A widely distributed pine sap injurious, Acanthophila piccana n. sp. (Lep. Gelechiidae) in Latvia. 5150
Research on sap infections. 6070
Nitrogenous compounds in the xylem sap of American elms with Dutch elm disease. 6083
A rapid colorimetric method for the determination of tobacco mosaic virus concentration in plant saps. 6119
Increases in the levels of cytokinins in bleeding sap of Vitis vinifera L. after CCC treatment. 7295

SAPERDA CALCARATA
Maryland arborists discuss insect control. 6221

SAPODILLA
A new species of Phaeophleospora affecting Achras sapota L. 1556

SAPONINS
Duration of immunity due to the use of anti hoof and mouth disease vaccine prepared with 10 and 25 milligrams of saponine per dose. 341

SAPRINUS
Saprinus cuspidatus Ihssen from Finland (Coleoptera, Histeridae). 5149

SAPROPHAGOUS INSECTS
An attempt at analysing the process of penetration by soil nematodes into plants. 1624

SAPROPHYTES
Phenological observations on the fungi of the trees and shrubs in the park of the experimental farm Koniczynka near Torun. 1594
The special forms in the classification of phytopathogenic bacteria. 2793
Rhizosphere root exudates and their effect on microbial activity. 4662
The role of nematodes in horticulture. 4767
Saprophytic survival of Ophiobolus graminis on various hosts. 5889
Conversion of DDT to DDD by pathogenic and saprophytic bacteria associated with plants. 7254

SARCINA LUTEA
Inhibitors of bacterial growth in horse kidney. Preliminary report. 1111
Contribution to the study of antibiotic substances in meats. 7141

SARCOMA
Hemangiosarcoma in a dog. 2342
Transmission of equine sarcoid. 2348
Avian leucoses: 1966-1967. 3523
Duodenal leiomyosarcoma: A case report. 6491

SARCOPHAGA
New species of the Sarcophaga Meigen genus (Fam. Sarcophagidae, Diptera). 1890
Descriptions of two new Sarcophaga species from the Transvaal (Diptera: Sarcophagidae). 2495
Structure of lemmasterone, a novel C29 insect-moulting substance from Lemmaphyllum microphyllum. 3071
Houseflies, blowflies and cluster flies. 6901

SARCOPHAGA BULLATA
Cell death during early morphogenesis: Parallels between insect limb and vertebrate limb development. 3312
Changes in soluble proteins during foot-pad development in Sarcophaga bullata. 3821
Neuromuscular transmission in insects: Effect of injected chemical agents. 7653

SARCOPHAGIDAE
Palearctic species of the genus Sphenometopa Townsend (Diptera, Sarcophagidae). 696
Palearctic species of the genus Sphenometopa (Diptera, Sarcophagidae). 1321
Ecdysone and ecdysone analogues: Their assay on the fleshfly Sarcophaga peregrina. 1441
A new species of the genus Malacophagomyia from Paraiba, Brazil (Diptera, Sarcophagidae). 2494
Studies on copulation of some sarcophagid flies (Diptera). Taxonomic importance of some features of male and female genitalia. 2503
Notes on the types of some neotropical sarcophagid flies described by Enderlein (Diptera, Sarcophagidae). 2504
On a new species of Dexosarcophaga Townsend, 1917 (Diptera, Sarcophagidae) whose larvae parasitize Camponotus (Hymenoptera, Formicidae). 3115
Contribution to the biological study of the Diptera Sarcophagidae, parasites of acridids. The biological cycle of Blaesoxipha rossica Vill., injection of larvae in the body of the host by the female Sarcophagidae. 4547

SARCOPTES SCABIEI
Studies on the curative effect of Cedrus deodara oil against sarcoptic mange in buffalo-calves. 1718

SARCOPTES SUIS
Contribution to the control of swine mange. 1720

SARCOPTIFORMES
A remarkable tick found on a tarsier (Heterocoptidae f. n.:Sarcoptiformes). 1957

Microarthropods from two Quebec woodland humus forms. III. The Sarcoptiformes (Acarina).
2508

A new myrmecophilous mite Divilia oculata gen. et sp. n. (Sarcoptiformes, Saproglyphidae).
3129

Malayoglyphus intermedius n. g., n. sp., a new mite from house dust in Singapore and Djakarta (Pyroglyphidae: sarcoptiformes).
5028

SARCOSPORIDIOSIS

Trichinosis and sarcosporidiosis in a puma.
380

SARCOTROCHILA ALPINA

Sarcotrochila alpina and Lophodermium laricinum causing larch needle blight in North America.
6141

SATSUMA ORANGES

Plant virus diseases in Turkey which are transmitted by insect vectors.
4036

SATURNIIDAE

The genus Gynanisa Walker (Lepidoptera: Saturniidae).
682

An interesting brood of Eudia pavonia (Attacidae).
838

Comparative chromatographic investigations of Arthropod cocoons.
1931

Rearing Euleucophacus rubridorsa and E. lex (Saturniidae).
3204

Contribution to the fauna of the Congo (Brazzaville). mission A. Villiers and A. Descarpentries. XLVI. Lepidoptera, Attacidae.
5138

SATYRIDAE

Three new neotropical satyrids (Lep. Rhop. Satyridae).
3103

A note on the family Euptychia (s. l.) (Lep. Satyridae).
4405

Genitalia of the types of Chilean Satyridae on deposit at the British Museum.
5061

An undescribed European butterfly:(Lep. Satyridae).
5064

A hermaphrodite Quilaphoetosus janirioides (Blanchard). (Lepidoptera, Satyridae).
5363

Heritability of spot-number in Scillonian strains of the meadow brown butterfly (Maniola jortina).
7741

SAUSAGES

A microbiological survey of British fresh sausage.
3643

Irradiation treatment on wiener sausage with gamma-ray.
4285

Investigations concerning the microflora of isterband , a Swedish fermented type of sausage.
7062

SCAB

New controls for peach fungus diseases.
1589

Chemical control of scab on citrus in Florida.
2136

The effect of carbamide and thiocarbamide on the resistance of apple to apple scab.
3375

Fruit disease problems and new approaches to their controls.
3975

Illustrative scales for the evaluation of potato scab and Rhizoctonia infection.
4024

Disease control in nonbearing orchards.
4699

A biochemical mechanism of natural resistance of apple to Venturia inaequalis.
5834

Apple scab, pecan scab, and the duration of leaf wetness.
5878

Effect of 6-azauracil against apple powdery mildew and apple scab.
5909

A systemic fungicide effective against sour orange scab disease.
5957

Lemon scab (Sphaceloma fawcettii scabiosa).
6029

Selection of parents and crosses suitable for use in breeding for resistance to scab.
6038

SCABIES

Interstate transportation of animals and poultry. Scabies in sheep. Interstate movement.
338

Interstate transportation of animals and poultry. Part 74. Scabies in sheep. Interstate movement.
1052

An improved portable sheep dipping vat.
7012

SCALD

DPA for scald control.
4715

Problems with scald inhibitors.
4863

Granny Smith versus Jonathan.
5840

SCALES (INSECTS)

Cryptic moths: effects on background selections of painting the cirumocular scales.
5584

Growing camellias.
5859

SCAPHIDIIDAE

Description of Scaphidium comes sp. n. and notes on some other palaeartic species of the genus Scaphidium (Coleoptera, Scaphidiidae).
2502

New and little known Palearctic species of the Scaphosoma Leach genus (Col., Schphidiidae) (18. Contribution to the knowledge of the Scaphidiidae).
7501

SCAPHOIDEUS LITTORALIS

Presence in the vineyards of the Tessin, of a neartic cicadella, new for switzerland,Scaphoideus littoralis Ball (Hom., Jassidae), a possible carrier of yellow mosaic.
3157

SCAPHOSOMA

New and little known Palearctic species of the Scaphosoma Leach genus (Col., Schphidiidae) (18. Contribution to the knowledge of the Scaphidiidae).
7501

SCARABAEIDAE

A revision of the genus Copris Muller of the Western Hemisphere (Coleoptera, Scarabaeidae). matthews, e g.
5

Species differences in scarab-pasture relationships.
76

Some remarks on the Hydrophilia disease of the larvae of Melolontha melolontha C.(Col. Scarabaeidae).
105

Notes on a few Mexican Scarabaeidae (Coleoptera).
695

South American search for grassgrub solution.
991

Two new African Coprophagids as well as a new synonomy (Col., Scarab.).
1247

Notes on Coleoptera XI. (Comments on the genus Heteropelidnota Ohaus, with a description of a new species (Col. Scarabaeidae, Rutelinae).
1294

The genera Athlia Erichson (Col. Scarabaeidae, Sericinae).
1295

New and mistaken Aphodiinae from all over the world (Col., Scarab.). Part V.
1311

New Acanthocerinae, Hybosorinae and Ochodaeinae (Scarab., Col.).
1312

A mass flight of Amphimallon solstitialis (Linne) (Col., Scarabaeidae).
1366

Structure and ecdysial process of the larval spiracles of the Scarabaeoidea, with special reference to those of Lepidoderma.
1983

A new species of the genus Aphodius III. (Coleoptera, Scarabaeidae) from Abkhasia.
2511

Three new records of the genus Phanaeus from Georgia (Coleoptera: Scarabaeidae).
3748

The Pachydeminae (Coleoptera, Melolonthidae) collected by the Hungarian zoological expedition to the Brazzaville Congo.
5014

A new genera of Pachydeminae (Coleoptera, Melolonthidae) of Somalia.
5015

The genus Plectris (Philochlaenia) (ColeopteraMelolonthinae).
5035

New Melolonthids (Col.).
5036

Beetle finds in the South Ticino, July 1964.
5043

Catalogue of the Coleoptera Cetoniidae in the Leiden Museum. I. Goliathus Lamarck, sensu lato.
5168

Preliminary note on a chemical attractant for the grass grub beetle (Costelytra zealandica (White)) from the flowers of elder (Sambucus nigra L.).
5508

Diseases and pests of coconut in Kerala.
5814

Notes on pesticides and weedicides.
5823

Comparative efficacy and economics of various measures adopted for eradication of white grub beetle (Holotrichia serrata Fabricius) damaging sugarcane in Uttar Pradesh.
6204

Preliminary observations on Heteronychus robustus ArrowA beetle pest of sugarcane in Uttar Pradesh.
6250

New species of the Aphodiidae family (Coleoptera). 128. Contribution to the knowledge of the Scarabaeoidea.
7429

SCARLET RUNNER BEANS

Identification of gibberellins in crude plant extracts by combined gas chromatography-mass spectrometry.
534

The behavior of bees visiting runner beans (Phaseolus multiflorus).
3200

The pollination of runner beans (Phaseolus multiflorus) in a glasshouse.
5314

Chemosterilization of the two-spotted spider mite. III. Effect on host plant.
7252

SCELIONIDAE

A new genus of Scelionidae (Hymenoptera) with austral disjunctive distribution.
1897

SUBJECT INDEX

Proteleas, a new genus of Scelionidae with three new species from the USSR.
5085

SCENOPINIDAE
Remarks on some dipteran insects of the genus Omphrale Meigen (Diptera: Scenopinidae).
7541

SCENOPINUS
Remarks on some dipteran insects of the genus Omphrale Meigen (Diptera: Scenopinidae).
7541

SCENT GLANDS
Observation of the sexual behavior of Hofmannophila pseudospretella. (Abstract).
810

On the evolution of Carabids' scent gland secretion. On Arthropod defense substances.
1470

Morphological and histochemical study of the scent gland in the pond-skater, Gerris spinolae Leth. et Seu. (Gerridae-Insecta).
2032

Pheromones from the abdominal brushes of male noctuid Lepidoptera.
3154

Odour similarities between the slave-keeping ants Formica sanguinea and Polyergus rufescens and their slaves Formica fusca and Formica rufibarbis.
4965

SCHEDORHINOTERMES
African termites of the genus Schedorhinotermes (Isoptera: Rhinotermitidae) and associated termitophiles (Lepidoptera Tineidae).
28

SCHISTOCERCA GREGARIA
Quantitative determination of acid and alkaline phosphatase in different parts of the alimentary canal of desert locust, Schistocerca gregaria (Forskal).
856

On the specificity of Metarrhizium anisopliae (Metsch.) Sorokin (Fungi imperfecti) as a function of its insect origin.
1561

Acid phosphatase activity in the digestive system of the desert locust Schistocerca gregaria (Forskal).
2623

A virus-like structure in the desert locust.
2808

Volatile neutral compounds emanating from laboratory-reared colonies of the desert locust, Schistocerca gregaria.
3171

Comparative effects of allatectomy on the activity of the male accessory glands and on the sexual behavior of two acridids: Schistocerca gregaria and Locusta migratoria (sub-species migratorioides and Razalinsk).
4470

Recent data on the origin of larval polymorphism at hatching in the migratory grasshopper, Schistocerca gregaria Forskal.
4578

The action of iontophoretically applied glutamate on insect muscle fibres.
5222

Insect hormones: Olive oil is not an inert vehicle for hormone injection into locusts.
5250

Bracken and locust ecdysones: Their effect on molting in the desert locust.
5251

The effects of implantations of corpora allata on reproduction of collected females of Schistocerca gregaria (Forsk.) and on the polymorphism of their progeny.
5255

Biological observations on the desert locust (Schistocerca migratoria migratorioides) in Chad.
5285

Central control of an insect segmental reflex. II. Analysis of the inhibitory input from the metathoracic ganglion.
5311

Airborne factor affecting the grouping behaviour of locusts.
5328

Medium and long-term changes in the behavior of visual neurones in the tritocerebrum of locusts.
5371

Meteorological aspects of insect migrations.
5379

The influence of site application on the toxicity of insecticides in red cotton bug, Dysdercus cingulatus, F.
5549

Dishabituation and arousal in the response of single nerve cells in an insect brain.
5568

Research on the disease due to Metarrhizium anisopliae, in the migratory locust.
5664

Evidence of a biogen amine in the stomatogastric nervous system of the Insecta: Histochemical and ultrastructural study.
7592

Cortisol and growth in insects.
7661

Morphogenetic analysis of the effects of juvenile hormone analogues and other morphogenetically active substances on embryos of Schistocerca gregaria (Forskal).
7665

The origin of heterogeneity in newly-hatched populations of the migrating grasshopper, Schistocerca gregaria Forsk. (gregarious phase).
7670

The effects of X-rays on the chromosomes of locust embryos. III. The chromatid aberration types.
7731

The effects of X-rays on the chromosomes of locust embryos. IV. Dose-response and variation in sensitivity of the cell cycle for the induction of chromatid aberrations.
7732

Actinomycin D induced chromosome breakage and suppression of meiosis in the locust, Schistocera gregaria.
7736

SCHISTOSOMA
Studies on Schistosoma nasale Rao, 1933. II. Molluscan and mammalian hosts of the blood-fluke.
1737

Comparative studies of the molluscicidal effect of cuprous chloride and copper sulfate in Iran.
2471

Studies on Schistosoma nasale Rao, 1933. I. Morphology of the adults, egg and larval stages.
3620

General method for the culture of helminths in anaerobic conditions.
4854

Homocytotropic antibody response in mice infected with Schistosoma mansoni: Comparasion with the response following Trichinella spiralis infection.
6979

SCHIZAPHIS DUBIA
A new genus and four new species of Aphids (Homoptera, Aphididae) from Poland.
103

SCHIZAPHIS GRAMINUM
Transmission of maize dwarf mosaic by the greenbug, Schizaphis graminum.
2214

Alternate hosts of the greenbug.
6170

SCHIZOLACHNUS PINIRADIATAE
Fluctuations in the population of Schizolachnus piniradiatae (Davidson) (Aphididae-Homoptera) in the Eastern Provinces during 1967.
2048

SCHIZOPINAE
Notes on Buprestidae and Schizopodidae.
5114

SCHRANKIA HUMIDALIS
New species for the Belgian fauna.
35

SCHRECKENSTEINIIDAE
On the systematic position of some genera of the Heliodinidae/Schreckensteiniidae as well as a revision of the Palearctic species of the genus Pancalia Curtis, 1830 (Lepidoptera).
7466

SCIARA
Heterozygoos puffs in Sciara ocellaris.
7746

SCIARA COPROPHILA
Extra replications in the DNA-PUFFS of Sciara coprophila.
4631

SCIARIDAE
Interaction of a fungus gnat, Bradysia sp. (Sciaridae) with Fusarium spp. on alfalfa and red clover.
2222

SCIOMYZIDAE
Notes on Sciomyzidae collected in paddy field (Diptera), I.
727

Selection of a Lectotype of Tetanocera elegans Collin, 1960 (Diptera: Sciomyzidae).
1278

A new genus and species of Sciomyzidae from Tanzania, with a key to the genera of the Ethiopian region and distributional notes (Diptera: Facalyptratae).
4401

SCIRTOTHRIPS CITRI
Citrus pest control programs for California and Arizona desert areas.
6262

Systemic activity of UC-21149 against the citrus red mite, citrus thrips, California red scale, and spirea aphids on nonbearing orange trees.
6265

SCLERODERRIS
Forest insect and disease survey.
939

SCLERODERRIS LAGERBERGII
Susceptibility of three pine species to Scleroderris lagerbergii in Upper Michigan.
2129

The effect of temperature on ascospore release by Scleroderris lagerbergii.
3928

Spore dispersal by Scleroderris lagerbergii under nursery and plantation conditions.
4007

SCLEROSPORA
Note: Oospores of Sclerospora philippinensis Weston from corn leaf tissue.
976

The bases of defferentiating Sclerospora philippinensis Weston as a species distinct from Sclerospora sacchari Miyake.
7779

SCLEROSPORA GRAMINICOLA
Sclerospora graminicola axenic culture.
1591

Effect of Sclerospora graminicola infection on total nitrogen content and free amino acid composition of Bajra plants.
3995

SCLEROSPORA SORGHI
Downy mildew of sorghum in Georgia.
2182

Reaction of selected sorghum varieties and lines to downy mildew.
7270

SCLEROTINIA
Control of lettuce leaf drop by soil drenching with fungicides.
253

Spore development in the brown rot fungi (Sclerotinia spp).
3423

Fairway disease control.
4674

Physiological changes in sunflowers infected by storage rot.
6041

SCLEROTINIA FRUCTICOLA
The longevity of conidia of Sclerotinia fructicola (Wint.) Rehm under field conditions.
2140

SCLEROTINIA FRUCTIGENA
Multivesicular bodies in Sclerotinia fructigena and their possible relation to extracellular enzyme secretion.
2718

SCLEROTINIA LAXA
Spraying trials against Sclerotinia diseases of plums on flowers and fruits.
6053

New disease in European plums.
6129

SCLEROTINIA SCLEROTIORUM
Stem and root diseases of beans.
3941

Plant growth promoting metabolites of Sclerotinia sclerotiorum (II) The synthesis of sclerotinin B.
4673

Biosynthesis of furanocoumarins in diseased celery.
5929

SCLEROTINIA TRIFOLIORUM
Varietal resistance to clover rot in white clover.
217

SCLEROTIUM BATATICOLA
Characteristics of in vitro protein synthesis systems from Rhizoctonia solani and Sclerotium bataticola.
2456

Changes in fungi with age. iv. Role of coenzymes in the respiratory decreases in Rhizoctonia solani and Sclerotium bataticola.
4669

Mechanisms of pathogenesis in Sclerotium bataticola on sunflowers. I. Production and translocation of a necrosisinducing toxin.
5890

SCLEROTIUM CEPIVORUM
Tests concerning the control of the white rot of garlic.
2739

Control of Armillaria mellea with systemic chemicals.
6018

SCLEROTIUM ROLFSII
The susceptibility of some cultivated plants to Sclerotium rolfsii Sacc.
247

Growth of Sclerotium rolfsii at different concentrations of oxygen and carbon dioxide.
523

Studies on Sclerotium rot of mints.
1577

Biochemical studies on Sclerotium rolfsii Sacc.
2144

Effect of trifluralin on growth of Sclerotium rolfsii in liquid culture and soil.
2459

Effect of paraquat on growth of Sclerotium rolfsii in liquid culture and soil.
3704

Stem and root diseases of beans.
3941

X-ray analysis of hyphal and sclerotial walls of Sclerotium rolfsii Sacc.
5059

Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil.
7236

SCOLIIDAE
Sexual dimorphism of the Campsomerinae (Hymenoptera, Scoliidae).
1362

Friedrich Klugs material of Scoliidae with especial reference to his type-specimens.
5239

Results of the Albanian 1961 Expedition of the German Entomological Institute. 65. Contribution. Hymenoptera: Scoliidae.
7463

SCOLOPENDROMORPHIDAE
Some observations on chemoreception in the antennae of the centipede, Scolopendra subspinipes Leach (Mandibulata-Chilopoda).
2062

SCOLYTIDAE
On the synonyms of the bark beetles XVI. 242. Contribution to the morphology and taxonomy of the Scolytoidea.
701

Coleoptera from northeast Africa. Scolytidae and Platypodidae. 255. Contribution to the morphology and taxonomy of the Scolytidae.
702

A description of two Magdalis larvae (Col. Curc.) and a comparison between these and the Scolytus larvae (Col. Scol.).
832

Dutch elm disease recurrence and recovery in American elm.
962

Infestation density of Trypodendron lineatum (Olivier) (Coleoptera: Scolytidae) in relation to felling date of logs.
1778

The bark beetles of Greece and Cyprus. (249. Contribution to the morphology and taxonomy of the Scolytoidea).
1909

Studies on the attack behavior of the southern pine bettle. II. Response to attractive host material.
1943

The effect of climatic integrants on population fluctuations of the Columbian timber beetle Corthylus columbianus Hopkins (Coleoptera; Scolytidae).
2015

Flight muscle volume change in Ips confusus (Coleoptera: Scolytidae).
2546

Mortality of mature beetles Ips typographus (L.) (Col., Scolytidae) in the galleries and its causes.
3799

The toxic action of a mixture of gamma-BHC and EDB to Cryphalus fulvus Niijima. Studies on the control of forest pests. V.
3857

Are woodpeckers the answer to pine bark beetle attacks.
4450

Description of Blastophagus khasianus, new species (Coleoptera: Scolytidae).
5110

On some Scolytidae and Platypodidae of economic importance from the territory of Papua and New Guinea. 250. Contribution to the morphology and taxonomy of the Scolytoidea).
5142

Key for the determination of species from U.S.S.R. belonging to the genus Scolytus Geoffroy (Scolytidae, Coleoptera).
5145

Analysis of bark beetle mortality in spruce forests in Poland.
5205

The Columbian timber beetle, Corthylus columbianus. VII. The effect of climatic integrants on historic density fluctuations.
5464

On the theoretical concept of self-extinction of bark beetles. (TT 68-50402)
5515

Seasonal development and habits of Pseudopityophthorus spp. (Coleoptera: Scolytidae) in southern Ohio.
5557

New records and species of neotropical bark beetles (Scolytidae: Coleoptera).
5682

Bark beetles.
6273

An observation on the basic question of the reliability of the efficiency and performance of natural enemies against destructive insects.
7835

SC OLYTUS
The type-specimens of the Palearctic species of Scolytus Geoffr. (Coleoptera, Scolytidae) in the Institute of Zoology collection, USSR Academy of Sciences (Leningrad).
2513

SCOLYTUS MULTISTRIATUS
Dutch elm disease detected in Mississippi.
2195

SCOPOLIN
Effects of potassium, magnesium, and nitrogen deficiencies on the concentration of chlorogenic acid and scopolin in tobacco.
2116

SCOPULA UMBELARIA
Mode of life and difficulties in the rearing of Scopula umbelaria Hbn. (Lep. Geom.).
1487

SCOPULARIOPSIS BREVICAULIS
Antifungal acti on of a phosphate ester pesticide, O-Mchlorophenyl O,O-dimethyl phosphorothioate, used in nutrient media for fungi. (abstract).
7175

SCORPIONIDA
A review of Hadrurus scorpions (Vejovidae).
1328

Scorpion preservation for taxonomic and morphological studies.
2070

Release of an acetylcholine-like substance from guinea pig ileum by scorpion venom.
2429

Effect of the venom of the scorpion Tityus serrulatus on adrenal gland catecholamines.
2433

Incomplete sodium inactivation in nodes of Ranvier treated with scorpion venom.
2436

Scorpions, whip scorpions and wind scorpions of Florida.
5108

Electroretinogram of the scorpion Androctonus australis in response to periodical illumination.
5252

Metabolism of the muscle of the scorpion.
5403

Perfusion fluid for the scorpion, Heterometrus fulvipes.
5510

Effect of starvation on the scorpion Palamnaeus bengalensis.
5612

Venom of the scorpion Vejovis spinigerus.
7199

Contribution to the ecology of the scorpions (Bothriuridae). The habitat of three species of Bothriurus in Uruguay and its application in systematics.
7534

Comparative modifications of the figurative parts of the hemolymph of the Sahara scorpion, Androctonus australis (L.) Hector C. L. Koch, subjected either to environmental stresses or to experimental irradiations.
7690

SCOURS
Bovine respiratory disease, diagnosis and control.
6593

Virus diseases of the respiratory tract in cattle.
7866

SCRAPIE
Histopathologic studies of lung changes in scrapie and nonscrapie blood line sheep maintained in a scrapie environment. 351
Susceptibility of scrapie agent to ionizing radiation. 6575
Distribution of experimentally induced scrapie lesions in the brain. 6580
Natural scrapie in a goat. 6630

SCRAPTER
The biology of Scrapter and its cuckoo bee, Pseudodichrda (Hymenoptera: Colletidae and Anthrophoridae). 5570

SCRUB TYPHUS
Ecological considerations in scrub typhus. 1. Emerging concepts. 2. Vector species. 3. Methods of area control. 2692

SCURF
Helminthosporium solani. 5855

SCUTACARIDAE
A survey of the scutacarid (Acari: Tarsonemini) fauna of Australia. 1895

SCUTELLISTA CYANEA
Ceroplastes rusci L. (Homoptera, Coccoidea, Lecaninae) an interesting example for the study of population dynamics. 749

SCUTELLONEMA
A nematode survey of tobacco soils in Rhodesia and Zambia, and the effects of grass-tobacco rotations on nematode populations. 6303

SCUTELLUM
The sterol esters of maize seedlings. 3055

SCUTIGERELLA IMMACULATA
Damage to field corn by Symphylans. 997
Biological effects of starvation on the garden symphylan. 3306
Glasshouse symphylids. 3443

SCYMNUS XERAMPELINUS
Observations on the natural predators of the aphid pests in the Ranchi District with special reference to Chilomenes sexmaculata Fabr. 1459

SEALS (ANIMALS)
Organochlorine pesticides in seals. 7109

SEASONAL VARIATION
The fresh-water mites from a small pond. 1216
A field evaluation of abate briquettes in woodland pools. 1528
The ecology of a natural population of the Queensland fruit fly, Dacus tryoni. I. The parameters of the pupal and adult populations during a single season. 2205
An ecological study of some soil nematodes associated with apple trees in a New Zealand grassed orchard. 2241
Seasonal fluctuations in the protozoan parasites of the centipedes Lithobius variegatus and Lithobius forficatus in a Yorkshire woodland. 2603
Mosquito studies in northern Wisconsin. II. Light trapping studies. 2654
Where does potato blight come from . 2713
Perennial weed grasses and their control in relation to cereal growing. 2859
Seasonal population changes in cocoa capsids (Hemiptera, Miridae) in Ghana. 3207
To the fauna of ixodid ticks of Mongolia. 3744
Chironomidae (Diptera) from the Hula Nature Preserve, Israel. 7493
Seasonal variation in the marine chironomid, Cluno tsushimensis Tokunaga (Diptera). 7614
Seasonal and diel emergence of Chironomus salinarius Kieff. (Dipt., Chironomidae) near Bergen, Western Norway. 7629
Seasonal emergence of Clunio marinus Haliday (Dipt., Chironomidae) in Western Norway. 7630

SECRETION
Neurosecretion in Dolichopoda geniculata Costa: Observations on pars intercerebralis and on the retrocerebral endocrine system. 61
On arthropod defensive secretions XXV. Anthranilic acid as a precursor of glomerin and homoglomerin, alkaloids from arthropods. 149
Hydrocyanic acid in the defense secretion of the geophilid Pachymerium ferrugineum. Communication on Arthropod protective substances. 1469
On some fibrin-like properties of the secretion products of the salivary gland of the Chironomus larva. 1493
The anal glands of Gryllotalpa gryllotalpa L. ultrastructure and histochemistry. 1948
Histochemistry and ultrastructure of the feminine genital ducts of Gryllotalpa gryllotalpa L. 2016
Defensive mechanisms of arthropods, XXIII. An allenic sesquiterpenoid from the grasshopper Romalea microptera. 2609
The development of research on insect secretions. 2630
Multivesicular bodies in Sclerotinia fructigena and their possible relation to extracellular enzyme secretion. 2718
Insect secretions in plants. 2811
On the components of secretion of mandibular glands of the ant (Lasius (Dendrolasius) fuliginosus). 3170
Studies on the neurosecretory system of the female mole cricket Gryllotalpa africana (Orthoptera: Gryllotalpidae). 3189
Mycetangial glands and their seasonal changes in Gnathotrichus retusus and G. sulcatus. 3275
Insects and physiology; essays presented to Sir Vincent Wigglesworth, CBE, MD, FRS on his retirement from the Quick Chair of Biology and directorship of the Unit of Insect Physiology in the University of Cambridge. 3800
Size independent secretion by the corpus allatum of Calliphora erythrocephala. 3843
The influence of feed and water restriction and pitressin administration upon thyroxine secretion in domestic fowl. 4100
Study of the tegumentary glands and their secretory cycle in the larva of Tipula flavolineata Meig.. 4579
The importance of heterogeneity in the sexual attraction exercised by female Acrolepia assectella Zeller. 4587
Single unit activity in the visual pathway of the butterfly Heliconius erato. 4605
Honey bee recruitment to food sources: Olfaction or language. 4619
The relationship of some insects (Aphididae, Largidae, Pentatomidae, Coccinellidae and Malachiidae) to the pearlhairs or glanduliform emergences of Carica papaya L. 4736
Choleresis in sheep. 4830
Study of variations in neurosecretion at the level of the brain and the sub-esophageal ganglion in the female imagos of Rhodnius prolixus (Stal) Hemiptera. 5202
Histophysiological studies on neurosecretion in the ventral nervous system of Rhodnius prolixus Stal (Hemiptera) during the imago stage. 5213
Production of dauer pupae in Bombyx mori L. 5482
Cytochemical studies on the neurosecretory cells of the brain of Labidura riparia Pallas (Dermaptera). 5611
Salivary secretion in the cattle tick as a means of water elimination. 5641
Studies of physiologically active arthropod secretions. II. Some observations on the scent pencils of male Vitula edmandsae (Lepidoptera: Phycitidae). 5670
The secretory activity of corpora allata during sexual maturation and imaginal diapause in Gryllus domesticus L. and Leptinotarsa decemlineata Say. 7574
Evidence of Gomori negative neurosecretory cells in the Pars intercerebralis of Musca domestica L. by a comparative study using an ordinary microscope and an electron microscope. 7683

SECRETIONS
Defense mechanisms of arthropods. XX. Quantitative assessment of hydrogen cyanide production in two species of millipedes. 1385
Some effects of castration on the protocerebral neurosecretion of the females of Polistes (Hymenoptera, Vespidae). 4601
Ultrastructure of the secretory inclusions of the salivary gland cell in Drosophila. 5562
Occurrence of antimicrobial substance in the exudate of physogastric queen termite Termes repemanni Wasmann. 5582
Collecting method and preliminary analysis of the soluble salivary secretions of the planthoppers. 5618

SEDIMENTATION
Mechanism of the sediment forming in the agglutination test performed with Brucella abortus suspension. 2275
Biochemistry of friend virus-infected cells. I. Virionspecific RNA. 2292

SEDIMENTS
Histopathological examination of the kidneys of a ram who died of a urethral obstruction due to sedimentosis.
6646
Degradation of gamma-BHC in simulated lake impoundments as affected by aeration.
7362

SEED ANALYSIS
Epidemiology and prevention of bacterial blight disease of rice in India.
2183
Nitrogen metabolism in developing seeds of Vicia faba.
7225

SEED COATS
Retardation of the elaboration of aflatoxin in cottonseed by impermeability of the seedcoats.
7268

SEED DISSEMINATION
Long distance dispersal of seeds by retention in digestive tract of birds.
6436

SEED DORMANCY
The interaction of coumarin and temperature in the germination of lettuce seed.
1163

SEED GERMINATION
The influence of the sowing time on the intesity of attack by the panicle generation of frit fly (Oscinella frit L.).
288
Effect of several growth regulators and temperature treatment to rice seed on the germination and initial growth of seedling.
529
Blind seed disease of ryegrass.
989
Weed seed reserves in the soil, in cereal crops.
1037
The interaction of coumarin and temperature in the germination of lettuce seed.
1163
The effects of gibberellin on the metabolism of ethanol-soluble constituents in the cotyledons of hazel seeds (Corylus avellana L.).
1173
Studies on the mechanism of gibberellin-induced seedlessness of Delaware grapes. II. Development of ovules and pollen as affected by prebloom gibberellin treatment.
1174
Gibberellin and hull controlled inhibition of germination in Aegilops kotschyi Boiss.
1177
CCC as a growth regulant of soft white winter wheat.
1813
Effects of herbicides on seed germination and early seedling development of Pinus resinosa.
1823
Germination, growth, and respiration rates of birdsfoot trefoil at three temperatures during the early nonphotosynthetic stage of development.
2110
Relative susceptibility of three peanut cultivars to fat leg (seedling growth anomaly) caused by seed treatment with an organic mercury fungicide.
2119
Survival of root-infecting fungi in soil. X. Sensitivity of propagules of Thielaviopsis basicola to soil fungistasis in natural and alfalfa-amended soil.
2444
Biological activity of PA-X, a plant regulator from bean seeds.
2460
The sterol esters of maize seedlings.
3055
Canonical correlations of seed viability, seed-borne fungi, and environment in bulk grain ecosystems.
3414
Some underground relationships between Agropyron spicatum and Bromus tectorum.
3470
Ecological aspects of weed control in cotton in the Ord River valley, W.A. i. Conditions affecting germination of weeds.
3482
Light filtration by foliar canopies: Significance for light-controlled weed seed germination.
3486
Damage to seeds through storage on chemically treated wood.
3637
Biochemistry of plant immunity and dormancy as the foundation for the crop protection against diseases and germination.
3985
The effect of 3-amino-1,2,4-triazole on the ultrastructure of plastids of Triticum vulgare seedlings.
4685
Germination of Russian thistle seeds.
4916
Comparative behavior of the oospores and oogonia of Phytophthora citricola during germination on an artificial medium.
5798
Effects of age, burial, and region on germination and viability of halogeton seed.
5836
Effect of the low temperature treatment of the wet culture Aspergillus oryzae 8F1 and germinated seed on the increase of the fermentation activity.
5848
The germination of conidia and the appressoriun formation of Alternaria porri on the surface of onion leaves.
5860
Bloodworms- pests of rice.
6200
All we know about pink bollworms.
6271
Progress in witchweed control seen as pest fails to spread.
6319
Weeds.
6344
Herbicidal N,N-dialkenyl-3-chlorobenzamides and method. Patent 3,436,208.
6356
Weed control in nursery sod.
6371
Growth characteristics and herbicide susceptibility of Texas Panicum.
7232
Arginine metabolism in germinating seeds of some members of the leguminosae.
7255
A note on cycocel (2-chloroethyl trimethyl ammonium chloride), a newly released plant growth regulant.
7263
The effect of microelements on the rate and percentage of germination with lucerne and soybean.
7279
Studies on the light sensitivity of Plantago major L. seeds. I. The effect of gibberellin, kinetin and potassium nitrate.
7285
Some factors affecting germination and seedling growth of scotch thistle (Onopordum acanthium L.).
7293
The mutagenic effect by the action of herbicides on barley.
7303
Phytophthora infestans sporangial germination and tuber rot reduced by soil residues of fungicides.
7773

SEED INSECTS
Attack on moco cotton by pink bollworm in Ceara.
4756

SEED PLANTING
The influence of the sowing time on the intesity of attack by the panicle generation of frit fly (Oscinella frit L.).
288
Coated celery seed aids mechanization efforts.
2470
Appearance of weeds and disease in grain and corn after direct drilling.
2784
Sorghum - specialist advice.
5793
Production of maize in tobacco areas.
5821
Soya beans - practical aspects.
5830
Weed control and the economics of direct reseeding.
6318
Changes in ration of sugars and amino acids in cotton-plant and maize upon gamma-irradiation of seeds prior to sowing.
7250
Mutagenic effects of ethyl methanesulfonate on rice seeds.
7807

SEED POTATOES
The method of testing seed potatoes by mean of the callose (Igel-Lange) test.
292
The new seed legislation and its consequences for the planting of seed potatoes.
1852

SEED PRODUCTION (HORTICULTURE)
Attack on moco cotton by pink bollworm in Ceara.
4756

SEED TREATMENT
Hindsight and foresight can control cotton seedling disease.
222
Status of seed treatment for barley smut control.
240
Ratoon stunting disease and drought a disastrous combination.
259
Resistance power of the Austrian winter wheat assortment against dwarf bunt (Tilletia controversa Kuhn).
264
We Squashed the weeds.
326
Effect of several growth regulators and temperature treatment to rice seed on the germination and initial growth of seedling.
529
Effect of hormones on the sugar level of maize (Zea mays L.) plants.
538
The effects of gibberellin on the metabolism of ethanol-soluble constituents in the cotyledons of hazel seeds (Corylus avellana L.).
1173
A contribution to the knowledge of hygienic working conditions in the treatment of seed grain.
1197
Oat seed fungi and their control.
1566
Investigations of effects and effect mechanisms of seed treatment preparations on leaf eating beetles.
1596
CCC as a growth regulant of soft white winter wheat.
1813
Relative susceptibility of three peanut cultivars to fat leg (seedling growth anomaly) caused by

seed treatment with an organic mercury fungicide. 2119

Rhynchosporium leaf blotch of barley. 2745

Some preliminary observations on crown gall therapy with chemicals. 2747

Fungicidal control of disease in cotton. 2755

Physio-chemical problems of developing dusting chemicals and seed incrusting chemicals adhering in net conditions. 2810

Ecological aspects of weed control in cotton in the Ord River valley, W.A. i. Conditions affecting germination of weeds. 3482

The effect of pre-planting seed treatment by gamma rays on the oxidative phosphorylation in cotton leaves. 3676

Why is the disinfection treatment of corn seeds absolutely necessary . 4030

Fusarium foot rot of kenaf (Hibiscus lannabinus L.) in Iran. 4723

Toxicity of organophosphorous insecticides applied as foliar spray, soil drench and seed treatment to Aphis gossypii Glover (Aphididae: Homoptera). 4757

Soya beans - practical aspects. 5830

Hot-water treatment of seed as a method for decreasing the incidence of certain cotton and flax seedling diseases. 5857

Studies on the control of the anthracnose of Acacia dealbata caused by Glomerella cingulata Stonem. 5954

Controlling diseases of dwarf wheats. 5980

Results from a three-year test with the anaerobic method in barley seed disinfection from Ustilago nuda (Pers.) Kell. et sw. 6019

Transfer of Coriandrum sativum L. inflorescence blight through seeds and the influence of seed treatment upon this disease. 6116

Control peanut insects and diseases. 6266

Herbicidal N,N-dialkenyl-3-chlorobenzamides and method. Patent 3,436,208. 6356

Insecticide residues in spring wheat plants grown in the field from seed treated with aldrin or heptachlor. 7132

Growth characteristics and herbicide susceptibility of Texas Panicum. 7232

Testing of fungicides and insecticides 1967. 7763

Seed treatment. Simple and cheap method of controlling diseases. 7815

SEED VIABILITY

The determination of the embryo viability of weed seeds by the TTC method. 4917

SEED-BORNE PLANT DISEASES

Halo blight of bean (Pseudomonas phaseolicola). 2768

Canonical correlations of seed viability, seed-borne fungi, and environment in bulk grain ecosystems. 3414

Why is the disinfection treatment of corn seeds absolutely necessary . 4030

Seed contamination in transmission of halo blight in beans. 4694

Form and mechanism of transmission of plant viruses. Transmission of viruses by seeds, pollen and contact of roots. 4702

Helminthosporium solani. 5855

Progress through research- blue mould of tobacco. 5960

The stripe smut problem in Merion Bluegrass. 5965

Control of survival of Ophiobolus graminis between consecutive crops of winter wheat. 6072

Barley diseases in Western Australia. 6078

Seed treatment. Simple and cheap method of controlling diseases. 7815

SEEDBEDS

Moisture loss after application of soil fumigants. 2697

Control of tobacco mosaic virus in tobacco. 2731

Herbicide versus cultivation for corn with two methods of seedbed preparation. 6343

Application of pesticides to tobacco seed-beds. 8016

SEEDLINGS

Hindsight and foresight can control cotton seedling disease. 222

Didymella bryoniae, a new fungus parasite of cucumber cultures. 232

Effect of atrazine on oats (Avena sativa var. Minhafer) I and II. (Abstract). 490

Shifts in disease resistance induced by growth regulators. 514

Manganese toxicity in tomato seedlings. 518

Effect of gibberellic acid on gamma irradiated barley seeds. 531

Identification of gibberellins in crude plant extracts by combined gas chromatography-mass spectrometry. 534

Studies on the respiration rate in the different parts of the root systems of pine and spruce seedlings and its variations during the growing season. 949

Physiology of parasitism. 2. Biochemical changes in the Mung bean seedling infected with Rhizoctonia solani Kuehn. 954

One previously described and one new species of South American Bruchidae injurious to commercial legume seed crops (Coleoptera). 1275

Aphids and the increase of potato leaf roll virus in seed potatoes on the Wolds of the East Riding of Yorkshire. 1604

The overwintering of aphids and viruses on sugar beet seed crops in England, 1963-1966. 1606

Changes in enzymatic activities in etiolated bean seedling leaves after a brief illumination. 1815

Effects of herbicides on seed germination and early seedling development of Pinus resinosa. 1823

Seedlings vigor evaluation of four birdsfoot trefoil varieties grown under two temperature regimes. 2106

Germination, growth, and respiration rates of birdsfoot trefoil at three temperatures during the early nonphotosynthetic stage of development. 2110

Plot techniques with maize dwarf mosaic virus: II. Greenhouse studies. 2150

An approach to the study of the population dynamics of Aphanomyces euteiches in soil. 2155

Gene dosage effects on monogenic chlorotic lesion resistance to northern corn leaf blight. 2158

Heritability of seeding disease characteristics in flax. 2162

Ontogeny of vessels influence the development of Verticillium in young cotton plants. 2166

Differences in reaction to Puccinia striiformis between first and second leaves in wheat crosses. 2185

A mass screening procedure for isolating alfalfa seedlings with resistance to the alfalfa weevil. 2204

A day of study on the Pelargonium. 2761

Effect on young sugar beet (Beta vulgaris L.) plants of Heterodera schachtii Schmidt 1871, alone, and in combination with Rhizoctonia solani Kuhn 1858. 2778

Pathogenecity of Pratylenchus brachyurus to citrus. 2828

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 2866

The sterol esters of maize seedlings. 3055

Care of tobacco seedlings. 3388

Canonical correlations of seed viability, seed-borne fungi, and environment in bulk grain ecosystems. 3414

Lygus-bug feeding on developing carrot seed: Effect on plants grown from that seed. 3449

Absorption, translocation, and distribution of phorate in loblolly pine seedlings. 3454

How herbicides work. 3464

Some underground relationships between Agropyron spicatum and Bromus tectorum. 3470

Dissipation and phytotoxicity of dicamba. 3687

Uptake and translocation of substituted aniline herbicides in peanut seedlings. 3692

Bioassay for bensulide, DCPA, and siduron in turfgrass. 3695

Fungus diseases of cotton seedlings in Egypt. 3972

Virginia pine, a new host for Cronartium comandrae. 3993

Detectable levels of Xanthomonas malvacearu in cotton gin debris with the seed-soak method. 4002

Corn marigold (goldings, yellow oxeye, yellow bottle). 4072

Cultivation of the sapogenin-bearing Dioscorea species. 4664

The influence of illumination on the development of tumors caused by Agrobacterium tumefaciens (Smith and Town) Conn. on pea seedlings, Pisum sativum L.. 4707

Some experiments on polarity of IAA-2-C14 transport in Helianthus annuus seedlings. 4903

Transmission and translocation of red clover vein mosaic virus in clover. 5921

Poor stands of corn and reduction of root growth caused by Fusarium moniliforme. 5937

Crown gall: Effect of temperature on tumorigenesis in pea seedlings. 5988

A microbiological control of Melampsora medusae. 6011

Selecting and breeding coconut palms (Cocos nucifera L.) resistant to lethal yellowing disease. A review of recent work in Jamaica. 6130

Bloodworms- pests of rice. 6200

DDT-C14 translocation in alfalfa. 6270

Progress in witchweed control seen as pest fails to spread. 6319

The effect of three fumigants on natural weed infestation in a tobacco seed bed. 6337

Preplanting applications of prometryne in cotton. 6340

Precision placement of herbicides for weed control in seedling alfalfa. 6359

Studies on the weed control in the paddy field. I. On the herbicidal weed control in wet and dry nurseries. II. On the herbicidal weed control at the early stage of rice plants in the paddy field. 6401

Formation of adventitious roots in tomato seedlings by CCC treatment. 7273

Effects of herbicides on respiration of red pine seedlings. II. Monuron, diuron, DCPA, dalapon, CDEC, CDAA, EPTC, and NPA. 7290

Mutagenic effects of ethyl methanesulfonate on rice seeds. 7807

The effect of CCC and Amo-1618 on growth, catalase, peroxidase and indoleacetic acid oxidase activity of young barley seedlings. 4908

SEEDS

Gibberellin A23 in immature seeds of Lupinus luteus. 199

Monitoring for chlorinated hydrocarbon insecticide residues in soybeans- 1966. 471

Peroxidase isozymes in barley leaves from irradiated seeds. 554

Cycad husk from Guam: Its toxicity to rats. 1162

Studies on the mechanism of gibberellin-induced seedlessness of Delaware grapes. II. Development of ovules and pollen as affected by prebloom gibberellin treatment. 1174

Spruce budworm larvae damage western larch cones and seeds. 1603

The soybean cyst nematode threat. 1621

Influence of crop sequence, nitrogen fertilizer and herbicides on weed seed populations in sugar beet fields. 1632

The new seed legislation and its consequences for the planting of seed potatoes. 1852

A rice seed farm in Central America. 2107

Survival of soybean cyst nematodes in seed bags. 2243

Apion seed weevil introduced for biological control of Scotch broom. 2254

Preliminary study on the effect of gibberellic acid on fruit set in the Cherimoya. 2452

An accurate and safe hand-operated, vehicle-mounted applicator for granular insecticides in seed orchards. 2469

Coated celery seed aids mechanization efforts. 2470

Control of dicolyledon weed seeds and millet weed in beans with soil herbicides. 2875

Seed crops; annual summary, 1968: Acreage, yield, production, seasonal average price, value of production, by states. 1967-1968. 3344

Fungus leaf spot in soybeans. 3353

Hot-water treatment of plant material. 3461

Damage to seeds through storage on chemically treated wood. 3637

Survival of the soybean cyst nematode in seed stocks. 4049

Gibberellin-induced asymmetric growth of apple fruits. 4318

Effect of seeded fruits and foliar-applied auxin on seedless fruit set of pear the following year. 4332

Foreign quarantine notices. Nursery stock, plants, and seeds. Importation. 4346

Seed contamination in transmission of halo blight in beans. 4694

Germination of Russian thistle seeds. 4916

Effect of gibberellic acid on the fruit-set, and partheno-carpic development of fruit in Bhokri grapes. (Vitis vinifera L) . 4919

The identity of Naphius seed bug pests in Africa (Hemiptera: Lygaeidae). 5143

Interaction of soil reaction and method of seed inoculation on alfalfa. 5781

Preliminary investigations on the phenomenon of photoluminescense of seeds of soybean. 5816

Diseases of the seed potato; how to recognize them before planting. 5905

The possibility of estimating loose smut in a seed lot of barley with regard to the increase from one generation to the next. 5934

A note on the non-transmission of Centrosema mosaic virus through seed. 6076

Some aspects of Fusarium infection of wheat seeds. 6107

Transfer of Coriandrum sativum L. inflorescence blight through seeds and the influence of seed treatment upon this disease. 6116

Pests of legume seed crops in north Queensland. 6245

Do small mammals and birds affect reproduction of spruce and fir . 6406

Radiobiological damage: A new class identified in barley seeds stored after irradiation. 7022

Effects of organic arsenical herbicides on cotton response and chemical residues. 7222

Effect of the moisture content and post-irradiation temperature on the radiosensitivity of wheat and barley seeds. 7239

Gibberellin and growth in stone fruits: Induction of parthenocarpy in plum. 7251

The preparation of L- and D-alpha-amino-beta-methylaminopropionic acids and the identification of the compound isolated from Cycas circinalis as the L-isomer. 7311

1968 vegetable crop investigations in southwest Kansas. 7762

Effect of pesticides on chemical composition of soybean seed (Glycine max (L.) Merrill). 7965

Experiments with black mustard (Brassica nigra) and distribution of varying quantities of calcium nitrate fertilizer 1963 to 1966. 7993

SELENIUM

Dietary hepatic necrosis associated with selenium-vitamin E deficiency in swine. 6723

Effect of paddock size, stocking rate, anthelmintics, and trace elements on the weight gain of young cattle. 6828

Influence of sulfur on incidence of white muscle disease in lambs. 6865

SEMEN

The isolation of infectious bovine rhinotracheitis virus from bovine semen. 1106

Brucellosis in bulls. Correlations between clinical symptoms and agglutination test in blood serum and seminal plasma. 3532

Seminal loss in repeatedly mated female Aedes aegypti. 5621

SEMERON

New possibilities of weed control in chicory (Cichorium intybus). 317

SENECIO JACOBAEA

Ragwort. 4073

SENSE ORGANS

Interactions between individuals and social phenomena. 795

Concerning acoustical stimuli in the insect brain. 1349

On the mechanism involved in perception of light stimuli during the photoperiodic reaction in Lepidoptera caterpillars. (TT 61-23975). 1967

Physiological bases for the luring and catching of insects. 2069

The use of coeloconic sensillae on the female antenna in differentiating the members of the Anopheles gambiae Giles complex. 2589

Insects and physiology; essays presented to Sir Vincent Wigglesworth, CBE, MD, FRS on his retirement from the Quick Chair of Biology and directorship of the Unit of Insect Physiology in the University of Cambridge. 3800

The physiology of mosquitoes. 5266

Mechanism of the insect ear.
5373

A tactile seta of the Two-spotted Spider Mite, Tetranychus urticae K. (Acarina: Tetranychidae).
5460

SEPTICEMIA
Escherichia coli serogroup 115 isolated from animals: Isolation from natural cases of disease.
3548

Respiratory diseases of poultry.
3555

Observations on septicemia of cattle caused by a Haemophilus-like organism.
4211

SEPTOGLOEUM GILLII
Biological control for dwarf mistletoe.
1631

SEPTORIA
Studies on the mode of action of tomatine as a fungitoxic agent.
960

Studies of Leptosphaeria avenaria f. sp. triticea on wheat in North Dakota.
3970

Pessimism over crop diseases.
4679

Results from the International Septoria assortment in 1966.
5876

Collected papers on cereal diseases. (Septoria, Fusarium, yellow rust).
5881

Breeding for Septoria and Fusarium resistance in wheat.
5925

Septoria spot on grapefruit in Southern California.
6101

The influence of CCC on disease contraction of grain.
7322

SEPTORIA NODORUM
Results of tests of wheat varieties as to their resistance against grain diseases, carried out in the reclaimed land of the North East between 1961 and 1964.
5875

Some aspects of Fusarium infection of wheat seeds.
6107

SERINE
Effect of arginine or serine on the need for glycine by the chick fed amino acid or casein diets.
2273

Effect of dietary serine on survival and rate of development of Oryzaephilus surinamensis (Coleoptera: Silvanidae).
2565

Conversion of serine to glycine during the formation of egg-shells in the silkworm, Bombyx mori.
3227

D-Amino acids in animals.
5271

Occurrence of D-serine in aseptically grown Bombyx mori.
7685

SERINE HYDROXYMETHYLTRANSFERASE
Effect of arginine or serine on the need for glycine by the chick fed amino acid or casein diets.
2273

SERODIAGNOSIS
Babesidae (Sporozoa; Piroplasmida) infections and tick infestations of cattle in some provinces of the Black Sea region of Turkey.
1666

Polyvalent parainfluenza CF antigen for serodiagnosis.
4166

Recent techniques for serodiagnosis of human and animal hydatidosis. IV. Test with sensitized particals of Latex.
6513

Hemagglutinin of rabies and some other bullet-shaped viruses.
6611

SEROLOGICAL TESTS
Study of the soluble heat-stable toxin in various strains of Bacillus thuringiensis Berliner.
68

Possibilities and limits of visual selection in the control of the virus diseases of grapevines: An experience with some red varieties in the Swiss romand.
224

The present clinical and pathological picture of chronic erysipelas infection in pigs. III-V.
344

Feline panleucopenia- a serological study.
356

Preliminary study of an enterovirus isolated from a balanoposthite lesion of cattle.
357

A serological inquiry about brucellosis in Toulouse veterinary students.
363

Medical observations concerning ornithosis control in the poultry industry.
365

Studies on the epidemiology of vesicular stomatitis virus.
376

The occurrence of streptococci of various serological groups as the cause of mastitis with special consideration of group L.
389

Characterization of agglutinins of cattle serum against Brucella abortus.
411

Studies on vibrionic infection of sheep and carrion crows.
450

Note on the simultaneous use of polyvalent H and Spicer-Edwards H antisera as a preliminary step in the identification of Salmonellae.
464

Classification of strains of the group Bacillus thuringiensis through determination of the flagellar antigen. 2.
963

Virus leaf spot in grape plants.
986

Serological classification of Soviet strains of Leptospira belonging to the group Hebdomadis.
1060

Application of latex-agglutination to the measurement of antibody response to M. pneumoniae vaccines.
1078

A new salmonella serotype of the C 2 group, Salmonella sandow.
1087

Biological observations on some sandflies (Phlebotomus) of Rancho Grande (Venezuela). 4. Investigation of alimentary preference of the females of P. townsendi in nature.
1102

The susceptibility of some Australian fauna to infection with foot and mouth disease virus.
1105

Electron microscopy as an aid to the rapid identification of animal viruses.
1107

Serologic evidence of diseases in Texas coyotes.
1112

Serological changes in ex-germfree rats mono-associated with Salmonella typhimurium.
1117

Antibody and cellular response in lambs immunized against Trichostrongylus axei.
1132

Relationships among the polyhedrosis and granulosis viruses of insects.
1360

Membrane feeding and infectivity neutralization used in a serological comparison of potato leaf roll and beet western yellows viruses.
1601

Inactivation of the phages of Staphylococcus aureus by hydroxylamine.
1642

Abortion in sheep associated with Brucella abortus infection.
1647

Use of an antiglobulin plaque neutralization test among group A arboviruses.
1656

In vivo--produced anthrax toxin.
1663

Persistent viremia in EIA infected horses.
1664

Response and specificity of antibodies for Candida albicans.
1665

Babesidae (Sporozoa; Piroplasmida) infections and tick infestations of cattle in some provinces of the Black Sea region of Turkey.
1666

Contribution to the knowledge of the virus of the African horse pest. II. Communication.
1671

Studies on cytopathogenic viruses isolated from cats with respiratory infections. I.
1677

An epizootiological study of the development of cattle brucellosis in Czechoslovakia--detection.
1680

Classification of strains of Pasteurella multocida isolated from poultry.
1686

Leptospirosis in pigs: Epidemiology, microbiology and pathology.
1690

On the type specificities of rabbit anti-S. typhi antibodies.
1695

Bovine vibriosis in the state of Sao Paulo (Brazil). Isolation of Vibrio fetus and research of agglutinins anti-Vibrio fetus in the vaginal mucus.
1696

The differentiation of different strains of the virus of canine infectious hepatitis.
1697

Immuno-biological properties of lipo-polysaccharides isolated from Listeria monocytogenes.
1703

Studies on the antigenic activities of yeasts. II. Isolation and inhibition assay of oligosaccharides from acetolysate of mannan of Candida albicans.
1707

Diagnosis of heartworm disease by examination of the blood.
1747

Laboratory evaluation of the heartworm-infected patient.
1762

Proof of the presence of the tomato bushy stunt virus in grape tendrils.
2120

Cell inclusions of Holmes' ribgrass virus, an analog of tobacco mosaic virus.
2153

Investigations concerning ringspot virus disease of the cherry. III. Serological investigations.
2168

Purification and properties of broad bean wilt virus.
2189

Stability of Escherichia coli endotoxin in the rat gastrointestinal tract.
2279

Application of the kinetic seroneutralization test to the research of Rinderpest neutralizing antibodies in cattle sheep and goat.
2282

Materials on the epidemiology of tick-borne encephalitis in the zone of construction of Sayano-Shushenskaya hydropower station.
2289

Presence of antibodies against Rinderpest in dromedary in Chad. 2318

Serological survey on the Rickettsioses in dromedary in Chad. 2319

Serological differentiation of mycoplasma in swine. 2338

A new species of Salmonella of Nigerian origin, Salmonella Biafra. (3, 10:z10:26). 2439

A serological comparison of Pissodes strobi and P. approximatus (Coleoptera: Curculionidae). 2632

Concentration of potato-M-virus in potatoes and tomatoes. 2709

Serological relationships of physiologic races A-1 to A-8 of Phytophthora fragariae. 2744

Purification and properties of broad bean wilt virus. 2792

An unusual strain of tobacco mosaic virus from orchids. 2794

Ascariasis in pig and in man. 2876

Clinical signs and pathology of chronic pancreas diseases of the dog. 2893

Equine infectious anemia. 2899

Haemorrhagic nephritis in experimental bovine leptospirosis bratislava. 2901

The virus-caused respiratory diseases of the cat. 2906

Shared group-specific antigen of murine and feline leukemia viruses. 2909

Abortions in cattle: Isolation of Salmonella dublin. 2912

Pathogenic Escherichia coli strains prevalent in poultry flocks in Israel. 2914

A trend in the prevalence of brucellosis in Iowa swine. 2916

Toxoplasma and toxoplasmosis. 2923

Value and interpretation of serological tests for the diagnosis of cryptococcosis. 2926

Studies on the blood chemistry of cattle in a herd infected with Johne's disease. 2930

Diagnostic tests for brucellosis. 2934

Nocardia asteroides, cause of an endemic mastitis in the cow. 2950

Rabies diagnosis. Comparative study on susceptibility of adult and suckling mice. 2951

Notes on Pasteurella tularensis isolated from a vole, Microtus oeconomus Pallas, in Alaska. 2959

Brucellosis in Britain. 2969

Isolation of Toxoplasma gondii from the flesh of sheep, swine and cattle. 2983

Screening of feed components for Salmonella with polyvalent H agglutination. 3005

Serological studies of Bratislava mosaic virus of grape vine. 3405

A study on the ecology of arbovirus in the provinces of Latina and Gorizia (1964-1967). 3509

An interference type of serological test for infectious bronchitis virus using Newcastle disease virus. 3510

Avian leucoses: 1966-1967. 3523

Ovine leptospirosis. A study of its frequency in Argentina. Isolation and classification of a new ovine strain. 3524

Bovine Leptospira pomona infection: The disease in cattle infected during an experimental outbreak. 3537

Virus isolation and serologial studies of arthropod-borne virus infections in a high rainfall area of North Queensland. 3539

An approach to identifying atypical streptococci from bovine mastitis- Serological classification and resistance determinations. 3542

Melioidosis in animals in north Queensland. V. Serological methods of diagnosis in sheep. 3560

Melioidosis in animals in north Queensland. VI. Serological methods of diagnosis in goats, pigs, cattle, horses, and man. 3561

Leptospirosis in Argentina. 3581

Leptospirosis II. 3599

An attempt of biochemical and serological classification of 24 strains of the bacillus of the type B. thuringiensis. 3677

Isolation of the tick-borne encephalitis virus from the squirrel Sciurus vulgaris. 4168

Serological typing of mycobacteria for tracing possible sources of avian mycobacterial infections in man. 4170

Towards the eradication op bovine tuberculosis. 4172

Progress of the Soviet virology in foot-and-mouth disease studies. 4181

The use of serologic methods for the control of Mycoplasma meleagridis in turkeys. (Abstract). 4198

A survey of Brucella infection of cattle in Kenya. A comparison of four serological tests for the diagnosis of infection. 4202

Symposium on Brucellosis in Ireland. I. Brucellosis: Bacteriology and epidemiology. II. Brucellosis: Serological diagnosis. III. Vaccines and brucellosis. 4260

Two strains of Bacillus thuringiensis Berliner isolated from larvae of disparate Bombyx Lymantria dispar. 4503

The nature of pathogenicity of Pseudomonas aeruginosa for Galleria mellonella. 4551

Virulence, adsorbability, and antigenicity of foot-and-mouth disease virus selected by adsorption with homogenized mouse kidney. 4802

Serological identification. 5280

The classification of strains of Bacillus thuringiensis on the basis of the antigenic patterns of the toxic protein inclusions. 5521

Five new cases of Chagas' disease in Zacatecas and Jalisco in the Republic of Mexico. 5760

Serological differentiation of Pythium aphanidermatum from Phytophthora parasitica var. nicotianae and Ph. parasitica. 6021

Purification, bioassy, properties, and serology of rice viruses. 6102

Immuno-fluorescent study of antibody formation in immunization of guinea pigs with a live brucella culture. 6478

Isolation of equine rhinopneumonitis virus from acute respiratory disease in a horse in Queensland. 6480

Role of complement in immune inactivation of Mycoplasma gallisepticum. 6486

Canine leptospirosis in Argentina. 6507

Leptospirosis icterohaemorrhagiae in dogs in Tasmania. 6531

Equine influenza in Mexico. Isolation and study of the strain E/Equi 2/ Mexico/1/66. 6538

Outbreak of ornithosis in a flock of carrier pigeons in Copenhagen. 6584

Characterization of Mycoplasma suipneumonaii A mycoplasma causing enzootic pneumonia of pigs. 6597

Suspected primary hyperparathyroidism in the dog. 6601

Antigens of Brucella abortus. I. Chemical and immundelectrophoretic characterization. 6628

Serological examination for evidence of brucellosis and leptospirosis in beef herds in New South Wales. 6633

Brucella ovis infection 1.An evaluation of microbiological, seriological and clinical methods of diagnosis in the ram. 6634

Cultural characters and serological relationships of some mycoplasmas isolated from bovine sources. 6641

Attempts to induce recombinant somatic cells in chicken erythrocyte chimaeras by repeated injection of western equine encephalomyelitis virus. 6660

Early antibody response in mice to either infection or immunization with Salmonella typhimurium. 6665

Experimental infection of the bat Myotis myotis Borkhausen with the Tahyna virus. 6674

Ovine anti-brucellosis serology. Vaccine and infectious antibodies. Serums negative to the seroagglutination of Wright and positive to complement deviation. 6689

Electron microscopy study of the localization of antigens in a virulent and an avirulent strain of Francisella tularensis, using mercury-labelled antibodies. 6719

The isolation of Leptospira sejroe from the kidneys of aborting cattle. 6724

Salmonellosis in sheep. I. Production of a complex antigen and some of its chemical and serological features. 6725

Antibody response in animals immunized with different types of anthrax vaccine. 6755

Beware of brucellosis. 6761

Investigations on the incidence of rinderpest virus infection in game animals of n. Tanganyika and s. Kenya 1960/63.
6769

A study of the relationship between the serological Salmonella types isolated from humans and from foodstuffs.
6774

Studies on infectious laryngotracheitis (ILT) virus of poultry. I. Isolation and identification of the virus.
6775

Studies on infectious laryngotracheitis (ILT) virus of poultry. II. Survey of the infection by immuno-diffusion test.
6776

A hemagglutination-inhibition test for Mycoplasma meleagridis antibodies.
6787

Dynamics of Salmonella infection in chicks reared on litter.
6823

The evaluation of the metabolic-inhibition technique for the study of Mycoplasma gallisepticum.
6839

A preliminary report on the incidence of infectious laryngotracheitis (ILT) of poultry by gel-diffusion test.
6852

Investigations of antiviral substances present in normal horse and calf sera.
6883

Homocytotropic antibody response in mice infected with Schistosoma mansoni: Comparasion with the response following Trichinellaspiralis infection.
6979

Comparison of two procedures for detection of Salmonella in food, feed, and pharmaceutical products.
7056

Accelerated procedure for Salmonella detection in dried foods and feeds involving only broth cultures and serological reactions.
7068

Purification and properties of in vitro--produced anthrax toxin components.
7162

Antigenic relationships of the venom of Atractaspis microlepidota to that of other snakes.
7186

Comparative serology of a complex species group of food-plant specialists: The Rhagoletis pomonella complex (Diptera: Tephritidae).
7545

Gel filtration of leptospiral lipase on Sephadex G 200.
7872

A survey of diseases in fallow, Virginia and Japanese deer, chamois, tahr, and feral goats and pigs in New Zealand.
7875

Bovine brucellosis in Madhya Pradesh (a serological study).
7892

Diagnosis of rinderpest.
7915

Antigens of Moniezia expansa: Fluorescent antibody localization.
7938

SEROTONIN
Candida albicans as a producer of serotonin.
3710

Relationship between serotonin and the circadian rhthym in some nocturnal moths.
5364

SERRATIA MARCESCENS
The biological control of the European corn borer through the use of bacteria.
1009

Serratia marcescens found in eggs of Heliothis zea: Tests against Trichoplusia ni.
3165

Cross-protection against Salmonella enteritidis infection in mice.
6528

SERROPALPUS SUBSTRIATUS
Wood-and-bark-feeding Coleoptera of felled spruce in interior British Columbia.
4425

SERUM
Cultures of insect tissues with the aid of mammalian serum.
168

Indirect complement fixation in foot-and-mouth disease. I. Study of antibody response in experimental cattle and sheep. II. Screening of cattle serum.
429

Effect of specific immune mouse serum on the growth of Salmonella enteritidis in nonvaccinated mice challenged by various routes.
1062

Serum-mediated immune cellular responses to Brucella melitensis. V. Infection of macrophages under anaerobic conditions.
1095

Paraquat poisoning treated by forced diuresis.
1801

Viruses, serums, toxins and analogous products: Organisms and vectors. Labels. Miscellaneous amendments.
1851

Cellular and extracellular activities implementing selective assimilation of yolk proteins by Cecropia oocytes.
1919

Materials on the epidemiology of tick-borne encephalitis in the zone of construction of Sayano-Shushenskaya hydropower station.
2289

Loss of serum proteins via the intestinal tract in calves with infectious diarrhea.
2317

A study of immunological reactions in bovine fascioloidiasis (Fascioloides magna).
2359

The fractionation of foot-and-mouth disease hyperimmune serum from cattle by a combination of gel filtration and column electrophoresis.
2955

Equine leptospirosis.
2962

Effect of pH and ionic force on the reaction rate of organophosphorus compounds with serum-derived cholinesterase.
3033

Virus isolation and serologial studies of arthropod-borne virus infections in a high rainfall area of North Queensland.
3539

The occurrence of virus and interferon in the spleen serum and brain in mice after experimental infection with the West Nile virus.
3552

Studies of avian leukosis group-specific complement-fixing serum antibodies in pigeons.
3585

Leptospirosis II.
3599

Biochemical research on hog cholera. Behavior of some enzymatic activities in the serum.
4132

An improvement of the indirect fluorescent antibody test for the diagnosis of intraerythrocytic parasitic infections.
4183

Studies of serum enzymes in swine infected by two strains of hog cholera virus.
4804

Maintaining high-quality veterinary biologics.
6429

Behavior of equine infectious anemia virus in cell culture and development of a diagnostic test for the disease.
6562

Arbovirus-erythrocyte interaction. Adsorption, elution and neutralization of virus.
6589

Outbreak of influenza A/equi 2 in Italy.
6756

Experimental studies on bovine tick-borne fever. 1. Clinical and haematological data, some properties of the causative agent, and homologous immunity.
6844

Neuraminidase activity of the Newcastle disease virus. I. A study of the enzyme activity in differently cultivated strains.
6847

Investigations of antiviral substances present in normal horse and calf sera.
6883

A virus inhibitor circulating in the blood of chickens, induced by Francisella tularensis and Listeria monocytogenes.
7901

SERUM AGGLUTINATION
Abortion in sheep associated with Brucella abortus infection.
1647

Ovine anti-brucellosis serology. Vaccine and infectious antibodies. Serums negative to the sero-agglutination of Wright and positive to complement deviation.
6689

SERUM ALBUMIN
Blood chemical and cellular changes in canine dirofilariasis.
420

In vitro absorption of bovine serum-albumin, gammaglobulin and Brucella-antigens by spleen cells.
2952

Histamine in the cow. Effect of histamine and estradiol administration on protein concentrations in milk.
3505

SERUM GLOBULINS
Histamine in the cow. Effect of histamine and estradiol administration on protein concentrations in milk.
3505

SERUM NEUTRALIZATION TEST
A perplexing case of hog cholera confirmed by virus isolation and supported by the fluorescent antibody serum neutralization test.
348

Isolation and characterization of the aetiologic agent of buffalo-pox.
3588

Experimental infection of cattle with pantropic Rift Valley fever virus.
6524

Vaccination of the horse for equine influenza with an uncomplemented polyvalent vaccine.
6534

Avian reoviruses. IV. Relationship to human reoviruses.
6548

Newcastle disease in Francolinus francolinus, Francolinus pondicerianus and in Bambusciola thoracica.
6588

Observations of infectious diarrhea as part of the shipping fever syndrome in feedlot cattle.
6631

Studies on the fluorescent and neutralizing antibodies to bluetongue virus in sheep.
6766

Studies on goat-pox virus. II. Serological reactions.
6806

Occurrence of infectious bronchitis of poultry in India.
6853

SESAME
Note on the control of gall-fly (Asphondylia sesami Felt.) on sesame.
2814

Effect of a soluble fraction of oil seed meals on uptake of 65Zn from ca.mg.65Zn.phytate complexes by the chick'.
6690

SESAMIA CALAMISTIS
The structure of the hindgut and associated structures of the larva of Sesamia calamistis Hampson (Lepidoptera: Noctuidae).
2569

SESAMIA INFERENS
The contribution of insect control to high yields of rice.
993

Record of a Tachinid parasite, Alsomyia anomala Villen, Sesamia inferens Wlk..
5400

SESIIDAE
Bembecia pectinata Stgr. and its first stages. (Lepidoptera, Sesiidae).
3873

SESONE
Response of mixed crop of wheat and rape to three chlorophenoxy herbicides.
4777

SESQUITERPENOIDS
Defensive mechanisms of arthropods, XXIII. An allenic sesquiterpenoid from the grasshopper Romalea microptera.
2609

SETARIA ITALICA
Effect of Spartin under dryland farming on Setaria italica (Beauv.).
4915

SETARIA VIRIDIS
Observations on the causes of chronic bloating in young cattle.
6537

SEWAGE DISPOSAL
The use of gas chromatography in detecting lindane in sewage effluent.
483

SEWAGE TREATMENT
Abundance and microdistribution of larval Chironomidae in stabilization lagoons.
4432

SEX
Soil surface zoo-microbial complex of Orthoptera and Tenebrionids in the southeast Altaimountains and their relationship to soil formation processes.
888

Field and laboratory studies of attraction of the synthetic sex pheromone to male cabbage looper moths.
1986

Isolation of a sex pheromone of the codling moth.
2013

Sex and selection for a quantitative character in Drosophila. I. Single-sex selection.
2076

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism.
2077

Isolation, identification, and synthesis of the sex attractant of the black carpet beetle. Final report, June 1, 1965 - October 31, 1967.
3148

Population biology of tropical African butterflies. Sex ratio and genetic variation in Acraea encedon.
3259

Sex differences in longevity of starved cockroaches (Leucophaea maderae).
3290

Sex and selection for a quantitative character in Drosophila. II. The sex dimorphism.
3329

Sex and selection for a quantitative character in Drosophila. I. Single-sex selection.
3330

Sex lure hoax may prove male beet wireworm's undoing.
4765

Isolation of conjugation-constitutive mutants of Colicin factor Ib.
4832

Observation on the sex ratio in Pieris brassicae (L.) (Lepidoptera-Pieridae).
5233

Studies on the sex ratio of the gypsy moth.
5248

The breeding of Lytta vesicatoria in the laboratory and demonstration of cantharidin synthesis in larvae.
5468

Karyological studies on the Indian spiders. VIII. Mitosis and meiosis in two species belonging to the family Gnaphosidae.
5478

Lipids in the melanic mutant of the large milkweed bug, Oncopeltus fasciatus.
5689

Environmental and genetic variations of wing size, cell size and cell division rate, in Drosophila melanogaster.
5700

Linkage of gold, its recessive lethality and sex-related variation in crossing-over in Culex pipiens (Diptera: Culicidae).
5722

Toxicity of pesticides to man: Risks from present levels.
7107

The effect of sex and age on the response to warfarin in a non-inbred strain of mice.
7198

Complex sex-determining mechanisms in three species of South American grasshoppers (Orthoptera, Acridoidea).
7742

The effects of some soil-borne fungi on the sex ratio of Heterodera rostochiensis on tomato.
7786

Sterols in Ascaris lumbricoides.
7935

SEX ATTRACTANTS
Sex attractant of sugar beet wirework: Identification and biological activity.
55

Insects destroy themselves.
823

Spectrometric identification of insect sex attractants.
1475

Behavioral and physiological aspects of mating and oviposition by the adult western corn rootworm, Diabrotica virgifera LeConte.
1936

Influence of the form of traps upon the attractiveness of sexual odour of gypsy moth females.
2472

Attractants for the Japanese beetle.
3199

A polyethylene bag for dispersing the synthetic sex pheromone of the cabbage looper.
3292

Studies on sex pheromones of Pyralididae. Changes in the quality of the sex pheromone in the female almond moth, Cadra cautella Walker (Phycitinae).
3841

The use of attractants in pest control. 2. Sex attractants.
3848

Studies on sex pheromones of pyralididae. II. Mass rearing of virgin females of the almond moth, Cadra cautella Walker (Phycitinae).
3880

Specificity in insecticides.
4507

Response of some stored-product insects to Trogoderma granarium pheromones.
4625

A synthetic attractant for the male spruce budworm moth Choristoneura fumiferana (Clem.).
5305

Field studies of an attractant in the male boll weevil.
5338

Sex attractant identified in click beetles of the sugar-beet wireworm.
5442

Studies of physiologically active arthropod secretions. II. Some observations on the scent pencils of male Vitula edmandsae (Lepidoptera: Phycitidae).
5670

SEX BEHAVIOR
Observations on the reproduction of Hemitarsonemus latus (Banks) (Acarina Tarsonemidae).
137

Chloropid flies of the genus Dicraeus Lw. (Diptera, Chloropidae).
673

Observation of the sexual behavior of Hofmannophila pseudospretella. (Abstract).
810

Circumversion and mating positions in Platypezidae--an expanded and emended account (Diptera).
1419

A study of area occupation and mating behavior in Incisalia iroides (Lepidoptera: Lycaenidae).
1452

Bionomics and taxonomy of Meloe (Coleoptera, Meloidae), with a classification of the New World species.
1903

Principles of crowding effect in Aphis gossypii Glover (Aphididae, Homoptera).
1975

A comparative study of communication in grasshoppers.
2023

A quantitative bioassay for the sex pheromone of Epiphyas postvittana (Lepidoptera) and factors limiting male responsiveness.
3161

Daily fluctuations in the concentrations of total sugar and uric acid in the hemolymph of Periplaneta americana.
3217

A study of area occupation and mating behavior in Incisalia iroides (Lepidoptera: Lycaenidae).
3262

Evidence of a second generation of the alfalfa weevil in southern Illinois.
3311

The importance of heterogeneity in the sexual attraction exercised by female Acrolepia assectella Zeller.
4587

The wing mechanism involved in the courtship of Drosophila.
5219

Phoretic copulation in Hymenoptera.
5298

The influence of the duration of copulation on the fertility of the females of Acanthoscelides obtectus Say (Insecta Coleoptera).
5376

Sex pheromones of noctuid moths. XIII. Changes in pheromone quantity, as related to reproductive age and mating history, in females of seven species of Noctuidae (Lepidoptera).
5603

Chemosterilisation of the red bollworm, Diparopsis castanea Hmps. (Lepidoptera: Noctuidae).
7585

The effect of genotype, mating status, weight and ege production on longevity in Drosophila melanogaster.
7628

SEX DETERMINATION
Sex chromatin of the gypsy moth Lymantria dispar and the meal moth Ephestia kuehniella.
1514

Sex chromatin of a locust.
1516

Automated sexing of pupae and its usefullness in control by sterile insects. 2097

Comparative analysis of spontaneous aneuploidy in males and females of Drosophila. 2682

DNA synthesis in the neo-X neo-Y sex determination system of Dichroplus bergi (Orthoptera: Acrididae). 4633

The karyotype of some Australian species of Macropathinae (Gryllacridoidea--Rhaphidophoridae). 4643

Sex chromatin in Lepidoptera. 4649

The sexual difference in the silk worm cocoons relative to the optical properties. 2. Fluorescent spectro-characteristics of cocoons. 4973

Is one able to diagnose the sex of the moth, Celerio euphorbiae (Lep., Sphingidae) in the caterpillar stage . 5070

Sex-Determination. 5273

The chromosomes of the caddis-fly, Glyphotaelius pellucidus (Retzius, 1783) (Trichoptera: Limnephilidae, Limnephilinae). 5714

On the multiple sex-chromosome mechanism in Trapezonotus arenarius L. (Heteroptera, Lygaeidae). 5724

SEX HORMONES

Growth, feed efficiency and gross chemical composition in market-weight pigs as influenced by a combination of synthetic sex hormones and tylosin. 6420

SEX RATIOS

Rate of multiplication and sex ratio in relation to the quantity of food material in Bracon brevicornis Wesmael and Perisierola nephantidis Muesebeck. 866

Factors affecting the sex ratio of Aphytis proclia Wlk. (Hymenoptera, Aphelinidae), external parasite on the San Jose scale. 891

Post-fertilization effect of incompatibility factors in Mormoniella. 928

Investigations into the ecology of the Coleoptera fauna of coastal cultivated land near Greifswald. Part I. The Carabid fauna adjacent to fields and pastures with intermediate field borders. 1007

The Mantodea of Lamto and the savannahs in the Ivory Coast. 1254

Notes on the genus Boreus in Norway. 1390

Sex-ratio depression as a brood-pattern criterion of radiation damage in Drosophila melanogaster. 1505

Viability, proportion between the sexes and of the X chromosomes of Drosophila melanogaster. 2074

Species dominance in co-incident infections by Meloidogyne hapla and M. javanica on tomato. 2247

A sex-ratio aberration in Drosophila melanogaster (Meigen). 2683

Population models for supression of the sugarcane borer by inherited partial sterility. 3303

Effect of melatonin on egg production of the boll weevil, Anthonomus grandis. 4571

The murids in the vicinity of Lake Kivu and neighboring regions (Central Africa) and their ecology. 7045

SHADE TREES

The biology of Thanatopsyche chilensis (Philippi). (Lepidoptera). 101

SHEATH BLIGHT

Some cultural studies on Rhizoctonia solani the causal organism of sheath blight of paddy. 3382

SHEEP

Interstate transportation of animals and poultry. Scabies in sheep. Interstate movement. 338

Control by ovarian status of induced leukocytic responses in the sheep uterus. 346

Histopathologic studies of lung changes in scrapie and nonscrapie blood line sheep maintained in a scrapie environment. 351

Some effects of route of administration and dilution on the toxicity of carbon tetrachloride drenches for sheep. 361

Brucella ovis infection. 373

Indirect complement fixation in foot-and-mouth disease. I. Study of antibody response in experimental cattle and sheep. II. Screening of cattle serum. 429

Strain variation in the response of Haemonchus contortus in sheep and goats given phenothiazine: Efficacy of N.F. and purified products on pure parasitic infections. 439

Control of internal parasites of swine and sheep with dimethyl 2,2-dichlorovinyl phosphate. Patent 3,408,443. 444

Gains from worm drenching ewe hoggets in South Canterbury. 445

The incidence of disease resulting from infection with Haemonchus contortus in sheep sent to the Veterinary Investigation Centres in England and Wales from 1965 to 1967. 447

Studies on vibrionic infection of sheep and carrion crows. 450

Suspected sodium fluoroacetate poisoning in sheep and cattle. 511

Interstate transportation of animals and poultry. Part 74. Scabies in sheep. Interstate movement. 1052

Lipidosis of the hepatic reticulo-endothelial cells in a sheep. 1079

Toxicity of Crotalaria mucronata to sheep. 1080

Neuronopathy in sheep fed Swainsona luteola and S. galegifolia. 1081

Plunge or shower dips. 1127

The anthelmintic activity of the optical isomers of tetramisole in sheep and cattle. 1128

Antibody and cellular response in lambs immunized against Trichostrongylus axei. 1132

Food additives permitted in the feed and drinking water of animals or for the treatment of food-producing animals. Food additives permitted in food for human consumption. Diethylstilbestrol. 1641

Abortion in sheep associated with Brucella abortus infection. 1647

Sheath rot is on the increase. 1674

Significance of allergic tests for diagnosis of Johne's disease in sheep and goats. 1699

Assay of tetramizole, orally and subcutaneously, for treatment of gastro-intestinal nematoiasis of sheep. 1770

The residual activity of Disophenol in the treatment of nematodiasis of ovine and bovine. 1771

Moldy feeds pose hazard. 2277

Application of the kinetic seroneutralization test to the research of Rinderpest neutralizing antibodies in cattle sheep and goat. 2282

Enterotoxaemia: Deadly disease of sheep. 2290

Researches concerning the toxoplasmosis identification and the toxoplasmic abortion in the ovic cattle of Banat. 2294

The pathogenesis of ovine Contagious Ecthyma. 2307

Immunity in ewes resulting from natural exposure to Vibrio fetus. 2321

Experiments for liquidating abortions in ewes on sheep farms with abortions. 2330

Pathologic responses of the mature and developing nervous system to bluetongue virus. 2336

Effect of thiabendazole on Pithomyces chartarum (Berk. Curt.) M. B. Ellis. 2340

Cytology of pink-eye of sheep, including a reference to trachoma of man, by employing acridine orange and iodine stains, and isolation of Mycoplasma agents from infected sheep eyes. 2344

Liver-fluke in Madagascar. Biological cycle of Fasciola gigantica. 2361

Notice of filing of petition regarding pesticide chemicals. 2392

Notice of filing of petition regarding pesticide chemicals. 2393

The effect of even or uneven applications of DDT prills to pasture on DDT residues in stock. 2402

Notice of filing of petition regarding pesticide chemicals. 2414

Heptachlor residues in soil, pasture, and stock resulting from the treatment of soil or pasture with heptachlor granules. 2424

Sheep disease problems associated with high density stocking. 2878

Sheep foot rot control. 2898

Effects of diets low in calcium and/or phosphorus in lambs. 2903

Epidemiological studies on Salmonella senftenberg. II. Infections in farm animals. 2918

Infectious keratoconjunctivitis in sheep caused by Moraxella bovis. 2944

Isolation of Toxoplasma gondii from the flesh of sheep, swine and cattle. 2983

Control of lice in sheep and cattle. 2990

Spring rise phenomenon in ovine helminthiasis II. In stabled ewes experimentally infected with Haemonchus contortus. 3000

Liver fluke in the north of Scotland. 3002

Gorse control at a profit. 3488

Ovine leptospirosis. A study of its frequency in Argentina. Isolation and classification of a new ovine strain. 3524

A histological study of the effects of enzootic abortion of ewes virus in the lactating bovine mammary gland. 3534

Escherichia coli serogroup 115 isolated from animals: Isolation from natural cases of disease. 3548

The control of footrot. 3551

Melioidosis in animals in north Queensland. V. Serological methods of diagnosis in sheep. 3560

Isolation of Brucella abortus from goats and sheep in the Punjab. 3567

Hydatids. 3568

Epizootiologic and laboratory researches on Aspergillus fumigatus in fowl, young cattle and sheep. 3580

Investigations of the properties of capsulogenus strains of Staphylococcus aureus. 3596

Clover disease. 3598

Footrot in sheep. 3603

Liver fluke disease control with a new molluscicide . 3616

The liver fluke in sheep. 3617

Some aspects of the control of helminthosis in sheep. 3622

Studies on the acquired resistance of sheep to Dictydcaulus filaria (Rudolphi, 1809) Railliet and Henry, 1907. 3626

Studies on the spring rise phenomenon in ovine helminthiasis I. Spring rise in stabled sheep. 3630

Research on paramphistoma-induced infections in the ruminants of the Tulcea district. 3634

Insects and mites of livestock and in farm buildings. 3792

Ovine genital brucellosis. Epididmytis of the ram (Brucella ovis). The utilization of a new antigen for the complement fixation test and intradermal reaction. 4126

Experiments on the loss of Dictyocaulus filaria from the lungs of infected sheep. II. The demonstration of worms in the bronchial spare mucus. 4276

Further studies on the anthelmintic activity of l-tetramisole against gastro-intestinal helminths in sheep. 4279

The anaemia of acute and chronic ovine fascioliasis. 4280

Organic phosphate poisoning of sheep in Skull Valley, Utah. 4304

Studies on enzyme synthesis of cerebroside sulphate from 3'-phosphoadenosine-5'-phosphosulphate. 4788

Axis cylinder degeneration associated with ryegrass staggers in sheep and cattle. 4825

Choleresis in sheep. 4830

Immunochemical characterization of sheep plasma glycoprotein. 4838

Prevent worms to increase sheep profits. 4856

Host-parasite relationship. 1. Studies on the productivity of sheep as affected by Haemonchosis. 4858

Veterinary treatment of farm animals in the case of external radioactive contamination. First communication. Veterinary treatment of sheep and pigs externally contaminated with phosphorus32 and strontium89. 6428

Animal science. 6442

Excretion of radioactive mestranol in the milk of animals. 6444

Victoria's footrot control area. 6470

Some observations on the incidence of Brucellosis in animals in West Pakistan. 6471

A Brucella ovis antigen for the skin test of ovine genital brucellosis. 6515

The immunity induced in cattle and sheep by inoculation of neurotropic or pantropic Rift Valley fever viruses. 6523

Strain variation in the response of Haemonchus contortus in sheep and goats given phenothiazine: Efficacy of N. F. and purified products on pure parasitic infections. 6527

Listeriosis in sheep - observations on an outbreak in Romagna. 6532

Polioencephalomalacia: Response to thiamine treatment in sheep and a cow. 6539

Parenteral chemotherapy of ovine foot-rot. 6561

Induction of lung adenomatosis (jaagziekte) in sheep. II. 6564

Susceptibility of scrapie agent to ionizing radiation. 6575

Field observations on parenteral antibiotic treatment of ovine foot-rot. 6613

Brucella ovis infection 1.An evaluation of microbiological, seriological and clinical methods of diagnosis in the ram. 6634

Immunogenic properties of polyvalent and associated emulsion vaccine against paratyphoid fever and brucellosis of sheep. 6637

Experimental paratuberculosis in sheep after oral, intratracheal, or intravenous inoculation: Lesions and demonstration of etiologic agent. 6672

Gangrenous mastitis in ewes. II. Characteristics of the staphylococci, isolated from healthy ewes and from ewes affected with gangrenous mastitis. 6675

On pyroplasmodias in sheep and goats. II. Research into anaplasmosis. 6686

Statistical analysis of blood serum composition, urine excretion levels and the occurrence of urolithiasis in sheep. 6687

Ovine anti-brucellosis serology. Vaccine and infectious antibodies. Serums negative to the sero-agglutination of Wright and positive to complement deviation. 6689

Abortion in sheep and cattle associated with Bacillus spp. 6708

A mycoplasma associated with ovine orchitis. 6714

Salmonellosis in sheep. I. Production of a complex antigen and some of its chemical and serological features. 6725

Variation in concentration and composition of toxic alkaloids among strains of Phalaris tyberisa L. 6750

Serological investigations into Q-fever in sheep. 6760

Studies on the fluorescent and neutralizing antibodies to bluetongue virus in sheep. 6766

Effect of thiabendazole on ovine posthitis. 6827

The control and treatment of posthitis. 6829

Experimental studies on bovine tick-borne fever. 1. Clinical and haematological data, some properties of the causative agent, and homologous immunity. 6844

An autoradiographic and immunofluorescent study of the infectious cycle of sheeppox virus in cell cultures exposed to 5-fluorodeoxyuridine. 6855

Experimental transmission of sheep pulmonary adenomatosis (ijaagsiekte). 6861

Polioencephalomalacia: Response to thiamine treatment in sheep and a cow. 6867

Evaluation of acaricidal dips for control of Psoroptes ovis on sheep. 6900

1969, controlling insects on sheep and goats. 6905

Mortality in sheep due to Ixodes species. 6907

Basic,facts on the parasitic nematodes of the sheep (Ovis aries) in tunisia. 6915

Studies on the pathogenesis of trichocephaliasis in sheep. 6920

A new compound effective against acute fascioliasis in sheep. 6921

Investigation of the effect of preparation Bayer 9015-12.50W.G. on adult Fasciola hepatica in sheep. 6922

Epizootiologic factors of infestation by Trichostrongylidae in ovines in Leon. 6937

The epizootiology of ovine verminous bronchopneumonias in Leon. 6943

Critical and controlled laboratory trials in sheep with tetramisole. 6950

Ridding sheep breeding farms of helminthoses. 6956

The epizootiology of dicroceliosis in the province of Leon. 6967

Sheep coenurosis control in Uzbekistan. 6970

Some factors of ovine infestation with Protostrongylidae. 6975

The guilty fox. 6977

Home produced cyazid is a highly effective anthelminthic against sheep dictyocaulosis. 6985

Complex investigation of the functional state of the liver in the course of experimental flukeworm disease in sheep. 6989

A comparative study of the activities of 2,6-diiodopara-nitrophenol (Disophenol) and 2-para-thiazolylbenzimidazole (Thiabendazole) as anthelmenthic for sheep. 6999

An approach to the treatment of outbreaks of Fascioliasis in sheep.
7001

The efficiency of copper sulphate, phenothiazine and sodium chloride mixture against sheep helminthoses.
7005

An improved portable sheep dipping vat.
7012

The fine structure of the spermatozoon of sheep tapeworm, Moniezia expansa (Rud., 1810)(Cyclophyllidea, Anoplocephalidae).
7013

Distribution of Strontium 90 and Cesium 137 in dairy products in the processing of ewe's milk. 2. In white brined cheese.
7140

Tolerance of sheep with regard to a new phosphoric ester: Chlorfenvinphos.
7167

Tolerance of sheep to parenterally administered iqdo-3 hydroxy nitbo-5 benzonitril.
7168

Fluorosis in cattle and sheep, observed around industrial plants in Bulgaria.
7205

Blood cholinesterase activity as an index of acute toxicity of organophosphorus pesticides in sheep and cattle.
7861

Lympho cuts farm profits on sheep meat.
7863

A case of teratoma in the liver of sheep.
7864

Clinico-microbiological and immunological studies on experimental oral infection in pregnant sheep with Salmonella abortus ovis.
7865

Possible occurrence of viral pneumonia in indigenous sheep and goats - a morphological study of pneumonic lung lesions.
7886

Livestock health - planning to prevent pregnancy toxaemia.
7887

Contagious ecthyma in sheep in the state of Sao Paulo.
7909

Observations on the incidence and histopathology of pneumonia of sheep and goats in India.
7911

Controlling footrot - equipment used in the Armidale quarantine area.
7918

Purification and characterization of bluetongue virus.
7922

Ecology of lice on sheep. VII. Population dynamics of Damalinia ovis (Schrank).
7928

Shell products for animal health.
6423

SHEEP BREEDS
Investigation of sheep dips. 3. The influence of breed on stripping and deposition in the fleece of diazinon.
7124

SHEEP-DIP
Tolerance of sheep with regard to a new phosphoric ester: Chlorfenvinphos.
7167

SHEEPPOX VIRUS
An autoradiographic and immunofluorescent study of the infectious cycle of sheeppox virus in cell cultures exposed to 5-fluorodeoxyuridine.
6855

SHELLFISH
Galveston Bay pesticide study- water and oyster samples analyzed for pesticide residues following mosquito control program.
1786

SHIPPING FEVER
Bovine respiratory disease, diagnosis and control.
6593

Observations of infectious diarrhea as part of the shipping fever syndrome in feedlot cattle.
6631

SHIPS
Fish and Wildlife Act of 1956 as amended; an excerpt from title 16 of the United States Code.
7420

SHOCK
Experimental data on the pathogenesis of edema disease of swine. Clinical picture, gross and microscopic lesions related to endotoxin shock.
396

Modification of gamma ray mutagenic action by temperature shock.
5790

Promazine hydrochloride in endotoxin shock in a horse (a case report).
6525

SHRUBS
Invasion of grassland by Baccharis pilularis DC.
314

Phenological observations on the fungi of the trees and shrubs in the park of the experimental farm Koniczynka near Torun.
1594

The San Jose scale a pest of ornamental shrubs.
4033

Two methods of operating a vacuum sampler to sample populations of the cotton fleahopper on wild hosts.
5559

Bagworm.
5662

Influence of retardants on the growth and flowering of plants.
7231

SIALIC ACIDS
Release of sialic acid from caseins of cow and buffalo milk by cow and buffalo rennets.
4791

SIALIS NIGRIPES
Sialis nigripes Pictet,Raphidia (Agulla) aloysiana Costa and Inocellia keiseri Aspock, new for Switzerland. (Neuroptera s.l.).
22

SIDURON
Bioassay for bensulide, DCPA, and siduron in turfgrass.
3695

SIGLURE
A contribution to the study of some dry attractant products effects on Ceratitis capitata Wied.
3432

SILICA
Silica excretion in cattle fed a ration predisposing to silica urolitiasis: Total excretion and diurnal variations.
3495

SILICA GELS
Solid state fluorescence emission of aflatoxins on silica gel.
460

Loss of gibberellins by leaching from stems and foliage of Chrysanthemum morifolium 'Princess Anne'.
3057

Instrumental evaluation of aflatoxin resolution on TLC plates.
3647

Screening method for zearalenone, aflatoxin, and ochratoxin.
4928

TLC spotting solvent for aflatoxins.
4938

How to prevent and remove mildew; home methods.
4959

Photodecomposition of the acaricide N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine.
7354

SILICATES
The pesticide review.
4952

SILICON
Effect of nitrogen, silicon and their interaction on the agronomic characters in paddy rice.
533

SILICON COMPOUNDS
Note on the versatility of OV-17 substrate for gas chromatography of pesticides.
3715

SILICONES
Tympanol. Drugs for veterinary use; drug efficacy study implementation.
2315

SILVANIDAE
Effect of dietary serine on survival and rate of development of Oryzaephilus surinamensis (Coleoptera: Silvanidae).
2565

SILVER LEAF
Preliminary considerations on the study of resistance of fruit trees to silver-leaf disease.
5950

Watch for silver leaf.
6014

SILVER NITRATE
Thin layer chromatography identification of pesticides using dip-coated presensitized microscope slides.
1146

Thin-layer chromatography of bromacil residues in soils.
2401

Biological investigations of an infiltration area and experiments with some algicides.
7076

SILVEX
Control of Dalmatian toadflax.
320

Morphology, anatomy and development of the gall of Rhabdophaga ramicola rubs. in Salix purpurea L.
5449

Control of the guanxumas roxa e branca in pasture with hormone-like herbicides.
6335

Broadleaf weed control in rice.
6370

Alligatorweed found in Arkansas.
6384

Controlling weeds in turf.
6387

Herbicidal treatment effect on carbohydrate levels of alligatorweed.
6397

SILVICULTURE
Facts and fiction concerning the forest and silviculture.
2702

Report on forest research for the year ended March 1968.
5845

SIMAZINE
New weed killers boost orchard conservation.
304

Tree line weed control in Goulburn Valley orchards.
325

Improved GLC method for s-triazine residue determination.
498

Influence of some aminotriazine herbicides on some soil fungi.
537

Pre-emergence herbicides for weed control in walnuts.
1031

Indices of weed-crop interference in Zea mays Linn.
1633

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Simazine.
1795

Effect of simazine on the photosynthetic pigments of green algae.
1821

Ecological investigations on the influence of triazine derivative simazine (W 6658) on Sinapis alba L..
1824

The influence of herbicides on Cercosporella infection and lodging of winter wheat.
2751

Effect of herbicides on growing wheat applied simultaneously with calcium cyanamide fertilizers.
2860

The influence of plants on the inactivation of soil herbicides for example of simazine and atrazine.
3046

On the effect of herbicides on some agrophytocoenoses.
3485

Soybean injury from triazine residues in soil.
3686

Distribution, importance and problems of herbicide use in Yugoslavia. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4083

Chemical control of weeds in the Hungarian vineyards. In: collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4086

The influence of herbicides on the morphology of cereal cultures. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4320

Studies on chemical weed control with fodder kale.
4771

Weed control in potato cultures without adverse effects on the potato quality.
4781

Crop protection; computers, simazine, corn seed beetle.
5780

Herbicide action on Fusarium graminearum Schw.
5831

Results from experiments with herbicides for weed control in pea grain crops grown in Dobroudja.
6336

Application of herbicides in pulse crops.
6339

Gesatop - its uses in horticultural crops.
6347

Recent advances in perennial grass control in avocado orchards.
6350

Selective control of hoary alyssum in alfalfa.
6355

Weed control in California vineyards.
6358

Precision placement of herbicides for weed control in seedling alfalfa.
6359

Pre-emergence weed control in the nursery.
6383

The influence of some electrolytes on the adsorption and release of symmetrical triazines on some organic colloids.
7104

Tolerance and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. Simazine.
7115

The effect of herbicide residue in the soil on the yield of winter wheat.
7123

Influence of some herbicides on accumulation of 32P in above-ground organs of oats.
7223

The effect of some herbicides on weediness and yield of potatoes on alluvium soil.
7227

Effect of the triazine herbicides simazine and atrazine upon young plum trees.
7260

The effect of herbicides and cultivation measures on the yield of corn.
7271

The effect of the application of herbicides in the control of weeds in corn fields.
7272

Influence of simazine on chloroplast metabolism.
7294

Cytogenic activity of the herbicides-simazine and maleic acid hydrazide.
7302

Influence of simazine on apparent photosynthesis of aquatic plants and herbicide residue removal from water.
7305

The influence of increasing doses of simazine upon the rate of root and green parts growth of winter wheat.
7306

The influence of increasing doses of simazine upon the rate of root and green parts growth of some weeds occuring in the winter wheat stand.
7307

SIMULIIDAE

Black flies (Diptera, Simulidae) of Vologda region and their control.
1119

Auto-ecology of some Simuliidae species.
1123

Simuliidae of Italy.
1322

Research on a type of dam spillway unfavorable to the proliferation of Simulium damnosum (Diptera) Simuliidae).
2689

A method for accurate counting of blackfly larvae (Diptera: Simuliidae).
2988

Studies of black flies of Panama. III. Two new species of Simulium of the subgenus Hemicnetha.
4383

Contributions to the (Diptera, Simuliidae) fauna of Austria. III. The fauna of the valley of the YBBS.
4851

The capture of Diptera Simuliidae by night in a dry grassland zone.
5086

The infection of immature aquatic insects by larval Paragordius (Nematomorpha).
5167

A review of Simulium (Pternaspatha) Enderlein (Simuliidae, Diptera).
5173

An instrument to hold rabbits for blood sucking Simuliid experiments.
5574

Life cycles of benthic insects in Lapland streams (Ephemeroptera, Plecoptera, Trichoptera, Diptera Simuliidae).
5653

Cattle fatality caused by bites of Odagmia ornata (Diptera, Simuliidae).
6895

A pupal structure in Simulium clathrinum Mackerras and Mackerras and related species (Diptera: Simuliidae).
7603

SIMULIUM DAMNOSUM

Research on a type of dam spillway unfavorable to the proliferation of Simulium damnosum (Diptera) Simuliidae).
2689

On the biology of Simulium damnosum Theobald, 1903, the main vector of onchocerciasis in the Mahenge Mountains, Ulanga, Tanzania.
5360

Selective control of Simulium damnosum and river management.
7760

SIMULIUM ORNATUM

Cattle fatality caused by bites of Odagmia ornata (Diptera, Simuliidae).
6895

SIMULIUM VENUSTUM

The black fly, Simulium venustum, attracted to the turtle, Chelydra serpentina.
5617

SINDBIS VIRUS

An apparent inhibition phenomenon in anopheline mosquitoes infected with Sindbis virus.
1531

Virus isolation and serologial studies of arthropod-borne virus infections in a high rainfall area of North Queensland.
3539

Study of the multiplication of Sindbis arbovirus in Drosophila.
4509

Characterization of a cytoplasmic fraction from Sindbis virus-infected cultures.
6553

Prevalence of Sindbis virus antibodies in an Egyptian rural community.
6710

Effect of cytostatics on the replication of vaccinia, pseudo-rabies and sindbis viruses and on the interferon production by tissue culture cells.
6791

SINIGRIN

Responses of aphids to pressure applied to liquid diet behind parafilm membrane longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L9) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions.
172

Responses of aphids to pressure applied to liquid diet behind parafilm membrane. Longevity and larviposition of Myzus persicae (Sulz.) and Brevicoryne brassicae (L.) (Homoptera: Aphididae) feeding on sucrose and sinigrin solutions.
2665

SINUSITIS

Schiff bases of 2-formylquinoxaline-1,4-dioxides as growth promoters and systemic and non-systemic infection control agents in animals. Patent 3,433,871.
6650

SIPHONAPTERA

Fleas of the mole Talpa europaea L. in Czechoslovakia (Aphaniptera).
638

Further records of fleas occurring as stragglers on rabbits collected in Kent.
845

Notes and descriptions of some Leptopsyllid fleas (Siphonaptera).
898

Peromyscopsylla hamifer hamifer (Rothschild): An addition to the entomological fauna of New York State.
1214

New records of fleas from Norway.
1297

A contribution to the fauna of fleas in eastern Siberia.
2489

Comparative morphology of the larvae of certain genera of fleas (Aphaniptera).
2598

Lasting interruptions in epizootic activity of natural plague foci and their possible causes.
2925

The insect fauna in the burrows of the long-clawed mole-vole, a Caucasian endemic species.
3845

Records of Ohio fleas (Siphonaptera).
4397

A carbon dioxide bait trap for collecting ticks and fleas from animal burrows. 4972
On the knowledge of German fleas. II. Fauna and Ecology of the fleas of birds (Insecta, Siphonaptera). 5121
Evansipsylla thysanota, a new genus, new species of flea from Nepal (Siphonaptera: Hystrichopsyllidae). 5156
Certain host-parasite relationships between rodents (Muridae) and fleas (Aphaniptera). 5393
Wild mammals and fleas of Red Bluff Ranch, New Mexico. 5767
Indications on plant care for olive crop cultivation. 6192
Feline infectious anemia (Haemobartenella felis) diagnosis and treatment. 6594
Bibliography of keys to European insects (1880-1963). Part I. Apterygota to Siphonaptera. 7468
Peculiarities of the fauna, ecology and geographic distribution of blood-sucking arthropoda in Vietnam. 7472

SIREX NOCTILIO
Studies on the biology of Rhyssa persuasoria (L.) (Hymenoptera: Ichneumonidae) incorporating an X-ray technique. 3219

SITE INDEX
Influence of soil and site on red pine (Pinus resinosa Ait.) plantations in New York. II. Soil type and physical properties. 7240

SITONA BREVIROSTRIS
Sitona brevirostris Solari (Col., Curculionidae) new to the British list. 645

SITONA CYLINDRICOLLIS
Sweetclover-weevil feeding deterrent B: Isolation and identification. 1598
Effect of temperature, light, and date of collection on the feeding rate of the sweetclover weevil. 2209

SITONA HISPIDULA
Relationships of the clover root curculio, Fusarium wilt, and bacterial wilt in alfalfa. 5961

SITONA LINEATA
Investigations of effects and effect mechanisms of seed treatment preparations on leaf eating beetles. 1596

SITOPHILUS
Carbamate and phosphate resistance in adult granary weevils. 5716

SITOPHILUS GRANARIUS
Interactions between the grain beetles Sitophilus granarius (L.) (Curculionidae) and Ptinus tectus Boield. (Ptinidae). 914
Change in the photic reaction due to DDT in the grain weevil, Sitophilus granarius (L.)(Coleoptera: Curculionidae). 5209
Locomotory responses to temperature in the grain weevil, Sitophilus granarius (L.) (Coleoptera: Curculionidae). 5210

SITOPHILUS ORYZAE
Fumigation of food grains in India with hydrogen phosphide. I. Tests in concrete bins. 2230
A new simple method for protecting rice against rice weevil (Sitophilus oryzae). 2384
The identity of Sitophilus oryzae. 4462
Response of some stored-product insects to Trogoderma granarium pheromones. 4625
Varietal resistance to hoja blanca. 5990
The importance of relative humidity in the storage of cereals. 7028
Stored grain insects as carrier of fungi. 7034
Saving stored rice from attacks of insect pests. 7037

SITOPHILUS ZEAMAIS
Resistance of corn to laboratory infestation of the larger rice weevil, Sitophilus zeamais. 3451
The identity of Sitophilus oryzae. 4462
Observations in Kenya on the flight activity of stored products insects, particularly Sitophilus zeamais Motsch. 5327

SITOTROGA CEREALELLA
Investigations concerning the control of the apple moth (Carpocapsa pomonella (L.)) with the help of Trichogramma embryophagum (Hartig). (abstract). 2652
Experiment on the influence of Bacilluscereus var. Galleriae and of lindane on Sitotroga cerealella Oliv. and on Trichogramma cacoeciae March. 4591
Mass appearance at Brussels of Sitotroga cerealella Ol. (Gelechiidae). 7036

SIZE
Size independent secretion by the corpus allatum of Calliphora erythrocephala. 3843
The capacity of insects to learn and to evaluate visual stimuli. 7652

SKIM MILK
The nourishment of milk calves is essential for the future of the product. 4787
Effect of DDT, dieldrin and heptachlor on the growth of selected bacteria. (Abstract). 7235

SKIN
Pyrethrum as an insect repellent. III. A study of the persistence of pyrethrins films, when applied in three types of formulation, as insect repellents to human skin. 187
Papular eruption secondary to thrips bites. 1534
The role of convection currents in mosquito attraction to human skin. 1535
Establishment and treatment of cutaneous Candida albicans infection in the rabbit. 2316
Occurrence of a skin response to intracutaneous injection of adrenaline as a method to detect the effects of endotoxines in pig organism. 2349
Epidermal chalone and mitotic control in the Vx2 epidermal tumour. 2896
Dermal lesions in avain leucosis. 2940
Enumeration of bacteria on poultry carcass skin. (Abstract). 4094
Microscopic skin lesions in cattle with foot-and-mouth disease. 6587
Some characteristics of Staphylococcus aureus isolated from the skin and upper respiratory tract of domesticated and wild (Feral) birds. 6615
Fowl pox inclusion-body formation in skin epithelium of chicks. 6817
Responses of cell cultures to insecticides. IV. Relative toxicity of several organophosphates in mouse cell cultures. 7977

SKIN DISEASES
Skin tumors in New York deer. 3545
Latent skin fungus infections in animals and their importance for the epidemiology of animal and human dermatomycoses. 4119
A study of carcasses condemned for skin leukosis. (Abstract). 4284
Some outbreaks of turkey erysipelas. 6510
Mastocytosis with gastrointestinal ulceration in a dog. 6511

SKIN TESTS
A Brucella ovis antigen for the skin test of ovine genital brucellosis. 6515
The value of some standardized Trichinella spiralis antigens, as estimated by intradermal tests. 6948

SKULL
A meningioma in a cat associated with erosion of the skull. 4154

SLATEROCORIS
Revision of the North American species of Slaterocoris (Heteroptera:Miridae). 642

SLAUGHTERHOUSES
Control of hydatid disease at abattoirs and country slaughterhouses. 6497

SLUDGE
The use of gas chromatography in detecting lindane in sewage effluent. 483

SLUGS
Slugs cause damage in Ohio cornfields. 328
Further observations on the susceptibility of maincrop potato cultivars to slug damage. 1640
Common names of British insect and other pests. 3135
Aspects of trapping slugs with metaldehyde and bran. (abstract). 3493
Insect control for garden vegetables. 3916
Home garden insect control. 5472
A laboratory method for assessing the toxicity of stomach poisons to slugs. 6407
Snails and slugs in Central California. 6413
Studies on the composition of extracts of the reproductive glands of Agriolimax reticulatus, the grey field slug (Pulmonata, Stylommatophora). 7856

SMELL
Fatty tissue biopsy in pigs. 2299
Influence of the form of traps upon the attractiveness of sexual odour of gypsy moth females. 2472
The sensory physiology of the larva of the rhinoceros beetle Oryctes rhinoceros L. 2558
Insect olfaction: Deciphering system for chemical messages. 2650
Attractants for the Japanese beetle. 3199

Response of overwintered boll weevils to reflected light, odor, and electromagnetic radiation. 3288

Honey bee recruitment to food sources: Olfaction or language. 4619

Olfactory response of larvae of the onion maggot, thylemya antiqua Meigen (Diptera: Anthomyiidae) to organic sulfur compounds. 5458

The olfactory bulb lesion in the hibenating squirrel (Citellus lateralis) infected with coxsackievirus B-3. I. Virus assay, light microscopic and immunofluorescent study. 6604

The olfactory bulb lesion in the hibernating squirrel (Citellus lateralis) infected with coxsackievirus B-3. II. Immunological study. 6816

SMERINTHUS

The classification of Smerinthus. 1326

SMOKE

Wasp nests. 747

SMUT

Variation in the smut fungi. 2695

Structural features of the development of the polystichoustuberculate form of the blister smut (causative agent Ustilago maydis (0dc). Cda.) on maize leaves. 2786

Morphological variation in the sugarcane smut, Ustilago scitaminea Syd. 3920

Buggy-whip of corn and its relation to the incidence of common smut. 4017

Control of smut on sugarcane. Regulation of varieties of sugarcane which can be cultivated in the state of Sao Paulo. 5854

SMUTS

Experiments on the control of cereal smuts with a derivative of 1,4-oxathiin. 5987

SNAILS

Studies on some land snails injurious to agriculture in U.A.R. 1363

Investigation into the diapause, capacity adaptation and temperature resistance of several insects and snails. 1453

Liver-fluke in Madagascar. Biological cycle of Fasciola gigantica. 2361

Comparative studies of the molluscicidal effect of cuprous chloride and copper sulfate in Iran. 2471

Comparative electron microscope and light microscope studies on different developmental stages of Klossia helicina (Coccidia, Adeleidea). 2979

Liver fluke in the north of Scotland. 3002

Common names of British insect and other pests. 3135

The liver fluke in sheep. 3617

Laboratory assay of the molluscacide, triphenyllead acetate. 3673

Predatory activity of Luciola cruciata (Olivier, 1886) (Coleoptera: Lampyridae) larvae on newly hatched Biomphalaria glabrata. 4558

Biological control of snails exerted by Euglandina rosea (Ferussac) in Bermuda. 4786

Larval development of a nematode parasite of the dog circulatory system in dulcaquicoles mollusks. 4857

The present status of rice pest research and control. A literature review. 5827

Snails and slugs in Central California. 6413

Some factors of ovine infestation with Protostrongylidae. 6975

SNAKE VENOM

Collagenolytic activity of snake and spider venoms. 2435

Reptiles and amphibians. In: Diseases of man acquired from his pets. 3519

Selected Crotalidae venom properties as a source of taxonomic criteria. 7172

Central neurotoxic effects of the venoms of Naja naja and Vipera palestinae. 7179

Antigenic relationships of the venom of Atractaspis microlepidota to that of other snakes. 7186

Effects of Echis carinatus venom on tissue and blood histamine and their relations to local tissue reactions and eosinophil changes. 7187

SNAKES

Collagenolytic activity of snake and spider venoms. 2435

SOAP

Physico-chemical studies of pesticides. III. Effect of soap on the biological activity of DDT suspensions. 7858

SOCIAL INSECTS

Effect of the time of day at which honeybee colonies are first allowed flight in a new location on their choice of flower species. 89

From grasshopper to a locust. 141

Studies on free colonies of Cryptocerus texanus Santschi (Hymenoptera: Formicidae). 776

Parasites of social wasps (Vespidae). 793

Interactions between individuals and social phenomena. 795

Nesting biology of the social wasp Microstigmus comes (Hymenoptera, Sphecidae, Pemphredoninae). 844

Reproductive behavior and social organization in the Coleoptera. 916

On the life of Vespula vulgaris (L.) and V. maculifrons (Buysson) (Hymenoptera: Vespidae). 1357

Colonial behavior of Apis mellifera mellifera L. after exposure to gamma radiation. (Hymenoptera: Apidae). 1367

A mixed wasp's nest. 1445

Performance of laboratory-reared and artifically inseminated honey bee queens. 1950

Biology and colonization of the winter tick in the laboratory. 1952

Investigation into the appearance of the three castes in the bumblebee colony. 2040

Comparative bee sociology I. Origin of communal and caste systems. 2042

Insect and host factors in the aggregation of the southern pine beetle. 2065

A mixed colony of two species of Plebeia (Hymenoptera, Apoidea). 3266

Geographic distribution of the ant genus Formica (Hymenoptera: Formicidae). 3750

Some biological notes on Bombus ignitus Smith with special reference to the nest structure (Hym. Apidae). 3834

Honeybees: Do they use direction and distance information provided by their dancers. 3889

Brood care in halictine bees. 4529

Ants in the home and garden; how to control them. 5184

Insect venoms, attractants, and repellents. XI. Massoilactone from two species of formicine ants, and some observations on constituents of the bark oil of Cryptocarya massoia. 5257

Trail laying in the subterranean ant, Acanthomyops interjectus. 5352

Contribution to the physiology of the guest-host-relations (myrmecophily) in ants. I. The relation between the myrmecophilic Atemeles- and Lomechusa-larvae and Formica. 5369

Note on the deportment particularly towards the dead in Coptotermes intermedius Silvestri (Isoptere Rhinotermitidae). 5569

Homing in the ant Cataglyphis bicolor. 5672

Termite workers. 7032

SOCIETIES

The campaign of the National Society for the Prevention of Accidents against the use of pesticides, with particular reference to the Emilia-Romagna region. 3078

Bulletin of the Entomological Society of America. 3739

Abstracts of papers presented at the 57th Annual Meeting of the Poultry Science Association. 4102

SODIUM

Control of weeds in wheat crop by 2,4-D. 2260

Caparsolate sodium. Drugs for veterinary use - drug efficacy study implementation. 2369

Notice of withdrawal of petition regarding pesticides. 2394

Whole-body turnover of sodium in adult Drosophila (Drosophiladae) and Megaselia (Phoridae). 2572

Studies on the blood chemistry of cattle in a herd infected with Johne's disease. 2930

On the presence of adenotriphosphatase activity of both sodium and potassium (Na, K ATPase) in the nerve cord of Periplaneta americana. 3210

Etiology and treatment of hypomagnesemia in cattle. 3535

Studies on the sodium requirements of chicks. (Abstract). 4205

The focal distribution of lesions of porcine hypernatremic eosinophilic meningo-encephalitis for diagnostic purposes. 4803

A sodium and potassium stimulated adenosine triphosphatase in the cockroach nerve cord. 5337

Intracellular concentration of electrolytes in the housefly. 5598

A relationship between ionic environment and hormonal activation of phosphorylase in an insect. 5629

Effects of organic arsenical herbicides on cotton response and chemical residues. 7222

Ionic distribution studies in haemolymph from different parts of Periplaneta americana by radioactive tracers. 7638

SODIUM ACETATE
Synthesis of saturated long chain fatty acids from sodium acetate-1-C14 by Mycoplasma. 6772

SODIUM ARSANILATE
Sodium arsanilate tablets for water medication. Drugs for veterinary use; drug efficacy study implementation. 1084

SODIUM ARSENATE
Tests on standardization of Bacillus thuringiensis preparations. 100

SODIUM ARSENITE
Decay of rubber wood in a replanting and its effect on root disease. 245

Defoliant compositions Patent 3,440,034. 3721

SODIUM AZIDE
The effect of metabolic inhibitors on the moth heart. 7654

SODIUM BICARBONATE
For earlier, larger blooms; producing camellias with various solutions of gibberellic acid. 1828

SODIUM BIPHENYL
Rapid analysis of halogenated organic insecticides in aqueous animal dips, using sodium biphenyl. 3718

SODIUM BORATE
Notice of filing of petition regarding pesticide chemicals. 2410

Ribonucleic acids in crown-gall bacteria, Agrobacterium tumefaciens (Smith and Town), treated with sodium borate. 4911

SODIUM CHLORIDE
Food additives permitted in feed and drinking water of animals or for the treatment of food-producing animals. Calcium periodate. 1776

On the resistibility of Drosophila to sodium chloride. II. Differences in the resistibility at different developmental stages. 2676

Chronic melanization in the eggs of Aedes aegypti. 3304

Salt and water transport by the in vitro cockroach midgut. 3870

Studies on the sodium requirements of chicks. (Abstract). 4205

A tidal rhythm in the susceptibility of Fundulus similis to sodium chloride and endrin. 4896

The efficiency of copper sulphate, phenothiazine and sodium chloride mixture against sheep helminthoses. 7005

Interaction of salt, pH, and temperature on the growth and survival of Salmonellae in ground pork. 7047

Low temperature growth of type E Clostridium botulinum spores. 1. Effects of sodium chloride, sodium nitrite and pH. 2. Effects of solutes and incubation temperature. 7055

SODIUM CYANIDE
The method of conditioned reflexes in toxicology and its application for determining the toxicity of small quantities of pesticides. 7978

SODIUM DEOXYCHOLATE
Variable results of sodium deoxycholate tests of Nodamura virus, an ether and chloroform resistant arbovirus. 1100

Modification of selected host-reactive properties of endotoxin by treatment with sodium deoxycholate. 1708

SODIUM DIETHYLDITHIOCARBAMATE
Inactivation of lettuce necrotic yellows virus by chelating agents. 3355

Copper and manganese content in different varieties of spring and winter wheat. 5783

SODIUM FLUORIDE
The effects of sodium fluoride and iodoacetamide on mutation induction by X-irradiation in mature spermatozoa of Drosophila. 851

SODIUM FLUOROACETATE
Rat poison and insecticide. 329

Suspected sodium fluoroacetate poisoning in sheep and cattle. 511

SODIUM FLUOSILICATE
Sodium silicofluoride from a local florosil preparation in the treatment of cattle tricophytia. 3562

SODIUM HUMATE
Interaction of pesticides with natural organic material. 7081

SODIUM HYDROXIDE
For earlier, larger blooms; producing camellias with various solutions of gibberellic acid. 1828

SODIUM HYPOCHLORITE
Production of fourth-instar pink bollworm larvae from sodium hypochlorite-treated and untreated eggs. 3237

SODIUM N-METHYLDITHIOCARBAMATE
Use of herbicides in coffee nurseries with full exposure to sun. 6324

SODIUM NITRATE
Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil. 7236

SODIUM NITRITE
Low temperature growth of type E Clostridium botulinum spores. 1. Effects of sodium chloride, sodium nitrite and pH. 2. Effects of solutes and incubation temperature. 7055

SODIUM ORTHOPHENYLPHENATE
Effect of pre-harvest spray of sodium orthophenyl phenate and Captan on the control of decay in Anab-e-Shahi grapes (Vitis vinifera Linn.). 3393

SODIUM PENTACHLOROPHENATE
A laboratory method for assessing the toxicity of stomach poisons to slugs. 6407

Further studies on avian biliary cirrhosis with particular reference to aetiology. 6590

SODIUM PROPIONATE
Sodium propionate. Drugs for veterinary use; drug efficacy study implementation. 4175

SODIUM SALTS
Electrophysiological responses of the chemoreceptors of the blowfly to sodium salts of fatty acids. 780

SODIUM SULFATES
Variation of Florisil activity: Simple method for measuring adsorbent capacity and its use in standardizing Florisil columns. 4934

SODIUM SULFIDE
Process for upgrading malathion. Patent 3,440,305. 3719

SODIUM TETRABORATE DECAHYDRATE
Borax and boric acid. Proposed establishment of pesticide tolerance. 7116

SODIUM TRIPOLYPHOSPHATE
Sodium tri-polyphosphate carried by tanker. 4950

SOFT ROT
Market quality of asparagus; effects of maturity at harvest and of high carbon dioxide atmospheres during simulated transit. 3384

Aglaonema pictum, a new host of Erwinia chrysanthemi. 3982

SOGATELLA
Transmission of the virus component of the ragi (Eleusine coracana) disease-complex in Mysore, India. 4028

SOIL ACIDITY
Distribution and damaging effect of the genus Pratylenchus in Westphalia-Lippe. 2836

SOIL ADSORPTION
Several factors affecting adsorption of atrazine and diphenamid by soils. 2386

Use of carbon to reduce uptake of insecticidal soil residues by crop plants. Effects of carbon on insecticide adsorption and toxicity in soils. 2419

Adsorption of some pesticides on soils, clay minerals and humic acid. 2420

Omega, a useful index of soil sorption equilibria. 2464

Adsorption of 3-aminotriazole by montmorillonite. 2466

Trifluralin and benefin--new herbicides for vegetable growers. 3483

SOIL ALGAE
Effects of selected herbicides upon growth of soil algae. 7265

SOIL AMENDMENTS
Manures and fertilizers. 5853

SOIL ANALYSIS
The effect of temperature and fumigation on the nitrification rate in soil. 215

Long-term movement of DDT applied to soil for termite control. 492

Manganese toxicity in tomato seedlings. 518

Growth of planted chestnut trees (Castanea crenata) in relation to soil nutrients in Korea. 528

Vertical distribution of biological activity in peat of some virgin and drained swamp types. 950

Studies on the microfungi in the forest floor of subarctic pine forests. 983

Machinery and timing in renovation-bluegrass. 1040

Renovation toward bentgrass. 1041

An attempt at analysing the process of penetration by soil nematodes into plants. 1624

Analysis of the occurrence of nematodes in alfalfa crops. III. Some observations on age structure. 1627

Analysis of the occurence of nematodes in alfalfa crops. II. Abundance and quantitative relations between species and ecological groups of species. 1628

Analysis of the occurrence of nematodes in alfalfa crops. I. Species composition of nematodes in two alfalfa crops of different age and penetration of species from soil to plants. 1629

Herbicide research and finesse. 1639

Chlorinated hydrocarbon pesticide residues in or on alfalfa grown in soil with a previous history of aldrin and heptachlor application. 1797

Several factors affecting adsorption of atrazine and diphenamid by soils. 2386

The dynamics of nematode movement. 2851

A kinetic analysis of herbicide degradation in soil. 3030

A corer for sampling soil and litter arthropods. 3083

Effect of micronutrients on yield and their contents in wheat. 3373

The disppearance of trifluralin from field soils. 3663

Bioassay for bensulide, DCPA, and siduron in turfgrass. 3695

Possibilities for Botrytis cinerea control, especially in tomatoes. 4019

Fertilization of semi-mature stands in Newfoundland. 4652

Needed: A miracle method for soil borne disease control. 4695

A look at the plant pest control divison. 4887

Practical soil biology. 5786

Khaira disease of rice and its control. 6028

The conditions for occurrence of potato root eelworm (Heterodera rostochiensis Woll.) in Poland. 6302

Some observations on the effects of using organochlorine sprays in an orchard. 7098

Industrial fertilizers as herbicides seen in the light of new and old experiments. 7102

Effects of organic arsenical herbicides on cotton response and chemical residues. 7222

SOIL BACTERIA

Application of Ark's method modified in isolation of Agrobacterium rhizogenes in association with Agrobacterium tumefaciens in galls from Rosa sp. and infected soils. 2776

Effects of soil microorganisms and soil properties of the dissipation of selected pesticides. 3010

Microorganisms in the rhizosphere of wheat. 3371

Populations of dalapon-decomposing bacteria in soil as influenced by additions of dalapon or other carbon sources. 7093

Pesticide levels and fluctuation in soil bacteria in an irrigated field and a pond of southwest Texas. 7137

Effect of DDT, dieldrin, heptachlor on the growth of selected bacteria. 7234

SOIL BIOLOGY

Mycostasis in semi-arid soil of West Pakistan. 3376

Practical soil biology. 5786

SOIL CATION EXCHANGE

Inactivation of herbicides by activated carbon and other adsorbents. 3716

SOIL CHEMISTRY

Inhibition of the oviposition behavior of the migrator locust (Locusta migratoria L.) caused by the salinity of the soil. 4543

Interaction of pesticides with natural organic material. 7081

Industrial fertilizers as herbicides seen in the light of new and old experiments. 7102

The influence of some electrolytes on the adsorption and release of symmetrical triazines on some organic colloids. 7104

Some effects of diazinon on the microflora of submerged soils. 7133

SOIL COLLOIDS

The influence of some electrolytes on the adsorption and release of symmetrical triazines on some organic colloids. 7104

SOIL CONSERVATION

Sampling pests and diseases of tea. II. 254

Renovation toward bentgrass. 1041

SOIL CONTAMINATION

Are fertilizers creating pollution problems . 468

Note on the effect of water on soxhlet extraction of some organochlorine insecticides from soil and comparison of this method with three others. 470

Improved GLC method for s-triazine residue determination. 498

Mercury which poisons the environment in Sweden. 1782

Chlorinated hydrocarbon pesticide residues in or on alfalfa grown in soil with a previous history of aldrin and heptachlor application. 1797

CCC as a growth regulant of soft white winter wheat. 1813

Effects of isobenzan on soil fauna and soil structure. 2404

On the distribution of pest control agents. 3009

Investigation of the soil of a vineyard flooded with kerosine. 3652

Research into environmental pollution. 4290

SOIL EROSION

Rhizosphere root exudates and their effect on microbial activity. 4662

SOIL EXTRACTS

Studies of losses of pesticides during sample preparation. 1142

Cytology of the sporangium of Phytophthora capsici. 2194

SOIL FAUNA

The influence of DBCP on the soil fauna in azalea culture. 998

On the effect of industrial air pollution on the nematode population in the soil of pine groves. 1020

The effect of some pesticides on the soil invertebrate fauna in the South Taiga Zone in the Perm Region (USSR). 2238

Effects of isobenzan on soil fauna and soil structure. 2404

Synecological studies of soil macroentomofauna in two different agricultural biotopes. 5332

A preliminary survey of the relationships between the soil fauna and the roots of fruit trees. 7827

SOIL FERTILITY

Effect of soil fertility on the distribution of plant communities as shown by pot cultures and field trials. 539

Practical soil biology. 5786

SOIL FUMIGATION

The sugarbeet nematode. Problems and progress in its control in Colorado. 293

Pressurised soil fumigation equipment for control of eelworm. 1194

Small doses of D-D soil fumigant to control free-living nematodes injurious to sugar beet. 1630

Reduction in mortality of peach trees following preplant soil fumigation. 2103

The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato. 2252

Nebraska root-gall nematode of sugar beets. 2253

Moisture loss after application of soil fumigants. 2697

Residual effect of treatment with methyl bromide against Verticillium infection of tomatoes in the second year of cultivation. 2760

Research results concerning means of agrochemical control of Agrobacterium tumefaciens. 2781

Effects of soil fumigation on disease incidence, growth, and yield of spring wheat. 3367

Nematodes in an irrigated vineyard. 3462

Soil fumigation at Boskoop. 3925

Disinfection and disinfestation of the soil. Proceedings of the international Congress on Plant Disease. Sanremo, 1-4 December 1966. 4725

Fumigants and specific nematocides in the control of phytophagous nematodes. 4769

The machinery generally used for efficient sterilization and disinfestation of the soil. 4945

For a better and more profitable technique in the application of soil fumigants. 4946

1969 fruit spraying calendar, for commercial fruit growers. 5804

Experiments on the control of cereal smuts with a derivative of 1,4-oxathiin. 5987

Fusarium foot-and-stem disease of the carnation. 6127

The golden nematode of potatoes and tomatoes. 6283

Control of eelworm diseases of bananas in Western Australia. 6291

Chemical soil treatment for nematode control in tobacco. 6307

Pressurised soil fumigation equipment for control of eelworm. 7397

The influence of soil conditions on development of Rhizoctonia solani, Kuhn, on tobacco. 7783

SOIL FUNGI

Influence of some aminotriazine herbicides on some soil fungi. 537

Laboratory examination of organic fungicides against zoopathogenic fungi in soil. 1170

An approach to the study of the population dynamics of Aphanomyces euteiches in soil. 2155

Survival of root-infecting fungi in soil. X. Sensitivity of propagules of Thielaviopsis basicola to soil fungistasis in natural and alfalfa-amended soil. 2444

Effect of trifluralin on growth of Sclerotium rolfsii in liquid culture and soil. 2459

Effects of soil microorganisms and soil properties of the dissipation of selected pesticides. 3010

Microorganisms in the rhizosphere of wheat. 3371

Mycostasis in semi-arid soil of West Pakistan. 3376

Hendersonia dracaenae sp. nov. 3403

Cryptogama diseases of the root system. Prevention and control. 4681

The reciprocal relationships in mixed cultures of entomophagous fungi and the effect of some Hyphomycetes on their growth. 4690

Problems in monitoring DDT and its metabolites in the environment. 4889

Third contribution to the knowledge of keratinolytic and keratinophilic soil fungi in the region of Szczecin. 5818

The induction of dodine tolerance in Fusarium oxysporum f. melonis: a technique applicable to the study of the bionomics of soil-borne fungal pathogens. 6001

Mycological techniques in plant pathology. 6044

Retention and transformation of anhydrous ammonia in soil and effects on foot rot Fusaria. 6088

Fluctuations in natural soil populations of Verticillium tricorpus. 6106

SOIL HORIZONS

Effect of topsoil deepening on weed infestation of following crops. 310

Investigation of the soil of a vineyard flooded with kerosine. 3652

SOIL HYDROGEN-ION CONCENTRATION

Survival of Fomes annosus spores in soil. 2148

Effect of trifluralin on growth of Sclerotium rolfsii in liquid culture and soil. 2459

Interaction of soil reaction and method of seed inoculation on alfalfa. 5781

Retention and transformation of anhydrous ammonia in soil and effects on foot rot Fusaria. 6088

Soil degradation of diazinon, a phosphorothioate insecticide. 7118

Manganese toxicity of legumes seeded in Kentucky strip-mine spoils. 7145

SOIL INSECTICIDES

Heptachlor residues in soil, pasture, and stock resulting from the treatment of soil or pasture with heptachlor granules. 2424

SOIL INSECTS

Wireworms (Coleoptera, Elateridae) of the Smolensk region, their distribution and incidence in different soil types. 855

Microarthropods from two Quebec woodland humus forms. II. The Collembola. 1293

An attempt at analysing the process of penetration by soil nematodes into plants. 1624

On the soil fauna of meadow and alfalfa stocked fields of different locations with special consideration of the Oribatids. 2045

A corer for sampling soil and litter arthropods. 3083

Concerning the interrelationship between soil pests, weeds and their control. 3661

Larvae of injurious beetles (Coleoptera) in the soils of the Archeda Forest farm, Volgogard Province. 3795

Notes on methods for the extraction of small soil arthropods by the high gradient apparatus. 4552

Diazinon against plant pests. 4655

The insect world. Series: The universe of knowledge. 4967

Synecological studies of soil macroentomofauna in two different agricultural biotopes. 5332

Faunal and zoocenological analysis of the soil insect communities in the ecosystem of shelterbelt and field. 5333

Home garden insect control. 5472

Insecticide recommendtions for tobacco fields, 1969. 6203

SOIL LEACHING

Loss of gibberellins by leaching from stems and foliage of Chrysanthemum morifolium 'Princess Anne'. 3057

SOIL MANAGEMENT

Tropical nematology. 6305

SOIL MICROORGANISMS

Controlling soil insects with parathion-pentachlorophenol compositions. Patent 3,408,442. 78

Soil surface zoo-microbial complex of Orthoptera and Tenebrionids in the southeast Altai-mountains and their relationship to soil formation processes. 888

Isolation of microorganisms from preservative-treated wood. 1546

On the sensitivity of Azotobacter to some antibiotics and herbicides. 1551

Nebraska root-gall nematode of sugar beets. 2253

Biochemical transformations of pesticides by soil micro-organisms. 2397

Degradation of monosodium methanearsonic acid by soil microorganisms. 2461

Quantitative sampling of the pseudoscorpion Chthonius ischnocheles from beech litter. 2577

Effects of soil microorganisms and soil properties of the dissipation of selected pesticides. 3010

Soil fumigation at Boskoop. 3925

Nematodes associated with bananas in the Windward Islands. 4048

Nematodofauna of a mixed hornbeam-oak forest soil and of the neighboring cultivated lands at Bab near Nitra. 4055

Harmlessness of herbicides for the biocenosis. In: Collection of reports geven at the International Herbicide Conference, Prague, June 21-24, 1966. 4090

Rhizosphere root exudates and their effect on microbial activity. 4662

Occurrence of antibacterial and antifungal actinomycetes in cultivated soils of West Bengal. 4667

The effects of soil sterilization procedures on the microbiological equilibrium of the soil. 4672

Needed: A miracle method for soil borne disease control. 4695

The machinery generally used for efficient sterilization and disinfestation of the soil. 4945

Practical soil biology. 5786

Conversion of DDT to DDD in soil and the effect of these compounds on soil microorganisms. 5809

Interactions of Oospora pustulans, Rhizoctonia solani and Heterodera rostochiensis on the potato. 5917

Survival of ascarid eggs in soil under conditions of Moscow region. 6295

Soil nematode fauna occuring in the Jadwisin fields near Warsaw and the effect of environmental conditions on them. 6296

SOIL MOISTURE

Insect mycology: Glimpses and perspectives. 131

Observations on the timing of irrigation and the incidence of potato common scab (Streptomyces scabies). 1573

Influence of soil water and temperature on the pea root rot complex caused by Pythium ultimum and Fusarium solani f. sp. pisi. 2146

An ecological study of some soil nematodes associated with apple trees in a New Zealand grassed orchard. 2241

Moisture loss after application of soil fumigants. 2697

The recovery of Gibberella zeae from wheat straws. 2716

Influence of various soil properties and moisture on the action of urea derivitives on grassy weed control in winter grains.
2863

Competitive effects of annual weeds on Spanish peanuts.
3471

Abundance and microdistribution of larval Chironomidae in stabilization lagoons.
4432

Irrigation by spraying.
4659

Black stem- the second stem disease of grains.
4734

Competition between burroweed and annual and perennial grasses for soil moisture.
6328

Ten keys to herbicide effectiveness.
6342

Studies on the effectiveness of fox den fumigation for rabies control in the district of Wolgast.
6696

The influence of soil conditions on development of Rhizoctonia solani, Kuhn, on tobacco.
7783

SOIL ORGANIC MATTER

Dissipation of herbicides at three soil depths.
3722

Soil degradation of diazinon, a phosphorothioate insecticide.
7118

SOIL PERCOLATION

A modified soil percolator for zoospore production and infection in studies on zoosporic root pathogens.
5868

SOIL PERMEABILITY

Investigation of the soil of a vineyard flooded with kerosine.
3652

SOIL PROFILES

Investigation of the soil of a vineyard flooded with kerosine.
3652

SOIL PROPERTIES

Investigations on disease complex of rice in West Bengal (India). I. Study of rhizosphere microflora of the affected plants.
967

Molybdenum in soils and its availability to plants.
1164

The toxicity of biuret to plants as depending on soil conditions.
1166

Influence of various soil properties and moisture on the action of urea derivitives on grassy weed control in winter grains.
2863

Effects of soil microorganisms and soil properties of the dissipation of selected pesticides.
3010

Rhizosphere root exudates and their effect on microbial activity.
4662

Experimental husbandry farm experience with herbicides and tillage systems for cereal growing.
4678

The influence of environmental factors.
5378

Phosphorus, potassium, calcium and magnesium requirements of Maryland tobacco grown on Monmouth soil.
5880

Relationship of iron, manganese, and bicarbonate to chlorosis of rice grown in calcareous soil.
6039

Results of tests of fall colza varieties 1963-1966.
6120

Properties and effects of WL-9385-D on rice and some weed species.
6332

Accumulation of DDT and dieldrin by microorganisms.
7095

SOIL SAMPLING (NEMATODES)

An ecological study of some soil nematodes associated with apple trees in a New Zealand grassed orchard.
2241

SOIL SANITATION

Control of earthworm.
1045

Controlling weeds in carrots.
1635

Effects of methods of placement on performance of trifluralin, CDEC, and DCPA applied to soil.
6364

Herbicides in cotton and their compatibility with soil-applied insecticides.
6388

Reduction of residues of heptachlor and chlordane in carrots with soil applications of activated carbon.
7085

SOIL SCIENCE

Observations on soil exhaustion by Rosaceae.
2832

Practical soil biology.
5786

Soil science and agricultural chemistry.
5805

Influence of soil and site on red pine (Pinus resinosa Ait.) plantations in New York. II. Soil type and physical properties.
7240

SOIL SERIES

The effective breadth and action of Temik. (Experiences from Germany).
135

Sampling pests and diseases of tea. II.
254

Eelworms in tea: Some problems.
295

Effect of topsoil deepening on weed infestation of following crops.
310

Penetration and accumulation of fenuron in forest soils.
1785

The ecology of Sminthurus viridis (L.)(Collembola). I. Processes influencing numbers in pastures in Western Australia.
2067

Survival of Fomes annosus spores in soil.
2148

Moisture loss after application of soil fumigants.
2697

The distribution of the cereal cyst nematode (Heterodera avenae) in Victoria and its relation to soil type.
3457

Dissipation and phytotoxicity of dicamba.
3687

Persistance pattern for diuron and linuron in Norfolk and Duplin sandy loam soils.
3712

Dissipation of herbicides at three soil depths.
3722

Bronzing disease of rice in Orissa as influenced by soil types and manuring and its control.
4722

Toxicological studies on cutworms. I. Laboratory studies on the toxicity of insecticides to the darksided cutworm.
5357

Ponderosa pine dwarf mistletoe in relation to topography and soils on the Manitou Experimental Forest, Colorado.
5955

Competitive saprophytic ability and inoculum potential of cotton root-infecting fungi in five soils.
6062

DDT-C14 translocation in alfalfa.
6270

The effect of some herbicides on the nitrification in soils.
6373

SOIL STERILIZATION

Verticillium wilt in the tomato cultures of the Valais.
231

Didymella bryoniae, a new fungus parasite of cucumber cultures.
232

Control of race 2 Fusarium of tomatoes.
237

Saprozoic nematodes transmit Streptomyces phage.
2245

Contributions concerning the defense against Agrobacterium tumefaciens.
2720

Observations on soil exhaustion by Rosaceae.
2832

Glasshouse symphylids.
3443

The effects of soil sterilization procedures on the microbiological equilibrium of the soil.
4672

Disinfection and disinfestation of the soil. Proceedings of the international Congress on Plant Disease. Sanremo, 1-4 December 1966.
4725

Weeds and their control.
4782

The machinery generally used for efficient sterilization and disinfestation of the soil.
4945

Weed control in California vineyards.
6358

Influence of atrazine and varied carbon and nitrogen amendments on growth of Sclerotium rolfsii and Trichoderma viride in soil.
7236

Testing of fungicides and insecticides 1967.
7763

SOIL STRUCTURE

Detrimental effect of Russianthistle on semidesert range in west-central New Mexico.
940

Effects of isobenzan on soil fauna and soil structure.
2404

Some cultural studies on Rhizoctonia solani the causal organism of sheath blight of paddy.
3382

Annual report of the Department of Agriculture for the year 1962/63. (II).
4665

Practical soil biology.
5786

Soil science and agricultural chemistry.
5805

Problems of herbicide treatments in the potato crop.
6327

SOIL SURVEYS

Soil science and agricultural chemistry.
5805

SOIL TEMPERATURE

Insect mycology: Glimpses and perspectives.
131

The effective breadth and action of Temik. (Experiences from Germany).
135

Effect of soil temperature and necrosis infection on the content of phenolic substances in potato tubers.
1809

The role of moisture in the winter survival of the boll weevil complex in Arizona.
2001

Influence of soil water and temperature on the pea root rot complex caused by Pythium ultimum and Fusarium solani f. sp. pisi.
2146

The recovery of Gibberella zeae from wheat straws.
2716

A study of pyrazon and its herbicidal residues in the soil. 3019

Influence of soil temperature on the development of pea root rot. 5872

SOIL TEXTURE

The effect of temperature and fumigation on the nitrification rate in soil. 215

SOIL TREATMENT

Resistance power of the Austrian winter wheat assortment against dwarf bunt (Tilletia controversa Kuhn). 264

Nematodes can be controlled. 294

Chemical control of weeds in fields and in the open country. 302

Residues of parathion and methylparathion in potato tubers and in the soil, following soil treatments. 487

Resistance mechanisms against onion pink root (Pyrenochaeta terrestris), bioassay of inoculum potential in soil and chemical control. 2174

The effects of host nutrition and soil fumigation on the penetration and pathogenicity of Meloidogyne javanica (Treub, 1885) Chitwood, 1949 on tomato. 2252

Toxicity of organophosphorous insecticides applied as foliar spray, soil drench and seed treatment to Aphis gossypii Glover (Aphididae: Homoptera). 4757

Diptera larvae in soil treated with organic and mineral fertilizers. (I). Family Asilidae-Diptera-Brachycera. 5541

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia. 6174

Phytophthora infestans sporangial germination and tuber rot reduced by soil residues of fungicides. 7773

SOIL-BORNE PESTS

Observations on soil exhaustion by Rosaceae. 2832

SOIL-BORNE PLANT DISEASES

Arsenal for disease control. 2115

Mechanisms of biological control of soil-borne pathogens. 2708

Pests and diseases of cultivated plants. 3372

Why is the disinfection treatment of corn seeds absolutely necessary. 4030

Pessimism over crop diseases. 4679

Needed: A miracle method for soil borne disease control. 4695

Arsenal for disease control. 5864

The behavior of potato mop-top virus in soil, and evidence for its transmission by Spongospora subterranea (Wallr.) Lagerh. 5979

Serological differentiation of Pythium aphanidermatum from Phytophthora parasitica var. nicotianae and Ph. parasitica. 6021

Sources of tolerance to soil-borne oat mosaic virus from the World Oat Collection. 6602

The effects of some soil-borne fungi on the sex ratio of Heterodera rostochiensis on tomato. 7786

SOIL-PLANT-ANIMAL RELATIONS

Effects of isobenzan on soil fauna and soil structure. 2404

SOILS

Controlling soil insects with parathion-pentachlorophenol compositions. Patent 3,408,442. 78

68th annual report of the Bureau of Sugar Experiment Stations. 191

How to produce high yields. 194

Defoliation in Vietnam. 214

Coralloid root systems in plants showing lime induced chlorosis. 234

Control of lettuce leaf drop by soil drenching with fungicides. 253

Problems of fungicidal efficiency. 255

Aphelenchoides bicaudatus, a parasite of cultivated mushroom. 299

Chemical weed control. 301

Sagebrush reinvasion as affected by some environmental influences. 312

Monitoring for chlorinated hydrocarbon insecticide residues in soybeans- 1966. 471

Factors influencing the selectivity of herbicides. 500

Effect of soil fertility on the distribution of plant communities as shown by pot cultures and field trials. 539

Molybdenum in soils and its availability to plants. 1164

The toxicity of biuret to plants as depending on soil conditions. 1166

The soybean cyst nematode threat. 1621

Thin-layer chromatography of bromacil residues in soils. 2401

Use of carbon to reduce uptake of insecticidal soil residues by crop plants. Effects of carbon on insecticide adsorption and toxicity in soils. 2419

Effect of soil systemic insecticides on flavor and residue in coffee. 2423

Effects of lindane and carbaryl on insects, soil and plant nitrogen, and grain yield of rice. 2445

A study of pyrazon and its herbicidal residues in the soil. 3019

Effect of micronutrients on yield and their contents in wheat. 3373

Effect of paraquat on growth of Sclerotium rolfsii in liquid culture and soil. 3704

The response of Kentucky bluegrass to soil residues of preemergence herbicides. 3709

Some observations on ecological, physiological and biochemical aspects of weed control. 4776

Pesticides in soil. Monitoring for chlorinated hydrocarbon pesticides in soil and root crops in the Eastern States in 1965. 4886

A new race of Sphacelotheca reiliana in South Texas. 5933

Transmission of hoja blanca virus of rice. 5940

Suitability of several fungicides for treating soil infested with Phytophthora cactorum to prevent crown rot disease of apple trees. 6012

Transitory yellowing of rice in Taiwan. 6097

Studies on Botrytis cinerea in tomatoes. Effect of soil nitrogen level and of methods of deleafing upon the occurrence of B. cinerea under commercial conditions. 6118

Disulfoton as a systemic insecticide for control of adult white-fringed beetles on peanuts. 6153

Injury to Heterodera tabacum by high soil temperatures. 6299

Soil factors contributing to atrazine carryover. 7084

The effect of herbicide residue in the soil on the yield of winter wheat. 7123

Retention and vooatilization of lindane and DDT in presence of organic colloids isolated from soils and leonardite. 7129

Effects of fungicide drenches on established poinsettia plants. 7267

Phytophthora infestans sporangial germination and tuber rot reduced by soil residues of fungicides. 7773

SOLANUM CAROLINENSE

The importance of Solanum carolinense L. as a host of the pepper maggot, Zonosemata electa (Say) (Diptera: Tephritidae) in southwestern Ontario, 2574

SOLAR RADIATION

Some regularities in the zonal distribution of oribatoid mites. 5421

SOLENOPSIS SAEVISSIMA RICHTERI

Tolerances and exemptions from tolerances for pesticide chemicals in or on raw agricultrual commodities. Dodecachlorooctahydro-1,3,4-metheno-2th-cyclobuta (cd) pentalene. 4882

SOLIERELLA NITRARIA

Solierella nitraria sp. n. (Hym., Sphecidae). 3763

SOLPUGIDA

Scorpions, whip scorpions and wind scorpions of Florida. 5108

SOLUBILITY

In vitro antimicrobial activity of dimethylsulfoxide. 2886

The biochemistry of Vibrio cholerae: Part IV. Acid soluble nucleotide constituents. 4927

SOLUTES

Low temperature growth of type E Clostridium botulinum spores. 1. Effects of sodium chloride, sodium nitrite and pH. 2. Effects of solutes and incubation temperature. 7055

SOLVENTS

Absorbtion and degradation of zineb. 3068

SOMATIIDAE

The genus Somatia Schiner, II. (Diptera: Somatiidae). 708

SOMATINA HOMBERGI

A new Somatina of the Congo. (Lepidoptera Geometridae). 4393

SORBIC ACID

Sorbic acid as an inhibitor of the Fusarinm vasinfectum fungus, which induces wilt in the cotton plant. 6030

SORGHUM
Sorghum on the move. 188
Tolerance and exemptions from tolerances for pesticide chemicals in or on raw agricultural commodities. O,Odiethyl S-2-(ethylthio) ethyl phosphorodithioate. 479
Downy mildew of sorghum in Georgia. 2182
Transmission of maize dwarf mosaic by the greenbug, Schizaphis graminum. 2214
Anthracnose disease of jowar (Sorghum vulgare Pers.) caused by Colletotrichum gramincolum (Ces.) Wils. in the Punjab. 3363
Effects of foliarly applied desiccants on selected species under tropical environment. 3679
Meiotic and morphological response of grain sorghum to atrazine, 2,4-D, oil, and their combinations. 3694
Evaluation of various bird-resistant and non-resistant varieties of grain sorghum for use in broiler diets. 4139
Influence on egg quantity and quality with sorghum grain diets supplemented with corn oil and/or furazolidone. (Abstract). 4223
Studies on Phyllosticta blight of rice. 4703
Sorghum - specialist advice. 5793
A new race of Sphacelotheca reiliana in South Texas. 5933
Field studies on the chemical control of the stem borer Chilo partellus on hybrid sorghum in India. 6143
Alternate hosts of the greenbug. 6170
Old pests with new appetites. 6215
Reaction of selected sorghum varieties and lines to downy mildew. 7270
A preliminary study on the effect of irradiation on grain smut of Jowar. 7797
In vitro feeding of Telotylenchus loofi on great millet (Sorghum vulgare) roots. 7849

SORGHUM HALEPENSE
Progress report on Johnsongrass control in orchards. 2256
Degradation of monosodium methanearsonic acid by soil microorganisms. 2461
Distribution and host range of maize dwarf mosaic virus in Virginia. 3998
The relationship of Johnson grass and other perennial hosts of maize dwarf mosaic virus to disease spread and control. 6108
Performance of sweetcorn under natural epiphytotic of maize dwarf mosaic virus. 7812

SOUND WAVES
Ultrasound to stop the moths settling. 265
A sound-activated method for recording insect activity. 4970
Unit-hair receptor activity from the telson of the scorpion, Heterometrus fulvipes. 5201
Experiments with the measurement of the intensity of the wing beat resonance of the mosquito, Culex pipiens. 7664

SOUR CHERRIES
Epidemiology and control of brown rot of sour cherries incited by Monilinia fructicola (Wint.) honey. 2711

SOYBEAN MEAL
Influence of dietary fat, soybean meal treatment and antibiotic supplementation on growth of chicks fed different carbohydrates. 4120
Effect of methionine on a growth depression induced by supplementing a corn-soybean meal diet with lysine. 4151
Cottonseed meal, lysine, and methionine for layers. (Abstract). 4219
Effect of a soluble fraction of oil seed meals on uptake of 65Zn from ca.mg.65Zn.phytate complexes by the chick'. 6690

SOYBEANS
Tempting the soybean's erratic appetite. 228
Monitoring for chlorinated hydrocarbon insecticide residues in soybeans- 1966. 471
Pipecolic acid as an indicator of abnormal protein metabolism in diseased plants. 978
Some effects of the southern green stinkbug on soybeans. 1558
The soybean cyst nematode threat. 1621
Domestic quarantine notices. Soybean cyst nematode. Regulated areas. 1626
Resistance to brown stem rot in soybeans. 2102
Survival of soybean cyst nematodes in seed bags. 2243
Notice of filing of petitions regarding pesticide chemicals and food additives. 2396
Selective action of chloroxuron on soybean and morningglory. 2448
Diseases of corn and soybeans in Rio Grande do Sul, Brazil in 1968. 2748
Fungus leaf spot in soybeans. 3353
Light filtration by foliar canopies: Significance for light-controlled weed seed germination. 3486
Soybean injury from triazine residues in soil. 3686
Boron nutrition of sugar beet, cotton, and soybean. 3699
Effect of prometryne on 14Co2 fixation in cotton and soybean. 3707
Persistance pattern for diuron and linuron in Norfolk and Duplin sandy loam soils. 3712
Survival of the soybean cyst nematode in seed stocks. 4049
Domestic quarantine notices. Soybean cyst nematode. Quarantine and regulations. 4764
Common soybean insects. 5405
Soya beans - specialist advice. 5777
TIBA fractures the soybean yield barrier. 5787
Preliminary investigations on the phenomenon of photoluminescense of seeds of soybean. 5816
Soya beans - practical aspects. 5830
The occurrence of coupea mosaic virus in the state of Sao Paulo. 5885
Bibliography of soybean diseases. 5888
Identification of soybean mosaic virus in Venezuela. 5907
Alfalfa hopper damages small soybean plants. 6151
Isolation of the organism causing yeast-spot disease from the salivary system of the green stink bug. 6176
Postemergence weed control in soybeans. 6378
Soil factors contributing to atrazine carryover. 7084
Enhancement by 2,4-dichlorophenoxyacetic acid of chromatin RNA polymerase in soybean hypocotyl tissue. 7278
The effect of microelements on the rate and percentage of germination with lucerne and soybean. 7279
1969 insecticide recommendations for alfalfa, clover and soybeans. 7569
Plant analyses uncover hidden hunger in Indiana. 7784
Effect of pesticides on chemical composition of soybean seed (Glycine max (L.) Merrill). 7965

SPARGANOSIS
Sparganosis in a cat. 2376

SPARROWS
New contributions to the subject 'birds and agriculture'. 6411
Control of sparrows on poultry farms. 6443
Transmission of classical Marek's disease by affected and carrier birds. 6666
Damage to the flowers of fruit trees by birds. 7857

SPARTINA ALTERNIFLORA
Population dynamics of the common horseflies and deerflies (Tabanidae: Diptera) breeding on a New Jersey salt marsh. 2037

SPASMS
A progressive spastic syndrome in cattle. 6481

SPECTINOMYCIN
Effect of spectinomycin on experimentally induced Arizona group infection in turkeys. (Abstract). 4265

SPECTROCHEMISTRY
(-)-pimaradiene: A new precursor of the gibberellins. 7337
Photodecomposition of the acaricide N'-(4-chloro-o-tolyl)-N,N-dimethylformamidine. 7354
3-hydroxy-6,7-dimethoxydifuroxanthone - a new metabolite from Aspergillus flavus. 7383
Degradation of the insecticide GS 13005 in the rat. Elucidation of the structure of the most important metabolites. 7341

SPECTROMETRY
Identification of gibberellins in crude plant extracts by combined gas chromatography-mass spectrometry. 534

The feasibility of mass spectrometric methods in residue analysis. 1185

Spectrometric identification of insect sex attractants. 1475

Isolation of the population aggregating pheromone of the southern pine bettle. 2033

Phenethyl alcohol and tryptophol: Autoantibiotics produced by the fungus Candida albicans. 3059

Structure of Klein's metabolites of aldrin and of dieldrin. 4926

SPECTROPHOTOMETRY
Collaborative study of the ultraviolet spectrophotometric determination of sulfoxide in formulations. 557

An analytical method for determining arsenic in biological material. 4900

Non replicating DNA in Drosophila. 7751

Spectrophotometric studies on the succinate oxidase system of Taenia hydatigena. 7933

Histochemical and spectrophotometric demonstration of peroxidase in Moniezia expansa (Cestoda). 7934

Screening methods for organochlorine and organophosphate insecticides in foods and feeds. 8012

SPECTROSCOPY
Extraction and estimation of polycyclic aromatic hydrocarbons in total diet composites. 1184

Infrared spectography of myxoviruses. 2291

The influence of varying dietary levels of magnesium, calcium and vitamin D on magnesium metabolism. 2341

Several factors affecting adsorption of atrazine and diphenamid by soils. 2386

Plant growth promoting metabolites of Sclerotinia sclerotiorum (II) The synthesis of sclerotinin B. 4673

The sexual difference in the silk worm cocoons relative to the optical properties. 2. Fluorescent spectro-characteristics of cocoons. 4973

Lindane: Metabolism to a new isomer of pentachlorocyclohexene. (abstract). 5551

Pesticide residues; history, alternatives and analysis. 7138

The differential interaction of aflatoxins B1,G1 and G2 with deoxyribonucleic acids from different sources. 7291

DDT - type compounds: Separation and identification by a system combining thin layer chromatography, gas chromatography, and infrared spectroscopy. 7323

SPELEOGNATHOPSIS GALLI
Respiratory mites of poultry in the territory of Papua New Guinea. 6909

SPERMATHECA
Histochemistry and ultrastructure of the feminine genital ducts of Gryllotalpa gryllotalpa L. 2016

SPERMATOCYTES
A virus-like structure in the desert locust. 2808

Lampbrush Y chromosomes in the course of spermatogenesis of Drosophila. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff. 3324

The non-random chromosome segregation in spermatocytes of Gryllotalpa hexadactyla. A micromanipulation analysis. 3896

Chromosome numbers of some central European Cerambycidae. II. 4648

Spermatocysts in Aedes aegypti (Linnaeus). 5397

Morphological variability of the chromosomal functional structures in the spermatocyte nuclei of Drosophila species. 7734

SPERMATOGENESIS
Histochemistry of spermatogenesis in the spider Lycosa chaperi. 818

The function of the lampbrush loops formed by the Y chromosome of Drosophila hydei in spermatocyte nuclei. 924

Karyotypes and nuclear size in the spermatogenesis of grasshoppers belonging to the subfamilies Gomphomastacinae, Chininae and Biroellinae (Orthoptera, Eumastacidae). 2096

Comparative analysis of spontaneous aneuploidy in males and females of Drosophila. 2682

Research on oogenesis, fertilization, egg segmentation, and spermatogenesis in Caloglyphus berlesei Michael 1903 and C. michaeli Oudemans 1924 (Acari, Acaridae). 3263

Lampbrush Y chromosomes in the course of spermatogenesis of Drosophila. In: Experimental Embryology to Molecular Biology. Edited by E. Wolff. 3324

Spermiogenesis in Aedes aegypti (L.). 4536

Spermatocysts in Aedes aegypti (Linnaeus). 5397

Spermiogenesis in wild type and in a male sterility mutant of Drosophila melanogaster. 5738

The comparative metabolism of ethylene dimethanesulphonate and ethylene dibromide. 6652

SPERMATOPHORES
The spermatophore of Tetrix Latreille (Orthoptera: Tetrigidae). 783

Spermatophores in arthrops and their evolution as far as insects are concerned. 3198

Juvenile sterility in male ticks of Orinthodoros tholozani. 5303

Experiments with an artificial spermatophore in cockchafer (Melolontha melolontha L.). 5431

The evolution and biological significance of multiple pairing in Lepidoptera. 5519

The formation of a rudimentary spermatophore by the red bollworm. 7586

SPERMATOZOA
The effects of sodium fluoride and iodoacetamide on mutation induction by X-irradiation in mature spermatozoa of Drosophila. 851

Spermatophores in arthrops and their evolution as far as insects are concerned. 3198

Process for detecting staphylococcienterotoxin in foodstuffs Patent 3,408,259. 3646

New observations on the transport of intranuclear microorganisms, called Phi particles, by the spermatozoids in homopterous insects. 4556

Spermtail finestructure of Echinococcus granulosus and Dicrocoelium dendriticum. 6978

SPHACELOMA
Lemon scab (Sphaceloma fawcettii scabiosa). 3394

SPHACELOMA FAWCETTI
A systemic fungicide effective against sour orange scab disease. 5957

SPHACELOTHECA REILIANA
A new race of Sphacelotheca reiliana in South Texas. 5933

SPHACELOTHECA SORGHI
A preliminary study on the effect of irradiation on grain smut of Jowar. 7797

SPHAERIOIDACEAE
Physiological studies on Phoma betae Frank and Rhizoctonia solani(Prill and Delacr.) Bourd and Galz which cause damping-off and root diseases of sugar beet in Egypt. 5867

SPHAEROCERIDAE
Diptera: Empididae, Acalyptratae families and Scatophagidae. 1260

On the subgenus Opacifrons Duda of the genus Leptocera Olivier (Diptera, Sphaeroceridae) with a description of a new species from northern Fennoscandia. 1879

A new genus of wingless N. American sphaerocerid flies. 5131

SPHAEROPSIS
Stability of taxonomic characters in cultures of Diplodia and related genera as influenced by various carbon sources. (Abstract). 4330

SPHAEROTHECA FULIGINEA
Resistance to benomyl in powdery mildew of cucurbits. 4003

SPHAERULARIIDAE
Heterotylenchus spp. parasitising the Australian bush fly: Additional information on the origin of the parasite of the face fly. 5375

SPHECIDAE
New Hoplisoides from the United States (Hymenoptera: Sphecidae). 598

Nesting biology of the social wasp Microstigmus comes (Hymenoptera, Sphecidae, Pemphredoninae). 844

The relative abundance of two digger wasps, Oxybelus bipunctatus and Tachysphex terminatus, and their associates, in a sand pit in central New York. 1426

Miscophus heliophilus sp. n. (Hym., Sphecidae). 2518

Solierella nitraria sp. n. (Hym., Sphecidae). 3763

Revision of the nominate subgenus Sceliphron Latreille (Hymenoptera, Sphecidae) (Studies on the Sceliphronini, part I). 4435

Biology of wasps of the tribe Cercerini, with a list of the Coleoptera used as prey. 4597

Contribution to the knowledge of Indo-Australian, South Pacific and East Asiatic Psenini genus Psen latreille (Hymenoptera, Sphecidae). 5092

Variation in Chlorion latreillei (Hymenoptera, Sphecidae). 5647

A fifth species of Nitela from North America (Hymenoptera: Sphecidae). 7492

The charcoal digger wasp, Isodonita pelopoeiformis. 7615

SPHECODOGASTRA TEXANA

Nest architecture and associated behavior of the nocturnal bee, Sphecodogastra texana (Hymenoptera: Halictidae). 643

SPHECOIDEA

Sphecoidea from the Ryukyus and Formosa (Hymenoptera). 3783

On some Sphecoidea from the Ryukyus (Hymenoptera). 5157

SPHENARCHES ANISODACTYLUS

Note on Sphenarches anisodactylus, Wkr. damaging bottle gourd (Lageneria lucantha, Rusby). 285

SPHINGIDAE

A new South American hawk moth Protoparce feronia sp. n. (Lep. Sphingidae). 644

Entomological tour of Spain. 653

The classification of Smerinthus. 1326

Some remarks concerning sphinx moths catches on the island of Sumatra. Supplementary information concerning the knowledge of sphinx moths (II) (Lep. Sphingidae). 1887

Lepidoptera collected in a light trap during the winter 1962/63 in Assiut, Egypt. 4413

Is one able to diagnose the sex of the moth, Celerio euphorbiae (Lep., Sphingidae) in the caterpillar stage . 5070

On the synonymy of Leucophlebia lineata brunnea Closs with remarks on some sphingids collected by Sauter in Formosa, now in the German Entomological Institute. (Lepidoptera: Sphingidae). 5136

The sphingid genus Sphinx Linne (Lep., Sphingidae). 7486

The effect of chloride ions on moth skeletal muscle fibres. 7620

SPIDER VENOM

A new technique for the recovery of spider venom. 1259

Collagenolytic activity of snake and spider venoms. 2435

SPIDER WEBS

Various aspects of the biology of Agelena consociata Denis when bred in the laboratory. 7632

Predatory behavior of Argiope argentata (Fabricius). 7689

SPIDERS

Spiders and their insect prey from heads of ox-eye daisy, Chrysanthemum leucanthemum L., in southwestern Ontario. 582

The genus Ischnothyreus (Araneae, Oonopidae) in Central America and the West Indies. 605

Mysmena jobi n. sp., a Symphytognathide in middle Europe (Arachnida, Araneae, Symphytognathidae). 652

Two new species of crab spiders (Araneae: Thomisidae) from North Dakota. 700

Two new species of the genus Otiothops (Araneae, Palpimanidae) from the Virgin Islands. 1231

Attack behavior of diguetid spiders and the origin of prey wrapping in spiders. 1241

The life-cycle of the spider Phidippus loccineus (Salticidae) under laboratory conditions. 1393

Natural enemies of fall webworm (Hypanthria cunea Dr.) in North America. 1619

On some species of the genus Arctosa C. L. Koch and Tricca Simon (Araneae-Lycosidae). 1892

Collagenolytic activity of snake and spider venoms. 2435

Observations on the fluorescence and function of spiders' eyes. 2674

Studies on the insect fauna on Scotch broom Sarothamnus scoparius (L.) Wimmer. 3784

The Imbecillus and Rufus groups of the spider genus Philodromus in North America. (Araneida: Thomisidae). 5020

The spider genus Loxosceles in South America (Araneae, Scytodidae). 5042

Investigations concerning resistance to cold of Araneus cornutus (Araneidae). 5409

Notes on the Swedish species of the genus Centromerus F. Dahl. (Araneae, Linyphiidae). A faunistic report with ecological remarks. 5422

Karyological studies on the Indian spiders. VIII. Mitosis and meiosis in two species belonging to the family Gnaphosidae. 5478

The ingestion in wolf spiders. I. Capacity of gut of Lycosa pseudoannulata. 5493

Comparative notes on the species of the Holarctic genus Stemonyphantes Menge (Araneida, Linyphiidae). 7474

Hunting behavior of the Ctenizidae. 7580

Various aspects of the biology of Agelena consociata Denis when bred in the laboratory. 7632

Spider venoms: biochemical aspects. 7655

Predatory behavior of Argiope argentata (Fabricius). 7689

SPIKE DISEASE

A symptomless carrier of sandal spike disease. 6027

SPILONOTA OCELLANA

Biological notes on Spilonota ocellana Denis and Schiffermuller (Lepidoptera Tortricidae) in the foothill region of Friuli and preliminary indications on the factors adverse to its development. 1970

Integrated control of the fruit-tree leaf roller, Archips argyrospilus (Walker), and the eye-spotted bud moth, Spilonota ocellana (Denis and Schiffermuller). 4553

SPINACH

Automated analysis of organophosphorus insecticides by wet digestion-oxidation and colorimetric determination of the derived orthophosphate. 485

Collaborative study of the thin layer chromatographic method for carbaryl residues in apples and spinach. 486

SPINDLE TUBER

Potato spindle tuber virus: A plant virus with properties of a free nucleic acid. I. Assay, extraction, and concentration. II. Characterization and partial purification. 6051

SPINULANA

Spinulana, new genus of Mexican Deltocephalinae, and two new species of Spinulana. (Homoptera; Cicadellidae). 614

SPIRACLES

The regulation of breathing in insects. 128

Effects of fumigants on the spiracles and the possible role of neurohumor on the spiracular activity of Periplaneta americana (L.). 754

Spiracular gills. 1409

On the spiracles of the larvae of the suborder Myxophaga (Coleoptera). 1981

The structure of the spiracles of the cattle tick, Boophilus microplus. 1982

Structure and ecdysial process of the larval spiracles of the Scarabaeoidea, with special reference to those of Lepidoderma. 1983

SPIRAMYCIN

Experimental control Mycoplasma meleagridis in turkeys by the temperature differential dipping of eggs in tylosin and spiramycin. (Abstract). 4118

Investigation of the residues of two antibiotics of the macrolide family (oleandomycin and spiramycin) in the tissues of chickens receiving anibiotic feed supplements. 4301

SPIROCERCA LUPI

The development of the infective larva of the canine oesophageal tumour worm Spirocerca lupi in rabbits and its histopathclogy. 6926

SPIROCHAETA

The infrastructural morphology of Pillotina calotermitidis nov. gen., nov. sp., a Spirochaetales of the intestine of Calotermes praecox. 4513

SPIROSTREPTIDAE

Rondonema thapari n. sp. from the millipede (Spirostreptus sp.). 1958

SPISSISTILUS FESTINUS

Alfalfa hopper damages small soybean plants. 6151

SPLEEN

Susceptibility of embryonic swine spleen and swine kidney cell lines to hog cholera virus. 385

Evaluation of the fluorescent antibody-cell culture tests for hog cholera diagnosis. 393

Adoptive transfer of immunity to Babesia rodhaini by spleen cells from immune rats. 1098

Splenitis in horses. 1110

Biochemistry of friend virus-infected cells. I. Virionspecific RNA. 2292

Cytochemical studies on the lesion of equine infectious anemia. VII. Especially on the enzyme histochemistry of RES (Reticulo-Endothelial System) in the liver and spleen. 2300

The occurrence of virus and interferon in the spleen serum and brain in mice after experimental infection with the West Nile virus. 3552

Localization of P32 labeled Mycobacterium tuberculosis in fowl organisms.
6636

On pyroplasmodias in sheep and goats. II. Research into anaplasmosis.
6686

Contribution to the traumatic splenitis and hepatitis in cattle.
6740

Identification of a piroplasme found with sufficient frequency in our cattle.
6790

Notes on the spontaneous pathology of the dog in the laboratory. 2nd note: Hematoma of the spleen.
6850

SPLENECTOMY
Eperythrozoon tuomii, sp. n. (Rickettsiales) third species of Eperythrozoon in cattle in Malagasy Republic.
2347

SPODOPTERA
Calcium alginate: A new approach in the artificial culturing of insects, applied to Spodoptera littoralis (Boisduval).
2620

SPODOPTERA EXIGUA
The study of the aerial migration of insects as applied to phyto-sanitary control.
5237

Meteorological aspects of insect migrations.
5379

SPONGES
Use of freshwater sponge in case construction of Limnephilus species (Trichoptera: Limnephilidae).
3810

SPONGOSPORA SUBTERRANEA
The behavior of potato mop-top virus in soil, and evidence for its transmission by Spongospora subterranea (Wallr.) Lagerh.
5979

SPORANGIA
Morphology and chemistry of the parasporal body of Bacillus fribourgensis.
5450

SPORANGIUM
Cytology of the sporangium of Phytophthora capsici.
2194

SPORE GERMINATION
Metabolism of glucomannan-protein during germination of bean rust spores.
1118

Nitrite-induced germination of Clostridium butyricum and Clostridium tyrobutyricum spores.
2889

Spore germination test and Vicia faba plant test for testing the effectiveness of fungicides against Botrytis cinerea.
3678

Morphology and mode of germination of conidia of Helminthosporium oryzae in relation to its taxonomy.
4657

Zoospore in Phytophthora parasitica var. sabdariffae.
4666

Growth, sporulation and germination of spores of Bacillus thuringiensis var. thuringiensis Berliner.
5293

Exudates of germinating spores of Bacillus thuringiensis.
5502

The developing ascospore wall of Hypoxylon fragiforme.
5794

Biology of Ascochyta species parasitic on pea plants.
6023

A preliminary study on the effect of irradiation on grain smut of Jowar.
7797

Studies of the development of powdery mildew (Erysiphe graminis f. sp. hordei Marchal) on barley. I. Conidia germination.
7800

SPORES
New facts concerning the extrusion of microsporidian spores.
122

Concurrent microscopical, cytochemical and electron microscopical study on the cell polarity of Equisetum spore mother cells in syndetic stage.
526

Fixation of carbon dioxide in the dark by the malic enzyme of bean and oat stem rust uredospores.
981

Survival of Fomes annosus spores in soil.
2148

Comparison of chloro and thiocyanato groups as fungal toxiphores in dinitrobenzenes.
2187

Structures and pesticidal activities of derivatives of dinitrophenols. XII. In vitro activity of C3 to C13 alphabranched alkyldinitrophenols and their esters and ethers against the spores of Venturia inaequalis and other fungi.
3400

Spore development in the brown rot fungi (Sclerotinia spp).
3423

The effect of temperature on ascospore release by Scleroderris lagerbergii.
3928

Spore dispersal by Scleroderris lagerbergii under nursery and plantation conditions.
4007

The rate of contamination in relation to the percentage of infection in the parasitic diseases of plants.
4029

Effect of mixed spore inocula of Botrytis ssp. on lesion development in the leaves of bean (Vicia faba L.).
4718

Insect pathogens and microbial control of insects in stored products. I. Test with Bacillus thuringiensis Berliner against moths.
4864

Comparisons of cells, refractile bodies, and spores off Bacillus popilliae.
5477

Electron microscopy of the development of the lining of the sporoblast in the coccidian Coelotropha durchoni.
5535

A modified soil percolator for zoospore production and infection in studies on zoosporic root pathogens.
5868

Mobilization factors in uredospores and bean leaves infected with bean rust fungus.
5908

The powdery mildews on the ornamental plants.
5982

Biology of Ascochyta species parasitic on pea plants.
6023

Note : Oospores of Sclerospora philippinensis Weston from corn leaf tissue.
6024

Microsporogenesis of the bird's-foot trefoil (Lotus corniculatus L.).
6329

Study of the transfer of amino acids from aminoacyl transfer ribonucleic acid into protein by ribosomes from uredospores of the bean rust fungus.
6879

The fine structure of the spores of Nosema apis.
7717

SPOROTRICHUM
Biological methods for determining the toxicity of grain in connection with its infestation with toxigenic microfungi.
7147

SPOROTRICHUM SCHENCKII
Laboratory examination of organic fungicides against zoopathogenic fungi in soil.
1170

SPOROZOA
Penetration and development of Eimeria maxima sporozoites and the static effect of decoquinate. (Abstract).
4128

SPORULATION
A sporulating strain of Bacillus popilliae.
886

Studies on the brown-eye-spot disease (Cercospora coffeicola Berk. et Cke.) of coffee (Coffea arabica L.). V. Nutritional requirements of the pathogen.
2186

Growth, sporulation and germination of spores of Bacillus thuringiensis var. thuringiensis Berliner.
5293

The effects of low temperature on the sporulation and survival of oocysts of Eimeria perforans, media, magna and irresidua.
6944

SPRAY VOLUME
Application of pesticides to tobacco seed-beds.
8016

SPRAYING
Controlling the Mexican bean beetle.
56

Application of beta-propiolactone on the rearing of the silkworm, Bombyx mori L.
167

An appraisal of high medium and low volume methods of spray application.
192

Application of insecticides to paddy water for more effective rice pest control.
205

Pests are endangering our cultivated plants.
211

Coffee berry disease.
226

Some facts about fungicides.
262

What happens when sprays are no longer needed for control of codling moth .
282

Chemical control of weeds in fields and in the open country.
302

New weed killers boost orchard conservation.
304

Sagebrush reinvasion as affected by some environmental influences.
312

New possibilities of weed control in chicory (Cichorium intybus).
317

A guide to chemical weed control in tropical and subtropical fruit and nut crops in Hawaii.
327

Effects of gibberellic acid on flower thinning and bloom delay of stone fruits.
517

For safer ULV spraying.
571

A rapid method of marking corn earworm moths with dyes for release studies.
803

The dispersion of the resettlement of Dendroctonus micans Kugel. on Picea orientalis Link, in the Borshom Gorge.
826

Tolerance of spruce budworm to malathion; Montana, New Mexico populations show no differences.
839

Low volume spraying by air to control mosquito larvae in California. 852

A contribution to the fight against the genuine carrot rust fly (Psila rosae FABR.) with liquid sprays and granular insecticides. 974

The alfalfa weevil likes our state . 1001

Fish deaths and plant protection preparations. 1136

Determination of sec-Butylamine residues in fruit. 1144

Retardation of flowering by auxin-gibberellin spray in Chrysanthemum morifolium. 1175

Some cost figures for concentrate sprays. 1199

In vivo activity of propolis against Bacillus larvae. 1430

Behavior of tobacco budworm larvae on flue-cured tobacco and possibilities of improving the effectiveness of insecticidal treatments applied mechanically for control. 1611

Will the use of 2,4,5-T to control streamside vegetation contaminate public water supplies . 1784

Increasing the yield of dried fruit from the Sultana with growth regulators. 1808

Inducing abscission of olive fruits by spraying with ascorbic acid and iodoacetic acid. 1816

Evaluation of spray deposits from low volume spray nozzles. 1844

Pre-bloom oil sprays for European red mite control. 1932

Baygon in field tests against German cockroaches. 1935

The control of some species of pest insects by Bacillus thuringiensis. 1953

Effects of simulated rain and dew on the toxicity of certain ultra-low-volume insecticidal spray formulations. 2020

A comparative study on urea sprays upon some deciduous fruit trees. 2100

Arsenal for disease control. 2115

Contribution to the application method for fungicides to control potato blight. 2128

Chemical control of scab on citrus in Florida. 2136

Effect of dimethyl sulfoxide on tobacco mosaic. 2165

Epidemiology and prevention of bacterial blight disease of rice in India. 2183

Evaluation of fungicides for use against Marasmius palmivorus on oil palms. 2191

Scientists attack corn borer. 2202

Chemical control of mango hoppers (Idiocerus spp.). 2211

Comparison of herbicides and times of spraying for the control of blackberry (Rubus fruticosus). 2258

Control of weeds in wheat crop by 2,4-D. 2260

Eradication efforts against tropical bont tick, Amblyomma variegatum in the Virgin Islands. 2354

Control of the northern fowl mite on laying hens with Shell SD-8447. 2358

Thin-layer chromatography of bromacil residues in soils. 2401

Effect on honey bees of dichlorvos and bromophos applied as sprays to white clover (Trifolium repens L.). 2440

Preliminary study on the effect of gibberellic acid on fruit set in the Cherimoya. 2452

Effect of 2,4-D and urea sprays on yield and fruit quality of Balady oranges. 2462

General considerations on the significance of predators and parasites in orchards. 2600

The influence of spray chemicals on predatory- and phytophagous mites on apple trees in laboratory- and field trials in the Netherlands. 2663

Integrated control of pests in orchards. 2693

Cylindrocladium scoparium on azalea in south Florida. 2728

Control of tobacco mosaic virus in tobacco. 2731

Spray warnings for the control of seasonal disease outbreaks in field crops under semi-arid conditions. 2772

Procedure for aerial spraying of serrated tussock. 3034

Attractants for the Japanese beetle. 3199

Relative efficacy of different insecticides, as contact poisons, to the adults of singhara beetle, Galerucella birmanica Jacoby, (Coleoptera: Chrysomellidae). 3301

Zectran and naled affect incidence of parasitism of the budworm Choristoneura occidentalis in Montana. 3315

Genetic plasticity of stored-product insects in relation to insecticides: Comparative susceptibility of confused and red flour beetles from various areas of California to malathion. 3337

Effect of micronutrients on yield and their contents in wheat. 3373

Potato blight control. 3386

Care of tobacco seedlings. 3388

White mould; methods of control explained. 3389

Effect of pre-harvest spray of sodium orthophenyl phenate and Captan on the control of decay in Anab-e-Shahi grapes (Vitis vinifera Linn.). 3393

Horticulture...Controlling orchard pests. 3433

Weed control in beets on humus rich soil. 3469

Studies on weed control in potato by pre-emergence treatment with 2,4-dichlorophenoxyacetic acid. 3484

The effects of an acute insecticide stress on a semi-enclosed grassland ecosystem. 3655

Factors influencing the toxicity of aqueous formulations of pyrethrum against an aphid, Macrosiphum Euphoribae (Thomas). (abstract). 3664

Malathion, methyl parathion, diazinon, and endosulfan residues in sunflower seeds. 3665

Meiotic and morphological response of grain sorghum to atrazine, 2,4-D, oil, and their combinations. 3694

Responses of lettuce (Lactuca sativa L.) to plant growth regulator sprays. 3708

Effect of foliar spray of hormones on the rhizosphere mycoflora of leguminous weeds. 3711

A laboratory sprayer-flamer. 3728

Tifton ultra-low-volume nozzle tip. 3729

Perennial canker and bull's eye rot of apples. 6007

Investigation of means for the chemical control of basal rot (Phytophthora capsici Leon.) of pepper. 6010

Khaira disease of rice and its control. 6028

Lemon scab (Sphaceloma fawcettii scabiosa). 6029

Effect and compatibility of nutrient sprays with insecticides and fungicides for groundnut (A. hypogea). 6063

Influence of pre- and post-harvest treatments on bitter pit of Granny Smith apples in the Goulburn Valley. 6104

New disease in European plums. 6129

Field studies on the chemical control of the stem borer Chilo partellus on hybrid sorghum in India. 6143

Factors affecting the appearance of holly oaks in Southern California. 6160

Hylemyia cilicrura Rond. on the Dianthus cultures of Pescia and Versilia. 6174

1969 tree fruit spray guide. 6183

Insect control in cotton. 6186

Insecticidal field treatments for the control of the European corn borer. Ostrinia nubilalis (Hubner) in Southwestern Quebec, 1967. 6193

Chemical control of codling moth with DDT and sevin, the resistance problem of codling moth to DDT and additional observations on the effect of fruit thinning of sevin. 6195

Yield reduction of oats caused by the cereal leaf beetle. 6222

Capsid bugs on fruit. 6225

New insecticides against pests of rape and beets. 6248

The red currant gall mite can be controlled by spraying. 6268

Cotton insect pest control. 6269

Lawn weed control with herbicides. 6310

Proclaimed noxious weeds in Victoria. 6312

Weeds that make a comeback. 6315

Weed and brush control for drainage ditches. 6320

Weed control in corn. 6333

Repeated spraying to control southwest Oregon brush species. 6338

Chemical growth inhibition in turf. 6349

Cultural and chemical weed control in field crops, 1969. 6365

Weed control in field crops, 1969. 6366

Broadleaf weed control in rice. 6370

Sprayable or subcutaneously adminstrable vaccine for the immunization of mustelines against distemper and process for its preparation. Patent 3,420,934. 6454

Cattle lice; how to control them. 6889

Protect stored grain from insect damage. 7033

Environmental pollution: Scientists go to court. 7072

Some observations on the effects of using organochlorine sprays in an orchard. 7098

An investigation of the content of the chlorinated hydrocarbon residues of the crustacean plankton in the Balaton. 7128

High praise for low volume insecticide spraying. 7136

Herbicide toxicity. 7155

Notes on precautions to be taken in the use of spray chemicals. 7159

Toxicity of DDT and related compounds to certain lepidopteran cotton insects. 7215

Conversion of 4-(2,4-dichlorophenoxy) butyric acid to homologs by alfalfa; mechanism of resistance to this herbicide. 7264

Effect of Bordeaux Mixture spray on fruit set in coffee (Coffea arabica L.). 7283

Formulation analysis: The effect of different storage treatments on the susceptibility, agglomeration and deterioration of surfactants of DDT water-dispersible powders. 7398

A sub-surface applicator for herbicides. 7399

Theoretical and practical aspects of room spraying. 7401

Log-normal spray drop distribution analyzed by two new computer programs. 7402

1969 insecticide recommendations for alfalfa, clover and soybeans. 7569

Whole town treatment for fruit fly control. 7702

Cuticula of leaves and the residue problem. 7966

SPRAYING EQUIPMENT
Pollination with the spray apparatus. 209
Concentrate spraying. 570
Control of Exoteleia dodecella L. 584
Caution with chemicals. 1138
Research note no.5: Pack sprayer for research plots. 1195
Mechanical means for weed control in rice fields. 3075
The South Cook County Mosquito Abatement District right hand drive in service. 3076
An automatic spraying apparatus for laboratory experiments. 3077
Alternating sprays cuts resistance. 3342
Pests and diseases of cultivated plants. 3372
Development of the chemical control of forest pests during the last ten years. 3427
A laboratory sprayer-flamer. 3728
Stretch your pest control dollars. 3922
The use of the pre-emergence herbicide Avadex and Avadex BW in the band spraying method. 4343
Applying insecticides to cotton crops. 4971
Insects and diseases of vegetables in the home garden. 6242
Weed control in field brassica crops. 6321
Spraying pastures. 6348
Chemical weed control in sweet potatoes. 6396
Oil deposit on grapefruit leaves with 3 types of spray equipment in relation to control of certain citrus pests. 7101
Operation and maintenance of power sprayers. 7388
Spray nozzles must be recalibrated at regular intervals. 7390
Application of herbicides and calibrating equipment. 7393
The microfoil boom. 7394
Performance of some lever-operated knapsack sprayers. 7395
Suggested techniques for assessing the durability of lever-operated knapsack sprayers. 7396
Air blast sprayer covers 24 rows. 7400
Log-normal spray drop distribution analyzed by two new computer programs. 7402
Disease and insect control; spray schedules for the control of pests in backyard fruits. 7761
Application of pesticides to tobacco seed-beds. 8016

SPRING DEAD SPOT
Disease control. 6138

SQUASH
Effect of infection by Hypomyces solani f. sp. Cucurbitae on apparent free space, cell membrane permeability, and respiration of squash hypocotyls. 1565
Local reaction and cross protection for strains of squash mosaic virus. 2131
Distribution of cucurbit viruses in Kansas. 2171
Purification and properties of broad bean wilt virus. 2189
Pectic and cellulolytic enzymes produced by Mycosphaerella citrullina and their relation to black rot of squash. 5903
Effects of dimethyl sulfoxide on the biological activity of selected miticides and insecticides. 7280

SQUIRRELS
Isolation of the tick-borne encephalitis virus from the squirrel Sciurus vulgaris. 4168
The olfactory bulb lesion in the hibenating squirrel (Citellus lateralis) infected with coxsackievirus B-3. I. Virus assay, light microscopic and immunofluorescent study. 6604
The olfactory bulb lesion in the hibernating squirrel (Citellus lateralis) infected with coxsackievirus B-3. II. Immunological study. 6816
The feeding habits of the yellow mongoose, Cynictis penicillata, the suricate, Suricata suricatta and the Cape ground squirrel, Xerus inauris. 1. Analysis of stomach contents 2. Observations on free-living and captive animals. 6886
Ectoparasites and helminth endoparasites of the tree squirrels of southwest Tennessee. 6982

ST. LOUIS ENCEPHALITIS
Culex nigripalpus: Seasonal shift in the bird-mammal feeding ratio in a mosquito vector of human encephalitis. 5753

STABLES
Insects and mites of livestock and in farm buildings. 3792
Disinfection in parasitoses. 4148

STAINING
Survey of decay and stain in sugar maple in the Maritimes. 957
Modifications of the Bodian technique applied to insect nerves. 5263
The preparation of Chironomidae specimens. II. 7425

STALK ROT
Minor predisposition to lodging and stalk rot of maize cultivated with minimum tillage (without hilling). 3410
Hybrid corn yield reduction by stalk and root rot in Nebraska. 4027
Corn lodging. I. Relations between soluble solids, inorganic phosphates and basal stalk and root rots in mature plants. 6066

STALK ROT (CORN)
Plain 1 and plains 2; new broomcorn varieties resistant to anthracnose stalk rot. 3378

STAND DENSITY
Phenomena in the infestation pattern of phytophagous insects. 1017
Red rot in residual ponderosa pine stands on the Navajo Indian Reservation. 4663

STAND INCREMENT ESTIMATES
Fertilization of semi-mature stands in Newfoundland. 4652

STAPHYLINIDAE
A revision of the termitophilous tribe Termitodiscini (Coleoptera: Staphylindae). Part I. The genus Termitodiscus Nasmann; its systematics, phylogeny, and behavior. 647
Revision of the termitophilous subfamily Trichopseniinae (Coleoptera, Staphylinidae). I. The genus Schizelythron Kemner. 648
New Steninae from the Soviet Union including comments on synonyms (Coleoptera, Staphylinidae). 53. Contribution to the knowledge of the Steninae. 688
Ecological notes on some Anthophagus species in Britain and northern Norway (Coleoptera, Staphylinidae). 774
Further investigations into the genus Meotica Mulsant and Rey (Col., Staphylinidae). 1213
Notes on the genus Placusa Erichson (Col., Staphylinidae), with a key to the Nordic species. 1270
Coleoptera from northeast Africa. Staphylinidae. (50. Contribution to the knowledge of the Steninae). 1315
Concerning Stenus-type Boheman, including notes on synonymies. Coleoptera, Staphylinidae. 1316
Some notes on the species authorization of Amischa sarsi Munst. and the sex characteristics of Amischa cavifrons Sharp (Col., Staphylinidae). 1331
Gyrophaena keeni Casey and G. orientalis A. Str. (Col., Staphylinidae). 1332
On a new Norwegian species of the genus Atheta Ths. (Col., Staphylinidae). 1334
Further contributions to the knowledge of the distribution and ecology of beetles in central south Norway. 1391
The genital organs of the northern species of the genus Aleochara Grav. (Col., Staphylinidae). 1482
On some Steninae from the Helsinki Zoological Museum (Coleoptera, Staphylinidae). (43. Contribution to the knowledge of the Steninae). 1904
Hymenoptera and nematodes as parasites of Tachyporus species (Col.; Staphylinidae) with special consideration of Centistes lucidator (Nees) (Hym.; Braconidae). 2223
The larval characteristics of some subfamilies of British Staphylinidae (Coleoptera) with keys to the known genera. 3111
Aleochara stichai Likovsky (Col., Staphylinidae) new to Britain. 4398
Hypocyphtus nitidus Palm (Col., Staphylinidae) in Oxforoshire: An addition to the British list. 4399
A new Schistoglossa specie from Sweden (Col. Staphylinidae, Aleocharinae). 4419
Stenus and Megalopinus Motschulsky genera and remarks on the subgenus Tesnus Rey, with a table of the Palearctic representatives (Coleoptera, Staphylinidae). (54. Contribution to the knowledge of the Stenus genus). 4423
The Micropeplidae and Staphylinidae (I. Steninae, Euaesthetinae and Oxyporinae),

Coleoptera of Pakistan with descriptions of a new tribe, genus and three species from Karachi. 4980
A new genus and new species of the Oxytelinae from Brazil (Coleoptera, Staphylinidae). 5060
Finnish discovery of Aleochara peeziana Lohse (Coleoptera, Staphylinidae). 5148
New Malagasy Evaesthetinae (Coleoptera, Stenidae). 7480
Zyrus from Tanzania (East Africa) with description of a new species. Material of the zoological collection of the Bavarian States, munich (Coleoptera Staphylinidae). 7495

STAPHYLOCOCCI
Process for detecting staphylococcienterotoxin in foodstuffs Patent 3,408,259. 3646
The route to control of mastitis. 6465
Gangrenous mastitis in ewes. II. Characteristics of the staphylococci, isolated from healthy ewes and from ewes affected with gangrenous mastitis. 6675

STAPHYLOCOCCIC INFECTIONS
Novobiocin for use in chicken and turkey feed. Drugs for veterinary use; drug efficacy study implementation. 7176

STAPHYLOCOCCUS
Considerations about some diseases of fowl transmittable to man: Aspergillosis, moniliasis, staphylococcosis. 355
A new type in experimental intraperitoneal infection of staphylococci in mice. 414
Immunofluorescent demonstration of staphylococal leucocidin components F and S. 1070
The gross and microscopic changes in sublethal staphylococcal alpha-toxin pancreatitis in dogs. 2276
Experiences with culture media for the selective microbiological analysis of meatproducts. 4869
An enzooty of strangles caused by virus A2 equi Miami 63 in the region of Lyon. 6656
An in vitro and in vivo study of the effect of DDT on the phagocytic activity of rat white blood cells. 7174
Observations on the incidence and histopathology of pneumonia of sheep and goats in India. 7911

STAPHYLOCOCCUS AUREUS
False-positive coagulase reactions in the characterization of microorganisms isolated from foods. 457
Inactivation of the phages of Staphylococcus aureus by hydroxylamine. 1642
Study on the incidence and etiology of mastitis in sows. 2302
Antimicrobial evaluation of 1-methyl-3-nitro-1-nitrosoguanidine. 2920
The pathogenesis of interdigital cyst. 2980
Investigations of the properties of capsulogenus strains of Staphylococcus aureus. 3596
Staphylococcal intoxication of young suckling whelps. 4840
The characteristics of Staphylococcus aureus isolated from cases of staphylococcosis in poultry. 6614
Some characteristics of Staphylococcus aureus isolated from the skin and upper respiratory tract of domesticated and wild (Feral) birds. 6615
Arthritis in chickens due to Staphylococcus aureus. 6680
Staphylococcus epizootic in western Oregon cottontails. 6712
Metabolic substances of Staphylococcus aureus of bovine udder origin - a quantitative study. 6739
Investigations concerning the microflora of isterband, a Swedish fermented type of sausage. 7062
Production of enterotoxin-B iñ cured meats. genigeorgis, c. 7063
Effect of DDT, dieldrin, heptachlor on the growth of selected bacteria. 7234

STARCHES
On the influence of effluent of the starch factory upon the Yubetsu River and the Shokotsu river, and of effluent of the best factory upon the benthic animals in the Abashiri River (Hokkaido). 4955
Report on experiments with varieties of medium early to late potatoes for human consumption and industrial use 1964-1966 (series 46). 5806

STARLINGS
Salmonella in the starling (Sturnus vulgaris). 6771

STARVATION
Resistance capacity of ticks against starvation under laboratory conditions. 140
Swine mastitis-metritis agalactia syndrome. 369
Ecology of virus diseases of insects. 899
Growth and resistance to stress in brook trout fed sublethal levels of DDT. 3040
Changes in hemolymph total solids and blood volume of the greater wax moth, Galleria mellonella, during the course of starvation. 3280
Sex differences in longevity of starved cockroaches (Leucophaea maderae). 3290
Biological effects of starvation on the garden symphylan. 3306
The conjugated plasma proteins in adult females of Periplaneta americana (L.) under starvation and other stress. 3788
The influence of feed and water restriction and pitressin administration upon thyroxine secretion in domestic fowl. 4100
Action of ecdysone on the larvae of Drosophila melanogaster subjected to starvation. The existence of two pre-requisites for the formation of the puparium. 4491
The effect of predator age on the functional response of Podisus maculiventris to the prey size of Galleria mellonella. 5485
Effect of starvation on the scorpion Palamnaeus bengalensis. 5612

STATISTICAL ANALYSIS
A model of the plant-to-plant movement of aphids. I. Description of the model. 153
A statistical study of the taxonomy of Cassidinae (Col. Chrys.). (Abstract). 706
Some elementary statistics for the entomologist. VI. The analysis of variance. 773
An analysis of the waggle dance and recruitment in honey bees. 906
Repair of dominant lethal damage induced by X-rays in immature oocytes of Drosophila melanogaster. 930
The analysis of response in crop and livestock production. 942
An automated repellency assay system. I. Statistical methods. 1416
Life history and life table of Phytoseiulus persimilis Athias-Heriot. 1428
Joint analysis of experiments with common treatments. 1550
Some effects of the southern green stinkbug on soybeans. 1558
Fatty liver and kidney disease in broiler chickens receiving diets with varying contents of protein. 1654
An automated repellency-assay system. II. A new electronic bitometer-timer.. 1861
Rainbow's end: The quest for an optimal taxonomy. 1885
Population assessment of cotton bollworm in relation to pest control practices. 1974
Investigation into a conditional host modification by the ichneumonid fly Perithous divinator (Rossi) (Hym., Ichneum.). 1984
The relative abundance of species in a wild population of Macro-Lepidoptera. 1985
Flight and ground collection records of Costelytra zealandica (White) at a site in Canterbury, New Zealand. 1996
On the food utilization and digestion of major food nutrients in the lepidoaterous larvae feeding on cauliflowers. 2009
Consistency of Rst values of six organophosphorus pesticides resolved by thin-layer chromatography in the presence of plant extracts without elaborate clean-up. 2453
Laboratory investigations on the effect of insecticides on the larvae and adults of Coccinella septempunctata L. (Col., Coccinellidae). 2668
Gross bioenergetics of Blattella germanica. 2673
Residues of malathion on Indian rape seed (Brassica campestris 6. var. dichotoma Watt). 3020
Sex differences in longevity of starved cockroaches (Leucophaea maderae). 3290
The influence of advancing age on chiasma frequency in Phymateus cinctus Fab. (Acrididae). 3334
Reminiscence in the cold flour beetle (Tenebrio molitor). 3794
On the occurrence and seasonal dynamic of Diptera, Tachinidae in the reservation area of Jasov. 3808
Comparison of attenuated live Pasteurella multocida given in drinking water to an oil-base bacterin administered to turkeys. (Abstract). 4117

Spontaneous tumors in Holtzman-source rats of various ages.
4226

Abundance and microdistribution of larval Chironomidae in stabilization lagoons.
4432

Response of some stored-product insects to Trogoderma granarium pheromones.
4625

Study of the dependence of the population dynamic of the apple moth (Carpocapsa pomonella L.) on the fruit yield of the hostplant.
4755

A tidal rhythm in the susceptibility of Fundulus similis to sodium chloride and endrin.
4896

The phenetic relationships of the butterflies. I. Adult taxonomy and the nonspecificity hypothesis.
5026

Some new analytic and graphic approaches to numerical taxonomy, with an example from the Dermanyssidae (Acari).
5106

Continuous variation in related species of the genus Catocala (Noctuidae).
5180

Incidence of Bacillus popilliae (Dutky) in Costelytra zealandica (White) larva.
5406

Quantitative study of divergence in the morphological evolution of certain infraspecific entities in domestic honeybees (A. mellifera L.).
5448

Contributions to the study of the biometric characteristics of the silkworm as influenced by nutrition.
5589

On emergence times within the genus Polamorphylax Wallengren (Trichoptera, Linnephilidae).
5645

Utility value of different cultivated Mentha piperita varieties.
5788

Some aspects of Fusarium infection of wheat seeds.
6107

Design and analysis of forest-mammal repellent tests.
6404

Statistical analysis of blood serum composition, urine excretion levels and the occurrence of urolithiasis in sheep.
6687

Effects of the insecticide Sevin on survival and growth of the cockle clam Clinocardium nuttalli.
7094

Residues of dieldrin (HEOD) in the tissues of experimentally poisoned birds.
7130

Contribution to the knowledge of the variability of the species Lithobius lucifugus L. Koch, 1862 (Chilopoda).
7438

Numerical taxonomy of ecological characteristics and the niche concept.
7465

A method of selection of characters in numerical taxonomy.
7496

A statistical study on the systematics of the Cassidinae (Col., Chrys.).
7547

On the application of statistical methods in systematics.
7549

Studies on the transfer function of a cockroach mecanoreceptor.
7596

A method of measuring respiratory exchanges in the total insect.
7640

On a method of population estimation using capture-recapture data.
7649

The origin of heterogeneity in newly-hatched populations of the migrating grasshopper, Schistocerca gregaria Forsk. (gregarious phase).
7670

Application of the exponential and power functions to the study of allometric growth, with particular reference to doryline ants.
7672

Studies on the allosteric control of an enzyme involved in insect tanning.
7686

The B-chromosome system of Myrmeleotettix maculatus (Thunb.). III. The statistics.
7735

Heritability of spot-number in Scillonian strains of the meadow brown butterfly (Maniola jortina).
7741

Genus Candida Berkhout. IX. Continuous cultivation of Candida albicans.
7803

Insecticides in human fat in New Zealand.
7959

Phenol metabolism in relation to disease resistance of potato tuber. II. Exponential equation relating levels of phenols or phenolic enzymes to distance from locus of injury of plant tissue.
7997

STATISTICAL METHODS
Computing a population budget from sequentially sacrificed, replicated cultures.
156

Statistical inestigations of the accuracy of gas-chromatographic residue analysis. (Sources of error of the GCstandards).
1193

Determination of an activity threshold with the help of statistical methods.
1799

Biological methods for the detection of pesticide residues.
3018

Illustrative scales for the evaluation of potato scab and Rhizoctonia infection.
4024

The possibility of estimating loose smut in a seed lot of barley with regard to the increase from one generation to the next.
5934

STATISTICS
A quantitative study on the ovarian function of the lepidopterous pyralid Galleria mellonella L. by means of the graft technique.
1353

1968 U.S. rice production statistics.
2099

Organization and methods of censusing birds and harmful rodents.
3499

Report on forest research for the year ended March 1968.
5845

STEAM
Investigations into the source of bacterial contamination of pork. II. In steaming.
7054

Effect of direct steam heating and vacuum treatment on levels of pesticide residues in milk.
7119

STEGOBIUM PANICEUM
Insect pests in food stores.
3642

STELLARIA MEDIA
Common chickweed.
3480

The effectiveness of the newer herbicides for the control of weeds in cultivated plants with special attention to weeds which are difficult to control. In: Collection of reports given at the International Herbicide Conference, Prague, June 21-24, 1966.
4081

STEM BLEEDING
Diseases and pests of coconut in Kerala.
5814

STEM END ROT
Controlling stem-end rot of ripe mango.
6035

STEM PITTING
Stem pitting of Italian prune.
2124

Stem pitting in Prunus spp. other than peach.
2154

Some observations and comments on stem-pitting of peach, its control and a nursery improvement program.
5782

STEM ROT
Losses from fusarium stem rot caused by Fusarium roseum, in production of cuttings of carnation, Dianthus caryophyllus.
3969

Stem rot of oil palms in the Federal Experiment Station, Serdang.
6026

STEM RUST
The effect of sowing dates on the reactions of six wheat strains to stem rust.
248

Fixation of carbon dioxide in the dark by the malic enzyme of bean and oat stem rust uredospores.
981

Genetic and cytogenetic studies of stem rust, leaf rust, and powdery mildew resistances in Hope and related wheat cultivars.
2151

The inheritance of resistance to stem and crown rust in Kyto oats.
2759

Status of American stem rusts of pine.
2777

Stem rust of wheat in Canterbury.
3953

Air-borne rust inoculum over western Canada in 1968.
3962

Field evaluation of some fungicides for control of leaf and stem rusts of wheat.
4006

Occurrence of Cronartium comptoniae in the Maritime Provinces.
4018

The influence of CCC on disease contraction of grain.
7322

STEM RUST (WHEAT)
Wheat and stem rust - specialist advice.
5958

STEMPHYLIUM
A flower blight of chrysanthemum in South Florida.
3955

STEMPHYLIUM SARCINAEFORME
Stemphone, a biologically active yellow pigment produced by Stemphylium sarcinaeforme (Cau.) Wiltshire.
1798

STEMS
Some observations and comments on stem-pitting of peach, its control and a nursery improvement program.
5782

STENOMESIUS CERAMIDIAE
A new Stenomesius (Hym., Eulophidae) reared from Ceramidia viridis in Ecuador.
1220

STEPHANIDAE
New genera and species of chalcid flies (Hym., Chalcidoidea) and a new species of Foenatopus Smith (Hym., Ichneumonidae, Stephanidae) from Hoggar.
4391

STEPHANOFILARIA ASSAMENSIS
Studies on the pathogenicity in stephanofilarial humpsore among cattle in India.
3618

STEREOCHEMISTRY
Absolute configuration of inokosterone, an insect-moulting substance from Achyranthes fauriei. 2658
Fat as a factor in the epimerization of chlortetracycline in feeds. 7353
The circular dichroism and the sterochemistry of a new fungal tetrahydrofuran. 1186

STEREOPALPUS ASIATICUS
A third species of Stereopalpus (Coleoptera: Anthicidae: Eurygeniinae) from China. 587

STEREUM PURPUREUM
Preliminary considerations on the study of resistance of fruit trees to silver-leaf disease. 5950
Watch for silver leaf. 6014

STEREUM SANGUINOLENTUM
Factors affecting infection of balsam fir (Abies balsamea) by Stereum sanguinolentum in Quebec. 5924
Studies on Stereum sanguinolentum in Kenya pine plantations. 5948

STERIGMATOCYSTINS
Aspertoxin, a hydroxy derivative of O-methylsterigmatocystin from aflatoxin-producing cultures of Aspergillus flavus. 3042

STERILE MALES
The use of sterile males to control populations of Queensland fruit fly, Dacus tryoni (Frogg.) (Diptera: Tephritidae). II. Field experiments in New South Wales. 2799
The use of sterile males to control populations of Queensland fruit-fly, Dacus tryoni (Frogg.) (Diptera: Tephritidae). I. Methods of mass-rearing, transporting, irradiating, and releasing sterile flies. 2813

STERILITY
What happens when sprays are no longer needed for control of codling moth . 282
A consideration of insecticide effects on hypothetical avian populations. 499
Investigation of the general occurrence of pathologic-anatomic changes in the ovaries of cattle- a new way in the fight against sterility. 1065
Pink bollworm versus the Sterile concept. 1417
A method of estimating the size of native populations of oriental, melon, and Mediterranean fruit flies, to establish the overflooding ratios required for sterile-male releases. 1480
Dispersal and local distribution of laboratory-reared sterile screw-worm flies released in winter. 1980
Competitive mating tests between normal and aspermic male house flies. 2035
Effects of apholate on the alfalfa weevil. 2053
Studies on the eradication of Anopheles pharoensis by the sterile-male technique using Cobalt-60. VII. Population dynamics of mosquitoes in Fayoum Area, UAR. 3143
Multiple mating of Glossina morsitans Westw. and its potential effect on the sterile male technique. 3179
Compounds affecting fertility of adult house flies. 3202
Transfer of chemosterilant by tepa-sterilized Mexican fruit flies. 3243
Population models for supression of the sugarcane borer by inherited partial sterility. 3303
Leptospirosis as a factor of abortion and sterility in female domesticated animals. 3550
Clover disease. 3598
Mexican fruit containment. 3879
Results of consecutive matings of female Anopheles gambiae species B with fertile and sterile males. 5242
Juvenile sterility in male ticks of Orinthodoros tholozani. 5303
Chemosterilization of the two-spotted spider mite. I. Effect of chemosterilants on the biology of the mite. II. Histopathological effect of apholate and 5-fluorouracil on the reproductive organs. 5390
House fly control by chemical sterilization with apholate. 5430
New strategy against the codling moth. 5520
Sterilizing effect of high temperature on the male silkworm, Bombyx mori L. (Lepidoptera: Bombycidae). 5634
Morphological divergences and sterility barriers in the Aedes mariae complex (Diptera, Culicidae). 5699
Spermiogenesis in wild type and in a male sterility mutant of Drosophila melanogaster. 5738
Unusual filamentous structures in the paragonia of male Drosophila. 5742
All we know about pink bollworms. 6271
Enzootic abortion and sterility from bovine leptospirosis in the Po valley. 6488
On the mineral content of the Swiss meadow fodder and its relationship to herd sterility. 6616
The influence of streptococci on the genitals and fertility of thoroughbred mares. 6804
Application of the gametocide FW-450 for producing male sterility in radish (Raphanus sativus V. Radicola D. C.). 7994

STERILIZATION
Sterilization makes the mosquito hungry. 513
Performance of the English grain aphid on sterilized and unsterilized artificial diet. 2059
On the sensitiveness of several wood-decaying fungi to gaseous sterilization with propylene oxide. 2449
Experiences with the house fly, sterilized by X rays. 2649
Apholate and gamma irradiation compared as sterilants for Culex pipiens quinquefasciatus Say (Diptera: Culicidae). 2691
In vitro degradation of DDT by intestinal contents of Atlantic salmon (Salmo salar). 7096

STERILIZATION (INSECTS)
A fruit pest is being sterilized. 272
Insects destroy themselves. 823

STERIPHODON ABDOMINALIS
Steriphodon abdominalis (PIC) Comb. Nov. (Coleoptera: Anthicidae: Eurygeniinae) from Bengal. 3086

STERIPHODON DONCASTERI
Steriphodon doncasteri, a new species of Eurygeniini, with a review of the Indian species of Steriphodon Abeille (Coleoptera: Anthicidae). 7426

STEROIDS
Absolute configuration of inokosterone, an insect-moulting substance from Achyranthes fauriei. 2658
Equine infectious anemia--The second time around . 2953
Drug residues, synergism and antagonism. 3017
Structure of lemmasterone, a novel C29 insect-moulting substance from Lemmaphyllum microphyllum. 3071
The anabolic steroids and their use in veterinary therapeutics. 4099
Steroid alkaloids as compounds produced by potato tubers under stress. 4323
Cultivation of the sapogenin-bearing Dioscorea species. 4664
Ecdysones and analogs: Effects on development and reproduction of insects. 5835
Effect of some pesticides on the adrenal glands in the rat. 6424
Improving egg quality in poultry by orally administering androgens. Patent 3,438,783. 6433

STEROLS
A demonstration through symbiotic microorganisms of the effect of sterol synthesis in artificially fed aphids (Homoptera, Rhynchota, Insecta). 1955
Sterols of the common house cricket, Acheta domesticus L. 2549
The sterol esters of maize seedlings. 3055
Studies on the sterols and sterol esters of the intracellular organelles of maize shoots. 3056
Variations in sterol and sterol esters during development of Dysdercus koenigii (Hemiptera). 3146
Nutrients derived from the fungus cultured by the fungusgrowing ant Atta columbia tonsipes. 3240
Nutritional requirements and artifical diets for the silkworm, Bombyx mori L. 4518
Feeding and nutrition of Lygus hesperus. III. Limited growth and development on a meridic diet. 4602
Utilization of larval cholestrol-4-C14 for reproduction in house flies fed unlabeled cholesterol in the adult diet. 5481
Desmosterol as a common intermediate in the conversion of a number of C28 and C29 plant sterols to cholesterol by the tobacco hornworm. 6835
Sterols in Ascaris lumbricoides. 7935

STERRA OCHRATA
New species for the Belgian fauna. 39

STETHORUS
Descriptions of two new species of the genus Stethorus Weise from Japan (Coleoptera: Coccinellidae).
666
A new species of Stethorus Weise (Coleoptera-Coccinellidae), feeding on arecanut palm mites in Kerala, southern India.
3109
Bionomics of Stethorus gilvifrons Mulsant (Coleoptera: Coccinellidae).
7650

STICTOCEPHALA BUBALUS
Polynema striaticorne Girault (Hymenoptera: Mymaridae), a parasite of the buffalo treehopper, Stictocephala bubalus (F.) (Homoptera: Membracidae), in Quebec.
5465

STILBUS
A new central European species of the genus Stilbus Seidlitz.
7460

STILPNOTIA SALICIS
A massive invasion of Stilpnotia salicis. (Lymantriidae).
46
Two strains of Bacillus thuringiensis Berliner isolated from larvae of disparate Bombyx Lymantria dispar.
4503

STIMULANTS
Rumen bacteria. Drugs for veterinary use; drug efficacy study implementation.
1082
Influence of changes in the cotton plant during the season on the feeding, oviposition, and development of the boll weevil.
1923
Principles of crowding effect in Aphis gossypii Glover (Aphididae, Homoptera).
1975
Feeding stimulants from plants for larvae of the tobacco budworm and bollworm.
2216
Insect olfaction: Deciphering system for chemical messages.
2650
Development of the bait principle for boll-weevil control. III. Field-cage tests with a feeding stimulant and the protozoans Mattesia grandis (Neogregarinida) and a microsporidian.
3245
Gibberellin delays ripening of tomatoes.
4906
The stimulation of 2,4-dinitrophenol-activated ATPASE by anions.
4976

STIMULI
On the ethometry of sign stimuli; the theory of the telotactic choice, and the power principle of the terminal cumulation in arthropods.
1990
The capacity of insects to learn and to evaluate visual stimuli.
7652

STINGING
Laelius utilis Cockerell (Hymenoptera: Bethylidae) stinging a child at London, Ontario.
4651

STINKING SMUT
Experiments on the control of cercal smuts with a derivative of 1,4-oxathiin.
5987

STOMACH
A method for counting bacterial cells in the midgut of the silkworm larvae, Bombyx mori L.
107
Bibionid larvae in the stomach of a deer.
4978
Flea Ctenophthalmus: Heterogeneous hexagonally organized layer in the midgut.
5558
A laboratory method for assessing the toxicity of stomach poisons to slugs.
6407

STOMATA
Directional growth of the urediospore germ tubes and stomatal penetration.
242

STOMOXYS CALCITRANS
Electrophysiological study of contact chemoreceptors in bloodsucking Diptera.
4624
Incorporation of tritiated thymidine into the ovarian DNA of stable flies: Effects of treatment with apholate.
5259
Simple, safe, effective fly control for dairy farms.
5301
Houseflies, blowflies and cluster flies.
6901

STORAGE
Some facts about fungicides.
262
Effect of warming cycles during storage on the behavior of Jonathan and Granny Smith apples in cool storages.
454
Excretion and storage of dieldrin in dairy cows fed thyroprotein and different levels of energy.
473
DDT storage in the U. S. population. (Abstract).
488
Survival of eggs of Eretmapodites chrysogaster Graham (Diptera: Culicidae).
813
Interactions between the grain beetles Sitophilus granarius (L.) (Curculionidae) and Ptinus tectus Boield. (Ptinidae).
914
On the microbiological quality of hen's eggs.
1135
The heat resistance of Salmonellae in egg albumen.
1777
Nitrogen supply system prevents contamination of chemicals.
1843
New developments in pesticide packaging.
1846
Survival of soybean cyst nematodes in seed bags.
2243
Potato tuber eelworm.
2249
Storage effects on forcing response and gibberellin levels in easter lilies.
3053
The absorption and storage of insecticide by an in utero larva of the tsetse fly Glossina pallidipes Aust.
3222
Stored fifty years virus sill active.
3365
Breakdown and weight loss in Red Jonathan apples in controlled atmosphere storage.
3639
Effect of storage on cottonseed and cottonseed products.
4283
The problem of the potato blackleg disease.
4697
Problems with scald inhibitors.
4863
Bacteriostatic properties of milk from tropical countries.
4868
Problems in monitoring DDT and its metabolites in the environment.
4889
Pesticides in people. Storage of DDT in the people of Israel.
4890
Effects of chemical preservatives and storage on constituents used to characterize lemon juice.
4940
The determination of the insecticidal activity of an 8 year old sample of DDT by biological method.
5509
Determining suitable wintering and hatching regimes of the eggs of the silk worm (Bombyx mori L.).
5687
Growing vegetables in South Dakota.
5832
It takes more than tender, loving care to prevent blackspot.
5870
Radiobiological damage: A new class identified in barley seeds stored after irradiation.
7022
Fumigate stored rice to reduce loss to insects.
7030
Protect stored grain from insect damage.
7033
New possibilities of pest control in mills and flour storages by DDVP chemicals.
7035
Control of rodents.
7043
Reduction in aflatoxin contamination of rice by milling procedures.
7200
Recovery from gamma radiation injury in barley seeds.
7256
Formulation analysis: The effect of different storage treatments on the susceptibility, agglomeration and deterioration of surfactants of DDT water-dispersible powders.
7398
Testing of fungicides and insecticides 1967.
7763
Thermodynamic state of the water in healthy or infected grains of wheat.
7801
Laboratory tests of five new insecticides as protectants for stored rough rice. (abstract).
7031

STORAGE DISEASES
Pests are endangering our cultivated plants.
211
How fungi infect stored grains.
261
Effect of warming cycles during storage on the behavior of Jonathan and Granny Smith apples in cool storages.
454
False-positive coagulase reactions in the characterization of microorganisms isolated from foods.
457
On the microbiological quality of hen's eggs.
1135
Influence of moisture content, temperature, and time of storage upon invasion of rough rice by storage fungi.
2380
A new simple method for protecting rice against rice weevil (Sitophilus oryzae).
2384
Effect of pre-harvest spray of sodium orthophenyl phenate and Captan on the control of decay in Anab-e-Shahi grapes (Vitis vinifera Linn.).
3393
Canonical correlations of seed viability, seed-borne fungi, and environment in bulk grain ecosystems.
3414
Chemical treatments for control of postharvest diseases.
3636
Damage to seeds through storage on chemically treated wood.
3637
Biosynthesis of an estrogenic metabolite by Fusarium graminearum. (Abstract).
3696
Effect of an iodophor on shelf life of poultry. (Abstract).
4238
Irradiation treatment on wiener sausage with gamma-ray.
4285

DPA for scald control. 4715

Potato early blight and storage rot. 5911

Sensitivity of stored melon fruit fungi to gamma irradiation. 7025

A new disease of potato tubers caused by Gilmaniella humicola Barron. 7029

Nitrogen increases bell pepper susceptibility to bacterial soft rot. 7309

The influence of CCC on disease contraction of grain. 7322

STORAGE INJURIES
Biphenyl residues in oranges; effect of biphenyl dosage and pad placement. 1149

The physiology, inter-relationships and effects on the wood of fungi which attack birch and aspen pulpwood. 1567

What pesticide formulators say about packaging. 1848

Campaign against stored grain pests in villages of IADP District Ludhiana. 2382

Bulk wheat pests can be controlled by simple precautions. 4866

Protect stored grain from insect damage. 7033

STORED PRODUCT INSECTS
Response of some stored-product insects to Trogoderma granarium pheromones. 4625

Protect stored grain from insect damage. 7033

Stored grain insects as carrier of fungi. 7034

Utilization of an artificial food for the testing of food insecticides. 7955

STORED PRODUCTS
How fungi infect stored grains. 261

The effect of molds on the enzymic acivity, respiration and viability of stored grain. 2381

Changes in the arthropod fauna of an experimental bulk of stored wheat. 3640

Saw-toothed grain beetle. 3641

Insect pests in food stores. 3642

Laboratory evaluation of malathion as a protectant for stored walnuts. 3666

Insect pathogens and microbial control of insects in stored products. I. Test with Bacillus thuringiensis Berliner against moths. 4864

Susceptibility of different stored-products moth larvae to Bacillus thuringiensis. 4867

Division of Entomology Annual Report, 1966-67. 4968

Control of household insects. 5593

Relative susceptibility of stored-product insects to insecticides. 5631

1969 insect control guide for Colorado. I. Cereal crops, field crops, forage crops, stored grain. 6182

The importance of relative humidity in the storage of cereals. 7028

Saving stored rice from attacks of insect pests. 7037

Biological methods for determining the toxicity of grain in connection with its infestation with toxigenic microfungi. 7147

STRANGALIA
New Mexican and Central American species of Strangalia Audinet-Serville (Coleoptera: Cerambycidae). 2480

STRANGLES (HORSES)
An enzooty of strangles caused by virus A2 equi Miami 63 in the region of Lyon. 6656

STRATIOMYIDAE
The genus Inopus (0Metoponia, Altermetoponia) (Diptera: Stratiomyiade). 1302

Contribution to the knowledge of Brazilian species of the genus Euryneura Schiner, 1867 (Diptera, Stratiomyidae). 2493

Study on Chrysochlora amethystina (Fabricius, 1805) and its relationship with Brazilian species of the genus Chrysochlorina James, 1939 (Diptera, Stratiomyidae). 3106

A preliminary review of the Argentine genera and species of Stratiomyidae (Diptera). Part 2. Pachygasterinae. 3107

STRAW
The recovery of Gibberella zeae from wheat straws. 2716

Saprophytic survival of Ophiobolus graminis on various hosts. 5889

STRAWBERRIES
Automated analysis of organophosphorus insecticides by wet digestion-oxidation and colorimetric determination of the derived orthophosphate. 485

Chemical weed control in strawberry plantations. 1637
